UNIVERSAL STAINLESS REPORTS STRONG 2005 THIRD QUARTER RESULTS
QUARTERLY EARNINGS PER SHARE REACH \$0.51 ON SALES OF \$43 MILLION
FULL YEAR SALES TO REACH NEW COMPANY RECORD

BRIDGEVILLE, PA, October 20, 2005 -- Universal Stainless & Alloy Products, Inc. (Nasdaq: USAP) reported today that sales for the third quarter of 2005 rose 29% to \$43.1 million compared with \$33.3 million in the same period of 2004. Third quarter 2005 net income rose 20% to \$3.3 million, or \$0.51 per diluted share. This compares with \$2.7 million, or \$0.43 per diluted share, reported in the third quarter of 2004, which included other income of \$565,000, or \$0.06 per diluted share related to the delayed receipt of prior year import duties. Third quarter 2005 net income rose 38% from the 2004 third quarter before including the other income in that quarter.

Edgar Filing: UNIVERSAL STAINLESS & ALLOY PRODUCTS INC - Form 8-K

The Company's third quarter 2005 results were in line with its forecast of sales in the range of \$40 to \$45 million and exceeded the diluted EPS forecasted range of \$0.45 to \$0.50.

President and CEO Mac McAninch commented: "We are very pleased with our continued progress which brought year-to-date sales to \$128 million, 6% ahead of total sales for all of 2004, which was a record year for our Company. This progress has been driven by strong demand in our aerospace, power generation, petrochemical and tool steel markets. Customer acceptance of our pricing initiatives, which has been necessary in the current cost environment, has allowed us to maintain our margins. As a result, the operating income we have achieved year to date is 49% ahead of the total operating income we realized for full year 2004."

Mr. McAninch continued: "We are progressing with our current capital investment commitments. The new vacuum arc remelt (VAR) furnace in our Bridgeville, PA facility should be operational in November."

USAP REPORTS STRONG THIRD QUARTER

- PAGE 2 -

SEGMENT REVIEW

In the third quarter of 2005, the Universal Stainless & Alloy Products segment had sales of \$40.0 million and operating income of \$4.0 million, yielding an operating margin of 10%. This included a write-off of \$363,000 mainly for the retirement of fixed assets replaced or being replaced. The operating margin is in line with the level achieved in the 2005 second quarter when sales were \$37.2 million and operating income was \$3.6 million. In the third quarter of 2004, sales were \$31.2 million and operating income was \$2.9 million, or 9% of sales.

The 28% increase in sales compared with the 2004 third quarter reflects higher product prices, offset by lower shipments of low margin products to rerollers and lower revenues generated from conversion services. Third quarter 2005 sales were 8% higher than the prior quarter. The increase in operating income compared to both prior periods reflects the improved mix of product shipped. The Dunkirk Specialty Steel segment reported record sales of \$14.0 million. Operating income was \$1.8 million, resulting in an operating margin of 13%. These results compare with sales of \$9.5 million and operating income of \$1.2 million, or 12% of sales, in the third quarter of 2004. In the second quarter of 2005, sales were \$12.4 million and operating income was \$1.8 million, or 15% of sales. Dunkirk's sales, which increased 48% over the 2004 third quarter, also benefited from higher selling prices on a 9% increase in shipments. Operating income increased 51% over the third quarter of 2004 on increased shipments, improvements in pricing and the elimination of products and product lines that did not meet the Company's profitability criteria. Dunkirk's sales were 13% higher than the 2005 second quarter mainly due to higher selling prices resulting from higher material costs. Operating income was 4% lower than the prior quarter of 2005 due to the mix of products shipped.

BUSINESS OUTLOOK

The following statements are based on the Company's current expectations. These statements are forward-looking, and actual results may differ materially.

The Company estimates that fourth quarter 2005 sales will range from

Edgar Filing: UNIVERSAL STAINLESS & ALLOY PRODUCTS INC - Form 8-K

\$33 to \$38 million and that diluted EPS will range from \$0.37 to \$0.42. This compares with sales of \$37.0 million and diluted EPS of \$0.40 in the fourth quarter of 2004, which included other income of \$0.05 per diluted share from 2004 import duties and a bad debt charge equivalent to \$0.03 per diluted share. The 2005 fourth quarter EPS estimate does not include any income from import duties that may be received by the Company related to the Continued Dumping and Subsidy Act of 2000 for the current year.

USAP REPORTS STRONG THIRD QUARTER

- PAGE 3 -

The following factors were considered in developing these estimates:

- o The Company's total backlog at September 30, 2005 approximated \$106 million compared to \$105 million at June 30, 2005, reflecting continued strong aerospace, power generation, petrochemical and tool steel markets. The Company noted that this continued high backlog level is mainly comprised of electro-slag and vacuum-arc remelted products scheduled for shipment beyond 2005, as customers take into account future needs and current remelt capacity constraints industry-wide.
- o The Company expects that shipments to its reroller customers in the 2005 fourth quarter will continue to decline, as anticipated, due to the Company's expanded focus on supplying value-added products.
- o The Company expects fourth quarter 2005 sales of special shape products to be slightly lower than normal due to the previously announced hourly employee work stoppage at its Titusville, PA facility. Salaried employees have restored partial operation of the facility, including the five vacuum-arc remelt (VAR) furnaces located there. The interrupted operation of the VAR furnaces is not expected to have a material effect on 2005 fourth quarter results.
- o Sales from the Dunkirk Specialty Steel segment are expected to approximate \$13 to \$14 million. Additional sales are dependent upon the level of inventory management initiatives implemented by the service center industry near the end of the year.

Mr. McAninch concluded: "We have made substantial progress this year in meeting our commitments to customers, employees and shareholders, and are committed to continuing that progress."

WEBCAST

A simultaneous Webcast of the Company's conference call discussing the third quarter of 2005 and the fourth quarter outlook, scheduled at 10:00 a.m. (Eastern) today, will be available on the Company's website at www.univstainless.com, and thereafter archived on the website. A telephone replay of the conference call will be available beginning at 12:00 noon (Eastern) today and continuing through October 27th. It can be accessed by dialing 706-645-9291, passcode 1153927. This is a toll call.

ABOUT UNIVERSAL STAINLESS & ALLOY PRODUCTS, INC.

Universal Stainless & Alloy Products, Inc., headquartered in Bridgeville, Pa., manufactures and markets a broad line of semi-finished and finished specialty steels, including stainless steel, tool steel and certain other alloyed steels. The Company's products are sold to rerollers, forgers, service centers, original equipment manufacturers and wire redrawers.
