MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATION

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto elsewhere herein and the Company's September 30, 2005 annual report on Form 10-K.

The Company is a real estate investment trust (REIT). The Company's primary business is the ownership and management of industrial buildings subject to long-term leases to investment grade tenants. The Company owns forty-one industrial properties and one shopping center with a total of approximately 4,478,000 square feet. Total real estate investments were \$210,997,024 at December 31, 2005. These properties are located in New Jersey, New York, Pennsylvania, North Carolina, Mississippi, Massachusetts, Kansas, Iowa, Missouri, Illinois, Michigan, Nebraska, Florida, Virginia, Ohio, Connecticut, Wisconsin, Maryland, Arizona, Colorado, South Carolina, Georgia, Alabama and Ohio. As of December 31, 2005, the Company's weighted average lease expiration term was 5.6 years, the percent of square footage leased was 95% and the Company's occupancy rate was 83%. Total acquisitions of real estate made during the first quarter of 2006 were \$21,781,950. Management intends to grow the real estate portfolio and expects to invest approximately \$30,000,000 in fiscal 2006 in acquisitions of real property.

The Company has a concentration of Federal Express Corporation and subsidiary (FDX) leased properties. As of December 31, 2005, the percentage of FDX leased square footage as a total of the Company's rental space is 37%, with 14% leased to FDX and 23% leased to FDX subsidiaries. Annualized rental income and occupancy charges from FDX and FDX subsidiaries is approximately 45% of total rental and occupancy charges. This is a risk factor that shareholders should consider.

The Company also holds a portfolio of securities of other REITs of \$13,651,976 at December 31, 2005. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread and when suitable acquisitions of real property cannot be found. As of December 31, 2005, the Company's portfolio consisted of 78% preferred stocks, 19% common stocks and 3% debentures. The REIT securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found.

The Company's revenue primarily consists of rental and occupancy charges from the ownership of industrial rental property. Revenue also includes interest and dividend income and gain on securities transactions. Prior years also included income from an equity investment which was dissolved in fiscal 2005. Net income decreased \$674,814 for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The decrease

in net income is due mainly to a decrease in gain on securities transactions, net of \$482,555, a

decrease in interest and dividend income of \$105,667, a decrease in income from equity investment of \$27,500 and an increase in expenses (including interest) of \$647,031. The decrease in net income was partially offset by an increase in rental and occupancy revenue of \$587,939.

See PART I, Item 1 Business in the Company's September 30, 2005 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

CHANGES IN RESULTS OF OPERATIONS

As of December 31, 2005, the Company owned forty-two properties with total square footage of approximately 4,478,000 compared to thirty-seven properties with square footage of approximately 4,155,000 as of December 31, 2004. The Company's weighted average lease expiration term was 5.6 years, the percent of square footage leased was 95% and the Company's occupancy rate was 83%. The Company made the following property acquisitions during the three months ended December 31, 2005:

Acquisition		Square Footage	Purchase Price	Tenant	Average	
Date	Location				Annual Rent	Lease Expiration
12/13/2005	Richfield, OH	79,485	\$8,600,000	FedEx Ground	\$644,646	10/31/2016
12/21/2005	Colorado Springs, CO	53,202	5,600,000	FedEx Ground	418,513	8/31/2015
12/29/2005	Tampa, FL	95,662	7,675,000	Federal Express	571,848	9/30/2017

Rental and occupancy charges increased \$587,939 or 10% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The increase is due mainly to the rent and accrued tenant reimbursements related to the five industrial properties acquired during fiscal 2005.

Real estate taxes increased \$89,776 or 11% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. Operating expenses increased \$107,365 or 49% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The increases are due mainly to the taxes and insurance costs related to the properties acquired during fiscal 2005. Since these properties are subject to net-leases, the real estate taxes and insurance costs are billed to the tenant and which are included in rental and occupancy charges noted above. The increase is also due to the increase in amortization of the in-place lease intangible assets also related to the properties acquired during fiscal 2005.

Office and general expenses increased 141,677 or 34% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The increase is due mainly to increases in accounting and auditing fees and increases in stock record costs.

Depreciation expense increased \$139,749 or 13% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The increase is due to the depreciation expense related to the properties acquired during fiscal 2005.

Interest and dividend income decreased \$105,667 or 26% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The decrease is due mainly to the lower average balance of securities available for sale for the three months ended December 31, 2005 (approximately \$13,653,000) as compared to the three months ended December 31, 2004 (approximately \$20,953,000).

Gain on securities transactions, net decreased \$482,555 or 95% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The decrease is due mainly to the Company's decision to realize a substantial portion of the unrealized gain in the securities portfolio existing prior to December 31, 2004 and reinvest the proceeds in property acquisitions. Gain on securities transactions, net consisted of the following:

	Three months <u>12/31/05</u>	Three Months <u>12/31/04</u>
Net gain on sale of securities	\$-0-	\$500,748
Gain (loss) on settled futures contracts	73,678	(3,578)
Unrealized gain (loss) on open futures contracts	(50,625)	8,438
Gain on securities transactions, net	\$23,053	\$505,608

The decrease in the income from equity investment is due to the dissolution of the equity investment during fiscal 2005.

Interest expense increased \$157,776 or 9% for the three months ended December 31, 2005 as compared to the three months ended December 31, 2004. The increase is due to interest expense related to the mortgages on newly acquired properties and increased draws on the line of credit for the acquisitions of made during the first quarter.

CHANGES IN FINANCIAL CONDITION

The Company generated net cash from operating activities of \$3,350,472 for the three months ended December 31, 2005 as compared to \$2,423,124 for the three months ended December 31, 2004.

Real estate investments increased \$19,252,551 from September 30, 2005 to December 31, 2005. The increase is due mainly to the purchase of the industrial properties in Richfield, Ohio, Colorado Springs, Colorado, and Tampa, Florida, partially offset by depreciation for the three months ended December 31, 2005. Intangible assets, net increased \$1,346,007 due mainly to the recording of the in-place lease intangible value associated with the acquisitions noted above.

Cash and cash equivalents decreased \$3,339,487 from September 30, 2005 to December 31, 2005. The decrease is due mainly to the purchase of the industrial properties.

Securities available for sale decreased \$137,424 from September 30, 2005 to December 31, 2005. The decrease is due mainly to the decrease in the unrealized gain of \$317,958. This decrease was partially offset by purchases of \$157,481.

During the three months ended December 31, 2005, the Company invested in futures contracts of ten-year treasury notes with a notional amount of \$9,000,000, with the objective of reducing the exposure of the debt securities portfolio to market rate fluctuations. Changes in the market value of these derivatives have been recorded in gain on securities transactions, net with corresponding amounts recorded in other assets or other liabilities on the balance sheet. The fair value of the derivatives at December 31, 2005 was a liability of \$50,625. During December 2005, the Company realized a gain of \$73,678 on settled futures contracts.

Other assets decreased \$354,837 from September 30, 2005 to December 31, 2005. The decrease is due mainly to the closing of the purchase of the industrial properties and the transfer of the deposits and pre-acquisition costs to real estate investments.

Mortgage notes payable and loans payable increased \$7,880,824 and \$7,500,000, respectively, from September 30, 2005 to December 31, 2005. The increase in mortgages is due to the mortgages related to the Richfield, Ohio and Colorado Springs property acquisitions. The increase in loans payable is due to the Company drawing on its line of credit with PNC to make the Tampa, Florida property acquisition.

The Company raised \$2,983,330 from the issuance of shares in the DRIP during the three months ended December 31, 2005. Gross dividends paid for the three months ended December 31, 2005 was \$2,848,796, of which \$1,113,889 was reinvested in the DRIP. On January 11, 2006, the Company declared a dividend of \$.15 per share to be paid on March 15, 2006 to shareholders of record February 15, 2006.

LIQUIDITY AND CAPITAL RESOURCES

Net cash provided by operating activities was \$3,350,012 and \$2,423,124 for the three months ended December 31, 2005 and 2004, respectively. In addition, the Company owns unencumbered securities available for sale of \$13,651,976 at December 31, 2005. These marketable securities provide the Company with additional liquidity. At December 31, 2005, the Company owned forty-two properties of which thirty carried mortgage loans totaling \$119,849,342. The Company

has been raising capital through its DRIP and private placements and investing in net leased industrial properties. The Company believes that funds generated from operations, the DRIP, together with the ability to finance and refinance its properties will provide sufficient funds to adequately meet its obligations over the next several years.

The Company seeks to invest in well-located, modern buildings leased to credit worthy tenants on long-term leases. In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. With the purchase of the Richfield, Ohio, Colorado Springs, Colorado and Tampa, Florida properties in the first quarter, the percentage of FDX leased square footage as a total of the Company's rental space increased from 34% to 37%. Annualized rental income and occupancy charges from FDX and FDX subsidiaries is approximately 45% of total rental and occupancy charges. This is a risk factor that shareholders should consider. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

FUNDS FROM OPERATIONS

Funds from operations (FFO), is defined as net income, excluding gains or losses from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trusts (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three months ended December 31, 2005 and 2004 is calculated as follows:
