Voting

How You Can Vote

You may attend the Annual Meeting and vote your shares in person. You may submit your proxies by completing the enclosed proxy card, dating and signing it, and returning it in the postage-paid envelope provided. If you sign your proxy card and return it without marking any voting instructions, your shares will be voted FOR the election of all director nominees and FOR ratification of the appointment of KPMG as the independent registered public accounting firm of the Company and its subsidiaries for 2005. If any other matter should be presented at the Annual Meeting for action by the stockholders, the persons named in the proxy card will vote the proxy in accordance with their best judgment on such matter.

If you are a stockholder whose shares are held in street name (*i.e.*, in the name of a broker, bank or other record holder) you must either direct the record holder of your shares how to vote your shares or obtain a proxy, executed in your favor, from the record holder to be able to vote at the Annual Meeting.

How You May Revoke or Change Your Vote

You may revoke your proxy at any time before it is voted at the Annual Meeting by any of the following methods:

Submitting a later-dated proxy by mail to the Secretary of the Company. You must send any written notice of a revocation of a proxy so as to be delivered before the taking of the vote at the Annual Meeting to:

Animas Corporation
200 Lawrence Drive
West Chester, Pennsylvania 19380
Attention: Richard A. Baron, Secretary

Attending the Annual Meeting and voting in person. Your attendance at the Annual Meeting will not in and of itself revoke your proxy. You must also vote your shares at the Annual Meeting. If your shares are held in the name of a bank, broker or other record holder, you must obtain a proxy, executed in your favor, from the record holder to be able to vote at the Annual Meeting.

Record Date, Quorum and Vote Required

The record date for the determination of stockholders entitled to notice of and to vote at the Annual Meeting is the close of business on March 21, 2005. The presence, in person or by proxy, of holders of the Company's common stock, par value \$.01 per share (Common Stock) representing a majority of all votes entitled to be cast at the Annual Meeting will constitute a quorum for the transaction of business at the Annual Meeting. All valid proxies returned will be included in the determination of whether a quorum is present at the Annual Meeting. Unless a quorum is present at the Annual Meeting, no action may be taken at the Annual Meeting except the adjournment thereof to a later time. As of the record date, 20,543,038 shares of Common Stock were issued and outstanding. Each share of Common Stock is entitled to one vote on each matter to be voted on at the Annual Meeting. Stockholders have no cumulative voting rights.

Subject to the presence of a quorum, election of a director nominated for election at the Annual Meeting requires a plurality of all votes cast on the matter. Shares represented by Proxies marked For will be counted in favor of all nominees, except to the extent the Proxy withholds authority to vote for, or indicates a vote against, a specified nominee. Shares represented by Proxies marked Abstain or withholding authority to vote will not be counted in favor of any nominee. Because directors elected by stockholders are elected by a plurality vote, abstentions will not affect the election of the candidates receiving the most votes. IN THE ABSENCE OF SPECIFIC DIRECTION, SHARES REPRESENTED BY A PROXY WILL BE VOTED FOR THE ELECTION OF ALL NOMINEES.

Subject to the presence of a quorum, ratification of the appointment of KPMG as the Company's independent registered public accounting firm for fiscal year ending December 31, 2005 requires the affirmative vote of a majority of all votes cast on the matter. For purposes of the vote on the proposal, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the result of the vote. **IN THE ABSENCE OF SPECIFIC DIRECTION, SHARES REPRESENTED BY PROXY WILL BE VOTED FOR THE RATIFICATION.**

**ELECTION OF DIRECTORS

Employment Agreements

The Company entered into an amended employment agreement with Katherine D. Crothall, who serves as President and Chief Executive Officer. The initial term of the agreement expired on January 1, 2005 but was subject to annual one year renewals in the event that neither party notified the other party in writing of its intention not to renew no later than September 30 of the preceding year. The current expiration date is January 1, 2006 but neither party has notified the other of its intention not to further extend the expiration date. Ms. Crothall receives an annual base salary of \$285,000, subject to increases upon an annual review by the Board of Directors. Ms. Crothall is permitted to participate in any short-term or long-term incentive compensation programs that the Company may establish for its senior level officers generally. Any payment under a short-term or long-term program will be based on Ms. Crothall's performance and the Company's business results as determined by the Board of Directors. Ms. Crothall also receives certain additional benefits (beyond those generally available to the Company's employees) including an automobile allowance and additional life insurance. Either Ms. Crothall or the Company may terminate her employment at any

time, subject to certain severance payments and other benefits depending on the reason for such termination. If the Company terminates Ms. Crothall's employment for cause or she voluntarily terminates her employment without good reason, Ms. Crothall will receive only those benefits required to be provided to Ms. Crothall by the terms of any of the Company's applicable benefit plans. If, however, the Company terminates Ms. Crothall's employment without cause or as a result of her disability, or she terminates her employment with good reason and Ms. Crothall executes a release of claims that she may have against the Company, the Company will continue to pay to Ms. Crothall her then-current base salary and benefits for the 18-month period following her date of termination (less any amounts paid to Ms. Crothall under the Company's long-term disability program), a pro-rated bonus for the fiscal year of her termination of employment, and certain other benefits required by the terms of any of the Company's applicable benefit plans. If Ms. Crothall's employment terminates as a result of her death, the Company will pay to her estate or named beneficiaries an amount equal to one month of her then-current base salary, the proceeds of any life insurance policy maintained by the Company covering her life, and certain other benefits required by the terms of any of the Company's applicable benefit plans as if she had been terminated by the Company without cause. If Ms. Crothall's employment is terminated or not renewed at the end of the current term of the agreement and Ms. Crothall executes a release of claims that she may have against the Company, the Company will continue to pay to Ms. Crothall her then-current base salary and benefits for the 12-month period following her date of termination, a pro-rated bonus for the fiscal year of her termination of employment, and certain other benefits required by the terms of any of the Company's applicable benefit plans. If it would be economically advantageous to her for certain tax purposes, certain severance payments to Ms. Crothall may be reduced following a change of control. In addition, in the event that the Company terminates Ms. Crothall's employment without cause, Ms. Crothall terminates her employment for good reason, or her employment terminates six months before or 12 months after the date of a change of control, all of her then-unvested stock options, restricted stock, or other stock awards will immediately and fully vest. Further, on the date of a change of control, Ms. Crothall will receive accelerated vesting on 24 months of her then-unvested stock options, restricted stock, or other stock awards. Ms. Crothall's employment agreement also contains non-competition provisions prohibiting her from competing against the Company during the term of her employment agreement and for two years thereafter without the Company's prior written consent.

Mr. Baron is permitted to participate in any short-term or long-term incentive compensation programs that the Company may establish for its senior level officers generally. Any payment under a short-term or long-term program will be based on Mr. Baron's performance and the Company's business results as determined by the Board of Directors. Either Mr. Baron or the Company may terminate his employment at any time, subject to certain severance payments and other benefits depending on the reason for such termination. If the Company terminates Mr. Baron's employment for cause or he voluntarily terminates his employment for any reason, Mr. Baron will receive only those benefits required to be provided to Mr. Baron by the terms of any of the Company's applicable benefit plans. If the Company terminates Mr. Baron's employment without cause and he executes a release of claims that he may have against the Company, the Company will continue to pay to Mr. Baron his then-current base salary and benefits for the 12-month period following his date of termination and certain other benefits required by the terms of any of the Company's applicable benefit plans. In addition, in the event that the Company terminates Mr. Baron's employment without cause, 12 months of his then-unvested stock options, restricted stock, or other awards will immediately and fully vest. Mr. Baron's employment agreement also contains non-competition provisions prohibiting Mr. Baron from competing against the Company during the term of the employment agreement and for two years thereafter without the Company's prior written consent.

Change of Control Agreements

The Company entered into agreements with each of the Named Executive Officers (other than Ms. Crothall) that contain provisions that will be triggered in the event of a change of control. Upon a change of control, such individuals will receive accelerated vesting on 24 months of their then-unvested stock options. In the event that such individual's employment is terminated for certain reasons during the period commencing 30 days before or one year after the date of a change of control, such individual is entitled to receive a lump sum payment equal to one year of his or her then-current base salary. In addition, in the event that such individual has remained employed from the consummation of a change of control through the one-year anniversary of such change of control, such individual is entitled to receive a lump sum payment equal to one year of his or her then-current base salary. These agreements terminate if a change of control does not occur on or before December 31, 2006.

401(k) Plan

The Company maintains a Retirement Savings Plan (401(k) Plan) for the benefit of its eligible employees. The 401(k) Plan is intended to be qualified under section 401(a) of the Internal Revenue Code and consists of a 401(k) component, a discretionary 401(m) matching component and a discretionary profit-sharing component. Employees eligible to participate in the 401(k) Plan are those employees who have completed at least 30 days of service and attained the age of 18. Under the 401(k) component, participants may elect to defer between 1% and 90% of their eligible compensation each year up to the maximum permitted by the Internal Revenue Code. Under the 401(m) matching component, the Company may match each participant's elective deferrals in amounts to be determined by the Company in its sole discretion. Under the profit-sharing component, the Company may make additional contributions in amounts to be determined by the Company in its sole discretion. Any profit-sharing contributions are allocated to an eligible participant based on the ratio of his or her annual compensation to the aggregate annual compensation of all eligible participants. Matching contributions and profit-sharing contributions vest ratably over six years, or earlier upon the participant's attainment of the appropriate retirement age, retirement for disability, or death, or upon termination of the Company's 401(k) Plan. All assets of the Company's 401(k) Plan are currently invested, subject to participant-directed elections, in a variety of mutual funds chosen from time to time by the Company. Payments of 401(k) Plan benefits are made in cash in the form of a single lump sum. Distribution of a participant's vested interest

generally occurs upon termination of employment (including by reason of retirement, death or disability).

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The following report of the Compensation Committee shall not be deemed incorporated by reference into any of the Company's filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates it by reference therein.

The Compensation Committee of the Board of Directors has furnished the following report on executive compensation:

General

The Compensation Committee of the Board of Directors consists of Thomas Morse, David Joseph, and A. Peter Parsons. Under the supervision of the Compensation Committee, the Company has developed and implemented compensation policies, plans and programs which seek to enhance the profitability of the Company, and thus stockholder value, by aligning the financial interests of the Company's senior management with those of its stockholders. Annual base salary and longer term incentive compensation provide an important incentive in attracting and retaining corporate officers and other key employees and motivating them to perform to the full extent of their abilities in the best long-term interests of the stockholders.

The Company's executive compensation program consists of two key elements: (1) an annual component, i.e., base salary and annual bonus and (2) a long-term component, i.e., stock options. Executive compensation levels are determined in connection with a review of compensation levels at comparable publicly held companies. The Compensation Committee has determined that a compensation package that contains long-term stock based incentives is appropriate for the Company's goals of sustainable growth and enhanced stockholder value.

Based on this philosophy, a meaningful portion of the senior executives' annual bonus and stock options is designed to be linked to the Company's achievement of targeted earnings before income taxes, depreciation and amortization (EBITDA). Under this pay-for-performance orientation:

executives are motivated to improve the overall performance and profitability of the Company; and

accountability is further encouraged through the adjustment of salaries and incentive awards on the basis of each executive's individual performance, potential and contribution.

The policies with respect to each element of the compensation package, as well as the basis for determining the compensation of the President and Chief Executive Officer, are described below.

Annual Component: Base Salary and Annual Bonus

Base Salary: includes compensation for discharging job responsibilities and reflects the executive officer's performance over time. Peer salaries for comparable positions are used as reference points in setting salary opportunities for executive officers. The Company's overall goal is to provide competitive salaries paid by the peer group assuming comparability of such factors as position, responsibilities, and tenure.

Individual salary adjustments take into account the Company's salary increase guidelines for the year and individual performance contributions for the year, as well as sustained performance contributions over a number of years and significant changes in responsibilities, if any. The assessment of individual performance contributions is subjective and does not reflect the Company's performance.

Annual Bonus: based on the Company's performance and management's performance against specified goals established by senior management and the Compensation Committee.

The annual bonus for the President and Chief Executive Officer is based upon the Company's achievement of targeted EBITDA. Notwithstanding the foregoing, the Compensation Committee has the discretion to increase the annual bonus in any given year to take into account what it deems to be extraordinary events.

Table of Contents

Long-Term Component: Stock Options

To align stockholder and executive officer interests, the long-term component of the Company's executive compensation program includes the granting of stock options whose value is related to the appreciation in the market price of the underlying Common Stock. Stock options are granted to reinforce the importance of improving stockholder value over the long-term, and to encourage and facilitate the executive's stock ownership. Under the Company's Stock Option Plan, options to purchase Common Stock are available for grant to officers and other employees and consultants of the Company. Stock options are granted at 100% of the fair market value of the Common Stock on the date of the grant to ensure that the executives can only be rewarded for appreciation in the price of the Common Stock when the Company's stockholders are similarly benefited. Stock options are exercisable up to ten years from the date granted. The stock options generally vest over a three year period, although some stock options vest immediately. While all executives are eligible to receive stock options, participation in each annual grant, as well as the size of the grant each participating executive receives, is based upon Company and individual performance. Notwithstanding the foregoing, the Compensation Committee has the discretion to increase the annual grant of options in any given year to take into account what it deems to be extraordinary events. Certain options for the Company's President and Chief Executive Officer are governed by the term of her employment agreement. The entitlement of the President and Chief Executive Officer to options for services rendered is based upon the Company's EBITDA performance.

President and Chief Executive Officer Compensation

The President and Chief Executive Officer's compensation package, as set forth in her employment agreement, consists of two elements: (1) an annual component consisting of base salary and cash bonus and (2) a long-term component consisting of stock options. In fiscal 2004, the annual base salary for the Company's President and Chief Executive Officer was \$285,000. The fiscal 2005 salary for the President and Chief Executive Officer is \$320,000. The fiscal 2004 and 2005 base salaries are commensurate with the salaries of other senior management of publicly-held companies of comparable size and industry. In fiscal 2004, the President and Chief Executive Officer received a cash bonus of 50% of base salary.

**ARTICLE III
RELATIONSHIP WITH INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Company's independent registered public accounting firm shall be accountable to the Committee, and the Committee shall have ultimate authority to select, evaluate and replace the Company's independent registered public accounting firm. The Committee will ascertain that the independent registered public accounting firm will be available to the full Board at least annually (and more frequently if deemed appropriate by the Committee) to provide the Board with a timely analysis of significant financial reporting issues. The Committee will not engage the independent registered public accounting firm to perform any services set forth on Section 10(A)(g) of the Exchange Act.

**ARTICLE IV
MEETINGS**

The Committee shall meet at such times and from time to time as it deems to be appropriate, but not less than quarterly. Meetings of the Committee may be held upon the call of any Committee member by mailing a written notice stating the day, hour and geographic location, if any, of such meeting, to each Committee member at his or her last known post office address, by causing the same to be delivered personally or by transmitting such notice by telegram, overnight courier service, telephone or e-mail, to each Committee member, in any case, at least two days before the meeting. Notice may be waived in writing before or after the time of such meeting, and attendance of a Committee member at a meeting shall constitute a waiver of notice thereof. Neither the business to be transacted at, nor the purpose of, any meeting need be specified in the notice of such meeting. Members of the Committee may attend a meeting by telephone conference.

The Committee may request any officer or employee of the Company or the Company's outside counsel or independent registered public accounting firm to attend a meeting of the Committee or to meet with any members of, or consultants to, the Committee. Minutes of each meeting of the Committee shall be reduced to writing. Except as otherwise provided by statute or this Charter, a majority of the incumbent members of the Committee shall be required to constitute a quorum for the transaction of business at any meeting, and the act of a majority of the Committee members present and voting at any meeting at which a quorum is present shall be the act of the Committee. The Committee shall report to the Board at the first Board meeting following each such Committee meeting. The Committee may also act by unanimous written consent without a meeting. As part of its job to foster open communication, the Committee should meet, whenever deemed appropriate by the Committee, with management and the independent registered public accounting firm in separate sessions to discuss any matters that the Committee or each of these groups believe should be discussed privately. In addition, the Committee should meet with the independent registered public accounting firm and management quarterly to review the Company's consolidated financial statements and related materials as described below.

**ARTICLE V
RESPONSIBILITIES**

The following functions are the common recurring activities of the Committee in carrying out its oversight role. These functions are set forth as a guide with the understanding that the Committee may diverge from this guide as appropriate given the circumstances.

1. Review and reassess the adequacy of this Committee and its Charter not less than annually and recommend any proposed changes to the Board for consideration and approval.
2. Hold such regular meetings as may be necessary and such special meetings as may be called by the Chairman of the Committee or at the request of the independent registered public accounting firm or management.

3. Review with management and the independent registered public accounting firm the audited consolidated financial statements and related footnotes, and the clarity of the disclosures in the consolidated financial statements, to be included in the Company's Annual Report on Form 10-K (or the Annual Report to Stockholders if distributed prior to the filing of Form 10-K) prior to the filing of the Form 10-K (and, to the extent practicable, prior to the annual earnings release), including a review of major issues regarding accounting and auditing principles and practices and any related party transactions as well as the adequacy of internal controls that could significantly affect the Company's consolidated financial statements, and review and consider with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards (SAS) 61.
4. Review with management and the independent registered public accounting firm their judgments about the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity and transparency of the disclosures in the consolidated financial statements.
5. Prepare the report required by the rules of the Securities and Exchange Commission regarding the Committee, to be included in the Company's annual proxy statement. The Committee will include a statement within such report on whether the Committee has recommended that the consolidated financial statements be included in the Form 10-K. The Committee should also ensure that a copy of the Committee's Charter is included within the Company's proxy statement at least once every three years.

6. Discuss with the independent registered public accounting firm and management whether the Company's quarterly financial statement as well as significant events, transactions and changes in accounting estimates were considered by the independent registered public accounting firm (after performing their required quarterly review) to have affected the quality of the Company's financial reporting. Such review will occur prior to the Company's filing of the Form 10-Q and, to the extent practicable, prior to the quarterly earnings release.
7. Review the Company's disclosures contained in Management's Discussion and Analysis of Financial Condition and Results of Operations, in the Company's Annual Report on Form 10-K, Quarterly Report on Form 10-Q or other pertinent form, as applicable.
8. Review the Company's earnings press releases, including the use of pro-forma or adjusted non-GAAP information (subject to compliance with law and applicable Commission rules, including Regulation G), as well as other publicly disclosed financial information and earnings guidance, and discuss any of the foregoing with management to the extent desired by any member of the Committee. Such discussion may be general in nature (consisting of discussing the types of information to be disclosed and the types of presentations to be made).
9. Meet periodically with management and the independent registered public accounting firm to review the Company's major financial risk exposures and the steps taken to monitor and control such exposures.
10. Discuss with management and the independent registered public accounting firm the effect of regulatory and accounting initiatives, including pronouncements by the Financial Accounting Standards Board, the Securities and Exchange Commission and other agencies or bodies, on the Company's consolidated financial statements.
11. Review disclosures made to the Committee by the Company's Chief Executive Officer and Chief Financial Officer, or the Company's disclosure committee or any member thereof, during their certification process for the Form 10-K or Form 10-Q, as appropriate, about any significant deficiencies in the design or operation of internal controls or material weaknesses therein and any fraud involving management or other employees who have a significant role in the Company's internal controls.
12. Review any relevant financial reports or other financial information submitted to any governmental body, or the public, including any certification, report, opinion, or review rendered by the independent registered public accounting firm.
13. Review and discuss quarterly reports from the independent registered public accounting firm regarding:
 - a. all critical accounting policies and practices to be used;
 - b. all alternative disclosures and treatments of financial information within generally accepted accounting principles that have been discussed with management, ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the independent registered public accounting firm; and
 - c. other material written communications between the independent registered public accounting firm and management, such as any management letter or schedule of unadjusted differences.
14. Obtain from the independent registered public accounting firm their recommendation regarding internal controls and other matters relating to the accounting procedures and the books and records of the Company

and the correction of controls deemed to be deficient. After the completion of the audit, the Committee shall review with the independent registered public accounting firm any problems or difficulties the independent registered public accounting firm may have encountered.

15. Receive a formal written statement from the independent registered public accounting firm regarding relationships between the independent registered public accounting firm and the Company, consistent with Independence Standards Board Standard Number 1. The Committee shall also discuss with the independent registered public accounting firm any such disclosed relationships and their impact on the independent registered public accounting firm's objectivity and independence. The Committee shall take appropriate action to ensure the continuing objectivity and independence of the independent registered public accounting firm.
16. The Committee shall have the sole authority to appoint or replace the independent registered public accounting firm (subject, if applicable, to stockholder ratification). The Committee shall be directly responsible for the compensation and oversight of the work of the independent registered public accounting firm (including resolution of disagreements between management and the independent registered public accounting firm regarding financial reporting) for the purpose of preparing or issuing an audit report or related work. The independent registered public accounting firm shall report directly to the Committee.
17. The Committee shall pre-approve all auditing services and permitted non-audit services (including the fees for such services and terms thereof) to be performed for the Company by its independent registered public accounting firm in one of two methods. Under the first method, the engagement to render the services would be entered into pursuant to pre-approval policies and procedures established by the Committee, provided (i) the policies and procedures are detailed as to the services to be performed, (ii) the Committee is informed of each service, and (iii) such policies and procedures do not include delegation of the Committee's responsibilities under the Securities Exchange Act of 1934 to the Company's management. Under the second method, the engagement to render the services would be presented to and pre-approved by the Committee (subject to the de minimus exceptions for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act that are approved by the Committee prior to the completion of the audit). The Chairman of the Committee will have the authority to grant pre-approvals of audit and permissible non-audit services by the independent registered public accounting firm, provided that all pre-

Table of Contents

approvals by the Chairman must be presented to the full Committee at its next scheduled meeting. The Company will provide for appropriate funding as determined by the Committee, for payment of compensation to the independent registered public accounting firm and to any consultants, experts or advisors engaged by the Committee.

18. Adopt procedures for the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters.
19. Ensure the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law. Consider whether, in order to assure the continuing independence of the Company's independent registered public accounting firm, it is appropriate to adopt a policy of rotating the independent registered public accounting firm itself on a regular basis.
20. Recommend to the Board policies for the Company's hiring of employees or former employees of the independent registered public accounting firm who participated in any capacity in the audit of the Company.
21. Review with the Company's counsel legal matters that may have a material impact on the consolidated financial statements, the Company's compliance policies and any material reports or inquiries received from regulators or governmental agencies.
22. Periodically review, and make any appropriate recommendations to the Board concerning updates or changes to, the Company's Code of Business Conduct and Ethics, and ensure that management has established a system to enforce this Code. Review the procedures established by the Company that monitor the compliance by the Company with the Code by directors, officers and employees, and compliance with its loan and indenture covenants and restrictions.
23. Review and approve any transactions between the Company and related parties.
24. Conduct or authorize investigation into any matters within the Committee's scope of responsibilities with full access to all books, records, facilities and personnel of the company and direct access to the independent registered public accounting firm. The Committee has the ability to retain, at the Committee's request, special legal, accounting or other consultants, experts or advisors it deems necessary in the performance of its duties.
25. Consider such other matters in relation to the financial affairs of the Company and its accounts, and in relation to the audit of the Company, as the Committee may, in its discretion, determine to be advisable.

While the Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's consolidated financial statements are complete and accurate and are in accordance with the generally accepted accounting principles. This is the responsibility of management and the independent registered public accounting firm.

The Committee recognizes that the Company's management is responsible for preparing the Company's consolidated financial statements, and the independent registered public accounting firm is responsible for auditing or reviewing those consolidated financial statements in compliance with applicable law. The Committee also recognizes that management of the Company and the independent registered public accounting firm have more time, knowledge and more detailed information on the Company than do Committee members. Consequently, in carrying out its oversight responsibility, the Committee will not provide any special assurances as to the Company's consolidated financial statements or any professional certification as to the independent registered public accounting firm's work. In addition, it is not the duty of the Committee to conduct investigations, to resolve disagreements, if any, between

management and the independent registered public accounting firm, or to assure compliance with laws and regulations.
