Number and Terms of Office of Directors

Our Articles of Incorporation provide for three classes of directors, with one class to be elected at each annual meeting for a three-year term. The size of the board is currently set at ten members.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities and Exchange Act of 1934 requires our directors, executive officers and 10% shareholders to file with the SEC initial reports of ownership and reports of changes in ownership of our equity securities, and to furnish us with copies of all the reports they file. The Company has also adopted an Insider Trading Policy. Based on reports and representation of our directors, executive officers, and greater than 10% shareholders, all required reports were filed timely during 2018.

Code of Conduct and Governance Guidelines

The Board has adopted a Code of Conduct and Ethics Policy and Corporate Governance Guidelines for our directors, officers and employees to promote honest and ethical conduct, full and accurate reporting, and compliance with laws as well as other matters. Copies of both documents are posted on the Investor Relations page of our website at www.midsouthbank.com. Board Independence

Each year, our CGNC Committee reviews the relationships that each director has with us and with other parties. Only those directors who do not have any relationships that keep them from being independent within the meaning of applicable NYSE rules and who the CGNC Committee finds have no relationships that would interfere with the exercise of independent judgment in carrying out their responsibilities are considered to be “independent directors.” The CGNC Committee reviews several factors to evaluate independence, including the directors’ relationships with us and our competitors, service as an advisory director or consultant pending regulatory approval to join the board, suppliers and customers; the relationships with management and other directors; the relationships their current and former employers have with us; and the relationships between us and other companies of which they are directors or executive officers. After evaluating these factors, the CGNC Committee determined all the current directors, other than Messrs. Abington and McLemore, are independent within the meaning of applicable NYSE and SEC rules. Mr. McLemore is our current President and Chief Executive Officer. Mr. Abington’s son, Leonard Clayton Abington, is the Company’s Corporate Efficiency Officer.

In determining the independence of Mr. Lemoine the CGNC Committee considered that Mr. Lemoine was engaged to provide consulting services to the Company. The CGNC Committee concluded that the limited nature of the services provided, and the \$33,379 paid to Mr. Lemoine for such services was not material and did not impair his respective independence.

Director Training

We are committed to education and training in essential “best practices” for community banking. We provide our directors with current regulatory expectations for the execution of their duties as directors of the Company and the Bank. Our directors have the opportunity to attend education programs provided by federal banking regulators, including the Office of the Comptroller of the Currency, as well as other educational sessions directed to the due and proper execution of their duties. Such educational training includes presentations to the full Board of Directors on issues such as Bank Secrecy, Act-Anti-money laundering, Regulation O, responsibilities of Boards of a Publicly Traded Institution and Sarbanes Oxley internal controls. In addition, Board members take an active role in the monitoring and development of information security, cybersecurity strategy, and risk assessment programs at the Bank.

Leadership Structure and Risk Management

The Board believes that our leadership structure, with separate persons serving as our Chairman of the Board and Chief Executive Officer (“CEO”), is in the best interest of our shareholders at this time. We believe this structure recognizes the differences between the two roles. Our CEO is responsible for setting the strategic direction for the Company and the day-to-day leadership and performance of the Company, while our Chairman of the Board provides guidance to our CEO and sets the agenda and presides over meetings of the full Board of Directors as well as all regularly scheduled executive sessions of non-management, independent directors. We believe that the role of a separate Chairman, who is also an outside director, also helps enhance the independent oversight of management of the Company and helps to ensure that the Board is engaged with the Company’s strategy and how well it is being implemented.

In addition to the roles outlined above, the Board takes an active role in overseeing the management, operations, risk, and soundness of the Company. The Bank’s Risk and Compliance Committee assures that we maintain an effective system for identifying, measuring, monitoring, and controlling entity wide risk, including cybersecurity risk. The CGNC Committee along with the Audit Committee also provides for the oversight of the quality and integrity of accounting, financial reporting, risk management, and control practices of the Company. We believe that such active Board participation strengthens the Company’s operations.

Shareholder and Interested Party Communications

Shareholders and all interested parties may communicate directly with the Board, the Chairman of the Board, the Vice Chairman of the Board, or the individual chairmen of committees by writing to them at Attn: Corporate Secretary, P.O. Box 3745, Lafayette, Louisiana 70502. We will forward, and not screen, any mail we receive that is directed to an individual, unless we believe the communication may pose a security risk.

Standing Board Committees

The Board has an Audit Committee and a CGNC Committee. Each of these committees operates pursuant to a charter. The charters are available on the Investor Relations page of our website at www.midsouthbank.com. A printed copy of each document is also available to any shareholder that requests it in writing from our Corporate Secretary.

Audit Committee.

The responsibilities of the Audit Committee are set forth in our charter. The Board has determined that each of the Audit Committee members has the requisite expertise generally required of an audit committee member under NYSE’s requirements as to independence, financial literacy and experience applicable to Audit Committee members and that the Chairman of the Audit Committee, Mr. Grant, as well as D. Michael “Mike” Kramer and James R. Davis, Jr. is each an “audit committee financial expert” as defined in Item 407(d)(5) of SEC Regulation S-K.

Corporate Governance, Nominating and Compensation Committee

The responsibilities of the CGNC Committee are set forth in our charter. The board has made a determination that each of the members of the CGNC Committee satisfies the NYSE's independence requirements for Compensation Committee members. It is responsible for making determinations of director independence, assessing overall and individual Board performance and recommending director candidates, including recommendations submitted by shareholders. In addition, it is responsible for evaluating the performance and approving the compensation of our executive officer, administering our 2007 Omnibus Incentive Compensation Plan and our 2018 Long-Term Incentive Compensation Plan ("2018 LTIP") and administering our Severance Plan.

Director Nominations

It is the CGNC Committee's policy that candidates for director have high personal and professional integrity, proven ability and judgment, and skills and expertise appropriate for serving the long-term interests of our shareholders.

While we have not adopted a written diversity policy with respect to the composition of our Board, when selecting new, non-management candidates to serve on the Board, the CGNC Committee seeks directors with diverse experiences and perspectives. The CGNC Committee considers, among other things, diverse backgrounds, professional experience, education and community involvement, as well as racial and gender diversity that would benefit the Board's deliberations and decisions. The CGNC Committee's process for identifying and evaluating nominees is as follows: (1) in the case of incumbent directors whose terms of office are set to expire, the CGNC Committee reviews their service, including the number of meetings attended, level of participation, quality of performance, and any related party transactions with us during the applicable time period; and (2) in the case of new director candidates, appropriate inquiries into their backgrounds and qualifications are made after considering the needs of the Board. The CGNC Committee meets to discuss and consider such candidate's qualifications, including whether the nominee is independent within the meaning of NYSE rules, and then recommends a candidate to the Board. In seeking potential nominees, the CGNC Committee uses its and management's network of contacts to compile a list of potential candidates, but may also engage, if it deems appropriate, a professional search firm, although to date it has not done so.

The CGNC Committee will consider director candidates nominated by shareholders who follow the procedures set out in Article IV (H) of our Articles of Incorporation. To nominate a candidate for election as a director, pursuant to Article IV (H), unless otherwise required by law, the nominating shareholder individually, or together with a nominating shareholder group, must hold at least 3% of the total voting power of the Company's securities that are entitled to be voted on the election of directors. In addition, such securities must have been held continuously for at least three years as of the date of the notice of such nomination and must continue to be held through the date of the subject election of directors. In addition, any shareholder or group that makes a nomination must confirm that he, she or they are not holding any of the Company's securities with the purpose, or with the effect, of changing control of the Company. Further, any shareholder nominee for election as a director must also meet the objective criteria for "independence" of the NYSE.

Pursuant to Article IV (H), any such shareholder nomination delivered to the Company should include the following:

as to each person whom you propose to nominate:

- his or her name, age, business address, residence address, principal occupation or employment,
- the number of shares of our stock of which the person is the beneficial owner, and
- any other information relating to the person that would be required to be disclosed in solicitations of proxies for the election of directors by Regulation 14A under the Exchange Act; and

as to the nominating shareholder or nominating shareholder group:

~~the name of the shareholder making such nomination, or if a group, the name of each shareholder in such nominating group,~~

~~the business address, or if none, residence of the nominating shareholder or members of a nominating group,~~

~~the number of shares of our stock of which such shareholder or nominating group are the beneficial owner,~~

~~a statement that the nominee, if elected, consents to serve on the Board of Directors,~~

~~the disclosures regarding the director nominee that would be required by Schedule 14A under the Exchange Act,~~

~~a description of any agreements, arrangements or relationships between the nominating shareholder or nominating group giving the notice and the nominee,~~

~~a statement regarding whether the nominating shareholder or any member of the nominating group has been involved in any litigation adverse to the Company or any of its subsidiaries within the past ten years and, if so, a description of such litigation, and~~

~~a statement that, to the best of the nominating shareholder's or nominating group's knowledge, such nominee meets the Company's director qualification standards then in effect.~~

Shareholder nominations for election must be provided to the Company no earlier than 150 calendar days, and no later than 120 calendar days, before the anniversary of the date that we mailed our proxy materials for the prior year's Annual Meeting, except that, if we did not hold an Annual Meeting during the prior year, or if the date of the meeting has changed by more than 30 days from the prior year (or if we are holding a special meeting or conducting an election of directors by written consent) then such nomination must be transmitted to us within a reasonable time before we mail proxy materials for such meeting.

An inspector, not affiliated with us and appointed by our Corporate Secretary, will determine whether the notice provisions described above were met. If they determine that you have not complied with Article IV (H), your nomination will be disregarded. The foregoing is only a summary of the shareholder nomination procedures included in Article IV (H) of our Articles of Incorporation, is not complete and is qualified in its entirety to the full text of Article IV (H). You are encouraged to read the full text of Article IV (H) prior to submitting any nomination for election as a director of the Company.

The CGNC Committee will also consider director candidates recommended (but not nominated) by shareholders so long as such recommendations are received at least 120 days before the anniversary date that we mailed our proxy materials for the prior year's annual meeting.

The CGNC Committee does not intend to alter the manner in which it evaluates candidates, including the criteria set forth above, based on whether the candidate was nominated or recommended by a shareholder or otherwise.

In addition, due to the Company's current regulatory status we must notify and receive the appropriate non-objection from the Federal Reserve Bank of Atlanta before any new director may be appointed to our Board.

Explanatory Notes to the Summary Compensation Table

The following discussion may contain statements regarding current and future individual and Company performance targets and/or goals. We have disclosed this information in the limited context of our compensation programs; therefore, these statements should not be interpreted to be management's expectations or estimates of results or other guidance. We specifically caution investors not to apply such statements to other contexts.

Executive Summary. We have prepared these Explanatory Notes to assist you in understanding our compensation programs. It is intended to explain the philosophy underlying our compensation strategy and the fundamental elements of the compensation we paid to our Chief Executive Officer and other individuals included in the Summary Compensation Table for 2018 (collectively, the "NEOs"). Our compensation programs have been designed to reward performance in order to align the NEO's interests with that of our shareholders.

Given our operation in the highly-regulated banking industry, our compensation programs must also comply with the executive compensation regulations outlined by federal agencies that oversee our operations, including the Board of Governors of the Federal Reserve System, the Office of the Comptroller of the Currency (the “OCC”), and the Federal Deposit Insurance Corporation. In recent years, such regulations have provided us with less flexibility in establishing our compensation programs than what others in the general industry may experience. In addition, in 2017 the Federal Reserve Bank of Atlanta and the OCC each notified us that the Company and the Bank have been designated to be in “troubled condition” for purposes of applicable banking regulations. As a result, the Company and the Bank may not appoint any new director or senior executive officer or change the responsibilities of any current senior executive officers without notifying the appropriate regulator. In addition, the Company and the Bank may not, except under certain circumstances, enter into any agreements to make severance or indemnification payments or make any such payments to “institution-affiliated parties” as defined in the regulations.

Overview of Elements of Compensation. The following elements as part of our compensation program for our executive officers:

Base Salary. Fixed base pay reflective of each officer’s position, individual performance, experience, and expertise.

While not at risk like incentive compensation, base salary increases are also based on aligning our NEOs with peers of our asset size as well as tied to our performance.

Annual Incentives. Generally cash awards based upon the achievement of defined performance targets under the Company’s 2018 Annual Incentive Compensation Plan (the “AICP”).

Equity-based Awards. Equity incentive awards under our 2007 Omnibus Incentive Plan and 2018 LTIP to encourage and reward long-term performance and retention.

Discretionary Bonus Awards. Payment of discretionary bonuses provides flexibility to reward levels of performance that might not otherwise be reflected in other established incentive awards.

Retirement Benefits. Includes the Employee Stock Ownership Plan (the “ESOP”) and 401(k) retirement plan.

Other Compensation. Certain executives also receive additional benefits and perquisites such as supplemental term life insurance, supplemental disability insurance, company car, cell phone, and club memberships.

In establishing the 2018 compensation program, base salary and annual incentives comprised the largest part of potential total compensation payable to the executive officers. In determining annual compensation, we consider several factors, including our goals for the upcoming year and how the various elements can be used to help achieve such goals in a prudent manner, the total compensation paid in the prior year, and the elements utilized for such compensation. In addition, regulatory restrictions on the ability to utilize certain elements also impacted our decisions. In 2018, awards to NEOs under the 2018 LTIP were issued and constructed on a performance and time basis (60% performance and 40% time based). Performance for 2018 will be measured over a three-year period for both Classified/Capital and Tangible Book Value Per Share Growth. In 2019, awards to NEOs under the Long Term Incentive Plan (LTIP) were issued and constructed on a performance and time basis (50% performance and 50% time based). Performance for 2019 will be measured over a three-year period for both Net Charge-offs/Average Loans (Asset Quality) and Return on Assets (Earnings).

Objectives of Our Compensation Programs. Our culture continues to strive for performance while prudently managing risks. We believe it is in the best interest of our shareholders and the Company to provide competitive compensation to attract and retain the most qualified executive officers with demonstrated leadership abilities that will secure our future. The CGNC Committee has the responsibility for continually monitoring the compensation paid to our NEOs as well as other executive employees. The CGNC Committee believes that compensation of our executive officers should encourage creation of shareholder value and achievement of strategic corporate objectives, while proactively managing risks associated with all such compensation programs impacting the Company, its subsidiaries, and its shareholders. Specifically, the CGNC Committee is committed to ensuring that the total compensation package for our executive officers will serve to:

- attract, retain, and motivate outstanding executive officers who add value to us based on individual and team contributions;
- provide a competitive salary structure and asset size in all markets where we operate;

- align the executive officers' interests with the long-term interests of our shareholders to enhance shareholder value;
- and
- ensure that compensation programs do not encourage excessive risk taking or pose a threat to the safety and soundness of the organization.

Process for Determining Executive Officer Compensation. The CGNC Committee annually reviews and recommends the compensation level, performance goals, and award objectives for the CEO to our Board for final approval. The Board also has the authority at all times to make decisions to withhold incentive compensation awards, earned or unearned, in the event of unforeseen occurrences that could threaten the financial viability of the organization and its shareholders. The CGNC Committee consults with the CEO on the compensation levels of the other executive officers. Based on these discussions, the CGNC Committee, along with the CEO, recommends the compensation levels for the other NEOs to the Board. The CGNC Committee has the authority to retain separate advisors, including a compensation consultant, to assist the CGNC Committee in carrying out its responsibilities.

At the 2018 Annual Meeting, the shareholders approved the 2017 compensation of our NEOs with 96% of the votes cast.

In connection with establishing the 2018 compensation program, the salaries of the NEOs were reviewed to help the CGNC Committee determine if our compensation arrangements were competitive in order to meet our goal of attracting, retaining and motivating our executive officers. The CGNC Committee reviewed limited publicly available data provided by S&P Global on few banks of similar asset size in Texas, Louisiana and Alabama. The CGNC Committee also considered salary administration information prepared by regional resources including Independent Bankers Association of Texas, Louisiana Bankers Association, and Texas Bankers Association as well as McLagan whose reports were tailored to financial institutions in the \$1 to \$4 billion asset size range and with a similar geographic footprint. The CGNC Committee did not use this data to benchmark the total compensation, or any individual element thereof. While the CGNC Committee recognized the benefit of using this data to gauge the competitiveness of the Company's compensation programs, the CGNC Committee concluded that each financial institution is unique and that significant differences between institutions regarding executive compensation practices exist. Executive compensation was determined to be in line with market data.

While the CGNC Committee recognized the benefit of using this data to gauge the competitiveness of the Company's compensation programs, the CGNC Committee concluded that each financial institution is unique and that significant differences between institutions regarding executive compensation practices exist.

Tax and Accounting Implications. We consider the tax and accounting implications regarding the delivery of different forms of compensation. We believe that the most efficient form of compensation for the executive officers is cash; therefore, we place a greater emphasis on cash compensation over other forms (i.e., equity).

Overview of 2018 Performance and Compensation.

Base Salary. We believe it is necessary and prudent to pay a portion of total compensation in the form of a competitive fixed base salary. We believe the payment of a fixed base salary to our executive officers helps maintain productivity by providing a guaranteed and dependable base amount of income. In addition, we believe utilizing base salary as a large portion of the total potential compensation helps mitigate risks as the executives do not have to meet certain operational incentives to receive the payments.

It is our goal to set specific base salary levels which appropriately reflect the role and responsibility of the executive officer. During this process the CGNC Committee considers the abilities, qualifications, accomplishments, and prior work experience of the individual as well as the overall competitiveness of the compensation package when determining the final recommendation to the Board, including whether any changes to annual base salary should be made from the prior year. The CGNC Committee approved the following base salary amounts.

	2017	2018
Named Executive Officer	Base	Base
	Salary	Salary
James R. McLemore ⁽¹⁾	\$ 305,000	\$ 340,000

Lorraine D. Miller ⁽²⁾	230,000	250,000
Christopher T. Mosteller ⁽³⁾	-	275,000

(1) Effective April 27, 2017, Mr. McLemore was named Interim President and Chief Executive Officer and on May 24, 2017 was named President and Chief Executive Officer.

(2) Ms. Miller transitioned from her role of Treasurer/Director of Mergers and Acquisitions to Chief Financial Officer effective May 24, 2017.

- (3) Mr. Mosteller transitioned from his role of Regional President of North Texas to Chief Banking Officer effective March 21, 2018.

As noted in the above chart, the responsibilities of Mr. McLemore and Ms. Miller were significantly increased in 2017 due to the changes in management in April 2017. In May 2017, changes to base salaries were made to better align base salaries to increased responsibilities and market pay for their new roles, which is reflective in 2018 base salary. Ms. Miller's base increase was effective June 1, 2017 and Mr. McLemore's increase was made effective April 27, 2017 upon his being named Interim President and Chief Executive Officer.

2018 Annual Incentives. We believe annual incentives are an important element of executive officers' compensation because they provide additional incentive and motivation to the participants to lead us in achieving success. The AICP was designed to increase shareholder value by focusing the executive officers on our goals for the year and reward them for achievement of those goals. Payments under the AICP are based on a percentage of the participant's base salary including 5% for achievement of goals at the threshold level and 30% for achievement of goals at the target level. At its discretion, the CGNC Committee may pay awards above the 30% of base salary level if results are above the target level.

Awards under the AICP are tied to the achievement of goals in up to three categories: overall Company goals, regional/departamental goals, and/or individual goals. The intent is to provide a plan that is based on what we believe are industry best practices and to provide motivation for each officer to achieve goals relative to overall Company performance (thereby aligning their interests with those of our shareholders) and goals related to an officer's specific job function. We believe the AICP also helps mitigate risks by providing each officer with two to four company-wide goals as opposed to a single goal. Having multiple goals helps ensure there is an appropriate balance of objectives, which otherwise could lead to performance inconsistencies within other areas of the organization.

	EPS	Classified/ Capital	Net C/Os + Loss on Sale of Loans	Loan Growth	Deposit Growth	Operating Expenses
James R. McLemore	20%	20%	20%	20%	20%	—%
Lorraine D. Miller	25%	25%	25%	—%	—%	25%
Christopher T. Mosteller	30%	—%	20%	25%	25%	—%

For all NEOs, 100% of eligible award payout dollars under the 2018 AICP were based on the achievement of a mix of overall Company goals and/or personal goals, which are defined as specific targets for earnings per share, classified to capital, efficiency ratio and loan growth.

The CGNC Committee reviewed the Company's 2018 financial performance and determined that the Company had not achieved the specified targets; therefore, there were no payouts to NEOs in 2018 under the AICP.

On March 27, 2019, the CGNC approved the 2019 Annual Incentive Compensation Plan ("2019 AICP"), under which each of the Company's NEOs participates along with certain other employees. Similar to the 2018 AICP, the 2019 AICP establishes an annual bonus pool and will be funded based on the achievement of goals established by the CGNC.

Equity-based Awards. On February 21, 2018, the following awards of restricted stock were granted on a discretionary basis pursuant to our 2007 Omnibus Incentive Compensation Plan. Restricted stock awards are intended to recruit and retain executive officers and reward them for long-term stock price appreciation while providing some value to the recipient even if the stock price declines. They also serve to balance the riskier nature of stock options and provide a significant incentive to stay with the Company. The restricted stock awards include a three-year ratable vesting period from the date of grant and are nontransferable and subject to forfeiture until vested.

	Restricted Stock (# of Shares)
James R. McLemore	8,046
Lorraine D. Miller	2,017
Christopher T. Mosteller	2,231

Discretionary Bonuses. There were no discretionary bonuses paid or earned in 2018.

Retirement Benefits. Executive officers are eligible to the same benefits that are available to salaried employees.

Other Compensation. Certain executives receive additional benefits and perquisites such as supplemental term life insurance, supplemental disability insurance, company car, cell phone, and assistance with Section 16 filings.

In 2018, we provided Mr. McLemore with reimbursements for an individual supplemental term life insurance policy payable to a beneficiary of his choice. We also provided Mr. McLemore with reimbursements for a supplemental long-term disability policy.

We view certain perquisites as beneficial to us as well as compensation to the executive officers. For example, the club memberships are regularly used in the general course of our business such as for business meetings or entertaining. Company cars are used primarily for business purposes.

The executive officers are eligible to participate in benefit plans sponsored by us on the same terms and conditions as those generally provided to salaried employees. Basic health benefits, dental benefits, and similar programs are provided to make certain that access to healthcare and income protection is available to our employees and the employee's family members. The cost of our benefit plans is negotiated with the providers of such benefits and the executive officers contribute to the cost of the benefits.

Payments upon Termination or Change-In-Control. The discussion below reflects arrangements in place between the Company and certain NEOs as of December 31, 2018 that would entitle such NEOs to payments in the event of termination of his or her employment. Amounts do not include compensation and benefits available to all the Company's general employees on a nondiscriminatory basis. In addition, we are currently generally prohibited under regulatory restrictions from providing the severance payments and benefits without the prior approval of the appropriate banking regulators.

Change in Control. Our AICP (and 2019 AICP) provides that if a Change-in-Control, as defined by U. S. Treasury guidelines, occurs during any Plan Year, the incentive awards for that Plan Year will be deemed to have been earned at Target and the Plan Year closed as of the date of the Change in Control, and the incentive awards for that Plan year shall be payable to Plan Participants no later than two and one-half months following the Change in Control otherwise in accordance with the terms of the Plan. If a Change in Control occurs after the end of the Plan Year, incentive awards for that Plan Year will be paid in accordance with the terms of the Plan except that each Plan Participant will be deemed to have achieved no less than Target performance with respect to any individual performance goals assigned to the Plan Participant with respect to that Plan Year.

Severance Plan. In December 2017, we adopted a new Severance Plan that was designed to be a "nondiscriminatory severance pay plan" under 12 C.F.R. § 359 in order for the plan to qualify for one of the limited exceptions to the general regulatory prohibition against making severance payments that the Company and the Bank are currently

subject to. As such, the plan is generally applicable on a nondiscriminatory basis to all regular, full-time and part-time employees meeting certain criteria, including the NEOs. The purpose of the Severance Plan is to provide temporary and short-term unemployment-type benefits to eligible employees whose employment is terminated under specific conditions described in the plan.

No Employment Agreements. The Company does not have employment agreements in place with any NEOs.

Agreements with Ms. Miller and Mr. Mosteller. The Company entered into Change in Control Agreements with Ms. Miller and Mr. Mosteller. The agreements provide, among other things, that if the officer's employment is terminated by the Company without cause or by the officer with good reason, in each case, within two years following a change in control of the Company, then the officer will be entitled to receive an amount equal to his or her annual salary, payable in 12 monthly installments. The agreements also contain non-solicitation and non-competition restrictive covenants for the 12-month period in which such person is receiving payment pursuant to the agreement.

Director's Deferred Compensation Plan. We have a Director's Deferred Compensation Plan (the "DDCP") for members of the Board, administered by the CGNC Committee of the Board. The DDCP allows for participation by any member of the Board of Directors of the Company or the board of any of its subsidiaries. To participate in the DDCP, the Director executes a deferral authorization form in which the Director agrees to defer all or a specified percentage of his fees payable for the services as a member of the Board or a participating subsidiary. The DDCP provides for the establishment of a revocable trust to be known as the Deferred Compensation Trust of MidSouth Bancorp, Inc. (the "Trust") in accordance with the terms of the DDCP, MidSouth Bank, N.A., a subsidiary of the Company, serves as the Trustee for the Trust. Within 30 days following the end of a calendar quarter, the Company or its participating subsidiaries will contribute fees deferred pursuant to the deferral authorizations in effect during eligible time periods. Amounts will be credited to participants via individually established deferred compensation accounts ("DCAs"). All contributions and withdrawals must be in accordance with Section 409A of the Internal Revenue Code. Each participant will act as a general creditor of the Company or its subsidiaries and will have an unsecured right to funds deferred into their individual DCA. Dividends paid on the common stock are credited to each account as shares of common stock, and if in cash, are used to purchase additional shares of common stock. These shares will not carry voting rights in addition to dividends. Distributions are pursuant to the terms of the DDCP and shall be made 60 days after the later of (i) the date on which a Director ceases providing services to the Company or a participating subsidiary, or (ii) the date on which a Director attains age 65. The First Amendment to the plan permits a participant to make a subsequent deferral election to further defer the distribution of shares in accordance with the rules under Section 409A of the Code. The Board, or CGNC Committee of the Board, may establish additional guidelines for the DDCP including but not limited to contributions and distributions in accordance with applicable laws and other regulatory guidelines.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Transactions. Directors, nominees, executive officers and their associates have been customers of, and have borrowed from MidSouth Bank in the ordinary course of business, and such transactions are expected to continue in the future. Any loans or other extensions of credit made by the Bank to such individuals were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unaffiliated third parties and did not involve more than the normal risk of collectability or present other unfavorable features.

We have adopted a formal policy with respect to the approval of related party transactions, other than our policies with respect to the approval of loans made to directors and executive officers. Pursuant to this policy, the Audit Committee (or with respect to compensation matters, the CGNC Committee) will review and, if appropriate, approve any transaction in which the Company is or will be a party of and in which the amount exceeds \$120,000, and in which any of the Company's directors, executive officers or significant shareholders had, has or will have a material interest. Such transactions will only be approved if they are deemed to be in the best interest of the Company and its shareholders.

Director Independence. The information set forth under the heading "Corporate Governance – Board Independence" set forth above is incorporated herein by reference.
