NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2014
(Unaudited)

Note 1 – Organization and Summary of Significant Accounting Policies:

Organization and Nature of Business – National Retail Properties, Inc., a Maryland corporation, is a fully integrated real estate investment trust (“REIT”) formed in 1984. The terms “NNN” and the “Company” refer to National Retail Properties, Inc. and all of its consolidated subsidiaries. NNN has elected to treat certain subsidiaries as taxable REIT subsidiaries. These taxable subsidiaries and their majority owned and controlled subsidiaries are collectively referred to as the “TRS.”

NNN's assets include: real estate, mortgages and notes receivable, and commercial mortgage residual interests. NNN acquires, owns, invests in and develops properties that are leased primarily to retail tenants under long-term net leases and primarily held for investment (“Properties” or “Property Portfolio”).

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (“GAAP”). The unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. Operating results for the quarter ended March 31, 2014, may not be indicative of the results that may be expected for the year ending December 31, 2014. Amounts as of December 31, 2013, included in the condensed consolidated financial statements have been derived from the audited consolidated financial statements as of that date. The unaudited condensed consolidated financial statements, included herein, should be read in conjunction with the consolidated financial statements and notes thereto as well as Management's Discussion and Analysis of Financial Condition and Results of Operations in NNN's Form 10-K for the year ended December 31, 2013.

Principles of Consolidation – NNN's condensed consolidated financial statements include the accounts of each of the Company's respective majority owned and controlled affiliates, including transactions whereby NNN has been determined to be the primary beneficiary in accordance with the Financial Accounting Standards Board (“FASB”) guidance included in Consolidation. All significant intercompany account balances and transactions have been eliminated. NNN applies the equity method of accounting to investments in partnerships and joint ventures that are not subject to control by NNN due to the significance of rights held by other parties.

Real Estate Portfolio – NNN records the acquisition of real estate which is not subject to a lease at cost, including acquisition and closing costs. The cost of properties developed by NNN includes direct and indirect costs of construction, property taxes, interest and other miscellaneous costs incurred during the development period until the project is substantially complete and available for occupancy. During the quarters ended March 31, 2014 and 2013, NNN recorded \$434,000 and \$219,000, respectively, in capitalized interest during development.

Purchase Accounting for Acquisition of Real Estate Subject to a Lease – In accordance with the FASB guidance on business combinations, the fair value of the real estate acquired with in-place leases is allocated to the acquired tangible assets, consisting of land, building and tenant improvements, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases and the value of in-place leases, based in each case on their fair values. Acquisition costs incurred in connection with a business combination are expensed when incurred. The fair value of the tangible assets of an acquired leased property is determined by valuing the property as if it were vacant, and the “as-if-vacant” value is then allocated to land, building and tenant improvements based on the

determination of the fair values of these assets. The as-if-vacant fair value of a property is provided to management by a qualified appraiser.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded as other assets or liabilities based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant

to the in-place leases, and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining term of the lease and the applicable option terms if it is probable that the tenant will exercise the option. The capitalized above-market lease values are amortized as a reduction of rental income over the remaining terms of the respective leases. The capitalized below-market lease values are amortized as an increase to rental income over the initial term unless the Company believes that it is likely that the tenant will renew the option whereby the Company amortizes the value attributable to the renewal over the renewal period. The aggregate value of other acquired intangible assets, consisting of in-place leases, is measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property as-if-vacant, determined as set forth above. The value of in-place leases exclusive of the value of above-market and below-market in-place leases is amortized to expense over the remaining non-cancelable periods of the respective leases. If a lease were to be terminated prior to its stated expiration, all unamortized amounts relating to that lease would be written off. The value of tenant relationships is reviewed on individual transactions to determine if future value was derived from the acquisition.

Intangible assets and liabilities consisted of the following as of (in thousands):

	March 31, 2014	December 31, 2013
Intangible lease assets (included in Other assets):		
Value of above market in-place leases, net	\$ 11,828	\$ 11,803
Value of in-place leases, net	58,776	58,456
Intangible lease liabilities (included in Other liabilities):		
Value of below market in-place leases, net	28,579	28,708

Cash and Cash Equivalents – NNN considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents consist of demand deposits and money market accounts and are stated at cost plus accrued interest, which approximates fair value.

Cash accounts maintained on behalf of NNN in demand deposits at commercial banks and money market funds may exceed federally insured levels. However, NNN has not experienced any losses in such accounts.

Valuation of Receivables – NNN estimates the collectability of its accounts receivable related to rents, expense reimbursements and other revenues. NNN analyzes accounts receivable and historical bad debt levels, customer credit-worthiness and current economic trends when evaluating the adequacy of the allowance for doubtful accounts. In addition, tenants in bankruptcy are analyzed and estimates are made in connection with the expected recovery of pre-petition and post-petition claims.

Earnings Per Share – Earnings per share have been computed pursuant to the FASB guidance included in Earnings Per Share. Effective January 1, 2009, the guidance requires classification of the Company's unvested restricted share units, which carry rights to receive nonforfeitable dividends, as participating securities requiring the two-class method of computing earnings per share. Under the two-class method, earnings per common share are computed by dividing the sum of distributed earnings to common stockholders and undistributed earnings allocated to common stockholders by the weighted average number of common shares outstanding for the period. In applying the two-class method, undistributed earnings are allocated to both common shares and participating securities based on the weighted average shares outstanding during the period.

The following table is a reconciliation of the numerator and denominator used in the computation of basic and diluted earnings per common share using the two-class method (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Basic and Diluted Earnings:

Other	290,968	167,640
Weighted average number of shares outstanding used in diluted earnings per share	121,866,951	115,850,253

Fair Value Measurement – NNN's estimates of fair value of financial and non-financial assets and liabilities are based on the framework established in the fair value accounting guidance. The framework specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The guidance describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:

Level 1 – Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques.

Other Comprehensive Income (Loss) – The following table outlines the changes in accumulated other comprehensive income (dollars in thousands):

	Gain or Loss on Cash Flow Hedges ⁽¹⁾	Unrealized Gains and Losses on Commercial Mortgage Residual Interests ⁽²⁾	Unrealized Gains and Losses on Available-for-Sale Securities	Total
Beginning balance, December 31, 2013	\$(8,396)	\$3,755	\$ 136	\$(4,505)

Ending balance, March 31, 2014	\$(11,634)	\$4,439	\$ 251	\$(6,944)

¹⁾ Additional disclosure is included in Note 9 – Derivatives.

²⁾ Additional disclosure is included in Note 10 – Fair Value Measurements.

³⁾ Reclassifications out of other comprehensive income are recorded in Interest Expense on the Condensed Consolidated Statements of Comprehensive Income. There is no income tax expense (benefit) resulting from this reclassification.

New Accounting Pronouncements – In July 2013, the FASB issued Accounting Standards Update ("ASU") 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." The objective of the amendments in this update is to eliminate the diversity in practice of financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The provisions of the update are that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented, with certain exceptions, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of the standard did not have a significant impact on NNN's financial position or results of operations.

In April 2014, the FASB issued ASU 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposal of Components of an Entity," effective for fiscal years beginning on or after December 15, 2014, with early adoption permitted beginning January 1, 2014. Under ASU 2014-08, only disposals representing a strategic shift in operations are to be presented as discontinued operations. NNN has elected early adoption of ASU 2014-08. This requires the Company to continue to classify any property disposal or property classified as held for sale as of December 31, 2013 as discontinued operations prospectively. Therefore, the revenues and expenses related to these properties are presented as discontinued operations as of March 31, 2014. The Company did not classify any additional properties as discontinued operations subsequent to December 31, 2013. The adoption of ASU 2014-08 did not have a significant impact on NNN's financial position or results of operations.

Use of Estimates – Management of NNN has made a number of estimates and assumptions relating to the reporting of assets and liabilities, revenues and expenses and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with GAAP. Significant estimates include provisions for impairment and allowances for certain assets, accruals, useful lives of assets and purchase price allocation. Actual results could differ from those estimates.

Reclassification – Certain items in the prior year's consolidated financial statements and notes to consolidated financial statements have been reclassified to conform to the 2014 presentation.

Note 2 – Real Estate:

Real Estate – Portfolio

Leases – The following outlines key information for NNN’s leases:

March 31, 2014

Lease classification:

Operating	1,927
Direct financing	12
Building portion – direct financing / land portion – operating	1
Weighted average remaining lease term	12 Years

The leases generally provide for limited increases in rent as a result of fixed increases, increases in the consumer price index, and/or increases in the tenant’s sales volume. Generally, the tenant is also required to pay all property taxes and assessments, substantially maintain the interior and exterior of the building and carry property and liability insurance coverage. Certain of NNN’s Properties are subject to leases under which NNN retains responsibility for specific costs and expenses of the property. Generally, the leases of the Properties provide the tenant with one or more multi-year renewal options subject to generally the same terms and conditions, including rent increases, consistent with the initial lease term.

Real Estate Portfolio – Accounted for Using the Operating Method – Real estate subject to operating leases consisted of the following as of (dollars in thousands):

	March 31, 2014	December 31, 2013
Land and improvements	\$ 1,675,212	\$ 1,652,863
Buildings and improvements	3,055,023	2,962,684
Leasehold interests	1,290	1,290
	4,731,525	4,616,837
Less accumulated depreciation and amortization	(440,247)	(416,594)
	4,291,278	4,200,243
Work in progress	25,711	60,719
	\$4,316,989	\$4,260,962

Real Estate – Held For Sale

On a quarterly basis, the Company evaluates its Properties for held for sale classification based on specific criteria as outlined in ASC 360, Property, Plant & Equipment, including management’s intent to commit to a plan to sell the asset. In January 2014, NNN completed a strategic review of its Properties held for sale and reclassified one Property that was previously held for sale to held for investment, included in Real Estate - Portfolio. As of March 31, 2014, NNN categorized 11 of its Properties as held for sale. NNN anticipates the disposition of these Properties to occur within 12 months. Real estate held for sale consisted of the following as of (dollars in thousands):

	March 31, 2014	December 31, 2013
Land and improvements	\$5,337	\$5,999
Building and improvements	6,351	6,811
	11,688	12,810
Less accumulated depreciation and amortization	(1,550)	(1,542)
Less impairment	(3,918)	(3,522)
	\$6,220	\$7,746

Real Estate – Dispositions

The following table summarizes the number of Properties sold and the corresponding gain recognized on the disposition of Properties (dollars in thousands):

	Quarter Ended March 31, 2014		2013	
	# of Sold Properties	Gain	# of Sold Properties	Gain
Gain on disposition of real estate	2	\$ 1,954	—	\$ —
Income tax expense		(198)		—
		1,756		—
Gain on disposition of real estate included in discontinued operations	2	9	2	505
		\$ 1,765		\$ 505

Real Estate – Commitments

NNN has agreed to fund construction commitments on leased Properties. The improvements are estimated to be completed within 12 months. These construction commitments, as of March 31, 2014, are outlined in the table below (dollars in thousands):

Number of properties	28
Total commitment ⁽¹⁾	\$97,317
Amount funded	\$50,442
Remaining commitment	\$46,875

⁽¹⁾Includes land, construction costs and tenant improvements.

Real Estate – Impairments

Management periodically assesses its real estate for possible impairment whenever certain events or changes in circumstances indicate that the carrying amount of the asset, including accrued rental income, may not be recoverable through operations. Events or circumstances that may occur include significant changes in real estate market conditions and the ability of NNN to re-lease or sell properties that are vacant or become vacant. Impairments are measured as the amount by which the current book value of the asset exceeds the estimated fair value of the asset. As a result of the Company's review of long lived assets, including identifiable intangible assets, NNN recognized the following real estate impairments (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Continuing operations	\$396	\$2,851
Discontinued operations	63	—
	\$459	\$2,851

The valuation of impaired assets is determined using widely accepted valuation techniques including discounted cash flow analysis, income capitalization, analysis of recent comparable sales transactions, actual sales negotiations and bona fide purchase offers received from third parties, which are level 3 inputs. NNN may consider a single valuation technique or multiple valuation techniques, as appropriate, when measuring the fair value of its real estate.

Note 3 – Line of Credit Payable:

NNN's \$500,000,000 revolving credit facility (the "Credit Facility") had a weighted average outstanding balance of \$72,511,000 and a weighted average interest rate of 1.2% during the quarter ended March 31, 2014. The Credit Facility matures October 2016, unless the Company exercises its option to extend maturity to October 2017. The Credit Facility bears interest at LIBOR plus 107.5 basis points; however, such interest rate may change pursuant to a tiered interest rate structure based on NNN's debt rating. The Credit Facility also includes an accordion feature to increase the facility size up to \$1,000,000,000, subject to lender approval. As of March 31, 2014, \$91,500,000 was outstanding and \$408,500,000 was available for future borrowings under the Credit Facility.

Note 4 – Notes Payable:

In April 2013, NNN filed a prospectus supplement to the prospectus contained in its February 2012 shelf registration statement and issued \$350,000,000 aggregate principal amount of 3.300% Notes due April 2023 (the “2023 Notes”). The 2023 Notes were sold at a discount with an aggregate purchase price of \$347,406,000 with interest payable semi-annually commencing on October 15, 2013. The discount of \$2,594,000 is being amortized to interest expense over the term of the note using the effective interest method. The effective interest rate for the 2023 Notes after accounting for note discount is 3.388%. NNN previously entered into four forward starting swaps with an aggregate notional amount of \$240,000,000. Upon issuance of the 2023 Notes, NNN terminated the forward starting swaps resulting in a liability of \$3,156,000, of which \$3,141,000 was deferred in other comprehensive income. The deferred liability is being amortized to interest expense over the term of the 2023 Notes using the effective interest method. The 2023 Notes are senior unsecured obligations of NNN and are subordinated to all secured indebtedness and to the indebtedness and other liabilities of NNN's subsidiaries. Additionally, the 2023 Notes are redeemable at NNN's option, in whole or part anytime, for an amount equal to (i) the sum of the outstanding principal balance of the notes being redeemed plus accrued interest thereon to the redemption date, and (ii) the make whole amount, if any, as defined in the supplemental indenture dated April 9, 2013, relating to the 2023 Notes.

NNN received approximately \$344,266,000 of proceeds in connection with the issuance of the 2023 Notes, net of debt issuance costs totaling \$3,140,000 consisting primarily of underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses.

Note 5 – Notes Payable – Convertible:

NNN recorded the following interest expense related to the 5.125% convertible senior notes due 2028 (the “2028 Notes”) during the quarter ended March 31, 2013. No interest expense was recorded during the quarter ended March 31, 2014 (dollars in thousands):

Contractual interest expense	\$2,858
Noncash interest charges	1,122
Amortization of debt costs	305
Total interest expense	\$4,285

There was no interest expense related to the 3.950% convertible senior notes due 2026 (“the 2026 Notes”) recorded during the quarters ended March 31, 2014 and 2013.

As of December 31, 2012, \$15,537,000 aggregate principal amount of 2026 Notes was outstanding. In January 2013, the Company paid approximately \$20,702,000 in aggregate settlement value for the \$15,537,000 of outstanding 2026 notes. The difference between the amount paid and the principal amount of the settled notes of \$5,028,000 was recognized as a decrease to additional paid-in capital and \$137,000 was recorded as interest expense.

As of December 31, 2012, \$223,035,000 aggregate principal amount of 2028 Notes was outstanding. In June 2013, NNN called all of the outstanding 2028 Notes for redemption on July 11, 2013. On July 11, 2013, \$130,000 principal amount of the 2028 Notes was settled at par plus accrued interest. The holders of the remaining balance of \$222,905,000 principal amount of 2028 Notes elected to convert into cash and shares of the Company's common stock in accordance with the conversion formula which is based on the average daily closing price of NNN's common stock price over a period of 20 days commencing after receipt of a note holder's conversion notice. In 2013, the Company issued 2,407,911 shares of common stock and paid approximately \$226,427,000 in aggregate settlement value for the \$223,035,000 aggregate principal amount of 2028 Notes outstanding. The difference between the amount paid and the principal amount of the settled notes of \$3,197,000 was recognized as a decrease to additional paid-in capital and \$195,000 was recorded as interest expense.

Note 6 – Stockholders' Equity:

In February 2012, NNN filed a shelf registration statement with the Securities and Exchange Commission (the “Commission”) which permits the issuance by NNN of an indeterminate amount of debt and equity securities.

Dividends – The following table outlines the dividends declared and paid for each issuance of NNN's stock (in thousands, except per share data):

	Quarter Ended March 31,	
	2014	2013
Series D preferred stock ⁽¹⁾ :		
Dividends	\$4,762	\$4,762

Common stock:

Dividends	49,273	44,321
Per share	0.405	0.395

⁽¹⁾ The Series D and E preferred stock have no maturity date and will remain outstanding unless redeemed.

In April 2014, NNN declared a dividend of \$0.405 per share, which is payable in May 2014 to its common stockholders of record as of April 30, 2014.

Preferred Stock Issuances – In May 2013, NNN issued 11,500,000 depositary shares representing interests in its 5.700% Series E Cumulative Redeemable Preferred Stock ("Series E Preferred Stock") at a price of \$25.00 per depositary share generating gross proceeds of \$287,500,000. In connection with this offering, NNN incurred stock issuance costs totaling approximately \$9,856,000, consisting primarily of underwriters' fees and commissions, rating agency fees, legal and accounting fees and printing expenses.

At The Market Offerings – In May 2012, NNN established an at-the-market equity program ("2012 ATM") which allowed NNN to sell up to an aggregate of 9,000,000 shares of common stock from time to time through May 2015. The following table outlines the common stock issuances pursuant to the 2012 ATM during the quarter ended March 31, 2013 (dollars in thousands, except per share data):

Shares of common stock	4,616,542
Average price per share (net)	\$32.56
Net proceeds	\$150,327
Stock issuance costs ⁽¹⁾	\$2,129

⁽¹⁾ Stock issuance costs consist primarily of underwriters' fees and commissions, and legal and accounting fees.

No shares were issued under the 2012 ATM during the quarter ended March 31, 2014.

In March 2013, NNN established a second ATM equity program ("2013 ATM") which allows NNN to sell up to an aggregate of 9,000,000 shares of common stock from time to time through March 2015. The following table outlines the common stock issuances pursuant to the 2013 ATM during the quarter ended March 31, 2014 (dollars in thousands, except per share data):

Shares of common stock	432,000
Average price per share (net)	\$34.91
Net proceeds	\$15,080
Stock issuance costs ⁽¹⁾	\$265

⁽¹⁾ Stock issuance costs consist primarily of underwriters' fees and commissions, and legal and accounting fees.

NNN incurred \$135,000 of stock issuance costs related to the 2013 ATM consisting primarily of legal and accounting fees during the quarter ended March 31, 2013. No shares were issued under the 2013 ATM during the quarter ended March 31, 2013.

Dividend Reinvestment and Stock Repurchase Plan – In February 2012, NNN filed a shelf registration statement with the Commission for its Dividend Reinvestment and Stock Purchase Plan ("DRIP") which permits the issuance by NNN of up to 16,000,000 shares of common stock. The following table outlines the common stock issuances pursuant to NNN's DRIP (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Shares of common stock	184,503	424,995
Net proceeds	\$6,107	\$13,822

Note 7 – Income Taxes:

NNN has elected to be taxed as a REIT under the Internal Revenue Code ("Code"), commencing with its taxable year ended December 31, 1984. To qualify as a REIT, NNN must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its REIT taxable income to its stockholders. NNN intends to adhere to these requirements and maintain its REIT status. As a REIT, NNN generally will not be subject to corporate level federal income tax on taxable income that it distributes currently to its stockholders. NNN may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed taxable income, if any. The provision for federal income taxes in NNN's consolidated financial statements relates to its TRS operations and any potential taxable built-in gain. NNN did not have significant tax provisions or deferred income tax items during the periods reported hereunder.

In June 2006, the FASB issued guidance which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB guidance included in Income Taxes. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

NNN, in accordance with FASB guidance included in Income Taxes, has analyzed its various federal and state tax filing positions. NNN believes that its income tax filing positions and deductions are well documented and supported. Additionally, NNN believes that its accruals for tax liabilities are adequate. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to the FASB guidance.

NNN has had no increases or decreases in unrecognized tax benefits for current or prior years. Further, no interest or penalties have been included since no reserves were recorded and no significant increases or decreases are expected to occur within the next 12 months. When applicable, such interest and penalties will be recorded as non-operating expenses. The periods that remain open under federal statute are 2010 through 2014. NNN also files tax returns in many states with varying open years under statute.

Note 8 – Earnings from Discontinued Operations:

Effective January 1, 2014, NNN has early adopted ASU 2014-08. Under ASU 2014-08, only disposals representing a strategic shift in operations are to be presented as discontinued operations. This requires the Company to continue to classify any property disposal or property classified as held for sale as of December 31, 2013 as discontinued operations prospectively. Therefore, the revenues and expenses related to these properties are presented as discontinued operations as of March 31, 2014. The Company did not classify any additional properties as discontinued operations subsequent to December 31, 2013.

The following is a summary of the earnings (loss) from discontinued operations (dollars in thousands):

Note 9 – Derivatives:

In accordance with the guidance on derivatives and hedging, NNN records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

NNN's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, NNN primarily uses treasury locks, forward swaps ("forward hedges") and interest rate swaps as part of its cash flow hedging strategy. Treasury locks and forward starting swaps are used to hedge forecasted debt issuances. Treasury locks designated as cash flow hedges lock in the yield/price of a treasury security. Forward swaps also lock the associated swap spread. Interest rate swaps designated as cash flow hedges hedging the variable cash flows associated with floating rate debt involve the receipt of variable rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings.

NNN discontinues hedge accounting prospectively when it is determined that the derivative is no longer effective in offsetting changes in the cash flows of the hedged item, the derivative expires or is sold, terminated, or exercised, the derivative is re-designated as a hedging instrument or management determines that designation of the derivative as a hedging instrument is no longer appropriate.

When hedge accounting is discontinued, NNN continues to carry the derivative at its fair value on the balance sheet, and recognizes any changes in its fair value in earnings or may choose to cash settle the derivative at that time.

In April 2013, NNN terminated four forward starting swaps with an aggregate notional amount of \$240,000,000 that were hedging the risk of changes in forecasted interest payments on a forecasted issuance of long-term debt. When terminated, the fair value of the forward starting swaps, designated as cash flow hedges, was a liability of \$3,156,000, of which \$3,141,000 was deferred in other comprehensive income. The amount reported in accumulated other comprehensive income will be reclassified to interest expense as interest payments are made on the 2023 Notes. During the quarter ended March 31, 2014, NNN entered into three forward starting swaps with a total notional amount of \$225,000,000 to hedge the risk of changes in the interest-related cash outflows associated with the potential issuance of long-term debt. The outstanding forward swaps were designated as cash flow hedges, and at March 31, 2014, have a fair value of \$3,373,000 included in other liabilities on the condensed consolidated balance sheet. No hedge ineffectiveness was recognized during the quarter ended March 31, 2014.

As of March 31, 2014, \$8,261,000 remained in other comprehensive income related to the effective portion of NNN's previous interest rate hedges. During the quarters ended March 31, 2014 and 2013, NNN reclassified out of comprehensive income \$135,000 and \$60,000, respectively, as an increase to interest expense. Over the next 12 months, NNN estimates that an additional \$996,000 will be reclassified as an increase in interest expense. Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on NNN's long-term debt.

NNN does not use derivatives for trading or speculative purposes or currently have any derivatives that are not designated as hedges.

Note 10 – Fair Value Measurements:

NNN holds the residual interests ("Residuals") from seven securitizations. Each of the Residuals is recorded at fair value based upon an independent valuation. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity and other than temporary losses as a result of a change in the timing or amount of estimated cash flows are recorded as an other than temporary valuation impairment.

NNN currently values its Residuals based upon an independent valuation which provides a discounted cash flow analysis based upon prepayment speeds, expected loan losses and yield curves. These valuation inputs are generally considered unobservable; therefore, the Residuals are considered Level 3 financial assets. The table below presents a roll forward of the Residuals (dollars in thousands):

	Quarter Ended March 31, 2014
Balance at beginning of period	\$ 11,721
Total gains (losses) – realized/unrealized:	
Included in earnings	(158)
Included in other comprehensive income	684
Interest income on Residuals	452
Cash received from Residuals	(665)
Purchases, sales, issuances and settlements, net	—
Transfers in and/or out of Level 3	—
Balance at end of period	\$ 12,034
Changes in gains (losses) included in earnings attributable to a change in unrealized gains (losses) relating to	\$ 163
assets still held at the end of period	

Note 11 – Fair Value of Financial Instruments:

NNN believes the carrying value of its Credit Facility approximates fair value based upon its nature, terms and variable interest rate. NNN believes that the carrying value of its cash and cash equivalents, mortgages, notes and other receivables, mortgages payable and other liabilities at March 31, 2014 and December 31, 2013, approximate fair value based upon current market prices of similar issues. At March 31, 2014 and December 31, 2013, the fair value of NNN's notes payable was \$1,584,594,000 and \$1,555,672,000, respectively, based upon quoted market prices, which

is a level one valuation since NNN's debt is publicly traded.

Note 12 – Subsequent Events:

NNN reviewed its subsequent events and transactions that have occurred after March 31, 2014, the date of the condensed consolidated balance sheet. There were no reportable subsequent events or transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in the Annual Report on Form 10-K of National Retail Properties, Inc. for the year ended December 31, 2013. The terms "NNN" and the "Company" refer to National Retail Properties, Inc. and all of its consolidated subsidiaries. NNN has elected to treat certain subsidiaries as taxable real estate investment trust subsidiaries. These subsidiaries and their majority owned and controlled subsidiaries are collectively referred to as the "TRS."

Forward-Looking Statements

The information herein contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 (the "Exchange Act"). These statements generally are characterized by the use of terms such as "believe," "expect," "intend," "may," or similar words or expressions. Forward-looking statements are not historical facts or guarantees of future performance and are subject to known and unknown risks. Certain factors that could cause actual results or events to differ materially from those NNN anticipates or projects include, but are not limited to, the following:

- Financial and economic conditions may have an adverse impact on NNN, its tenants, and commercial real estate in general;
- NNN may be unable to obtain debt or equity capital on favorable terms, if at all;
- Loss of revenues from tenants would reduce NNN's cash flow;
- A significant portion of the source of NNN's Property Portfolio annual base rent is heavily concentrated in specific industry classifications, tenants and in specific geographic locations;
- Owning real estate and indirect interests in real estate carries inherent risk;
- NNN's real estate investments are illiquid;
- Costs of complying with changes in governmental laws and regulations may adversely affect NNN's results of operations;
- NNN may be subject to known or unknown environmental liabilities and hazardous materials on properties owned by NNN;
- NNN may not be able to successfully execute its acquisition or development strategies;
- NNN may not be able to dispose of properties consistent with its operating strategy;
- A change in the assumptions used to determine the value of commercial mortgage residual interests could adversely affect NNN's financial position;
- NNN may suffer a loss in the event of a default or bankruptcy of a borrower or a tenant;
- Certain provisions of NNN's leases or loan agreements may be unenforceable;
- Property ownership through joint ventures and partnerships could limit NNN's control of those investments;
- Competition from numerous other REITs, commercial developers, real estate limited partnerships and other investors may impede NNN's ability to grow;
- NNN's loss of key management personnel could adversely affect performance and the value of its common stock;
- Uninsured losses may adversely affect NNN's operating results and asset values;
- Acts of violence, terrorist attacks or war may adversely affect the markets in which NNN operates and NNN's results of operations;
- Vacant properties or bankrupt tenants could adversely affect NNN's business or financial condition;
- The amount of debt NNN has and the restrictions imposed by that debt could adversely affect NNN's business and financial condition;
- NNN is obligated to comply with financial and other covenants in its debt instruments that could restrict its operating activities, and the failure to comply with such covenants could result in defaults that accelerate the payment of such debt;
-

The market value of NNN's equity and debt securities is subject to various factors that may cause significant fluctuations or volatility;

• NNN's failure to qualify as a real estate investment trust for federal income tax purposes could result in significant tax liability;

• Even if NNN remains qualified as a REIT, NNN faces other tax liabilities that reduce operating results and cash flow;

• Adverse legislative or regulatory tax changes could reduce NNN's earnings, cash flow and market price of NNN's common stock;

• Compliance with REIT requirements, including distribution requirements, may limit NNN's flexibility and negatively affect NNN's operating decisions;

• Changes in accounting pronouncements could adversely impact NNN's or NNN's tenants' reported financial performance;

NNN's failure to maintain effective internal control over financial reporting could have a material adverse effect on its business, operating results and share price;

NNN's ability to pay dividends in the future is subject to many factors;

Cybersecurity risks and cyber incidents could adversely affect NNN's business and disrupt operations and expose NNN to liabilities to tenants, employees, and other third parties; and

Future investments in international markets could subject NNN to additional risks.

Additional information related to these risks and uncertainties are included in Item 1A. Risk Factors of NNN's Annual Report on Form 10-K for the year ended December 31, 2013, and may cause NNN's actual future results to differ materially from expected results. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. NNN undertakes no obligation to update or revise such forward-looking statements, whether as a result of new information, future events or otherwise.

Overview

NNN, a Maryland corporation, is a fully integrated real estate investment trust ("REIT") formed in 1984. NNN's assets include: real estate, mortgages and notes receivable, and commercial mortgage residual interests (the "Residuals"). NNN acquires, owns, invests in and develops properties that are leased primarily to retail tenants under long-term net leases and primarily held for investment ("Properties" or "Property Portfolio").

As of March 31, 2014, NNN owned 1,903 Properties, with an aggregate gross leasable area of approximately 20,632,000 square feet, located in 47 states. Approximately 98 percent of the Properties in the Property Portfolio were leased as of March 31, 2014.

NNN's management team focuses on certain key indicators to evaluate the financial condition and operating performance of NNN. The key indicators for NNN include items such as: the composition of the Property Portfolio (such as tenant, geographic and line of trade diversification), the occupancy rate of the Property Portfolio, certain financial performance ratios and profitability measures, and industry trends and performance compared to that of NNN.

NNN continues to maintain its diversification by tenant, geography and tenant's line of trade. NNN's highest lines of trade concentrations are the convenience store and restaurant (including full and limited service) sectors. These sectors represent a large part of the freestanding retail property marketplace and NNN's management believes these sectors present attractive investment opportunities. NNN's Property Portfolio is geographically concentrated in the south and southeast United States, which are regions of historically above-average population growth. Given these concentrations, any financial hardship within these sectors or geographic locations, respectively, could have a material adverse effect on the financial condition and operating performance of NNN.

Property Acquisitions. The following table summarizes the Property acquisitions (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Acquisitions:		
Number of Properties	47	17
Gross leasable area (square feet)	309,000	162,000
Initial cash yield	7.7	% 8.7
Total dollars invested ⁽¹⁾	\$94,041	\$42,588

⁽¹⁾ Includes dollars invested in projects under construction or tenant improvements for each respective year.

NNN typically funds property acquisitions either through available cash, borrowings under its unsecured revolving Credit Facility (see "Debt – Line of Credit Payable") or by issuing its debt or equity securities in the capital markets.

Property Dispositions. The following table summarizes the Properties sold by NNN (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Number of properties	4	2
Gross leasable area (square feet)	84,000	21,000
Net sales proceeds	\$11,245	\$3,569
Net gain, net of income tax expense	\$1,765	\$505

NNN typically uses the proceeds from property sales either to pay down the Credit Facility or reinvest in real estate.

Analysis of Revenue From Continuing Operations

General. During the quarter ended March 31, 2014, rental income increased primarily due to an increase in rental income from property acquisitions (See “Results of Operations – Property Analysis – Property Acquisitions”). NNN anticipates increases in rental income will continue to come from additional property acquisitions and increases in rents pursuant to lease terms.

The following summarizes NNN’s revenues from continuing operations (dollars in thousands):

	Quarter Ended March 31,			Percent of Total			
	2014	2013	Percent Increase (Decrease)	2014	2013

⁽¹⁾ Includes rental income from operating leases, earned income from direct financing leases and percentage rent from continuing operations (“Rental Income”).

Quarter Ended March 31, 2014 versus Quarter Ended March 31, 2013

Rental Income. Rental Income increased in amount but was unchanged as a percent of the total revenues from continuing operations for the quarter ended March 31, 2014, as compared to the same period in 2013. The increase for the quarter ended March 31, 2014, is primarily due to the acquisition of 47 properties with aggregate gross leasable area of approximately 309,000 square feet during the quarter ended March 31, 2014 and 275 properties with aggregate gross leasable area of approximately 1,652,000 square feet during 2013.

Analysis of Expenses from Continuing Operations

General. Operating expenses from continuing operations increased for the quarter ended March 31, 2014, primarily due to an

increase in depreciation expense from certain properties acquired in 2013. The following table summarizes NNN's expenses from continuing operations for the quarters ended March 31 (dollars in thousands):

	2014	2013	Percent Increase (Decrease)	Percentage of Total		Percentage of Revenues from Continuing Operations

Quarter Ended March 31, 2014 versus Quarter Ended March 31, 2013

General and Administrative Expenses. General and administrative expenses increased in amount for the quarter ended March 31, 2014, as compared to the same period in 2013, but decreased both as a percentage of total operating expenses and as a percentage of revenues from continuing operations. The increase in general and administrative expenses for the quarter ended March 31, 2014, is primarily attributable to increases in real estate acquisition costs and incentive compensation.

Real Estate. Real estate expenses increased in amount for the quarter ended March 31, 2014, as compared to the same period in 2013, but remained relatively flat as a percentage of total operating expenses and as a percentage of revenues from continuing operations. The increase is primarily due to the increase in tenant reimbursable expenses from certain properties and an increase in real estate expenses incurred on vacant properties.

Depreciation and Amortization. Depreciation and amortization expenses increased in amount and as a percentage of total operating expenses and increased as a percentage of revenues from continuing operations for the quarter ended March 31, 2014, as compared to the quarter ended March 31, 2013. The increase is primarily due to the acquisition of 47 properties with an aggregate gross leasable area of approximately 309,000 square feet in 2014 and 275 properties with an aggregate gross leasable area of approximately 1,652,000 square feet during 2013.

Impairment Charges. NNN reviews long-lived assets for impairment whenever certain events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Events or circumstances that may occur include changes in real estate market conditions, the ability of NNN to re-lease properties that are currently vacant or become vacant, and the ability to sell properties at an attractive price. Management evaluates whether an impairment in value has occurred by comparing the estimated future cash flows (undiscounted and without interest charges), including the residual value of the real estate, with the carrying cost of the individual asset. If an impairment is indicated, a loss will be recorded for the amount by which the carrying value of the asset exceeds its fair value. NNN recorded \$396,000 and \$2,851,000 of real estate impairments during the quarters ended March 31, 2014 and 2013, respectively.

Interest Expense. Interest expense decreased for the quarter ended March 31, 2014, as compared to the same period in 2013.

The following represents the primary changes in debt that have impacted interest expense:

- (i) the issuance in April 2013 of \$350,000,000 principal amount of notes payable with a maturity of April 2023, and stated interest rate of 3.300%;
- (ii) the settlement of \$223,035,000 principal amount of 5.125% convertible notes payable in 2013; and

a \$54,687,000 decrease in the weighted average debt outstanding on the credit facility for the quarter ended March (iii) 31, 2014 as compared to the quarter ended March 31, 2013, and a slightly lower weighted average interest rate for the quarter ended March 31, 2014, as compared to the same period in 2013.

Discontinued Operations

Earnings. Effective January 1, 2014, NNN has early adopted ASU 2014-08. Under ASU 2014-08, only disposals representing a strategic shift in operations are to be presented as discontinued operations. This requires the Company to continue to classify any property disposal or property classified as held for sale as of December 31, 2013 as discontinued operations prospectively. Therefore, the revenues and expenses related to these properties are presented as discontinued operations as of March 31, 2014. The Company did not classify any additional properties as discontinued operations subsequent to December 31, 2013.

The following table summarizes the earnings (loss) from discontinued operations for the quarters ended March 31 (dollars in thousands):

	2014			2013		
	# of Sold Properties	Gain	Earnings	# of Sold Properties	Gain	Earnings
Properties	2	\$9	\$(36)	2	\$505	\$1,026

NNN periodically sells Properties and may reinvest the sales proceeds to purchase additional properties. NNN evaluates its ability to pay dividends to stockholders by considering the combined effect of income from continuing and discontinued operations.

Liquidity

General. NNN's demand for funds has been and will continue to be primarily for (i) payment of operating expenses and cash dividends; (ii) property acquisitions and development; (iii) origination of mortgages and notes receivable; (iv) capital expenditures; (v) payment of principal and interest on its outstanding indebtedness; and (vi) other investments.

Cash and Cash Equivalents. The table below summarizes NNN's cash flows (in thousands):

	Quarter Ended March 31,	
	2014	2013
Cash and cash equivalents:		
Provided by operating activities	\$78,604	\$68,823
Used in investing activities	(81,692)	(46,552)
Provided by (used in) financing activities	7,529	(20,905)
Increase	4,441	1,366
Net cash at beginning of period	1,485	2,076
Net cash at end of period	\$5,926	\$3,442

Cash provided by operating activities represents cash received primarily from rental income from tenants, proceeds from the disposition of certain properties and interest income less cash used for general and administrative expenses, interest expense and acquisition of certain properties. NNN's cash flow from operating activities, net of cash used in and provided by the acquisition and disposition of certain properties, has been sufficient to pay the distributions for each period presented. NNN uses proceeds from its Credit Facility to fund the acquisition of its properties. The change in cash provided by operations for the quarters ended March 31, 2014 and 2013, is primarily the result of changes in revenues and expenses as discussed in "Results of Operations." Cash generated from operations is expected to fluctuate in the future.

Changes in cash for investing activities are primarily attributable to the acquisitions and dispositions of Properties. NNN's financing activities for the quarter ended March 31, 2014, included the following significant transactions: \$45,100,000 in net proceeds from NNN's Credit Facility,

•

\$6,107,000 in net proceeds from the issuance of 184,503 shares of common stock in connection with the Dividend Reinvestment and Stock Purchase Plan ("DRIP"),

\$15,080,000 in net proceeds from the issuance of 432,000 shares of common stock in connection with the at-the-market ("ATM") equity program,

\$49,273,000 in dividends paid to common stockholders,

\$4,762,000 in dividends paid to holders of the depositary shares of NNN's Series D Preferred Stock, and

\$4,097,000 in dividends paid to holders of the depositary shares of NNN's Series E Preferred Stock.

Contractual Obligations and Commercial Commitments. NNN has agreed to fund construction commitments on certain of its leased Properties. The improvements are estimated to be completed within 12 months. These construction commitments, as of March 31, 2014, are outlined in the table below (dollars in thousands):

Number of properties	28
Total commitment ⁽¹⁾	\$97,317
Amount funded	\$50,442
Remaining commitment	\$46,875

(1)Includes land, construction costs and tenant improvements.

As of March 31, 2014, NNN did not have any other material contractual cash obligations, such as purchase obligations, financing lease obligations or other long-term liabilities other than those reflected in the table above and previously disclosed under Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations included in NNN's Annual Report on Form 10-K for the year ended December 31, 2013. In addition to items reflected in the table, NNN has issued preferred stock with cumulative preferential cash distributions, as described below under "Dividends."

Management anticipates satisfying these obligations with a combination of NNN's cash provided from operations, current capital resources on hand, its credit facility, debt or equity financings and asset dispositions.

Generally, the Properties are leased under long-term net leases, which require the tenant to pay all property taxes and assessments, substantially maintain the interior and exterior of the property and carry property and liability insurance coverage. Therefore, management anticipates that capital demands to meet obligations with respect to these Properties will be modest for the foreseeable future and can be met with funds from operations and working capital. Certain of NNN's Properties are subject to leases under which NNN retains responsibility for specific costs and expenses associated with the Property. Management anticipates that the costs associated with NNN's vacant Properties or those Properties that become vacant will also be met with funds from operations and working capital. NNN may be required to borrow under its credit facility or use other sources of capital in the event of unforeseen significant capital expenditures.

The lost revenues and increased property expenses resulting from vacant properties or uncollectibility of lease revenues could have a material adverse effect on the liquidity and results of operations if NNN is unable to re-lease the Properties at comparable rental rates and in a timely manner. As of March 31, 2014, NNN owned 35 vacant, un-leased Properties which accounted for approximately two percent of total Properties held in NNN's Property Portfolio.

NNN generally monitors the financial performance of its significant tenants on an ongoing basis.

Dividends. NNN has made an election to be taxed as a REIT under Sections 856 through 860 of the Code, as amended, and related regulations and intends to continue to operate so as to remain qualified as a REIT for federal income tax purposes. NNN generally will not be subject to federal income tax on income that it distributes to its stockholders, provided that it distributes 100 percent of its REIT taxable income and meets certain other requirements for qualifying as a REIT. If NNN fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost. Such an event could materially adversely affect NNN's income and ability to pay dividends. NNN believes it has been structured as, and its past and present operations qualify NNN as, a REIT.

One of NNN's primary objectives, consistent with its policy of retaining sufficient cash for reserves and working capital purposes and maintaining its status as a REIT, is to distribute a substantial portion of its funds available from operations to its stockholders in the form of dividends.

The following table outlines the dividends declared and paid for each issuance of NNN's stock (in thousands, except per share data):

	Quarter Ended March 31,	
	2014	2013
Series D preferred stock ⁽¹⁾ :		
Dividends	\$4,762	\$4,762
Per share	0.414063	0.414063
Series E preferred stock ⁽¹⁾ :		
Dividends	4,097	—
Per share	0.356250	—
Common stock:		
Dividends	49,273	44,321
Per share	0.405	0.395

⁽¹⁾ The Series D and E preferred stock have no maturity date and will remain outstanding unless redeemed.

In April 2014, NNN declared a dividend of \$0.405 per share which is payable in May 2014 to its common stockholders of record as of April 30, 2014.

Capital Resources

Generally, cash needs for property acquisitions, mortgages and notes receivable investments, debt payments, capital expenditures, development and other investments have been funded by equity and debt offerings, bank borrowings, the sale of properties and, to a lesser extent, by internally generated funds. Cash needs for operating expenses and dividends have generally been funded by internally generated funds. If available, future sources of capital include proceeds from the public or private offering of NNN's debt or equity securities, secured or unsecured borrowings from banks or other lenders, proceeds from the sale of properties, as well as undistributed funds from operations.

Debt

The following is a summary of NNN's total outstanding debt as of (dollars in thousands):

	March 31, 2014	Percentage of Total	December 31, 2013	Percentage of Total
Line of credit payable	\$91,500	5.7%	\$46,400	3.0%
Mortgages payable	9,181	0.6%	9,475	0.6%
Notes payable	1,514,486	93.7%	1,514,184	96.4%
Total outstanding debt	\$1,615,167	100.0%	\$1,570,059	100.0%

Indebtedness. NNN expects to use indebtedness primarily for property acquisitions and development of single-tenant retail properties, either directly or through investment interests, and mortgage and note receivables.

Line of Credit Payable. NNN's \$500,000,000 revolving credit facility (the "Credit Facility") had a weighted average outstanding balance of \$72,511,000 and a weighted average interest rate of 1.2% during the quarter ended March 31, 2014. The Credit Facility matures October 2016, unless the Company exercises its option to extend maturity to October 2017. The Credit Facility bears interest at LIBOR plus 107.5 basis points; however, such interest rate may change pursuant to a tiered interest rate structure based on NNN's debt rating. The Credit Facility also includes an accordion feature to increase the facility size up to \$1,000,000,000, subject to lender approval. As of March 31, 2014, \$91,500,000 was outstanding and \$408,500,000 was available for future borrowings, under the Credit Facility.

Notes Payable – Convertible. NNN recorded the following interest expense related to the 5.125% convertible senior notes due 2028 (the "2028 Notes") during the quarter ended March 31, 2013. No interest expense was recorded during the quarter ended March 31, 2014 (dollars in thousands):

Contractual interest expense	\$2,858
Noncash interest charges	1,122
Amortization of debt costs	305
Total interest expense	\$4,285

There was no interest expense related to the 3.950% convertible senior notes due 2026 ("the 2026 Notes") recorded during the quarters ended March 31, 2014 and 2013.

As of December 31, 2012, \$15,537,000 aggregate principal amount of 2026 Notes was outstanding. In January 2013, the Company paid approximately \$20,702,000 in aggregate settlement value for the \$15,537,000 of outstanding 2026 notes. The difference between the amount paid and the principal amount of the settled notes of \$5,028,000 was recognized as a decrease to additional paid-in capital and \$137,000 was recorded as interest expense.

As of December 31, 2012, \$223,035,000 aggregate principal amount of 2028 Notes was outstanding. In June 2013, NNN called all of the outstanding 2028 Notes for redemption on July 11, 2013. On July 11, 2013, \$130,000 principal amount of the 2028 Notes was settled at par plus accrued interest. The holders of the remaining balance of \$222,905,000 principal amount of 2028 Notes elected to convert into cash and shares of the Company's common stock in accordance with the conversion formula which is based on the average daily closing price of NNN's common stock price over a period of 20 days commencing after receipt of a note holder's conversion notice. In 2013, the Company issued 2,407,911 shares of common stock and paid approximately \$226,427,000 in aggregate settlement value for the \$223,035,000 aggregate principal amount of 2028 Notes outstanding. The difference between the amount paid and the principal amount of the settled notes of \$3,197,000 was recognized as a decrease to additional paid-in capital and \$195,000 was recorded as interest expense.

Notes Payable. In April 2013, NNN filed a prospectus supplement to the prospectus contained in its February 2012 shelf registration statement and issued an aggregate \$350,000,000 principal amount of 3.300% Notes due April 2023 (the "2023 Notes"). The 2023 Notes were sold at a discount with an aggregate purchase price of \$347,406,000 with interest payable semi-annually commencing on October 15, 2013. The discount of \$2,594,000 is being amortized to interest expense over the term of the note using the effective interest method. The effective interest rate for the 2023 Notes after accounting for note discount is 3.388%. NNN previously entered into four forward starting swaps with an aggregate notional amount of \$240,000,000. Upon issuance of the 2023 Notes, NNN terminated the forward starting swaps resulting in a liability of \$3,156,000, of which \$3,141,000 was deferred in other comprehensive income. The deferred liability is being amortized over the term of the 2023 Notes using the effective interest method.

The 2023 Notes are senior unsecured obligations of NNN and are subordinated to all secured indebtedness and to the indebtedness and other liabilities of NNN's subsidiaries. Additionally, the 2023 Notes are redeemable at NNN's option, in whole or part anytime, for an amount equal to (i) the sum of the outstanding principal balance of the notes being redeemed plus accrued interest thereon to the redemption date, and (ii) the make whole amount, if any, as defined in the supplemental indenture dated April 9, 2013, relating to the 2023 Notes.

NNN received approximately \$344,266,000 of proceeds in connection with the issuance of the 2023 Notes, net of debt issuance costs totaling \$3,140,000 consisting primarily of underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses.

Debt and Equity Securities

NNN has used, and expects to use in the future, issuances of debt and equity securities primarily to pay down its outstanding indebtedness and to finance investment acquisitions.

Securities Offering. In February 2012, NNN filed a shelf registration statement with the Securities and Exchange Commission (the "Commission") which was automatically effective and permits the issuance by NNN of an indeterminate amount of debt and equity securities.

A description of NNN's outstanding series of publicly held notes is found under "Debt – Notes Payable" above.

5.700% Series E Cumulative Redeemable Preferred Stock. In May 2013, NNN closed an underwritten public offering of 11,500,000 depositary shares (including 1,500,000 depositary shares issued in connection with the underwriters' over-

allotment), each representing a 1/100th interest in a share of Series E Preferred Stock, and received gross proceeds of \$287,500,000. In connection with this offering, the Company incurred stock issuance costs of approximately \$9,856,000, consisting primarily of underwriting commissions and fees, rating agency fees, legal and accounting fees and printing expenses. The Company used the net proceeds from the offering for general corporate purposes and funding property acquisitions.

Holders of the Series E depositary shares are entitled to receive, when and as authorized by the Board of Directors, cumulative preferential cash dividends at the rate of 5.700% of the \$25.00 liquidation preference per depositary share per annum (equivalent to a fixed annual amount of \$1.425 per depositary share). The Series E Preferred Stock underlying the depositary shares ranks senior to NNN's common stock with respect to dividend rights and rights upon liquidation, dissolution or winding up of NNN. The Series E Preferred Stock has no maturity date and will remain outstanding unless redeemed. NNN may redeem the Series E Preferred Stock underlying the depositary shares on or after May 30, 2018, for cash, at a redemption price of \$2,500.00 per share (or \$25.00 per depositary share), plus all accumulated and unpaid dividends. In addition, upon a change of control, as defined in the articles supplementary fixing the rights and preferences of the Series E Preferred Stock, NNN may redeem the Series E Preferred Stock underlying the depositary shares at a redemption price of \$2,500.00 per share (or \$25.00 per depositary share), plus all accumulated and unpaid dividends, and in limited circumstances the holders of depositary shares may convert some or all of their Series E Preferred Stock into shares of NNN's common stock at conversion rates provided in the related articles supplementary. As of May 1, 2014, the Series E Preferred Stock was not redeemable or convertible.

Common Stock Issuances. In May 2012, NNN established an at-the-market equity program ("2012 ATM") which allowed NNN to sell up to an aggregate of 9,000,000 shares of common stock from time to time through May 2015. The following table outlines the common stock issuances pursuant to the 2012 ATM during the quarter ended March 31, 2013 (dollars in thousands, except per share data):

Shares of common stock	4,616,542
Average price per share (net)	\$32.56
Net proceeds	\$150,327
Stock issuance costs ⁽¹⁾	\$2,129

⁽¹⁾ Stock issuance costs consist primarily of underwriters' fees and commissions, and legal and accounting fees.

No shares were issued under the 2012 ATM during the quarter ended March 31, 2014.

In March 2013, NNN established a second ATM equity program ("2013 ATM") which allows NNN to sell up to an aggregate of 9,000,000 shares of common stock from time to time through March 2015. The following table outlines the common stock issuances pursuant to the 2013 ATM during the quarter ended March 31, 2014 (dollars in thousands, except per share data):

Shares of common stock	432,000
Average price per share (net)	\$34.91
Net proceeds	\$15,080
Stock issuance costs ⁽¹⁾	\$265

⁽¹⁾ Stock issuance costs consist primarily of underwriters' fees and commissions, and legal and accounting fees.

NNN incurred \$135,000 of stock issuance costs related to the 2013 ATM consisting primarily of legal and accounting fees during the quarter ended March 31, 2013. No shares were issued under the 2013 ATM during the quarter ended March 31, 2013.

In February 2012, NNN filed a shelf registration statement which was automatically effective with the Commission for its DRIP, which permits the issuance by NNN of up to 16,000,000 shares of common stock. NNN's DRIP provides an economical and convenient way for current stockholders and other interested new investors to invest in NNN's common stock. The following outlines the common stock issuances pursuant to NNN's DRIP (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Shares of common stock	184,503	424,995
Net proceeds	\$6,107	\$13,822

Commercial Mortgage Residual Interests

NNN holds the residual interests (“Residuals”) from seven securitizations. Each of the Residuals is recorded at fair value based upon an independent valuation. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity and other than temporary losses as a result of a change in the timing or amount of estimated cash flows are recorded as an other than temporary valuation impairment.

The following table summarizes the recognition of unrealized gains and/or losses recorded as other comprehensive income as well as other than temporary valuation impairments recorded in condensed consolidated statements of comprehensive income (dollars in thousands):

	Quarter Ended March 31,	
	2014	2013
Unrealized gains	\$684	\$869

Refer to Note 1 to the March 31, 2014, Condensed Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

NNN is exposed to interest rate risk primarily as a result of its variable rate Credit Facility and its fixed rate debt which are used to finance NNN's development and acquisition activities, as well as for general corporate purposes. NNN's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to reduce overall borrowing costs. To achieve its objectives, NNN borrows at both fixed and variable rates on its long-term debt. As of March 31, 2014, NNN has three interest rate hedges with a total notional amount of \$225,000,000 to hedge the risk of changes in the interest-related cash outflows associated with the potential issuance of long-term debt.

The information in the table below summarizes NNN's market risks associated with its debt obligations outstanding as of March 31, 2014 and December 31, 2013. The table presents principal payments and related interest rates by year for debt obligations outstanding as of March 31, 2014. The table incorporates only those debt obligations that existed as of March 31, 2014, and it does not consider those debt obligations or positions which could arise after this date. Moreover, because firm commitments are not presented in the table below, the information presented therein has limited predictive value. As a result, NNN's ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the quarter, NNN's hedging strategies at that time and interest rates. If interest rates on NNN's variable rate debt increased by one percent, NNN's interest expense would have increased by less than one percent for the quarter ended March 31, 2014.

⁽¹⁾ NNN's mortgages payable include unamortized premiums.

⁽²⁾ Includes NNN's notes payable, each net of unamortized discounts. NNN uses market prices quoted from Bloomberg, a third party, which is a level one input, to determine the fair value.

NNN is also exposed to market risks related to the Residuals. Factors that may impact the market value of the Residuals include delinquencies, loan losses, prepayment speeds and interest rates. The Residuals, which are reported at market value based upon an independent valuation, had a carrying value of \$12,034,000 and \$11,721,000 as of March 31, 2014 and December 31, 2013, respectively. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity. Losses considered other than temporary are reported as valuation impairments in earnings from operations if and when there has been a change in the timing or amount of estimated cash flows that leads to a loss in value.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. An evaluation was performed under the supervision and with the participation of NNN's management, including NNN's Chief Executive Officer and Chief Financial Officer, of the effectiveness as of March 31, 2014 of the design and operation of NNN's disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting. There has been no change in NNN's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, NNN's internal control over financial reporting.
