Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant, The Topps Company, Inc., a Delaware corporation ("Topps" or the "Company"), filed a Current Report on Form 8-K on July 24, 2003, describing its acquisition of Wizkids, LLC, a Delaware corporation ("WizKids").

This Current Report on Form 8-K/A amends the previously filed Form 8-K to include the financial information required by Item 7 of Form 8-K. This Current Report on 8-K/A contains forward looking statements that involve risks and uncertainties relating to this acquisition and actual results, and developments may differ materially from those described in this amended Current Report. For more information about the Company and risks relating to investing in the Company, refer to the Company's annual report on Form 10-K for the year ended March 1, 2003.

Item 2. Acquisition or Disposition of Assets

Topps is a marketer of premium-branded confectionery products including

Edgar Filing: TOPPS CO INC - Form 8-K/A

lollipops such as Ring Pop, Push Pop and Baby Bottle Pop, Bazooka brand bubble gum and certain novelty candy products. The Company also markets collectible entertainment products featuring professional athletes and popular television, movie and other licensed characters. Entertainment product formats include, among other things, trading cards, sticker albums, tattoos and toys.

On July 9, 2003 (the "Closing"), the Company purchased the assets of WizKids. Pursuant to the terms of the Agreement and Plan of Merger (the "Merger Agreement") dated as of June 23, 2003, among WizKids, Topps, Topps Enterprises, Inc., a wholly owned subsidiary of the Company ("Enterprises"), Topps Finance, Inc., a wholly owned subsidiary of Topps Enterprises, Inc., and The Member Representative, the Company acquired WizKids through a merger ("the Merger") of WizKids with and into a newly formed wholly-owned subsidiary of Enterprises ("Merger Sub"). Upon consummation of the Merger, the separate corporate existence of WizKids ceased and the name of Merger Sub was changed to WizKids, LLC ("New WizKids"), a Delaware corporation.

WizKids designs and sells collectible miniature games, primarily to the hobby market through distributors and retailers. The Company is headquartered in Bellevue, Washington with additional facilities in Cincinnati, Ohio.

The total consideration payable by the Company to the WizKids' shareholders will be comprised of \$29.5 million in cash, offset by a purchase price adjustment, if any, as defined, based on the level of WizKids working capital at Closing. The working capital adjustment will be the amount by which net working capital at Closing was greater than or less than the required \$3,700,000 benchmark level. Net initial consideration of \$28,284,469 in cash was paid at Closing, which is based on a preliminary negative working capital adjustment of \$1,215,531.

The Company entered into an employment agreement with Jordan Weisman, the majority shareholder and founder of WizKids, for a forty-eight month period following the Closing. As part of this employment agreement, \$2 million of the consideration paid to Mr. Weisman is being accounted for as deferred compensation expense and is being amortized over four years. As an additional part of his employment agreement, Mr. Weisman is entitled to additional contingent payments during the forty-eight months subsequent to the Closing equal to 2% of WizKids' annual net revenue in excess of \$35 million per annual period, assuming that certain operating margin targets are met. In addition, Mr. Weisman was granted 200,000 options to acquire the Company's common stock, which were granted at fair market value on the date of grant and are vested over a four-year period. Subsequently, the number of options was reduced to 165,000 with the same terms in an amendment to the employment agreement.

Topps operates under a 52/53 week fiscal year. Its most recent fiscal year ended on March 1, 2003, and its most recent unaudited thirteen week period ended on May 31, 2003. For the purpose of the presentation of the unaudited condensed combining proforma financial information, WizKids' most recent fiscal year ended December 31, 2002, and its most recent unaudited three month period ended March 31, 2003 have been combined with Topps' most recent annual and thirteen week periods.

The Merger Agreement and Employment Agreement are Exhibits 2.1 and 10.1 to the Current Report on Form 8-K filed on July 24, 2003. The foregoing description is qualified in its entirety by reference to the agreements previously filed as Exhibits.

WIZKIDS, LLC AND SUBSIDIARY

Notes to Consolidated Financial Statements December 31, 2002 and 2001

(1) Description of Business and Summary of Significant Accounting Policies

(a) Description of Business

Wizkids, LLC, a limited liability company, was formed and began operations on May 10, 2000. The Wizkids, LLC managing member is also the chief executive officer. Under the terms of the limited liability company agreement, no member is individually liable for the debts, obligations or liabilities of Wizkids, LLC. Wizkids, LLC has perpetual existence unless terminated earlier, under certain circumstances.

The consolidated financial statements include the accounts of Wizkids, LLC and its wholly owned subsidiary, Wizkids Ohio, LLC (collectively, the "Company" or "WizKids"). All intercompany accounts and transactions have been eliminated. WizKids designs and sells collectible miniature games, primarily to the hobby market through distributors and retailers. The Company is headquartered in Bellevue, Washington with additional facilities in Cincinnati, Ohio.

(b) Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Inventories

Inventories are primarily comprised of finished goods and are stated at the lower of cost (first in, first out) or market. Inventory costs consists primarily of the costs charged by our primary third party manufacturer together with the cost we incur for tooling and molds consumed in the manufacturing process.

(d) Trade Receivables

Trade receivables are recorded at the invoiced amount, net of anticipated early-pay discounts, and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing trade

Edgar Filing: TOPPS CO INC - Form 8-K/A

receivables. The Company determines the allowance based on historical write-off experience. The Company reviews its allowance for doubtful accounts at least monthly. Past due balances over a specified amount are reviewed individually for collectibility. Receivable balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company does not have any off-balance-sheet credit exposure related to its customers.

(e) Property and Equipment

Property and equipment are stated at cost. Depreciation is provided using the straight-line method over the following estimated useful lives:

	Estimated useful life -----
Software	3 years
Equipment	4-5 years
Furniture and fixtures and leasehold improvements	Shorter of 7 years or term of lease

Expenditures for maintenance and repairs are charged to expense as incurred. Upon sale or retirement, the cost and related accumulated depreciation is removed from the accounts and any resulting gain or loss is reflected in results of operations.

(f) Concentrations

The Company's customers are located worldwide with concentrations in North America, Europe, and Asia. The Company had aggregate sales, denominated in U.S. dollars, to foreign customers of 16% and 17% in 2002 and 2001, respectively. There were no significant sales to customers in any one foreign country in 2002 and 2001.

Two domestic customers accounted for 23% and 14% of trade receivables at December 31, 2002 and 20% and 13% of sales during 2002, respectively. No other customers accounted for more than 10% of sales in 2002 or of trade receivables at December 31, 2002.

Two domestic customers accounted for 30% and 18% of trade receivables at December 31, 2001 and 15% and 16% of sales during 2001, respectively. No other customers accounted for more than 10% of sales in 2001 or of trade accounts receivable at December 31, 2001.

In 2002 and 2001, the Company purchased approximately 99% and 98%, respectively, of its merchandise overseas from one supplier located in China. The Company's sales and purchases are denominated in U.S. dollars. The Company records inventory at the time product is shipped. Prior to shipment, the Company places orders for its product with its suppliers based on expected sales. In the event that the Company decreases its order prior to shipment, the Company may be obligated to pay for some or all of the order placed. This obligation will depend on the timing of the change in the order and the degree to which product is completed by its suppliers. At any one time, the Company normally has approximately two months of product ordered but not yet shipped.

(g) Income Taxes

Edgar Filing: TOPPS CO INC - Form 8-K/A

As a limited liability company, the Company is treated as a partnership for federal income tax reporting. Accordingly, the Company is not required to pay federal income taxes. Instead, the income and losses of the Company are allocated to its members for inclusion in their respective federal income tax returns. Accordingly, no income tax provision or benefit is reflected in the financial statements, as they are the obligations or benefits of the members.

(h) Research and Development

Research and development costs are expensed as incurred.

(i) Advertising

The Company expenses the costs of advertising as incurred. The Company recognized advertising expense, which includes sponsored organized play events, of \$1,711,188 in 2002 and \$262,357 in 2001.

(j) Revenue Recognition

The Company recognizes revenue, net of estimated returns and discounts, when product is shipped. Under certain circumstances, the Company allows for limited product returns. An accrual for estimated sales returns is made in these instances.

(k) Guarantees

In November 2002, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation ("FIN") No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. FIN No. 45 provides expanded accounting guidance surrounding liability recognition and disclosure requirements related to guarantees, as defined by this Interpretation. The Company adopted FIN No. 45 during December 2002. In the ordinary course of business, the Company is not subject to potential obligations under guarantees that fall within the scope of FIN No. 45 except for standard indemnification provisions that are contained within many of the Company's licensing agreements and for the Company's product warranty. These give rise only to the disclosure requirements prescribed by FIN No. 45. Indemnification and provisions contained within the Company's licensing agreements are generally consistent with those prevalent in the Company's industry. The duration of the Company's product warranty is for a year after manufacture. The Company has not incurred significant obligations under indemnification or warranty provisions historically and the Company does not expect to incur significant obligations in the future. Accordingly, the Company does not maintain accruals for potential customer indemnification or warranty-related obligations. In addition, as discussed in note 8(b), the Company has future minimum royalties due of \$240,847 at December 31, 2002

(l) Equity Interest

During 2002, the Company granted an equity interest in the Company to certain employees. The awards, which have an exercise price of zero, vest over a period of three years. The Company applies the method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations including FASB Interpretation No. 44, Accounting for

Edgar Filing: TOPPS CO INC - Form 8-K/A

Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25, issued in March 2000, to account for its fixed-plan equity interest awards. Under this method, compensation expense is recorded on the date of grant if the current market price of the underlying equity interest exceeds the required investment for such interest. Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock-Based Compensation, established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans or, as applicable to the Company, equity interest awards. As allowed by SFAS No. 123, the Company has elected to continue to apply the method of accounting prescribed by APB Opinion No. 25, and has adopted only the disclosure requirements of SFAS No. 123. Had compensation cost been determined consistent with SFAS No. 123, under the minimum value approach, the Company's net income for the year ended December 31, 2002 would not have been significantly impacted.

(m) Investment in WizKids Games

The Company's investment in WizKids Games is accounted for by the equity method. During 2002, the investment of \$60,000 was reduced to zero due to the Company recording its proportionate share of losses and due to an other-than-temporary decline in fair value based upon a review of qualitative and quantitative factors surrounding the financial condition of WizKids Games.

(n) Impairment of Long-Lived Assets

SFAS No. 144 provides a single accounting model for long-lived assets to be disposed of. SFAS No. 144 also changes the criteria for classifying an asset as held for sale; and broadens the scope of businesses to be disposed of that qualify for reporting as discontinued operations and changes the timing of recognizing losses on such operations. The Company adopted SFAS No. 144 on January 1, 2002. The adoption of SFAS No. 144 did not affect the Company's financial statements.

In accordance with SFAS No. 144, long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet. To date, no adjustments to the carrying value of the Company's long-lived assets have been required.

Prior to the adoption of SFAS No. 144, the Company accounted for long-lived assets in accordance with SFAS No. 121, Accounting for Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of.

Edgar Filing: TOPPS CO INC - Form 8-K/A

(o) Fair Value of Financial Instruments

At December 31, 2002 and 2001, the Company's financial instruments consist of cash, accounts receivable, receivable from member, trade accounts payable, accrued expenses, short-term borrowings and loans from members. The fair values of these instruments approximate their carrying value based on their liquidity or short maturity.

(p) Segment Reporting

Operating segments are revenue-producing components of the enterprise for which separate financial information is produced internally for the Company's management. For all periods presented the Company operated as a single segment.

(2) Members' Equity

Wizkids, LLC has three classes of interest holders. Class A members have voting rights and are those members that have made a capital contribution to the Company. Class B members are family members of Class A members working for WizKids and an independent game designer. Class C members are employees of the Company who are not Class A or B members, and were admitted on January 1, 2002 for a total ownership percentage of 10%.

The limited liability agreement states that the issuance of Class C member interests is at the discretion of the Manager of the Company.

Distributions of cash flow, capital proceeds and allocations of profit or loss to the A and B members were as follows until January 1, 2002 when the Class C members were admitted:

Class A and B members first receive priority distributions until these members have received an amount equal to their capital contribution. Second, Class A members share distributions equally with Class B members until the Class A members have received an additional 30% of their original capital contribution. Third, Class A members receive 45% and Class B members 55% of distributions until Class A members have received an additional 10% of their original capital contribution. All distributions afterward are made 40% to Class A members and 60% to Class B members. Allocations of profits and losses are made based on the distribution priorities, beginning with the second step above.

After the admittance of the Class C members, distributions after the first step above are modified such that in the second step Class A and B members each received 45% and Class C members 10%, and in the third step Class A, B and C members receive 40.5%, 49.5% and 10%, respectively. Subsequent to step three, distributions are made 36% to the Class A members, 54% to Class B members and 10% to Class C members and Class A and B members will receive a priority distribution upon liquidation or sale of the Company of \$8,042,492 above their capital contribution, which results from the difference of the fair value of the Company in excess of book value upon the admission of the Class C members.

The Class C interests are subject to a vesting schedule such that the 20% of the interest is vested on the issuance date, 45% is cumulatively vested after the first anniversary of the issuance date but on or prior to the second anniversary of the issuance date, 70% is cumulatively vested after the second anniversary of the issuance date but on or prior to the third

Edgar Filing: TOPPS CO INC - Form 8-K/A

anniversary of the issuance date and 100% is cumulatively vested after the third anniversary of the issuance date. The Class C interests vest 100% upon the Company entering into an agreement to sell all or substantially all the assets of the Company, upon the sale of substantially all the intellectual property assets of the Company, upon the sale of a majority of the membership rights of the Company, upon the merger, consolidation or combination of the Company with another entity in which the Company is not the survivor, upon the filing of a registration statement for an initial public offering, or upon the resignation or removal of the Manager of the Company. In addition, if a Class C member is terminated without cause and an event occurs, which would have resulted in 100% vesting, within six months of termination, the Class C member's interest will retroactively vest 100%.

Upon the admission of the Class C members, the Company recognized total compensation expense of \$600,000 for the fair value of the interests granted as determined by management and based in part on an appraisal. This value is being recognized over the vesting periods of the Class C interests in accordance with FIN No. 28, on an accelerated basis over the vesting period of the applicable interests. Under this method, approximately 67.5% of the deferred compensation to Class C members is recognized in the first 12 months, 22.5% in the second 12 months, and 10.0% in the third 12 months.

The Company has the right to purchase the Class C interests upon the resignation, termination for cause, death or disability of the Class C member at fair value.

One of the Class A Members has been designated Manager of the Company. The Manager has full, exclusive, and complete discretion, power, and authority to manage, control, administer and operate the business and affairs of the Company. Consent of Class A Members is required for certain decisions made by the Manager, including those with a cost or expense to the Company of over \$250,000. A vote of greater than 75% of the Class A members is required for removal of the Manager; however, the current Manager has a Class A interest of more than 25%.

(3) Line of Credit

At December 31, 2002 the Company has available a revolving line of credit totaling \$2,500,000 that expires July 1, 2003 at which time all amounts outstanding become due. The interest rate is the prime rate plus 0.5%, which was 4.50% at December 31, 2002. Borrowings under the line at December 31, 2002 and 2001 were \$0 and \$200,000, respectively, and are secured by trade receivables and inventories. This facility allows the Company to borrow up to the lesser of 80% of eligible trade receivables (Eligible Receivables) or \$2,500,000. The Company also has a standby letter of credit under this facility for an amount up to (a) the lesser of Eligible Receivables plus 25% of eligible inventories up to \$450,000 or (b) \$1,500,000. The standby letter of credit outstanding at December 31, 2002 totaled \$1,500,000.

The line of credit agreement contains financial covenants related to net worth, working capital and net income and limits distributions to members without prior approval. As of December 31, 2002, the Company was in compliance with the covenants.

Total rent expense for 2002 and 2001 was \$195,602 and \$142,810, respectively.

(b) Royalty Payments

During 2001, the Company entered into multiple royalty arrangements with third parties which enable the Company to incorporate the intellectual designs owned by such third parties in their collectible miniature games. The arrangements are structured such that the Company will owe the greater of; (i) 10% to 12% of the revenue earned through the incorporation of said designs, or (ii) set minimum annual royalties over a period of five years. The arrangements expire between December 31, 2004 and December 31, 2005. The royalty arrangements are transferable in the event of a sale, merger or transfer of greater than 50% of the assets or ownership interests of the Company subject to the approval of the third parties on an individual basis. The royalties are recognized as costs of sales as the related revenue is generated. During 2002 and 2001, the Company paid \$1,049,165 and \$190,000, respectively, under these arrangements. Future minimum royalties due under the arrangements are \$240,847 at December 31, 2002.

(c) Related Party Royalty Commitment

See discussion on purchase of intellectual property rights in note 9.

(9) Related Party Transactions

(a) Purchase of Miniature Collectible Metal Manufacturing Company

On March 14, 2001, the Company purchased certain assets of a metals manufacturing business for \$250,000 from a company controlled by two of the members, including the Manager, of WizKids. The assets were primarily molds and equipment used in the manufacturing process. The purchase price was allocated to the identifiable assets purchased based on their estimated fair values as follows:

Molds and tooling	\$ 215,165
Office equipment	18,875
Manufacturing equipment	15,960

	\$ 250,000
	=====

As part of the purchase agreement, WizKids granted a security interest in certain purchased assets and guaranteed payments under a \$450,000 note payable by the seller to a previous owner of the metals manufacturing business in the event that the seller failed to make payments when due. The agreement required WizKids to pay any royalties owed as discussed in note 9(b) directly to the previous owner up to

Edgar Filing: TOPPS CO INC - Form 8-K/A

the amount of the note, at which time the security interest in the purchased assets and the note payment obligation terminate. During 2002, WizKids was notified that the note was in default and settled the seller's entire obligation, which had been reduced to \$175,000, by paying \$175,000 of royalties that the Company owed to the seller directly to the previous owner.

On December 7, 2001, the manufacturing equipment and related assets were transferred to several employees of Wizkids Ohio, LLC and their employment with Wizkids Ohio, LLC was terminated. In exchange, WizKids will receive future royalty payments on certain metals products. The carrying value of the assets transferred of approximately \$250,000 was charged to general and administrative expense. Contingent consideration, in form of royalty payments, will be recognized as income if and when realized. At the time the transaction was consummated, management was unable to determine the value of royalties to be received because such royalties are contingent upon the former employees' ability to generate sales. As of December 31, 2002, no material royalties had been earned.

(b) Purchase of Intellectual Property Rights

On March 14, 2001, WizKids purchased intellectual property rights for multiple properties from a company controlled by two of the members, including the Manager, of WizKids. The Company paid \$75,000 and also committed to pay future royalties of 10% on any product sales and 50% of sublicensing fees related to these multiple properties, which include Battletech and Shadowrun. The total amount of royalty payments owed is capped at \$5,000,000 with certain limitations on this amount. In the event of a sale of the Company, the agreement provides for potential reductions in the cap amount of \$5,000,000 followed by immediate payment of the reduced amount. The Company's obligation to make such royalty payments is contingent upon sales of the related products. \$531,975 and \$0 of royalties were incurred for the years ended December 31, 2002 and 2001, respectively.

(c) Investment in WizKids Games

In November 2001, the Company invested \$60,000 in WizKids Games, LLC (WizKids Games). WizKids Games operates a retail game store located in Redmond, Washington. In addition to its investment, WizKids transferred its e-commerce business to WizKids Games and committed to loan up to \$50,000, at prime rate plus two percent. During 2002, the investment balance was reduced to zero due to the Company recording its proportionate share of losses and due to an other-than-temporary decline in fair value based upon a review of qualitative and quantitative factors surrounding the financial condition of WizKids Games. Also during 2002, \$50,000 was loaned to WizKids Games in addition to \$30,000 loaned in 2001. These loans were reduced to their estimated recoverable value of \$40,000 during 2002. The loans to WizKids Games were modified in 2002 such that they carry interest at 6.75% and are due on demand however; WizKids expects the loan to remain outstanding in excess of one year. The investment and loans are included in other assets in 2002 and 2001. During 2002 and 2001, the Company recorded sales to WizKids Games in the amount of \$135,276 and \$11,304 respectively. WizKids sells product to WizKids Games under substantially the same terms as its other customers. The Manager of WizKids has an ownership interest in WizKids Games of approximately 20%. At December 31, 2002, WizKids ownership interest in WizKids Games was approximately 44% and is accounted for under the equity method.

Edgar Filing: TOPPS CO INC - Form 8-K/A

Losses and impairments are included with general and administrative expense and the investment and loans are included with other assets. The assets and liabilities of WizKids Games at December 31, 2002 and 2001 and results of operations for the years then ended were not significant to WizKids.

THE TOPPS COMPANY, INC.

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINING FINANCIAL INFORMATION

1. Basis of Presentation.

On July 9, 2003 (the "Closing"), The Topps Company, Inc. ("Topps" or "the Company") purchased the assets of Wizkids, LLC ("WizKids"). Pursuant to the terms of the Agreement and Plan of Merger (the "Merger Agreement") dated as of June 23, 2003, among WizKids, Topps, Topps Enterprises, Inc., a wholly owned subsidiary of the Company ("Merger Sub"), Topps Finance, Inc., a wholly owned subsidiary of Topps Enterprises, Inc, and The Member Representative, the Company acquired WizKids through a merger ("the Merger") of WizKids with and into Merger Sub. Upon consummation of the Merger, the separate corporate existence of Wizkids ceased and the name of Merger Sub was changed to WizKids, LLC ("New WizKids"), a Delaware corporation.

WizKids designs and sells collectible miniature games, primarily to the hobby market through distributors and retailers. The Company is headquartered in Bellevue, Washington with additional facilities in Cincinnati, Ohio.

The total consideration payable by the Company to the WizKids' shareholders will be comprised of \$29.5 million in cash, offset by a purchase price adjustment, if any, as defined, based on the level of WizKids working capital at the Closing. The working capital adjustment will be the amount by which net working capital at the Closing is greater than or less than the required \$3,700,000 benchmark level. \$26,284,469 was paid at Closing to the shareholders of Wizkids based on a preliminary negative working capital adjustment of \$1,215,531.

The Company entered into an employment agreement with Jordan Weisman, the majority shareholder and founder of Wizkids, for a forty-eight month period following the Closing. As part of this employment agreement, an additional \$2 million of consideration was paid to Mr. Weisman, is being accounted for as deferred compensation expense and is being amortized over four years. As an additional part of his employment agreement, Mr. Weisman is entitled to additional contingent payments during the forty-eight months subsequent to the closing equal to 2% of WizKids' annual net revenue, assuming that certain revenue and operating margin targets are met. In addition, Mr. Weisman was granted 200,000 options to acquire the Company's common stock, which were granted at fair market value on the date of grant and are vested over a four-year period. Subsequently, the number of options was reduced to 165,000 with the same terms in an amendment to the employment agreement.

The accompanying unaudited pro forma condensed combining financial information is presented for illustrative purposes and is not necessarily indicative of the results of operations that would have been reported if the combination had been completed as presented in the accompanying unaudited pro forma condensed combining balance sheet and statement of operations. The results of operations of WizKids will be consolidated with the results of operations of the Company for all periods subsequent to the acquisition date of July 9, 2003, (the "Closing"). The unaudited pro forma condensed combined financial information presented is based on, and should be read in conjunction with, the historical financial statements and the related notes thereto for both the Company and WizKids.

The provisions of these statements apply to all business combinations initiated after June 30, 2001. Under the provisions of these pronouncements, goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to annual impairment tests. Intangible assets with finite lives will be amortized over their useful lives.

In accordance with the provisions of SFAS No. 142, the Company will not amortize goodwill and intangible assets with indefinite lives recorded in connection with the acquisition of WizKids. The Company expects to perform an annual impairment test of the goodwill and any indefinite lived intangible assets but has not yet determined what effect these tests will have on the results of operations or the financial position of the Company in future periods.
