Item 8.01. Other Events

First Data Corporation (“the Company”, “we”, or “our”) is filing this Current Report on Form 8-K to recast certain prior period financial information and related disclosures contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (“2017 Form 10-K”) for changes in our segment revenue reporting (“segment revenue”) and newly adopted accounting guidance.

Prior to January 1, 2018, the Company presented segment revenues net of certain items including revenue-based commission payments to Independent Sales Organizations (ISOs) and sales channels. The Company is no longer excluding ISO commissions from segment revenue as this change enhances the consistency of accounting methodologies amongst the Company's various distribution channels in the Global Business Solutions segment. This change in segment revenue reporting has been applied retrospectively.

The Company has also adopted new accounting guidance issued by the Financial Accounting Standards Board related to accounting for defined benefit plans for pensions and the presentation of restricted cash and restricted cash equivalents on the statement of cash flows. Under the new accounting guidance for defined benefit plans for pensions, employers will present the other components of the net periodic benefit cost separately from the line item that includes the service cost and outside of any subtotal of operating income. The Company adopted the new guidance for defined benefit plans for pensions on January 1, 2018, using a retrospective approach. Under the new accounting guidance for the presentation of restricted cash and restricted cash equivalents on the statement of cash flows, companies are required to include restricted cash and restricted cash equivalents within the cash and cash equivalents line item when reconciling beginning-of-period and end-of-period total amounts shown on the statement of cash flows. Given this change, transfers between cash, cash equivalents, and restricted cash and cash equivalents are no longer reported as cash flow activities on the statement of cash flows. The Company adopted the new guidance for restricted cash and restricted cash equivalents on the statement of cash flows on January 1, 2018 using a retrospective transition method.

We are filing this Form 8-K and related exhibits to recast financial information and revise certain related disclosures contained in the 2017 Form 10-K to reflect these changes as described above, for all periods presented. We have also updated “Note 14: Commitments and Contingencies” and “Note 19: Subsequent Events”, within Part II of the 2017 Form 10-K. All other information in the 2017 Form 10-K remains unchanged.

The information included in this Form 8-K is not an amendment to, or restatement of our audited consolidated financial statements, which were included in our 2017 Form 10-K. This Form 8-K does not reflect events occurring after we filed our 2017 Form 10-K and does not modify or update the disclosures therein in any way, other than to disclose the retrospective application of the change in segment revenue reporting and newly adopted accounting guidance as described above, update commitments and contingencies, and to disclose subsequent events.
