Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

Nuveen Investments to be acquired by TIAA-CREF

On April 14, 2014, TIAA-CREF announced that it had entered into an agreement to acquire Nuveen Investments, the parent company of your fund's investment adviser, Nuveen Fund Advisors, LLC ("NFAL") and the Nuveen affiliates that act as sub-advisers to the majority of the Nuveen Funds. TIAA-CREF is a national financial services organization with approximately \$569 billion in assets under management (as of March 31, 2014) and is a leading provider of retirement services in the academic, research, medical and cultural fields. Nuveen anticipates that it will operate as a separate subsidiary within TIAA-CREF's asset management business, and that its current leadership and key investment teams will stay in place.

Your Fund investment will not change as a result of Nuveen's change of ownership. You will still own the same Fund shares and the underlying value of those shares will not change as a result of the transaction. NFAL and your Fund's sub-adviser(s) will continue to manage your Fund according to the same objectives and policies as before, and we do not anticipate any significant changes to your Fund's operations. Under the securities laws, the consummation of the transaction will result in the automatic termination of the investment management agreements between the Funds and NFAL and the investment sub-advisory agreements between NFAL and each Fund's sub-adviser(s). New agreements will be presented to the Funds' shareholders for approval, and, if approved, will take effect upon consummation of the transaction or such later time as shareholder approval is obtained.

The transaction, expected to be completed by year end, is subject to customary closing conditions.

Chairman's Letter to Shareholders

Dear Shareholders,

Despite headwinds from slow growth, fiscal and political uncertainty in many countries and some fragile economies around the world, domestic and international equity markets increased significantly in 2013. The emerging markets equity sector was an exception. Other sectors, such as real estate, were flat to down a bit and commodities were notably negative in total return performance. The fixed income market also experienced losses in many sectors.

U.S. equities in particular hit numerous all-time highs during the past year, exceeding prior rising market trends. Europe and Asia struggled with political and financial stresses but Europe's improving GDP in the second half provided hope that the region can exit recession. In Japan, the economic policies advocated by Prime Minister Shinzo Abe became a positive influence on the economy as deflationary pressures declined, while the economy in China started to stabilize due to monetary easing and supply side reforms. On the domestic front, the Federal Reserve stimulus continued throughout the year but discussion of reductions in the stimulus program caused historically low rates to rise and added to concern that interest rates could rise quickly in the near future. This provided challenges for fixed income investors.

The Federal Reserve's decision to slow down its bond buying program beginning in December 2013, and the federal budget compromise over government spending into early 2015 were positive signs that the domestic economy is moving forward. We are beginning to experience an economy that can provide encouraging conditions for GDP growth, job growth and low inflation. Additionally, downward trending unemployment and a continuing rebound in the housing market adds to a positive economic scenario going forward.

However, the current year has experienced a tumultuous start. It is in these particularly volatile markets that professional investment management is most important. Investment teams who have experienced challenging markets in the past understand how their asset class can behave in rapidly changing times. Remaining committed to their investment disciplines during these times is a critical component to achieving long-term success. In fact, many strong investment track records are established during challenging periods because experienced investment teams understand that volatile markets place a premium on companies and investment ideas that can weather the short-term volatility. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider
Chairman of the Board
May 23, 2014

These Funds feature portfolio management by Nuveen Asset Management, LLC, an affiliate of Nuveen Investments. Portfolio managers Thomas C. Spalding, CFA, and Scott R. Romans, PhD, examine economic and municipal market conditions at the national and state levels, key investment strategies and the twelve-month performance of the Nuveen Select Portfolios. Tom has managed the three national Portfolios since 1999, while Scott has managed NXC since 2003 and NXN since 2011.

What factors affected the U.S. economy and the national municipal market during the twelve-month reporting period ended March 31, 2014?

During this reporting period, the U.S. economy's progress toward recovery from recession continued, although the economy remained below peak levels. The Federal Reserve (Fed) maintained its efforts to bolster growth and promote progress toward its mandates of maximum employment and price stability by holding the benchmark fed funds rate at the record low level of zero to 0.25% that it established in December 2008. Based on its view that the underlying strength in the broader economy was enough to support ongoing improvement in the labor market, the Fed began to reduce, or taper, its monthly asset purchases in \$10 billion increments over the course of four consecutive meetings (December 2013 through April 2014). As of May 2014, the Fed's monthly purchases comprise \$20 billion in mortgage-backed securities (versus the original \$40 billion per month) and \$25 billion in longer-term Treasury securities (versus \$45 billion). Following the April 2014 meeting (subsequent to the end of this reporting period), the Fed reiterated that it would continue to look at a wide range of factors, including labor market conditions, indicators of inflationary pressures and readings on financial developments, in determining future actions, saying that it would likely maintain the current target range for the fed funds rate for a considerable time after the asset purchase program ends, especially if projected inflation continues to run below the Fed's 2% longer-run goal.

In the first quarter of 2014, the U.S. economy, as measured by the U.S. gross domestic product (GDP), grew at an annualized rate of 0.1%, compared with 2.6% in the fourth quarter of 2013. While consumer spending, the main driver of the U.S. economy, made a strong showing, growth during this period was restrained primarily by sharp declines in business investment in equipment and home construction. The Consumer Price Index (CPI) rose 1.5% year-over-year as of March 2014, while the core CPI (which excludes food and energy) increased 1.7% during the same period, staying within the Fed's unofficial objective of 2.0% or lower for this inflation measure. As of March 2014, the national unemployment rate was 6.7%, an improvement from the 7.5% reported in March 2013, but still higher than levels that would provide consistent support for optimal GDP growth. The housing market continued to

5

Portfolio Managers' Comments (continued)

post gains, as the average home price in the S&P/Case-Shiller Index of 20 major metropolitan areas rose 12.9% for the twelve months ended February 2014 (most recent data available at the time this report was prepared). This brought the average U.S. home price back to mid-2004 levels, although prices continued to be down approximately 20% from their mid-2006 peak.

As this reporting period began, continued political debate over federal spending clouded the outlook for the U.S. economy, as lawmakers failed to reach a resolution on spending cuts intended to address the federal budget deficit. Even after the lack of resolution triggered a program of automatic spending cuts (or sequestration) that impacted federal programs, the federal budget for Fiscal 2014 remained under debate. On October 1, 2013, the start date for Fiscal 2014, the federal government shut down for 16 days until an interim appropriations bill was signed into law, funding the government at sequestration levels through January 15, 2014 and suspending the debt limit until February 2014. Consensus on a \$1.1 trillion federal spending bill was finally reached in January 2014, and in February 2014, members of Congress agreed to suspend the \$16.7 trillion debt ceiling until March 2015.

In June 2013, then-Fed Chairman Ben Bernanke's remarks about potentially tapering the Fed's asset purchase program touched off widespread uncertainty about the next step for the Fed's quantitative easing program and its impact on the economy and financial markets. This led to increased market volatility, which was compounded by headline credit stories involving Detroit's bankruptcy filing in July 2013, the largest municipal bankruptcy in history and the disappointing news that continued to come out of Puerto Rico, where a struggling economy and years of deficit spending and borrowing resulted in multiple downgrades on the commonwealth's bonds. In this unsettled environment, the Treasury market traded off, the municipal market followed suit and spreads widened as investor concern grew, prompting increased selling by bondholders across the fixed income markets.

During the second half of this reporting period, municipal bonds generally rallied, as higher yields and the prospect of higher taxes sparked increased demand and improved flows into municipal bond funds, while supply continued to drop. This supply/demand dynamic served as a key driver of municipal market performance. While yields retraced some of their 2013 gains during the first three months of 2014, municipal bond prices generally rose for the reporting period as a whole, except at the longest end of the maturity spectrum. At the same time, fundamentals on municipal bonds remained strong, as state governments made good progress in dealing with budget issues. Due to strong growth in personal tax and sales tax collections, year-over-year totals for state tax revenues have increased for 16 consecutive quarters, while on the expense side, the states made headway in cutting and controlling costs, with more than 40 states implementing some type of pension reform. The current level of municipal issuance reflects the more conservative approach to state budgeting as well as decreased refunding activity as municipal market yields rose. Over the twelve months ended March 31, 2014, municipal bond issuance nationwide totaled \$311.3 billion, a decrease of 17% from the issuance for the twelve-month period ended March 31, 2013.

How were economic and market conditions in California and New York during the twelve-month reporting period ended March 31, 2014?

California's economy continued to strengthen during this reporting period, with employment growth driven by hiring in technology, international trade and tourism and supplemented by improved residential construction and real estate conditions. However, unemployment in the state remained above national levels, resulting in slower income and wage growth and negatively impacting broader growth through consumption and investment. Although California ranked fourth in the nation in terms of unemployment in March 2014 (behind Rhode Island, Nevada and Illinois), the state's jobless number improved to 8.1%, down from 9.2% in March 2013 and its all-time high of 12.4% in 2010, reaching its lowest level since September 2008. This compared with the national unemployment rate of 6.7% in March 2014. According to the S&P/Case-Shiller Index, home prices in San Francisco, San Diego and Los Angeles rose 22.7%, 19.9% and 18.2%, respectively, over the twelve months ended February 2014 (most recent data available at the time

this report was prepared). These increases far outpaced the average rise of 12.9% nationally for the same period. On the fiscal front, the California's \$97.1 billion Fiscal 2014 general fund budget, which required no major expenditure cuts or revenue-raising measures, provided for building a \$1.1 billion reserve, continued to pay down inter-year deferrals and introduced a new funding formula for schools. Strong revenue growth resulting from a recovering state economy and the passage of Proposition 30 in November 2012 (which temporarily increased state sales and personal income taxes) have aided in California's fiscal recovery. For Fiscal 2014-2015, the state's proposed \$106.7 billion general fund budget calls for adding to reserves, continuing to pay down

6 Nuveen Investments

education funding deferrals and budgetary obligations, building a strong rainy day fund and introducing a five-year plan for infrastructure improvements. In January 2014, S&P affirmed its A rating on California general obligation (GO) debt and revised the state outlook to positive from stable, while Moody's and Fitch maintained their ratings of A1 and A, respectively, with stable outlooks as of March 2014. For the twelve months ended March 31, 2014, municipal issuance in California totaled \$43.8 billion, a decrease of 2% from the previous twelve months. For this reporting period, California was the largest state issuer in the nation, representing approximately 14% of total issuance nationwide.

During this reporting period, New York's economy continued to make progress toward recovery, despite a recent slowdown due to manufacturing cuts and a slowed pace of rebuilding in the aftermath of Hurricane Sandy, which hit New York in October 2012, producing major flooding in New York City and Long Island and causing more than \$40 billion in damage. As of March 2014, unemployment in New York stood at 6.9%, compared with the national rate of 6.7%, an improvement from the state's 7.9% jobless rate in March 2013. The jobless rate was higher in New York City (8.0%) than in the state as a whole, but lower in the rest of the state (6.0%) as of March 2014. Over the past twelve months, New York added 103,500 private sector jobs, primarily in education and health services, professional and business services and leisure and hospitality, while manufacturing and the government sector posted the largest losses. Although New York City and the rest of the ten-county downstate area saw year-over-year job growth as of March 2014, several upstate metropolitan areas reported declines, including Ithaca, Syracuse and Elmira. New York's housing market continued to post gains, although improvement lagged the national average. According to the S&P/Case-Shiller Index of 20 major metropolitan areas, housing prices in New York City rose 6.1% over the twelve months ended February 2014 (most recent data available at the time this report was prepared), compared with an average increase of 12.9% nationally. The state's budget picture has improved considerably over the past few years. Revenues have been increased through higher taxes, and expenditures have been more tightly controlled. The state's proposed \$142.6 billion budget for Fiscal 2015, which is 1.3% higher than the Fiscal 2014 budget, contains no new taxes and continues the state's recent movement toward structural budget balance. While New York is a heavily indebted state, the state's pensions have traditionally been well funded, although pension asset levels declined during the recession. As of period end, Moody's, S&P and Fitch rated New York GO debt at Aa2, AA and AA, respectively, with positive outlooks. New York municipal bond supply totaled \$35.3 billion for the twelve-month period ended March 31, 2014, a 29% decrease from the same period ended March 31, 2013. This ranked New York second among state issuers behind California.

What key strategies were used to manage the Portfolios during the twelve-month reporting period ended March 31, 2014?

As previously discussed, during the first part of this reporting period, uncertainty about the future of the Fed's quantitative easing program and headline credit stories involving Detroit and Puerto Rico led to an unsettled environment and increased selling by bondholders across the fixed income markets. The second half of the reporting period brought greater stability and a municipal market rally driven by stronger demand and tight supply, with municipal bond prices generally rising as a whole. During this time, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term and helped us keep the Select Portfolios fully invested.

In NXP, NXQ and NXR, we were focused on finding bonds in the new issue and secondary markets that could enhance our efforts to achieve the overall portfolio objectives. Because the national Portfolios experienced bond call activity during the reporting period, some of that focus was on purchasing bonds with longer maturities to maintain the Portfolios' longer durations, such as zero coupon bonds. Overall, the Portfolios continued to find value in the sectors that represent our largest exposures, including GO bonds, dedicated tax credits, health care and transportation.

During the early part of this reporting period, NXC focused on strategies that enabled us to take advantage of higher coupons and attractive prices resulting from the pattern of outflows, predominately from high yield funds. This

presented numerous opportunities to add lower rated credits to NXC in the secondary market. In general, our focus was on purchasing land-secured deals, tollroads, health care bonds and tobacco credits. We also focused on strategies intended to enhance the Portfolio's positioning and the structure of its holdings and increase income distribution. By purchasing a bond in a rising interest rate environment, that amortization expense is basically converted into a loss, so that more of the income from the coupon can be distributed to shareholders. Most of the bonds we purchased offered similar risk characteristics and often involved the same credit, but with

Nuveen Investments

7

Portfolio Managers' Comments (continued)

different maturity dates. We also took advantage of opportunities to swap tobacco bonds. Bonds from certain tobacco issuers (e.g., Golden State) tend to be more liquid because they were part of a larger issuance. Because of this liquidity, these bonds are preferred over those from smaller issuers (e.g., Los Angeles County, Sacramento County) by non-traditional municipal investors such as hedge funds. By exchanging the more liquid tobacco bonds for ones with less liquidity, we were able to pick up bonds with better credit quality and structure and higher yields, while also harvesting tax losses.

During the market selloff, NXN also took advantage of opportunities to add lower rated credits that offered higher coupons and attractive prices in the secondary market. The majority of our purchases during this reporting period were in health care, higher education, continuing care retirement communities (CCRCs), industrial development revenue/pollution control revenue (IDR/PCR) and tobacco bonds. As in NXC, we also focused on strategies intended to enhance the Portfolio's positioning and the structure of its holdings and increase income distribution through bond purchases.

Also during this reporting period, S&P upgraded its credit rating on National Public Finance Guarantee Corp. (NPFG), the insurance subsidiary of MBIA, to AA-rated from A-rated, citing NPFG's strong operating performance and competitive position in the financial guarantee market. As a result, the ratings on the Portfolios' holdings of bonds backed by insurance from NPFG were similarly upgraded to AA-rated as of mid-March 2014. This action produced an increase in the percentage of our Portfolios held in the AA-rated credit quality category (and a corresponding decrease in the A-rated category), improving the Portfolios' overall credit rating.

Cash for new purchases during the reporting period was generated primarily by proceeds from called and matured bonds, which we worked to redeploy to keep the Portfolios fully invested and support their income streams. As part of duration management, NXC sold some of its holdings of long maturity zero coupon bonds to offset the duration added by the purchase of tollroad bonds with long maturities in December 2013. NXC also sold its holdings of senior sales tax revenue bonds issued by the Puerto Rico Sales Tax Financing Corporation (COFINA). Further information on developments in Puerto Rico and our Puerto Rico holdings can be found at the end of the Portfolio Managers' Comments section.

As of March 31, 2014, all of the Portfolios except for NXC continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

How did the Portfolios perform during the twelve-month reporting period ended March 31, 2014?

The tables in the Portfolios' Performance Overview and Holding Summaries section of this report provide total returns for the Portfolios for the one-year, five-year and ten-year periods ended March 31, 2014. The Portfolios' total returns are compared with the performance of corresponding market indexes and Lipper classification averages.

For the twelve months ended March 31, 2014, the total returns on net asset value (NAV) for the three national Portfolios exceeded the return for the national S&P Municipal Bond Index, while NXC and NXN underperformed the returns for the S&P Municipal Bond California Index and the S&P Municipal Bond New York Index, respectively. For this same period, NXQ and NXR outperformed the average return for the Lipper General and Insured Unleveraged Municipal Debt Funds Classification Average and NXP performed in line with this average. NXC and NXN exceeded their respective Lipper California and Lipper New York Classification average returns.

Key management factors that influenced the Portfolios' returns during this reporting period included duration and yield curve positioning, credit exposure and sector allocation. Keeping the Portfolios fully invested throughout the reporting

period also was beneficial for performance.

During this reporting period, bonds with maturities of less than 17 years generally outperformed the municipal market as a whole. Specifically, bonds maturing in two to six years and in 12 to 17 years generated the best returns, while the weakest returns were produced by bonds with maturities of 22 years and longer. Consistent with our long-term strategy, all of these Portfolios tend to have longer durations than the municipal market in general. During the first part of this reporting period, as the bond markets traded off, this duration positioning detracted from the Portfolios' performance. As the municipal market rallied and bonds with longer maturities came back into favor with the market during the latter part of the reporting period, the Portfolios benefited from

8 Nuveen Investments

their positioning. For the twelve-month reporting period as a whole, duration and yield curve positioning was positive for the three national Portfolios and a slight detractor in NXC and NXN. The performance differentials among the Portfolios can be ascribed largely to differences in duration.

Credit exposure was another factor in performance. While results by credit quality sector varied from state to state, A- and BBB-rated bonds generally performed best, as the environment shifted from selloff to rally and investors became more willing to accept risk. At the same time, B-rated bonds underperformed by the widest margin, largely due to the performance of B-rated tobacco bonds. The Portfolios tend to be most heavily weighted in AA- and A-rated bonds and credit exposure overall had only a slight impact on their performance.

Among the national municipal market sectors, housing bonds generally were the top performers, boosted by improving property value assessments and the decline in mortgage and tax delinquencies. Other revenue sectors that generally outperformed the general municipal market included IDR/PCR bonds, education, health care (including hospitals), transportation and water and sewer. Pre-refunded bonds, which are often backed by U.S. Treasury securities, also were among the better performing market segments. The outperformance of these bonds relative to the market can be attributed primarily to their shorter effective maturities. As of March 31, 2014, all three of the national Portfolio had good weightings of pre-refunded bonds, which benefited their performance. GO credits also generally outperformed the national market and insured bonds performed well for the national Portfolios.

Revenue bonds as a whole performed in line with the national municipal market, with utilities generally lagging municipal market performance by the widest margin. Lower rated tobacco credits backed by the 1998 master tobacco settlement agreement also performed poorly, due in part to their longer effective durations. The performance of the national Portfolios' allocations of lower rated tobacco bonds was offset to some degree by their higher quality tobacco holdings, which performed well.

Sector results in the California and New York municipal markets varied somewhat from those in the national market as the result of individual factors within each state. In California, tax-supported bonds, housing, transportation and IDR/PCRs outperformed the California municipal market as a whole, while pre-refunded bonds, education, health care, tobacco and utilities underperformed. Overall, sector exposure was a major contributor to NXC's performance. In New York, the top performing sectors were IDRs, housing and health care, while pre-refunded and tax-supported bonds performed in line with the New York market and the revenue sector in general lagged the market's performance.

During the current reporting period NXP and NXR each added a forward interest rate swap as part of each Portfolio's duration management in order to reduce its price volatility risk to movements in U.S. interest rates relative to the Portfolio's benchmark. The swaps were added in late March 2014 and from that date until the end of the reporting period, the contribution to performance was slightly negative as interest rates marginally declined.

Over the twelve months ended March 31, 2014, two events in the broader municipal market also had an impact on the Portfolios' holdings and performance: the bankruptcy filing of Detroit, Michigan and the downgrade of Puerto Rico bonds to below investment grade. In July 2013, the City of Detroit filed for Chapter 9 in federal bankruptcy court. Burdened by decades of population loss, changes in the auto manufacturing industry and significant tax base deterioration, Detroit had been under severe financial stress for an extended period. Detroit's bankruptcy filing is expected to be a lengthy one, given the complexity of its debt portfolio, number of creditors, numerous union contracts and significant legal questions that must be addressed. Following the end of this reporting period, Detroit announced that it had reached agreements with bond insurance companies over the treatment of voter-approved GO bonds and with one of its retired worker groups over pension and healthcare benefits. Shareholders of NXP, NXQ and NXR should note that these Portfolios have exposures of approximately 2% to 3% to Detroit water and sewer bonds, almost all of which are insured. NXC and NXN do not have any Detroit exposure.

In Puerto Rico, the commonwealth's continued economic weakening, escalating debt service obligations and long standing inability to deliver a balanced budget have led to multiple downgrades on its debt. Following the most recent round of rating reductions in February 2014, Moody's, S&P and Fitch Ratings rated Puerto Rico GO debt at Ba2/BB+/BB, respectively, with negative outlooks.

Nuveen Investments

9

Portfolio Managers' Comments (continued)

Ratings on dedicated sales tax bonds issued by COFINA also have been lowered, with senior sales tax revenue bonds rated Baa1/AA-/AA- and subordinate sales tax revenue bonds rated Baa2/A+/A+ by Moody's, S&P and Fitch, respectively, as of March 2014. The COFINA bonds were able to maintain a higher credit rating than the GOs because, unlike the revenue streams supporting some Puerto Rican issues, the sales taxes supporting the COFINA bonds cannot be diverted and used to support Puerto Rico's GO bonds.

For the reporting period ended March 31, 2014, Puerto Rico paper underperformed the municipal market as a whole. The three national Portfolios and NXN had limited exposure to Puerto Rico bonds. These territorial bonds were originally added to the Portfolios at times when municipal paper was scarce in order to keep assets fully invested and working for the Portfolios. We found the Puerto Rico credits attractive because they offer higher yields, added diversification and triple exemption (i.e., exemption from most federal, state and local taxes). As of March 31, 2014, the three national Portfolios' exposure to Puerto Rico consisted of COFINA sales tax credits, the majority of which were backed by insurance or other insured bonds. NXP, which began this reporting period with an allocation of 2.1% to Puerto Rico debt, held 1.6% of its assets in COFINA subordinate sales tax bonds and insured COFINA sales tax bonds at period end. NXQ, which started the period with 1.7% exposure to Puerto Rico, ended with 0.9% exposure. NXR also had lower exposure to Puerto Rico at the end of the period, going from 2.8% to 2.4%, which was invested in COFINA subordinate bonds, insured COFINA bonds and insured highway revenue bonds. NXN, which had held 1.6% of its portfolio in COFINA senior credits at the beginning of the reporting period, closed out that position, ending the reporting period with no Puerto Rico holdings. NXC did not have any exposure to Puerto Rico paper during this reporting period. While the Puerto Rico exposure had a modestly negative effect, the small nature of our holdings helped to limit the impact of Puerto Rico's underperformance. A look at Puerto Rico's tax-supported debt (GO, COFINA and guaranteed debt) as a whole makes it clear that the commonwealth's debt was structured based on an assumption of a steadily growing economy. Unfortunately for Puerto Rico, its economy continues to struggle with high unemployment and population loss, among other problems. As a result, we believe that Puerto Rico bonds that lack a lien on specific revenues (e.g., COFINA sales tax bonds) or that are not backed by healthy bond insurers currently carry significant economic, fiscal and political risks.

Given Detroit's bankruptcy filing and the Puerto Rico situation, shareholders of NXC should note that we continue to closely watch credit conditions in the California market. In August 2013, Fitch upgraded the rating on California state GOs debt to A from A-, while Moody's and S&P maintained their ratings of A1 and A, respectively, as of March 2014. In January 2014, S&P revised its outlook for California to positive from stable. We also continue to monitor the status of local municipalities such as San Bernardino and Stockton, which filed for bankruptcy in 2012 as they became increasingly squeezed by budget problems resulting from rising pension costs. At the end of August 2013, San Bernardino was awarded bankruptcy protection by the court, joining Stockton, which received Chapter 9 protection in April 2013. NXC has a small exposure to San Bernardino and no exposure to Stockton.

Fund Leverage

IMPACT OF THE PORTFOLIOS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the returns of the Portfolios relative to their comparative benchmarks was the Portfolios' use of leverage through investments in inverse floating rate securities, which represent leveraged investments in underlying bonds. The Portfolios use leverage because our research has shown that, over time, leveraging provides opportunities for additional income, particularly in the recent market environment where short-term market rates are at or near historical lows, meaning that the short-term rates the Portfolio has been paying on its leveraging instruments have been much lower than the interest the Portfolio has been earning on its portfolio of long-term bonds that it has bought with the proceeds of that leverage. However, use of leverage also can expose the Portfolio to additional price volatility. When a Portfolio uses leverage, the Portfolio will experience a greater increase in its net asset value if the municipal bonds acquired through the use of leverage increase in value, but it will also experience a correspondingly larger decline in its net asset value if the bonds acquired through leverage decline in value, which will make the Portfolio's net asset value more volatile, and its total return performance more variable over time. In addition, income in levered funds will typically decrease in comparison to unlevered funds when short-term interest rates increase and increase when short-term interest rates decrease. Leverage had a negative impact on the performance of the Portfolios over this reporting period.

As of March 31, 2014, the Portfolios' percentages of effective leverage are as shown in the accompanying table.

	NXP	NXQ	NXR	NXC	NXN
Effective Leverage*	1.36%	2.31%	0.55%	—%	8.76%

* Effective Leverage is a Portfolio's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in the Portfolio that increase the Portfolio's investment exposure. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values.

Share Information

DIVIDEND INFORMATION

The following information regarding the Portfolios' dividends is current as of March 31, 2014. The Portfolios' dividend levels may vary over time based on each Portfolio's investment activity and portfolio investment value changes.

During the current reporting period, the Portfolios' monthly dividends to shareholders were as shown in the accompanying table.

Ex-Dividend Date	Per Share Amounts					
	NXP	NXQ	NXR	NXC	NXN	
April 2013	\$ 0.0525	\$ 0.0525	\$ 0.0525	\$ 0.0570	\$ 0.0525	
May	0.0525	0.0525	0.0525	0.0570	0.0525	
June	0.0525	0.0525	0.0525	0.0570	0.0525	
July	0.0525	0.0525	0.0525	0.0570	0.0525	
August	0.0525	0.0525	0.0525	0.0570	0.0525	
September	0.0525	0.0525	0.0525	0.0570	0.0525	
October	0.0525	0.0525	0.0525	0.0570	0.0525	
November	0.0525	0.0525	0.0525	0.0570	0.0525	
December	0.0525	0.0525	0.0525	0.0570	0.0525	
January	0.0525	0.0525	0.0525	0.0570	0.0525	
February	0.0525	0.0525	0.0525	0.0570	0.0525	
March 2014	0.0525	0.0525	0.0525	0.0570	0.0495	
Long-Term Capital Gain*	—	—	—	\$ 0.2485	\$ 0.0041	
Ordinary Income Distribution*	\$ 0.0054	\$ 0.0019	\$ 0.0006	—	—	
Market Yield**	4.67%	4.80%	4.61%	4.80%	4.43%	
Taxable-Equivalent Yield**	6.49%	6.67%	6.40%	7.35%	6.59%	

* Distribution paid in December 2013.

** Market Yield is based on the Portfolio's current annualized monthly dividend divided by the Portfolio's current market price as of the end of the reporting period. Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Portfolio on an after-tax basis. It is based on a combined federal and state income tax rate of 28.0%, 34.7% and 32.8% for National, California and New York Portfolios, respectively. When comparing a Portfolio to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

All of these Portfolios seek to pay stable dividends at rates that reflect each Portfolio's past results and projected future performance. During certain periods, each Portfolio may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Portfolio during the period. If a Portfolio has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Portfolio's NAV. Conversely, if a Portfolio has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Portfolio's NAV. Each Portfolio will, over time, pay all of its net investment income as dividends to shareholders. As of March 31, 2014, all of the Portfolios in this report had positive UNII balances for both tax and financial reporting purposes.

SHARE REPURCHASES

During November 2013, the Nuveen Funds' Board of Directors/Trustees reauthorized the Portfolios' open-market share repurchase program, allowing each Portfolio to repurchase an aggregate of up to approximately 10% of its outstanding shares.

As of March 31, 2014, and since the inception of the Portfolios' repurchase programs, the Portfolios have not repurchased any of their outstanding shares.

	NXP	NXQ	NXR	NXC	NXN
Shares Cumulatively Repurchased and Retired	—	—	—	—	—
Shares Authorized for Repurchase	1,655,000	1,770,000	1,305,000	625,000	390,000

EQUITY SHELF PROGRAMS

The following Portfolios are authorized to issue additional shares through their ongoing equity shelf programs. Under these programs, each Portfolio, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above the Portfolio's NAV per share. Under the equity shelf programs, the Portfolios are authorized to issue the following number of additional shares.

	NXP	NXQ	NXR
Additional Shares Authorized	1,600,000	1,700,000	1,300,000

During the current reporting period NXP, NXQ and NXR did not sell shares through their equity shelf programs.

OTHER SHARE INFORMATION

As of March 31, 2014, and during the current reporting period, the share prices of the Portfolios were trading at a premium/(discount) to their NAVs as shown in the accompanying table.

	NXP	NXQ	NXR	NXC	NXN
NAV	\$ 14.43	\$ 13.83	\$ 14.46	\$ 14.83	\$ 13.95
Share Price	\$ 13.48	\$ 13.12	\$ 13.67	\$ 14.25	\$ 13.41
Premium/(Discount) to NAV	(6.58)%	(5.13)%	(5.46)%	(3.91)%	(3.87)%
12-Month Average	)				
Premium/(Discount) to NAV	(6.42)%	(5.64)%	(6.26)%	(5.12)%	(3.76)%

Risk Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund shares are subject to a variety of risks, including:

Investment, Price and Market Risk. An investment in shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in shares represents an indirect investment in the municipal securities owned by the Portfolio, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like these Portfolios frequently trade at a discount to their net asset value (NAV). Your shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Portfolio dividends and distributions.

Tax Risk. The tax treatment of Portfolio distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Portfolio's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Portfolio's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Portfolio to reinvest in lower-yielding securities.

Inverse Floater Risk. The Portfolios may invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Portfolio's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Portfolio could lose more than its original principal investment.

Leverage Risk. Each Portfolio's use of leverage creates the possibility of higher volatility for the Portfolio's per share NAV, market price, distributions and returns. There is no assurance that a Portfolio's leveraging strategy will be successful. Certain aspects of the recently adopted Volcker Rule may limit the availability of tender option bonds, which are used by the Portfolios for leveraging and duration management purposes. The effects of this new Rule, expected to take effect in mid-2015, may make it more difficult for a Portfolio to maintain current or desired levels of leverage and may cause the Portfolio to incur additional expenses to maintain its leverage.

Nuveen Select Tax-Free Income Portfolio
Nuveen Select Tax-Free Income Portfolio 2
Nuveen Select Tax-Free Income Portfolio 3
Nuveen California Select Tax-Free Income Portfolio
Nuveen New York Select Tax-Free Income Portfolio

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Select Tax-Free Income Portfolio, Nuveen Select Tax-Free Income Portfolio 2, Nuveen Select Tax-Free Income Portfolio 3, Nuveen California Select Tax-Free Income Portfolio, and Nuveen New York Select Tax-Free Income Portfolio (the “Funds”) as of March 31, 2014, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds’ internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2014, by correspondence with the custodian, counterparties and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Select Tax-Free Income Portfolio, Nuveen Select Tax-Free Income Portfolio 2, Nuveen Select Tax-Free Income Portfolio 3, Nuveen California Select Tax-Free Income Portfolio, and Nuveen New York Select Tax-Free Income Portfolio at March 31, 2014, and the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Portfolio of Investments (continued)

March 31, 2014

Investments in Derivatives as of March 31, 2014

Interest Rate Swaps outstanding:

Counterparty	Notional Amount	Fund Pay/Receive Floating Rate	Floating Rate Index	Fixed Rate		Effective Date (8)	Termination Date	Unrealized Appreciation (Depreciation)
				Fixed Rate (Annualized)	Payment Frequency			
Barclays	\$ 20,100,000	Receive	USD-BMA	2.728%	Quarterly	5/28/15	5/28/24	\$ (233,858)

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment classified as Level 3. See Notes to Financial Statements, Note 2 – Investment Valuation and Fair Value Measurements for more information.
- (6) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.
- (7) Other Assets Less Liabilities includes the Unrealized Appreciation (Depreciation) of derivative instruments as listed within Investments in Derivatives as of the end of the reporting period.
- (8) Effective date represents the date on which both the Fund and Counterparty commence interest payment accruals on each contract.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- USD-BMA United States Dollar-Bond Market Association.

\$ 311	Las Vegas Monorail Company, Senior Interest Bonds (5), (6)	5.500%	7/15/19	N/R	\$ 55,950
87	Las Vegas Monorail Company, Senior Interest Bonds (5), (6)	3.000%	7/15/55	N/R	11,677
\$ 398	Total Corporate Bonds (cost \$19,811)				67,627
	Total Long-Term Investments (cost \$232,083,129)				241,224,753
	Floating Rate Obligations – (0.4)%				(1,000,000)
	Other Assets Less Liabilities – 2.0%				4,843,808
	Net Assets – 100%				\$ 245,068,561

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment classified as Level 3. See Notes to Financial Statements, Note 2 – Investment Valuation and Fair Value Measurements for more information.
- (6) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate

Securities for more information.

See accompanying notes to financial statements.

Investments in Derivatives as of March 31, 2014

Interest Rate Swaps outstanding:

Counterparty	Fund Notional Pay/Receive	Floating Rate	Floating Rate Index	Fixed Rate (Annualized)	Fixed Rate Payment Frequency	Effective Date (8)	Termination Date (7)	Unrealized Appreciation (Depreciation)
Barclays	\$ 2,700,000	Receive	USD-BMA	2.728%	Quarterly	5/28/15	5/28/24	\$ (31,414)

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment classified as Level 3. See Notes to Financial Statements, Note 2 – Investment Valuation and Fair Value Measurements for more information.
- (6) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the

second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.

- (7) Other Assets Less Liabilities includes the Unrealized Appreciation (Depreciation) of derivative instruments as listed within Investments in Derivatives as of the end of the reporting period.
 - (8) Effective date represents the date on which both the Fund and Counterparty commence interest payment accruals on each contract.
 - (ETM) Escrowed to maturity.
 - (IF) Inverse floating rate investment.
- USD-BMA United States Dollar-Bond Market Association.

See accompanying notes to financial statements.

Portfolio of Investments (continued)

March 31, 2014

Principal Amount (000)	Description (1)	Optional Call Provisions (2)	Ratings (3)	Value
	Water and Sewer (continued)			
\$ 250	Sacramento County Sanitation District Financing Authority, California, Revenue Bonds, Series 2006, 5.000%, 12/01/31 – FGIC Insured	6/16 at 100.00	AA	\$ 264,365
2,935	Total Water and Sewer			2,999,020
\$ 109,765	Total Long-Term Investments (cost \$85,581,157)			90,432,686
	Other Assets Less Liabilities – 2.8%			2,578,587
	Net Assets – 100%			\$ 93,011,273

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

See accompanying notes to financial statements.

Principal Amount (000)	Description (1)	Optional Call Provisions (2)	Ratings (3)	Value
	Water and Sewer – 0.6%			
\$ 275	New York City Municipal Water Finance Authority, New York, Water and Sewerage System Revenue Bonds, Tender Option Bond Trust 3484, 18.135%, 6/15/32 (IF)	6/18 at 100.00	AA+	\$ 336,083
\$ 47,070	Total Long-Term Investments (cost \$47,460,617)			49,492,209
	Floating Rate Obligations – (1.8)%			(1,005,000)
	Other Assets Less Liabilities – 11.4%			6,264,048
	Net Assets – 100%			\$ 54,751,257

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

- (a) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on NAV is the combination of changes in NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Notes to

Financial Statements

1. General Information and Significant Accounting Policies

General Information

Fund Information

The funds covered in this report and their corresponding New York Stock Exchange (“NYSE”) or NYSE MKT symbols are as follows (each a “Fund” and collectively, the “Funds”):

- Nuveen Select Tax-Free Income Portfolio (NXP) (“Select Tax-Free (NXP)”)
- Nuveen Select Tax-Free Income Portfolio 2 (NXQ) (“Select Tax-Free 2 (NXQ)”)
- Nuveen Select Tax-Free Income Portfolio 3 (NXR) (“Select Tax-Free 3 (NXR)”)
- Nuveen California Select Tax-Free Income Portfolio (NXC) (“California Select Tax-Free (NXC)”)
- Nuveen New York Select Tax-Free Income Portfolio (NXN) (“New York Select Tax-Free (NXN)”)

The Funds are registered under the Investment Company Act of 1940, as amended, as diversified closed-end registered investment companies. Select Tax-Free (NXP), Select Tax-Free 2 (NXQ), Select Tax-Free 3 (NXR), California Select Tax-Free (NXC) and New York Select Tax-Free (NXN) were organized as Massachusetts business trusts on January 29, 1992, March 30, 1992, May 28, 1992, March 30, 1992, and March 30, 1992, respectively.

Investment Adviser

The Funds’ investment adviser is Nuveen Fund Advisors, LLC (the “Adviser”), a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”). The Adviser is responsible for each Fund’s overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC, (the “Sub-Adviser”), a subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds.

Investment Objectives

Each Fund seeks to provide current income and stable dividends, exempt from regular federal and designated state income taxes, where applicable, consistent with the preservation of capital by investing primarily in a portfolio of municipal obligations.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds’ portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. As of March 31, 2014, there were no such outstanding purchase commitments in any of the Funds.

Investment Income

Interest income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as "Legal fee refund" on the Statement of Operations.

Dividends and Distributions to Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Equity Shelf Programs and Offering Costs

During the prior fiscal period, the following Funds each filed initial registration statements with the Securities and Exchange Commission (“SEC”) authorizing the Funds to issue additional shares through equity shelf programs (“Shelf Offerings”), which became effective with the SEC during the current fiscal period.

Under these Shelf Offerings, the Funds, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above each Fund’s net asset value (“NAV”) per share.

Authorized shares, shares issued and offering proceeds, net of offering costs under each Fund’s Shelf Offering during the fiscal year ended March 31, 2014, were as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)
Authorized shares	1,600,000	1,700,000	1,300,000
Shares issued	—	—	—
Offering proceeds, net of offering costs	—	—	—

Costs incurred by the Funds in connection with their Shelf Offerings are recorded as a deferred charge and recognized as a component of “Deferred offering costs” on the Statement of Assets and Liabilities. These deferred charges are recognized over the period such additional shares are sold by reducing the proceeds from the Shelf Offering. These deferred charges are not to exceed the one-year life of the Shelf Offering period and are recognized as a component of “Proceeds from shelf offering, net of offering costs” on the Statement of Changes in Net Assets. At the end of the one-year life of the Shelf Offering period, any remaining deferred charges will be expensed accordingly and recognized as a component of “Other expenses” on the Statement of Operations. Any additional costs the Funds may incur in connection with their Shelf Offerings are expensed as incurred and recognized as a component of “Proceeds from shelf offering, net of offering costs” on the Statement of Changes in Net Assets.

Indemnifications

Under the Funds’ organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds’ maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Netting Agreements

In the ordinary course of business, the Funds may enter into transactions subject to enforceable International Swaps and Derivative Association, Inc. (“ISDA”) master agreements or other similar arrangements (“netting agreements”). Generally, the right to offset in netting agreements allows each Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, a Fund manages its cash collateral and securities collateral on a counterparty basis.

As of March 31, 2014, Select Tax-Free (NXP) and Select Tax-Free 3 (NXR) were invested in swap contracts that are subject to netting agreements and further described in Note 3 – Portfolio Securities and Investments in Derivatives. As of March 31, 2014, none of the other Funds were invested in any portfolio securities or derivatives that are subject to

netting agreements.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

2. Investment Valuation and Fair Value Measurements

The fair valuation input levels as described below are for fair value measurement purposes.

Investment Valuation

Prices of municipal bonds, other fixed income securities and swap contracts are provided by a pricing service approved by the Funds' Board of Trustees. These securities are generally classified as Level 2. The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Nuveen Investments

69

Notes to Financial Statements (continued)

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds' Board of Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Trustees or its designee.

Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Level 1 – Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

Level 2 – Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

Select Tax-Free (NXP)		Level 1	Level 2	Level 3	Total

The Nuveen funds' Board of Directors/Trustees is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board of Directors/Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the funds' pricing policies and reporting to the Board of Directors/Trustees. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

- (i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.
- (ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors/Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board of Directors/Trustees.

3. Portfolio Securities and Investments in Derivatives

Portfolio Securities

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse

floater”) that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates’ holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond’s downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond’s value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an “externally-deposited inverse floater”), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a “self-deposited inverse floater”).

An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as “(IF) – Inverse floating rate investment.” The Fund’s Statement of Assets and Liabilities shows only the inverse floaters and not the underlying bonds as an asset, and does not reflect the short-term floating rate certificates as liabilities. Also, the Fund reflects in “Investment Income” only the net amount of earnings on its inverse floater investment (net of the interest paid to the holders of the short-term floating rate certificates and the expenses of the trust), and does not show the amount of that interest paid as an interest expense on the Statement of Operations.

Notes to Financial Statements (continued)

An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as “(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction,” with the Fund accounting for the short-term floating rate certificates issued by the trust, at their liquidation value, as “Floating rate obligations” on the Statement of Assets and Liabilities. In addition, the Fund reflects in “Investment Income” the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates as a component of “Interest expense and amortization of offering costs” on the Statement of Operations.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters for the following Funds during the fiscal year ended March 31, 2014, were as follows:

	Select Tax-Free 2 (NXQ)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Average floating rate obligations outstanding	\$ 1,000,000	\$ 1,227,781	\$ 1,005,000
Average annual interest rate and fees	0.65%	0.51%	0.36%

As of March 31, 2014, the total amount of floating rate obligations issued by the each Fund’s self-deposited inverse floaters and externally-deposited inverse floaters was as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Floating rate obligations: self deposited inverse floaters	\$ —	\$ 1,000,000	\$ —	\$ —	\$ 1,005,000
Floating rate obligations: externally-deposited inverse floaters	3,300,000	4,800,000	1,050,000	—	4,250,000
Total	\$ 3,300,000	\$ 5,800,000	\$ 1,050,000	\$ —	\$ 5,255,000

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse trust” or “credit recovery swap”) (such agreements referred to herein as “Recourse Trusts”) with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund’s potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund’s inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as “Unrealized depreciation on Recourse Trusts” on the Statement of Assets and Liabilities.

As of March 31, 2014, each Fund’s maximum exposure to the floating rate obligations issued by externally-deposited Recourse Trusts was as follows:

Select Tax-Free	Select	Select	California Select Tax-Free	New York Select Tax-Free
--------------------	--------	--------	----------------------------------	--------------------------------

			Tax-Free 2	Tax-Free 3		
		(NXP)	(NXQ)	(NXR)	(NXC)	(NXN)
Maximum exposure to Recourse Trusts	\$	—\$	—\$	—\$	—\$	2,000,000

Zero Coupon Securities

A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Investments in Derivatives

Each Fund is authorized to invest in certain derivative instruments such as futures, options and swap contracts. Each Fund will limit its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to the Fund. The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

Swap Contracts

Interest rate swap contracts involve a Fund's agreement with the counterparty to pay or receive a fixed rate payment in exchange for the counterparty receiving or paying a variable rate payment. Forward interest rate swap contracts involve a Fund's agreement with a counterparty to pay or receive, in the future, a fixed or variable rate payment in exchange for the counterparty receiving or paying the Fund a variable or fixed rate payment, the accruals

for which would begin at a specified date in the future (the “effective date”). The amount of the payment obligation is based on the notional amount of the swap contract and the termination date of the swap (which is akin to a bond’s maturity). Swap contracts do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that a Fund is to receive. Swap contracts are valued daily. Upon entering into an interest rate swap contract (and beginning on the effective date for a forward interest rate swap contract), a Fund accrues the fixed rate payment expected to be paid or received and the variable rate payment expected to be received or paid on a daily basis, and recognizes the daily change in the fair value of the Fund’s contractual rights and obligations under the contracts. The net amount recorded on these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of “Unrealized appreciation or depreciation on interest rate swaps (, net)” with the change during the fiscal period recognized on the Statement of Operations as a component of “Change in net unrealized appreciation (depreciation) of swaps.” Income received or paid by a Fund is recognized as a component of “Net realized gain (loss) from swaps” on the Statement of Operations, in addition to the net realized gains or losses recognized upon the termination of an swap contract and are equal to the difference between a Fund’s basis in the swap and the proceeds from (or cost of) the closing transaction. Payments received or made at the beginning of the measurement period are recognized as a component of “Interest rate swap premiums paid and/or received” on the Statement of Assets and Liabilities, when applicable. For tax purposes, periodic payments are treated as ordinary income or expense.

During the fiscal year ended March 31, 2014, Select Tax-Free (NXP) and Select Tax-Free 3 (NXR) invested in forward interest rate swap contracts as part of their duration management in order to reduce their price volatility risk to movements in U.S. interest rates relative to their benchmarks.

The average notional amount of interest rate swap contracts outstanding during the fiscal year ended March 31, 2014, was as follows:

	Select Tax-Free (NXP)	Select Tax-Free 3 (NXR)
Average notional amount of interest rate swap contracts outstanding*	\$ 4,020,000	\$ 540,000

* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

The following table presents the fair value of all interest rate swap contracts held by the Funds as of March 31, 2014, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure.

Underlying Risk Exposure	Derivative Instrument	Location on the Statement of Assets and Liabilities			
		Asset Derivatives		Liability Derivatives	
		Location	Value	Location	Value
Select Tax-Free (NXP)					
Interest rate	Swaps			Unrealized depreciation on	
		—	\$ —	interest rate swaps	\$ (233,858)
Select Tax-Free 3 (NXR)					
Interest rate	Swaps			Unrealized depreciation on	
		—	\$ —	interest rate swaps	\$ (31,414)

The following table presents the swap contracts, which are subject to netting agreements, as well as the collateral delivered related to those swap contracts.

Fund	Counterparty	Gross Unrealized Appreciation on Interest Rate Swaps**	Gross Unrealized (Depreciation) on Interest Rate Swaps**	Amounts Netted on Statement of Assets and Liabilities	Net Unrealized Appreciation (Depreciation) on Interest Rate Swaps	Collateral Pledged to (from) Counterparty	Net Exposure
Select Tax-Free (NXP)	Barclays	\$ —	\$ (233,858)	\$ —	\$ (233,858)	\$ —	(233,858)
Select Tax-Free 3 (NXR)	Barclays	\$ —	\$ (31,414)	\$ —	\$ (31,414)	\$ —	(31,414)

** Represents gross unrealized appreciation (depreciation) for the counterparty as reported in the Fund's Portfolio of Investments.

The following table presents the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized on swap contracts on the Statement of Operations during the fiscal year ended March 31, 2014, and the primary underlying risk exposure.

Fund	Underlying Risk Exposure	Derivative Instrument	Net Realized Gain (Loss) from Swaps	Change in Net Unrealized Appreciation (Depreciation) of Swaps
Select Tax-Free (NXP)	Interest rate	Swaps	\$ —	(233,858)
Select Tax-Free 3 (NXR)	Interest rate	Swaps	—	(31,414)

Nuveen Investments 73

Notes to Financial Statements (continued)

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

4. Fund Shares

Since the inception of the Funds' repurchase programs, the Funds have not repurchased any of their outstanding shares.

Transactions in shares were as follows:

	Select Tax-Free (NXP)		Select Tax-Free 2 (NXQ)		Select Tax-Free 3 (NXR)	
	Year Ended 3/31/14	Year Ended 3/31/13	Year Ended 3/31/14	Year Ended 3/31/13	Year Ended 3/31/14	Year Ended 3/31/13
Shares issued to shareholders due to reinvestment of distributions	—	30,980	—	13,014	—	15,386

	California Select Tax-Free (NXC)		New York Select Tax-Free (NXN)	
	Year Ended 3/31/14	Year Ended 3/31/13	Year Ended 3/31/14	Year Ended 3/31/13
Shares issued to shareholders due to reinvestment of distributions	—	5,438	628	6,149

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments and derivative transactions, where applicable) during the fiscal year ended March 31, 2014, were as follows:

Select Tax-Free	Select Tax-Free 2	Select Tax-Free 3	California Select Tax-Free	New York Select Tax-Free
--------------------	----------------------	----------------------	----------------------------------	--------------------------------

	(NXP)	(NXQ)	(NXR)	(NXC)	(NXN)
Purchases	\$ 93,181,804	\$ 54,705,952	\$ 53,935,006	\$ 12,884,901	\$ 13,748,959
Sales and maturities	96,518,333	55,131,640	54,125,000	19,297,818	18,576,273

6. Income Tax Information

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences

arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

As of March 31, 2014, the cost and unrealized appreciation (depreciation) of investments, as determined on a federal income tax basis, were as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Cost of investments	\$ 222,946,878	\$ 230,328,384	\$ 174,820,791	\$ 85,557,316	\$ 46,446,420
Gross unrealized:					
Appreciation	\$ 16,144,870	\$ 12,928,587	\$ 13,441,231	\$ 5,999,564	\$ 2,392,594
Depreciation	(2,745,376)	(3,032,218)	(2,008,180)	(1,124,194)	(349,099)
Net unrealized appreciation (depreciation) of investments	\$ 13,399,494	\$ 9,896,369	\$ 11,433,051	\$ 4,875,370	\$ 2,043,495

Permanent differences, primarily due to federal taxes paid, taxable market discount and distribution reclasses, resulted in reclassifications among the Funds' components of net assets as of March 31, 2014, the Funds' tax year end, as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Paid-in-surplus	\$ —	\$ —	\$ —	\$ —	\$ —
Undistributed (Over-distribution of) net investment income	(27,757)	(5,150)	(8,418)	(7,132)	(2,459)
Accumulated net realized gain (loss)	27,757	5,150	8,418	7,132	2,459

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains as of March 31, 2014, the Funds' tax year end, were as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Undistributed net tax-exempt income ¹	\$ 1,312,132	\$ 972,239	\$ 772,271	\$ 552,739	\$ 186,853
Undistributed net ordinary income ²	31,595	—	—	—	16,909
Undistributed net long-term capital gains	—	—	—	525,912	—

Edgar Filing: NUVEEN CALIFORNIA SELECT TAX FREE INCOME PORTFOLIO - Form N-CSR

Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on March 3, 2014, paid on April 1, 2014.

- 2 Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' tax years ended March 31, 2014 and March 31, 2013 was designated for purposes of the dividends paid deduction as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
2014					
Distributions from net tax-exempt income ³	\$ 10,439,298	\$ 11,159,082	\$ 8,218,165	\$ 4,290,545	\$ 2,472,031
Distributions from net ordinary income ²	89,480	34,225	8,368	—	—
Distributions from net long-term capital gains ⁴	—	—	—	1,558,773	16,129
2013					
Distributions from net tax-exempt income	\$ 11,324,975	\$ 11,155,080	\$ 8,604,761	\$ 4,288,487	\$ 2,563,112
Distributions from net ordinary income ²	232,966	40,490	13,316	—	—
Distributions from net long-term capital gains	—	—	—	—	217,215

- 2 Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.
- 3 The Funds hereby designate these amounts paid during the fiscal year ended March 31, 2014, as Exempt Interest Dividends.
- 4 The Funds designated as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852 (b)(3), the amount necessary to reduce earnings and profits of the Funds related to net capital gain to zero for the tax year ended March 31, 2014.

Notes to Financial Statements (continued)

As of March 31, 2014, the Funds' tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as shown in the following table. The losses not subject to expiration will be utilized first by a Fund.

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	New York Select Tax-Free (NXN)
Expiration:				
March 31, 2015	\$ 260,316	\$ 862,250	\$ —	\$ —
March 31, 2016	—	7,597	—	—
March 31, 2017	—	400,800	—	—
March 31, 2019	—	335,742	—	—
Not subject to expiration	4,761,350	10,526,205	2,503,510	780,539
Total	\$ 5,021,666	\$ 12,132,594	\$ 2,503,510	\$ 780,539

During the Funds' tax year ended March 31, 2014, the following Funds utilized its capital loss carryforwards as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)
Utilized capital loss carryforwards	\$ 2,036,473	\$ 150,144	\$ 214,839

The Funds have elected to defer late-year losses in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the following fiscal year. The following Funds have elected to defer losses as follows:

	Select Tax-Free 2 (NXQ)	New York Select Tax-Free (NXN)
Post-October capital losses ⁵	\$ 73,927	\$ 403,554
Late-year ordinary losses ⁶	—	—

5 Capital losses incurred from November 1, 2013 through March 31, 2014, the Funds' tax year end.

6 Ordinary losses incurred from January 1, 2014 through March 31, 2014, and specified losses incurred from November 1, 2013 through March 31, 2014.

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

Each Fund's management fee consists of two components – a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Average Daily Managed Assets*	Select Tax-Free (NXP) Fund-Level Fee Rate	Select Tax-Free 2 (NXQ)
		Select Tax-Free 3 (NXR)
		California Select Tax-Free (NXC)
		New York Select Tax-Free (NXN)
		Fund-Level Fee Rate
For the first \$125 million	.0500%	.1000%
For the next \$125 million	.0375	.0875
For the next \$250 million	.0250	.0750
For the next \$500 million	.0125	.0625

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level	
\$55 billion	.2000	%
\$56 billion	.1996	
\$57 billion	.1989	
\$60 billion	.1961	
\$63 billion	.1931	
\$66 billion	.1900	
\$71 billion	.1851	
\$76 billion	.1806	
\$80 billion	.1773	
\$91 billion	.1691	
\$125 billion	.1599	
\$200 billion	.1505	
\$250 billion	.1469	
\$300 billion	.1445	

* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen Funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen Funds or assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of March 31, 2014, the complex-level fee rate for each of these Funds was .1668%.

The Funds pay no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

8. Subsequent Events

Agreement and Plan of Merger

On April 14, 2014, TIAA-CREF, a national financial services organization, announced that it had entered into an agreement (the "Purchase Agreement") to acquire Nuveen Investments, the parent company of the Adviser. The transaction is expected to be completed by the end of the year, subject to customary closing conditions, including obtaining necessary Nuveen Fund and client consents sufficient to satisfy the terms of the Purchase Agreement and obtaining customary regulatory approvals. There can be no assurance that the transaction described above will be consummated as contemplated or that necessary conditions will be satisfied.

The consummation of the transaction will be deemed to be an "assignment" (as defined in the Investment Company Act of 1940) of the investment management agreements between the Nuveen Funds and the Adviser and the investment

sub-advisory agreements between the Adviser and each Nuveen Fund's sub-adviser or sub-advisers, and will result in automatic termination of each agreement. It is anticipated that the Board of Directors/Trustees of the Nuveen Funds (the "Board") will consider a new investment management agreement with the Adviser and new investment sub-advisory agreements with each sub-adviser. If approved by the Board, the new agreements will be presented to the Nuveen Funds' shareholders for approval, and, if so approved by shareholders, will take effect upon consummation of the transaction or such later time as shareholder approval is obtained.

The transaction is not expected to result in any change in the portfolio management of the Funds or in the Funds' investment objectives or policies.

Quarterly Form N-Q Portfolio of Investments Information

Each Fund is required to file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. You may obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC toll-free at (800) SEC -0330 for room hours and operation.

Nuveen Funds' Proxy Voting Information

You may obtain (i) information regarding how each fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com and (ii) a description of the policies and procedures that each fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll free at (800) 257-8787. You may also obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov>.

CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual. Each Fund has filed with the SEC the certification of its CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Share Information

Each Fund intends to repurchase shares of its own common stock at such times and in such amounts as is deemed advisable. During the period covered by this report, the Fund repurchased shares of its common stock as shown in the accompanying table. Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

FINRA BrokerCheck: The Financial Industry Regulatory Authority (FINRA) provides information regarding the disciplinary history of FINRA member firms and associated investment professionals. This information as well as an investor brochure describing FINRA BrokerCheck is available to the public by calling the FINRA BrokerCheck Hotline number at (800) 289-9999 or by visiting www.FINRA.org.

Glossary of Terms Used in this Report

Auction Rate Bond: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have “failed,” with current holders receiving a formula-based interest rate until the next scheduled auction.

Average Annual Total Return: This is a commonly used method to express an investment’s performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment’s actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

Duration: Duration is a measure of the expected period over which a bond’s principal and interest will be paid, and consequently is a measure of the sensitivity of a bond’s or bond fund’s value to changes when market interest rates change. Generally, the longer a bond’s or fund’s duration, the more the price of the bond or fund will change as interest rates change.

Effective Leverage: Effective leverage is a fund’s effective economic leverage, and includes both regulatory leverage (see leverage) and the leverage effects of certain derivative investments in the fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage.

Forward Interest Rate Swap: A contractual agreement between two counterparties under which one party agrees to make periodic payments to the other for an agreed period of time based on a fixed rate, while the other party agrees to make periodic payments based on a floating rate of interest based on an underlying index. Alternatively, both series of cashflows to be exchanged could be calculated using floating rates of interest but floating rates that are based upon different underlying indexes.

Gross Domestic Product (GDP): The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.

Inverse Floating Rate Securities: Inverse floating rate securities, also known as inverse floaters or tender option bonds (TOBs), are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond’s par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an “inverse floater”) to an investor (such as a fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates’ holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond’s downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond’s value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

Leverage: Leverage is created whenever a fund has investment exposure (both reward and/or risk) equivalent to more than 100% of the investment capital.

Lipper California Municipal Debt Funds Classification Average: Calculated using the returns of all closed-end funds in this category. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges.

Glossary of Terms Used in this Report (continued)

Lipper General and Insured Unleveraged Municipal Debt Funds Classification Average: Calculated using the returns of all closed-end funds in this category. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges.

Lipper New York Municipal Debt Funds Classification Average: Calculated using the returns of all closed-end funds in this category. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges.

Net Asset Value (NAV) Per Share: A fund's Net Assets is equal to its total assets (securities, cash, accrued earnings and receivables) less its total liabilities. NAV per share is equal to the fund's Net Assets divided by its number of shares outstanding.

Pre-Refunding: Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.

Regulatory Leverage: Regulatory Leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set in the Investment Company Act of 1940.

S&P Municipal Bond California Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment grade California municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment grade U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P Municipal Bond New York Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment grade New York municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

Total Investment Exposure: Total investment exposure is a fund's assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes a fund's use of preferred stock and borrowings and investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities.

Zero Coupon Bond: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Reinvest Automatically, Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares. By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested. It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan. The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Board Members & Officers (Unaudited)

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board of Trustees of the Funds. The number of trustees of the Funds is currently set at twelve. None of the trustees who are not “interested” persons of the Funds (referred to herein as “independent trustees”) has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the trustees and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

Name, Year of Birth & Address	Position(s) Held with the Funds	Year First Elected or Appointed and Term(1)	Principal Occupation(s) Including other Directorships During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Board Member
-------------------------------------	--	--	---	--

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx. (To view the code, click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees ("Board") determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Carole E. Stone, who is "independent" for purposes of Item 3 of Form N-CSR.

Ms. Stone served for five years as Director of the New York State Division of the Budget. As part of her role as Director, Ms. Stone was actively involved in overseeing the development of the State's operating, local assistance and capital budgets, its financial plan and related documents; overseeing the development of the State's bond-related disclosure documents and certifying that they fairly presented the State's financial position; reviewing audits of various State and local agencies and programs; and coordinating the State's system of internal audit and control. Prior to serving as Director, Ms. Stone worked as a budget analyst/examiner with increasing levels of responsibility over a 30 year period, including approximately five years as Deputy Budget Director. Ms. Stone has also served as Chair of the New York State Racing Association Oversight Board, as Chair of the Public Authorities Control Board, as a Commissioner on the New York State Commission on Public Authority Reform and as a member of the Boards of Directors of several New York State public authorities. These positions have involved overseeing operations and finances of certain entities and assessing the adequacy of project/entity financing and financial reporting. Currently, Ms. Stone is on the Board of Directors of CBOE Holdings, Inc., of the Chicago Board Options Exchange, and of C2 Options Exchange. Ms. Stone's position on the boards of these entities and as a member of both CBOE Holdings' Audit Committee and its Finance Committee has involved, among other things, the oversight of audits, audit plans and preparation of financial statements.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen California Select Tax-Free Income Portfolio

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

Fiscal Year Ended	Audit Fees Billed to Fund 1	Audit-Related Fees Billed to Fund 2	Tax Fees Billed to Fund 3	All Other Fees Billed to Fund 4
March 31, 2014	\$21,750	\$ 0	\$0	\$0
Percentage approved pursuant to pre-approval exception	0 %	0 %	0 %	0 %
March 31, 2013	\$19,500	\$ 0	\$0	\$0
Percentage approved pursuant to pre-approval exception	0 %	0 %	0 %	0 %

1 "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

2 "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements that are not reported under "Audit Fees". These fees include offerings related to the Fund's common shares and leverage.

3 "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning. These fees include: all global withholding tax services; excise and state tax reviews; capital gain, tax equalization and taxable basis calculation performed by the principal accountant.

4 "All Other Fees" are the aggregate fees billed for products and services other than "Audit Fees", "Audit-Related Fees" and "Tax Fees". These fees represent all "Agreed-Upon Procedures" engagements pertaining to the Fund's use of leverage.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Fund Advisors, LLC (formerly Nuveen Fund Advisors, Inc.) (the "Adviser"), and any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the

Edgar Filing: NUVEEN CALIFORNIA SELECT TAX FREE INCOME PORTFOLIO - Form N-CSR

Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

Fiscal Year Ended	Audit-Related Fees Billed to Adviser and Affiliated Fund Service Providers	Tax Fees Billed to Adviser and Affiliated Fund Service Providers	All Other Fees Billed to Adviser and Affiliated Fund Service Providers	
March 31, 2014	\$	0 \$	0 \$	0
Percentage approved pursuant to pre-approval exception		0%	0%	0%
March 31, 2013	\$	0 \$	0 \$	0
Percentage approved pursuant to pre-approval exception		0%	0%	0%

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Fiscal Year Ended	Total Non-Audit Fees Billed to Fund	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the operations and financial reporting of the Fund)	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (all other engagements)	Total	
March 31, 2014	\$	0 \$	0 \$	0 \$	0
March 31, 2013	\$	0 \$	0 \$	0 \$	0

"Non-Audit Fees billed to Fund" for both fiscal year ends represent "Tax Fees" and "All Other Fees" billed to Fund in their respective amounts from the previous table.

Less than 50 percent of the hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year were attributed to work performed by persons other than the principal accountant's full-time, permanent employees.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Terence J. Toth, Jack B. Evans, Carole E. Stone and David J. Kundert.

ITEM 6. SCHEDULE OF INVESTMENTS.

a) See Portfolio of Investments in Item 1.

b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, LLC, formerly known as Nuveen Fund Advisors, Inc., is the registrant's investment adviser (also referred to as the "Adviser"). The Adviser is responsible for the on-going monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC ("Sub-Adviser") as Sub-Adviser to provide discretionary investment advisory services. As part of these services, the Adviser has delegated to the Sub-Adviser the full responsibility for proxy voting on securities held in the registrant's portfolio and related duties in accordance with the Sub-Adviser's policies and procedures. The Adviser periodically monitors the Sub-Adviser's voting to ensure that it is carrying out its duties. The Sub-Adviser's proxy voting policies and procedures are attached to this filing as an exhibit and incorporated herein by reference.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, LLC, formerly known as Nuveen Fund Advisors, Inc., is the registrant's investment adviser (also referred to as the "Adviser"). The Adviser is responsible for the selection and on-going monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC ("Nuveen Asset Management" or "Sub-Adviser") as Sub-Adviser to provide discretionary investment advisory services. The following section provides information on the portfolio manager at the Sub-Adviser:

The Portfolio Manager

The following individual has primary responsibility for the day-to-day implementation of the registrant's investment strategies:

Name	Fund
------	------

Scott R. Romans Nuveen California Select Tax-Free Income
Portfolio

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

	Type of Account	Number of	Assets*
Portfolio Manager	Managed	Accounts	
Scott R. Romans	Registered Investment Company	21	\$8.45 billion
	Other Pooled Investment Vehicles	0	\$0
	Other Accounts	2	\$1.59 million

* Assets are as of March 31, 2014. None of the assets in these accounts are subject to an advisory fee based on performance.

POTENTIAL MATERIAL CONFLICTS OF INTEREST

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one account. More specifically, portfolio managers who manage multiple accounts are presented a number of potential conflicts, including, among others, those discussed below.

The management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of each account. Nuveen Asset Management seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most accounts managed by a portfolio manager in a particular investment strategy are managed using the same investment models.

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one account, an account may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible accounts. To deal with these situations, Nuveen Asset Management has adopted procedures for allocating limited opportunities across multiple accounts.

With respect to many of its clients' accounts, Nuveen Asset Management determines which broker to use to execute transaction orders, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts, Nuveen Asset Management may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, Nuveen Asset Management may place separate, non-simultaneous, transactions for a Fund and other accounts which may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or the other accounts.

Some clients are subject to different regulations. As a consequence of this difference in regulatory requirements, some clients may not be permitted to engage in all the investment techniques or transactions or to engage in these transactions to the same extent as the other accounts managed by the portfolio manager. Finally, the appearance of a conflict of interest may arise where Nuveen Asset Management has an incentive, such as a performance-based management fee, which relates to the management of some accounts, with respect to which a portfolio manager has day-to-day management responsibilities.

Nuveen Asset Management has adopted certain compliance procedures which are designed to address these types of conflicts common among investment managers. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

Item 8(a)(3).

FUND MANAGER COMPENSATION

Edgar Filing: NUVEEN CALIFORNIA SELECT TAX FREE INCOME PORTFOLIO - Form N-CSR

Portfolio manager compensation consists primarily of base pay, an annual cash bonus and long term incentive payments.

Base pay. Base pay is determined based upon an analysis of the portfolio manager's general performance, experience, and market levels of base pay for such position.

Annual cash bonus. The Fund's portfolio managers are eligible for an annual cash bonus based on investment performance, qualitative evaluation and financial performance of Nuveen Asset Management.

A portion of each portfolio manager's annual cash bonus is based on the Fund's investment performance, generally measured over the past one- and three or five-year periods unless the portfolio manager's tenure is shorter. Investment performance for the Fund generally is determined by evaluating the Fund's performance relative to its benchmark(s) and/or Lipper industry peer group.

A portion of the cash bonus is based on a qualitative evaluation made by each portfolio manager's supervisor taking into consideration a number of factors, including the portfolio manager's team collaboration, expense management, support of personnel responsible for asset growth, and his or her compliance with Nuveen Asset Management's policies and procedures.

The final factor influencing a portfolio manager's cash bonus is the financial performance of Nuveen Asset Management based on its operating earnings.

Long-term incentive compensation. Certain key employees of Nuveen Investments and its affiliates, including certain portfolio managers, have received equity interests in the parent company of Nuveen Investments. In addition, certain key employees of Nuveen Asset Management, including certain portfolio managers, have received profit interests in Nuveen Asset Management which entitle their holders to participate in the firm's growth over time.

There are generally no differences between the methods used to determine compensation with respect to the Fund and the Other Accounts shown in the table above.

Beneficial Ownership of Securities. As of March 31, 2014 the portfolio manager beneficially owned the following dollar range of equity securities issued by the Registrant and other Nuveen Funds managed by Nuveen Asset Management's municipal investment team.

Name of Portfolio Manager		Fund	Dollar range of equity securities beneficially owned in Fund	Dollar range of equity securities beneficially owned in the remainder of Nuveen funds managed by Nuveen Asset Management's municipal investment team
Scott R. Romans		Nuveen California Select Tax-Free Income Portfolio	\$0	\$0

PORTFOLIO MANAGER BIO:

Scott R. Romans, PhD, Senior Vice President of Nuveen Asset Management, joined Nuveen Investments in 2000 as a senior analyst in the education sector. In 2003, he was assigned management responsibility for several closed- and open-ended municipal bond funds, most of which are state funds covering California and other western states. Currently, he manages investments for 22 Nuveen-sponsored investment companies. He holds an

undergraduate degree from the University of Pennsylvania and an MA and PhD from the University of Chicago.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx and there were no amendments during the period covered by this report. (To view the code, click on Code of Conduct.)
- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of

1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.
Ex-99.906 CERT attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
