THE TOPPS COMPANY, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS THIRTEEN WEEKS ENDED May 31, 2003

1. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying unaudited condensed interim consolidated financial statements have been prepared by The Topps Company, Inc. and its subsidiaries (the "Company") pursuant to the rules and regulations of the Securities and Exchange Commission and reflect all adjustments which are, in the opinion of management, considered necessary for a fair presentation. Operating results for the thirteen weeks ended May 31, 2003 are not necessarily indicative of the results that may be expected for the year ending February 28, 2004. For further information refer to the consolidated financial statements and notes thereto in the Company's annual report for the year ended March 1, 2003.

Employee Stock Options: The Company accounts for stock-based employee compensation based on the intrinsic value of stock options granted in accordance with the provisions APB 25 "Accounting for Stock Issued to Employees." Information relating to stock-based employee compensation, including the pro forma effects had the Company accounted for stock-based employee compensation based on the fair value of stock options granted in accordance SFAS 123, "Accounting for Stock-Based Compensation," is shown below:

| | (In thousands of dollars, except share data) | | | |
|--------------------|----------------------------------------------|-----------|-------------|-----------|
| | As reported | Pro forma | As reported | Pro forma |
| | 2004 | | 2003 | |
| Net Income | \$ 3,521 | \$ 3,321 | \$ 7,341 | \$ 7,004 |
| Earnings per share | \$ 0.08 | \$ 0.07 | \$ 0.17 | \$ 0.16 |

Options typically vest over a three-year period. In determining the preceding pro forma amounts under SFAS 123, the fair value of each option grant is estimated as of the date of grant using the Black-Scholes option-pricing model with the following assumptions: no dividend yield in any year; risk free interest rate, estimated volatility and expected life, as follows: fiscal 2003 - 4.5%, 35% and 6.5 years, respectively; fiscal 2002 - 5.7%, 59% and 6.7 years, respectively; and fiscal 2001- 6.5%, 56% and 6.6 years, respectively.

2. Quarterly Comparison

Management believes that quarter-to-quarter comparisons of sales and operating results are affected by a number of factors, including, but not limited to, the timing of sports and entertainment releases, new product introductions, seasonal products, the timing of various expenses such as advertising and variations in shipping and factory scheduling requirements. Thus, quarterly results may vary.

5. Segment Information

Following is the breakdown of industry segments as required by SFAS No. 131 "Disclosures About Segments of an Enterprise and Related Information." The Company has two reportable business segments: Confectionery and Entertainment. Consistent with Topps organizational structure and product line similarities, Entertainment now combines the former Sports and Entertainment segments into one.

The Confectionery segment consists of a variety of lollipop products including Ring Pop, Push Pop and Baby Bottle Pop, the Bazooka bubble gum line and licensed confections including Pokemon and Yu-Gi-Oh! products.

The Entertainment segment primarily consists of cards and sticker album products featuring sports and non-sports licenses. Trading cards feature players from Major League Baseball, the National Basketball Association, the National Football League, and the National Hockey League, as well as characters from popular films, television shows and other entertainment properties. Sticker album products feature players from English Premier League and certain other European soccer teams, as well as characters from entertainment properties including Pokemon and Yu-Gi-Oh! This segment also includes results from thePit, etopps and Topps Vault.

The Company's management regularly evaluates the performance of each segment based upon its contributed margin, which is profit after cost of goods, product development, advertising and promotional costs and obsolescence, but before unallocated general and administrative expenses and manufacturing overhead, depreciation and amortization, other income (expense), net interest and income

Edgar Filing: TOPPS CO INC - Form 10-Q

taxes.

The Company does not allocate assets between its business segments and therefore does not include a breakdown of assets or depreciation and amortization by segment.

6. Dividends

On June 26, 2003, the Board of Directors of the Company declared a quarterly cash dividend of \$0.04 per share, payable on August 1, 2003 to shareholders of record on July 18, 2003.

7. Credit Agreement

On June 26, 2000, the Company entered into a credit agreement with Chase Manhattan Bank and LaSalle Bank National Association. The agreement provides for a \$35.0 million unsecured facility to cover revolver and letter of credit needs and expires on June 26, 2004. Interest rates are variable and are a function of the Company's EBITDA. The credit agreement contains restrictions and prohibitions of a nature generally found in loan agreements of this type and requires the Company, among other things, to comply with certain financial covenants, limits the Company's ability to repurchase its shares, sell or acquire assets or borrow additional money and prohibits the payment of dividends. The credit agreement may be terminated by the Company at any point over the four year term (provided the Company repays all outstanding amounts

Edgar Filing: TOPPS CO INC - Form 10-Q

thereunder) without penalty. On June 1, 2002, the credit agreement was amended to provide for an increase in the number of shares of Topps common stock permitted to be repurchased. The Company has obtained a waiver to its agreement with respect to the payment of dividends on August 1, 2003. There was no debt outstanding as of May 31, 2003.

8. Reclassifications

Effective March 3, 2002, the Company adopted the EITF Issue No. 00-14 "Accounting for Sales Incentives" which requires certain trade promotion expenses, such as slotting fees, to be presented as a reduction in sales. As a result, trade promotion expenses for the thirteen weeks ended May 31, 2003 and June 1, 2002 of \$407,000 and \$798,000, respectively, have been reported as a reduction of net sales rather than as marketing expense. These changes did not impact reported earnings in either period.

9. Intangible Assets

On March 3, 2002, the Company adopted SFAS 141 "Business Combinations" and SFAS 142 "Goodwill and Other Intangible Assets" which require the Company to prospectively cease amortization of goodwill and instead conduct periodic tests of goodwill for impairment.

SFAS 142 prescribes an annual two-phase process for impairment testing of goodwill. The first phase, completed on May 31, 2003, screens for impairment; while the second phase (if necessary), required to be completed by November 30, 2003, measures the impairment. The Company has completed the first phase and concluded that no impairment of goodwill exists. Therefore, completion of phase two is not necessary.

9

For the thirteen weeks ended May 31, 2003, no goodwill or other intangibles were acquired, impaired or disposed. Intangible assets consisted of the following as of May 31, 2003 and March 1, 2003:

| | (amounts in thousands) | | | | | |
|-------------------------------|-----------------------------|-----------------------------|---------|----------------------------|-----------------------------|---------|
| | May 31, 2003 (Unaudited) | | | March 1, 2003 | | |
| | Gross Carrying Value | Accumulated Amortization | Net | Gross Carrying Value | Accumulated Amortization | Net |
| | ----- | ----- | ----- | ----- | ----- | ----- |

| | ===== | ===== | ===== | ===== | ===== | ===== |

Over the next five years the Company estimates annual amortization of the intangible assets detailed above to be as follows:

Edgar Filing: TOPPS CO INC - Form 10-Q

| Fiscal Year ----- | Amount ----- |
|----------------------|-----------------|
| | (in thousands) |
| 2004 | \$1,060 |
| 2005 | \$ 826 |
| 2006 | \$ 826 |
| 2007 | \$ 748 |
| 2008 | \$ 670 |

In addition to the amortization of intangibles listed above, reported amortization expense, which was \$321,000 for the three months ended May 31, 2003, included amortization of deferred financing fees.

10

10. Legal Proceedings

In November 2000, the Commission of the European Communities ("the Commission") began an investigation into whether Topps Europe's distribution arrangements for its licensed products comply with European law ("the EU investigation"). The Commission is seeking information as to whether Topps Europe has engaged in the prevention of parallel trade between the member states of the European Union and/or European Economic Area, in infringement of Article 81 of the EC Treaty and/or Article 54 of the EEA Treaty. Topps Europe filed a response to the Commission's inquiry on November 29, 2000, and provided further information to the Commission on February 2, 2001, pursuant to its request. The Commission continued its investigation by submitting new requests for documents and information in early 2003 and Topps Europe continues to fully cooperate. On June 17, 2003, the Commission took the first formal step in the investigation and filed a Statement of Objections, therein coming to a preliminary conclusion that Topps and its European subsidiaries infringed Article 81 of the EC treaty during 2000. Topps and Topps Europe will formally respond to the Statement of Objections within the time allowed by the Commission, at which point the parties will proceed to a hearing in front of the European Commission Tribunal. If the Commission were to levy a fine that is ultimately upheld, it could be substantial. The maximum amount of the fine that could be levied against Topps and Topps Europe is 10% of annual revenues.

On February 17, 2000, Telepresence, Inc. sued Topps and nine other manufacturers of trading cards (the "Defendants") in the Federal District Court for the Central District of California for infringement of U.S. Patent No. 5,803,501 which was issued on September 8, 1998 ("the 501 Patent"). In its suit, Telepresence contended that the patent covers all types of "relic" cards that contain an authentic piece of equipment, i.e., a sporting implement or jersey. Topps received an opinion of counsel that its relic cards did not infringe the 501 Patent. After initial discovery, on November 15, 2000 the Defendants jointly moved for summary judgement on the grounds that the named Plaintiff (Telepresence, Inc.) did not have standing to sue for infringement of the 501 Patent. The motion was granted and the Telepresence litigation was dismissed with prejudice on March 28, 2001.

Edgar Filing: TOPPS CO INC - Form 10-Q

After the dismissal, the 501 Patent was assigned to a company called Media Technologies, Inc. Media Technologies is under the control of the same person (the inventor, Adrian Gluck) who orchestrated the Telepresence action. On November 19, 2001, Media Technologies sued essentially the same group of defendants in the same court for infringement of the 501 Patent. On March 13, 2002, the Defendants again moved for summary judgment based on the fact that the Telepresence action was dismissed with prejudice. That motion was granted by the District Court on April 22, 2002. Plaintiff (Media Technologies, Inc.) appealed on May 2, 2002. That appeal is presently pending before the Court of Appeals for the Federal Circuit. Oral argument was held on April 9, 2003 and a decision is expected in the near future. If the dismissal is overturned, the parties will then engage in discovery on the substantive issues of the case. An adverse outcome in the litigation could result in a substantial liability for the Company.

The Company is a defendant in several other civil actions. In management's opinion, after consultation with legal counsel, these other actions will not have a material adverse effect on the Company's financial condition or results of operations.

11

11. Acquisition of Wizkids, LLC

On July 9, 2003, the Company acquired Wizkids, LLC ("WizKids") for a cash purchase price of approximately \$29.5 million. WizKids, a designer and marketer of collectible strategy games, is headquartered in Bellevue, Washington, and generated net revenues in 2002 of approximately \$33 million, principally in the U.S.

12. Recently Issued Accounting Pronouncements

In April 2003, SFAS No. 149, "Amendment of Statement 133 on Derivative Financial Instruments and Hedging Activities," was issued and is effective for contracts entered into or modified after June 30, 2003, except as stated below and for hedging relationships designated after June 30, 2003. The changes in this Statement improve financial reporting by requiring that contracts with comparable characteristics be accounted for similarly. In particular, this Statement (1) clarifies under what circumstances a contract with an initial net investment meets the characteristic of a derivative discussed in paragraph 6(b) of Statement 133, (2) clarifies when a derivative contains a financing component, (3) amends the definition of an underlying guarantee to conform it to language used in FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" and (4) amends certain other existing pronouncements. The Company does not believe this Statement will have a material effect on its consolidated results of operations or financial position.

In May 2003, SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity," was issued and is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June

Edgar Filing: TOPPS CO INC - Form 10-Q

15, 2003, except for mandatory redeemable financial instruments of nonpublic entities. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. The Company does not believe this Statement will have a material effect on its consolidated results of operations or financial position.

In January of 2003, FASB Interpretation No. (FIN) 46, "Consolidation of Variable Interest Entities and Interpretation of ARB No. 51," was issued and applies immediately to variable interest entities created after January 31, 2003, and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003 to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. This Interpretation clarifies the application of ARB No. 51, Consolidated Financial Statements, to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The Company does not believe this Statement will have a material effect on its consolidated results of operations or financial position.

INDEPENDENT ACCOUNTANTS' REPORT

Board of Directors and Stockholders of
The Topps Company, Inc.

We have reviewed the accompanying condensed consolidated balance sheet of The Topps Company, Inc. and subsidiaries (the "Company") as of May 31, 2003, and the related condensed consolidated statements of operations and cash flows for the thirteen weeks ended May 31, 2003 and June 1, 2002. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and of making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated financial statements for them

Edgar Filing: TOPPS CO INC - Form 10-Q

to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of the Company as of March 1, 2003, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated April 4, 2003 we expressed an unqualified opinion (and included an explanatory paragraph with respect to the adoption of the non-amortization provisions for goodwill and other indefinite lived intangible assets, as discussed in Note 6 to the consolidated financial statements) on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of March 1, 2003 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

First Quarter Fiscal Year 2004 (thirteen weeks ended May 31, 2003) versus First Quarter Fiscal Year 2003 (thirteen weeks ended June 1, 2002)

The following table sets forth, for the periods indicated, net sales by key business segment:

| | Thirteen weeks ended | |
|---------------------|------------------------|-----------|
| | May | June |
| | 31, 2003 | 1, 2002 |
| | ----- | ----- |
| | (amounts in thousands) | |
| Net Sales | | |
| ----- | | |
| Confectionery | \$ 45,589 | \$ 43,092 |
| Entertainment | 30,523 | 44,659 |
| | ----- | ----- |
| Total | \$ 76,112 | \$ 87,751 |
| | ===== | ===== |

Edgar Filing: TOPPS CO INC - Form 10-Q

Net sales for the first quarter of fiscal 2004 decreased 13.3% to \$76.1 million from \$87.8 million for the same period last year. Stronger foreign currencies versus the dollar in the fiscal 2004 first quarter increased sales by \$3.0 million.

Net sales of confectionery products, which include, among other things, Bazooka brand bubble gum and Ring Pop, Push Pop, Baby Bottle Pop and licensed candy products, increased 5.8% in the first quarter of this year to \$45.6 million from \$43.1 million in fiscal 2003. Sales of Baby Bottle Pop in the U.S. grew 40%. Additionally, the introduction of Juicy Drop Pop in the U.K., sales of Pokemon and Yu-Gi-Oh! licensed confectionery products, and strong seasonal Easter sales in the U.S. contributed to growth and helped offset lower U.S. sales of both Ring Pop and Push Pop.

Net sales of entertainment products, which consist of cards, sticker albums and Internet activities, decreased 31.7% to \$30.5 million in the first quarter of fiscal 2004 from \$44.7 million in the same period last year. Sales of traditional sports card products decreased just over 30%. In late fiscal 2003 the Company decided to reduce the number of products offered due to continued weakness in the industry. Sales of non-sports licensed products also decreased due to strong sales of Star Wars and Marvel last year versus the roll-out of Yu-Gi-Oh! products this year. Third, although this has been a strong season for European sports products, sales in the quarter were below last year due to the absence of products associated with the World Cup soccer tournament, which occurs every four years, and to the timing of English Premier League sticker album sales. Finally, while reported Internet sales in the quarter were above last year, this increase was driven by a deferral of certain fourth quarter revenues into the first quarter, as required by GAAP.

Gross profit as a percentage of net sales for the first quarter of fiscal 2004 was flat with last year at 37.2%. This was primarily a function of higher material costs in the U.S. and an increase in obsolescence expense, offset by the favorable impact of lower royalty expense due to the reduced percentage of sports and publishing products this year.

Other income was \$398,000 this year versus a \$66,000 expense last year. This favorability was primarily the result of a shift of mark-to-market adjustments on foreign currency contracts to the revenue and cost of goods sold lines this year, where there is a better match with the items being hedged, from the other income (expense) line last year.

14

SG&A as a percentage of net sales was 32.0% in the first quarter of fiscal 2004 versus 25.0% a year ago, and SG&A dollar spending increased to \$24.4 million from \$21.9 million. The dollar increase was largely the result of higher marketing costs related to new product introductions in Europe and the timing of TV commercial production in the U.S.

Net interest income in the quarter was \$1.0 million in fiscal 2004 versus \$632,000 in fiscal 2003, with the increase in fiscal 2004 due to interest from the IRS on a tax refund received in the first quarter this year.

The effective tax rate reflects provisions for federal, state and local income taxes in accordance with statutory income tax rates. The Company's tax rate was 35.0% in both years.

Edgar Filing: TOPPS CO INC - Form 10-Q

Net income for the first quarter of fiscal 2004 was \$3.5 million, or \$0.08 per diluted share, compared with \$7.3 million, or \$0.17 per diluted share last year.

Liquidity and Capital Resources

Management believes that the Company has adequate means to meet its liquidity and capital resource needs over the foreseeable future as a result of the combination of cash on hand, anticipated cash from operations and credit line availability.

At May 31, 2003, the Company had \$113.9 million in cash and cash equivalents. Subsequently, the Company disbursed approximately \$31 million for the purchase price and costs associated with the acquisition of the Wizkids, LLC.

On June 26, 2000, the Company entered into a credit agreement with Chase Manhattan Bank and LaSalle Bank National Association. The agreement provides for a \$35.0 million unsecured facility to cover revolver and letter of credit needs and expires on June 26, 2004. Interest rates are variable and are a function of the Company's EBITDA. The credit agreement contains restrictions and prohibitions of a nature generally found in loan agreements of this type and requires the Company, among other things, to comply with certain financial covenants, limits the Company's ability to repurchase its shares, sell or acquire assets or borrow additional money and prohibits the payment of dividends. The credit agreement may be terminated by the Company at any point over the four year term (provided the Company repays all outstanding amounts thereunder) without penalty. On June 1, 2002, the credit agreement was amended to provide for an increase in the number of shares of Topps common stock permitted to be repurchased. The Company has obtained a waiver to its agreement with respect to the payment of dividends on August 1, 2003. There was no debt outstanding as of May 31, 2003.

In October 1999, the Board of Directors authorized the Company to purchase up to 5 million shares of its stock. In October 2001, purchases against this authorization were completed, and the Board of Directors authorized the purchase of up to an additional 5 million shares of stock. During the first quarter of fiscal 2004, the Company did not purchase any shares. As of May 31, 2003, the Company had repurchased a total of 1.6 million shares at an average price per share of \$9.01 under the second authorization.

In the quarter ended May 31, 2003, the Company's net decrease in cash and cash equivalents was \$349,000 versus a decrease of \$11.7 million in the comparable period of fiscal 2003. Cash used by operating activities in the quarter this year was \$1.4 million versus \$7.3 million last year, largely due to an increase in accounts receivable resulting primarily from a decrease in the return reserve for sports and entertainment products in the quarter last year. Additionally this year, inventories were higher, and payables were lower due to disbursements for sports royalty payments, a legal settlement and employee incentive payments in fiscal 2004.

Cash used in investing activities, which reflects the Company's capital spending, was \$861,000 in the first quarter this year versus \$1.2 million last year due to lower spending on computer systems and software. Cash provided by financing activities was a positive \$245,000 in fiscal 2004, reflecting the exercise of stock options and no treasury stock purchases, versus a use of \$2.1 million in fiscal 2003 primarily for the purchase of treasury stock.

Cautionary Statements

In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 (the "Reform Act"), the Company is hereby filing cautionary statements identifying important factors that could cause actual results to differ materially from those projected in any forward-looking statements of the Company made by or on behalf of the Company, whether oral or written. Among the factors that could cause the Company's actual results to differ materially from those indicated in any such forward statements are: (i) the failure of certain of the Company's principal products, particularly sports cards, entertainment cards, lollipops and sticker album collections, to achieve expected sales levels; (ii) the Company's inability to produce timely, or at all, certain new planned confectionery products; (iii) quarterly fluctuations in results; (iv) the Company's loss of important licensing arrangements; (v) the failure of etopps, the Company's on-line trading card initiative, to achieve expected levels of success; (vi) the Company's loss of important supply arrangements with third parties; (vii) the loss of any of the Company's key customers or distributors; (viii) further prolonged and material contraction in the trading card industry as a whole; (ix) excessive returns of the Company's products; (x) civil unrest, currency devaluation, health-related issues, or political upheaval in certain foreign countries in which the Company conducts business; (xi) an adverse outcome in the EU investigation, as well as other risks detailed from time to time in the Company's reports and registration statements filed with the Securities and Exchange Commission.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Topps management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets, liabilities and the disclosure of contingent assets and liabilities.

On an on-going basis, Topps management evaluates its estimates and judgments, including those related to revenue recognition, intangible assets, and reserves, based on historical experience and on various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. Note 1 to the Company's Annual Report "Summary of Significant Accounting Policies" summarizes each of its significant accounting policies. Additionally, Topps management believes the following critical accounting policies, among others, affect its more significant judgments and estimates used in the preparation of its consolidated financial statements.

Revenue Recognition: Revenue related to sales of the Company's products is generally recognized when products are shipped, the title and risk of loss has passed to the customer, the sales price is fixed or determinable and collectibility is reasonably assured. Sales made on a returnable basis are recorded net of a provision for estimated returns. These estimates are revised, as necessary, to reflect actual experience and market conditions.

Intangible Assets: Intangible assets include trademarks and the value of sports, entertainment and proprietary product rights. Amortization is by the straight-line method over estimated lives of up to twenty years. Management evaluates the recoverability of intangible assets under the provisions of SFAS 144, based on undiscounted projections of future cash flows attributable to the individual assets.

Edgar Filing: TOPPS CO INC - Form 10-Q

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires Topps management to make estimates and assumptions which affect the reporting of assets and liabilities as of the dates of the financial statements and revenues and expenses during the reporting period. These estimates primarily relate to the provision for sales returns, allowance for doubtful accounts, inventory obsolescence and asset valuations. Actual results could differ from these estimates.

16

ITEM 3. DISCLOSURES ABOUT MARKET RISK

The Company's exposure to market risk associated with activities in derivative financial instruments (e.g., hedging or currency swap agreements), other financial instruments and derivative commodity instruments is confined to the impact of mark-to-market changes in foreign currency rates on the Company's forward contracts and options. The Company has no debt outstanding and does not engage in any commodity-related derivative transactions. As of May 31, 2003, the Company had contracts and options which were entered into for the purpose of hedging forecasted receipts and disbursements in various foreign currencies and which, primarily due to the weakening of the U.S. dollar, resulted in an unfavorable mark-to-market adjustment in the quarter.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

Based on their evaluation as of a date within 90 days of the filing date of this Quarterly Report on Form 10-Q, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934 (the "Exchange Act")) are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

(b) Changes in internal controls.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation. There were no significant deficiencies or material weaknesses, and therefore there were no corrective actions taken.
