UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

---

FORM 10-Q

(Mark One)

X QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 001-12991

BANCORPSOUTH, INC.  
(Exact name of registrant as specified in its charter)

Mississippi  
(State or other jurisdiction of incorporation or organization)

64-0659571  
(I.R.S. Employer Identification No.)

One Mississippi Plaza, 201 South Spring  
Street Tupelo, Mississippi  
(Address of principal executive offices)

38804  
(Zip Code)

Registrant's telephone number, including area code: (662) 680-2000

NOT APPLICABLE

(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  Yes  No

Edgar Filing: BANCORPSOUTH INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check One): Large accelerated filer  Accelerated filer  Non-accelerated filer (Do not check if a smaller reporting company)  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of May 2, 2011, the registrant had outstanding 83,486,737 shares of common stock, par value \$2.50 per share.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Report may not be based on historical facts and are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may be identified by reference to a future period(s) or by the use of forward-looking terminology, such as “anticipate,” “assume,” “believe,” “estimate,” “expect,” “might,” “will,” “intend,” “indicated,” “could,” or “would,” or future or conditional verb tenses, and variations or negatives of these terms. These forward-looking statements include, without limitation, those relating to net interest revenue, estimates of fair value discount rates, fair values of held-to-maturity and available-for-sale securities, the amount of the Company’s non-performing loans and leases, credit quality, credit losses, liquidity, off-balance sheet commitments and arrangements, valuation of mortgage servicing rights, allowance and provision for credit losses, the Company’s ability to meet the challenges of the current economic cycle, continued weakness in the economic environment, early identification and resolution of credit issues, utilization of non-GAAP financial measures, the ability of the Company to collect all amounts due according to the contractual terms of loan agreements, goodwill, the Company’s reserve for losses from representation and warranty obligations, the Company’s foreclosure process related to mortgage loans, the impact of the Durbin Debit Interchange Amendment on the Company’s debit card revenue, the impact of the Federal Reserve’s new rules regarding overdraft payments on the Company’s service charge revenue, the resolution of non-performing loans that are collaterally dependent, real estate values, fully-indexed interest rates, interest rate risk, interest rate sensitivity, calculation of economic value of equity, concessions granted to borrowers experiencing financial difficulties, diversification of the Company’s revenue stream, liquidity needs and strategies, sources of funding, net interest margin, payment of dividends, the impact of federal and state regulatory requirements for capital on the Company’s ability to meet its cash obligations, the impact of pending litigation and the implementation and effect of remedial actions to address the material weakness in internal control over financial reporting. We caution you

not to place undue reliance on the forward-looking statements contained in this report, in that actual results could differ materially from those indicated in such forward-looking statements as a result of a variety of factors. These factors include, but are not limited to, conditions in the financial markets and economic conditions generally, the soundness of other financial institutions, the availability of capital on favorable terms if and when needed, liquidity risk, the credit risk associated with real estate construction, estimates of costs and values associated with acquisition and development loans in the Company's loan portfolio, the adequacy of the Company's allowance for credit losses to cover actual credit losses, governmental regulation and supervision of the Company's operations, the susceptibility of the Company's business to local economic conditions, the impact of recent legislation and regulations on service charges for core deposit accounts, changes in interest rates, the impact of monetary policies and economic factors on the Company's ability to attract deposits or make loans, volatility in capital and credit markets, the impact of hurricanes or other adverse weather events, risks in connection with completed or potential acquisitions, dilution caused by the Company's issuance of securities to raise capital or to acquire other banks, bank holding companies, financial holding companies and insurance agencies, restrictions on the Company's ability to declare and pay dividends, the Company's growth strategy, diversification in the types of financial services the Company offers, competition with other financial services companies, interruptions or breaches in security of the Company's information systems, the failure of certain third party vendors to perform, the Company's ability to improve its internal controls adequately, any requirement that the Company write down goodwill or other intangible assets, other factors generally understood to affect the financial results of financial services companies and other factors detailed from time to time in the Company's press releases and filings with the Securities and Exchange Commission. We undertake no obligation to update these forward-looking statements to reflect events or circumstances that occur after the date of this report.

**BANCORPSOUTH, INC. AND SUBSIDIARIES**  
**Notes to Consolidated Financial Statements**  
(Unaudited)

**NOTE 1 – BASIS OF FINANCIAL STATEMENT PRESENTATION AND PRINCIPLES OF CONSOLIDATION**

The accompanying unaudited interim consolidated financial statements of BancorpSouth, Inc. (the “Company”) have been prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and follow general practices within the industries in which the Company operates. For further information, refer to the audited consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010. In the opinion of management, all adjustments necessary for a fair presentation of the consolidated financial statements have been included and all such adjustments were of a normal, recurring nature. The results of operations for the three-month period ended March 31, 2011 are not necessarily indicative of the results to be expected for the full year. Certain 2010 amounts have been reclassified to conform with the 2011 presentation.

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, BancorpSouth Bank (the “Bank”) and Gumtree Wholesale Insurance Brokers, Inc., and the Bank’s wholly-owned subsidiaries, Century Credit Life Insurance Company, Personal Finance Corporation of Tennessee, BancorpSouth Insurance Services, Inc., BancorpSouth Investment Services, Inc. and BancorpSouth Municipal Development Corporation.

**NOTE 2 – LOANS AND LEASES**

The Company’s loan and lease portfolio is disaggregated into the following segments: commercial and industrial; real estate; credit card; and all other loans and leases. The real estate segment is further disaggregated into the following classes: consumer mortgage; home equity; agricultural; commercial and industrial-owner occupied; construction, acquisition and development; and commercial. A summary of gross loans and lease by segment and class as of the dates indicated follows:

	2011	March 31, 2010	December 31, 2010
	(In thousands)		
Commercial and industrial	\$ 1,497,380	\$ 1,515,404	\$ 1,505,471

\* The totals for Tennessee include the greater Memphis, Tennessee area, a portion of which is in northwest Mississippi.

The Company does not have any loan concentrations, other than those reflected in the preceding tables, which exceed 10% of total loans. A substantial portion of construction, acquisition and development loans are secured by real estate in markets in which the Company is located. These loans are often structured with interest reserves to fund interest costs during the construction and development period. Additionally, certain of these loans are structured with interest-only terms. A portion of the consumer mortgage and commercial real estate portfolios originated through the permanent financing of construction, acquisition and development loans. The prolonged economic downturn has negatively impacted many borrowers' and guarantors' ability to make payments under the terms of the loans as their liquidity has been depleted. Accordingly, the ultimate collectability of a substantial portion of these loans and the recovery of a substantial portion of the carrying amount of other real estate owned are susceptible to changes in real estate values in these areas. Continued economic distress could negatively impact additional borrowers' and guarantors' ability to repay their debt which will make more of the Company's loans collateral dependent. The following tables provide details regarding the aging of the Company's loan and lease portfolio, net of unearned income, by segment and class at March 31, 2011 and December 31, 2010:

Loans considered impaired under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 310, Receivables (“FASB ASC 310”) are loans for which, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The Company’s recorded investment in loans considered impaired at March 31, 2011 and December 31, 2010 was \$338.8 million and \$273.4 million, respectively. At March 31, 2011 and December 31, 2010, \$156.8 million and \$151.4 million, respectively, of those impaired loans had a valuation allowance of \$49.4 million and \$40.7 million, respectively. The remaining balance of impaired loans of \$182.0 million and \$122.0 million at March 31, 2011 and December 31, 2010, respectively, were carried at fair value, less estimated selling costs which approximated net realizable value. Therefore, such loans did not have an associated valuation allowance. Impaired loans that were characterized as troubled debt restructurings (“TDRs”) totaled \$81.6 million and \$63.7 million at March 31, 2011 and December 31, 2010, respectively.

Non-performing loans and leases (“NPLs”) consist of non-accrual loans and leases, loans and leases 90 days or more past due and still accruing, and loans and leases that have been restructured because of the borrower’s weakened financial condition. The following table presents information concerning NPLs as of the dates indicated:

	2011	March 31, 2010 (In thousands)	December 31, 2010
Non-accrual loans and leases	\$370,726	\$199,637	\$347,499
Loans and leases 90 days or more past due, still accruing	4,829	20,452	8,500
Restructured loans and leases still accruing	49,472	15,576	38,376
Total non-performing loans	\$425,027	\$235,665	\$394,375

The Bank's policy for all loan classifications provides that loans and leases are generally placed in non-accrual status if, in management's opinion, payment in full of principal or interest is not expected or payment of principal or interest is more than 90 days past due, unless the loan or lease is both well-secured and in the process of collection. At March 31, 2011, the Company's geographic NPL distribution was concentrated primarily in its Alabama, Missouri and Tennessee markets, including the greater Memphis, Tennessee area, a portion of which is in northwest Mississippi. The following table presents the Company's nonaccrual loans and leases by segment and class as of the dates indicated:

	2011	March 31, 2010 (In thousands)	December 31, 2010
Commercial and industrial	\$14,655	\$6,306	\$13,075
Real estate			
Consumer mortgages	58,748	24,047	46,496
Home equity	1,543	761	811
Agricultural	7,597	3,047	7,589
Commercial and industrial-owner occupied	24,638	15,083	20,338
Construction, acquisition and development	202,124	116,191	199,072
Commercial	58,945	30,094	57,766
Credit cards	617	1,072	720
All other	1,859	3,034	1,632
Total	\$370,726	\$199,635	\$347,499

In the normal course of business, management grants concessions, which would not otherwise be considered, to borrowers that are experiencing financial difficulty. Loans identified as meeting the criteria set out in FASB ASC 310 are identified as TDRs. The concessions granted most frequently for TDRs involve reductions or delays in required payments of principal and interest for a specified period, the rescheduling of payments in accordance with a bankruptcy plan or the charge-off of a portion of the loan. In most cases, the conditions of the credit also warrant nonaccrual status, even after the restructure occurs. As part of the credit approval process, the restructured loans are evaluated for adequate collateral protection in determining the appropriate accrual status at the time of restructure. TDR loans may be returned to accrual status if there has been at least a six-month period of sustained repayment performance by the borrower. During the first three months of 2011, the most common concessions that were granted involved rescheduling payments of principal and interest over a longer amortization period, granting a period of reduced principal payment or interest only payment for a limited time period, or the rescheduling of payments in accordance with a bankruptcy plan.

NOTE 3 – ALLOWANCE FOR CREDIT LOSSES

The following tables summarize the changes in the allowance for credit losses by segment and class for the periods indicated:

Writedowns	(4,936 )	(2,090 )	(10,432 )
Balance at end of period	\$136,412	\$59,269	\$133,412

The following table presents the other real estate owned by geographical location, segment and class at March 31, 2011:

	Alabama and Florida Panhandle	Arkansas	Mississippi	Missouri	Tennessee*	Texas and Louisiana	Other	Total
	(In thousands)							
Commercial and industrial	\$195	\$18	\$ -	\$-	\$ -	\$190	\$-	\$403
Real estate								
Consumer mortgages	4,736	1,082	4,009	837	5,458	1,001	2,529	19,652
Home equity	20	-	-	-	816	-	-	836
Agricultural	949	87	990	-	1,166	-	-	3,192
Commercial and industrial-owner occupied	2,333	93	1,623	79	3,943	203	292	8,566
Construction, acquisition and development	12,909	2,166	24,111	3,914	50,178	125	619	94,022
Commercial	4,431	1,677	78	451	2,364	-	-	9,001
All other	172	44	330	194	-	-	-	740
Total	\$25,745	\$5,167	\$31,141	\$5,475	\$63,925	\$1,519	\$3,440	\$136,412

\* The totals for Tennessee include the greater Memphis, Tennessee area, a portion of which is in northwest Mississippi.

Of the \$63.9 million of other real estate owned located in the Tennessee market, 83.5% was located in the greater Memphis area.

The Company incurred total foreclosed property expenses of \$7.1 million and \$3.5 million for the three months ended March 31, 2011 and 2010, respectively. Realized net losses on dispositions and holding losses on valuations of these properties, a component of total foreclosed property expenses, were \$5.4 million and \$2.7 million for the three months ended March 31, 2011 and 2010, respectively.

#### NOTE 5 – SECURITIES

A comparison of amortized cost and estimated fair values of held-to-maturity securities as of March 31, 2011 and December 31, 2010 follows:

	Amortized Cost	March 31, 2011		Estimated Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
U.S. Government agencies	\$1,278,185	\$23,433	\$5,781	\$1,295,837
Obligations of states and political subdivisions	389,018	7,110	2,713	393,415
Total	\$1,667,203	\$30,543	\$8,494	\$1,689,252

December 31, 2010

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In thousands)			
U.S. Government agencies	\$1,246,649	\$27,082	\$4,320	\$1,269,411
Obligations of states and political subdivisions	366,370	4,286	7,376	363,280
<b>Total</b>	<b>\$1,613,019</b>	<b>\$31,368</b>	<b>\$11,696</b>	<b>\$1,632,691</b>

Gross gains of approximately \$16,000 and no gross losses were recognized on held-to-maturity securities during the first three months of 2011, while gross gains of approximately \$15,000 and no gross losses were recognized during the first three months of 2010. These gains and losses were a result of held-to-maturity securities being called prior to maturity.

The amortized cost and estimated fair value of held-to-maturity securities at March 31, 2011 by contractual maturity are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	March 31, 2011	
	Amortized Cost	Estimated Fair Value
	(In thousands)	
Maturing in one year or less	\$180,984	\$183,865
Maturing after one year through five years	1,118,375	1,129,069
Maturing after five years through ten years	132,242	138,384
Maturing after ten years	235,602	237,934
Total	\$1,667,203	\$1,689,252

A comparison of amortized cost and estimated fair values of available-for-sale securities as of March 31, 2011 and December 31, 2010 follows:

	March 31, 2011			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In thousands)			
U.S. Government agencies	\$444,784	\$14,979	\$-	\$459,763
Government agency issued residential mortgage-backed securities	529,008	5,445	5,151	529,302
Government agency issued commercial mortgage-backed securities	30,463	695	220	30,938
Obligations of states and political subdivisions	110,161	1,847	628	111,380
Other	13,396	684	-	14,080
Total	\$1,127,812	\$23,650	\$5,999	\$1,145,463

	December 31, 2010			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In thousands)			
U.S. Government agencies	\$416,005	\$17,153	\$-	\$433,158
Government agency issued residential mortgage-backed securities	498,874	5,954	1,599	503,229
Government agency issued commercial mortgage-backed securities	29,582	676	264	29,994
Obligations of states and political subdivisions	110,946	965	1,746	110,165
Other	18,943	573	-	19,516
Total	\$1,074,350	\$25,321	\$3,609	\$1,096,062

Gross gains of approximately \$1,000 and no gross losses were recognized on available-for-sale securities during the first three months of 2011, while gross gains of \$1.96 million and gross losses of approximately \$676,000 were recognized during the first three months of 2010.

The amortized cost and estimated fair value of available-for-sale securities at March 31, 2011 by contractual maturity are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Equity securities are considered as maturing after ten years.

	March 31, 2011	
	Amortized Cost	Estimated Fair Value
	(In thousands)	
Maturing in one year or less	\$186,308	\$190,725
Maturing after one year through five years	434,196	442,223
Maturing after five years through ten years	268,334	269,523
Maturing after ten years	238,974	242,992
<b>Total</b>	<b>\$1,127,812</b>	<b>\$1,145,463</b>

The following table summarizes information pertaining to temporarily impaired held-to-maturity and available-for-sale securities with continuous unrealized loss positions at March 31, 2011:

	Continuous Unrealized Loss Position					
	Less Than 12 Months		12 Months or Longer			
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	(In thousands)	
Held-to-maturity securities:						
U.S. Government agencies	\$490,654	\$(5,781 )	\$-	\$-	\$490,654	\$(5,781 )
Obligations of states and political subdivisions	95,657	(2,590 )	2,043	(123 )	97,700	(2,713 )
<b>Total</b>	<b>\$586,311</b>	<b>\$(8,371 )</b>	<b>\$2,043</b>	<b>\$(123 )</b>	<b>\$588,354</b>	<b>\$(8,494 )</b>
Available-for-sale securities:						
U.S. Government agencies	\$-	\$-	\$-	\$-	\$-	\$-
Government agency issued residential mortgage-backed securities	291,239	(5,151 )	-	-	291,239	(5,151 )
Government agency issued commercial mortgage-backed securities	5,284	(134 )	3,979	(86 )	9,263	(220 )
Obligations of states and political subdivisions	17,911	(511 )	813	(117 )	18,724	(628 )
Other	-	-	-	-	-	-
<b>Total</b>	<b>\$314,434</b>	<b>\$(5,796 )</b>	<b>\$4,792</b>	<b>\$(203 )</b>	<b>\$319,226</b>	<b>\$(5,999 )</b>

Based upon a review of the credit quality of these securities, and considering that the issuers were in compliance with the terms of the securities, management had no intent to sell these securities, and it was more likely than not that the Company would not be required to sell the securities prior to recovery of costs. Therefore, the impairments related to these securities were determined to be temporary. No other-than-temporary impairment was recorded during 2011 on held-to-maturity and available-for-sale securities.

NOTE 6 – PER SHARE DATA

The computation of basic earnings per share (“EPS”) is based on the weighted average number of shares of common stock outstanding. The computation of diluted earnings per share is based on the weighted average number of shares of common stock outstanding plus the shares resulting from the assumed exercise of all outstanding share-based awards using the treasury stock method. Because of the net loss attributable to common shareholders for the three months ended March 31, 2011, no potentially dilutive shares were included in the loss per share calculations as including such shares would have been antidilutive. Weighted-average antidilutive stock options for 3.0 million and 2.7 million shares of Company common stock with a weighted average exercise price of

\$20.77 and \$22.34 per share for the three months ended March 31, 2011 and 2010, respectively, were excluded from diluted shares. Antidilutive other equity awards of approximately 57,000 shares of Company common stock for the three months ended March 31, 2011 were also excluded from diluted shares. There were no antidilutive other equity awards for the three months ended March 31, 2010. The following table provides a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the periods shown:

	Three months ended March 31,					
	2011		2010			
	Income	Shares	Per Share	Income	Shares	Per Share
	(Numerator)	(Denominator)	Amount	(Numerator)	(Denominator)	Amount
(In thousands, except per share amounts)						
<b>Basic EPS</b>						
Income (loss) available to common						
shareholders	\$(494 )	83,449	\$(0.01 )	\$8,396	83,369	\$0.10
Effect of dilutive share-based awards	-	-		-	171	
<b>Diluted EPS</b>						
Income (loss) available to common						
shareholders plus assumed exercise of all outstanding share-based awards	\$(494 )	83,449	\$(0.01 )	\$8,396	83,540	\$0.10

**NOTE 7 – COMPREHENSIVE INCOME**

The following table presents the components of other comprehensive income and the related tax effects allocated to each component for the periods indicated:

	Three months ended March 31,					
	2011		2010			
	Before tax amount	Tax (expense) benefit	Net of tax amount	Before tax amount	Tax (expense) benefit	Net of tax amount
(In thousands)						
Net unrealized gains on available-for-sale securities:						
Unrealized losses arising during holding period	\$(4,044 )	\$1,537	\$(2,507 )	\$(4,255 )	\$1,627	\$(2,628 )
Less: Reclassification adjustment for net gains realized in net income	(17 )	7	(10 )	-	-	-
Recognized employee benefit plan net periodic benefit cost	633	(242 )	391	634	(242 )	392
Other comprehensive income (loss)	\$(3,428 )	\$1,302	\$(2,126 )	\$(3,621 )	\$1,385	\$(2,236 )

Net income (loss)	(494 )	8,396
Comprehensive income (loss)	\$(2,620 )	\$6,160

NOTE 8 – GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amounts of goodwill by operating segment for the three months ended March 31, 2011 were as follows:

	Community Banking	Insurance Agencies	Total
		(In thousands)	
Balance as of December 31, 2010	\$217,618	\$52,479	\$270,097
Goodwill recorded during the period	-	1,200	1,200
Balance as of March 31, 2011	\$217,618	\$53,679	\$271,297

The goodwill recorded in the insurance agency segment during the first three months of 2011 was related to an earn-out payment associated with an insurance agency acquired during the first quarter of 2008.

The Company's policy is to assess goodwill for impairment at the reporting segment level on an annual basis or sooner if an event occurs or circumstances change which indicate that the fair value of a reporting unit is below its carrying amount. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. Accounting standards require management to estimate the fair value of each reporting segment in assessing impairment at least annually. The Company's annual assessment date is during the Company's fourth quarter. No events occurred during the first quarter that would indicate the necessity of an earlier goodwill impairment assessment.

In the current environment, forecasting cash flows, credit losses and growth in addition to valuing the Company's assets with any degree of assurance is very difficult and subject to significant changes over very short periods of time. Management will continue to update its analysis as circumstances change. As market conditions continue to be volatile and unpredictable, impairment of goodwill related to the Company's reporting segments may be necessary in future periods.

The following tables present information regarding the components of the Company's identifiable intangible assets for the dates and periods indicated:

	As of March 31, 2011		As of December 31, 2010	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets:	(In thousands)			
Core deposit intangibles	\$ 27,801	\$ 19,983	\$ 27,801	\$ 19,716
Customer relationship intangibles	32,511	22,239	32,511	21,661
Non-solicitation intangibles	75	9	-	-
Total	\$ 60,387	\$ 42,231	\$ 60,312	\$ 41,377
Unamortized intangible assets:				
Trade names	\$ 688	\$ -	\$ 688	\$ -

	Three months ended March 31,	
	2011	2010

Total	\$ 854	\$ 1,015
-------	--------	----------

The following table presents information regarding estimated amortization expense on the Company's amortizable identifiable intangible assets for the year ending December 31, 2011 and the succeeding four years:

22

---

	Core Deposit Intangibles	Customer Relationship Intangibles	Non- Solicitation Intangibles	Total
Estimated Amortization Expense:				
	(In thousands)			
For year ending December 31, 2011	\$1,016	\$ 2,223	\$38	\$3,277
For year ending December 31, 2012	946	1,905	37	2,888
For year ending December 31, 2013	582	1,632	-	2,214
For year ending December 31, 2014	526	1,398	-	1,924
For year ending December 31, 2015	157	1,136	-	1,293

## NOTE 9 – PENSION BENEFITS

The following table presents the components of net periodic benefit costs for the periods indicated:

	Three months ended March 31,	
	2011	2010
	(In thousands)	
Service cost	\$2,082	\$1,803
Interest cost	2,028	1,907
Expected return on assets	(3,713 )	(3,487 )
Amortization of unrecognized transition amount	5	5
Recognized prior service cost	50	85
Recognized net loss	578	544
Net periodic benefit costs	\$1,030	\$857

## NOTE 10 – RECENT PRONOUNCEMENTS

In January 2010, the FASB issued an accounting standards update (“ASU”) regarding fair value measurements and disclosures. This ASU revises two disclosure requirements concerning fair value measurements and clarifies two others. The ASU requires expanded disclosures related to significant transfers in and out of Level 1 and Level 2 fair value measurement and the reasons for the transfers, as well as the clarifications of existing disclosures and was effective for interim or annual reporting periods beginning after December 15, 2009. The new disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements are effective for interim or annual reporting periods beginning after December 15, 2010. This ASU impacts disclosures only and is included in Note 14 below. The new ASU will not have an impact on the financial position or results of operations of the Company.

In July 2010, the FASB issued a new accounting standard regarding disclosures about the credit quality of financing receivables and the allowance for credit losses. This new accounting standard amends existing accounting literature regarding disclosures about the credit quality of financing receivables and the allowance for credit losses to provide additional information to assist financial statement users in assessing an entity’s credit risk exposures and evaluating the adequacy of its allowance for credit losses. This new accounting standard is effective for fiscal years and interim reporting periods ending on or after December 15, 2010. This new accounting standard regarding disclosures about the credit quality of financing receivables and the allowance for credit losses impacts disclosures only and is included in Notes 2 and 3 above. The new accounting standard will not have an impact on the financial position or results of

operations of the Company.

In April 2011, the FASB issued an ASU regarding a creditor's determination of whether a restructuring should be considered a TDR. This ASU provides additional guidance related to determining whether a creditor has granted a concession, including factors and examples for creditors to consider in evaluating whether a restructuring results in a delay in payment that is insignificant. The ASU also prohibits creditors from using the borrower's effective rate test to evaluate whether a concession has been granted to the borrower and adds factors for creditors to use in determining whether a borrower is experiencing financial difficulties. The ASU ends the deferral of activity-based disclosures about TDRs that are part of the new credit-quality disclosure requirements. The ASU is

effective for interim and annual periods beginning on or after June 15, 2011. The Company is currently assessing the impact of the adoption of this ASU on the financial position and results of operations of the Company.

#### NOTE 11 - SEGMENT REPORTING

The Company is a financial holding company with subsidiaries engaged in the business of banking and activities closely related to banking. The Company determines reportable segments based upon the services offered, the significance of those services to the Company's financial condition and operating results and management's regular review of the operating results of those services. The Company's primary segment is Community Banking, which includes providing a full range of deposit products, commercial loans and consumer loans. The Company has also designated two additional reportable segments -- Insurance Agencies and General Corporate and Other. The Company's insurance agencies serve as agents in the sale of title insurance, commercial lines of insurance and full lines of property and casualty, life, health and employee benefits products and services. The General Corporate and Other operating segment includes leasing, mortgage lending, trust services, credit card activities, investment services and other activities not allocated to the Community Banking or Insurance Agencies operating segments.

Results of operations and selected financial information by operating segment for the three-month periods ended March 31, 2011 and 2010 were as follows:

	Community Banking	Insurance Agencies	General Corporate and Other	Total
	(In thousands)			
<b>Three months ended March 31, 2011:</b>				
<b>Results of Operations</b>				
Net interest revenue	\$ 102,663	\$ 94	\$ 6,680	\$ 109,437
Provision for credit losses	53,241	-	238	53,479
Net interest revenue after provision for credit losses	49,422	94	6,442	55,958
Noninterest revenue	27,991	22,538	17,782	68,311
Noninterest expense	82,710	18,060	29,240	130,010
Income (loss) before income taxes	(5,297 )	4,572	(5,016 )	(5,741 )
Income tax expense (benefit)	(3,926 )	1,822	(3,143 )	(5,247 )
Net income (loss)	\$(1,371 )	\$ 2,750	\$(1,873 )	\$(494 )
<b>Selected Financial Information</b>				
Total assets at end of period	\$ 10,636,472	\$ 164,488	\$ 2,746,278	\$ 13,547,238
Depreciation and amortization	6,273	975	1,082	8,330
<b>Three months ended March 31, 2010:</b>				
<b>Results of Operations</b>				
Net interest revenue	\$ 104,406	\$ 148	\$ 7,328	\$ 111,882
Provision for credit losses	41,948	-	1,571	43,519
Net interest revenue after provision for credit losses	62,458	148	5,757	68,363
Noninterest revenue	27,508	21,735	14,089	63,332
Noninterest expense	80,271	17,403	22,809	120,483
Income (loss) before income taxes	9,695	4,480	(2,963 )	11,212
Income tax expense (benefit)	2,435	1,782	(1,401 )	2,816
Net income (loss)	\$ 7,260	\$ 2,698	\$(1,562 )	\$ 8,396
<b>Selected Financial Information</b>				
Total assets at end of period	\$ 10,774,812	\$ 181,635	\$ 2,273,743	\$ 13,230,190

Depreciation and amortization	6,956	1,060	545	8,561
-------------------------------	-------	-------	-----	-------

The decrease in performance of the Community Banking operating segment for the three months ended March 31, 2011 was primarily related to the increase in the provision for credit losses.

## NOTE 12 – MORTGAGE SERVICING RIGHTS

Mortgage servicing rights (“MSRs”), which are recognized as a separate asset on the date the corresponding mortgage loan is sold, are recorded at fair value as determined at each accounting period end. An estimate of the fair value of the Company’s MSRs is determined utilizing assumptions about factors such as mortgage interest rates, discount rates, mortgage loan prepayment speeds, market trends and industry demand. Data and assumptions used in the fair value calculation related to MSRs as of the dates indicated were as follows:

	2011	March 31, 2010	December 31, 2010
	(Dollars in thousands)		
Unpaid principal balance	\$3,946,961	\$3,451,958	\$3,870,872
Weighted-average prepayment speed (CPR)	13.9	15.8	15.6
Discount rate (annual percentage)	10.3	10.3	10.3
Weighted-average coupon interest rate (percentage)	5.2	5.6	5.2
Weighted-average remaining maturity (months)	315.0	321.0	315.0
Weighted-average servicing fee (basis points)	28.3	28.9	28.4

Because the valuation is determined by using discounted cash flow models, the primary risk inherent in valuing the MSRs is the impact of fluctuating interest rates on the estimated life of the servicing revenue stream. The use of different estimates or assumptions could also produce different fair values. The Company does not hedge the change in fair value of MSRs and, therefore, the Company is susceptible to significant fluctuations in the fair value of its MSRs in changing interest rate environments.

The Company has only one class of mortgage servicing asset comprised of closed end loans for one-to-four family residences, secured by first liens. The following table presents the activity in this class for the periods indicated:

	2011	2010
	(In thousands)	
Fair value as of January 1	\$38,642	\$35,560
Additions:		
Origination of servicing assets	2,431	2,085
Changes in fair value:		
Due to payoffs/paydowns	(1,300 )	(1,302 )
Due to change in valuation inputs or assumptions used in the valuation model	2,540	8
Other changes in fair value	(7 )	(1 )
Fair value as of March 31	\$42,306	\$36,350

All of the changes to the fair value of the MSRs are recorded as part of mortgage lending noninterest revenue on the income statement. As part of mortgage lending noninterest revenue, the Company recorded contractual servicing fees of \$2.8 million and \$2.7 million and late and other ancillary fees of approximately \$321,000 and \$351,000 for the three months ended March 31, 2011 and 2010, respectively.

NOTE 13 – DERIVATIVE INSTRUMENTS

The derivatives held by the Company include commitments to fund fixed-rate mortgage loans to customers and forward commitments to sell individual fixed-rate mortgage loans. The Company's objective in obtaining the forward commitments is to mitigate the interest rate risk associated with the commitments to fund the fixed-rate mortgage loans. Both the commitments to fund fixed-rate mortgage loans and the forward commitments to sell individual fixed-rate mortgage loans are reported at fair value, with adjustments being recorded in current period earnings, and are not accounted for as hedges. At March 31, 2011, the notional amount of forward commitments to sell individual fixed-rate mortgage loans was \$97.0 million with a carrying value and fair value reflecting a loss of

approximately \$168,000. At March 31, 2010, the notional amount of forward commitments to sell individual fixed-rate mortgage loans was \$127.6 million with a carrying value and fair value reflecting a gain of approximately \$36,000. At March 31, 2011, the notional amount of commitments to fund individual fixed-rate mortgage loans was \$77.9 million with a carrying value and fair value reflecting a gain of approximately \$886,000. At March 31, 2010, the notional amount of commitments to fund individual fixed-rate mortgage loans was \$86.0 million with a carrying value and fair value reflecting a gain of approximately \$825,000.

The Company also enters into derivative financial instruments in the form of interest rate swaps to meet the financing, interest rate and equity risk management needs of its customers. Upon entering into these interest rate swaps to meet customer needs, the Company enters into offsetting positions to minimize interest rate and equity risk to the Company. These derivative financial instruments are reported at fair value with any resulting gain or loss recorded in current period earnings. These instruments and their offsetting positions are recorded in other assets and other liabilities on the consolidated balance sheets. As of March 31, 2011, the notional amount of customer related derivative financial instruments was \$508.0 million with an average maturity of 71 months, an average interest receive rate of 2.5% and an average interest pay rate of 6.0%.

#### NOTE 14 – FAIR VALUE DISCLOSURES

“Fair value” is defined by FASB ASC 820, Fair Value Measurements and Disclosure (“FASB ASC 820”), as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity’s assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The hierarchy is broken down into the following three levels, based on the reliability of inputs:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs for the asset or liability that reflect the reporting entity’s own assumptions about the assumptions that market participants would use in pricing the asset or liability.

#### Determination of Fair Value

The Company uses the valuation methodologies listed below to measure different financial instruments at fair value. An indication of the level in the fair value hierarchy in which each instrument is generally classified is included. Where appropriate, the description includes details of the valuation models, the key inputs to those models as well as any significant assumptions.

Available-for-sale securities. Available-for-sale securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities’ relationship to other benchmark quoted securities. The Company’s available-for-sale securities that are traded on an active exchange,

such as the New York Stock Exchange, are classified as Level 1. Available-for-sale securities valued using matrix pricing are classified as Level 2. Available-for-sale securities valued using matrix pricing that has been adjusted to compensate for the present value of expected cash flows, market liquidity, credit quality and volatility are classified as Level 3.

Mortgage servicing rights. The Company records MSR's at fair value on a recurring basis with subsequent remeasurement of MSR's based on change in fair value. An estimate of the fair value of the Company's MSR's is determined by utilizing assumptions about factors such as mortgage interest rates, discount rates, mortgage loan prepayment speeds, market trends and industry demand. All of the Company's MSR's are classified as Level 3.

Derivative instruments. The Company's derivative instruments consist of commitments to fund fixed-rate mortgage loans to customers and forward commitments to sell individual fixed-rate mortgage loans. Fair value of these derivative instruments is measured on a recurring basis using recent observable market prices. The Company also enters into interest rate swaps to meet the financing, interest rate and equity risk management needs of its customers. The fair value of these instruments is either an observable market price or a discounted cash flow valuation using the terms of swap agreements but substituting original interest rates with prevailing interest rates. The Company's interest rate swaps, commitments to fund fixed-rate mortgage loans to customers and forward commitments to sell individual fixed-rate mortgage loans are classified as Level 3.

Loans held for sale. Loans held for sale are carried at the lower of cost or estimated fair value and are subject to nonrecurring fair value adjustments. Estimated fair value is determined on the basis of existing commitments or the current market value of similar loans. All of the Company's loans held for sale are classified as Level 2.

Impaired loans. Loans considered impaired under FASB ASC 310 are loans for which, based on current information and events, it is probable that the creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. Impaired loans are subject to nonrecurring fair value adjustments to reflect (1) partial write-downs that are based on the observable market price or current appraised value of the collateral, or (2) the full charge-off of the loan carrying value. All of the Company's impaired loans are classified as Level 3.

Other real estate owned. Other real estate owned ("OREO") is carried at the lower of cost or estimated fair value, less estimated selling costs and is subject to nonrecurring fair value adjustments. Estimated fair value is determined on the basis of independent appraisals and other relevant factors. All of the Company's OREO is classified as Level 3.

#### Assets and Liabilities Recorded at Fair Value on a Recurring Basis

The following tables present the balances of the assets and liabilities measured at fair value on a recurring basis as of March 31, 2011 and 2010:

## Fair Value of Financial Instruments

FASB ASC 825, Financial Instruments (“FASB ASC 825”), requires that the Company disclose estimated fair values for its financial instruments. Fair value estimates, methods and assumptions are set forth below for the Company's financial instruments.

**Held-to-maturity securities.** Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities.

**Loans and Leases.** Fair values are estimated for portfolios of loans and leases with similar financial characteristics. The fair value of loans and leases is calculated by discounting scheduled cash flows through the estimated maturity using rates the Company would currently offer customers based on the credit and interest rate risk inherent in the loan or lease. Assumptions regarding credit risk, cash flows and discount rates are judgmentally determined using available market and borrower information. Estimated maturity represents the expected average cash flow period, which in some instances is different than the stated maturity. This entrance price approach results in a calculated fair value that would be different than an exit or estimated actual sales price approach and such differences could be significant.

**Deposit Liabilities.** Under FASB ASC 825, the fair value of deposits with no stated maturity, such as noninterest bearing demand deposits, interest bearing demand deposits and savings, is equal to the amount payable on demand as of the reporting date. The fair value of certificates of deposit is based on the discounted value of contractual cash flows. The discount rate is estimated using the prevailing rates offered for deposits of similar maturities.

**Debt.** The carrying amounts for federal funds purchased and repurchase agreements approximate fair value because of their short-term maturity. The fair value of the Company's fixed-term Federal Home Loan Bank (“FHLB”) advances is based on the discounted value of contractual cash flows. The discount rate is estimated using the prevailing rates available for advances of similar maturities. The fair value of the Company's junior subordinated debt is based on market prices or dealer quotes.

**Lending Commitments.** The Company's lending commitments are negotiated at prevailing market rates and are relatively short-term in nature. As a matter of policy, the Company generally makes commitments for fixed-rate loans for relatively short periods of time. Therefore, the estimated value of the Company's lending commitments approximates the carrying amount and is immaterial to the financial statements.

The following table presents carrying and fair value information at March 31, 2011 and December 31, 2010:

	March 31, 2011		December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(In thousands)				
<b>Assets:</b>				
Cash and due from banks	\$146,989	\$146,989	\$99,916	\$99,916
Interest bearing deposits with other banks	102,312	102,312	172,170	172,170

Public relations	1,514	1,648
Data processing	2,301	1,470
Computer software	1,848	1,704
Amortization of intangibles	854	1,015
Legal fees	2,586	1,328
Postage and shipping	1,297	1,360
Other miscellaneous expense	17,367	15,513
Total other noninterest expense	\$37,881	\$30,432

#### NOTE 16 – COMMITMENTS AND CONTINGENT LIABILITIES

The Company and its subsidiaries are engaged in lines of business that are heavily regulated and involve a large volume of financial transactions with numerous customers through offices in nine states. Although the Company and its subsidiaries have developed policies and procedures to minimize the impact of legal noncompliance and other disputes, litigation presents an ongoing risk.

On May 12, 2010, the Company and its Chief Executive Officer, President and Chief Financial Officer were named in a purported class-action lawsuit filed in the U.S. District Court for the Middle District of Tennessee on behalf of certain purchasers of the Company's common stock. On September 17, 2010, an Executive Vice President of the Company was added as a party to the lawsuit. The amended complaint alleges that the defendants issued materially false and misleading statements regarding the Company's business and financial results. The plaintiff seeks class certification, an unspecified amount of damages and awards of costs and attorneys' fees and such other equitable relief as the Court may deem just and proper. No class has been certified and, at this stage of the lawsuit, management cannot determine the probability of an unfavorable outcome to the Company. Although it is not possible to predict the ultimate resolution or financial liability with respect to this litigation, management is currently of the opinion that the outcome of this lawsuit will not have a material adverse effect on the Company's business, consolidated financial position or results of operations.

In November 2010, the Company was informed that the Atlanta Regional Office of the Securities and Exchange Commission had issued an Order of Investigation related to the Company's delay in filing its Annual Report on Form 10-K for year ended December 31, 2009 and related matters. The Company is cooperating fully with the SEC. No claims have been made by the SEC against the Company or against any individuals affiliated with the Company. At this time, it is not possible to predict when or how the investigation will be resolved or the cost or potential liabilities associated with this matter.

On May 18, 2010, the Bank was named as a defendant in a purported class action lawsuit filed by two Arkansas customers of the Bank in the U.S. District Court for the Northern District of Florida. The suit challenges the manner in which overdraft fees were charged and the policies related to posting order of debit card and ATM transactions. The suit also makes a claim under Arkansas' consumer protection statute. The case was transferred to pending multi-district litigation in the U.S. District Court for the Southern District of Florida. No class has been certified and, at this stage of the lawsuit, management of the Company cannot determine the probability of an unfavorable outcome to the Company. Although it is not possible to predict the ultimate resolution or financial liability with respect to this litigation, management is currently of the opinion that the outcome of this lawsuit will not have a material adverse effect on the Company's business, consolidated financial position or results of operations.

Otherwise, the Company and its subsidiaries are defendants in various lawsuits arising out of the normal course of business, including claims against entities to which the Company is a successor as a result of business combinations. In the opinion of management, the ultimate resolution of these lawsuits should not have a material adverse effect on the Company's business, consolidated financial position or results of operations. It is possible,

however, that future developments could result in an unfavorable ultimate outcome for or resolution of any one or more of the lawsuits in which the Company or its subsidiaries are defendants, which may be material to the Company's results of operations for a particular quarterly reporting period. Litigation is inherently uncertain, and management of the Company cannot make assurances that the Company will prevail in any of these actions, nor can it reasonably estimate the amount of damages that the Company might incur.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### OVERVIEW

BancorpSouth, Inc. (the "Company") is a regional financial holding company headquartered in Tupelo, Mississippi with \$13.5 billion in assets at March 31, 2011. BancorpSouth Bank (the "Bank"), the Company's wholly-owned banking subsidiary, has commercial banking operations in Mississippi, Tennessee, Alabama, Arkansas, Texas, Louisiana, Florida and Missouri. The Bank's insurance agency subsidiary also operates an office in Illinois. The Bank and its consumer finance, credit insurance, insurance agency and brokerage subsidiaries provide commercial banking, leasing, mortgage origination and servicing, insurance, brokerage and trust services to corporate customers, local governments, individuals and other financial institutions through an extensive network of branches and offices. Management's discussion and analysis provides a narrative discussion of the Company's financial condition and results of operations. For a complete understanding of the following discussion, you should refer to the unaudited consolidated financial statements for the three-month periods ended March 31, 2011 and 2010 and the notes to such financial statements found under "Part I, Item 1. Financial Statements" of this report. This discussion and analysis is based on reported financial information.

As a financial holding company, the financial condition and operating results of the Company are heavily influenced by economic trends nationally and in the specific markets in which the Company's subsidiaries provide financial services. Generally, during the past few years, the pressures of the national and regional economic cycle have created a difficult operating environment for the financial services industry. The Company is not immune to such pressures and the continuing economic downturn has had a negative impact on the Company and its customers in all of the markets that it serves. The impact was reflected in a decline in credit quality and increases in the Company's measures of non-performing loans and leases ("NPLs") and net charge-offs, compared to the first three months of 2010. While NPLs and net charge-offs have increased, management believes that the Company is well positioned with respect to overall credit quality and the strength of its allowance for credit losses to meet the challenges of the current economic cycle. Management believes, however, that continued weakness in the economic environment could adversely affect the strength of the credit quality of the Company's assets overall. Therefore, management is working to improve and enhance the Company's existing processes in order to focus on early identification and resolution of any credit issues. Most of the revenue of the Company is derived from the operation of its principal operating subsidiary, the Bank. The financial condition and operating results of the Bank are affected by the level and volatility of interest rates on loans, investment securities, deposits and other borrowed funds, and the impact of economic downturns on loan demand, collateral values and creditworthiness of existing borrowers. The financial services industry is highly competitive and heavily regulated. The Company's success depends on its ability to compete aggressively within its markets while maintaining sufficient asset quality and cost controls to generate net income.

On April 27, 2011, a series of powerful storms and tornadoes moved through the Southeast, resulting in unprecedented loss of life and property damage. Other than scattered power outages and minor wind damage, the operations of the Company were not impacted.

The information that follows is provided to enhance comparability of financial information between periods and to provide a better understanding of the Company's operations.

## SELECTED FINANCIAL QUARTERLY DATA

	Three months ended March 31,	
	2011	2010
	(Dollars in thousands, except per share data)	
<b>Earnings Summary:</b>		
Total interest revenue	\$ 138,828	\$ 148,658

Allowance for credit losses to non-performing assets ("NPAs")	35.33		64.04	
NPLs to net loans and leases	4.65		2.43	
NPAs to net loans and leases	6.09		3.04	

## Capital Adequacy:

Tier I capital	10.65	%	11.12	%
Total capital	11.92		12.38	
Tier I leverage capital	8.01		8.86	

NM=Not meaningful

In addition to financial ratios defined by accounting principles generally accepted in the United States (“U.S. GAAP”), the Company utilizes tangible shareholders’ equity and tangible asset measures when evaluating the performance of the Company. Tangible shareholders’ equity is defined by the Company as total shareholders’ equity less goodwill and identifiable intangible assets. Tangible assets are defined by the Company as total assets less goodwill and identifiable intangible assets. Management believes the ratio of tangible shareholders’ equity to tangible assets to be an important measure of financial strength of the Company. The following table reconciles tangible assets and tangible shareholders’ equity as presented above to U.S. GAAP financial measures as reflected in the Company’s unaudited consolidated financial statements:

	2011	March 31, (In thousands)	2010
<b>Tangible Assets:</b>			
Total assets		\$13,547,238	\$ 13,230,190
Less: Goodwill		271,297	270,097
Other identifiable intangible assets		18,844	22,517
<b>Total tangible assets</b>		<b>\$13,257,097</b>	<b>\$ 12,937,576</b>
<b>Tangible Shareholders' Equity</b>			
Total shareholders' equity		\$1,211,061	\$ 1,264,884
Less: Goodwill		271,297	270,097
Other identifiable intangible assets		18,844	22,517
<b>Total tangible shareholders' equity</b>		<b>\$920,920</b>	<b>\$ 972,270</b>

## FINANCIAL HIGHLIGHTS

The Company reported a net loss of approximately \$494,000 for the first quarter of 2011, compared to net income of \$8.4 million for the same quarter of 2010. The provision for credit losses was the most significant factor contributing to this decrease, as the charge in the first quarter of 2011 was \$53.5 million, compared to a charge of \$43.5 million during the first quarter of 2010. Net charge-offs also increased to \$52.1 million, or 2.24% of average loans and leases, during the first quarter of 2011, compared to \$30.7 million, or 1.26% of average loans and leases, during the first quarter of 2010. The larger provision reflected the impact of a significant increase in NPLs from \$235.7 million at March 31, 2010 to \$425.0 million at March 31, 2011, as the length and severity of the recession, as well as the lackluster current economic environment affected a larger portion of the Company’s borrowers. The impact of the economic environment continues to be evident on real estate construction, acquisition and development loans and more specifically on residential construction, acquisition and development and consumer mortgage loans. Many of these loans have become collateral-dependent, requiring recognition of an impairment loss to reflect the decline in real estate values.

The primary source of revenue for the Company is the net interest revenue earned by the Bank. Net interest revenue is the difference between interest earned on loans and investments and interest paid on deposits and other obligations. Net interest revenue was \$109.4 million for the first quarter of 2011, a decrease of \$2.4 million, or 2.2% from \$111.9 million for the first quarter of 2010. Net interest revenue is affected by the general level of interest rates, changes in interest rates and changes in the amount and composition of interest earning assets and interest bearing liabilities. The Company’s objective is to manage those assets and liabilities to maximize net interest revenue, while balancing interest rate, credit, liquidity and capital risks. The Company experienced an increase in lower rate demand and time deposits and a decrease in higher rate other time deposits, which resulted in a decrease in interest expense of \$7.4 million, or 20.1%, in the first quarter of 2011 compared to the first quarter of 2010. However, the decrease in interest expense was more than offset by the decrease in interest revenue that resulted from the declining interest rate

environment combined with the low loan demand and increase in NPLs as interest revenue decreased \$9.8 million, or 6.6%, in the first quarter of 2011 compared to the first quarter of 2010. While loan demand has been weak, the Company has managed to replace some loan runoff with new loan production, primarily in its east Texas and Louisiana markets.

The Company attempts to diversify its revenue stream by increasing the amount of revenue received from mortgage lending operations, insurance agency activities, brokerage and securities activities and other activities that generate fee income. Management believes this diversification is important to reduce the impact of fluctuations in net interest revenue on the overall operating results of the Company. Noninterest revenue increased \$5.0 million, or 7.9%, for the first quarter of 2011 compared to the first quarter of 2010. One of the primary contributors to the increase in noninterest revenue was mortgage lending revenue, which increased 50.9% to \$7.6 million for the first quarter of 2011 compared to \$5.0 million for the first quarter of 2010. The increase in mortgage lending revenue was primarily related to the increase in fair value of MSRs of \$2.5 million for the first quarter of 2011 compared to an immaterial MSR fair value adjustment for the first quarter of 2010. Mortgage originations remained stable at \$202.8 million for the first quarter of 2011 compared to \$207.4 million for the first quarter of 2010.

Also, contributing to the increase in noninterest revenue for the first quarter of 2011 was growth in credit card, debit card and merchant fees, trust income and insurance commissions, which increased 9.0% in the aggregate in the first quarter of 2011 compared to the first quarter of 2010. The increase in noninterest revenue was offset slightly by a 5.5% decrease in service charges during the first quarter of 2011 compared to the first quarter of 2010, as a result of a lower volume of items processed and mandated changes in overdraft regulations. There were no significant non-recurring noninterest revenue items during the first quarters of 2011 or 2010.

Noninterest expense increased 7.9% to \$130.0 million for the first quarter of 2011 compared to \$120.5 million for the first quarter of 2010. The increase in noninterest expense was primarily related to the increase in foreclosed property expense, which increased 100.2% to \$7.1 million for the first quarter of 2011 from \$3.5 million for the first quarter of 2010. Foreclosed property expense increased primarily as a result of the Company experiencing writedowns of other real estate owned because of the decline in property values attributable to the prevailing economic environment. Deposit insurance assessments also increased 27.6% to \$5.4 million for the first quarter of 2011 from \$4.3 million for the first quarter of 2010 as a result of deposit growth and a slightly higher assessment rate. The Company continues to focus attention on controlling noninterest expense. The major components of net income are discussed in more detail in the various sections that follow.

The Company continued its commitment to a strong capital base as its total shareholders' equity to total assets ratio was 8.94% and 9.56% at March 31, 2011 and March 31, 2010, respectively. Interest bearing demand deposits increased 9.46%, contributing to an overall deposit increase of 4.3% at March 31, 2011 compared to March 31, 2010. This increase in deposits allowed the Company to continue to reduce its reliance on short-term borrowings, which decreased \$58.8 million, or 12.2%, at March 31, 2011 compared to March 31, 2010.

## RESULTS OF OPERATIONS

### Net Interest Revenue

Net interest revenue is the difference between interest revenue earned on assets, such as loans, leases and securities, and interest expense paid on liabilities, such as deposits and borrowings, and continues to provide the Company with its principal source of revenue. Net interest revenue is affected by the general level of interest rates, changes in interest rates and changes in the amount and composition of interest earning assets and interest bearing liabilities. The Company's long-term objective is to manage interest earning assets and interest bearing liabilities to maximize net interest revenue, while balancing interest rate, credit and liquidity risk. Net interest margin is determined by dividing fully taxable equivalent net interest revenue by average earning assets. For purposes of the following discussion, revenue from tax-exempt loans and investment securities has been adjusted to a fully taxable equivalent ("FTE") basis, using an effective tax rate of 35%. The following table presents average interest earning assets, average interest bearing liabilities, net interest revenue-FTE, net interest margin-FTE and net interest rate spread for the three months ended March 31, 2011 and 2010:

Edgar Filing: BANCORPSOUTH INC - Form 10-Q

	Three months ended March 31,							
	2011 Average Balance	Interest	Yield/ Rate		2010 Average Balance	Interest	Yield/ Rate	
<b>ASSETS</b>	(Dollars in millions, yields on taxable equivalent basis)							
Loans and leases (net of unearned income) (1)(2)	\$9,300.0	\$118.2	5.15	%	\$9,767.1	\$127.8	5.31	%
Loans held for sale	39.1	0.4	4.64	%	42.8	0.5	4.80	%
Held-to-maturity securities:								
Taxable (3)	1,322.7	8.1	2.49	%	851.5	9.5	4.54	%
Non-taxable (4)	330.6	5.2	6.32	%	215.2	3.8	7.13	%
Available-for-sale securities:								
Taxable	1,014.4	8.6	3.43	%	859.8	8.4	3.96	%

Total interest bearing liabilities and expense	10,308.0	29.4	1.16	%	9,895.6	36.8	1.66	%
Demand deposits - noninterest bearing	1,893.7				1,819.9			

Edgar Filing: BANCORPSOUTH INC - Form 10-Q

Other liabilities	118.7			146.2	
Total liabilities	12,320.4			11,861.7	
Shareholders' equity	1,219.4			1,265.4	
Total	\$13,539.8			\$13,127.1	
Net interest revenue-FTE		\$112.6			\$114.6
Net interest margin-FTE			3.69	%	3.88
Net interest rate spread			3.49	%	3.62

Interest bearing liabilities to interest earning assets 83.16 % 82.61 %

(1) Includes taxable equivalent adjustment to interest of \$0.8 million for the three months ended March 31, 2011 and 2010

using an effective tax rate of 35%.

(2) Includes non-accrual loans.

(3) Includes taxable equivalent adjustment to interest of \$0.1 million for the three months ended March 31, 2011 and 2010

using an effective tax rate of 35%.

(4) Includes taxable equivalent adjustments to interest of \$1.8 million and \$1.3 million for the three months ended

March 31, 2011 and 2010, respectively, using an effective tax rate of 35%.

(5) Includes taxable equivalent adjustment to interest of \$0.4 million for the three months ended March 31, 2011 and 2010

using an effective tax rate of 35%.

Net interest revenue-FTE for the three-month period ended March 31, 2011 decreased \$1.9 million, or 1.7% compared to the same period in 2010. The decrease in net interest revenue-FTE for the first quarter of 2011 compared to the same period in 2010 was a result of the increase in NPLs, as well as the deposit growth, which combined with a lack of loan growth, resulted in an increase in short-term investments that had lower average rates earned than the average rates paid on the deposit growth.

Interest revenue-FTE for the three-month period ended March 31, 2011 decreased \$9.4 million, or 6.2%, compared to the same period in 2010. The decrease in interest revenue-FTE for the first quarter of 2011 compared to the same period in 2010 was a result of the increase in NPLs, combined with the declining loan yields as interest rates continue to be at historically low levels resulting in a decrease in the yield on average interest-earning assets of 47 basis points for the first quarter of 2011, compared to the same period in 2010. Average interest-earning assets increased \$415.3 million, or 3.5%, for the three-month period ended March 31, 2011, compared to the same period in 2010. The increase in average interest earning assets for the first quarter of 2011 compared to the same period in 2010 was primarily a result of the increase in short-term, held-to-maturity and available-for-sale investments, which was attributable to continued deposit growth, combined with a decrease in net loans and leases.

Interest expense for the three-month period ended March 31, 2011 decreased \$7.4 million, or 20.1%, compared to the same period in 2010. The decrease in interest expense for the first quarter of 2011 compared to the same period in 2010 was a result of the increase in lower cost interest bearing demand deposits combined with the decrease in other time deposit and short-term borrowing rates resulting in an overall decrease in the average rate paid of 35 basis points for the first quarter of 2011 compared to the first quarter of 2010. Average interest bearing liabilities increased \$412.4 million, or 4.2%, for the three-month period ended March 31, 2011 compared to the same period in 2010. The increase in average interest bearing liabilities for the first quarter of 2011 was primarily a result of the increase in lower cost interest bearing demand deposits and savings deposits, offset by a decrease in other time deposits and short-term borrowings.

Net interest margin decreased to 3.69% for the three months ended March 31, 2011 from 3.88% for the three months ended March 31, 2010. The decrease in the net interest margin was primarily a result of the combination of increased deposits and weak loan demand resulting in higher levels of short-term investments with relatively low yields and higher levels of held-to-maturity and available-for-sale investments with lower yields than earned on the loan portfolio.

#### Interest Rate Sensitivity

The interest rate sensitivity gap is the difference between the maturity or repricing opportunities of interest sensitive assets and interest sensitive liabilities for a given period of time. A prime objective of the Company's asset/liability management is to maximize net interest margin while maintaining a reasonable mix of interest sensitive assets and liabilities. The following table presents the Company's interest rate sensitivity at March 31, 2011:

## Interest Rate Sensitivity - Maturing or Repricing Opportunities

	0 to 90 Days	91 Days to One Year	Over One Year to Five Years	Over Five Years
--	--------------	---------------------	-----------------------------	-----------------

	0 to 90 Days	91 Days to One Year	Over One Year to Five Years	Over Five Years
<b>Interest earning assets:</b>				
Interest bearing deposits with banks	\$102,312	\$-	\$-	\$-
Federal funds sold and securities purchased under agreement to resell	150,000	-	-	-
Held-to-maturity securities	89,731	92,026	1,175,021	310,425
Available-for-sale and trading securities	67,479	137,427	282,450	658,107
Loans and leases, net of unearned income	4,588,142	1,700,756	2,667,298	261,640
Loans held for sale	37,790	312	1,861	16,913
Total interest earning assets	5,035,454	1,930,521	4,126,630	1,247,085
<b>Interest bearing liabilities:</b>				
Interest bearing demand deposits and savings	5,955,647	-	-	-
Other time deposits	586,774	1,815,919	1,077,313	471
Federal funds purchased and securities sold under agreement to repurchase, short-term FHLB borrowings and other short-term borrowings	423,782	715	-	-
Long-term FHLB borrowings and junior subordinated debt securities	-	-	55,000	215,312
Other	-	-	77	-
Total interest bearing liabilities	6,966,203	1,816,634	1,132,390	215,783
Interest rate sensitivity gap	\$(1,930,749)	\$113,887	\$2,994,240	\$1,031,302
Cumulative interest sensitivity gap	\$(1,930,749)	\$(1,816,862)	\$1,177,378	\$2,208,680

In the event interest rates increase after March 31, 2011, based on this interest rate sensitivity gap, the Company would likely experience decreased net interest revenue in the following one-year period, as the cost of funds would increase at a more rapid rate than interest revenue on interest-earning assets. Conversely, in the event interest rates decline after March 31, 2011, based on this interest rate sensitivity gap, it is likely that the Company would experience slightly increased net interest revenue in the following one-year period. It should be noted that the balances shown in the table above are at March 31, 2011 and may not be reflective of positions at other times during the year or in subsequent periods. Allocations to specific interest rate sensitivity periods are based on the earlier of maturity or repricing dates. The increased liability sensitivity in the 0 to 90 day category as compared to other categories was primarily a result of the Company's utilization of core deposit growth, particularly in short-term demand deposits, to repay borrowings and to fund asset growth during the first quarter of 2011.

As of March 31, 2011, the Bank had \$2.3 billion in variable rate loans with interest rates determined by a floor, or minimum rate. This portion of the loan portfolio had an average interest rate earned of 4.52%, an average maturity of 27 months and a fully-indexed interest rate of 3.76% at March 31, 2011. The fully-indexed interest rate is the interest rate that these loans would be earning without the effect of interest rate floors. While the Bank benefits from interest rate floors in the current interest rate environment, loans currently earning their floored interest rate may not experience an immediate impact on the interest rate earned should key indices rise. Key indices include, but are not limited to, the Wall Street Journal prime rate, the Bank's prime rate and the London Interbank Offering Rate. At

March 31, 2011, the Company had \$1.3 billion, \$1.3 billion and \$693.0 million in variable rate loans with interest rates tied to the Bank's prime rate, the Wall Street Journal prime rate and the London Interbank Offering Rate, respectively. The Bank's net interest margin may be negatively impacted by the timing and magnitude of a rise in key indices.

## Interest Rate Risk Management

Interest rate risk refers to the potential changes in net interest income and Economic Value of Equity (“EVE”) resulting from adverse movements in interest rates. EVE is defined as the net present value of the balance sheet’s cash flow. EVE is calculated by discounting projected principal and interest cash flows under the current interest rate environment. The present value of asset cash flows less the present value of liability cash flows derives the net present value of the Company’s balance sheet. The Company’s Asset / Liability Committee utilizes financial simulation models to measure interest rate exposure. These models are designed to simulate the cash flow and accrual characteristics of the Company’s balance sheet. In addition, the models incorporate assumptions about the direction and volatility of interest rates, the slope of the yield curve, and the changing composition of the Company’s balance sheet arising from both strategic plans and customer behavior. Finally, management makes assumptions regarding loan and deposit growth, pricing, and prepayment speeds.

The sensitivity analysis included below delineates the percentage change in net interest income and EVE derived from instantaneous parallel rate shifts of plus and minus 200 and 100 basis points. The impact of minus 200 and 100 basis point rate shocks as of March 31, 2011 and 2010 was not considered meaningful because of the historically low interest rate environment. Variances were calculated from the base case scenario, which reflected prevailing market rates. Management assumed all non-maturity deposits have an average life of one day for calculating EVE, which management believes is the most conservative approach.

Rate Shock	Net Interest Income			
	% Variance from Base Case Scenario			
	March 31, 2011		March 31, 2010	
+200 basis points	-7.4	%	-2.8	%
+100 basis points	-4.1	%	-1.4	%
-100 basis points	NM		NM	
-200 basis points	NM		NM	
NM=not meaningful				

Rate Shock	Economic Value of Equity			
	% Variance from Base Case Scenario			
	March 31, 2011		March 31, 2010	
+200 basis points	-14.7	%	-10.5	%
+100 basis points	-7.9	%	-5.5	%
-100 basis points	NM		NM	
-200 basis points	NM		NM	
NM=not meaningful				

Edgar Filing: BANCORPSOUTH INC - Form 10-Q

In addition to instantaneous rate shocks, the Company monitors interest rate exposure through simulations of gradual interest rate changes over a 12-month time horizon. The results of these analyses are included in the following table:

Rate Ramp	Net Interest Income % Variance from Base Case Scenario			
	March 31, 2011		March 31, 2010	
		%		%
+200 basis points	-6.2	%	-3.1	%
-200 basis points	NM		NM	
NM=not meaningful				

Provision for Credit Losses and Allowance for Credit Losses

In the normal course of business, the Bank assumes risks in extending credit. The Bank manages these risks through underwriting in accordance with its lending policies, loan review procedures and the diversification of

its loan and lease portfolio. Although it is not possible to predict credit losses with certainty, management regularly reviews the characteristics of the loan and lease portfolio to determine its overall risk profile and quality.

The provision for credit losses is the periodic cost of providing an allowance or reserve for estimated probable losses on loans and leases. The Bank's Board of Directors has appointed a loan loss reserve valuation committee (the "Loan Loss Committee"), which bases its estimates of credit losses on three primary components: (1) estimates of inherent losses that may exist in various segments of performing loans and leases; (2) specifically identified losses in individually analyzed credits; and (3) qualitative factors that may impact the performance of the loan and lease portfolio. Factors such as financial condition of the borrower and guarantor, recent credit performance, delinquency, liquidity, cash flows, collateral type and value are used to assess credit risk. Expected loss estimates are influenced by the historical losses experienced by the Bank for loans and leases of comparable creditworthiness and structure. Specific loss assessments are performed for loans and leases of significant size and delinquency based upon the collateral protection and expected future cash flows to determine the amount of impairment under FASB ASC 310, Receivables ("FASB ASC 310"). In addition, qualitative factors such as changes in economic and business conditions, concentrations of risk, loan and lease growth, acquisitions and changes in portfolio risk resulting from regulatory changes are considered in determining the adequacy of the level of the allowance for credit losses.

Attention is paid to the quality of the loan and lease portfolio through a formal loan review process. An independent loan review department of the Bank is responsible for reviewing the credit rating and classification of individual credits and assessing trends in the portfolio, adherence to internal credit policies and procedures and other factors that may affect the overall adequacy of the allowance for credit losses. The Loan Loss Committee is responsible for ensuring that the allowance for credit losses provides coverage of both known and inherent losses. The Loan Loss Committee meets at least quarterly to determine the amount of adjustments to the allowance for credit losses. The Loan Loss Committee is composed of senior management from the Bank's loan administration and finance departments. In 2010, the Bank established a real estate risk management group and an Impairment Committee. The real estate risk management group oversees compliance with regulations and U.S. GAAP related to lending activities where real estate is the primary collateral. The Impairment Committee is responsible for evaluating loans that have been specifically identified through various channels, including examination of the Bank's watch list, past due listings, findings of the internal loan review department, loan officer assessments and loans to borrowers or industries known to be experiencing problems. For all loans identified, the responsible loan officer in conjunction with the applicable credit administrator is required to prepare an impairment analysis to be reviewed by the Impairment Committee. The Impairment Committee deems that a loan is impaired if it is probable that the Company will be unable to collect all of the contractual principal and interest on the loan. The Impairment Committee also evaluates the circumstances surrounding the loan in order to determine if the loan officer used the most appropriate method for assessing the impairment of the loan (i.e., present value of expected future cash flows, observable market price or fair value of the underlying collateral). The Impairment Committee meets on a monthly basis.

If concessions are granted to a borrower as a result of its financial difficulties, the loan is classified as a TDR and analyzed for possible impairment as part of the credit approval process. TDRs determined to be impaired are reserved in accordance with FASB ASC 310 in the same manner as impaired loans which are not TDRs. Should the borrower's financial condition, collateral protection or performance deteriorate, warranting reassessment of the loan rating or impairment, additional reserves may be required.

Loans of \$200,000 or more that become 60 or more days past due are identified for review by the Impairment Committee, which decides whether an impairment exists and to what extent a specific allowance for credit loss should be made. Loans that do not meet these requirements may also be identified by management for impairment review. Loans subject to such review are evaluated as to collateral dependency, current collateral value, guarantor or other financial support and likely disposition. Each such loan is individually evaluated for impairment. The impairment evaluation of real estate loans generally focuses on the fair value of underlying collateral obtained from appraisals, as the repayment of these loans may be dependent on the liquidation of the collateral. In certain circumstances, other information such as comparable sales data is deemed to be a more reliable indicator of fair value of the underlying collateral than the most recent appraisal. In these instances, such information is used in determining the impairment recorded for the loan. As the repayment of commercial and industrial loans is generally dependent upon the cash flow of the borrower or guarantor support, the impairment evaluation generally focuses on the

discounted future cash flows of the borrower or guarantor support, as well as the projected liquidation of any pledged collateral. The Impairment Committee reviews the results of each evaluation and approves the final

impairment amounts, which are then included in the analysis of the adequacy of the allowance for credit losses in accordance with FASB ASC 310. Loans identified for impairment are placed in non-accrual status.

The Company's policy is to obtain an appraisal at the time of loan origination for real estate collateral securing a loan of \$250,000 or more, consistent with regulatory guidelines. The Company's policy is to obtain an updated appraisal when certain events occur, such as the refinancing of the debt, the renewal of the debt or events that indicate potential impairment. A new appraisal is generally ordered for loans greater than \$200,000 that have characteristics of potential impairment such as the delinquency or other loan-specific factors identified by management, the unavailability of a current appraisal dated within the prior 12 months or the inconsistency between current appraisal assumptions and the expected disposition of the loan collateral. In order to measure impairment properly at the time that a loan is deemed to be impaired, a staff appraiser may estimate the collateral fair value based upon earlier appraisals, sales contracts, approved foreclosure bids, comparable sales, officer estimates or current market conditions until a new appraisal is received. This estimate can be used to determine the extent of the impairment on the loan. After a loan is deemed to be impaired, it is management's policy to obtain an updated appraisal on at least an annual basis. Management performs a review of the pertinent facts and circumstances of each impaired loan on a monthly basis. As of each review date, management considers whether additional impairment should be recorded based on recent activity related to the loan-specific collateral as well as other relevant comparable assets. Any adjustment to reflect further impairments, either as a result of management's periodic review or as a result of an updated appraisal, are made through recording additional loan loss provisions or charge-offs.

At March 31, 2011, impaired loans totaled \$338.8 million, which was net of cumulative charge-offs of \$84.7 million. Additionally, the Company had specific reserves for impaired loans of \$49.4 million included in the allowance for credit losses. Impaired loans at March 31, 2011 were primarily from the Company's consumer real estate or residential construction, acquisition and development real estate portfolios. The loans were evaluated for impairment based on the fair value of the underlying collateral securing the loan. As part of the impairment review process, appraisals are used to determine the property values. The appraised values that are used are generally based on the disposition value of the property, which assumes Bank ownership of the property "as-is" and a 180-day marketing period. If a current appraisal or one with an inspection date within the past 12 months using the necessary assumptions is not available, a new third-party appraisal is ordered. In cases where an impairment exists and a current appraisal is not available at the time of review, a staff appraiser may determine an estimated value based upon earlier appraisals, the sales contract, approved foreclosure bids, comparable sales, comparable appraisals, officer estimates or current market conditions until a new appraisal is received. After a new appraisal is received, the value used in the review will be updated and any adjustments to reflect further impairments are made. Appraisals are obtained from state-certified appraisers based on certain assumptions which may include foreclosure status, bank ownership, other real estate owned marketing period of 180 days, costs to sell, construction or development status and the highest and best use of the property. A staff appraiser may make adjustments to appraisals based on sales contracts, comparable sales and other pertinent information if an appraisal does not incorporate the effect of these assumptions.

When a guarantor is relied upon as a source of repayment, it is the Company's policy to analyze the strength of the guaranty. This analysis varies based on circumstances, but may include a review of the guarantor's personal and business financial statements and credit history, a review of the guarantor's tax returns and the preparation of a cash flow analysis of the guarantor. Management will continue to update its analysis on individual guarantors as circumstances change. Because of the continued weakness in the economy, subsequent analyses may result in the identification of the inability of some guarantors to perform under the agreed upon terms.

Any loan or portion thereof which is classified as "loss" by regulatory examiners or which is determined by management to be uncollectible, because of factors such as the borrower's failure to pay interest or principal, the borrower's financial condition, economic conditions in the borrower's industry or the inadequacy of underlying collateral, is charged off.

The following table provides an analysis of the allowance for credit losses for the periods indicated:

	Three months ended March 31,			
	2011		2010	
	(Dollars in thousands)			
Balance, beginning of period	\$196,913		\$176,043	
Loans and leases charged off:				
Commercial and industrial	(8,809	)	(2,169	)
Real estate				
Consumer mortgages	(3,974	)	(4,598	)
Home equity	(1,082	)	(1,683	)
Agricultural	(592	)	(207	)
Commercial and industrial-owner occupied	(1,716	)	(2,465	)
Construction, acquisition and development	(31,629	)	(15,769	)
Commercial	(4,514	)	(2,278	)
Credit cards	(881	)	(1,160	)
All other	(553	)	(1,050	)
Total loans charged off	(53,750	)	(31,379	)
Recoveries:				
Commercial and industrial	184		63	
Real estate				
Consumer mortgages	143		64	
Home equity	45		52	
Agricultural	2		-	
Commercial and industrial-owner occupied	173		7	
Construction, acquisition and development	564		56	
Commercial	13		12	
Credit cards	255		150	
All other	312		297	
Total recoveries	1,691		701	
Net charge-offs	(52,059	)	(30,678	)
Provision charged to operating expense	53,479		43,519	
Balance, end of period	\$198,333		\$188,884	
Average loans for period	\$9,299,984		\$9,767,088	
Ratios:				
Net charge-offs to average loans (annualized)	2.24	%	1.26	%
Provision for credit losses to average loans and leases, net of unearned income (annualized)	2.30	%	1.78	%
Allowance for credit losses to loans and leases, net of unearned income	2.15	%	1.95	%
Allowance for credit losses to net charge-offs (annualized)	95.24	%	153.92	%

The increase in the provision for credit losses in the first quarter of 2011 compared to the first quarter of 2010 continued to reflect the increased credit risk experienced by the Company, as the length and severity of the recession, as well as the lackluster prevailing economic environment, affected the liquidity of the Company's borrowers. Increases in net charge-offs in the first quarter of 2011 along with a significant increase in NPLs resulted in a provision for credit losses of \$53.5 million during the first quarter of 2011 compared to a provision of

\$43.5 million in the same quarter of 2010. Annualized net charge-offs as a percentage of average loans and leases increased to 2.24% for the first quarter of 2011 compared to 1.26% for the first quarter of 2010. These increases were primarily a result of increased losses within the real estate construction, acquisition and development segment of the Company's loan and lease portfolio and in the consumer mortgage segment of the portfolio. These segments experienced increased losses primarily because of the weakened financial condition of the corresponding borrowers and guarantors. These borrowers' weakened state hindered their ability to service their loans with the Company, which has caused a number of loans to become collateral dependent. Once it is determined a loan's repayment is dependent upon the underlying collateral, the loan is charged down to net realizable value or a specific reserve is allocated to the loan. This process resulted in an increased level of charge-offs in the first three months of 2011 compared to the first three months of 2010. The increased level of charge-offs has caused the ratio of the allowance for credit losses to annualized charge-offs to decline. As of March 31, 2011, 91.4% of nonaccrual loans had been charged down to net realizable value or had specific reserves to reflect recent appraised values as of March 31, 2011. This resulted in impaired loans having an aggregate net book value of 68% of their contractual principal balance at March 31, 2011. As of March 31, 2010, 85.8% of nonaccrual loans had been charged down to net realizable value or had specific reserves to reflect recent appraised values as of March 31, 2010. This resulted in impaired loans having an aggregate net book value of 67% of their contractual principal balance at March 31, 2010.

The breakdown of the allowance by loan and lease category is based, in part, on evaluations of specific loan and lease histories and on economic conditions within specific industries or geographical areas. Accordingly, because all of these conditions are subject to change, the allocation is not necessarily indicative of the breakdown of any future allowance or losses. The following table presents (i) the breakdown of the allowance for credit losses by segment and class and (ii) the percentage of each segment and class in the loan and lease portfolio to total loans and leases at the dates indicated:
