Chairman's Letter to Shareholders

Dear Shareholders,

A pattern of divergence has emerged in the past year. Steady and moderate growth in the U.S. economy helped sustain the stock market's bull run another year. U.S. bonds also performed well, amid subdued inflation, interest rates that remained unexpectedly low and concerns about the economic well-being of the rest of the world. The stronger domestic economy enabled the U.S. Federal Reserve (Fed) to gradually reduce its large scale bond purchases, known as quantitative easing (QE), without disruption to the markets, as well as begin to set expectations for a transition into tightening mode.

The economic story outside the U.S. continues to improve. Despite the drama over Greece's debt negotiations, the European economy appears to be stabilizing. Japan is on a moderate recovery path as it emerged from recession late last quarter. China's economy decelerated and, despite running well above the rate of other major global economies, investors feared it looked slow by China's standards. Some areas of concern were a surprisingly steep decline in oil prices, the U.S. dollar's rally and an increase in geopolitical tensions, including the Russia-Ukraine crisis and terrorist attacks across the Middle East and Africa, as well as more recently in Europe.

While a backdrop of healthy economic growth in the U.S. and the continuation of accommodative monetary policy (with the central banks of Japan and potentially Europe stepping in where the Fed has left off) bodes well for the markets, the global outlook has become more uncertain. Indeed, volatility is likely to feature more prominently in the investment landscape going forward. Such conditions underscore the importance of professional investment management. Experienced investment teams have weathered the market's ups and downs in the past and emerged with a better understanding of the sensitivities of their asset class and investment style, particularly in times of turbulence. We recognize the importance of maximizing gains, while striving to minimize volatility.

And, the same is true for investors like you. Maintaining an appropriate time horizon, diversification and relying on practiced investment teams are among your best strategies for achieving your long-term investment objectives. Additionally, I encourage you to communicate with your financial consultant if you have questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider
Chairman of the Board
April 22, 2015

Portfolio Managers' Comments

Nuveen Arizona Premium Income Municipal Fund (NAZ)
Nuveen Michigan Quality Income Municipal Fund (NUM)
Nuveen Ohio Quality Income Municipal Fund (NUO)
Nuveen Texas Quality Income Municipal Fund (NTX)

These Funds feature portfolio management by Nuveen Asset Management, LLC, an affiliate of Nuveen Investments, Inc. Portfolio managers Michael S. Hamilton and Daniel J. Close, CFA, review U.S. economic and municipal market conditions at the national and state levels, key investment strategies and the twelve-month reporting period performance of these four Nuveen Funds. Michael assumed portfolio management responsibility for NAZ in 2011, while Dan has managed NUM, NUO and NTX since 2007.

What factors affected the U.S. economy and the national municipal bond market during the twelve-month reporting period ended February 28, 2015?

During this reporting period, the U.S. economy continued to expand at a moderate pace. The Federal Reserve (Fed) maintained efforts to bolster growth and promote progress toward its mandates of maximum employment and price stability by holding the benchmark fed funds rate at the record low level of zero to 0.25% that it established in December 2008. At its October 2014 meeting, the Fed announced that it would end its bond-buying stimulus program as of November 1, 2014, after tapering its monthly asset purchases of mortgage-backed and longer-term Treasury securities from the original \$85 billion per month to \$15 billion per month over the course of seven consecutive meetings (December 2013 through September 2014). In making the announcement, the Fed cited substantial improvement in the outlook for the labor market since the inception of the current asset purchase program as well as sufficient underlying strength in the broader economy to support ongoing progress toward maximum employment in a context of price stability. The Fed also reiterated that it would continue to look at a wide range of factors, including labor market conditions, indicators of inflationary pressures and readings on financial developments, in determining future actions. Additionally, the Fed stated that it would likely maintain the current target range for the fed funds rate for a considerable time after the end of the asset purchase program, especially if projected inflation continues to run below the Fed's 2% longer run goal. However, if economic data shows faster progress, the Fed indicated it could raise the fed funds rate sooner than expected.

The Fed changed its language slightly in December, indicating it would be "patient" in normalizing monetary policy. This shift helped ease investors' worries that the Fed might raise rates too soon. As the reporting period drew to a close, expectations were that the Fed would drop the word patient from its March post-meeting statement, in an effort to telegraph that a rate hike was likely

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's (S&P), Moody's Investors Service, Inc. (Moody's) or Fitch, Inc. (Fitch). Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such

securities. Holdings designated N/R are not rated by these national rating agencies.

Bond insurance guarantees only the payment of principal and interest on the bond when due, and not the value of the bonds themselves, which will fluctuate with the bond market and the financial success of the issuer and the insurer. Insurance relates specifically to the bonds in the portfolio and not to the share prices of a Fund. No representation is made as to the insurers' ability to meet their commitments.

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this section.

Portfolio Managers' Comments (continued)

in June. The March statement (issued after the close of this reporting period) did indeed remove the word patient but also highlighted the Fed's less optimistic view of the economy's overall health as well as downgraded its inflation projections.

In the fourth quarter of 2014, the U.S. economy, as measured by the U.S. gross domestic product (GDP), grew at a 2.2% annual rate, compared with 4.6% in the second quarter and 5.0% in the third quarter of 2014. The decline in real GDP growth rate from the third quarter to the fourth quarter primarily reflects an upturn in imports, a downturn in federal government spending, and decline in exports. These were partly offset by an upturn in consumer spending. The Consumer Price Index (CPI) fell 0.1% year-over-year as of January 2015 (most recent data available at the time this report was prepared), the first negative twelve-month change since October 2009. The core CPI (which excludes food and energy) increased 1.6% during the same period, below the Fed's unofficial longer term inflation objective of 2.0%. As of February 28, 2015, the national unemployment rate was 5.5%, the lowest level since May 2008 and the level considered "full employment" by some Fed officials, down from the 6.7% reported in February 2014. The housing market continued to post gains, although price growth has shown signs of deceleration in recent months. The average home price in the S&P/Case-Shiller Index of 20 major metropolitan areas rose 4.6% for the twelve months ended January 2015 (most recent data available at the time this report was prepared).

Municipal bonds enjoyed strong performance during the twelve-month reporting period, buoyed by a backdrop of low interest rates, improving investor sentiment and favorable supply-demand dynamics. Interest rates were widely expected to rise in 2014, as the economy improved and the Fed wound down its asset purchases. However, the 10-year Treasury yield ended the year even lower than where it began. As a result, fixed income asset classes performed surprisingly well (as yields fall, prices rise and vice versa). At the same time, investors grew more confident that the Fed's tapering would proceed at a measured pace and that the credit woes of Detroit and Puerto Rico would be contained. In addition, credit fundamentals for state and local governments were generally stabilizing, although pockets of trouble remained. California and New York showed marked improvements during 2014, whereas Illinois, New Jersey and Puerto Rico, for example, still face considerable challenges.

Investors' declining risk aversion bolstered demand for higher-yielding assets, including municipal bonds, which reversed the tide of outflows municipal bond funds suffered in 2013. While demand and inflows rose, supply continued to be subdued. More municipal bonds left the market than were added in 2014, a condition known as net negative issuance. Part of the reason for net negative issuance was that a significant portion of issuer activity focused on current refundings, in which a new bond is issued to replace the called bond (in contrast to an advanced refunding, where the called bond remains in the market as a pre-refunded bond).

These factors helped drive municipal bond yields lower and tightened yield spreads relative to Treasuries in 2014 overall. However, as the new year began, market conditions turned more volatile. A series of disappointing economic data underscored the fragility of the U.S. recovery, as well as cast further uncertainty on the timing of the Fed's first rate hike. A change in the supply-demand balance also hampered the municipal bond sector. Issuance was unusually strong in the first two months of 2015, up 72.5% compared to the same two-month period in 2014. Over the twelve months ended February 28, 2015, municipal bond issuance nationwide totaled \$358.8 billion, an increase of 13% from the issuance for the twelve-month period ended February 28, 2014. Finally, divergence in economic growth and foreign central bank policies have reinforced an interest rate differential that favors demand for U.S. Treasuries, maintaining downward pressure on yields.

How were the economic and market environments in Arizona, Michigan, Ohio and Texas during the twelve-month reporting period ended February 28, 2015?

Arizona's economic recovery has surpassed the nations after experiencing a severe housing market decline. Growth in hospitality and health care has led recent improvements in the state's employment picture. The recovery in the housing market has slowed from last year's pace but remains a moderate driver. However, in the long term, Arizona is expected to outperform because of its strong population growth and investment in biotech, medical devices and health care. Additionally, its low business costs relative to neighboring Southern California make Arizona more attractive for new business ventures. Gains in Arizona housing prices have

6 Nuveen Investments

been driven primarily by the Phoenix market, with the state's smaller metropolitan areas also showing progress. According to the S&P/Case-Shiller Index, housing prices in Phoenix rose 2.6% over the twelve months ended January 2015 (most recent data available at the time this report was prepared), compared with the 20 City Composite Home Price Index increase of 4.6% nationally. In the job market, the Arizona unemployment rate dropped to a preliminary 6.5% as of February 2015, the lowest level since June 2008, down from 7.1% in February 2014. The 2015 General Fund Budget was enacted in April, totaling \$9.2 billion, up 4.2% over the 2014 Enacted Budget and includes increased spending for child safety and education and protects the rainy day fund. The state joint legislative budget committee projects a structural deficit in Fiscal Year 2015, which the state plans to fill with the use of rainy day funds. At the end of Fiscal 2013, the state's temporary one-cent sales tax, enacted in 2011, expired, resulting in budget gaps for Fiscal 2014 and Fiscal 2015. Arizona used the accumulated financial cushion generated by the sales taxes to offset these shortfalls. The newly sworn in Republican Governor, Doug Ducey, signed the 2016 General Fund Budget in March 2015 (subsequent to the close of this reporting period), totaling \$9.1 billion. Once enacted it fills the Fiscal Year 2015 shortfall and a projected budget deficit for Fiscal Year 2016 through expenditure reductions, reallocation of monies from certain separate agency funds to the State's general fund and drawing down the rainy day fund without raising taxes. The State reports it will face budgetary shortfall for Fiscal Year 2017 before becoming in balance by Fiscal Year 2018. The Arizona Supreme Court Ruled that the state did not provide inflation adjustments in school funding during Fiscal Years 2010-2013 as required under voter approved Proposition 301. It is yet unknown whether the ruling will result in a retroactive repayment of prior years' missed payments estimated to total \$1.2 billion or apply only to future years' budgets, as the case is still being litigated. In November 2013, Moody's affirmed Arizona's issuer rating at Aa3 and changed its outlook for the state to positive from stable. S&P affirmed the State of Arizona's issuer credit at AA- but revised its outlook to positive from stable on November 27, 2013. During the twelve months ended February 28, 2015, municipal issuance in Arizona totaled \$6.9 billion, an increase of 84% from the twelve months ended February 28, 2014. This issuance may be attributed to a dramatic increase in refunding activity.

Michigan's economic recovery has strengthened over the last year and though job growth overall is still behind the U.S., auto manufacturing and health care hiring are projected to remain strong through 2015. Strong domestic auto sales have incrementally bolstered growth over the past five years and an uptick in the sales of light-trucks is expected to directly benefit hiring in southeastern Michigan this year. To a large extent, the Michigan economy remained tied to events in the auto industry, as the "Big Three" (General Motors, Ford and Chrysler) continued to rank among the state's five largest employers. Overall, Michigan remained heavily reliant on manufacturing, which represented 13.5% of employment in the state, compared with 8.8% nationally. As of February 2015, Michigan's unemployment rate was 5.9%, down from 7.8% in January 2014, and the lowest level since April 2008. Favorably, the state's labor force participation rate has remained stable as unemployment has improved, indicating a real improvement in job growth. Following the peak in housing prices in mid-2006, home prices in Michigan declined dramatically and the inventory of foreclosed homes remained elevated in many of the state's hardest-hit metropolitan areas, including Detroit, Warren and Flint. Improvement in the state economy has brought some recuperation in the housing market. After steep gains over 2013, housing price appreciation saw continued, but slower growth. According to the S&P/Case-Shiller Index of 20 major metropolitan areas, housing prices in Detroit rose 2.9% over the twelve months ended January 2015 (most recent data available at the time this report was prepared), compared with the national average increase of 4.6%. On the fiscal front, Michigan's budgetary performance over the last two years has been impressive. As revenues improved, the state demonstrated a commitment to rebuild reserves. For Fiscal 2014, Michigan's \$49 billion budget was structurally balanced and did not require major expenditure cuts or borrowing. Although the state appropriated \$75 million to the state's reserve fund in Fiscal 2014, \$194.8 million was withdrawn to fund the state's contribution to the Detroit bankruptcy settlement. At year end the reserve fund balance stood at \$386.2 million. Beginning in 2015 this withdrawal will be repaid with annual deposits from tobacco settlement revenues and the Fiscal 2015 budget provides for a \$94 million contribution. By Fiscal Year end 2015, the reserve balance is projected to be nearly \$500 million. The state's improved financial and cash position has eliminated the need for cash flow borrowing. A modest \$336 million budget gap due to revenue shortfalls is now projected for Fiscal Year 2015. This gap is expected to be closed by shifting school aid revenues and cutting about \$100 million in expenditures. The governor's proposed \$54 billion

budget for Fiscal 2016 represents a

Nuveen Investments 7

Portfolio Managers' Comments (continued)

2% spending increase. In May 2015 Michigan voters will be asked to approve a sales tax increase to generate up to \$1.2 billion in new annual revenues to help fund state infrastructure and transportation needs. The governor has also proposed making a \$95 million contribution to the state's reserve fund in Fiscal 2016. The budget is expected to be adopted by the end of June. As of March 2015, Moody's and S&P rated Michigan general obligation (GO) debt at Aa2 and AA-, respectively. Both agencies revised their outlook for the state to positive in 2013. During the twelve months ended February 28, 2015, municipal issuance in Michigan totaled \$10.9 billion, an increase of 91% from the twelve months ended February 28, 2014.

Ohio's economy has been growing at a moderate rate for the past two years due to strong auto sales and increasing demand in the health care industry. As of February 2015, the state's unemployment rate was 5.1%, compared with the national rate of 5.5%. Manufacturing is the largest of Ohio's major employment sectors and the state continued to be a leading producer of steel and autos. Like other manufacturing-heavy states, Ohio tends to have a somewhat more cyclical economy than the nation as a whole. The state has experienced a small boom in oil and gas production, due largely to hydraulic fracturing in the Utica shale field in the Appalachian Basin. The recent decline in natural gas prices has caused the number of active rotary rigs to fall sharply. Over the long term, the Utica Shale is expected to remain a growth driver for the state. The housing market in Ohio is experiencing some weakness, as it is in much of the Midwest. According to the S&P/Case-Shiller Index of prices in 20 major metropolitan areas, housing prices in Cleveland posted a year-over-year increase of 1.6% as of January 2015 (most recent data available at the time this report was prepared). On the fiscal front, Ohio has seen revenue recovery in line with its economic recovery. Fiscal year-to-date (through Feb 2015) General Fund tax receipts are 4.2% higher than the prior year-to-date collections. Income and sales taxes now make up more than half the state's general fund revenues. In Fiscal 2013, Ohio fully funded its budget stabilization fund to its statutory maximum for the first time since 2000. The current balance in the state's Budget Stabilization Fund is \$1.47 billion, which is the maximum limit. The governor's proposed biennium budget for Fiscal Years 2015-2016 continues a trend from prior budgets by calling for further reductions in the personal income tax rate and the taxes paid by small businesses. The reductions would be paid for in part by increases in the rates of the sales tax and cigarette tax, and a revamping of Ohio's severance tax on oil and natural gas. As of March 2015, Moody's and S&P rated Ohio GO debt at Aa1 and AA+, respectively, with stable outlooks. For the twelve months ended February 28, 2015, municipal issuance in Ohio totaled \$10.9 billion, an increase of 20% compared with the twelve months ended February 28, 2014.

The economic recovery in Texas continues to outpace the national recovery and most other states. State GDP growth was largely driven by gains in the mining, real estate and professional services sectors. The state's employment surpassed pre-recession levels in September 2011 and solid employment growth continued across all industries in 2014. The biggest year over year employment gains were seen in transportation and utility, leisure and hospitality, professional and business services. Texas' three largest non-government employment sectors, education and health services, professional and business services, and retail trade, represented approximately 57% of the state's workers. Strong employment and expanded labor force participation, together with positive demographic trends, created strong demand for housing and increases in the state's housing prices and home sales. The state economy continues to exhibit elevated exposure to the mining sector, with this sector contributing 9.1% of state earnings in 2013, compared to the mining sector contributing only 1.7% of national earnings in 2013. As of February 2015, the state's 4.3% unemployment rate was down from 5.4% in February 2014 and well below the February 2015 national unemployment rate of 5.5%. According to the S&P/Case-Shiller Index, housing prices in Dallas posted a year-over-year increase of 8.1% as of January 2015 (most recent data available at the time this report was prepared). On the fiscal front, Texas continued to benefit from strong revenue growth and the state's Fiscal 2014-2015 biennium budget was able to restore some previous budget cuts. The 84th session of the Texas Legislature is currently in session until June 1st and is working on the Fiscal 2016-2017 budget. Texas state sales tax collections represent more than half of the state's general revenues and Fiscal 2015 year to date collections through February 2015 were 9.8% higher than the first 6

months of Fiscal 2014. S&P upgraded its Texas general obligation (GO) rating to AAA from AA+ in December 2013, while Moody's and Fitch rated Texas GO debt at Aaa and AAA, respectively. For the twelve months ended February 28, 2015, municipal issuance in Texas totaled \$42.1 billion a 25% increase from the previous twelve months. For the most recent twelve months, Texas was ranked as the second largest state issuer only behind California.

8 Nuveen Investments

What key strategies were used to manage these Funds during the twelve-month reporting period ended February 28, 2015?

A backdrop of supportive technical and fundamental factors helped the municipal market rally for most of the reporting period. For the period as a whole, municipal bond prices generally rose, while interest rates declined. During this time, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term.

NAZ continued to focus on maintaining a bias toward longer and intermediate duration bonds while staying diversified, as well as actively seeking to minimize call risk especially toward the end of the reporting period. Additions to NAZ's portfolio included charter school, higher education and hospital credits. NAZ also purchased Puerto Rico Sales Tax Financing Corporation (COFINA) bonds in May 2014, based on their attractive diversification, duration and yield. Due to ongoing developments in Puerto Rico, Nuveen made the decision to sell these bonds from the portfolio in July 2014.

NUM, NUO and NTX also continued to focus on buying a mix of intermediate and longer-term credits, seeking opportunities in both the new issue and secondary markets.

In Michigan, municipal issuance rose substantially for the reporting period. This increase was largely due to the refinancing of Detroit water and sewer bonds, which accounted for approximately \$1.8 billion of Michigan's \$5.1 billion in issuance or almost all of the increase. In August 2014, Detroit announced a tender offer for the city's water and sewer bonds, aimed at replacing some of the \$5.2 billion of existing debt with lower cost bonds. Approximately \$1.5 billion in existing water and sewer bonds were returned to the city by investors under the tender offer, which enabled Detroit to issue new water and sewer bonds, resulting in savings of \$250 million over the life of the bonds. The city also raised about \$150 million to finance sewer system improvements. As part of the deal, Detroit water and sewer bonds also were permanently removed from the city's bankruptcy case, which led to a rally in the bonds' prices. NUM participated in both the tender offer and the new issue of Detroit water and sewer bonds. During this reporting period, NUM also found value in higher education, electric utilities, dedicated tax bonds (Detroit Regional Convention Facility Authority) and local government obligation (GO) credits. NUO continued to find bonds that helped us accomplish our goals for the Fund, adding Cuyahoga County sales tax revenue bonds, water and sewer credits and electric utility bonds. NUO also sold a longer duration Buckeye Tobacco Settlement credit to buy a shorter duration credit from the same issuer with an equivalent yield. Our purchases in NTX focused on dedicated tax bonds, state GOs, airports, water and sewer, and higher education bonds. All of our bond purchases in the Michigan, Ohio and Texas Funds represented in-state paper.

In addition, we established a portfolio hedge in NUM, NUO and NTX by purchasing a credit default swap on the debt obligations of the U.S. territory of Puerto Rico. We have previously noted a correlation between the credit quality of Puerto Rico bonds and that of the overall high yield municipal bond market. Given that these portfolios regularly maintain a meaningful stake in BBB-rated and below investment grade rated bonds, we saw this as a way to reduce the Funds' overall risk while continuing to take advantage of opportunities to invest in the lower quality portion of the market. During the reporting period, these swaps had a negligible impact on performance.

During this reporting period, S&P upgraded its credit rating on National Public Finance Guarantee Corp. (NPFPG), the insurance subsidiary of MBIA, to AA- rating from A rating, citing NPFPG's strong operating performance and competitive position in the financial guarantee market. As a result, the ratings on the Funds' holdings of bonds backed by insurance from NPFPG were similarly upgraded to AA- rating as of mid-March 2014. This action produced an increase in the percentage of our portfolios held in the AA- rated credit quality category (and a corresponding decrease in the A rated category), improving the overall credit quality of the Funds. During this reporting period, S&P also upgraded its rating on Assured Guaranty Municipal (AGM) as well as AGM's municipal-only insurer Municipal

Assurance Corp. to AA from AA-.

Cash for new purchases was generated primarily by proceeds from called and matured bonds, which we worked to redeploy to keep the Funds fully invested and support their income streams. As previously mentioned, the decline in municipal yields and the flattening of the municipal yield curve relative to the Treasury curve helped to make refunding deals more attractive and we saw an

Nuveen Investments 9

Portfolio Managers' Comments (continued)

increase in this activity during the reporting period, which provided ample cash for purchases. NAZ took an active approach to managing heightened call activity, selling some callable bond positions at the end of 2014 and in early 2015 to try to reduce the overall portfolio's reinvestment risk. NAZ's other notable sell during the period included the COFINA bonds described earlier. NUM sold all of its remaining uninsured Detroit water and sewer paper, uninsured Wayne County GOs (which were eliminated prior to Fitch's downgrade of Wayne County in March 2015) and Detroit Public Schools state aid revenue bonds. NUO sold a Wittenberg University revenue bond on deteriorating credit concerns, and NTX sold a pre-refunded bond.

As of February 28, 2015, all four of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management and income enhancement. For duration and cash management reasons, NUM and NUO found it advantageous to terminate several inverse floating rate trusts during this reporting period. This had the effect of modestly reducing leverage.

How did the Funds perform for the twelve-month reporting period ended February 28, 2015?

The tables in each Fund's Performance Overview and Holding Summaries section of this report provide the Funds' total returns for the one-year, five-year and ten-year periods ended February 28, 2015. Each Fund's returns on common share net asset value (NAV) are compared with the performance of corresponding market index and Lipper classification average.

For the twelve months ended February 28, 2015, the total returns on common share NAV for these four Funds outperformed the returns for their respective state's S&P Municipal Bond Index as well as that of the national S&P Municipal Bond Index. NAZ and NUO outperformed the average return for the Lipper Other States Municipal Debt Funds Classification, while NUM and NTX underperformed this Lipper average. Shareholders should note that the performance of the Lipper Other States classification represents the overall average of returns for funds from ten states with a wide variety of municipal market conditions, making direct comparisons less meaningful.

Key management factors that influenced the Funds' returns during this reporting period included duration and yield curve positioning, credit exposure and sector allocation. The use of leverage also was an important factor affecting the Funds' performance. Leverage is discussed in more detail later in this report.

Given the combination of declining interest rates and a flattening yield curve during this reporting period, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits with maturities of 15 years or more, especially those at the longest end of the municipal yield curve, outperformed the general municipal market, while bonds at the shortest end of the curve produced the weakest results. Because these four Funds were generally overweighted in the longer segments of the municipal curve that performed best and generally underweighted in the underperforming shorter end of the curve, duration and yield curve positioning was a significant positive contributor to their performance.

During the reporting period, lower rated bonds generally outperformed higher quality bonds, as the municipal market rally continued and investors became more willing to accept risk. NUO and NTX were the most favorably positioned for this environment, with overweights in the stronger performing, lower rated bonds and underweights in the weaker performing, higher rated bonds contributing positively to performance. NAZ benefited from similar positioning, but gains were slightly offset by a AA-rated Puerto Rico credit that detracted from returns. For NUM, an overweight to AA-rated bonds (which underperformed) and an underweight to BB-rated bonds (which outperformed) were detrimental to performance.

The influence of sector allocation varied among the Funds during the reporting period. Although an overweight in the underperforming housing sector was modestly disadvantageous to performance, NUO benefited from its underweight in state GO credits, a sector that underperformed, and an overweight in health care credits, a group that outperformed. For NAZ, the impact on overall returns was small, but still positive. Exposure to Tax-Supported credits, particularly dedicated tax credits hurt NAZ's returns. Despite being underweight in transportation this sector was a positive contributor as the positions held were longer duration bonds. An overweight in the industrial development/pollution control revenue credits boosted results. Among individual credits, NAZ had

10 Nuveen Investments

positive results from a Phoenix Sky Harbor International Airport bond, two charter school bonds issued by the Phoenix Industrial Development Authority (Choice Academies Inc. and Legacy Traditional Schools), two hospital systems (John C. Lincoln Health Network and University Medical Center) and tax increment dirt bonds, which are so-called because they are secured by land values.

For NUM and NTX, sector allocation was an overall detractor from performance. Specifically, although exposure to health care helped NUM's performance, it did not offset the negative effect of exposure to higher education and pre-refunded bonds. NTX was hurt by health care credits and an underweight in toll roads, which overwhelmed gains from its position in dedicated tax bonds.

We also continue to monitor two situations in the broader municipal market for any impact on the Funds' holdings and performance: the ongoing economic problems of Puerto Rico and the bankruptcy filing of Detroit, Michigan. Regarding Puerto Rico, shareholders should note that NUM, NUO and NTX had sold out of their exposures to Puerto Rico debt prior to this reporting period, while NAZ had an allocation of approximately 1% throughout the reporting period. The Puerto Rico credits offered higher yields, added diversification and triple exemption (i.e., exemption from most federal, state, and local taxes). However, Puerto Rico's continued economic weakening, escalating debt service obligations, and long-standing inability to deliver a balanced budget led to multiple downgrades on its debt over the past two years. Following the latest rating reduction by Moody's in July 2014, Puerto Rico general obligation debt was rated B2/BB+/BB (below investment grade) by Moody's, S&P and Fitch, respectively, with negative outlooks.

On February 6, 2015 a federal court found Puerto Rico's Recovery Act to be unconstitutional. Though the Commonwealth is pursuing an appeal of the ruling, the outcome is uncertain. Puerto Rico's non-voting Representative in Congress recently introduced legislation that would make chapter 9 bankruptcy available to the Commonwealth's public corporations. A congressional committee hearing was held on February 26, 2015, but the bill has not advanced out of committee.

In light of the evolving economic situation in Puerto Rico, Nuveen's credit analysis of the Commonwealth had previously considered the possibility of a default and restructuring of public corporations and we adjusted our portfolios to prepare for such an outcome, although no such default or restructuring has occurred to date. The Nuveen complex's entire exposure to obligations of the government of Puerto Rico and other Puerto Rico issuers totaled 0.36% of assets under management as of February 28, 2015. As of February 28, 2015, NAZs limited exposure to Puerto Rico generally was invested in bonds that were insured (which we believe adds value), pre-refunded (and therefore backed by securities such as U.S. Treasuries), or tobacco settlement bonds. Overall, the small size of our exposures meant that our Puerto Rico holdings had a negligible impact on performance.

The second situation that we continued to monitor was the City of Detroit's filing for chapter 9 in federal bankruptcy court in July 2013. Burdened by decades of population loss, changes in the auto manufacturing industry and significant tax base deterioration, Detroit had been under severe financial stress for an extended period prior to the filing. Before Detroit could exit bankruptcy, issues surrounding the city's complex debt portfolio, numerous union contracts, significant legal questions and more than 100,000 creditors had to be resolved. By October 2014, all of the major creditors had reached an agreement on the city's plan to restructure its \$18.5 billion of debt and emerge from bankruptcy on November 7, 2014. The U.S. Bankruptcy Court approved the city's bankruptcy exit plan, thereby erasing approximately \$7 billion in debt. The settlement plan also provided for \$1.7 billion to be reinvested in the city for improved public safety, blight removal and upgraded basic services. As described in the key strategies section earlier in this commentary, Detroit's tender offer for the city's water and sewer bonds in August 2014 was a positive event, resulting in beneficial savings for the city and the permanent removal of the water and sewer credits from the city's bankruptcy case. In general, Detroit water and sewer credits rallied following these positive developments. Shareholders of NUM should note that this Fund has no exposure to Detroit general obligation bonds and is underweighted in Detroit water and sewer bonds relative to the Michigan index.

Fund Leverage

IMPACT OF THE FUNDS' LEVERAGE STRATEGY ON PERFORMANCE

One important factor impacting the returns of the Funds relative to their comparative benchmarks was the Funds' use of leverage through their issuance of preferred shares and/or investments in inverse floating rate securities, which represent leveraged investments in underlying bonds. The Funds use leverage because our research has shown that, over time, leveraging provides opportunities for additional income, particularly in the recent market environment where short-term market rates are at or near historical lows, meaning that the short-term rates the Fund has been paying on its leveraging instruments have been much lower than the interest the Fund has been earning on its portfolio of long-term bonds that it has bought with the proceeds of that leverage. However, use of leverage also can expose the Fund to additional price volatility. When a Fund uses leverage, the Fund will experience a greater increase in its net asset value if the municipal bonds acquired through the use of leverage increase in value, but it will also experience a correspondingly larger decline in its net asset value if the bonds acquired through leverage decline in value, which will make the Fund's net asset value more volatile, and its total return performance more variable over time. In addition, income in levered funds will typically decrease in comparison to unlevered funds when short-term interest rates increase and increase when short-term interest rates decrease. Leverage had a positive impact on the performance of the Funds over this reporting period.

As of February 28, 2015, the Funds' percentages of leverage are shown in the accompanying table.

| | NAZ | NUM | NUO | NTX |
|----------------------|--------|--------|--------|--------|
| Effective Leverage* | 35.59% | 34.58% | 35.20% | 32.20% |
| Regulatory Leverage* | 31.27% | 32.57% | 31.96% | 31.03% |

* Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage. Regulatory leverage consists of preferred shares issued or borrowings of a Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

THE FUNDS' REGULATORY LEVERAGE

As of February 28, 2015, the Funds have issued and outstanding MuniFund Term Preferred (MTP) Shares, Variable Rate MuniFund Term Preferred (VMTP) Shares and/or Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying table.

| | Series | MTP Shares | | NYSE Ticker | Series | VMTP Shares | | Series | VRDP Shares | |
|-----|--------|--|----------------------------|----------------|--------|--|--|--------|----------------|---|
| | | Shares Issued at Liquidation Value | Annual Dividend Rate | | | Shares Issued at Liquidation Value | Shares Issued at Liquidation Value | | | |
| NAZ | — | — | — | — | 2016 | \$ 79,000,000 | — | — | — | — |
| NUM | — | — | — | — | 2016 | \$ 159,000,000 | — | — | — | — |

Common Share Information

DISTRIBUTION INFORMATION

The following information regarding the Funds' distributions is current as of February 28, 2015. Each Fund's distribution levels may vary over time based on each Fund's investment activities and portfolio investment value changes.

During the current reporting period, each Fund's distributions to common shareholders were as shown in the accompanying table.

| Ex-Dividend Date | Per Common Share Amounts | | | |
|-------------------------------|--------------------------|-----------|-----------|-----------|
| | NAZ | NUM | NUO | NTX |
| March 2014 | \$ 0.0655 | \$ 0.0740 | \$ 0.0800 | \$ 0.0580 |
| April | 0.0655 | 0.0740 | 0.0800 | 0.0580 |
| May | 0.0655 | 0.0740 | 0.0800 | 0.0580 |
| June | 0.0655 | 0.0740 | 0.0800 | 0.0580 |
| July | 0.0665 | 0.0740 | 0.0800 | 0.0580 |
| August | 0.0665 | 0.0740 | 0.0800 | 0.0580 |
| September | 0.0665 | 0.0705 | 0.0740 | 0.0545 |
| October | 0.0665 | 0.0705 | 0.0740 | 0.0545 |
| November | 0.0665 | 0.0705 | 0.0740 | 0.0545 |
| December | 0.0665 | 0.0675 | 0.0740 | 0.0545 |
| January | 0.0665 | 0.0675 | 0.0740 | 0.0545 |
| February 2015 | 0.0665 | 0.0675 | 0.0740 | 0.0545 |
| Ordinary Income Distribution* | \$ 0.0003 | \$ 0.0002 | \$ 0.0027 | \$ 0.0010 |
| Market Yield** | 5.55% | 5.85% | 5.77% | 4.56% |
| Taxable-Equivalent Yield** | 8.08% | 8.49% | 8.46% | 6.33% |

* Distribution paid in December 2014.

** Market Yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price as of the end of the reporting period. Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 31.3%, 31.1% and 31.8% for the Arizona, Michigan and Ohio Funds, respectively. The Texas Fund is based on a federal income tax rate of 28.0%. When comparing a Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

Each Fund in this report seeks to pay regular monthly dividends out of its net investment income at a rate that reflects its past and projected net income performance. To permit each Fund to maintain a more stable monthly dividend, the Fund may pay dividends at a rate that may be more or less than the amount of net income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it will hold the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value. Conversely, if a Fund has cumulatively paid in dividends more than it has earned, the excess will constitute a negative UNII that will likewise be reflected in the Fund's net asset value. Each Fund will, over time, pay all its net investment income as dividends to shareholders.

As of February 28, 2015, the Funds had positive UNII balances for tax purposes and positive UNII balances for financial reporting purposes.

All monthly dividends paid by each Fund during the current reporting period, were paid from net investment income. If a portion of the Fund's monthly distributions was sourced from or comprised of elements other than net investment income, including capital gains and/or a return of capital, shareholders would have received a notice to that effect. For financial reporting purposes, the composition and per share amounts of each Fund's dividends for the reporting period are presented in this report's Statement of Changes in Net Assets and Financial Highlights, respectively. For income tax purposes, distribution information for each Fund as of its most recent tax year end is presented in Note 6 – Income Tax Information within the Notes to Financial Statements of this report.

COMMON SHARE REPURCHASES

During August 2014, the Funds' Board of Trustees reauthorized an open-market share repurchase program, allowing each Fund to repurchase an aggregate of up to approximately 10% of its outstanding shares.

As of February 28, 2015, and since the inception of the Funds' repurchase programs, the Funds have cumulatively repurchased and retired common shares as shown in the accompanying table.

| | NAZ | NUM | NUO | NTX |
|--|-----------|-----------|-----------|-----------|
| Common Shares Cumulatively Repurchased and Retired | — | 185,000 | — | — |
| Common Shares Authorized for Repurchase | 1,155,000 | 2,085,000 | 1,850,000 | 1,005,000 |

During the current reporting period, the Funds did not repurchase any of their outstanding common shares.

COMMON SHARE EQUITY SHELF PROGRAMS

During the reporting period, NTX was authorized to issue an additional 950,000 common shares through its ongoing equity shelf program. Under this program, the Fund, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above the Fund's NAV per common share.

During the current reporting period, NTX did not sell any of its common shares through its equity shelf program.

As of June 30, 2014, NTX's shelf offering registration statement is no longer effective. Therefore, NTX may not issue additional common shares under its equity shelf program until a new registration statement is effective.

OTHER COMMON SHARE INFORMATION

As of February 28, 2015, and during the current reporting period, the Funds' common share prices were trading at a premium/ (discount) to their common share NAVs as shown in the accompanying table.

| | NAZ | NUM | NUO | NTX |
|--|----------|----------|----------|----------|
| Common Share NAV | \$ 15.02 | \$ 15.80 | \$ 17.01 | \$ 15.72 |
| Common Share Price | \$ 14.37 | \$ 13.85 | \$ 15.40 | \$ 14.35 |
| Premium/(Discount) to NAV | (4.33)% | (12.34)% | (9.47)% | (8.72)% |
| 12-Month Average Premium/(Discount) to NAV | (5.79)% | (10.22)% | (6.83)% | (7.09)% |

Risk Considerations

Fund Shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment, Price and Market Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like these Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful. Certain aspects of the recently adopted Volcker Rule may limit the availability of tender option bonds, which are used by the Funds for leveraging and duration management purposes. The effects of this new Rule, expected to take effect in mid-2015, may make it more difficult for a Fund to maintain current or desired levels of leverage and may cause the Fund to incur additional expenses to maintain its leverage.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Inverse Floater Risk. The Funds invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of
Nuveen Arizona Premium Income Municipal Fund
Nuveen Michigan Quality Income Municipal Fund
Nuveen Ohio Quality Income Municipal Fund
Nuveen Texas Quality Income Municipal Fund:

We have audited the accompanying statement of assets and liabilities, including the portfolios of investments, of Nuveen Arizona Premium Income Municipal Fund, Nuveen Michigan Quality Income Municipal Fund, Nuveen Ohio Quality Income Municipal Fund and Nuveen Texas Quality Income Municipal Fund (the "Funds") as of February 28, 2015, and the related statements of operations, changes in net assets and cash flows, and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The statements of changes in net assets and the financial highlights for the periods presented through February 28, 2014, were audited by other auditors whose report dated April 25, 2014, expressed an unqualified opinion on those statements and those financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of February 28, 2015, by correspondence with the custodian and brokers or other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Funds as of February 28, 2015, the results of their operations, the changes in their net assets, their cash flows and the financial highlights for the year then ended, in conformity with U.S. generally accepted accounting principles.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (6) Variable Rate MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 31.3%.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives and/or inverse floating rate transactions.
- (6) Variable Rate MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 33.0%.
- (7) Other assets less liabilities includes the unrealized appreciation (depreciation) of certain over-the-counter derivatives as presented on the Statement of Assets and Liabilities. The unrealized appreciation (depreciation) of exchange-cleared and exchange-traded derivatives is recognized as part of the cash collateral at brokers and/or the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable.
- (8) The Fund entered into the credit default swap to gain investment exposure to the referenced entity. Selling protection has a similar credit risk position to owning that referenced entity. Buying protection has a similar credit risk position to selling the referenced entity short.
- (9) The credit spread generally serves as an indication of the current status of the payment/performance risk and therefore the likelihood of default of the credit derivative. The credit spread also reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into a credit default swap contract. Higher credit spreads are indicative of a higher likelihood of performance by the seller of protection.
- (ETM) Escrowed to maturity.

- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.
- (WI/DD) Investment, or portion of investment, purchased on a when-issued or delayed delivery basis.

See accompanying notes to financial statements.

48 Nuveen Investments

Investments in Derivatives as of February 28, 2015

Credit Default Swaps outstanding:

| Counterparty | Referenced Entity | Buy/Sell Protection (9) | Current | Notional Amount (Annualized) | Fixed | Termination Date | Unrealized | |
|---------------|-----------------------------|--------------------------|--------------------|------------------------------|--------|------------------|--------------|--------------|
| | | | Credit Spread (10) | | Rate | | Appreciation | Depreciation |
| Goldman Sachs | Commonwealth of Puerto Rico | Buy | 26.75-29.25% | \$ 3,850,000 | 5.000% | 12/20/19 | \$ 1,082,126 | \$ 197,460 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives and/or inverse floating rate transactions.
- (5) As of, or subsequent to, the end of the reporting period this security is non-income producing. Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has ceased accruing additional income on the Fund's records.
- (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (7) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 32.5%.
- (8) Other assets less liabilities includes the unrealized appreciation (depreciation) of certain over-the-counter derivatives as presented on the Statement of Assets and Liabilities. The unrealized appreciation (depreciation) of exchange-cleared and exchange-traded derivatives is recognized as part of the cash collateral at brokers and/or the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable.
- (9) The Fund entered into the credit default swap to gain investment exposure to the referenced entity. Selling protection has a similar credit risk position to owning that referenced entity. Buying protection has a similar credit risk position to selling the referenced entity short.
- (10) The credit spread generally serves as an indication of the current status of the payment/performance risk and therefore the likelihood of default of the credit derivative. The credit spread also reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into a credit default swap contract. Higher credit spreads are indicative of a higher likelihood of performance by the seller of protection.
- (IF) Inverse floating rate investment.

Nuveen Investments 55

NTX Nuveen Texas Quality Income Municipal Fund
Portfolio of Investments (continued)

February 28,
2015

Investments in Derivatives as of February 28, 2015

Credit Default Swaps outstanding:

| Counterparty | Referenced Entity | Buy/Sell Protection (8) | Current Credit Spread (9) | Notional Amount | Fixed Rate (Annualized) | Termination Date | Unrealized Appreciation | Unrealized Depreciation |
|--------------|-----------------------------|-------------------------|---------------------------|-----------------|-------------------------|------------------|-------------------------|-------------------------|
| Citibank | Commonwealth of Puerto Rico | Buy | 28.5-30.0% | \$ 1,830,000 | 5.000% | 12/20/19 | \$ 514,361 | \$ 94,558 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) As of, or subsequent to, the end of the reporting period this security is non-income producing. Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has ceased accruing additional income on the Fund's records.
- (6) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 31.2%.
- (7) Other assets less liabilities includes the unrealized appreciation (depreciation) of certain over-the-counter derivatives as presented on the Statement of Assets and Liabilities. The unrealized appreciation (depreciation) of exchange-cleared and exchange-traded derivatives is recognized as part of the cash collateral at brokers and/or the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable.
- (8) The Fund entered into the credit default swap to gain investment exposure to the referenced entity. Selling protection has a similar credit risk position to owning that referenced entity. Buying protection has a similar credit risk position to selling the referenced entity short.
- (9) The credit spread generally serves as an indication of the current status of the payment/performance risk and therefore the likelihood of default of the credit derivative. The credit spread also reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into a credit default swap contract. Higher credit spreads are indicative of a higher likelihood of performance by the seller of protection.
- (ETM) Escrowed to maturity.
- (UB)

Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

(WI/DD) Investment, or portion of investment, purchased on a when-issued or delayed delivery basis.

See accompanying notes to financial statements.

- (a) The amounts shown for Auction Rate Preferred Shares (“ARPS”) are based on common share equivalents.
- (b) Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund’s market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Price is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid

per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

* Rounds to less than \$0.01 per share.

| 1.39 | 4.69 | 163,876 | 1.18 | 6.37 | 6 |

(c) Ratios do not reflect the effect of dividend payments to ARPS shareholders, where applicable; Net Investment Income (Loss) ratios reflect income earned and expenses incurred on assets attributable to ARPS, MTP Shares and/or VMTP Shares, where applicable.

(d) The expense ratios reflect, among other things, all interest expense and other costs related to MTP Shares, VMTP Shares and/or the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, where applicable, each as described in Note 1 –General Information and Significant Accounting Policies, MuniFund Term Preferred Shares and Variable Rate MuniFund Term Preferred Shares and Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities, respectively, as follows:

Arizona Premium Income (NAZ)

Year Ended 2/28–2/29:

| | |
|------|-------|
| 2015 | 0.50% |
| 2014 | 1.32 |
| 2013 | 0.57 |
| 2012 | 0.35 |

2011(f) —

Year Ended 7/31:

| | |
|------|---|
| 2010 | — |
|------|---|

Michigan Quality Income (NUM)

Year Ended 2/28–2/29:

| | |
|------|-------|
| 2015 | 0.53% |
| 2014 | 0.84 |
| 2013 | 0.70 |
| 2012 | 0.46 |
| 2011 | 0.02 |

(e) Portfolio Turnover Rate is calculated based on the lesser of long-term purchases or sales (as disclosed in Note 5 – Investment Transactions) divided by the average long-term market value during the period.

(f) For the seven months ended February 28, 2011.

** Annualized.

See accompanying notes to financial statements.

- (a) The amounts shown for Auction Rate Preferred Shares (“ARPS”) are based on common share equivalents.
- (b) Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund’s market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Price is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the

period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

* Rounds to less than \$0.01 per share.

Notes to Financial Statements

1. General Information and Significant Accounting Policies

General Information

Fund Information

The state funds covered in this report and their corresponding New York Stock Exchange (“NYSE”) symbols are as follows (each a “Fund” and collectively, the “Funds”):

- Nuveen Arizona Premium Income Municipal Fund (NAZ) (“Arizona Premium Income (NAZ)”)
- Nuveen Michigan Quality Income Municipal Fund (NUM) (“Michigan Quality Income (NUM)”)
- Nuveen Ohio Quality Income Municipal Fund (NUO) (“Ohio Quality Income (NUO)”)
- Nuveen Texas Quality Income Municipal Fund (NTX) (“Texas Quality Income (NTX)”)

The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies. Arizona Premium Income (NAZ), Michigan Quality Income (NUM) and Ohio Quality Income (NUO) were organized as Massachusetts business trusts on April 8, 2013, January 7, 2013 and April 8, 2013, respectively (previously organized as Minnesota trusts on January 23, 1991, July 25, 1991 and October 17, 1991, respectively). Texas Quality Income (NTX) was organized as a Massachusetts business trust on July 26, 1991.

The end of the reporting period for the Funds is February 28, 2015, and the period covered by these Notes to Financial Statements is the fiscal year ended February 28, 2015 (“the current fiscal period”).

Investment Adviser

The Funds’ investment adviser is Nuveen Fund Advisors, LLC (the “Adviser”), a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”). The Adviser is responsible for each Fund’s overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC (the “Sub-Adviser”), a subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds.

Investment Objectives and Principal Investment Strategies

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

Significant Accounting Policies

Each Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946 “Financial Services – Investment Companies.” The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds’ portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments.

As of the end of the reporting period, the Funds' outstanding when-issued/delayed delivery purchase commitments were as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|---------------------------------------|--|------------------------------------|-------------------------------------|
| Outstanding when-issued/delayed delivery purchase commitments | \$ | —\$ 662,239 | \$ | —\$ 5,578,330 |

68 Nuveen Investments

Investment Income

Investment income, which reflects the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as “Legal fee refund” on the Statement of Operations.

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal corporate income tax regulations, which may differ from U.S. GAAP.

MuniFund Term Preferred Shares

Texas Quality Income (NTX) has issued and outstanding MuniFund Term Preferred (“MTP”) Shares, with a \$10 liquidation value per share. The Fund’s MTP Shares were issued in one Series and trade on the NYSE.

As of the end of the reporting period, details of Texas Quality Income’s (NTX) MTP Shares outstanding were as follows:

| Fund | Series | NYSE Ticker | Shares Outstanding | Shares Outstanding at \$10 Per Share Liquidation Value | Annual Dividend Rate |
|-------------------------------|--------|----------------|-----------------------|---|-------------------------|
| Texas Quality Income (NTX) | 2015 | NTX PRCCL | 7,092,000 | \$ 70,920,000 | 2.30% |

The Fund is obligated to redeem its MTP Shares by the date as specified in its offering document (“Term Redemption Date”), unless earlier redeemed or repurchased by the Fund. MTP Shares are subject to optional and mandatory redemption in certain circumstances. MTP Shares were subject to redemption at the option of the Fund (“Optional Redemption Date”), subject to a payment of premium for one year following the Optional Redemption Date (“Premium Expiration Date”), and at par thereafter. MTP Shares also will be subject to redemption, at the option of the Fund, at par in the event of certain changes in the credit rating of the MTP Shares. The Fund may be obligated to redeem certain of the MTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for the Fund’s series of MTP Shares are as follows:

| Fund | Series | NYSE Ticker | Term Redemption Date | Optional Redemption Date | Premium Expiration Date |
|-------------------------------|--------|----------------|-------------------------|-----------------------------|----------------------------|
| Texas Quality Income (NTX) | 2015 | NTX PRCCL | December 1, 2015 | December 1, 2011 | November 30, 2012 |

The average liquidation value for all series of MTP Shares outstanding for the Fund during the current fiscal period, was as follows:

| | Texas Quality Income (NTX) |
|---|-------------------------------------|
| Average liquidation value of MTP Shares outstanding | \$ 70,920,000 |

For financial reporting purposes, the liquidation value of MTP Shares is recorded as a liability and recognized as “MuniFund Term Preferred (“MTP”) Shares, at liquidation value” on the Statement of Assets and Liabilities. Dividends on MTP Shares, which are recognized as interest expense for financial reporting purposes, are paid monthly at a fixed annual rate, subject to adjustments in certain circumstances. Unpaid dividends on MTP Shares are recognized as a component of “Interest payable” on the Statement of Assets and Liabilities. Dividends accrued on MTP Shares are recognized as a component of “Interest expense and amortization of offering costs” on the Statement of Operations. Costs incurred by the Funds in connection with their offerings of MTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of “Deferred offering costs” on the Statement of Assets and Liabilities and “Interest expense and amortization of offering costs” on the Statement of Operations.

Notes to Financial Statements (continued)

Variable Rate MuniFund Term Preferred Shares

The following Funds have issued and outstanding Variable Rate MuniFund Term Preferred (“VMTP”) Shares, with a \$100,000 liquidation value per share. VMTP Shares are issued via private placement and are not publicly available.

As of the end of the reporting period, VMTP Shares outstanding, at liquidation value, for each Fund were as follows:

| Fund | Series | Shares Outstanding | |
|-------------------------------|--------|--------------------|--|
| | | Shares Outstanding | at \$100,000 Per Share Liquidation Value |
| Arizona Premium Income (NAZ) | 2016 | 790 | \$ 79,000,000 |
| Michigan Quality Income (NUM) | 2016 | 1,590 | \$ 159,000,000 |

Each Fund is obligated to redeem its VMTP Shares by the date as specified in its offering document (“Term Redemption Date”), unless earlier redeemed or repurchased by the Fund. VMTP Shares are subject to optional and mandatory redemption in certain circumstances. The VMTP Shares are subject to redemption at the option of each Fund (“Optional Redemption Date”), subject to payment of premium for one year following the date of issuance (“Premium Expiration Date”), and at par thereafter. Each Fund may be obligated to redeem certain of the VMTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for each Fund’s VMTP Shares are as follows:

| Fund | Series | Term Redemption Date | Optional Redemption Date | Premium Expiration Date |
|-------------------------------|--------|----------------------|--------------------------|-------------------------|
| Arizona Premium Income (NAZ) | 2016 | December 30, 2016 | January 1, 2015 | December 31, 2014 |
| Michigan Quality Income (NUM) | 2016 | December 30, 2016 | January 1, 2015 | December 31, 2014 |

The average liquidation value of VMTP Shares outstanding and annualized dividend rate for each Fund during the current fiscal period, were as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) |
|--|------------------------------|-------------------------------|
| Average liquidation value of VMTP Shares outstanding | \$ 79,000,000 | \$ 159,000,000 |
| Annualized dividend rate | 1.00% | 1.00% |

VMTP Shares generally do not trade, and market quotations are generally not available. VMTP Shares are short-term or short/intermediate-term instruments that pay a variable dividend rate tied to a short-term index, plus an additional fixed “spread” amount established at the time of issuance. The fair value of VMTP Shares is expected to be approximately their liquidation par value so long as the fixed “spread” on the VMTP Shares remains roughly in line with the “spread” rates being demanded by investors on instruments having similar terms in the current market environment. In present market conditions, the Funds’ Adviser has determined that the fair value of VMTP Shares is their liquidation

value, but their fair value could vary if market conditions change materially. For financial reporting purposes, the liquidation value of VMTP Shares is a liability and is recognized as “Variable Rate MuniFund Term Preferred (“VMTP”) Shares, at liquidation value” on the Statement of Assets and Liabilities.

Dividends on the VMTP Shares (which are treated as interest payments for financial reporting purposes) are set weekly. Unpaid dividends on VMTP Shares are recognized as a component of “Interest payable” on the Statement of Assets and Liabilities. Dividends accrued on VMTP Shares are recognized as a component of “Interest expense and amortization of offering costs” on the Statement of Operations.

Costs incurred by the Funds in connection with their offerings of VMTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of “Deferred offering costs” on the Statement of Assets and Liabilities and “Interest expense and amortization of offering costs” on the Statement of Operations.

Variable Rate Demand Preferred Shares

Ohio Quality Income (NUO) has issued and outstanding Variable Rate Demand Preferred (“VRDP”) Shares, with a \$100,000 liquidation value per share. VRDP Shares are issued via private placement and are not publicly available.

As of the end of the reporting period, details of the Fund’s VRDP Shares outstanding were as follows:

| Fund | Series | Shares Outstanding | Liquidation Value | Shares Outstanding at \$100,000 Per Share | Maturity |
|---------------------------|--------|--------------------|-------------------|---|-------------------|
| Ohio Quality Income (NUO) | 1 | 1,480 | \$ 148,000,000 | | September 1, 2043 |

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom the Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. The Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing. The Fund pays an annual remarketing fee of 0.10% on the aggregate principal amount of all VRDP Shares outstanding. The Fund’s VRDP Shares have successfully remarketed since issuance.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent’s ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of the Fund. The Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value of VRDP Shares outstanding and annualized dividend rate for the Fund during the current fiscal period were as follows:

| | |
|--|---|
| Average liquidation value of VRDP Shares outstanding | Ohio Quality Income (NUO) \$ 148,000,000 |
| Annualized dividend rate | 0.14% |

For financial reporting purposes, the liquidation value of VRDP Shares is a liability and is recognized as “Variable Rate Demand Preferred (“VRDP”) Shares, at liquidation value” on the Statement of Assets and Liabilities. Unpaid dividends on VRDP Shares are recognized as a component of “Interest payable” on the Statement of Assets and Liabilities, when applicable. Dividends accrued on VRDP Shares are recognized as a component of “Interest expense and amortization of offering costs” on the Statement of Operations. Costs incurred by the Fund in connection with its offerings of VRDP Shares were recorded as a deferred charge, which are being amortized over the life of the shares and are recognized as a component of “Deferred offering costs” on the Statement of Assets and Liabilities and “Interest expense and amortization of offerings costs” on the Statement of Operations. In addition to interest expense, the Fund also pays a per annum liquidity fee to the liquidity provider, as well as a remarketing fee, which are recognized as “Liquidity fees” and “Remarketing fees,” respectively, on the Statement of Operations.

Common Shares Equity Shelf Programs and Offering Costs

During prior reporting periods Texas Quality Income (NTX) filed a registration statement with the Securities and Exchange Commission (“SEC”) authorizing the Fund to issue additional common shares through an ongoing equity shelf program (“Shelf Offering”, which became effective with the SEC during prior fiscal periods.).

Under the Shelf Offering, the Fund, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above the Fund’s net asset value (“NAV”) per common share.

Common shares authorized, common shares issued and offering proceeds, net of offering costs under the Fund’s Shelf Offering during the Funds’ current and prior fiscal period were as follows:

| | Texas Quality Income (NTX) | |
|--|-------------------------------|---------------|
| | Year Ended | Year Ended |
| | 2/28/15 | 2/28/14 |

Nuveen Investments 71

Notes to Financial Statements (continued)

As of June 30, 2014, the Fund's shelf offering registration statement is no longer effective. Therefore, the Fund may not issue additional common shares under their equity shelf program until a new registration statement is filed and declared effective by the SEC.

Costs incurred by the Fund in connection with its Shelf Offering are recorded as a deferred charge and recognized as a component of "Deferred offering costs" on the Statement of Assets and Liabilities. The deferred asset is reduced during the one-year period that additional shares are sold by reducing the proceeds from such sales and is recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets, when applicable. At the end of the one-year life of the Shelf Offering period, any remaining deferred charges will be expensed accordingly and recognized as a component of "Other expenses" on the Statement of Operations. Any additional costs the Fund may incur in connection with its Shelf Offering are expensed as incurred and recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets, when applicable.

Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Netting Agreements

In the ordinary course of business, the Funds may enter into transactions subject to enforceable International Swaps and Derivative Association, Inc. ("ISDA") master agreements or other similar arrangements ("netting agreements"). Generally, the right to offset in netting agreements allows each Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, each Fund manages its cash collateral and securities collateral on a counterparty basis.

The Funds' investments subject to netting agreements as of the end of the reporting period, if any, are further described in Note 3 – Portfolio Securities and Investments in Derivatives.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Investment Valuation and Fair Value Measurements

The fair valuation input levels as described below are for fair value measurement purposes.

Fair value is defined as the price that would be received upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own

assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Level 1 Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

–

Level 2 Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

Prices of fixed income securities are provided by a pricing service approved by the Funds' Board of Trustees (the "Board"). The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer or market activity provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Prices of swap contracts are also provided by a pricing service approved by the Board using the same methods as described above and are generally classified as Level 2.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Board and/or its appointee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price;

securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Board and/or its appointee.

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

| | Level 1 | Level 2 | Level 3 | Total |
|--------------------------------------|---------|-----------------|---------|-----------------|
| Arizona Premium Income (NAZ) | | | | |
| Long-Term Investments*: | | | | |

* Refer to the Fund's Portfolio of Investments for industry classifications.

** Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

The Board is responsible for the valuation process and has appointed the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted

by the Board, is responsible for making fair value determinations, evaluating the effectiveness of the Funds' pricing policies and reporting to the Board. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the Funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

- (i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.
- (ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

Notes to Financial Statements (continued)

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board.

3. Portfolio Securities and Investments in Derivatives

Portfolio Securities

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond (referred to as an "Underlying Bond"), typically with a fixed interest rate, into a special purpose trust (referred to as the "Trust") created by or at the direction of one or more Funds. In turn, the Trust issues (a) floating rate certificates (referred to as "Floaters"), in face amounts equal to some fraction of the Underlying Bond's par amount or market value, and (b) an inverse floating rate certificate (referred to as an "Inverse Floater") that represents all remaining or residual interest in the Trust. Floaters typically pay short-term tax-exempt interest rates to third parties who are also provided a right to tender their certificate and receive its par value, which may be paid from the proceeds of a remarketing of the Floaters, by a loan to the Trust from a third party liquidity provider, or by the sale of assets from the Trust. The Inverse Floater is issued to a long term investor, such as one or more of the Funds. The income received by the Inverse Floater holder varies inversely with the short-term rate paid to holders of the Floaters, and in most circumstances the Inverse Floater holder bears substantially all of the Underlying Bond's downside investment risk and also benefits disproportionately from any potential appreciation of the Underlying Bond's value. The value of an Inverse Floater will be more volatile than that of the Underlying Bond because the interest rate is dependent on not only the fixed coupon rate of the Underlying Bond but also on the short-term interest paid on the Floaters, and because the Inverse Floater essentially bears the risk of loss of the greater face value of the Underlying Bond.

The Inverse Floater held by a Fund gives the Fund the right to (a) cause the holders of the Floaters to tender their certificates at par, and (b) have the trustee of the Trust transfer the Underlying Bond held by the Trust to the Fund, thereby collapsing the Trust.

The Fund may acquire an Inverse Floater in a transaction where it (a) transfers an Underlying Bond that it owns to a Trust created by a third party or (b) transfers an Underlying Bond that it owns, or that it has purchased in a secondary market transaction for the purpose of creating an Inverse Floater, to a Trust created at its direction, and in return receives the Inverse Floater of the Trust (referred to as a "self-deposited Inverse Floater"). A Fund may also purchase an Inverse Floater in a secondary market transaction from a third party creator of the Trust without first owning the Underlying Bond (referred to as an "externally-deposited Inverse Floater").

An investment in a self-deposited Inverse Floater is accounted for as a "financing" transaction (i.e., a secured borrowing). For a self-deposited Inverse Floater, the Underlying Bond deposited into the Trust is identified in the Fund's Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund recognizing the Floaters issued by the Trust as liabilities, at their liquidation value on the Statement of Assets and Liabilities as "Floating rate obligations." In addition, the Fund recognizes in "Investment Income" the entire earnings of the Underlying Bond and recognizes the related interest paid to the holders of the Floaters as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

In contrast, an investment in an externally-deposited Inverse Floater is accounted for as a purchase of the inverse floater and is identified in the Fund’s Portfolio of Investments as “(IF) – Inverse floating rate investment.” For an externally-deposited Inverse Floater, a Fund’s Statement of Assets and Liabilities recognizes the Inverse Floater and not the Underlying Bond as an asset, and the Fund does not recognize the Floaters as a liability. Additionally, the Fund reflects in “Investment Income” only the net amount of earnings on the Inverse Floater (net of the interest paid to the holders of the Floaters and the expenses of the Trust), and does not show the amount of that interest paid as an interest expense on the Statement of Operations.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited Inverse Floaters during the current fiscal period were as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|---------------------------------------|--|------------------------------------|-------------------------------------|
| Self-Deposited Inverse Floaters | | | | |
| Average floating rate obligations outstanding | \$ 2,755,000 | \$ 6,625,000 | \$ 2,126,712 | \$ 3,960,000 |
| Average annual interest rate and fees | 0.54% | 0.77% | 0.57% | 0.28% |

As of the end of the reporting period, the total amount of floating rate obligations associated with each Fund's self-deposited Inverse Floaters and externally-deposited Inverse Floaters was as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|--|---------------------------------------|--|------------------------------------|-------------------------------------|
| Floating Rate Obligations Outstanding | | | | |
| Floating rate obligations: self-deposited Inverse Floaters | \$ 2,755,000 | \$ 6,625,000 | \$ — | \$ 3,960,000 |
| Floating rate obligations: externally-deposited Inverse Floaters | 14,215,000 | 8,430,000 | 23,155,000 | — |
| Total | \$ 16,970,000 | \$ 15,055,000 | \$ 23,155,000 | \$ 3,960,000 |

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse arrangement” or “credit recovery swap”) (Trusts involving such agreements are referred to herein as “Recourse Trusts”), under which a Fund agrees to reimburse the liquidity provider for the Trust's Floaters, in certain circumstances, for the amount (if any) by which the liquidation value of the Underlying Bond held by the Trust may fall short of the liquidation value of the Floaters issued by the Trust, plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on an Inverse Floater may increase beyond the value of the Inverse Floater as a Fund may potentially be liable to fulfill all amounts owed to holders of the Floaters. At period end, any such shortfall amount in the aggregate is recognized as “Unrealized depreciation on Recourse Trusts” on the Statement of Assets and Liabilities.

As of the end of the reporting period, each Fund's maximum exposure to the floating rate obligations issued by externally-deposited Recourse Trusts, was as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|--|---------------------------------------|--|------------------------------------|-------------------------------------|
| Floating Rate Obligations – Externally-Deposited Recourse Trusts | | | | |
| Maximum exposure to Recourse Trusts | \$ 7,500,000 | \$ 8,430,000 | \$ 4,480,000 | \$ — |

Zero Coupon Securities

A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Investments in Derivatives

In addition to the inverse floating rate securities in which each Fund invests, which are considered portfolio securities for financial reporting purposes, each Fund is authorized to invest in certain other derivative instruments such as futures, options and swap contracts. Each Fund limits its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to the Fund. The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

Credit Default Swaps

A Fund may enter into a credit default swap contract to seek to maintain a total return on a particular investment or portion of its portfolio, or to take an active long or short position with respect to the likelihood of a particular issuer's default. Credit default swap contracts involve one party making a stream of payments to another party in exchange for the right to receive a specified return if/when there is a credit event by a third party. Generally, a credit event means bankruptcy, failure to pay, or restructuring. The specific credit events applicable for each credit default swap are stated in the terms of the particular swap agreement. As a purchaser of a credit default swap contract, a Fund pays to the counterparty a periodic interest fee based on the notional amount of the credit default swap.

Upon occurrence of a specific credit event with respect to the underlying referenced entity, the Fund is obligated to deliver that security, or an equivalent amount of cash, to the counterparty in exchange for receipt of the notional amount from the counterparty. The difference between the value of the security delivered and the notional amount received is recorded as a realized gain or loss. Payments received or made at the beginning of the measurement period are recognized as a component of "Credit default swaps premiums paid and/or received" on the Statement of Assets and Liabilities, when applicable. As a purchaser of a credit default swap contract, the Fund pays to the counterparty a periodic interest fee based on the notional amount of the credit default swap. As a seller of a credit default swap contract, the Fund generally receives from the counterparty a periodic interest fee based on the notional amount of the credit default swap. Upon occurrence of a specific credit event with respect to the underlying referenced entity, the Fund will either receive that security, or an equivalent amount of cash, from the counterparty in exchange for payment of the notional amount to the counterparty, or pay a net settlement amount of the credit default swap contract less the recovery value of the referenced

Notes to Financial Statements (continued)

obligation or underlying securities comprising the referenced index. The difference between the value of the security received and the notional amount paid is recorded as a realized loss.

Changes in the value of a credit default swap during the fiscal period are recognized as a component of “Change in net unrealized appreciation (depreciation) of swaps,” and realized gains and losses are recognized as a component of “Net realized gain (loss) from swaps” on the Statement of Operations. Investments in swaps cleared through an exchange obligate a Fund and the clearing broker to settle monies on a daily basis representing changes in the prior days “mark-to-market” of the swap. If a Fund has unrealized appreciation the clearing broker would credit the Fund’s account with an amount equal to the appreciation and conversely if a Fund has unrealized depreciation the clearing broker would debit a Fund’s account with an amount equal to the depreciation. These daily cash settlements are also known as “variation margin.” Variation margin is recognized as a receivable and/or payable for “Variation margin on swap contracts” on the Statement of Assets and Liabilities. The maximum potential amount of future payments the Fund could incur as a seller of protection in a credit default swap contract is limited to the notional amount of the contract. The maximum potential amount would be offset by the recovery value, if any, of the respective referenced entity.

During the current fiscal period, Michigan Quality Income (NUM), Ohio Quality Income (NUO) and Texas Quality Income (NTX) invested in credit default swaps to manage credit risk by purchasing credit protection.

The average notional amount of credit default swap contracts outstanding during the current fiscal period was as follows:

| | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|--|------------------------------------|-------------------------------------|
| Average notional amount of credit default swap contracts outstanding* | \$ 1,580,000 | \$ 1,540,000 | \$ 732,000 |

* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

The following table presents the fair value of all swap contracts held by the Funds as of the end of the reporting period, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure.

| Underlying Risk Exposure | Derivative Instrument | Location | Location on the Statement of Assets and Liabilities | | |
|----------------------------------|--------------------------|--|---|-------------------------|-------|
| | | | Asset Derivatives | (Liability) Derivatives | |
| | | | Value | Location | Value |
| Michigan Quality Income (NUM) | | | | | |
| Credit | Swaps | Unrealized appreciation on credit default swaps** | \$ 187,352 | — | \$ — |
| Ohio Quality Income (NUO) | | | | | |

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND - Form N-CSR

| | | | | | | | |
|----------------------------|-------|---|----|---------|---|----|---|
| Credit | Swaps | Unrealized appreciation on credit default swaps** | \$ | 197,460 | — | \$ | — |
| Texas Quality Income (NTX) | | | | | | | |
| Credit | Swaps | Unrealized appreciation on credit default swaps** | \$ | 94,558 | — | \$ | — |

**Some swap contracts require a counterparty to pay or receive a premium, which is disclosed on the Statement of Assets and Liabilities and is not reflected in the cumulative unrealized appreciation (depreciation) presented above.

76 Nuveen Investments

The following tables present the swap contracts subject to netting agreements, and the collateral delivered related to those swap contracts as of end of the reporting period.

| Fund | Counterparty | Gross Unrealized Appreciation on Credit Default Swaps*** | Gross Unrealized (Depreciation on) Credit Default Swaps*** | Amounts Netted on Statement of Assets and Liabilities | Net Unrealized Appreciation (Depreciation on) Credit Default Swaps | Collateral Pledged to (from) Counterparty | Net Exposure |
|--------------------------------------|---------------|--|--|---|--|---|--------------|
| Michigan Quality Income (NUM) | | | | | | | |
| | Goldman Sachs | \$ 187,352 | \$ — | \$ — | \$ 187,352 | \$(187,352) | — |
| Ohio Quality Income (NUO) | | | | | | | |
| | Goldman Sachs | \$ 197,460 | \$ — | \$ — | \$ 197,460 | \$(197,460) | — |
| Texas Quality Income (NTX) | | | | | | | |
| | Citibank N.A. | \$ 94,558 | \$ — | \$ — | \$ 94,558 | \$(94,558) | — |

***Represents gross unrealized appreciation (depreciation) for the counterparty as reported in the Fund's Portfolio of Investments.

The following table presents the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized on swap contracts on the Statement of Operations during the current fiscal period, and the primary underlying risk exposure.

| Fund | Underlying Risk Exposure | Derivative Instrument | Net Realized Gain (Loss from) Swaps | Change in Net Unrealized Appreciation (Depreciation of) Swaps |
|-------------------------------|--------------------------|-----------------------|-------------------------------------|---|
| Michigan Quality Income (NUM) | Credit | Swaps | \$ (110,570) | \$ 187,352 |
| Ohio Quality Income (NUO) | Credit | Swaps | \$ (102,819) | \$ 197,460 |
| Texas Quality Income (NTX) | Credit | Swaps | \$ (50,337) | \$ 94,558 |

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Notes to Financial Statements (continued)

5. Investment Transactions

Long-term purchases and sales (including maturities but excluding derivative transactions, where applicable) during the current fiscal period were as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|----------------------|---------------------------------------|--|------------------------------------|-------------------------------------|
| Purchases | \$ 34,487,478 | \$ 74,406,401 | \$ 68,770,258 | \$ 27,827,073 |
| Sales and maturities | 32,977,140 | 81,820,058 | 77,713,306 | 32,571,648 |

6. Income Tax Information

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the NAVs of the Funds.

As of February 28, 2015, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives), as determined on a federal income tax basis, were as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---------------------|---------------------------------------|--|------------------------------------|-------------------------------------|
| Cost of investments | \$ 230,132,307 | \$ 441,022,900 | \$ 419,102,266 | \$ 206,369,839 |
| Gross unrealized: | | | | |
| Appreciation | \$ 21,936,698 | \$ 34,999,266 | \$ 38,486,741 | \$ 20,498,758 |
| Depreciation | (2,210,745) | (983,160) | (2,335,168) | (3,603,383) |
| | \$ 19,725,953 | \$ 34,016,106 | \$ 36,151,573 | \$ 16,895,375 |

Net unrealized appreciation (depreciation) of
investments

Permanent differences, primarily due to expiration of capital loss carryforwards, treatment of notional principal contracts, nondeductible reorganization expenses, federal taxes paid, taxable market discount and nondeductible offering costs, resulted in reclassifications among the Funds' components of common share net assets as of February 28, 2015, the Funds' tax year end, as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|---------------------------------------|--|------------------------------------|-------------------------------------|
| Paid-in surplus | \$ (309,943) | \$ (37,134) | \$ 245,591 | \$ (294,053) |
| Undistributed (Over-distribution of) net investment income | (59,630) | (88,379) | (356,317) | 179,243 |
| Accumulated net realized gain (loss) | 369,573 | 125,513 | 110,726 | 114,810 |

80 Nuveen Investments

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND - Form N-CSR

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains as of February 28, 2015, the Funds' tax year end, were as follows:

| | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|---------------------------------------|--|------------------------------------|-------------------------------------|
| Undistributed net tax-exempt income 1 | \$ 1,788,043 | \$ 1,808,860 | \$ 1,019,965 | \$ 484,128 |
| Undistributed net ordinary income 2 | — | 958 | 29,139 | — |
| Undistributed net long-term capital gains | — | — | — | — |

- 1 Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on February 2, 2015, paid on March 2, 2015.
- 2 Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' tax years ended February 28, 2015 and February 28, 2014 was designated for purposes of the dividends paid deduction as follows:

| 2015 | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|---------------------------------------|--|------------------------------------|-------------------------------------|
| Distributions from net tax-exempt income ³ | \$ 9,960,313 | \$ 19,600,465 | \$ 17,430,996 | \$ 8,434,464 |
| Distributions from net ordinary income ² | 3,316 | 4,167 | 50,009 | 10,213 |
| Distributions from net long-term capital gains | — | — | — | — |

| 2014 | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|---|---------------------------------------|--|------------------------------------|-------------------------------------|
| Distributions from net tax-exempt income | \$ 8,799,830 | \$ 20,509,116 | \$ 17,769,971 | \$ 8,638,012 |
| Distributions from net ordinary income ² | 23,128 | 27,103 | 94,586 | 4,011 |
| Distributions from net long-term capital gains | — | — | — | — |

- 2 Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.
- 3 The Funds hereby designated these amounts paid during the fiscal year ended February 28, 2015, as Exempt Interest Dividends.

As of February 28, 2015, the Funds' tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as shown in the following table. The losses not subject to expiration will be utilized first by a Fund.

| Expiration: | Arizona Premium Income (NAZ) | Michigan Quality Income (NUM ⁴) | Ohio Quality Income (NUO ⁴) | Texas Quality Income (NTX) |
|-------------|---------------------------------------|--|--|-------------------------------------|
| | | | | |

| February 28, 2019 | — | — | 1,468,286 | — |
| Not subject to expiration | 3,328,594 | — | — | 1,149,603 |
| Total | \$ 4,817,158 | \$ 1,107,476 | \$ 2,499,322 | \$ 1,149,603 |

- 4 A portion of Michigan Quality Income's (NUM) and Ohio Quality Income's (NUO) capital loss carryforward is subject to an annual limitation under the Internal Revenue Code and related regulations.

During the Funds' tax year ended February 28, 2015, the following Funds utilized capital loss carryforwards as follows:

| | Michigan Quality Income (NUM) | Ohio Quality Income (NUO) | Texas Quality Income (NTX) |
|-------------------------------------|--|------------------------------------|-------------------------------------|
| Utilized capital loss carryforwards | \$ 1,803,496 | \$ 2,684,222 | \$ 76,734 |

As of February 28, 2015, the Funds' tax year end, \$363,937 of Arizona Premium Income's capital loss carryforward expired.

Notes to Financial Statements (continued)

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

Each Fund's management fee consists of two components – a fund-level fee, based only on the amount of assets within each individual Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual Fund-level fee, payable monthly, for each Fund is calculated according to the following schedule:

| Average Daily Managed Assets* | Fund-Level Fee |
|-------------------------------------|----------------|
| For the first \$125 million | 0.4500% |
| For the next \$125 million | 0.4375 |
| For the next \$250 million | 0.4250 |
| For the next \$500 million | 0.4125 |
| For the next \$1 billion | 0.4000 |
| For the next \$3 billion | 0.3875 |
| For managed assets over \$5 billion | 0.3750 |

The annual complex-level fee, payable monthly, for each Fund is calculated according to the following schedule:

| Complex-Level Managed Asset Breakpoint Level* | Effective Rate at Breakpoint Level |
|---|------------------------------------|
| \$55 billion | 0.2000 % |
| \$56 billion | 0.1996 |
| \$57 billion | 0.1989 |
| \$60 billion | 0.1961 |
| \$63 billion | 0.1931 |
| \$66 billion | 0.1900 |
| \$71 billion | 0.1851 |
| \$76 billion | 0.1806 |
| \$80 billion | 0.1773 |
| \$91 billion | 0.1691 |
| \$125 billion | 0.1599 |
| \$200 billion | 0.1505 |
| \$250 billion | 0.1469 |
| \$300 billion | 0.1445 |

* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen funds or assets in

excess of \$2 billion added to the Nuveen fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of February 28, 2015, the complex-level fee rate for each Fund was 0.1635%.

The Funds pay no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board has adopted a deferred compensation plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

8. Subsequent Events

Refinancing of MTP and iMTP Shares

Subsequent to the close of the reporting period, Texas Quality Income (NTX) redeemed its MTP Shares at their \$10.00 liquidation value per share, plus dividend amounts owed, with the proceeds from \$72,000,000 of newly issued 2018 Institutional MuniFund Term Preferred ("iMTP") Shares. On April 10, 2015, Series 2018 iMTP Shares were issued to qualified institutional buyers in a private offering pursuant to Rule 144A of the Securities Act of 1933 and Texas Quality Income's (NTX) MTP Shares were redeemed on April 20, 2015.

Quarterly Form N-Q Portfolio of Investments Information

Each Fund is required to file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. You may obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC toll-free at (800) SEC-0330 for room hours and operation.

Nuveen Funds' Proxy Voting Information

You may obtain (i) information regarding how each fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com and (ii) a description of the policies and procedures that each fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll free at (800) 257-8787. You may also obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov>.

CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual. Each Fund has filed with the SEC the certification of its CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Common Share Repurchases

Each Fund intends to repurchase, through its open-market share repurchase program, shares of its own common stock at such times and in such amounts as is deemed advisable. During the period covered by this report, each Fund repurchased shares of its common stock, as shown in the accompanying table. Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

| | NAZ | NUM | NUO | NTX |

FINRA BrokerCheck

The Financial Industry Regulatory Authority (FINRA) provides information regarding the disciplinary history of FINRA member firms and associated investment professionals. This information as well as an investor brochure describing FINRA BrokerCheck is available to the public by calling the FINRA BrokerCheck Hotline number at (800) 289-9999 or by visiting www.FINRA.org.

Glossary of Terms Used in this Report (Unaudited)

Auction Rate Bond: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have “failed,” with current holders receiving a formula-based interest rate until the next scheduled auction.

Average Annual Total Return: This is a commonly used method to express an investment’s performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment’s actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

Duration: Duration is a measure of the expected period over which a bond’s principal and interest will be paid, and consequently is a measure of the sensitivity of a bond’s or bond fund’s value to changes when market interest rates change. Generally, the longer a bond’s or fund’s duration, the more the price of the bond or fund will change as interest rates change.

Effective Leverage: Effective leverage is a fund’s effective economic leverage, and includes both regulatory leverage (see leverage) and the leverage effects of certain derivative investments in the fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage.

Gross Domestic Product (GDP): The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.

Inverse Floating Rate Securities: Inverse floating rate securities, also known as inverse floaters or tender option bonds (TOBs), are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond’s par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an “inverse floater”) to an investor (such as a fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates’ holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond’s downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond’s value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

Leverage: Leverage is created whenever a fund has investment exposure (both reward and/or risk) equivalent to more than 100% of the investment capital.

Lipper Other States Municipal Debt Funds Classification Average: Calculated using the returns of all closed-end funds in this category. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges.

Net Asset Value (NAV) Per Share: A fund’s Net Assets is equal to its total assets (securities, cash, accrued earnings and receivables) less its total liabilities. NAV per share is equal to the fund’s Net Assets divided by its number of shares outstanding.

Pre-Refunding: Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.

84 Nuveen Investments

Regulatory Leverage: Regulatory leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set in the Investment Company Act of 1940.

S&P Municipal Bond Indexes Arizona, Michigan, Ohio and Texas: Unleveraged, market value-weighted indexes designed to measure the performance of the tax-exempt, investment-grade municipal bond markets in Arizona, Michigan, Ohio and Texas, respectively. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

Total Investment Exposure: Total investment exposure is a fund's assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes a fund's use of preferred stock and borrowings and investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities.

Zero Coupon Bond: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Reinvest Automatically, Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares. By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested. It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan. The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

86 Nuveen Investments

Board Members & Officers

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board of Trustees of the Funds. The number of trustees of the Funds is currently set at eleven. None of the trustees who are not “interested” persons of the Funds (referred to herein as “independent trustees”) has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the trustees and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

| Name, Year of Birth & Address | Position(s) Held with the Funds | Year First Elected or Appointed and Term(1) | Principal Occupation(s) Including other Directorships During Past 5 Years | Number of Portfolios in Fund Complex Overseen by Board Member |

- (1) The Board of Trustees is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the next annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. The year first elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) "Interested person" as defined in the 1940 Act, by reason of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Officers serve one year terms through August of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Nuveen Investments:
Serving Investors for Generations

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions through continued adherence to proven, long-term investing principles. ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx. (To view the code, click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees ("Board") determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial experts are Carole E. Stone and Jack B. Evans, who are "independent" for purposes of Item 3 of Form N-CSR.

Ms. Stone served for five years as Director of the New York State Division of the Budget. As part of her role as Director, Ms. Stone was actively involved in overseeing the development of the State's operating, local assistance and capital budgets, its financial plan and related documents; overseeing the development of the State's bond-related disclosure documents and certifying that they fairly presented the State's financial position; reviewing audits of various State and local agencies and programs; and coordinating the State's system of internal audit and control. Prior to serving as Director, Ms. Stone worked as a budget analyst/examiner with increasing levels of responsibility over a 30 year period, including approximately five years as Deputy Budget Director. Ms. Stone has also served as Chair of the New York State Racing Association Oversight Board, as Chair of the Public Authorities Control Board, as a Commissioner on the New York State Commission on Public Authority Reform and as a member of the Boards of Directors of several New York State public authorities. These positions have involved overseeing operations and finances of certain entities and assessing the adequacy of project/entity financing and financial reporting. Currently, Ms. Stone is on the Board of Directors of CBOE Holdings, Inc., of the Chicago Board Options Exchange, and of C2 Options Exchange. Ms. Stone's position on the boards of these entities and as a member of both CBOE Holdings' Audit Committee and its Finance Committee has involved, among other things, the oversight of audits, audit plans and preparation of financial statements.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Michigan Quality Income Municipal Fund

The following tables show the amount of fees billed to the Fund during the Fund's last two fiscal years by KPMG LLP, the Fund's current auditor (engaged on August 7, 2014), and Ernst & Young LLP, the Fund's former auditor. The audit fees billed to the Fund for the fiscal year 2015 are the only fees that have been billed to the Fund by KPMG LLP. All other fees listed in the tables below were billed to the Fund by Ernst & Young LLP. For engagements with KPMG LLP and Ernst & Young LLP, the Audit Committee approved in advance all audit services and non-audit services that

KPMG LLP and Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

| Fiscal Year Ended | Audit Fees | Audit-Related | | Tax Fees | All Other |
|--|------------|---------------|-----------|-----------|-----------|
| | Billed | Fees | Fees | Fees | Fees |
| | to Fund 1 | Billed to | Billed to | Billed to | Billed to |
| | | Fund 2 | Fund 3 | Fund 4 | |
| February 28, 2015 | \$25,500 | \$ 0 | \$0 | \$0 | \$0 |
| Percentage approved pursuant to pre-approval exception | 0 | % 0 | % 0 | % 0 | % 0 |
| February 28, 2014 | \$24,750 | \$ 6,500 | \$673 | \$0 | \$0 |
| Percentage approved pursuant to pre-approval exception | 0 | % 0 | % 0 | % 0 | % 0 |

1 "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

2 "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements that are not reported under "Audit Fees". These fees include offerings related to the Fund's common shares and leverage.

3 "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning. These fees include: all global withholding tax services; excise and state tax reviews; capital gain, tax equalization and taxable basis calculation performed by the principal accountant.

4 "All Other Fees" are the aggregate fees billed for products and services other than "Audit Fees", "Audit-Related Fees" and "Tax Fees". These fees represent all "Agreed-Upon Procedures" engagements pertaining to the Fund's use of leverage.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by KPMG LLP and Ernst & Young LLP to Nuveen Fund Advisors, LLC (formerly Nuveen Fund Advisors, Inc.) (the "Adviser"), and any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to KPMG LLP and Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

| Fiscal Year Ended | Audit-Related Fees Billed to Adviser and Affiliated Fund Service Providers | Tax Fees Billed to Adviser and Affiliated Fund Service Providers | All Other Fees Billed to Adviser and Affiliated Fund Service Providers | |
|--|--|--|--|----|
| February 28, 2015 | \$ | 0 \$ | 0 \$ | 0 |
| Percentage approved pursuant to pre-approval exception | | 0% | 0% | 0% |
| February 28, 2014 | \$ | 0 \$ | 0 \$ | 0 |
| Percentage approved pursuant to pre-approval exception | | 0% | 0% | 0% |

NON-AUDIT SERVICES

The following table shows the amount of fees that KPMG LLP and Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that KPMG LLP and Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from KPMG LLP and Ernst & Young LLP about any non-audit services that KPMG LLP and Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating KPMG LLP and Ernst & Young LLP's independence.

| Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the | Total Non-Audit Fees billed to Adviser and Affiliated Fund Service |
|---|--|
|---|--|

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND - Form N-CSR

| Fiscal Year Ended | Total Non-Audit Fees Billed to Fund | operations and financial reporting of the Fund | Providers (all other engagements) | Total | |
|-------------------|-------------------------------------|--|-----------------------------------|-------|-----|
| February 28, 2015 | \$ | 0 \$ | 0 \$ | 0 \$ | 0 |
| February 28, 2014 | \$ | 673 \$ | 0 \$ | 0 \$ | 673 |

"Non-Audit Fees billed to Fund" for both fiscal year ends represent "Tax Fees" and "All Other Fees" billed to Fund in their respective amounts from the previous table.

Less than 50 percent of the hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year were attributed to work performed by persons other than the principal accountant's full-time, permanent employees.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Jack B. Evans, David J. Kundert, John K. Nelson, Carole E. Stone and Terence J. Toth.

ITEM 6. SCHEDULE OF INVESTMENTS.

a) See Portfolio of Investments in Item 1.

b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, LLC, formerly known as Nuveen Fund Advisors, Inc., is the registrant's investment adviser (also referred to as the "Adviser"). The Adviser is responsible for the on-going monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC ("Sub-Adviser") as Sub-Adviser to provide discretionary investment advisory services. As part of these services, the Adviser has delegated to the Sub-Adviser the full responsibility for proxy voting on securities held in the registrant's portfolio and related duties in accordance with the Sub-Adviser's policies and procedures. The Adviser periodically monitors the Sub-Adviser's voting to ensure that it is carrying out its duties. The Sub-Adviser's proxy voting policies and procedures are attached to this filing as an exhibit and incorporated herein by reference.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, LLC is the registrant's investment adviser (also referred to as the "Adviser"). The Adviser is responsible for the selection and on-going monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC ("Nuveen Asset Management" or "Sub-Adviser") as Sub-Adviser to provide discretionary investment advisory services. The following section provides information on the portfolio manager at the Sub-Adviser:

The Portfolio Manager

The following individual has primary responsibility for the day-to-day implementation of the registrant's investment strategies:

| Name | Fund |
|-----------------|--|
| Daniel J. Close | Nuveen Michigan Quality Income Municipal Fund. |

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

| | Type of Account | Number of Accounts | Assets* |
|-------------------|----------------------------------|--------------------|----------------|
| Portfolio Manager | Managed | | |
| Daniel J. Close | Registered Investment Company | 17 | \$5.20 billion |
| | Other Pooled Investment Vehicles | 0 | \$0 |
| | Other Accounts | 12 | \$211 million |

* Assets are as of February 28, 2015. None of the assets in these accounts are subject to an advisory fee based on performance.

POTENTIAL MATERIAL CONFLICTS OF INTEREST

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one account. More specifically, portfolio managers who manage multiple accounts are presented a number of potential conflicts, including, among others, those discussed below.

The management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of each account. Nuveen Asset Management seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most accounts managed by a portfolio manager in a particular investment strategy are managed using the same investment models.

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one account, an account may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible accounts. To deal with these situations, Nuveen Asset Management has adopted procedures for allocating limited opportunities across multiple accounts.

With respect to many of its clients' accounts, Nuveen Asset Management determines which broker to use to execute transaction orders, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts, Nuveen Asset Management may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, Nuveen Asset Management may place separate, non-simultaneous, transactions for a Fund and other accounts which may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or the other accounts.

Some clients are subject to different regulations. As a consequence of this difference in regulatory requirements, some clients may not be permitted to engage in all the investment techniques or transactions or to engage in these transactions to the same extent as the other accounts managed by the portfolio manager. Finally, the appearance of a conflict of interest may arise where Nuveen Asset Management has an incentive, such as a performance-based management fee, which relates to the management of some accounts, with respect to which a portfolio manager has day-to-day management responsibilities.

Nuveen Asset Management has adopted certain compliance procedures which are designed to address these types of conflicts common among investment managers. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

Item 8(a)(3). FUND MANAGER COMPENSATION

Portfolio manager compensation consists primarily of base pay, an annual cash bonus and long term incentive payments.

Base pay. Base pay is determined based upon an analysis of the portfolio manager's general performance, experience, and market levels of base pay for such position.

Annual cash bonus. The Fund's portfolio managers are eligible for an annual cash bonus based on investment performance, qualitative evaluation and financial performance of Nuveen Asset Management.

A portion of each portfolio manager's annual cash bonus is based on the Fund's investment performance, generally measured over the past one- and three or five-year periods unless the portfolio manager's tenure is shorter. Investment performance for the Fund generally is determined by evaluating the Fund's performance relative to its benchmark(s) and/or Lipper industry peer group.

A portion of the cash bonus is based on a qualitative evaluation made by each portfolio manager's supervisor taking into consideration a number of factors, including the portfolio manager's team collaboration, expense management, support of personnel responsible for asset growth, and his or her compliance with Nuveen Asset Management's policies and procedures.

The final factor influencing a portfolio manager's cash bonus is the financial performance of Nuveen Asset Management based on its operating earnings.

Long-term incentive compensation. Certain key employees of Nuveen Investments and its affiliates, including certain portfolio managers, have received equity interests in the parent company of Nuveen Investments. In addition, certain key employees of Nuveen Asset Management, including certain portfolio managers, have received profits interests in Nuveen Asset Management which entitle their holders to participate in the firm's growth over time.

There are generally no differences between the methods used to determine compensation with respect to the Fund and the Other Accounts shown in the table above.

Beneficial Ownership of Securities. As of February 28, 2015 the portfolio manager beneficially owned the following dollar range of equity securities issued by the Registrant and other Nuveen Funds managed by Nuveen Asset Management's municipal investment team.

| Name of Portfolio Manager | Fund | Dollar range of equity securities beneficially owned in Fund | Dollar range of equity securities |
|---------------------------------|------|--|--------------------------------------|
|---------------------------------|------|--|--------------------------------------|

| | | | |
|-----------------|---|-----|--|
| | | | beneficially owned in the remainder of Nuveen funds managed by Nuveen Asset Management's municipal investment team |
| Daniel J. Close | Nuveen Michigan Quality Income Municipal Fund | \$0 | \$0 |

PORTFOLIO MANAGER BIO:

Daniel J. Close, CFA, is a Senior Vice President of Nuveen Investments. He joined Nuveen Investments in 2000 as a member of Nuveen's product management and development team. He then served as a research analyst for Nuveen's municipal investing team, covering corporate-backed, energy, transportation and utility credits. He received his BS in Business from Miami University and his MBA from Northwestern University's Kellogg School of Management. Mr. Close has earned the Chartered Financial Analyst designation. Mr. Close also serves as a portfolio manager for various Nuveen Build America Bond strategies.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx and there were no amendments during the period covered by this report. (To view the code, click on Code of Conduct.)

- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below:
Ex-99.CERT Attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed “filed” for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.
Ex-99.906 CERT attached hereto.
