BLAIR CORPORATION REPORTS FIRST QUARTER RESULTS

WARREN, Pa., (April 24, 2003) -- Blair Corporation (Amex: BL), (www.blair.com), a national catalog and multi-channel direct marketer of women's and men's apparel and home products, today announced results for the first quarter ended March 31, 2003.

Net sales for the first quarter ended March 31, 2003 increased to \$137,013,544

## Edgar Filing: BLAIR CORP - Form 8-K

compared to \$135,261,455 reported for the first quarter ended March 31, 2002.

Net income for the first quarter ended March 31, 2003 was \$500,189, or \$.06 per basic and diluted share, compared to net income of \$5,601,131, or \$.70 per basic and diluted share, reported for the first quarter last year. The reduction in net income was primarily attributable to increased cost of goods sold and advertising expenses.

Cost of goods sold as a percentage of net sales increased to 49.5% for the first quarter of 2003 from 47.7% in the comparable quarter last year. The rise in cost of goods sold reflects an increase in sales generated from promotional activities to address lower response rates, higher inbound air freight expenses and a greater mix of outbound packages in excess of one pound that increased shipping costs.

Advertising expenses rose 13% resulting from a strategic increase in catalog and letter mailings to current and prospective customers.

General & administrative costs rose 3.3% and included costs associated with the implementation of Blair's fulfillment operation. This initiative is expected to be fully operational by the end of the second quarter and will increase efficiency and productivity while reducing overall operating costs.

"Blair achieved a slight increase in sales and market share despite difficult current economic conditions and a significant downturn in the industry. Our net income results were affected by the general economic weakness and slowdown in consumer spending which has impacted the retail and direct marketing industries. The increase in costs and expenses reflect the necessary steps taken to secure current and future sales in this difficult market," said Bryan J. Flanagan, Senior Vice President and Chief Financial Officer.

John E. Zawacki, President and Chief Executive Officer said, "While lower response rates adversely impacted profitability, we have demonstrated Blair's ability to quickly develop and implement initiatives to address the challenges the direct marketing industry is facing. Our additional mailings and promotions helped generate increased sales while expanding our customer base."

"Blair remains focused on expanding its core businesses while capitalizing on its growth initiatives. Our Crossing Pointe catalog and e-commerce initiatives continue to generate increasing revenue and grow our customer files. Blair's e-commerce channel generated \$16 million in gross sales demand in the first quarter of 2003 compared to \$13 million in 2002.

We are confident that our near-term investments will generate long-term growth. We continue to maintain a strong balance sheet and implement our strategic plan to further enhance our position as the premier direct marketer to value-conscious consumers. We are committed to increasing long-term profitability and shareholder value," concluded Mr. Zawacki.

### About Blair

Headquartered in Warren, Pennsylvania, Blair Corporation sells a broad array of women's and men's apparel and home products, primarily through direct mail merchandising as well as its Web site, [www.blair.com](http://www.blair.com) and other Web sites. Blair Corporation employs over 2,700 people and operates facilities in Erie, Franklin and Grove City, Pennsylvania as well as in Wilmington, Delaware. The Company, which has annual sales of more than \$560 million, is publicly traded on the
