NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Description of Business and Accounting Policies

Description of Business — Cincinnati Bell Inc. and its consolidated subsidiaries (the “Company” or “we”) provide diversified telecommunications and technology services. As of September 30, 2014, we operate our business through the following segments: Wireline, IT Services and Hardware and Wireless.

The Company has receivables with one large customer that exceed 10% of the Company’s outstanding accounts receivable balance at September 30, 2014 and December 31, 2013. This same customer contributed in excess of 10% to consolidated revenue for the three and nine months ended September 30, 2014.

On January 24, 2013, we completed the initial public offering (“IPO”) of CyrusOne, Inc. (“CyrusOne”), our former Data Center Colocation segment. As of the date of the IPO, we owned approximately 1.9 million shares, or 8.6%, of CyrusOne's common stock and were a limited partner in CyrusOne LP, owning approximately 42.6 million, or 66% of its partnership units. We effectively owned 69% of CyrusOne and continued to have significant influence over the entity, but we did not control its operations. Therefore, effective January 24, 2013, we no longer include the accounts of CyrusOne in our consolidated financial statements, but account for our ownership in CyrusOne as an equity method investment.

On June 25, 2014, we consummated the sale of 16.0 million partnership units of CyrusOne LP to CyrusOne, Inc. at a price of \$22.26 per unit. As of September 30, 2014, we effectively own 44% of CyrusOne, which is held in the form of 1.9 million shares of CyrusOne common stock and approximately 26.6 million CyrusOne LP partnership units. As we continue to have significant influence over CyrusOne, we account for this investment using the equity method. The agreement to sell our wireless spectrum licenses closed on September 30, 2014. We received cash proceeds of \$194.4 million and reduced the wireless segment's intangible assets by \$88.2 million, the carrying value of the spectrum licenses. Simultaneously, the separate agreement to use certain spectrum licenses until we discontinue providing wireless service became effective. As we continue to operate our wireless business the gain of \$112.6 million was deferred and recorded in other current liabilities on the condensed consolidated balance sheet. We plan to operate and generate cash from our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses. At that time, we will transfer certain leases and other assets valued at approximately \$16 million to the acquiring company.

The tentative agreement with the Communications Workers of America (“CWA”) on the terms of a new labor contract was not ratified by local members of the union and the two parties have resumed negotiations.

Basis of Presentation — The condensed consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”) and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, other comprehensive income, financial position, and cash flows for each period presented.

The adjustments referred to above are of a normal and recurring nature. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) have been condensed or omitted pursuant to SEC rules and regulations for interim reporting.

The condensed consolidated balance sheet as of December 31, 2013 was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. These condensed consolidated financial statements should be read in conjunction with the Company’s 2013 Annual Report on Form 10-K. Operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results expected for the full year or any other interim period.

Use of Estimates — Preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates. In the

normal course of business, the Company is subject to various regulatory and tax proceedings, lawsuits, claims, and other matters. The Company believes adequate provision has been made for all such asserted and unasserted claims in accordance with U.S. GAAP. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance.

Equity Method Investments - We completed the IPO of CyrusOne on January 24, 2013, and as of that date, we have significant influence over CyrusOne but do not control its operations. As a result, effective January 24, 2013, our ownership in CyrusOne is accounted for as an equity method investment. From that date, we recognize our proportionate share of CyrusOne's net income or loss as non-operating income or expense in our consolidated statement of operations. For the period January 1, 2013 through January 23, 2013, we consolidated CyrusOne's operating results. For the three and nine months ended September 30, 2014, the Company received cash dividends from CyrusOne totaling \$6.0 million and \$22.4 million, respectively. Dividends from CyrusOne are recognized as a reduction of our investment.

During the second quarter of 2014, we invested a total of \$5.5 million in two limited liability companies. These investments are accounted for under the equity method and the carrying value has been recorded within "Other noncurrent assets" in the condensed consolidated balance sheet as of September 30, 2014. During the third quarter we recognized our proportionate share of the investments' net loss as non-operating expense in our consolidated statement of operations, which had a minimal impact on our consolidated statement of operations.

Property, Plant and Equipment — Property, plant and equipment is stated at original cost and presented net of accumulated depreciation and impairment losses. Depreciation expense is generally calculated using either the group depreciation method or the straight-line method.

In the first quarter of 2013, and in connection with our review of the estimated remaining useful lives of property, plant and equipment, we shortened the estimated useful lives assigned to the wireless network software to three years. This change resulted from smartphone-driven technology upgrades, enhancements and projected retirements. For the three months ended March 31, 2013, the increase in depreciation expense associated with this change was \$8.5 million and increased basic and diluted loss per share by approximately \$0.03 per share.

In conjunction with our long-lived asset impairment analysis conducted in the fourth quarter of 2013, we reassessed the useful lives of all our Wireless property, plant and equipment. The remaining useful life for all Wireless property, plant, and equipment assets was reduced to 30 months as of December 31, 2013. In the second quarter of 2014, following the agreement to sell our wireless spectrum licenses and certain other assets, we further reduced the remaining useful life of those assets not included in the sale to be fully depreciated as of March 31, 2015. As a result of these changes in estimate, depreciation expense increased by approximately \$50 million for the nine months ended September 30, 2014 and reduced basic and diluted earnings per share by approximately \$0.14 per share. In addition, adjusting the useful life of our Wireless property, plant and equipment also required that we reduce the amortization period of the deferred gain associated with the 2009 tower sale in a similar manner. Amortization of the deferred gain associated with the tower sale totaled \$16.5 million and \$1.7 million in the nine months ended September 30, 2014 and 2013, respectively. In conjunction with the close of the sale of our wireless spectrum licenses and certain other assets on September 30, 2014, an asset impairment charge of \$7.5 million was recorded in the three months ended September 30, 2014 for the write-off of certain construction-in-progress projects that will no longer be completed due to the wind down of wireless operations.

Income Taxes — The Company's income tax provision for interim periods is determined through the use of an estimated annual effective tax rate applied to year-to-date ordinary income as well as the tax effects associated with discrete items. The company expects its effective tax rate to exceed statutory rates primarily due to non-deductible expenses, including interest on securities originally issued to acquire its broadband business or securities that the Company subsequently issued to refinance those securities. The Company believes the full year 2014 effective tax rate will approximate the actual September 2014 year-to-date effective tax rate.

Recently Issued Accounting Standards — In July 2013, the FASB issued new guidance under Accounting Standards Update ("ASU") 2013-11 regarding the presentation of unrecognized tax benefits in financial statements. This new standard requires the netting in the balance sheet of unrecognized tax benefits against a deferred tax asset for a same-jurisdiction loss or other carryforward that would apply in settlement of the uncertain tax positions. To the extent a net operating loss ("NOL") or tax credit carryforward is not available under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, the

unrecognized tax benefit would be presented in the balance sheet as a liability. This standard went into effect for annual and interim periods beginning after December 15, 2013. We adopted this new guidance beginning with our interim financial statements for the three months ended March 31, 2014. The adoption of this standard did not have a material impact on our financial statements for the nine months ending September 30, 2014.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

In April 2014, the FASB issued ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in this update increased the threshold for a disposal to qualify as a discontinued operation and require new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. The standard will be effective for us on January 1, 2015. The adoption of this pronouncement may affect our presentation and disclosure of any future dispositions.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This standard also includes expanded disclosure requirements that result in an entity providing users of financial statements with comprehensive information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's contracts with customers. This standard will be effective for us in the first quarter of the fiscal year ending December 31, 2017. The Company is currently in the process of evaluating the impact of adoption of this ASU on the company's consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern. The amendments provide guidance about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The standard will be effective for us on January 1, 2016. The adoption of this pronouncement is not expected to have a material impact on our financial statements.

Form 10-Q Part I

Cincinnati Bell Inc.

2. Investment in CyrusOne

On January 24, 2013, we completed the initial public offering of CyrusOne, our former Data Center Colocation segment. As of this date, we no longer control CyrusOne's operations, and we removed the following assets and liabilities of CyrusOne from our consolidated financial statements:

(dollars in millions)

Cash	\$12.2
Receivables	41.5
Other current assets	13.4
Property, plant and equipment	736.2
Goodwill and intangibles	377.7
Other noncurrent assets	44.0
Total assets	1,225.0
Current portion of long-term debt	6.3
Accounts payable	29.4
Unearned revenue and customer deposits	24.1
Other current liabilities	12.9
Long-term debt	550.3
Other noncurrent liabilities	92.3
Total liabilities	715.3
Net assets	\$509.7

Commencing January 17, 2014, we are permitted to exchange the partnership units of CyrusOne LP into cash or shares of common stock of CyrusOne, as determined by CyrusOne, on a one-for-one basis based upon the fair value of a share of CyrusOne common stock, subject to certain limitations which restricted the volume of shares we are permitted to sell. On April 4, 2014, the registration statement filed by CyrusOne on March 24, 2014 became effective and eliminated all prior limitations restricting the volume of shares we are allowed to sell.

On June 25, 2014, we consummated the sale of 16.0 million operating partnership units of CyrusOne LP to CyrusOne, Inc. at a price of \$22.26 per unit. The sale generated proceeds of \$355.9 million and resulted in a gain of \$192.8 million.

Prior to the sale of our 16.0 million partnership units of CyrusOne LP, we accounted for our 68% effective ownership of CyrusOne as an equity method investment. As of September 30, 2014, we effectively own 44% of CyrusOne, which is held in the form of 1.9 million shares of CyrusOne common stock and approximately 26.6 million CyrusOne LP partnership units. As we continue to have significant influence over CyrusOne, we account for this investment using the equity method. For the three months ended September 30, 2014, our equity method share of CyrusOne's net income was nominal. For the nine months ended September 30, 2014, our equity method share of CyrusOne's net loss was \$1.9 million. For the three and nine months ended September 30, 2013, our equity method share of CyrusOne's net loss was \$1.5 million and \$8.1 million, respectively.

As of September 30, 2014, the fair value of this investment was \$684.9 million based on the quoted market price of CyrusOne's common stock, which is considered a Level 1 measurement in the fair value hierarchy.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Summarized financial information for CyrusOne is as follows:

(dollars in millions)	Three Months Ended September 30,		Nine Months Ended	January 24, 2013 to
	2014	2013	September 30, 2014	September 30, 2013

Operating income	9.6	8.5	28.8	19.9
Net income (loss)	0.2	(2.2)	(2.7)	(11.8)

Transactions with CyrusOne

Revenues - The Company records service revenue from CyrusOne under contractual service arrangements which include, among others, providing services such as fiber transport, network support, service calls, monitoring and management, storage and back-up, and IT systems support.

Operating Expenses - We lease data center and office space from CyrusOne at certain locations in the Cincinnati area under operating leases and are also billed for other services provided by CyrusOne under contractual service arrangements. In the normal course of business, the Company also incurs expenses on CyrusOne's behalf for administrative functions. Such expenses are subsequently billed to and recovered from CyrusOne at their actual cost. These expense recoveries from CyrusOne are credited to the expense account in which they were initially recorded. For the nine months ended September 30, 2013, we recognized transaction-related compensation of \$20.0 million associated with CyrusOne employees. These payments were made in April 2013. See Note 8 for further discussion of this compensation plan.

Revenues and operating costs and expenses from transactions with CyrusOne were as follows:

(dollars in millions)	Three Months Ended September 30,		Nine Months Ended	January 24, 2013 to
	2014	2013	September 30, 2014	September 30, 2013
Revenue:				
Services provided to CyrusOne	\$0.4	\$0.5	\$1.3	\$1.6
Operating costs and expenses:				
Transaction-related compensation to CyrusOne employees	\$—	\$—	\$—	\$20.0
Charges for services provided by CyrusOne	2.2	2.4	6.8	6.5
Administrative services provided to CyrusOne	(0.1)	(0.1)	(0.3)	(0.4)
Total operating costs and expenses	\$2.1	\$2.3	\$6.5	\$26.1

Dividends of \$6.0 million were received in the third quarter of 2014. In addition, on August 6, 2014, CyrusOne declared dividends of \$0.21 per share payable on its common shares and CyrusOne LP partnership units. This dividend was paid on October 15, 2014 to holders of record as of September 26, 2014. As of October 15, 2014, we have received dividends of \$28.4 million for the year.

In addition to the agreements noted above, the Company entered into a tax sharing agreement with CyrusOne. Under the terms of the agreement, CyrusOne will reimburse the Company for the Texas Margin Tax liability that CyrusOne would have incurred if they filed a Texas Margin Tax return separate from the consolidated filing. The agreement will remain in effect until terminated by the mutual written consent of the parties or when the Company is no longer required to file the Texas Margin Tax return on a consolidated basis with CyrusOne. Effective as of the date of the June 2014 sale of the CyrusOne partnership units, CyrusOne will be required to file a separate Texas Margin Tax return. As of September 30, 2014 and December 31, 2013, the receivable for prior periods covered by this agreement amounted to \$1.9 million and \$1.5 million, respectively. These balances are included in Receivable from CyrusOne.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

At September 30, 2014 and December 31, 2013, amounts receivable from and payable to CyrusOne were as follows:

(dollars in millions)	September 30, December 31,	
	2014	2013
Accounts receivable	\$ 2.0	\$ 2.1
Dividends receivable	6.0	7.1
Receivable from CyrusOne	\$ 8.0	\$ 9.2
Accounts payable	\$ 1.3	\$ 0.5
Payable to CyrusOne	\$ 1.3	\$ 0.5

3. Earnings Per Common Share

Basic earnings per common share ("EPS") is based upon the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that would occur upon issuance of common shares for awards under stock-based compensation plans or conversion of preferred stock, but only to the extent that they are considered dilutive.

The following table shows the computation of basic and diluted EPS:

(in millions, except per share amounts)	Three Months Ended		Nine Months Ended	
	September 30, 2014	2013	September 30, 2014	2013
Numerator:				
Net (loss) income	\$(27.3)	\$9.3	\$93.9	\$(26.6)
Preferred stock dividends	2.6	2.6	7.8	7.8
Net (loss) income applicable to common shareowners	\$(29.9)	\$6.7	\$86.1	\$(34.4)
Denominator:				
Weighted average common shares outstanding - basic	208.7	207.0	208.4	205.6
Stock-based compensation arrangements	—	1.5	1.0	—
Weighted average common shares outstanding - diluted	208.7	208.5	209.4	205.6
Basic and diluted (loss) earnings per common share	\$(0.14)	\$0.03	\$0.41	\$(0.17)

For the three months ended September 30, 2014, the Company had a net loss available to common shareholders and, as a result, all common stock equivalents were excluded from the computation of diluted EPS as their inclusion would have been anti-dilutive. For the nine months ended September 30, 2014, awards under the Company's stock-based compensation plans for common shares of 3.3 million were excluded from the computation of diluted EPS as their inclusion would have been anti-dilutive. For the three months ended September 30, 2013, awards under the Company's stock-based compensation plans for common shares of 7.0 million were excluded from the computation of diluted EPS as their inclusion would have been anti-dilutive. For the nine months ended September 30, 2013, the Company had a net loss available to common shareholders and, as a result, all common stock equivalents were excluded from the computation of diluted EPS as their inclusion would have been anti-dilutive. For all periods presented, preferred stock convertible into 4.5 million common shares was excluded from the computation of diluted EPS as the result would have been anti-dilutive.

Cincinnati Bell Inc.

4. Debt

The Company's debt consists of the following:

(dollars in millions)	September 30, 2014	December 31, 2013
Current portion of long-term debt:		
Corporate Credit Agreement - Tranche B Term Loan	\$5.4	\$5.4
Capital lease obligations and other debt	6.5	7.2
Current portion of long-term debt	11.9	12.6
Long-term debt, less current portion:		
Corporate Credit Agreement	—	40.0
Receivables Facility	112.4	106.2
8 3/4% Senior Subordinated Notes due 2018	300.0	625.0
Corporate Credit Agreement - Tranche B Term Loan	529.2	533.2
8 3/8% Senior Notes due 2020	683.9	683.9
7 1/4% Senior Notes due 2023	40.0	40.0
Various Cincinnati Bell Telephone notes	134.5	134.5
Capital lease obligations and other debt	90.4	96.1
	1,890.4	2,258.9
Net unamortized discount	(3.4) (6.3
Long-term debt, less current portion	1,887.0	2,252.6
Total debt	\$1,898.9	\$2,265.2

Effective with the sale of our 16.0 million partnership units to CyrusOne, Inc. on June 25, 2014 for \$355.9 million, the amount available under the Corporate Credit Agreement was reduced to \$150.0 million from its original capacity of \$200.0 million. As of September 30, 2014, the Company had no outstanding borrowings on its Corporate Credit Agreement, leaving \$150.0 million available. This revolving credit facility expires in July 2017.

On September 10, 2013, the Company amended and restated its Corporate Credit Agreement, originally dated as of November 20, 2012, to include a \$540 million Tranche B Term Loan facility ("Tranche B Term Loan") that matures on September 10, 2020. The Tranche B Term Loan requires quarterly principal payments of 0.25% of the original principal amount.

On June 2, 2014, the Company executed an amendment of its accounts receivable securitization facility ("Receivables Facility"), which replaced, amended, and added certain provisions and definitions to increase the credit availability and also extended the term to June 1, 2015. As of September 30, 2014, the Company had \$112.4 million of borrowings and \$5.2 million of letters of credit outstanding under the Receivables Facility, leaving \$2.4 million of remaining availability on the total borrowing capacity of \$120.0 million. The Receivables Facility is subject to renewal every 364 days and expires in June 2016. In the event the Receivables Facility is not renewed, the Company has the ability to refinance any outstanding borrowings with borrowings under the Corporate Credit Agreement. The permitted borrowings vary depending on the level of eligible receivables and other factors. Under the Receivables Facility, certain subsidiaries, or originators, sell their respective trade receivables on a continuous basis to Cincinnati Bell Funding LLC ("CBF"). Although CBF is a wholly-owned consolidated subsidiary of the Company, CBF is legally separate from the Company and each of the Company's other subsidiaries. Upon and after the sale or contribution of the accounts receivable to CBF, such accounts receivable are legally assets of CBF and, as such, are not available to creditors of other subsidiaries or the Company.

On August 8, 2014, the Company redeemed \$325.0 million of the outstanding 8 3/4% Senior Subordinated Notes due 2018 at a redemption price of 104.375%. As a result of the redemption, the Company recorded a debt extinguishment

loss of \$19.4 million. On October 1, 2014, the Company redeemed \$22.7 million of the outstanding 8 ³/₈% Senior Notes due 2020 at par.

Effective November 6, 2014, Cincinnati Bell Inc. amended its Corporate Credit Agreement to, among other things, modify certain financial covenants governing leverage ratios and capital expenditures.

Cincinnati Bell Inc.

5. Financial Instruments and Fair Value Measurements

Fair Value of Financial Instruments

The carrying values of the Company's financial instruments approximate the estimated fair values as of September 30, 2014 and December 31, 2013, except for the Company's investment in CyrusOne and long-term debt. The carrying and fair values of these financial instruments are as follows:

(dollars in millions)	September 30, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Investment in CyrusOne	\$284.7	\$684.9	\$471.0	\$993.2
Long-term debt, including current portion*	1,802.9	1,863.5	2,162.7	2,248.3

*Excludes capital leases

The fair value of our investment in CyrusOne was based on the closing market price of CyrusOne's common stock on September 30, 2014 and December 31, 2013. This fair value measurement is considered Level 1 of the fair value hierarchy.

The fair value of our long-term debt was based on the closing or estimated market prices of the Company's debt at September 30, 2014 and December 31, 2013, which is considered Level 2 of the fair value hierarchy.

6. Restructuring Charges

As of September 30, 2014, restructuring liabilities have been established for employee separations, lease abandonments and contract terminations. A summary of the activity in our restructuring liabilities is presented below:

(dollars in millions)	Employee Separation	Lease Abandonment	Contract Terminations	Total	
Balance as of December 31, 2013	\$9.7	\$6.0	\$0.1	\$15.8	
Charges	—	—	—	—	
Utilization	(2.6) (0.9) —	(3.5)
Balance as of March 31, 2014	\$7.1	\$5.1	\$0.1	\$12.3	
Charges	3.5	—	2.9	6.4	
Utilization	(0.3) (0.8) —	(1.1)
Balance as of June 30, 2014	\$10.3	\$4.3	\$3.0	\$17.6	
Charges	0.7	(1.3) 9.6	9.0	
Utilization	(2.5) (0.6) (0.1) (3.2)
Balance as of September 30, 2014	\$8.5	\$2.4	\$12.5	\$23.4	

The Company made severance payments during the nine months ended September 30, 2014, pursuant to its written severance plan and certain management contracts. In the second quarter of 2014, we recorded employee separation charges of \$1.2 million attributable to outsourcing a portion of our IT function. Lease abandonment costs represent future minimum lease obligations, net of expected sublease income, for abandoned facilities. During the third quarter the Company reversed \$1.3 million of lease abandonment reserve associated with leased space that was reoccupied. Lease payments on abandoned facilities will continue through 2015.

On April 6, 2014, the Company announced that it had entered into agreements to sell its wireless spectrum licenses and certain other assets related to its wireless business. Severance charges totaling \$3.0 million were recorded during the nine months ending September 30, 2014. In anticipation of the close of this transaction, the Company identified certain contracts that will no longer be utilized once the wireless business ceases operations. In the second quarter of 2014 the company recorded contract termination costs totaling \$2.9 million related to an IT support vendor that will no longer be used subsequent to the wind down of the wireless operations. An additional \$9.6 million of contract

termination costs were recorded during the third quarter of 2014. Additional restructuring charges associated with the shutdown of our wireless operations will be recognized once the accounting criteria are achieved. The payments associated with the exit of the business are expected to be paid out through 2015.

Form 10-Q Part I

Cincinnati Bell Inc.

A summary of restructuring activity by business segment is presented below:

(dollars in millions)	Wireline	IT Services and Hardware	Wireless	Corporate	Total	
Balance as of December 31, 2013	\$10.5	\$0.8	\$1.5	\$3.0	\$15.8	
Charges	—	—	—	—	—	
Utilizations	(1.8) —	(0.3) (1.4) (3.5)
Balance as of March 31, 2014	\$8.7	\$0.8	\$1.2	\$1.6	\$12.3	
Charges	1.1	—	5.2	0.1	6.4	
Utilizations	(0.6) (0.1) (0.3) (0.1) (1.1)
Balance as of June 30, 2014	\$9.2	\$0.7	\$6.1	\$1.6	\$17.6	
Charges	(1.3) —	10.3	—	9.0	
Utilizations	(2.3) (0.1) (0.4) (0.4) (3.2)
Balance as of September 30, 2014	\$5.6	\$0.6	\$16.0	\$1.2	\$23.4	

At September 30, 2014 and December 31, 2013, \$21.5 million and \$7.8 million, respectively, of the restructuring liabilities were included in “Other current liabilities,” and \$1.9 million and \$8.0 million, respectively, were included in “Other noncurrent liabilities” in the condensed consolidated balance sheet.

7. Pension and Postretirement Plans

The Company sponsors three noncontributory defined benefit plans and a postretirement health and life insurance plan. For the three and nine months ended September 30, 2014 and 2013, approximately 10% of the costs were capitalized as a component of property, plant and equipment related to construction of our wireline network. Effective July 1, 2013, the management pension plan was amended to eliminate all future pension service credits. As a result, we recognized a curtailment gain of \$0.6 million in the three months ended June 30, 2013 and remeasured the associated pension obligation. This remeasurement resulted in a reduction of our pension liability of \$10.3 million. During the third quarter of 2013 the Board approved several amendments to the postretirement plan that required remeasurement of the associated benefit obligation. As a result, the Company recorded a \$26.1 million reduction of the postretirement liability in the third quarter of 2013.

As of December 31, 2013, \$30.8 million of the pension plan assets were invested in real estate pooled funds, representing 8% of total pension plan assets. During the third quarter of 2014, the Company put in redemption requests to liquidate the real estate pooled funds within the pension plan master trust. The real estate pooled funds are categorized as Level 3 investments. The proceeds from the sale will be reinvested in equity securities and investment grade fixed income securities similar to those currently held by the pension plan master trust. These new investments will be classified as Level 1 investments. Subsequent to September 30, 2014, the Company amended our target allocation policy to reflect this change in investment strategy and plan to only invest in equity securities and investment grade fixed income securities in the future.

For the three and nine months ended September 30, 2014 and 2013, pension and postretirement benefit costs were as follows:

(dollars in millions)	Three Months Ended September 30,				
	2014	2013	2014	2013	
	Pension Benefits		Postretirement and Other Benefits		
Service cost	\$0.3	\$0.3	\$0.1	\$0.1	
Interest cost on projected benefit obligation	5.2	4.7	1.0	1.0	
Expected return on plan assets	(7.0) (6.3) —	—	
Amortization of:					
Prior service cost (benefit)	0.1	0.1	(3.9) (3.7)
Actuarial loss	4.3	5.4	1.4	1.4	
Total amortization	4.4	5.5	(2.5) (2.3)

Benefit costs	\$2.9	\$4.2	\$(1.4)	\$(1.2)
---------------	-------	-------	--------	---	--------	---

Table of Contents
Form 10-Q Part I

Cincinnati Bell Inc.

(dollars in millions)	Nine Months Ended September 30,			
	2014	2013	2014	2013
	Pension Benefits		Postretirement and Other Benefits	
Service cost	\$0.8	\$1.7	\$0.2	\$0.3
Interest cost on projected benefit obligation	15.7	14.1	3.0	3.0
Expected return on plan assets	(21.1) (19.2) —	—
Curtailment gain	—	(0.6) —	—
Amortization of:				
Prior service cost (benefit)	0.2	0.2	(11.6) (10.2
Actuarial loss	13.0	16.4	4.1	4.3
Total amortization	13.2	16.6	(7.5) (5.9
Benefit costs	\$8.6	\$12.6	\$(4.3) \$(2.6

Amortizations of prior service cost (benefit), actuarial loss, and curtailment gain represent reclassifications from accumulated other comprehensive income.

Contributions in 2014 to the Company's pension and postretirement plans are expected to be approximately \$21 million and \$13 million, respectively. The reduction to planned pension contributions as compared to our second quarter estimate of \$32 million is the result of new legislation which lowered the required minimum contributions for 2014. For the nine months ended September 30, 2014, contributions to the pension plans were \$19.3 million and contributions to the postretirement plan were \$9.3 million.

8. Stock-Based and Other Compensation Plans

The Company grants stock options, stock appreciation rights ("SARs"), performance-based awards, and time-based restricted shares, some of which are cash-settled awards with the final payment indexed to the percentage change in the Company's stock price from the date of grant.

For the three and nine months ended September 30, 2014, the Company recognized stock-based compensation expense of \$0.3 million and \$2.9 million, respectively, inclusive of \$0.7 million and \$0.5 million of mark-to-market gains on awards indexed to the Company's stock price. For the three and nine months ended September 30, 2013, the Company recognized stock-based compensation expense of \$0.3 million and a benefit of \$0.7 million, respectively, which reflected \$0.6 million and \$5.4 million of mark-to-market gains, respectively. As of September 30, 2014, there was \$6.4 million of unrecognized compensation expense related to these awards. The remaining compensation expense for the stock options, SARs and restricted awards is expected to be recognized over a weighted-average period of approximately one year, and the remaining expense for performance-based awards will be recognized within approximately two years.

The Company also has deferred compensation plans for its Board of Directors and certain executives. Under these plans, participants can elect to invest their deferrals in the Company's common stock. At September 30, 2014 and 2013, the number of common shares deferred under these plans was 0.5 million and 0.8 million, respectively. As these awards can be settled in cash, the Company records compensation costs each period based on the change in the Company's stock price. The Company recognized a benefit of \$0.6 million and \$0.2 million for the three and nine months ended September 30, 2014, respectively. For the three and nine months ended September 30, 2013, the company recognized a benefit of \$0.3 million and \$2.0 million, respectively.

In 2010, the Company's Board of Directors approved long-term incentive programs for certain members of management. Payment was contingent upon the completion of a qualifying transaction and attainment of an increase in the equity value of the data center business, as defined in the plans. On January 24, 2013, the initial public offering of CyrusOne was completed, which represented a qualifying transaction requiring payment under these compensation

plans. For the nine months ended September 30, 2013, compensation expense of \$42.6 million was recognized for these awards and other transaction-related incentives, of which \$20.0 million was associated with CyrusOne employees. This expense has been presented as transaction-related compensation in our condensed consolidated statement of operations for the nine months ended September 30, 2013.

Table of Contents

9. Shareowners' Deficit

Warrants

In March 2003, the Company entered into a series of recapitalization transactions which included the issuance of 17.5 million warrants which expired on March 26, 2013. Each warrant allowed the holder to purchase one share of Cincinnati Bell common stock at an exercise price of \$3.00 each. During the first quarter of 2013, warrant holders elected to exercise a total of 14.3 million warrants, leaving no remaining warrants outstanding as of March 31, 2013. As a result, the Company issued a total of 4.4 million shares of common stock and received \$5.1 million of cash proceeds for the 1.7 million warrants which were cash settled.

Accumulated Other Comprehensive Loss

For the nine months ended September 30, 2014, the changes in accumulated other comprehensive loss by component were as follows:

(dollars in millions)	Unrecognized Net Periodic Pension and Postretirement Benefit Cost	Foreign Currency Translation Loss	Total
Balance as of December 31, 2013	\$(133.1)	\$(0.2)	\$(133.3)
Reclassifications, net	3.6	(a) —	3.6
Balance as of September 30, 2014	\$(129.5)	\$(0.2)	\$(129.7)

(a) These reclassifications are included in the components of net period pension and postretirement benefit costs. See Note 7 for additional details. The components of net periodic pension and postretirement benefit cost are reported within "Cost of services", "Cost of products sold", and "Selling, general and administrative" expenses on the condensed consolidated statements of operations.

10. Business Segment Information

For the period January 1, 2013 through January 23, 2013, we operated four business segments: Wireline, IT Services and Hardware, Wireless and Data Center Colocation. Effective January 24, 2013, the date of the CyrusOne IPO, we no longer include CyrusOne, our former Data Center Colocation segment, in our consolidated financial statements and now account for our ownership in CyrusOne as an equity method investment. As of September 30, 2014, the carrying value of our investment in CyrusOne was \$284.7 million and is included as an asset of the Corporate segment. The Data Center Colocation results shown in the accompanying tables reflect the revenues and expenses of our former data center business for the period January 1, 2013 through January 23, 2013.

As of September 30, 2014, we operated three business segments: Wireline, IT Services and Hardware, and Wireless. The Company's segments are strategic business units that offer distinct products and services and are aligned with its internal management structure and reporting.

The Wireline segment provides products and services such as local voice, high-speed internet, data transport, long distance, entertainment, voice over internet protocol (VoIP), and other services. The IT Services and Hardware segment provides a range of fully managed and outsourced information technology ("IT") and telecommunications services along with the sale, installation, and maintenance of major branded IT and telephony equipment.

The agreement to sell our wireless spectrum licenses closed on September 30, 2014. We received cash proceeds of \$194.4 million, which were transferred to the Corporate segment, and reduced intangible assets by \$88.2 million, the carrying value of the spectrum licenses. We plan to provide wireless services until the later of April 6, 2015 and 90 days after the transfer of the licenses.

Certain corporate administrative expenses have been allocated to the segments based upon the nature of the expense and the relative size of the segment. Intercompany transactions between segments have been eliminated.

11. Supplemental Guarantor Information

Cincinnati Bell Telephone Notes

As of September 30, 2014, Cincinnati Bell Telephone Company LLC (“CBT”), a wholly-owned subsidiary of Cincinnati Bell Inc. (the “Parent Company”), had \$134.5 million in notes outstanding, that are guaranteed by the Parent Company and no other subsidiaries of the Parent Company. The guarantee is full and unconditional. The Parent Company’s subsidiaries generate substantially all of its income and cash flow and generally distribute or advance the funds necessary to meet the Parent Company’s debt service obligations.

The following information sets forth the Condensed Consolidating Statements of Operations and Comprehensive Income (Loss) for the three and nine months ended September 30, 2014 and 2013, Condensed Consolidating Balance Sheets as of September 30, 2014 and December 31, 2013, and Condensed Consolidating Statements of Cash Flows for the nine months ended September 30, 2014 and 2013 of (1) the Parent Company, as the guarantor, (2) CBT, as the issuer, and (3) the non-guarantor subsidiaries on a combined basis.

Cincinnati Bell Inc.

Supplemental Guarantor Information - 8³/₈% Senior Notes due 2020 and 8³/₄% Senior Subordinated Notes due 2018
As of September 30, 2014, the Parent Company's 8³/₈% Senior Notes due 2020 and 8³/₄% Senior Subordinated Notes due 2018 are guaranteed by the following subsidiaries: Cincinnati Bell Entertainment Inc., Cincinnati Bell Any Distance Inc., Cincinnati Bell Telecommunications Services LLC, Cincinnati Bell Wireless LLC, CBTS Software LLC, Cincinnati Bell Technology Solutions Inc., Cincinnati Bell Any Distance of Virginia LLC, eVolve Business Solutions LLC, Data Center Investments Inc., Data Center Investments Holdco LLC, Data Centers South Inc. and Data Centers South Holdings LLC.

The Parent Company owns directly or indirectly 100% of each guarantor, and each guarantee is full and unconditional and joint and several. In certain customary circumstances, a subsidiary may be released from its guarantee obligation. These circumstances are defined as follows:

- upon the sale of all of the capital stock of a subsidiary,
- if the Company designates the subsidiary as an unrestricted subsidiary under the terms of the indentures, or
- if the subsidiary is released as a guarantor from the Company's Corporate Credit Agreement.

On September 30, 2014, the Company entered into an Amendment to the Corporate Credit Agreement giving the Company the right to provide written notice to the administrative agent on or after the closing of the sale of spectrum assets to remove any designated Wireless subsidiary as a guarantor subsidiary.

Effective November 6, 2014, Cincinnati Bell Inc. amended its Corporate Credit Agreement to, among other things, modify certain financial covenants governing leverage ratios and capital expenditures.

The Parent Company's subsidiaries generate substantially all of its income and cash flow and generally distribute or advance the funds necessary to meet the Parent Company's debt service obligations. The following information sets forth the Condensed Consolidating Statements of Operations and Comprehensive Income (Loss) for the three and nine months ended September 30, 2014 and 2013, Condensed Consolidating Balance Sheets as of September 30, 2014 and December 31, 2013, and Condensed Consolidating Statements of Cash Flows for the nine months ended September 30, 2014 and 2013 of (1) the Parent Company, as the issuer, (2) the guarantor subsidiaries on a combined basis, and (3) the non-guarantor subsidiaries on a combined basis.

Form 10-Q Part I

Cincinnati Bell Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Cautionary Statement Concerning Forward-Looking Statements

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein contain forward-looking statements regarding future events and results that are subject to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, are statements that could be deemed forward-looking statements. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which we operate and the beliefs and assumptions of our management. Words such as "expects," "anticipates," "predicts," "projects," "intends," "plans," "believes," "seeks," "estimates," "continues," "endeavors" or variations of such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of future financial performance, anticipated growth and trends in businesses, and other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned these forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which could cause actual results to differ materially and adversely from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q and, in particular, the risks discussed under the caption "Risk Factors" in Part II, Item 1A, and those discussed in other documents the Company filed with the Securities and Exchange Commission ("SEC"). Actual results may differ materially and adversely from those expressed in any forward-looking statements. The Company undertakes no obligation to revise or update any forward-looking statements for any reason.

Introduction

This Management's Discussion and Analysis section provides an overview of Cincinnati Bell Inc.'s financial condition as of September 30, 2014, and the results of operations for the three and nine months ended September 30, 2014 and 2013. This discussion should be read in conjunction with the accompanying condensed consolidated financial statements and accompanying notes, as well as the Company's Annual Report on Form 10-K for the year ended December 31, 2013. Results for interim periods may not be indicative of results for the full year or any other interim period.

Executive Summary

Segment results described in the Executive Summary and Consolidated Results of Operations sections are net of intercompany eliminations.

The Company is a full-service regional provider of entertainment, data and voice communications services over wireline and wireless networks, a provider of managed and professional information technology services, and a reseller of information technology ("IT") and telephony equipment. In addition, enterprise customers across the United States rely on Cincinnati Bell Technology Solutions Inc. ("CBTS"), a wholly-owned subsidiary, for efficient, scalable communication systems and end-to-end IT solutions.

On a consolidated basis, revenue for the three and nine months ended September 30, 2014 increased 5% and 2%, respectively, as the growth from our strategic products combined with increased telecom and IT equipment sales more than offset declines from wireless and legacy products. Revenue from our strategic products totaled \$111.0 million in the third quarter of 2014, up 19% compared to the same period a year ago. For the nine months ended September 30, 2014, strategic revenue increased 22% over the prior year totaling \$319.3 million.

Operating income for the three months ended September 30, 2014 was \$16.0 million, down from the prior year. Costs associated with winding down wireless operations, specifically restructuring charges of \$9.0 million, an asset impairment of \$7.5 million, and additional depreciation expense in the quarter due to reducing the useful lives of certain wireless assets offset the revenue growth. For the nine months ended September 30, 2014, operating income was \$108.5 million, down from \$123.7 million in the prior year, primarily due to winding down wireless operations offset by transaction related compensation in the prior year.

On January 24, 2013, we completed the initial public offering ("IPO") of CyrusOne, our former Data Center Colocation segment. As of the date of the IPO, we owned approximately 1.9 million shares, or 8.6%, of CyrusOne's common stock and were limited partners in CyrusOne LP, owning approximately 42.6 million, or 66% of its partnership units. We effectively owned 69% of CyrusOne and continued to have significant influence over the entity, but we did not control its operations.

Therefore, effective January 24, 2013, we no longer include the accounts of CyrusOne in our consolidated financial statements, but account for our ownership in CyrusOne as an equity method investment. Due to the deconsolidation of CyrusOne, our results of operations for the nine months ending September 30, 2013 are not comparable to the current period.

Commencing January 17, 2014, we are permitted to exchange the partnership units of CyrusOne LP into cash or shares of common stock of CyrusOne, as determined by CyrusOne, on a one-for-one basis based upon the fair value of a share of CyrusOne common stock, subject to certain limitations which restricted the volume of shares we are permitted to sell. The registration statement filed by CyrusOne on March 24, 2014 became effective on April 4, 2014 and eliminated all prior limitations restricting the volume of shares we are allowed to sell.

On June 25, 2014, we consummated the sale of 16.0 million partnership units of CyrusOne LP to CyrusOne, Inc. at a price of \$22.26 per unit. The sale generated proceeds of \$355.9 million and resulted in a gain of \$192.8 million.

As of September 30, 2014, we effectively own 44% of CyrusOne, which is held in the form of 1.9 million shares of CyrusOne common stock and approximately 26.6 million CyrusOne LP partnership units. As we continue to have significant influence over CyrusOne, we account for this investment using the equity method.

On April 6, 2014, we entered into agreements valued at approximately \$210 million to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets. The agreement to sell our wireless spectrum licenses closed on September 30, 2014. As a result, we received cash proceeds of \$194.4 million and reduced intangible assets by \$88.2 million, the carrying value of the spectrum licenses. Simultaneously a separate agreement to use certain spectrum licenses until we discontinue providing wireless service became effective. As we continue to operate our wireless business, the gain was deferred and recorded in other current liabilities on the condensed consolidated balance sheet. We plan to operate our wireless operations until the later of April 6, 2015 and 90 days after the transfer of the licenses at which time we will transfer the tower leases being assumed and other assets being acquired.

The tentative agreement reached on August 4, 2014 with the Communications Workers of America (“CWA”) was not ratified by local members of the union and the two parties have resumed negotiations.

Consolidated Results of Operations

Service revenue was \$249.4 million during the three months ended September 30, 2014, a decrease of \$6.0 million, compared to the same period in 2013. Strong demand for strategic products resulted in an additional \$3.3 million of Wireline service revenue in the third quarter of 2014 compared to the same period a year ago. Information Technology ("IT") service revenue increased by \$6.1 million, due to the strong demand by our enterprise customers for managed and professional services. These increases were offset by a \$15.4 million decrease in Wireless service revenue as we wind down the wireless operations. For the nine months ended September 30, 2014, service revenue was \$763.6 million, a decrease of \$18.7 million compared to the same period in 2013. Of this decrease, \$15.2 million was due to the deconsolidation of CyrusOne's results of operations from our consolidated financial statements. Excluding the impact of CyrusOne, service revenue for the nine months ended September 30, 2014 decreased by \$3.5 million year-over-year, primarily driven by lower wireless service revenue of \$32.0 million. This decrease was partially offset by growth in wireline service revenue and managed and professional services revenues of \$11.4 million and \$17.1 million, respectively.

Product revenue totaled \$78.1 million in the three months ended September 30, 2014, an increase of \$22.7 million compared to the same period in 2013. For the nine months ended September 30, 2014, product revenue was \$206.3 million, an increase of \$40.1 million compared to the same period in 2013. Increased sales of telecommunications and IT hardware of \$26.7 million and \$47.0 million for the three and nine months ended September 30, 2014, respectively, were partially offset by lower Wireless handset and accessory sales.

Cost of services was \$115.7 million in the three months ended September 30, 2014, up \$8.3 million to support the growth in our strategic products. Wireless cost of services was down \$2.4 million as a result of a declining subscriber base. For the nine months ended September 30, 2014, cost of services was \$331.2 million, an increase of \$11.1 million from the comparative period in 2013 as a result of the same trends affecting the quarterly results.

Cost of products sold was \$63.8 million in the three months ended September 30, 2014 compared to \$52.5 million in the same period in 2013. For the nine months ended September 30, 2014, cost of products sold was \$184.2 million, an increase of \$23.8 million compared to the same period in 2013. The cost increases in both the three and nine-month periods ended September 30, 2014 primarily reflect higher costs from higher sales of telecommunications and IT hardware, partially offset by a reduction in wireless costs due to lower handset and accessory sales.

Selling, general and administrative ("SG&A") expenses were \$57.5 million in the three months ended September 30, 2014, an increase of \$3.9 million compared to the same period in 2013. Corporate expenses were up \$1.7 million primarily driven by legal and consulting fees and increased payroll costs. Wireline and IT Services and Hardware costs were up \$2.9 million and \$3.5 million to support growth in our strategic products. Wireline costs were also up due to IT outsourcing. Partially offsetting this increase was a \$4.2 million decrease in Wireless SG&A expenses due primarily to cost containment efforts as we begin to wind down operations. For the nine months ended September 30, 2014, SG&A expenses totaled \$167.4 million, up \$6.0 million compared to the same period in 2013. CyrusOne SG&A expenses were \$2.4 million prior to the IPO. Excluding CyrusOne, SG&A expenses increased \$8.4 million compared to the prior year. The change for nine months ended September 30, 2014 compared to the prior year excluding CyrusOne was due to the same factors impacting the quarterly results and unfavorable changes in mark-to-market of \$6.7 million for stock-based compensation grants indexed to the Company's stock price.

Depreciation and amortization expense totaled \$61.4 million and \$168.6 million, respectively, in the three and nine months ended September 30, 2014, up \$21.6 million and \$41.0 million from the same periods in 2013. Excluding CyrusOne, depreciation and amortization increased \$46.2 million for the nine months ended September 30, 2014. The increase in depreciation expense is primarily due to reducing the useful life of our long-lived wireless assets as a result of a continued decline in our subscriber base and the agreement to sell our wireless spectrum licenses and certain other assets. The change in the estimated useful life of the remaining property, plant and equipment is expected to increase depreciation expense for our Wireless segment by approximately \$60 million in 2014 as compared to the prior year.

The remaining increase for the three and nine months ended September 30, 2014 is due to additional fiber assets placed in service to support our strategic products.

Transaction-related compensation was \$42.6 million in the nine months ended September 30, 2013, of which \$20.0 million was related to CyrusOne employees. In 2010, the Company's Board of Directors approved a long-term incentive program for certain members of management under which payments were contingent upon the completion of a qualifying transaction and attainment of an increase in the equity value of the data center business, as defined in the plan. The completion of the IPO during 2013 resulted in a qualifying transaction requiring payment of compensation to the employees covered under this plan. No such transaction-related compensation has occurred in 2014.

Restructuring charges were \$9.0 million and \$15.4 million for the three and nine months ended September 30, 2014, respectively. Charges incurred in the third quarter of 2014 include \$0.7 million of severance costs and \$9.6 million of contract termination fees related to winding down wireless operations. These charges were partially offset by a \$1.3 million reduction to the lease abandonment reserve related to certain leased space being reoccupied during the third quarter of 2014. The year to date expense also includes \$1.2 million for employee separations related to outsourcing certain aspects of our IT department. Wireless wind down costs in the second quarter of 2014 included \$2.3 million for employee severance and \$2.9 million for contract termination fees. Charges incurred during the comparative periods of 2013 represented severance costs, expenses related to lease abandonments and fees associated with a workforce optimization initiative.

The wireless segment recorded an asset impairment charge of \$7.5 million in the three months ended September 30, 2014 for certain construction-in-progress projects that will no longer be completed due to the wind down of the business. No such costs were incurred in 2013.

During the three months ended June 30, 2013, the Company amended the management pension plan to eliminate all future pension service credits effective July 1, 2013. As a result, the Company remeasured its projected benefit obligation for this plan and recognized a curtailment gain of \$0.6 million in the quarter. No such curtailment gains or losses were recognized during the comparative period in 2014.

During the nine months ended September 30, 2014, the Company recognized a nominal amount of gain on the sale of copper cabling in the Wireline segment that was offset slightly by a loss on the sale of corporate assets. Gain on sale or disposal of assets was \$0.2 million for the three months ended September 30, 2013, which was recognized on the sale of copper cabling no longer in use in the Wireline segment. Loss on the sale or disposal of assets was \$2.6 million for the nine months ended September 30, 2013. The year-to-date losses were attributable to \$4.4 million of wireline and wireless network equipment with no resale market. The equipment was removed from service and either disconnected from the existing networks, abandoned or demolished. These losses were partially offset by gains of \$1.8 million recognized for the nine months ended September 30, 2013 from the sales of Wireline copper cabling no longer in use.

The amortization of the deferred gain for the three and nine months ended September 30, 2014 totaled \$6.4 million and \$16.5 million, respectively, compared to \$0.5 million and \$1.7 million for the same periods in 2013. The change in the useful life of our long-lived wireless assets, excluding the spectrum licenses, resulted in the acceleration of the amortization of the deferred gain in the first half of 2014. In December 2009, the Company sold 196 wireless towers for \$99.9 million in cash proceeds and leased back a portion of the space on these towers for a term of 20 years, which resulted in a deferred gain of \$35.1 million. The change in useful life is expected to result in approximately \$20 million of additional deferred gain amortization to be recognized in 2014.

Transaction costs related to the sale of our wireless spectrum and certain other assets totaled \$3.7 million for the first three quarters of 2014. Transaction costs were \$0.5 million and \$1.6 million in the three and nine months ended September 30, 2013, respectively. These costs represent costs associated with exploring strategic alternatives for our wireless business, legal and consulting costs incurred to restructure our legal entities in preparation for CyrusOne's IPO and to prepare CyrusOne to be a real estate investment trust.

Interest expense was \$35.8 million and \$116.8 million for the three and nine months ended September 30, 2014, respectively. Interest expense was \$46.7 million and \$140.0 million in the same periods of 2013. The decrease was primarily due to the Company amending its Corporate Credit Agreement to include a \$540 million Tranche B Term Loan and using the proceeds to redeem all of the Company's \$500 million 8 1/4% Senior Notes on October 15, 2013. On August 8, 2014, the Company redeemed \$325.0 million outstanding 8 3/4% Senior Subordinated Notes due 2018 at a redemption price of 104.375%. In addition, the deconsolidation of CyrusOne in January 2013 resulted in a \$2.5 million decrease compared to the nine month period ended September 30, 2013.

The Company recorded a loss on extinguishment of debt totaling \$19.4 million in the third quarter of 2014 related to the redemption of \$325.0 million 8 3/4% Senior Subordinated Notes due 2018.

Loss from CyrusOne equity method investment was \$1.9 million in the nine months ended September 30, 2014. For the third quarter of 2014, a nominal gain was recorded. These results represent the Company's share of CyrusOne's net

income which, effective with the IPO date of January 24, 2013, is recorded using the equity method. In the comparative periods of 2013, our portion of CyrusOne's loss totaled \$1.5 million and \$8.1 million, respectively.

In the second quarter of 2014, the Company recognized a \$192.8 million gain on the sale of 16.0 million CyrusOne LP partnership units. Following the sale, we own approximately 44% of CyrusOne through our ownership of 1.9 million shares of CyrusOne's common stock and approximately 26.6 million CyrusOne LP partnership units.

The income tax benefit for the three months ended September 30, 2014 was \$11.7 million compared to expense of \$1.4 million in the same period in 2013. This was primarily driven by pre-tax losses of \$39.0 million in the current quarter compared to \$10.7 million of pre-tax income in the same period of the prior year, as well as a higher effective tax rate in 2014. For the nine months ended September 30, 2014, income tax expense was \$68.8 million compared to \$3.6 million in the first three quarters of 2013. The year over year increase in tax expense was due primarily to higher pre-tax income predominately caused by the gain on the sale of operating partnership units in CyrusOne and gain on the sale of wireless spectrum licenses. The increase was offset by a valuation allowance provision of \$10.7 million for Texas margin credits, which effective with CyrusOne's IPO on January 24, 2013, are uncertain of being realized before their expiration date.

For 2014, the Company expects its effective tax rate to be higher than statutory rates, primarily due to non-deductible expenses, including interest on securities originally issued to acquire its broadband business or securities that the Company has subsequently issued to refinance those securities. The Company believes the full year 2014 effective tax rate will approximate the actual September 2014 year-to-date effective tax rate. The Company expects to use federal and state net operating loss carryforwards to substantially defray payment of federal and state tax liabilities in 2014.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Wireline

The Wireline segment provides products and services such as data transport and high-speed internet, local voice, long distance and VoIP, entertainment, and other services. Cincinnati Bell Telephone Company LLC ("CBT"), a subsidiary of the Company, is the Incumbent Local Exchange Carrier ("ILEC") for a geography that covers a radius of approximately 25 miles around Cincinnati, Ohio, and includes parts of northern Kentucky and southeastern Indiana. CBT has operated in this territory for more than 140 years. Voice and data services beyond its ILEC territory, particularly in Dayton and Mason, Ohio, are provided through the operations of Cincinnati Bell Extended Territories LLC ("CBET"), a competitive local exchange carrier ("CLEC") and subsidiary of CBT. The Company provides long distance and VoIP services primarily through its Cincinnati Bell Any Distance Inc. ("CBAD") and eVolve Business Solutions LLC ("eVolve") subsidiaries.

Revenue

Data revenue consists of Fioptics and DSL internet access, data transport and interconnection services. Data revenue was \$84.1 million for the three months ended September 30, 2014, an increase of \$4.5 million compared to the same period in 2013. Strategic data revenue was \$38.8 million in the third quarter, up \$7.1 million compared to the prior year. Revenue from Fioptics internet services was up \$4.7 million year-over-year, due largely to an increased subscriber base totaling 106,700 as of September 30, 2014. Strategic business revenue totaled \$26.1 million, including \$1.1 million from Fioptics, up 9% from the prior year. Legacy data revenue was \$45.3 million for the three months ended September 30, 2014, down \$2.6 million compared to the same period in 2013. This decrease is primarily due to our business customers migrating to higher bandwidth data transport products and a 14% decline in DSL customers as a result of switching to higher speed internet products.

For the nine months ended September 30, 2014, data revenue was \$251.3 million, an increase of \$14.4 million from the comparative period in 2013. For the nine months ended September 30, 2014, strategic data revenue totaled \$111.4 million, up \$23.0 million compared to the same period in 2013. Revenues from Fioptics internet services totaled \$32.7 million, up 65% compared to the prior year. Strategic business revenue, including \$2.6 million from Fioptics, totaled \$76.8 million, up 11% from a year ago. Legacy data revenue was \$139.9 million for the nine months ended September 30, 2014, down \$8.6 million compared to the same period in 2013.

Voice local service revenue includes local service, digital trunking, switched access and information services and other value-added services such as caller identification, voicemail, call waiting and call return. Voice local service revenue was \$49.6 million in the three months ended September 30, 2014, down \$7.0 million compared to the same period in 2013. Strategic voice service revenue was \$5.3 million in the third quarter, up \$0.7 million compared to 2013, primarily due to the increase in Fioptics voice lines. Legacy voice service revenue was \$42.6 million in the third quarter, down \$7.7 million compared to the same period in 2013. The decrease is primarily due to a 9% decrease in local access lines compared to a year ago. Access line losses were higher in the third quarter of 2014 compared to the previous quarter due to on-going changes in the housing market and former wireless subscribers who also disconnected their access line. Integration revenue was \$1.7 million in the third quarter, consistent with prior year. For the nine months ended September 30, 2014, voice local service revenue was \$154.6 million, down \$19.8 million from the comparable prior period. Strategic voice service revenue was \$15.5 million for the nine months ended September 30, 2014, a \$2.4 million increase from the prior year due to the increase in Fioptics voice lines. Legacy voice service revenue was \$134.0 million for the nine months ended September 30, 2014, a \$21.9 million decrease compared to the same period a year ago due to the decrease in access lines. The segment continues to lose access lines as a result of, among other factors, customers electing to solely use wireless service in lieu of traditional local wireline service, Company-initiated disconnections of customers with credit problems, and customers electing to use service from other providers. Integration revenue totaled \$5.1 million for the nine months ending September 30, 2014 down \$0.3 million as compared to the prior year.

Long distance and VoIP revenue was \$26.9 million for the three months ended September 30, 2014, consistent with the same period in 2013 as the growth in strategic products offset legacy declines. Strategic revenue was \$14.8 million, an increase of \$1.9 million compared to the same period in 2013, due largely to the growth in VoIP and wide area network services. Legacy revenue was \$11.6 million, a decrease of \$1.3 million compared to 2013. As of September 30, 2014, long distance subscriber lines were 371,400, a 7% decrease from a year ago due to both consumer and business customers migrating to VoIP or wireless services.

For the nine months ended September 30, 2014, long distance and VoIP revenue totaled \$80.6 million, consistent with the same period in 2013. Strategic revenue was \$43.0 million, an increase of \$5.2 million compared to 2013. Legacy revenue was \$35.9 million, a decrease of \$3.5 million compared to the prior year, as we continue to lose long distance subscribers. Integration revenue decreased by \$1.6 million in the first three quarters as compared to the prior year. Entertainment revenue was \$19.5 million and \$54.9 million for the three and nine-month periods ended September 30, 2014, respectively, an increase of 35% and 39% over the comparative periods in 2013. The higher entertainment

revenue was directly related to the 26% increase in Fioptics entertainment subscribers and the 6% increase in monthly average revenue per user. The Company continues to expand its Fioptics service area as there is a strong consumer demand for this service.

Wireline, continued

Costs and Expenses

Cost of services and products was \$76.9 million in the three months ended September 30, 2014, an increase of \$4.5 million compared to the same period in 2013, primarily due to \$3.5 million additional programming costs as a result of an increase in the number of Fioptics subscribers and increased programming rates. Operating tax expenses increased by \$1.2 million due to an increase in Universal Service Fund ("USF") taxes and property taxes.

For the nine months ended September 30, 2014, cost of services and products was \$221.9 million compared to \$213.4 million in the same period in 2013. Programming costs were \$10.2 million higher and operating tax expenses were up \$1.8 million for the same period. These increases were offset by lower pension and postretirement expenses.

SG&A expenses in the three and nine months ended September 30, 2014 were \$35.2 million and \$98.2 million, respectively, a year-over-year increase of \$3.5 million and \$3.8 million. For the three months and nine months ended September 30, 2014, costs were up \$1.2 million and \$1.9 million respectively, compared to the prior year, due primarily to outsourcing certain IT functions. The remaining cost increase in both periods is primarily related for costs to support expansion of our fiber network.

Depreciation and amortization expense was \$29.3 million in the three months ended September 30, 2014, a decrease of \$0.4 million compared to the same period in 2013. For the nine months ended September 30, 2014, depreciation and amortization expense was \$85.6 million, an increase of \$1.8 million from the comparative period in 2013. This increase is primarily attributable to new assets placed in service in connection with the expansion of our fiber network.

Restructuring reversal for the three months ended September 30, 2014 of \$1.3 million relates to a lease abandonment reserve for vacant floors that were reoccupied. This is offset for the nine months ended September 30, 2014 by severance charges recorded in the second quarter for outsourcing certain functions of our IT department. No such charges or credits were recorded for the three months ended September 30, 2013. Restructuring charges were \$5.8 million for the nine months ended September 30, 2013, of which \$3.8 million associated with remaining obligations on abandoned leases, \$1.4 million of severance and \$0.6 million for canceled distributor agreements.

The curtailment gain of \$0.6 million was due to a remeasurement of the Company's projected benefit obligation following an amendment to the management pension plan during the second quarter in 2013 that eliminated all future pension service credits as of July 1, 2013.

The gain on sale or disposal of assets for the nine months ended September 30, 2014 was \$0.2 million and is related to the sale of copper cabling that was no longer in use. The gain on sale or disposal of assets of \$0.9 million for the nine months ended September 30, 2013 was due to a \$1.8 million gain from the sale of copper cabling that was no longer in use, partially offset by \$0.9 million of network equipment with no resale value that was removed from service during the second quarter of 2013. No such gain was recorded for the three months ended September 30, 2014.

Capital Expenditures

Capital expenditures are incurred to expand our Fioptics product suite, upgrade our DSL network, and to maintain our wireline network. Capital expenditures were \$41.8 million and \$106.1 million for the three and nine months ended September 30, 2014, respectively. In line with our planned capital expenditures, we expect to pass an additional 15,000 units with Fioptics for the remainder of the year. As of September 30, 2014, the Company is able to provide Fioptics services to 323,000 residential and business addresses, an increase of 25% compared to 2013.

IT Services and Hardware

The IT Services and Hardware segment provides a full range of managed IT solutions, including managed infrastructure services, IT and telephony equipment sales, and professional IT staffing services. These services and products are provided in multiple geographic areas including locations in the U.S., Canada and Europe. By offering a full range of equipment and outsourced services in conjunction with the Company's wireline network, the IT Services and Hardware segment provides end-to-end IT and telecommunications infrastructure management designed to reduce cost and mitigate risk while optimizing performance for its customers.

Capital expenditures	\$3.5	\$2.7	\$0.8	30	%	\$8.5	\$7.6	\$0.9	12	%

Revenue

Revenue from telecom and IT equipment distribution represents the sale, installation, and maintenance of major, branded IT and telephony equipment. Managed and professional services revenue consists of managed VoIP solutions and IT services that include network management, electronic data storage, disaster recovery and data security management, as well as both long and short-term IT outsourcing and consulting engagements.

Strategic managed and professional services revenue was \$35.0 million for the three months ended September 30, 2014, an increase of \$4.6 million compared to the same period in 2013. The revenue increase was primarily due to higher demand for our managed services from the Company's largest customer. For the nine months ended September 30, 2014, strategic managed and professional services revenue was \$101.7 million, an increase of \$15.1 million from the comparative period in 2013, also the result of increased demand for the Company's managed services primarily from our enterprise customers. Integration revenue totaled \$85.0 million and \$221.8 million for the three and nine months ended September 30, 2014, an increase of \$27.9 million and \$50.4 million, respectively. The increase is due to increased telecom and IT equipment distribution revenue reflecting the cyclical fluctuation in capital spending by our enterprise customers which may be influenced by many factors, including the timing of customers' capital spend, the size of capital budgets and general economic conditions.

Costs and Expenses

Cost of services and products was \$94.4 million and \$259.7 million for the three and nine months ended September 30, 2014, respectively, an increase of \$25.0 million and \$50.2 million compared to the same period in

2013. These increases were largely driven by increased cost of goods sold related to higher equipment sales and increased payroll and contract services costs incurred to support the growth in managed and professional services.

35

IT Services and Hardware, continued

SG&A expenses were \$14.5 million in the three months ended September 30, 2014, an increase of \$3.3 million compared to the same period in 2013. For the nine months ended September 30, 2014, SG&A expenses totaled \$38.9 million, a \$5.2 million increase over the comparative period in 2013. These increases were largely the result of a one-time employment contract termination fee and higher payroll and sales commissions related to the revenue growth from professional services and telecom and IT equipment distributions.

Depreciation expense was \$3.0 million and \$8.6 million in the three and nine months ended September 30, 2014, respectively, compared to \$2.5 million and \$7.5 million during the same periods in 2013. The year-over-year increases in depreciation expense were driven by new assets placed in service.

Restructuring charges of \$0.7 million in the nine months ended September 30, 2013 were associated with employee severance. No such costs were incurred in 2014.

Capital Expenditures

Capital expenditures were \$3.5 million and \$8.5 million during the three and nine months ended September 30, 2014, respectively, compared to \$2.7 million and \$7.6 million during the same periods in the prior year. Fluctuations in capital expenditures, to a large extent, are due to the timing of spending on equipment to support managed service projects.

Cincinnati Bell Inc.

Wireless

On April 6, 2014, we entered into agreements valued at approximately \$210 million to sell our wireless spectrum licenses and certain other assets related to our wireless business, including leases to certain wireless towers and related equipment and other assets. The agreement to sell our spectrum licenses closed on September 30, 2014.

Simultaneously, the agreement to use certain wireless spectrum licenses became effective. We plan to provide wireless service until the later of April 6, 2015 and 90 days after the closing of the spectrum sale.

* The Company has presented certain information regarding monthly average revenue per user ("ARPU") because it believes ARPU provides a useful measure of the operational performance of its Wireless segment. ARPU is calculated by dividing service revenue by the average subscriber base for the period.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Wireless, continued

Operations

As a result of the agreements entered into and our intention to no longer operate a wireless business after the later of April 6, 2015 and 90 days after the close of the wireless spectrum sale, current year results are not comparable to prior periods. In addition, in August 2014, we eliminated early termination fees allowing customers to switch wireless carriers without penalty. Effective July 1, 2014 we eliminated our lifeline program.

The year over year decline in revenue is directly related to the accelerated decline in our subscriber base, which we expect will further increase in the fourth quarter for both postpaid and prepaid subscribers. Postpaid ARPU has increased from the prior year due to a higher percentage of our remaining customers using a smartphone data plan as compared to the customer mix in the prior year.

The cost of services and products decrease is largely due to significantly fewer subscribers and lower roaming charges and handset subsidies. SG&A expenses are down as we are aggressively identifying opportunities to minimize costs as we wind down operations. Restructuring charges totaled \$15.5 million for the nine months ended September 30, 2014 and relate to \$12.5 million for contract termination fees and \$3.0 million for employee severance charges. Wireless also incurred \$2.8 million in transaction costs related to the agreements. Additional one-time charges related to shutting down operations are expected to range between \$5 and \$10 million and will be reported when incurred.

The increase in depreciation expense is the result of reducing the useful life of our long-lived assets due to the continued decline in our subscriber base and in conjunction with the agreement to sell our wireless spectrum licenses and certain other assets. The change in the estimated useful life of the remaining property, plant and equipment is expected to increase depreciation expense by approximately \$60 million for 2014.

The asset impairment charge of \$7.5 million was recorded in the three months ended September 30, 2014 for the write-off of certain construction-in-progress projects that will no longer be completed due to the wind down of the business.

The amortization of the deferred gain for the three and nine months ended September 30, 2014 totaled \$6.4 million and \$16.5 million, respectively, compared to \$0.5 million and \$1.7 million for the same periods in 2013. The changes in the useful life of our long-lived wireless assets, excluding the spectrum licenses, resulted in the acceleration of the amortization of the deferred gain in the first three quarters of 2014. In December 2009, the Company sold 196 wireless towers for \$99.9 million in cash proceeds, and leased back a portion of the space on these towers for a term of 20 years, which resulted in a deferred gain of \$35.1 million. The change in useful life is expected to result in approximately \$20 million of additional deferred gain amortization to be recognized in 2014.

Data Center Colocation

The Data Center Colocation segment provided enterprise customers with outsourced data center operations, including necessary redundancy, security, power, cooling, and interconnection. Upon completion of the IPO of CyrusOne on January 24, 2013, we no longer control the operations of CyrusOne and account for our investment in CyrusOne using the equity method. For the three months ended March 31, 2013, revenues and expenses represent revenues earned and operating expenses incurred during the period January 1, 2013 to January 23, 2013 when CyrusOne's results were included in our consolidated financial statements.

Form 10-Q Part I

Cincinnati Bell Inc.

Financial Condition, Liquidity, and Capital Resources

As of September 30, 2014, the Company had \$1,898.9 million of outstanding indebtedness and an accumulated deficit of \$3,169.6 million. A significant amount of the Company's indebtedness and accumulated deficit resulted from the purchase and operation of a national broadband business, which was sold in 2003.

The Company's primary source of cash is generated by operations. The Company generated \$120.8 million and \$59.8 million of cash flows from operations during the nine months ended September 30, 2014 and 2013, respectively. As of September 30, 2014, the Company had \$311.2 million of short-term liquidity, comprised of \$158.8 million of cash and cash equivalents, \$150.0 million of undrawn capacity on the Corporate Credit Agreement and \$2.4 million available under the Receivables Facility. Short-term liquidity does not include cash of \$22.7 million used to redeem a portion of the outstanding 8 ³/₈% Senior Subordinated Notes due 2020 at par on October 1, 2014.

As of September 30, 2014, the Company had \$112.4 million of borrowings and \$5.2 million of letters of credit outstanding under the Receivables Facility, leaving \$2.4 million remaining availability on the total borrowing capacity of \$120.0 million. The Receivables Facility is subject to renewal annually. While we expect to continue to renew this facility, we would be required to use cash, our Corporate Credit Agreement or other sources to repay any outstanding balance on the Receivables Facility if it were not renewed.

The Company's primary uses of cash are for capital expenditures and debt service and, to a lesser extent, to fund pension and retiree medical obligations and preferred stock dividends. The Company believes that its cash on hand, cash generated from operations, and available funding under its credit facilities will be adequate to meet its cash requirements in 2014. In addition, management expects that the Company will continue to have access to the capital markets to refinance debt and other obligations should such a need arise in the near future.

As of September 30, 2014, the fair value of our ownership interests in CyrusOne was \$684.9 million. On June 25, 2014, we sold 16.0 million partnership units in CyrusOne's operating partnership, CyrusOne LP. As of September 30, 2014, we effectively own 44% of CyrusOne, which is held in the form of 1.9 million shares of CyrusOne common stock and approximately 26.6 million CyrusOne LP partnership units. We intend to sell down our remaining ownership interest in CyrusOne and use the proceeds primarily to repay long-term debt to achieve leverage ratios more comparable to other telecommunication companies and for other general corporate purposes. Our amended Corporate Credit Agreement obligates us to use 85% of the proceeds from any sales of CyrusOne towards debt repayments.

Cash Flows

Cash provided by operating activities during the nine months ended September 30, 2014 totaled \$120.8 million, an increase of \$61.0 million compared to the same period in 2013. The increase is primarily due to 2013 transaction related compensation totaling \$42.6 million combined with lower interest and pension payments and improved working capital in 2014.

Cash flows provided by investing activities during the nine months ended September 30, 2014 amounted to \$447.9 million, compared to cash used by investing activities totaling \$137.8 million in the same period in 2013. The increase was primarily driven by the \$355.9 million of proceeds received on the sale of CyrusOne partnership units. Cash proceeds totaling \$194.4 million were received on September 30, 2014 as a result of the completed wireless spectrum sale. The deconsolidation of CyrusOne in 2013 increased cash used in investing activities by \$19.5 million for the period January 1, 2013 through January 23, 2013. Excluding CyrusOne, capital expenditures were down \$13.2 million from the prior year largely due to timing of payments and a decreased investment in the wireless network. Dividends received from CyrusOne were up \$8.2 million compared to the prior year.

Cash flows used by financing activities during the nine months ended September 30, 2014 were \$391.8 million, compared to \$468.1 million provided by financing activities during the same period in 2013. The decrease was primarily driven by the Tranche B Term Loan proceeds of \$536.0 million received in the third quarter of 2013. Debt repayments totaling \$350.6 million in 2014 were primarily due to the redemption of \$325.0 million 8 ³/₄% Senior Subordinated Notes due 2018 at a redemption rate of 104.375%. In the first nine months of 2014, we repaid \$33.8 million of the outstanding balances on the Corporate Credit Agreement and Receivables Facility, compared to

repaying \$52.0 million in the same period of 2013.

Cincinnati Bell Inc.

Debt Covenants

Corporate Credit Agreement

The Corporate Credit Agreement financial covenants require that we maintain certain leverage and interest coverage ratios and limit our cumulative spending on capital expenditures. The facility also contains certain covenants which, among other things, limit the Company's ability to incur additional debt or liens, pay dividends, repurchase Company common stock, sell, transfer, lease, or dispose of assets, and make investments or merge with another company. If the Company was to violate any of its covenants and was unable to obtain a waiver, it would be considered a default. If the Company was in default under its Corporate Credit Agreement, no additional borrowings under the Corporate Credit Agreement would be available until the default was waived or cured. The Company is in compliance with all of its Corporate Credit Agreement covenants.

The Company's most restrictive covenants are generally included in its Corporate Credit Agreement. In order to continue to have access to the amounts available to it under the revolving facility, the Company must remain in compliance with all of the covenants. The following table presents the calculations of the most restrictive debt covenant, the Consolidated Total Leverage Ratio, as of and for the twelve months ended September 30, 2014:

(dollars in millions)

Consolidated Total Leverage Ratio	5.19
Maximum ratio permitted for compliance	6.50
Consolidated Funded Indebtedness additional availability	\$451.6
Consolidated EBITDA clearance over compliance threshold	\$69.5

Definitions and components of these calculations are detailed in our Corporate Credit Agreement and can be found in the Company's Form 8-K filed on September 10, 2013.

The Company's ability to make restricted payments, which include share repurchases and common stock dividends, is limited to a total of \$15 million given that its Consolidated Total Leverage Ratio, as defined in the Corporate Credit Agreement, exceeds 3.50 to 1.00 as of September 30, 2014. The Company may make restricted payments of \$45 million annually when the Consolidated Total Leverage Ratio is less than or equal to 3.50 to 1.00. There are no limits on restricted payments when the Consolidated Total Leverage Ratio is less than or equal to 3.00 to 1.00. These restricted payment limitations do not impact the Company's ability to make regularly scheduled dividend payments on its 6 ³/₄% Cumulative Convertible Preferred Stock. Furthermore, the Company may make restricted payments in the form of share repurchases or dividends up to 15% of CyrusOne proceeds, subject to a \$35 million annual cap with carryovers.

Effective November 6, 2014, Cincinnati Bell Inc. amended its Corporate Credit Agreement to, among other things, modify certain financial covenants governing leverage ratios and capital expenditures.

Public Bond Indentures

The Company's 8 ³/₄% Senior Subordinated Notes due 2018 and the 8 ³/₈% Senior Notes due 2020 contain covenants that, among other things, limit the Company's ability to incur additional debt or liens, pay dividends or make other restricted payments, sell, transfer, lease, or dispose of assets and make investments or merge with another company. The Company is in compliance with all of its public debt indentures.

One of the financial covenants permits the issuance of additional indebtedness up to a 4:00 to 1:00 Consolidated Adjusted Senior Debt to EBITDA Ratio (as defined by the individual indentures). Once the Company exceeds this ratio, the Company is not in default under the terms of the indentures; however, additional indebtedness may only be incurred in specified permitted baskets, including a basket which allows \$900 million of total Corporate Credit Agreement debt (Revolver and Term Loans). We also have baskets for capital lease incurrences, borrowings against

the Receivables Facility, refinancings of existing debt, and other debt incurrences. In addition, the Company's ability to make restricted payments, which include share repurchases, repayment of subordinated notes and common stock dividends, would be limited to specific allowances. As of September 30, 2014, the Company was below the 4:00 to 1:00 Consolidated Adjusted Senior Debt to EBITDA ratio, and the Company has access to the restricted payments basket which exceeded \$500 million as of September 30, 2014.

Share Repurchase Plan

In 2010, the Board of Directors approved a plan for the repurchase of the Company's outstanding common stock in an amount up to \$150.0 million. In prior years, the Company repurchased and retired a total of 7.4 million shares at a total cost of \$20.8 million. The Company did not repurchase any additional shares during the nine months ended September 30, 2014. As of September 30, 2014, the Company has the authority to repurchase its common stock with a value of up to \$129.2 million under the plan approved by its Board of Directors, subject to satisfaction of the requirements under its bond indentures.

Regulatory Matters

Refer to the Company's Annual Report on Form 10-K for the year ended 2013 for a complete description of regulatory matters.

Cincinnati Bell Inc.

Contingencies

In the normal course of business, the Company is subject to various regulatory and tax proceedings, lawsuits, claims, and other matters. The Company believes adequate provision has been made for all such asserted and unasserted claims in accordance with accounting principles generally accepted in the United States. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance.

Future Operating Trends

Refer to the Company's Annual Report on Form 10-K for the year ended 2013 for a complete description of all the Company's future operating trends.

Wireless

The agreement to sell our wireless spectrum licenses closed on September 30, 2014 and we are required to cease providing wireless service by the later of April 6, 2015 and 90 days after the transfer of the licenses. The wireless segment and the wireline segment currently share costs associated with certain functions such as network, call center operations, shared services and retail stores. Subsequent to shutting down our wireless operations, certain of these costs will be absorbed by the remaining segments.

Wireline

Based on historical success and the continued demand for our Fioptics suite of services, we have communicated a plan to accelerate our fiber investment over the next two years. The accelerated strategy will require additional capital expenditures, additional costs to hire and train field technicians, sales representatives and shared service support as well as costs for increased operating material. We will continue to monitor key operational and financial metrics as all investments remain success based. Our accelerated plan includes providing Fioptics to between 70% and 80% of our operating territory by the end of 2016. The impact of this strategy is expected to increase revenue, profits and cash flows.

Critical Accounting Policies

The Company's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. Application of these principles requires management to make estimates or judgments that affect the amounts reported in the accompanying condensed consolidated financial statements and information available as of the date of the financial statements. As this information changes, the financial statements could reflect different estimates or judgments. The Company's most critical accounting policies and estimates are described in its Annual Report on Form 10-K for the year ended December 31, 2013. Updates to our critical accounting policies are described below:

Reviewing the Carrying Values of Long-Lived Assets - In conjunction with our long-lived asset impairment analysis conducted in the fourth quarter of 2013, we reassessed the useful lives of all our Wireless property, plant and equipment. The remaining useful life for all Wireless property, plant, and equipment assets was reduced to 30 months as of December 31, 2013. In the second quarter of 2014, following the agreement to sell our wireless spectrum licenses and certain other assets, we reduced the useful life of the assets not included in the sale to be fully depreciated as of March 31, 2015. As a result of these changes in estimate, depreciation expense increased by approximately \$50 million for the nine months ended September 30, 2014. In the third quarter of 2014, we recorded a \$7.5 million asset impairment for costs associated with wireless capital projects in process that we abandoned subsequent to completing the agreement to sell our wireless spectrum licenses.

Recently Issued Accounting Standards

Refer to Note 1 of the condensed consolidated financial statements for further information on recently issued accounting standards. The adoption of new accounting standards did not have a material impact on the Company's financial results for the three and nine months ended September 30, 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a description of the Company's market risks.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in SEC Rule 13-a-15(e)) as of the end of the period covered by this report. Based on this evaluation, Cincinnati Bell Inc.'s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, such controls and procedures were effective.

(b) Changes in internal control over financial reporting.

Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated any changes in the Company's internal control over financial reporting that occurred during the third quarter of 2014 and have concluded that there were no changes to Cincinnati Bell Inc.'s internal control over financial reporting during the third quarter of 2014 that materially affect, or are reasonably likely to materially affect, Cincinnati Bell Inc.'s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Cincinnati Bell Inc. and its subsidiaries are involved in a number of legal proceedings. Liabilities are established for legal claims when losses associated with the claims are judged to be probable, and the loss can be reasonably estimated. In many lawsuits and arbitrations, including most class action lawsuits, it is not possible to determine whether a liability has been incurred or to estimate the amount of the liability until the case is close to resolution, in which case a liability will not be recognized until that time. Based on information currently available, consultation with counsel, available insurance coverage and recognized liabilities, the Company believes that the eventual outcome of all claims will not, individually or in the aggregate, have a material effect on the Company's financial position or results of operations.

Item 1A. Risk Factors

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a comprehensive listing of the Company's risk factors.

The tentative agreement with the Communications Workers of America ("CWA") on the terms of a new labor contract was not ratified by local members of the union and the two parties have resumed negotiations. If resolution is not achieved, a work force stoppage could occur resulting in a negative effect on our revenue, operating income and cash flows.

On September 30, 2014 we closed the agreement to sell our wireless spectrum licenses. We are required to cease wireless operations by the later of April 6, 2015 and 90 days after the close of the wireless spectrum sale. Should we still have wireless subscribers at that time, we would be subject to penalty per terms of the agreement. Subsequent to discontinuing wireless operations, we will start the process of decommissioning the network and removing assets and equipment from our remaining tower leases. Any unforeseen complications or delays could negatively impact profitability and cash flows.

We expect to accelerate the pace of investment in our Fioptics suite of products. If those costs significantly exceed expectations or if the acceleration does not generate the expected increase in subscribers, it could result in a negative effect on our revenue, operating income and cash flows.

There were no other material changes for the three and nine month periods ending September 30, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the nine-month period ended September 30, 2014, the Company had no unregistered sales of equity securities. The Company also had no purchases of its common stock during the nine-month period ended September 30, 2014.
