Fair Value Measurements -Various inputs are used in determining the fair value of investments. These inputs to

 valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial reporting purposes as follows:

Level 1 — unadjusted price quotations in active

- markets/exchanges for identical assets and liabilities that the Fund has the ability to access
- Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities,

prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 —

unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised

in

determining

fair value

is greatest

for

instruments

categorized

in Level 3.

The inputs

used to

measure

fair value

may fall

into

different

levels of

the fair

value

hierarchy.

In such

cases, for

disclosure

purposes,

the level

in the fair

value

hierarchy

within

which the

fair value

measurement

falls in its

entirety is

determined

based on

the lowest

level input

that is

significant

to the fair

value

measurement

in its

entirety.

Changes

in

valuation

techniques

may result

in

transfers

into or out

of an

assigned

level

within the

disclosure

hierarchy.

In

accordance

with the

Fund's

policy,

transfers

between

different

levels of

the fair

value

disclosure

hierarchy

are

deemed to

have

occurred

as of the

beginning

of the

reporting

period.

The

categorization

of a value

determined

for

investments

is based

on the

pricing

transparency

of the

investment

and is not

necessarily

an

indication

of the

risks

associated

with

investing

in those

securities.

For

information

about the

Fund's

policy

regarding

valuation

of

investments

and other

significant

accounting

policies,

please

refer to the

Fund's

most

recent

financial

statements

as

contained

in its

annual

report.

The following

table

summarizes the

Fund's

investments

categorized in

the disclosure

hierarchy as of

Certain of the Fund's liabilities are held at carrying amount, which approximates fair value for financial reporting purposes. As of October 31, 2012, such liabilities are categorized within the disclosure hierarchy as follows:

There were no transfers between levels during the period ended October 31, 2012.
