EIS FUND, INC.
c/o Bear Stearns Funds Management Inc.
383 Madison Avenue
New York, New York 10179
September __, 2002

Dear Stockholder:

We are pleased to invite you to the special meeting of stockholders (the "EIS Special Meeting") of EIS Fund, Inc., a New York corporation. The EIS Fund, Inc. is sometimes referred to herein as "EIS" or the "Fund."

The EIS Special Meeting is scheduled to be held at ____ a.m., Eastern time, on _____, October __, 2002, at the offices of Bear Stearns Funds Management Inc., 383 Madison Avenue, New York, New York 10179. Stockholders who are unable to attend this meeting are strongly encouraged to vote by proxy, which is customary in corporate meetings of this kind. A Proxy Statement/Prospectus regarding the meeting, a proxy card(s) for your vote at the meeting and an envelope - postage prepaid - in which to return your proxy card

Edgar Filing: EIS FUND INC - Form N-14

are enclosed. At the EIS Special Meeting you will be asked to vote on two matters.

First, you will be asked to vote on a Merger Agreement and Plan of Reorganization (the "Plan" or "Merger Agreement"), whereby The Cornerstone Strategic Return Fund, Inc. ("CRF") will merge with and into EIS in accordance with the New York Business Corporation Law and the Maryland General Corporation Law. As a result of the merger:

- CRF will no longer exist,
- EIS will be the surviving corporation,
- all Eligible Shares (as that term is defined herein) of common stock of CRF will convert into an equivalent dollar amount (to the nearest one ten-thousandth of one cent) of shares and fractional shares of common stock of EIS, based on the net asset value per share of each fund (the "Exchange Ratio"), and
- all Ineligible Shares of common stock of CRF will receive cash in an amount equal to the five day trading average for the five business days prior to the effective date of the Merger.

EIS will issue fractional shares to CRF's Eligible Stockholders (as that term is defined herein), and the issued and outstanding shares of EIS will remain issued and outstanding. CRF's Ineligible Shareholders will receive cash at a price equal to the five day trading average for the five business days prior to the Effective Date (as that term is used herein).

Lastly, in the event that stockholders of EIS and CRF approve the Plan, the stockholders of EIS will be asked to approve an amendment to EIS's Certificate of Incorporation changing the Fund's name from "EIS Fund, Inc." to "Cornerstone Total Return Fund, Inc."

EIS and CRF are both closed-end, diversified management investment companies which are listed on the New York Stock Exchange. EIS seeks capital appreciation with current income as a secondary objective. CRF's investment objective is to seek long-term capital appreciation by investing in securities of U.S. and non-U.S. issuers. The current investment objective and policies of EIS will continue unchanged if the merger occurs.

The Board of Directors of EIS believes that combining the two funds will benefit Fund stockholders by providing the potential for:

- lower operating expense ratio, and
- enhanced market liquidity of EIS's shares.

The proposed merger of the Funds is described in more detail in the combined Proxy Statement/Prospectus.

THE BOARD OF DIRECTORS OF THE FUND BELIEVES THAT THE PROPOSED MERGER AND NAME CHANGE ARE IN THE BEST INTERESTS OF THE STOCKHOLDERS AND RECOMMENDS THAT YOU READ THE ENCLOSED MATERIALS CAREFULLY AND THEN VOTE "FOR" PROPOSALS 1 AND 2.

Your vote is important. PLEASE TAKE A MOMENT NOW TO SIGN AND RETURN YOUR PROXY CARD(S) IN THE ENCLOSED POSTAGE-PAID RETURN ENVELOPE.

Respectfully,

Ralph W. Bradshaw

COMBINED PROXY STATEMENT/PROSPECTUS

This combined Proxy Statement/Prospectus is being furnished to stockholders of EIS Fund, Inc. ("EIS") and The Cornerstone Strategic Return Fund, Inc. ("CRF") for use at each Fund's respective Special Meeting of Stockholders to be held on _____, October __, 2002 at ___ a.m. and ___ a.m., respectively, and at any and all postponements or adjournments thereof. The approximate mailing date of this Proxy Statement/Prospectus is September __, 2002.

PURPOSE OF THE MEETINGS.

At each of the Meetings, stockholders of each Fund will be asked to approve a Merger Agreement and Plan of Reorganization dated October __, 2002 (the "Plan") whereby CRF will merge with and into EIS, in accordance with the New York Business Corporation Law and the Maryland General Corporation Law. In addition to the Merger proposal, EIS Stockholders will be asked to vote on an amendment to EIS's Certificate of Incorporation changing the name of the Fund to "Cornerstone Total Return Fund, Inc." which will only take effect in the event that the stockholders of EIS and CRF approve the Merger proposal.

SPECIFICS OF THE PROPOSED MERGER.

As a result of the merger:

- CRF will no longer exist,
- EIS will be the surviving corporation, and
- all Eligible Shares (as that term is defined herein) of common stock of CRF will convert into an equivalent dollar amount (to the nearest one ten-thousandth of one cent) of shares and fractional shares of common stock of EIS, based on the net asset value per share of each fund (the "Exchange Ratio"), and
- all Ineligible Shares of common stock of CRF will receive cash based on the average market price for the five day trading period prior to the Effective Date ("Cash Price").

-1-

SOME SHAREHOLDERS OF CRF MAY RECEIVE CASH

The By-laws of EIS contain provisions that do not allow the Fund to transfer shares if such transfer would or might, in the reasonable opinion of the Fund's Board of Directors, incur any responsibility for substantial expenses

Edgar Filing: EIS FUND INC - Form N-14

or any responsibility of EIS to make any regulatory filings in any jurisdiction outside the United States. Stockholders that are eligible to receive EIS's common stock are hereinafter referred to as the "Eligible Stockholders" and those stockholders that are not eligible to receive shares of EIS's common stock shall hereinafter be referred to as "Ineligible Stockholders". The shares of common stock that EIS can issue shall be sometimes referred to herein as the "Eligible Shares." Under the Merger Agreement, any Stockholders of CRF who would be ineligible stockholders will receive cash equal to the average market price for the five day trading period prior to the Effective Date ("Cash Price").

The CRF Board of Directors appointed a special committee to review the fairness of the Cash Price mechanism to Ineligible Stockholders. This committee, which was composed of the two members of the CRF Board who are not members of the EIS Board, Messrs. Edwin Meese III and Thomas H. Lenagh, incorporated information and discussion on the issues from previous Board Meetings and received advice from Fund counsel as to the alternatives that might be available and from the Fund's Administrator as to how the mechanism would function. They concluded that, based on the limited alternatives and the neutrality of the way that the mechanism would function, it is fair to Ineligible Stockholders of CRF.

EIS WILL ISSUE FRACTIONAL SHARES TO ELIGIBLE STOCKHOLDERS.

In connection with the merger, EIS will issue that number of shares that have an aggregate net asset value equal to the aggregate net asset value of the outstanding shares of CRF. Each eligible CRF stockholder, in connection with the merger, will receive shares of EIS having an aggregate net asset value equal to the aggregate net asset value of the stockholder's CRF shares before the merger, and all ineligible stockholders of CRF shall receive the Cash Price. While the total net asset value of shares received by each CRF stockholder in the merger will be the same as before the merger, the market value of EIS shares that a CRF stockholder receives in the merger will be more or less than the market value of CRF shares that such stockholder owns immediately before the merger, depending on the current market discount levels of CRF and EIS.

INFORMATION ABOUT THE FUNDS.

EIS and CRF are both closed-end, diversified management investment companies whose shares are listed on the New York Stock Exchange. EIS's investment objective is to seek capital appreciation with current income as a secondary objective, while CRF seeks long-term capital appreciation. The current investment objective and policies of EIS will continue unchanged if the merger occurs.

If the merger proposal is approved, EIS stockholders will be asked to approve the amendment to EIS's Articles of Incorporation changing the name of the Fund from "EIS Fund, Inc." to "Cornerstone Total Return Fund, Inc." If both proposals are approved, the Board of Directors is seeking to use "CRF" as the Fund's ticker symbol on the New York Stock Exchange, however, no assurances can be given that the Fund will be able to use this symbol.

The terms and conditions of the merger and related transactions are more fully described in this Proxy Statement/Prospectus and in the Plan, a copy of which is attached as Exhibit A.

Edgar Filing: EIS FUND INC - Form N-14

connection with the issuance of EIS common shares in the merger.

Assuming the stockholders of each Fund approve the merger, the Funds will jointly file articles of merger (the "Merger Document"), with the State Department of Assessments and Taxation of Maryland (the "Department") and a certificate of merger (the "Certificate of Merger") with the New York Department of State. Collectively, the Articles of Merger and the Certificate of Merger shall be hereinafter referred to as the "Articles of Merger." The merger will become effective on October __, 2002 (the "Effective Date"). CRF, as soon as practicable after the Effective Date, will terminate its registration under the Investment Company Act of 1940, as amended (the "Investment Company Act").

Under both Maryland and New York law, shareholders of EIS and CRF are not entitled to any appraisal or similar rights in connection with the Merger contemplated by the Plan.

You should retain this Proxy Statement/Prospectus for future reference as it sets forth concisely information about EIS and CRF that you should know before voting on the proposals described below.

A Statement of Additional Information (the "SAI") dated September __, 2002, which contains additional information about the merger and the Funds has been filed with the Securities and Exchange Commission (the "SEC"). The SAI and the financial statements of EIS and CRF for the fiscal year ended December 31, 2001 are incorporated by reference into this Proxy Statement/Prospectus. A copy of these documents are available upon request and without charge by writing to the Secretary of the Fund c/o Bear Stearns Funds Management Inc. located at 383 Madison Avenue, 23rd Floor, New York, New York 10179, or by calling (212) 272-2093. You may ask questions about the Funds by calling (212) 272-2093. EIS has provided the information included in this Proxy Statement/Prospectus regarding that Fund and CRF has provided the information included in this Proxy Statement/Prospectus regarding that Fund.

EIS's shares of common stock are listed on the NYSE under the symbol "EIS" and CRF's shares of common stock are listed on the NYSE under the symbol "CRF." In the event that both proposals are approved and the Fund is allowed to use "CRF" as its new ticker symbol, the Fund's shares will continue to be listed on the NYSE under the symbol "CRF." Reports, proxy materials and other information concerning each Fund may be inspected at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

Stockholders of both EIS and CRF will be asked to vote on Proposal 1 -- the approval of the Plan, and if Proposal 1 is approved, then Stockholders of EIS will be asked to vote on Proposal 2 -- the amendment to the Articles of Incorporation.

QUORUM

The presence, either in person or by proxy, of the holders of one-third of the outstanding shares of CRF common stock entitled to vote at a meeting of CRF, will constitute a quorum for the transaction of business for CRF. At least 51% of EIS's stockholders must be present at the Special Meeting in person or by proxy to constitute a quorum for the transaction of business by EIS. For purposes of determining the presence of a quorum for transacting business at a meeting, abstentions and broker "non-votes" will be treated as shares that are present. Broker non-votes are proxies received by a Fund from brokers or nominees, indicating that the broker or nominee has neither received instructions from the beneficial owner or other persons entitled to vote nor has the discretionary power to vote on a particular matter. Stockholders are urged to forward their voting instructions promptly.

REQUIRED VOTE

Proposal 1 requires the affirmative vote of a majority of the outstanding shares of common stock of each Fund, and Proposal 2 requires the affirmative vote of a majority of EIS's outstanding shares of common stock. Abstentions and broker non-votes will have the effect of a "no" vote for Proposal 1 and 2.

-5-

Proxy solicitations will be made primarily by mail, but solicitations may also be made by telephone, telegraph or personal interviews conducted by officers or employees of the Funds, Cornerstone Advisors, Inc., the investment adviser to each of the Funds (the "Investment Adviser"), Bear Stearns Funds Management Inc., the administrator to the Funds (the "Administrator" or "BSFM"), and Georgeson Shareholder Communication, Inc., a proxy solicitation firm that has been retained by the Funds. The Funds will bear the costs of solicitation.

An agreement between the Funds and Georgeson provides for Georgeson to provide general solicitation services to the Funds at an estimated cost of \$8,000, plus expenses. The Funds will, upon request, bear the reasonable expenses of brokers, bank and their nominees who are holders of record of the Funds' voting securities on the record date, incurred in mailing copies of this Proxy Statement/Prospectus to the beneficial owners of the Funds' voting securities.

Only stockholders of record of each Fund at the close of business on September __, 2002 (the "Record Date"), are entitled to vote. An outstanding share of each Fund is entitled to one vote on all matters voted upon at a meeting of the stockholders of that Fund. As of September __, 2002, there were approximately _____ shares of EIS outstanding, and approximately _____ shares of CRF outstanding.

EIS and CRF provide periodic reports to all of their stockholders. These reports highlight relevant information including investment results and a review of portfolio changes for each Fund. You may receive a copy of the most recent annual and semi-annual reports for EIS or CRF, without charge, by calling

The Boards of Directors of the Funds know of no other business, other than the proposals described above, which will be presented for consideration at each Fund's respective Special Meeting. If any other matter is properly presented, it is the intention of the persons named in the enclosed proxy to vote on that matter in their discretion.

I. MERGER PROPOSAL TO BE VOTED ON BY STOCKHOLDERS OF EIS AND CRF.

PROPOSAL 1:

APPROVAL OF THE MERGER AGREEMENT AND PLAN OF REORGANIZATION (THE "PLAN")

On August 2, 2002, the Boards of Directors of the Funds, including a majority of the directors who are not "interested persons" (the "Non-interested Directors"), unanimously:

- (1) declared that the merger of CRF with and into EIS was in the best interests of the Funds and the Stockholders,
- (2) approved the Plan, and
- (3) recommended that the stockholders of each Fund approve the Plan.

Stockholders should note that the Board of Directors of the Funds are identical, therefore, the Non-interested Directors are "non-interested" with respect to each Fund s required by the Investment Company Act, they are not at arms-length with respect to the proposed Merger. The Boards suggest that stockholder carefully review the information contained in the Proxy Statement/Prospectus before casting a vote.

For more information about the merger, see "Information about the Merger."

The Plan is subject to the approval of the stockholders of both Funds and certain other conditions. It provides for the merger (the "Merger") of CRF with and into EIS in accordance with the New York Business Corporation Law ("BCL") and the Maryland General Corporation Law (the "MGCL").

As a result of the Merger:

- CRF will no longer exist,
- EIS will be the surviving corporation,
- each Eligible Share of common stock of CRF will convert into an equivalent dollar amount (to the nearest one ten-thousandth of one cent) of shares and fractional shares of common stock of EIS, based on the net asset value per share of each Fund calculated at 4:00 p.m. (New York time) on the business day preceding the Effective Date (the "Conversion Ratio"), and
- each Ineligible Stockholder of CRF will receive cash equal to the

Edgar Filing: EIS FUND INC - Form N-14

average market price for the five day trading period prior to the Effective Date ("Cash Price"). The receipt of cash pursuant to the Plan of Merger could have separate tax consequences to an Ineligible Stockholder.

-7-

EIS's shares outstanding as of the Effective Date will remain issued and outstanding. In connection with the Merger, EIS will issue that number of shares that have an aggregate net asset value equal to the aggregate net asset value of the outstanding shares of CRF. CRF will terminate its registration under the Investment Company Act after the Merger.

In addition, as a consequence of the Merger, each Eligible Stockholder of CRF will become a stockholder of EIS. On the Effective Date, each Eligible Stockholder of CRF will receive that number of shares and fractional shares of common stock of EIS having an aggregate net asset value equal to the aggregate net asset value of such stockholder's shares held in CRF as of the close of business on the business day preceding the Effective Date. A "Business Day" is any day on which the NYSE is open for trading.

A copy of the Plan is attached to this Proxy Statement/Prospectus as Exhibit A, and the description of the Plan included in this Proxy Statement/Prospectus is qualified in its entirety by reference to Exhibit A.

The following provides a more detailed discussion about the Merger, each Fund and additional information that you may find helpful in deciding how to vote on the Merger Agreement.

SYNOPSIS

This summary highlights important information included in this Proxy Statement/Prospectus. This summary is qualified by reference to the more complete information included elsewhere in this Proxy Statement/Prospectus and the Plan. Stockholders of each Fund should read this entire Proxy Statement/Prospectus carefully.

THE PROPOSED MERGER.

The Boards of Directors of EIS and CRF, including the Non-interested Directors of each Fund, have unanimously approved the Plan. The Plan provides for the merger of CRF with and into EIS. As a result of the Merger:

- each Eligible Share of common stock of CRF will convert into an equivalent dollar amount (to the nearest one ten-thousandth of one cent) of shares and fractional shares of common stock of EIS, based on the net asset value per share of each Fund calculated at 4:00 pm (New York time) on the Business Day preceding the Effective Date;
- each Eligible Stockholder of CRF will become a stockholder of EIS and will receive, on the Effective Date, that number of shares of common stock of EIS having an aggregate net asset value equal to the aggregate net asset value of such stockholder's shares held in CRF as of the close of business on the Business Day preceding the Effective Date (the "Exchange Ratio"); and

- each ineligible share of common stock of CRF will receive the Cash Price.

If the Merger is not consummated, each Fund will continue as a separate investment company, and the Board of Directors of each Fund will consider such other alternatives as it determines to be in the best interests of its stockholders.

FORM OF ORGANIZATION.

EIS and CRF are both closed-end, diversified management investment companies, registered under the Investment Company Act. EIS was organized as a New York corporation in 1973 and CRF was organized as a Maryland corporation in 1994. Each Fund's Board of Directors is responsible for the management of the business and affairs of each Fund.

INVESTMENT OBJECTIVES AND POLICIES.

EIS's investment objective is capital appreciation with current income as a secondary objective. CRF's investment objective is long-term capital appreciation.

Each of the foregoing investment objectives are fundamental, and can only be changed with the approval of the holders of a majority of each Fund's outstanding voting securities as defined under the Investment Company Act.

The preceding summary of the Funds' investment objectives and certain policies should be considered in conjunction with the discussion below under "Risk Factors and Special Considerations" and "Comparison of Investment Objectives and Policies."

NET ASSETS OF THE FUNDS

At June 30, 2002, EIS had net assets of \$39,547,000 and CRF had net assets of \$46,44,000.

FEES AND EXPENSES--EIS AND CRF

Cornerstone Advisors, Inc. ("Cornerstone Advisors"), serves as EIS's and CRF's investment adviser. The agreements between the Advisor and each Fund are substantially identical. As compensation for its advisory services, Cornerstone Advisors is contractually entitled to receive from each respective Fund an annual fee of one percent (1%) of that respective Fund's average weekly net assets payable on a monthly basis. On June 19, 2002, Cornerstone Advisors agreed to immediately implement a voluntary expense reimbursement limitation with regard to both funds which, as contemplated, the Advisor would voluntarily waive its management fees to each Fund to the extent that each Fund's monthly operating expenses exceed .10% of net assets calculated on a monthly basis. The expenses of the proposed Merger are not regarded as "operating expenses". The voluntary fee waiver may be changed or discontinued at any time after December 31, 2002 in the discretion of the Advisor. The voluntary expense limitation will not, however, be affected by the Merger.

Edgar Filing: EIS FUND INC - Form N-14

For the fiscal year ended December 31, 2001, Cornerstone Advisors earned \$286,915 for services performed for CRF. For the year to date, EIS has paid the Advisor \$127,019 and CRF has paid \$218,931. CRF also paid \$137,478 as compensation to Clemente Capital, Inc., the Fund's investment adviser from January 1, 2001 until March 31, 2001.

Bear Stearns Funds Management Inc. ("BSFM"), serves as both EIS's and CRF's administrator. EIS and CRF each pay BSFM a monthly fee that is computed weekly at an annual rate of 0.10% of the respective Fund's average weekly net assets, subject to a minimum annual fee of \$50,000. In addition to the fee, the Fund is required to reimburse to the Administrator all out-of-pocket expenses incurred by the Administrator for attendance at any meetings (outside the New York metropolitan area) of the Board of Directors, or any committees of such Board, or any other meetings or presentations for which the Administrator is required to attend. For the year to date, BSFM earned \$26,439 for services performed on behalf of EIS and \$26,439 for services performed on behalf of CRF.

Based on June 30, 2002 net assets and projected expenses for the year 2002, in the absence of an expense limitation, EIS's expense ratio would be expected to be approximately ____%. Based on similar assumptions, EIS's expense ratio after the Merger, not including the expenses of the Merger, is projected to be approximately ____%. So long as the voluntary expense limitation described above is in effect, EIS's expense ratio is expected to be 1.20%. The actual expense ratios for the current and fiscal years, whether or not the Merger occurs, may be higher or lower than these projections and depend upon performance, general stock market and economic conditions, net asset levels, stock prices and other factors, as well as whether the voluntary expense limitation is continued.

See "Expense Table" below for the current expenses of each Fund and pro forma expenses following the Merger.

DISTRIBUTION POLICIES

In June 2002 both Funds announced distribution policies under which they would distribute fixed monthly amounts. Such amounts have been distributed in July and August and distributions have been declared by the Boards of Directors for the months of September and October. Such distributions may be treated as returns of capital, capital gain or ordinary income depending on each Fund's tax position for the year as a whole. Stockholders will be advised of the relevant treatment when the tax positions are known.

-10-

It is the intention of the current Board of Directors to continue its current distribution policy after the Merger but there can be no guarantee that the policy will be continued for any specific time period.

UNREALIZED CAPITAL GAINS.

As of July 12, 2002, EIS had approximately \$4,659,162 of unrealized capital losses. As of that same date, CRF had approximately \$11,376,036 of unrealized capital losses. As of July 12, 2002, EIS had approximately \$91,132 of capital loss carryforwards. CRF had approximately \$12,825,121 of capital loss carryforwards as of July 12, 2002.

The Board of Directors of each Fund considered these positions as part of their overall process of considering the proposed Merger. They also considered professional advice that they received regarding the future use of these various

Edgar Filing: EIS FUND INC - Form N-14

capital loss categories to offset future capital gains. This professional advice included the possibility that in some circumstances utilization of the capital loss carryforwards might be restricted, in part because of the Merger. The Boards also considered whether the ability to continue to utilize the capital loss carryforwards should be made a condition to the effectiveness of the Merger and concluded that it should not. The Boards concluded that in their respective judgments, under all of the facts and circumstances known to them after considering the advice of their professional advisers, the Merger is in the best interests of both Funds and their stockholders, even if as a consequence there may be "truncation" (restriction on the utilization) of the capital loss carryforwards under the Internal Revenue Code."

FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER.

As a condition to the closing of the Merger, both Funds will receive an opinion of Spitzer & Feldman P.C., counsel to the Funds, stating that the Merger will constitute a tax-free reorganization within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986 (the "Code"). Accordingly, neither CRF, EIS nor the Stockholders of EIS and the Eligible Stockholders of CRF will recognize any gain or loss as a result of the Merger. The Ineligible Stockholders of CRF may recognize gain or loss as a result of the Merger and should consult with their independent tax advisers. The holding period and the aggregate tax basis of EIS shares (including fractional shares) received by Eligible Stockholders will be the same as the holding period and aggregate tax basis of the shares of CRF previously held by the stockholder. The holding period and the aggregate tax basis of the assets received by EIS in the Merger will be the same as the holding period and the tax basis of such assets in the hands of CRF immediately before the Merger. For more information about the tax consequences of the Merger, see "Information about the Merger - Tax Considerations."

DISCOUNT FROM NET ASSET VALUE.

Shares of closed-end funds frequently trade at a market price that is less than the value of the fund's net assets. The possibility that shares of EIS will trade at a discount from its net asset value is a risk separate and distinct from the risk that the Fund's net asset value will decrease. Except for limited periods of time, EIS's shares have traded in the market at a discount, and, as of _____, 2002, the last trading day immediately before the announcement of the Merger, traded at a market price discount of _____%. Similarly, CRF shares have traded in the market at a discount and, as of that same date, traded at a market price discount of -----%.

-11-

EXPENSES OF THE MERGER.

In evaluating the proposed Merger, Cornerstone Advisors has estimated the amount of expenses the Funds would incur as approximately \$140,000, which includes, but is not limited to, NYSE fees, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the Merger. The aggregate amount of estimated expenses of the Merger will be allocated equally between the Funds, regardless of whether the Merger is consummated, including the SEC registration fees and the fees for listing additional shares of EIS on the NYSE.

The expenses of the Merger are expected to result in a reduction in

Edgar Filing: EIS FUND INC - Form N-14

net asset value per EIS share of approximately \$0.03, and a reduction in net asset value per CRF share of approximately \$0.01.

Example. The purpose of the following example is to help you understand the costs and expenses you may bear as an investor. This example is based on the level of total annual operating expenses for each Fund listed in the table above, the total expenses relating to a \$1,000 investment, assuming a 5% annual return and reinvestment of all dividends and distributions. Stockholders do not pay these expenses directly, they are paid by the Funds before they distribute net investment income to Stockholders. This example should not be considered a representation of future expenses, and actual expenses may be greater or less than those shown. Federal regulations require the example to assume a 5% annual return, but actual annual returns will vary.

PERFORMANCE.

The table below provides performance data for the period beginning on January 1, 2002 up to June 30, 2002 for EIS and CRF based on each Fund's net asset value and market value. It is important to note that prior to January 2, 2002, EIS's investment objective was to seek a high level of current income through investments in a diversified portfolio consisting primarily of debt securities. Therefore, EIS's performance for any year prior to January 1, 2002 would not be indicative of the performance of an investment company with its current investment objective. Past performance is not a guarantee of future results, and it is not possible to predict whether or how investment performance will be affected by the Merger.

RISK FACTORS AND SPECIAL CONSIDERATIONS

Both EIS and CRF are closed-end management investment companies and are designed primarily for long-term investors and not as trading vehicles.

-13-

STOCK MARKET VOLATILITY. Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. Each Fund is subject to the general risk that the value of a Fund's investments may decline if the stock markets perform poorly. There is also a risk that each Fund's investments will underperform either the securities markets generally or particular segments of the securities markets.

ISSUER SPECIFIC CHANGES. Changes in the financial condition of an issuer, changes in the specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect the credit quality or value of an issuer's securities. Lower-quality debt securities tend to be more sensitive to these changes than higher-quality debt securities.

INTEREST RATE RISK. Debt securities have varying levels of sensitivity to changes in interest rates. In general, the price of a debt security can fall when interest rates rise and can rise when interest rates fall. Securities with longer maturities and mortgage securities can be more sensitive to interest rate changes although they usually offer higher yields to compensate investors for the greater risks. The longer the maturity of the security, the greater the impact a change in interest rates could have on the security's price. In addition, short-term and long-term interest rates do not necessarily move in the same amount or the same direction. Short-term securities tend to react to changes in short-term interest rates and long-term securities tend to react to changes in long-term interest rates.

CREDIT RISKS. Fixed income securities rated B or below by S&Ps or Moody's may be purchased by either Fund. These securities have speculative characteristics and changes in economic conditions or other circumstances are more likely to lead to a weakened capacity of those issuers to make principal or interest payments, as compared to issuers of more highly rated securities.

EXTENSION RISK. Each Fund is subject to the risk that an issuer will exercise its right to pay principal on an obligation held by the Fund (such as mortgage-backed securities) later than expected. This may happen when there is a rise in interest rates. These events may lengthen the duration (i.e. interest

Edgar Filing: EIS FUND INC - Form N-14

rate sensitivity) and potentially reduce the value of these securities.

ILLIQUID SECURITIES. Each Fund may invest up to 15% of its respective net assets in illiquid securities. Illiquid securities may offer a higher yield than securities which are more readily marketable, but they may not always be marketable on advantageous terms. The sale of illiquid securities often requires more time and results in higher brokerage charges or dealer discounts than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. A security traded in the U.S. that is not registered under the Securities Act of 1933 will not be considered illiquid if Fund management determines that an adequate investment trading market exists for that security. However, there can be no assurance that a liquid market will exist for any security at a particular time.

-14-

INVESTMENT IN SMALL AND MID-CAPITALIZATION COMPANIES. Each Fund may invest in companies with mid or small sized capital structures (generally a market capitalization of \$5 billion or less). Accordingly, the Fund may be subject to the additional risks associated with investment in these companies. The market prices of the securities of such companies tend to be more volatile than those of larger companies. Further, these securities tend to trade at a lower volume than those of larger more established companies. If the Fund is heavily invested in these securities and the value of these securities suddenly declines, the Fund will be susceptible to significant losses.

OVER-THE-COUNTER BULLETIN BOARD MARKETS. Each Fund may invest in companies whose stock is trading on the over-the-counter Bulletin Board which have only a limited trading market. A more active trading market may never develop. The Fund may be unable to sell its investments in these companies on any particular day due to the limited trading market.

ANTI-TAKEOVER PROVISIONS. Each Fund's Charter and Bylaws include provisions that could limit the ability of other persons or entities to acquire control of the Fund or to cause it to engage in certain transactions or to modify its structure.

LEVERAGE RISK. Utilization of leverage is a speculative investment technique and involves certain risks to the holders of common stock. These include the possibility of higher volatility of the net asset value of the common stock and potentially more volatility in the market value of the common stock. So long as the Fund is able to realize a higher net return on its investment portfolio than the then current cost of any leverage together with other related expenses, the effect of the leverage will be to cause holders of common stock to realize higher current net investment income than if the Fund were not so leveraged. On the other hand, to the extent that the then current cost of any leverage, together with other related expenses, approaches the net return on the Fund's investment portfolio, the benefit of leverage to holders of common stock will be reduced, and if the then current cost of any leverage were to exceed the net return on the Fund's portfolio, the Fund's leveraged capital structure would result in a lower rate of return to common stockholders than if the Fund were not so leveraged. There can be no assurance that the Fund's leverage strategy will be successful.

NON-U.S. SECURITIES RISK. Investments in securities of non-U.S. issuers involve special risks not presented by investments in securities of U.S. issuers, including the following: less publicly available information about

Edgar Filing: EIS FUND INC - Form N-14

companies due to less rigorous disclosure or accounting standards or regulatory practices; the impact of political, social or diplomatic events; possible seizure, expropriation or nationalization of the company or its assets; and possible imposition of currency exchange controls. These risks are more pronounced to the extent that the Fund invests a significant amount of its investments in companies located in one region.

-15-

DEBT SECURITY RISK. In addition to interest rate risk, call risk and extension risk, debt securities are also subject to the risk that they may also lose value if the issuer fails to make principal or interest payments when due, or the credit quality of the issuer falls.

COMMON STOCK RISK. While common stock has historically generated higher average returns than fixed income securities, common stock has also experienced significantly more volatility in those returns. An adverse event, such as an unfavorable earnings report or acts of terrorism, may depress the value of common stock held by the Fund. Also, the price of common stock is sensitive to general movements in the stock market. A drop in the stock market may depress the price of common stock held by the Fund.

MARKET DISCOUNT FROM NET ASSET VALUE. Shares of closed end investment companies frequently trade at a discount from their net asset value. This characteristic is a risk separate and distinct from the risk that the Fund's net asset value could decrease as a result of its investment activities and may be greater for investors expecting to sell their shares in a relatively short period following completion of this offering. The net asset value of the common stock will be reduced immediately following the offering as a result of the payment of certain offering costs. Whether investors will realize gains or losses upon the sale of the common stocks will depend not upon the Fund's net asset value but entirely upon whether the market price of the common stock at the time of sale is above or below the investor's purchase price for the common stock. Because the market price of the common stock will be determined by factors such as relative supply of and demand for the common stock in the market, general market and economic conditions, and other factors beyond the control of the Fund, the Fund cannot predict whether the common shares will trade at, below or above net asset value or at, below or above the initial public offering price. In recent years, shares of both Funds have traded at a discount to their respective net asset values.

COMPARISON OF INVESTMENT OBJECTIVES AND POLICIES

ORGANIZATION.

EIS and CRF are both closed-end, diversified investment companies registered under the Investment Company Act. EIS was organized as a New York corporation and CRF as a Maryland corporation. Each Fund is managed and advised by Cornerstone Advisors. The shares of common stock of each Fund are listed and trade on the NYSE under the symbols "EIS" and "CRF", respectively. After the Merger, EIS's shares will continue to be traded on the NYSE, while CRF's shares will be delisted and CRF will cease to exist. In the event the proposals are approved, the Fund is seeking the approval to use the ticker symbol "CRF" for listing on the New York Stock Exchange, however, no assurances can be given that the Fund will be able to use "CRF" as the Fund's symbol.

The shares of common stock of each Fund have equal non-cumulative voting rights and equal rights with respect to dividends, assets and dissolution. Each Fund's shares of common stock are fully paid and non-assessable and have no preemptive, conversion or other subscription rights. Fluctuations in the market price of the Fund's shares is the principal investment risk of an investment in either Fund. Portfolio management, market conditions, investment policies and other factors affect such fluctuations. Although the investment objectives, policies and restrictions of the Funds are similar, there are differences between them, as discussed below. There can be no assurance that either Fund will achieve its stated investment objective.

INVESTMENT OBJECTIVES.

EIS's investment objective is to seek capital appreciation with current income as a secondary objective by investing primarily all of its assets in equity securities of U.S. and non-U.S. issuers whose securities trade on a U.S securities exchange or over the counter or as American Depositary Receipts or other forms of depositary receipts such as International Depositary Receipts which trade in the United States. Current income is a secondary objective that will be achieved through the investment in U.S. debt securities.

CRF's investment objective is to seek long-term capital appreciation by investing in securities of U.S. and non-U.S. issuers which Fund management believes have demonstrated fundamental investment value and favorable growth prospects. In general, CRF invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter.

Each Fund's foregoing investment objective cannot be changed without the vote of a majority of each Fund's outstanding voting securities as defined in the Investment Company Act. No assurance can be given that either Fund's investment objective will be achieved.

COMPARISON OF INVESTMENT POLICIES.

EIS

EIS intends its investment portfolio, under normal market conditions, to consist principally of the equity securities of large, mid and small-capitalization companies. Equity securities in which the Fund may invest include common and preferred stocks, convertible securities, warrants and other securities having the characteristics of common stocks, such as ADRs and IDRs. The Fund may, however, invest a portion of its assets in U.S. dollar denominated debt securities when Fund management believes that it is appropriate to do so in order to achieve the Fund's secondary investment objective, for example, when interest rates are high in comparison to anticipated returns on equity investments. Debt securities in which the Fund may invest include U.S. dollar denominated bank, corporate or government bonds, notes, and debentures of any maturity determined by Fund management to be suitable for investment by the Fund. The Fund may invest in the securities of issuers that it determines to be suitable for investment by the Fund regardless of their rating, provided, however, that the Fund may not invest in debt securities that are determined by Fund management to be rated below "BBB" by S&P or Moody's.

Edgar Filing: EIS FUND INC - Form N-14

EIS's management utilizes a balanced approach, including "value" and "growth" investing by seeking out companies at reasonable prices, without regard to sector or industry, that demonstrate favorable long-term growth characteristics. Valuation and growth characteristics may be considered for purposes of selecting potential investment securities. In general in the securities industry, valuation analysis is used to determine the inherent value of the company by analyzing financial information such as a company's price to book, price to sales, return on equity, and return on assets ratios, and growth analysis is used to determine a company's potential for long-term dividends and earnings growth due to market-oriented factors such as growing market share, the launch of new products or services, the strength of its management and market demand.

EIS may also invest up to 10% of its assets in the aggregate in the securities of other investment companies and up to 5% of its assets in any one such investment company, provided that such investment does not represent more than 3% of the voting stock of the acquired investment company of which such shares are purchased. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

EIS may invest up to 20% of the value of its total assets in illiquid U.S. securities. The Fund will invest only in such illiquid securities that, in the opinion of Fund management, present opportunities for substantial growth over a period of two to five years.

EIS does not expect to trade in securities for short-term gains. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses. Since the Fund's investment policies emphasize long-term investment in the securities of companies, the Fund's annual portfolio turnover rate is expected to be relatively low, generally ranging between 25% and 75%.

CRF

Under normal market conditions CRF will invest at least 65% of its total assets in securities of U.S. issuers and may invest up to 35% of its assets in debt securities. In general, CRF invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter.

-18-

CRF may also invest up to 10% of its assets in the aggregate in the securities of other investment companies and up to 5% of its assets in any one such investment company, provided that such investment does not represent more than 3% of the voting stock of the acquired investment company of which such shares are purchased. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

CRF may invest up to 15% of its assets in illiquid U.S. and non-U.S. securities, provided that the Fund may not invest more than 3% of the Fund's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies. The Fund will invest only in such illiquid securities that, in the opinion of Fund

Edgar Filing: EIS FUND INC - Form N-14

management, present opportunities for substantial growth over a period of two to five years.

CRF does not expect to trade in securities for short-term gains. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses. Since the Fund's investment policies emphasize long-term investment in the securities of companies, the Fund's annual portfolio turnover rate is expected to be relatively low, ranging between 50% and 75%.

Each Fund's foregoing investment policies may be changed by each Fund's respective Board of Directors without shareholder vote.

EIS'S AND CRF'S NON-FUNDAMENTAL INVESTMENT POLICIES

TEMPORARY DEFENSIVE POSITIONS. Each Fund may, from time to time, take temporary defensive positions that are inconsistent with its principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. Such investments include various short-term instruments. If a Fund takes a temporary defensive position at the wrong time, the position would have an adverse impact on the Fund's performance and it may not achieve its investment objective. Each Fund reserves the right to invest all of its assets in temporary defensive positions.

SECURITIES LENDING. Each Fund may lend its portfolio securities to broker-dealers in amounts equal to no more than 33 1/3% of the Fund's net assets. These transactions will be fully collateralized at all times with cash and/or high quality, short-term debt obligations. These transactions involve risk to the Fund if the other party should default on its obligation and the Fund is delayed or prevented from recovering the securities lent. In the event the original borrower defaults on its obligation to return lent securities, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss and you could lose money on your investment.

-19-

BORROWING. Each Fund may borrow money from banks for temporary or emergency purposes. To reduce its indebtedness, the Fund may have to sell a portion of its investments at a time when it may be disadvantageous to do so. In addition, interest paid by the Fund on borrowed funds would decrease the net earnings of the Fund

REPURCHASE AGREEMENTS. Each Fund may enter into repurchase agreements collateralized by the securities in which it may invest. A repurchase agreement involves the purchase by the Fund of securities with the condition that the original seller (a bank or broker-dealer) will buy back the same securities (collateral) at a predetermined price or yield. Repurchase agreements involve certain risks not associated with direct investments in securities. In the event the original seller defaults on its obligation to repurchase, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss.

Under the Investment Company Act, neither Fund may (i) invest more than 5% of its total assets in the securities of any one investment company, nor (ii) acquire more than 3% of the outstanding voting securities of any such

Edgar Filing: EIS FUND INC - Form N-14

company.

As a stockholder in any investment company, each Fund will bear its ratable share of that investment company's expenses, and would remain subject to payment of the company's advisory and administrative fees with respect to assets so invested.

UNITED STATES FEDERAL INCOME TAXES

The following is a brief summary of certain United States federal income tax issues that apply to each Fund. Stockholders should consult their own tax advisers with regard to the federal tax consequences of the purchase, ownership and disposition of each Fund's shares, as well as tax consequences arising under the laws of any state, foreign country, or other taxing jurisdiction.

Each Fund has qualified, and intends to continue to qualify and elect to be treated, as a regulated investment company ("RIC"), for each taxable year under Subchapter M of the Code. A RIC generally is not subject to federal income tax on income and gains distributed in a timely manner to its stockholders.

-20-

Each Fund intends to distribute annually to its stockholders substantially all of its investment company taxable income. The Board of Directors of each Fund will determine annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including any capital loss carryovers. The Funds currently expect to distribute any excess annually to their stockholders. However, if either Fund retains for investment an amount equal to its net long-term capital gains in excess of its net short-term capital losses and capital loss carryovers, it will be subject to a corporate tax, currently at a rate of 35%, on the amount retained. In that event, that Fund expects to designate such retained amounts as undistributed capital gains in a notice to its stockholders who:

- will be required to include in income for United States federal income tax purposes, as long-term capital gains, their proportionate shares of the undistributed amount,
- will be entitled to credit their proportionate shares of the 35% tax paid by that Fund on the undistributed amount against their United States federal income tax liabilities, if any, and to claim refunds to the extent their credits exceed their liabilities, if any, and
- will be entitled to increase their tax basis, for United States federal income tax purposes, in their shares by an amount equal to 65% of the amount of undistributed capital gains included in the stockholder's income.

Income received by the Funds from sources within countries other than the United States may be subject to withholding and other taxes imposed by such countries, which will reduce the amount available for distribution to stockholders. If more than 50% of the value of either Fund's total assets at the close of its taxable year consists of securities of foreign corporations, that Fund will be eligible and intends to elect to "pass-through" to stockholders the amount of foreign income and similar taxes it has paid. Pursuant to this

Edgar Filing: EIS FUND INC - Form N-14

election, stockholders of the electing Fund will be required to include in gross income (in addition to the full amount of the taxable dividends actually received) their pro rata share of the foreign taxes paid by that Fund. Each such stockholder will also be entitled either to deduct (as an itemized deduction) its pro rata share of foreign taxes in computing its taxable income or to claim a foreign tax credit against its U.S. federal income tax liability, subject to limitations. No deduction for foreign taxes may be claimed by a stockholder who does not itemize deductions, but such a stockholder may be eligible to claim the foreign tax credit. The deduction for foreign taxes is not allowable in computing alternative minimum taxable income. Each stockholder will be notified within 60 days after the close of that Fund's taxable year whether the foreign taxes paid by the Fund will "pass through" for that year.

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the stockholder's U.S. tax attributable to his or her foreign source taxable income. For this purpose, if the pass-through election is made, the source of each Fund's income flows through to its stockholders. Any gains from the sale of securities by either Fund will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables, will be treated as ordinary income derived from U.S. sources. The limitation on the foreign tax credit is applied separately to foreign source passive income (as defined for purposes of the foreign tax credit), including the foreign source passive income passed through by each Fund. Because of the limitation, stockholders taxable in the United States may be unable to claim a credit for the full amount of their proportionate share of the foreign taxes paid by each Fund. The foreign tax credit also cannot be used to offset more than 90% of the alternative minimum tax (as computed under the Code for purposes of this limitation) imposed on corporations and individuals.

-21-

Stockholders will be notified annually by each Fund as to the United States federal income tax status of the dividends, distributions and deemed distributions made by the Fund to its stockholders. Furthermore, stockholders will also receive, if appropriate, various written notices after the close of each Fund's taxable year regarding the United States federal income tax status of certain dividends, distributions and deemed distributions that were paid, or that are treated as having been paid, by that Fund to its stockholders during the preceding taxable year. For a more detailed discussion of tax matters affecting each Fund and its stockholders, see "Taxation" in the SAI.

INFORMATION ABOUT THE MERGER

GENERAL.

Under the Plan, CRF will merge with and into EIS on the Effective Date. As a result of the Merger and on the Effective Date:

- CRF will no longer exist, and
- EIS will be the surviving corporation

Each Eligible Share of outstanding stock of CRF will convert into an equivalent dollar amount of shares of stock and fractional shares of stock of EIS, based on the net asset value per share of each Fund calculated at 4:00 p.m. (New York time) on the Business Day preceding the Effective Date. All Ineligible Shares shall receive cash equal to the Cash Price. No sales charge or fee of any kind will be charged to CRF stockholders in connection with their receipt of EIS common stock in the Merger.

Edgar Filing: EIS FUND INC - Form N-14

As noted above, under EIS's current By-laws, the Fund is not allowed to transfer shares if such transfer would or might, in the reasonable opinion of the Fund's Board of Directors, incur any responsibility for substantial expenses or any responsibility of EIS to make any regulatory filings in any jurisdiction outside the United States. As such, only Eligible Stockholders that are current CRF stockholders will receive shares of EIS and any Ineligible Stockholders will receive cash equal to the Cash Price. The Board of Directors of CRF determined at the August 2, 2002 Quarterly Meeting of the Board of Directors that the proposed merger was in the best interest of the Fund even though the potential existed that less than 2% of CRF's stockholders would receive cash rather than voting stock of EIS as a result of the Merger if approved by the stockholders.

-22-

Under Maryland and New York law, stockholders of a corporation whose shares are traded publicly on a national securities exchange, such as the Funds' shares, are not entitled to demand the fair value of their shares upon a merger; therefore, the stockholders of the Funds will be bound by the terms of the Merger. However, any stockholder of either Fund may sell his or her shares of common stock at any time prior to the Effective Date on the NYSE.

The Plan may be terminated and the Merger abandoned, whether before or after approval by the Funds' stockholders, at any time prior to the Effective Date:

- by the mutual written consent of the Board of Directors of each Fund, or
- by either Fund if the conditions to that Fund's obligations under the Plan have not been satisfied or waived.

If the Merger has not been consummated by December 31, 2002, the Plan automatically terminates on that date, unless a later date is mutually agreed upon by the Board of Directors of each Fund.

REASONS FOR THE MERGER.

The Board of Directors of each Fund considered and unanimously approved the proposed Merger at separate meetings of each Board held on August 2, 2002. For the reasons discussed below, the Board of Directors of each Fund, including Non-interested Directors of each Fund, after consideration of the potential benefits of the Merger to the stockholders of that Fund and the expenses expected to be incurred by that Fund in connection with the Merger, unanimously determined that:

- the interests of the existing stockholders of that Fund will not be diluted as a result of the proposed Merger, and
- the proposed Merger is in the best interests of that Fund and its stockholders.

Three principal factors led to the Boards of Directors to reach these conclusions: (1) the Merger will create a larger Fund and, consequently, should, all other factors being equal, result in an expense ratio that is lower than the expense ratio of either Fund; (2) the larger Fund should provide better market liquidity for stockholders who want to sell their shares or add to their holdings; and (3) it has been a prime objective of each Board, through a variety of actions, to reduce the discount at which shares trade. The Boards believe that, all other things being equal, a lower expense ratio and better market

Edgar Filing: EIS FUND INC - Form N-14

liquidity for the shares should lead to a lower discount.

IN THE JUDGMENT OF THE BOARD OF DIRECTORS OF EACH FUND, THE MERGER SERVES THE BEST INTERESTS OF EACH FUND AND ITS STOCKHOLDERS.

-23-

Stockholders should note that the Boards of Directors of the two Funds are identical. Therefore, although the Non-interested Directors are "non-interested" with respect to each of the Funds under the Investment Company Act, they are not at arm's length with respect to the proposed Merger.

The Boards also considered whether a larger asset base would provide benefits in portfolio management. In addition, a larger asset size could result in a more liquid trading market for shares of EIS than either Fund currently enjoys separately, which might have a positive impact on the discount at which each Fund's shares have tended to trade. Further, the Merger itself should focus the attention of a wider circle of securities analysts on EIS, and after the Merger, may facilitate securities analysts' following of this Fund because the Merger may eliminate confusion in the marketplace that results from two funds with a similar objective, and similar policies managed by the same adviser.

There can be no guarantee that any of these potential beneficial results will be realized.

The Board of Directors of each Fund, in declaring advisable and recommending the proposed Merger, also considered the following:

- (1) the capabilities and resources of Cornerstone Advisors in the area of investment management;
- (2) expense ratios and information regarding fees and expenses of the Funds, both currently and on a pro forma basis;
- (3) the terms and conditions of the Merger and whether it would result in dilution of the interests of each Fund and its existing stockholders;
- (4) the compatibility of each Fund's portfolio securities, investment objective, policies and restrictions;
- (5) the tax consequences to each Fund and its stockholders in connection with the Merger;
- (6) the consequences to any Persons that are ineligible to receive shares of EIS common stock in connection with the Merger; and
- (7) the anticipated expenses of the Merger.

In reviewing issues relating to the structure of the Merger and the selection of the surviving corporation in the Merger, each Board also considered information provided to them by Cornerstone Advisors concerning:

- (1) the comparative performance records of the two Funds,
- (2) public and market perception of the two Funds,
- (3) the relative size of the two Funds,

- (4) the investment policies, strategies and personnel Cornerstone Advisors intends to utilize in managing the merged fund, and
- (5) Cornerstone Advisors' recommendation that EIS be the surviving corporation.

Based on the factors discussed above, the Board of Directors of each Fund concluded that the expenses of the Merger are outweighed by the benefits that are anticipated to be derived from the Merger. In addition, the Boards of each Fund, including the Non-interested Directors of each Fund, have unanimously concluded that:

- the Merger is in the best interests of each respective Fund, and
- the interests of existing Stockholders of each respective Fund will not be diluted as a result of the transactions contemplated by the Plan.

TERMS OF THE MERGER AGREEMENT.

The following is a summary of the significant terms of the Plan. This summary is qualified in its entirety by reference to the Plan, attached hereto as Exhibit A.

At the Effective Date, each share of Eligible Stock of CRF will convert into an equivalent dollar amount of EIS common stock, based on the net asset value per share of each Fund calculated at 4:00 p.m. (New York time) on the Business Day preceding the Effective Date. EIS will issue fractional shares to Eligible stockholders. All Ineligible Stockholders shall receive cash equal to the Cash Price in exchange for their shares of CRF common stock.

For purposes of valuing assets in connection with the Merger, the assets of CRF will be valued pursuant to the principles and procedures consistently utilized by EIS, which principles and procedures are also utilized by CRF in valuing its own assets and determining its own liabilities. As a result, it is not expected that EIS's valuation procedures as applied to CRF's portfolio securities will result in any difference from the valuation that would have resulted from the application of CRF's valuation procedures to such securities. The net asset value per share of EIS common stock will be determined in accordance with these principles and procedures, and EIS will certify the computations involved. The net asset value per share of each Fund will not be adjusted to take into account differences in unrealized gains and losses, nor will it be adjusted to take into account the potential value of tax loss carryforwards, if any.

EIS will issue separate certificates or share deposit receipts for EIS common stock to Eligible Stockholders. EIS will deliver these certificates or share deposit receipts representing shares of EIS common stock to The Fifth Third Bank, as the transfer agent and registrar for EIS common stock. EIS will not permit any Eligible stockholder to receive new certificates representing shares of EIS common stock until the stockholder has surrendered his or her outstanding certificates representing shares of the common stock of CRF or, in the event of lost certificates, posted adequate bond. CRF will request its stockholders to surrender their outstanding certificates representing shares of the common stock of CRF or post adequate bond therefor. Dividends payable to

Edgar Filing: EIS FUND INC - Form N-14

holders of record of shares of EIS as of any date after the Effective Date and prior to the exchange of certificates by any stockholder of CRF will be paid to such stockholder, without interest; however, such dividends will not be paid unless and until such stockholder surrenders his or her stock certificates of CRF for exchange.

PLEASE DO NOT SEND IN ANY STOCK CERTIFICATES AT THIS TIME. UPON CONSUMMATION OF THE MERGER, STOCKHOLDERS OF CRF WILL BE FURNISHED WITH INSTRUCTIONS FOR EXCHANGING THEIR STOCK CERTIFICATES FOR EIS STOCK CERTIFICATES.

The net asset value of the EIS shares received by an Eligible Stockholders will be equal to the aggregate net asset value of the CRF shares exchanged. The cash received by an Ineligible Stockholder will be equal to the Cash Price.

The Plan provides, among other things, that the Merger will not take place without:

- the requisite approval of the stockholders of EIS and CRF, and
- the effectiveness of a Registration Statement on Form N-14.

The Plan may be terminated at any time prior to the Effective Date by mutual agreement of each Fund's Board of Directors or by either Fund if the other has violated a condition of the Plan. The Plan will automatically terminate after December 31, 2002 if the Merger has not been consummated, unless such time is extended by mutual agreement of the Board of Directors of each Fund.

The Plan may be amended, modified or supplemented by mutual agreement of CRF and EIS. However, no amendments which would have the effect of changing the provisions for determining the number of shares issued to Eligible Stockholders or cash to Ineligible Stockholders will be permitted following the Meeting unless those stockholders consent to the amendment.

EXPENSES OF THE MERGER.

In evaluating the proposed Merger, Cornerstone Advisors has estimated the amount of expenses the Funds would incur, including, but not limited to, NYSE listing fees, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the Merger. The estimated total expenses pertaining to the Merger is approximately \$140,000. For more information about the expenses of the Merger, See "Synopsis-Expenses of the Merger."

The expenses of the Merger are expected to result in a reduction in net asset value per EIS share of approximately \$0.03, and a reduction in net asset value per CRF share of approximately \$0.01.

-26-

TAX CONSIDERATIONS.

The Plan and Merger are conditioned upon the receipt by the Funds of an opinion from Spitzer & Feldman P.C., substantially to the effect that, based upon the facts, assumptions and representations of the parties, for federal income tax purposes:

Edgar Filing: EIS FUND INC - Form N-14

- the Merger will constitute a tax-free "reorganization" within the meaning of Section 368(a)(1) of the Code, and each Fund will be "a party to a reorganization" within the meaning of Section 368(b) of the Code,
- no gain or loss will be recognized by either Fund as a result of the Merger,
- the basis of the assets of CRF in the hands of EIS will be the same as the basis of such assets to CRF immediately prior to the Merger,
- the holding period of the assets of CRF in the hands of EIS will include the period during which such assets were held by CRF,
- except for any Ineligible Stockholders that receive cash ("Boot"), no gain or loss will be recognized by the Eligible Stockholders of CRF upon the conversion of their CRF shares into EIS common stock,
- the basis of EIS shares received by the Eligible Stockholders will be the same as the basis of the shares (including fractional share interests) of CRF exchanged therefor, and
- the holding period of EIS shares (including fractional share interests) received by the Eligible Stockholders will include the holding period during which the shares of CRF exchanged therefor were held, provided that at the time of the exchange the shares of CRF were held as capital assets in the hands of the stockholders of CRF.

While CRF is not aware of any adverse state or local tax consequences of the proposed Merger, it has not requested any ruling or opinion with respect to such consequences and stockholders may wish to consult their own tax advisers with respect to such matters.

The Board of Directors of each Fund considered these positions as part of their overall process of considering the proposed Merger. They also considered professional advice that they received regarding the future use of these various capital loss categories to offset future capital gains. This professional advice included the possibility that in some circumstances utilization of the capital loss carryforwards might be restricted, in part because of the Merger. The Boards also considered whether the ability to continue to utilize the capital loss carryforwards should be made a condition to the effectiveness of the Merger and concluded that it should not. The Boards concluded that in their respective judgments, under all of the facts and circumstances known to them after considering the advice of their professional advisers, the Merger is in the best interests of both Funds and their stockholders, even if as a consequence there may be "truncation" (restriction on the utilization) of the capital loss carryforwards under the Internal Revenue Code."

ADDITIONAL INFORMATION ABOUT THE FUNDS

DESCRIPTION OF SECURITIES TO BE ISSUED.

The authorized stock of EIS consists of Fifteen Million (15,000,000) shares of common stock, U.S. \$0.01 par value. Shares of EIS entitle its holders to one vote per share. Holders of EIS's common stock are entitled to share equally in dividends authorized by the Fund's Board of Directors payable to the holders of such common stock and in the net assets of EIS available for

Edgar Filing: EIS FUND INC - Form N-14

distribution to holders of such common stock. Shares have noncumulative voting rights and no conversion, preemptive or other subscription rights, and are not redeemable. The outstanding shares of common stock of EIS are fully paid and non-assessable. In the event of liquidation, each share of common stock is entitled to its proportion of the Fund's assets after payment of debts and expenses. EIS holds stockholder meetings annually.

The following table shows information about the common stock of each Fund as of June 30, 2002.

EIS ----	AMOUNT AUTHORIZED	AMOUNT HELD BY FUND	AMOUNT OUTSTANDING
Common Stock	15,000,000	0	2,174,766
CRF			
Common Stock	100,000,000	0	4,598,636

The shares of common stock of EIS and CRF are listed and trade on the NYSE under the symbols "EIS" and "CRF", respectively. As of June 30, 2002, the net asset value of EIS common stock was \$15.32, and the market price per share was \$14.25. As of that same date, the net asset value of CRF common stock was \$8.59, and the market price per share was \$7.25.

DISCOUNT TO NET ASSET VALUE.

Shares of closed-end investment companies, such as the Funds, have frequently traded at a discount from net asset value. This characteristic is a risk separate and distinct from the risk that the Funds' net asset values may decrease, and this risk may be greater for stockholders expecting to sell their shares in a relatively short period. THE SHARES OF COMMON STOCK OF THE FUNDS SHOULD THUS BE VIEWED AS BEING DESIGNED PRIMARILY FOR LONG-TERM INVESTORS AND SHOULD NOT BE CONSIDERED A VEHICLE FOR TRADING PURPOSES.

During the period since the inception of the Funds, the common stock of both Funds has generally traded at a discount to net asset value, and does so currently. It is not possible to state whether shares of EIS will trade at a premium or discount to net asset value following the Merger, or the extent of any such premium or discount. The Directors of both Funds have regularly considered, and the Directors of EIS will continue to consider, the respective Fund's market price discount and the effect of the discount on the Fund and its stockholders.

CAPITALIZATION.

The following table shows on an unaudited basis the capitalization of EIS and CRF as of June 30, 2002 and on a pro forma basis as of that same date giving effect to the Merger:

	EIS	CRF	PRO FORMA
Net Assets	39,547	46,440	
Shares Outstanding(1)	2,161,091	4,631

DIVIDENDS AND OTHER DISTRIBUTIONS.

Each Fund intends to distribute dividends from its net investment income and any net realized capital gains after utilization of capital loss carryforwards annually to prevent application of a federal excise tax. An additional distribution may be made if necessary. Any dividends or capital gains distributions declared in October, November or December with a record date in such a month and paid during the following January will be treated by stockholders for federal income tax purposes as if received on December 31 of

Edgar Filing: EIS FUND INC - Form N-14

the calendar year in which it is declared. Dividends and distributions of each Fund are invested in shares of the Fund at market value and credited to the stockholder's account on the settlement date which is usually three Business Days from the purchase date or, at the stockholder's election, paid in cash.

On June 19, 2002, CRF's Board of Directors authorized the implementation of a fixed, monthly distribution policy whereby CRF would distribute on a monthly basis \$0.0925 per share to its stockholders. On the same date stated above, EIS's Board of Directors reaffirmed their prior decision which implemented a fixed, distribution policy whereby EIS will distribute on a monthly basis \$0.165 per share to its stockholders. Each distribution could consist of either income, capital gains, return of capital or a combination of all three. The Board of Directors of EIS, in its continuing discretion, intends to continue a fixed, monthly distribution policy after the Merger.

PORTFOLIO VALUATION.

Investments of each Fund are stated at value in each Fund's financial statements. All securities for which market quotations are readily available are valued at the last sales price or lacking any sales, at the closing price last quoted for the securities (but if bid and asked quotations are available, at the mean between the current bid and asked prices). Securities that are traded over-the-counter are valued at the mean between the current bid and the asked prices, if available. All other securities and assets are valued at fair value as determined in good faith by each Fund's Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors of each Fund has established general guidelines for calculating fair value of securities that are not readily marketable. The net asset value per share of each Fund is made public weekly.

-30-

For purposes of valuing assets in connection with the Merger, the assets of CRF will be valued pursuant to the principles and procedures consistently utilized by EIS, which principles and procedures are also utilized by CRF in valuing its own assets and determining its own liabilities. As a result, it is not expected that EIS's valuation procedures as applied to CRF's portfolio securities will result in any difference from the valuation that would have resulted from the application of CRF's valuation procedures to such securities.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN.

Each Fund operates a Dividend Reinvestment and Cash Purchase Plan (the "Program"), pursuant to which Fund dividends and distributions, net of any applicable U.S. withholding tax, are reinvested in shares of the Fund. CRF's Program is sponsored and administered by American Stock Transfer & Trust Co. (the "CRF Agent"), and EIS's Program is sponsored and administered by The Fifth Third Bank (the "EIS Agent"). Collectively, the CRF Agent and EIS Agent shall be referred to hereinafter as the "Agent".

Stockholders who have shares registered directly in their own names automatically participate in the respective Fund's Program, unless and until an election is made to withdraw from the Program on behalf of such participating stockholder. Stockholders who do not wish to have distributions automatically reinvested should so notify the Agent. Under the Program, each of the Fund's respective dividends and other distributions to stockholders are reinvested in full and fractional shares as described below.

When the respective Fund declares an income dividend or a capital

Edgar Filing: EIS FUND INC - Form N-14

gain or other distribution (each, a "Dividend" and collectively, "Dividends"), the Agent, on the stockholders behalf, will (i) receive additional authorized shares from the respective Fund either newly issued or repurchased from stockholders by the Fund and held as treasury stock ("Newly Issued Shares") or, (ii) at the sole discretion of the Board of Directors, be authorized to purchase outstanding shares on the open market, on the NYSE or elsewhere, with cash allocated to it by the respective Fund ("Open Market Purchases").

Shares acquired by the Agent in Open Market Purchases will be allocated to the reinvesting stockholders based on the average cost of such Open Market Purchases. Alternatively, the Agent will allocate Newly Issued Shares to the reinvesting stockholders at a price equal to the average closing price of the respective Fund over the five trading days preceding the payment date of such dividend.

-31-

Registered stockholders who acquire their shares through Open Market Purchases and who do not wish to have their Dividends automatically reinvested should so notify the Fund in writing. If a stockholder has not elected to receive cash Dividends and the Agent does not receive notice of an election to receive cash Dividends prior to the record date of any Dividend, the stockholder will automatically receive such Dividends in additional shares.

Participants in the Program may withdraw from the Program by providing written notice to the Agent at least 30 days prior to the applicable Dividend payment date. When a Participant withdraws from the Program, or upon termination of the Program as provided below, certificates for whole shares credited to his/her account under the Program will, upon request, be issued. Whether or not a participant requests that certificates for whole shares be issued, a cash payment will be made for any fraction of a share credited to such account.

The Agent will maintain all stockholder accounts in the Program and furnish written confirmations of all transactions in the accounts, including information needed by stockholders for personal and tax records. The Agent will hold shares in the account of each Program participant in non-certified form in the name of the participant, and each stockholder's proxy will include those shares purchased pursuant to the Program. Each participant, nevertheless, has the right to receive certificates for whole shares owned. The Agent will distribute all proxy solicitation materials to participating stockholders.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are beneficial owners participating in the Program, the Agent will administer the Program on the basis of the number of shares certified from time to time by the record stockholder as representing the total amount of shares registered in the stockholder's name and held for the account of beneficial owners participating in the Program.

All correspondence concerning CRF's Program should be directed to the CRF Agent at 59 Maiden Lane, New York, New York 10038. All correspondence concerning EIS's Program should be directed to the EIS Agent at 38 Fountain Square Plaza, Cincinnati, OH 45202.

CORPORATE GOVERNANCE PROVISIONS.

CRF

Edgar Filing: EIS FUND INC - Form N-14

The By-laws of CRF contain provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund, to cause it to engage in certain transactions or to modify its structure. The Board of Directors of CRF is divided into three classes each having a term of three years. Each year, the term of one class expires and the successor or successors elected to such class will serve for a three-year term. This provision could delay the replacement of a majority of the Board of Directors for up to two years.

In addition, the affirmative vote of at least sixty-six and two-thirds (66 2/3%) of the holders of the shares of either of the Funds is required to authorize any of the following transactions:

-32-

(i) merger, consolidation or share exchange of either of the Funds with or into any Principal Shareholder (as defined below);

(ii) issuance by either of the Funds of any securities of either of the Funds to any Principal Shareholder for cash;

(iii) sale, lease, or exchange by either of all or any substantial part of the assets of the Funds to any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000 aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period); and

(iv) The sale, lease or exchange to the Funds, in exchange for securities of the Funds, of any assets of any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000 aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

CRF's By-laws contain provisions the effect of which is to prevent matters, including nominations of directors, from being considered at stockholders' meetings where the Fund has not received sufficient prior notice of the matters.

The Board of Directors of CRF has determined that the foregoing voting requirements are in the best interests of Stockholders generally.

A "Principal Shareholder" is defined in each Fund's respective Articles of Incorporation as any corporation, person or other entity which is the beneficial owner, directly or indirectly, of more than five percent (5%) of the outstanding shares of any class of stock of the respective Fund and shall include any affiliate or associate, as such terms are defined in clause (ii) below, of a Principal Shareholder. In addition to the shares of stock which a corporation, person or other entity beneficially owns directly, (a) any corporation, person or other entity shall be deemed to be the beneficial owner of any shares of stock of either of the Funds (i) which it has the right to acquire pursuant to any agreement or upon exercise of conversion rights or warrants, or otherwise (but excluding stock option granted by the respective Fund), or (ii) which are beneficially owned, directly or indirectly (including shares deemed owned through application of clause (i) above), by any other corporation, person or entity with which it or its "affiliate" or "associate" (as defined below) has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting or disposing of stock of either Fund, or

Edgar Filing: EIS FUND INC - Form N-14

which is its "affiliate" or "associate," as those terms are defined in Rule 12b-2 of the 1934 Act, and (b) the outstanding shares of any class of stock of either Fund shall include shares deemed owned through application of clauses (i) and (ii) above but shall not include any other shares which may be issuable pursuant to any agreement, or upon exercise of conversions rights or warrants, or otherwise.

-33-

EIS

While EIS's current By-laws do not contain any of the restrictions that are contained in CRF's By-laws, it does contain a provision that does not allow it to transfer shares if such transfer would or might, in the reasonable opinion of the Fund's Board of Directors, incur any responsibility for substantial expenses or any responsibility of EIS to make any regulatory filings in any jurisdiction outside the United States. This provision will not allow the Fund to issue shares of its common stock to any stockholders that would require the Fund to incur any substantial expense or the responsibility to make any regulatory filings in any jurisdiction outside of the United States.

PROVISIONS IN BOTH FUNDS BY-LAWS.

Each Fund's By-laws provide, among other things, that:

- o certain advance notice requirements must be met in order for Stockholders to submit proposals at annual meetings and for nominations by stockholders for election to the Board of Directors, and
- o the power to amend the By-laws is reserved to the Board of Directors, except as otherwise required by the Investment Company Act.

MANAGEMENT OF THE FUNDS

DIRECTORS AND PRINCIPAL OFFICERS.

The business and affairs of each Fund are managed under the direction of that Fund's Board of Directors, and the day-to-day operations are conducted through or under the direction of the officers of that Fund.

EIS PROPOSAL 2

Edgar Filing: EIS FUND INC - Form N-14

RATIFICATION OF THE CHANGE IN THE NAME OF THE FUND FROM "EIS FUND, INC." TO "CORNERSTONE TOTAL RETURN FUND, INC."

In connection with the proposed merger of EIS and CRF, the Board of Directors of EIS authorized an amendment to the EIS's Certificate of Incorporation to change the name of the Fund from "EIS Fund, Inc." to "Cornerstone Total Return Fund, Inc.", but only in the event that the proposed merger is approved by the stockholders of EIS and CRF. Under the New York Business Corporation Law, an amendment to a certificate of incorporation, which changes the name of the corporation, must be authorized by the Board of Directors and ratified by a majority of the outstanding shares entitled to vote.

At the Board of Directors Meeting held on August 2, 2002, the Board of Directors unanimously authorized the amendment to the Certificate of Incorporation to change the name of the Fund from "EIS, Inc." to "Cornerstone Total Return Fund, Inc.", as set forth on Exhibit C.

Accordingly, the Board of Directors believes that, subject to stockholder ratification of Proposal 2, changing the name of the Fund to "Cornerstone Total Return Fund, Inc." is necessary and appropriate and in the best interests of the Fund and its shareholders.

REQUIRED VOTE

Ratification of the name change requires the affirmative vote of the holders of a majority of the Fund's outstanding voting securities. If the name change is approved by the Fund's stockholders, such change will become effective immediately following the filing of the Fund's Certificate of Amendment to the Certificate of Incorporation with the New York State Department of State.

THE BOARD OF DIRECTORS, INCLUDING THE NON-INTERESTED DIRECTORS, RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE RATIFICATION OF THE AMENDMENT TO THE FUND'S CERTIFICATE OF INCORPORATION TO CHANGE THE NAME OF THE FUND FROM "EIS FUND, INC." TO "CORNERSTONE TOTAL RETURN FUND, INC."

CRF has elected and qualified for the special tax treatment afforded regulated investment companies ("RIC") under Sections 851-855 of the Code at all times since its inception. CRF is qualified as a foreign corporation in every jurisdiction where required, except to the extent that failure to so qualify would not have a material adverse effect on CRF.

-2-

3.3. REGULATORY CONSENTS AND APPROVALS. No consent, approval, authorization, or order of any court or governmental authority is required for the consummation by CRF of the transactions contemplated herein, except (i) such as have been obtained or applied for under the Securities Act of 1933, as amended (the "1933 Act"), the Securities Exchange Act of 1934 (the "1934 Act"), and the 1940 Act, (ii) such as may be required by state securities laws and (iii) such as may be required under Maryland law for the acceptance for record of the Articles of Merger by the Department.

3.4. NONCONTRAVENTION. CRF is not, and the execution, delivery and performance of this Agreement by CRF will not result in, a violation of the laws of the State of Maryland or of the Articles of Incorporation or the By-laws of CRF, or of any material agreement, indenture, instrument, contract, lease or other undertaking to which CRF is a party or by which it is bound, and the execution, delivery and performance of this Agreement by CRF will not result in the acceleration of any obligation, or the imposition of any penalty, under any agreement, indenture, instrument, contract, lease, judgment or decree to which CRF is a party or by which it is bound.

3.5. FINANCIAL STATEMENTS. EIS has been furnished with CRF's Annual Report of Stockholders, as of December 31, 2001, said financial statements having been examined by PricewaterhouseCoopers LLP, independent public auditors. These financial statements are in accordance with generally accepted accounting principles applied on a consistent basis ("GAAP") and present fairly, in all material respects, the financial position of CRF as of such date in accordance with GAAP, and there are no known contingent liabilities of CRF required to be reflected on a balance sheet (including the notes thereto) in accordance with GAAP as of such date not disclosed therein.

EIS has also been furnished with CRF's Semi-Annual Report to Stockholders dated as of June 30, 2001. 3.8. LEGAL COMPLIANCE. No material litigation or administrative proceeding or investigation of or before any court or governmental body is presently pending (in which service of process has been received) or to its knowledge threatened against CRF or any properties or assets held by it. 3.9. MATERIAL CONTRACTS. There are no material contracts outstanding to which CRF is a party that have not been disclosed in the N-14 Registration Statement (as defined in Section 3.13 below) or will not be otherwise disclosed to EIS prior to the Effective Date.

3.10. UNDISCLOSED LIABILITIES. Prior to the Effective Date, CRF will advise EIS in writing of all known liabilities, contingent or otherwise, whether or not incurred in the ordinary course of business, existing or accrued. For purposes of this Section 3.10, a decline in net asset value per share of CRF due to declines in market values of securities in CRF's portfolio or the discharge of CRF liabilities will not constitute a material adverse change.

3.11. TAX FILINGS. All federal and other tax returns and information reports of CRF required by law to have been filed shall have been filed and are or will be correct in all material respects, and all federal and other taxes shown as due or required to be shown as due on said returns and reports shall have been paid or provision shall have been made for the payment thereof, and, to the best of CRF's knowledge, no such return is currently under audit and no assessment has been asserted with respect to such returns. All tax liabilities of CRF have been adequately provided for on its books, and no tax deficiency or liability of CRF has been asserted and no question with respect thereto has been raised by the Internal Revenue Service or by any state or local tax authority for taxes in excess of those already paid, up to and including the taxable year in which the Effective Date occurs.

4.13. FORM N-14. The N-14 Registration Statement, on the effective date of the N-14 Registration Statement, at the time of the shareholders' meetings referred to in Section 6 of this Agreement and at the Effective Date, insofar as it relates to EIS (i) shall have complied or will comply in all material respects with the provisions of the 1933 Act, the 1934 Act and the 1940 Act and the rules and regulations thereunder and (ii) did not or will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading; and the prospectus included therein did not or will not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; provided, however, that the

(b) Fractional shares of EIS will be issued to CRF's Eligible Shareholders.

5.2. COMPUTATION OF NET ASSET VALUE. The net asset value per share of the Parties shall be determined as of the Valuation Time, and no formula will be used to adjust the net asset value so determined of either of the parties to take into account differences in realized and unrealized gains and losses. 5.4. ISSUANCE OF CASH. All Ineligible Shareholders shall receive cash equal to the average market price for the five day trading period prior to the Effective Date ("Cash Price").

5.5. SURRENDER OF CRF STOCK CERTIFICATES. With respect to any CRF shareholder holding certificates representing shares of the common stock of CRF as of the Effective Date, and subject to EIS being informed thereof in writing by CRF, EIS will not permit such shareholder to receive new certificates evidencing ownership of EIS common stock until such shareholder has surrendered his or her outstanding certificates evidencing ownership of the common stock of CRF or, in the event of lost certificates, posted adequate bond. CRF will request its shareholders to surrender their outstanding certificates representing certificates of the common stock of CRF or post adequate bond therefor. Dividends payable to holders of record of shares of EIS as of any date after the Effective Date and prior to the exchange of certificates by any shareholder of CRF shall be paid to such shareholder, without interest; however, such dividends shall not be paid unless and until such shareholder surrenders his or her stock certificates of CRF for exchange.

8.8. SATISFACTION OF CRF. All proceedings taken by EIS and its counsel in connection with the Merger and all documents incidental thereto shall be satisfactory in form and substance to CRF.

8.9. DIVIDENDS. Prior to the Effective Date, EIS shall have declared and paid a dividend or dividends which, together with all such previous dividends, shall have the effect of distributing to its shareholders substantially all of its net investment company taxable income that has accrued through the Effective Date, if any (computed without regard to any deduction of dividends paid), and substantially all of its net capital gain, if any, realized through the Effective Date.

9. PAYMENT OF EXPENSES

9.1. ALLOCATION. All expenses incurred in connection with the Merger shall be allocated equally between EIS and CRF in the event the Merger is consummated. Such expenses shall include, but not be limited to, all costs related to the preparation and distribution of the N-14 Registration Statement, proxy solicitation expenses, SEC registration fees, and NYSE listing fees. Neither of the Parties owes any broker's or finder's fees in connection with the

Edgar Filing: EIS FUND INC - Form N-14

transactions provided for herein.

10. COOPERATION FOLLOWING EFFECTIVE DATE

In case at any time after the Effective Date any further action is necessary to carry out the purposes of this Agreement, each of the Parties will take such further action (including the execution and delivery of such further instruments and documents) as any other Party may reasonably request, all at the sole cost and expense of the requesting Party (unless the requesting Party is entitled to indemnification as described below). CRF acknowledges and agrees that from and after the Effective Date, EIS shall be entitled to possession of all documents, books, records, agreements and financial data of any sort pertaining to CRF.

11. INDEMNIFICATION

11.1. CRF. EIS agrees to indemnify and hold harmless CRF and each of CRF's directors and officers from and against any and all losses, claims, damages, liabilities or expenses (including, without limitation, the payment of reasonable legal fees and reasonable costs of investigation) to which jointly and severally, CRF or any of its directors or officers may become subject, insofar as any such loss, claim, damage, liability or expense (or actions with respect thereto) arises out of or is based on any breach by EIS of any of its representations, warranties, covenants or agreements set forth in this Agreement.

-19-

11.2. EIS. CRF agrees to indemnify and hold harmless EIS and each of EIS's directors and officers from and against any and all losses, claims, liabilities or expenses (including, without limitation, the payment of reasonable legal fees and reasonable costs of investigation) to which jointly and severally, EIS or any of its directors or officers may become subject, insofar as any such loss, claim, damage, liability or expense (or actions with respect thereto) arises out of or is based on any breach by CRF of any of its representations, warranties, covenants or agreements set forth in this Agreement.

12. TERMINATION, POSTPONEMENT AND WAIVERS

12.1. TERMINATION.

(a) Notwithstanding anything to the contrary in this Agreement, this Agreement may be terminated and the Merger abandoned at any time (whether before or after adoption by the shareholders of each of the Parties) prior to the Effective Date, or the Effective Date may be postponed by: (i) mutual agreement of the Parties' Board of Directors; (ii) the Board of Directors of EIS if any of the obligations of CRF set forth in this Agreement has not been fulfilled or waived by such Board or if CRF has made a material and intentional misrepresentation herein or in connection herewith; or (iii) the Board of Directors of CRF if any of the obligations of EIS set forth in this Agreement has not been fulfilled or waived by such Board or if EIS has made a material and intentional misrepresentation herein or in connection herewith.

(b) If the transaction contemplated by this Agreement shall not have been consummated by December 31, 2002, this Agreement automatically shall terminate on that date, unless a later date is mutually agreed to by the Boards of Directors of the Parties.

Edgar Filing: EIS FUND INC - Form N-14

(c) In the event of termination of this Agreement pursuant to the provisions hereof, the Agreement shall become void and have no further effect, and there shall not be any liability hereunder on the part of either of the parties or their respective directors or officers, except for any such material breach or intentional misrepresentation, as to each of which all remedies at law or in equity of the party adversely affected shall survive.

12.2. WAIVER. At any time prior to the Effective Date, any of the terms or conditions of this Agreement may be waived by the Board of Directors of either CRF or EIS (whichever is entitled to the benefit thereof), if, in the judgment of such Board after consultation with its counsel, such action or waiver will not have a material adverse effect on the benefits intended in this Agreement to the shareholders of their respective fund, on behalf of which such action is taken.

12.3. EXPIRATION OF REPRESENTATIONS AND WARRANTIES.

(a) The respective representations and warranties contained in Articles 3 and 4 of this Agreement shall expire with, and be terminated by, the consummation of the Merger, and neither of the Parties nor any of their officers, directors, agents or shareholders shall have any liability with respect to such representations or warranties after the Effective Date. This provision shall not protect any officer, director, agent or shareholder of the Parties against any liability to the entity for which that officer, director, agent or shareholder so acts or to its shareholders to which that officer, director, agent or shareholder would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties in the conduct of such office.

-20-

(b) If any order or orders of the SEC with respect to this Agreement shall be issued prior to the Effective Date and shall impose any terms or conditions which are determined by action of the Boards of Directors of the parties to be acceptable, such terms and conditions shall be binding as if a part of this Agreement without further vote or approval of the shareholders of the parties, unless such terms and conditions shall result in a change in the method of computing the number of shares of EIS Common Stock to be issued pursuant to this Agreement, in which event, unless such terms and conditions shall have been included in the proxy solicitation materials furnished to the shareholders of the parties prior to the meetings at which the Merger shall have been approved, this Agreement shall not be consummated and shall terminate unless the parties call special meetings of shareholders at which such conditions so imposed shall be submitted for approval.

13. MISCELLANEOUS

13.1. TRANSFER RESTRICTION. Pursuant to Rule 145 under the 1933 Act, and in connection with the issuance of any shares to any person who at the time of the Merger is, to its knowledge, an affiliate of a party to the Merger pursuant to Rule 145(c), EIS will cause to be affixed upon the certificate(s) issued to such person (if any) a legend as follows:

THESE SHARES ARE SUBJECT TO RESTRICTIONS ON TRANSFER UNDER THE SECURITIES ACT OF 1933 AND MAY NOT BE SOLD OR OTHERWISE TRANSFERRED EXCEPT TO PROGRESSIVE RETURN FUND, INC. (OR ITS STATUTORY SUCCESSOR) UNLESS (I) A REGISTRATION STATEMENT WITH RESPECT THERETO IS EFFECTIVE UNDER THE SECURITIES ACT OF 1933 OR (II) IN THE OPINION OF COUNSEL

Edgar Filing: EIS FUND INC - Form N-14

REASONABLY SATISFACTORY TO THE FUND, SUCH REGISTRATION IS NOT REQUIRED.

and, further, that stop transfer instructions will be issued to EIS's transfer agent with respect to such shares. CRF will provide EIS on the Effective Date with the name of any CRF Shareholder who is to the knowledge of CRF an affiliate of it on such date.

13.2. MATERIAL PROVISIONS. All covenants, agreements, representations and warranties made under this Agreement and any certificates delivered pursuant to this Agreement shall be deemed to have been material and relied upon by each of the parties, notwithstanding any investigation made by them or on their behalf.

-21-

INTRODUCTION

This SAI is intended to supplement the information provided in the Proxy Statement/Prospectus dated September __, 2002 (the "Proxy Statement/Prospectus"). The Proxy Statement/Prospectus has been sent to the stockholders of CRF and EIS in connection with the solicitation of proxies by the Board of Directors of each Fund to be voted at the CRF Special Meeting of Stockholders and the EIS Special Meeting of Stockholders both to be held on October __, 2002. This SAI incorporates by reference the Prospectus of CRF dated as of January 29, 1996, the Fund's Annual Report to Stockholders for the fiscal

Edgar Filing: EIS FUND INC - Form N-14

year ended December 31, 2001 and Semi-Annual Report to Stockholders for the period ended June 30, 2002.

DESCRIPTION OF THE FUND

EIS was organized as a New York corporation in 1973 under the name "Excelsior Income Shares, Inc." At the Special Meeting of Stockholders held on December 27, 2001, the name of the Fund was changed to EIS Fund, Inc. EIS is a closed-end, diversified management investment company registered under the Investment Company Act of 1940, as amended (the "Investment Company Act") whose shares are listed on the New York Stock Exchange. EIS's investment objective is to seek total return consisting of capital appreciation and current income by investing primarily in U.S. and non U.S. companies. EIS's shares of common stock are listed on the NYSE under the symbol "EIS." Reports, proxy materials and other information concerning each Fund may be inspected at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

The authorized capitalization of EIS consists of 15,000,000 shares of common stock having \$0.01 par value per share (the "Shares"). Shares of the Fund have equal voting rights and liquidation rights. When matters are submitted to stockholders for a vote, each stockholder is entitled to one vote for each full Share owned and fractional votes for fractional Shares owned. The Fund holds its annual meeting of stockholders within 120 days after the end of its fiscal year which ends on December 31.

Each Share of EIS represents an equal proportionate interest in the assets and liabilities belonging to EIS with each other share of EIS and is entitled to such dividends and distributions out of the income belonging to EIS as are declared by the Board of Directors (the "Directors"). The Shares do not have cumulative voting rights or any preemptive or conversion rights. In the event of the dissolution or liquidation of the Fund, the holders of shares of the Fund are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders.

-1-

INVESTMENT POLICIES, RISKS AND RESTRICTIONS

The Proxy Statement/Prospectus presents the investment objective and the principal investment strategies and risks of the Fund. The investment objective of the Fund is to seek total return consisting of capital appreciation and current income by investing primarily in U.S. and non-U.S. companies. There can be no assurance that the Fund will achieve its investment objective. This section supplements the disclosure in the Fund's Proxy Statement/Prospectus and provides additional information on the Fund's investment policies and restrictions.

INVESTMENT OBJECTIVES OF THE FUND

The investment objective of the Fund is to seek total return consisting of capital appreciation and current income by investing primarily in U.S. and non-U.S. companies. The Fund's investment objectives are fundamental and may only be changed with shareholder approval. The policies, however, are not fundamental, and may be changed by the Fund's Board of Directors.

PRINCIPAL INVESTMENT STRATEGIES AND FUNDAMENTAL INVESTMENT RESTRICTIONS OF THE

Edgar Filing: EIS FUND INC - Form N-14

FUND

The Fund seeks to achieve its investment objectives by investing primarily in equity securities of U.S. companies and U.S. dollar denominated debt securities which Fund management believes have demonstrated fundamental investment value and favorable growth and income prospects. In general, the Fund will invest in such equity securities that are traded in the United States on a securities exchange or over the counter or by ADRs, IDRs or other forms of depositary receipts. Depositary receipts are traded like common stocks in the United States, are typically issued in connection with a U.S. or foreign banks or trust companies and evidence ownership of underlying securities issued by a foreign corporation.

The Fund intends its investment portfolio, under normal market conditions, to consist principally of the equity securities of large, mid and small-capitalization companies. Equity securities in which the Fund may invest include common and preferred stocks, convertible securities, warrants and other securities having the characteristics of common stocks, such as ADRs and IDRs. The Fund may, however, invest a portion of its assets in U.S. dollar denominated debt securities when Fund management believes that it is appropriate to do so in order to achieve the Fund's secondary investment objective, for example, when interest rates are high in comparison to anticipated returns on equity investments. Debt securities in which the Fund may invest include U.S. dollar denominated bank, corporate or government bonds, notes, and debentures of any maturity determined by Fund management to be suitable for investment by the Fund. The Fund may invest in the securities of issuers that it determines to be suitable for investment by the Fund regardless of their rating, provided, however, that the Fund may not invest in debt securities that are determined by Fund management to be rated below "BBB" by S&P or Moody's.

-2-

Fund management utilizes a balanced approach, including "value" and "growth" investing by seeking out companies at reasonable prices, without regard to sector or industry, that demonstrate favorable long-term growth characteristics. Valuation and growth characteristics may be considered for purposes of selecting potential investment securities. In general in the securities industry, valuation analysis is used to determine the inherent value of the company by analyzing financial information such as a company's price to book, price to sales, return on equity, and return on assets ratios, and growth analysis is used to determine a company's potential for long-term dividends and earnings growth due to market-oriented factors such as growing market share, the launch of new products or services, the strength of its management and market demand.

The Fund may also invest up to 10% of its assets in the aggregate in the securities of other investment companies and up to 5% of its assets in any one such investment company, provided that such investment does not represent more than 3% of the voting stock of the acquired investment company of which such shares are purchased. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

The Fund may invest up to 20% of the value of its total assets in illiquid U.S. securities. The Fund will invest only in such illiquid securities that, in the opinion of Fund management, present opportunities for substantial growth over a period of two to five years.

Edgar Filing: EIS FUND INC - Form N-14

PORTFOLIO TURNOVER. The Fund does not expect to trade in securities for short-term gains. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses. Since the Fund's investment policies emphasize long-term investment in the securities of companies, the Fund's annual portfolio turnover rate is expected to be relatively low, generally ranging between 25% and 75%.

PRINCIPAL RISKS OF INVESTING IN THE FUND

STOCK MARKET VOLATILITY. Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. The Fund is subject to the general risk that the value of the Fund's investments may decline if the stock markets perform poorly. There is also a risk that the Fund's investments will underperform either the securities markets generally or particular segments of the securities markets.

ISSUER SPECIFIC CHANGES. Changes in the financial condition of an issuer, changes in the specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect the credit quality or value of an issuer's securities. Lower-quality debt securities tend to be more sensitive to these changes than higher-quality debt securities.

-3-

INTEREST RATE RISK. Debt securities have varying levels of sensitivity to changes in interest rates. In general, the price of a debt security can fall when interest rates rise and can rise when interest rates fall. Securities with longer maturities and mortgage securities can be more sensitive to interest rate changes although they usually offer higher yields to compensate investors for the greater risks. The longer the maturity of the security, the greater the impact a change in interest rates could have on the security's price. In addition, short-term and long-term interest rates do not necessarily move in the same amount or the same direction. Short-term securities tend to react to changes in short-term interest rates and long-term securities tend to react to changes in long-term interest rates.

EXTENSION RISK. The Fund is subject to the risk that an issuer will exercise its right to pay principal on an obligation held by the Fund (such as mortgage-backed securities) later than expected. This may happen when there is a rise in interest rates. These events may lengthen the duration (i.e. interest rate sensitivity) and potentially reduce the value of these securities.

ILLIQUID SECURITIES. The Fund may invest up to 20% of its respective total assets in illiquid securities. Illiquid securities may offer a higher yield than securities which are more readily marketable, but they may not always be marketable on advantageous terms. The sale of illiquid securities often requires more time and results in higher brokerage charges or dealer discounts than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. A security traded in the U.S. that is not registered under the Securities Act of 1933 will not be considered illiquid if Fund management determines that an adequate investment trading market exists for that security. However, there can be no assurance that a liquid market will exist for any security at a particular time.

Edgar Filing: EIS FUND INC - Form N-14

INVESTMENT IN SMALL AND MID-CAPITALIZATION COMPANIES. The Fund may invest in companies with mid- or small-sized capital structures (generally a market capitalization of \$5 billion or less). Accordingly, the Fund may be subject to the additional risks associated with investment in these companies. The market prices of the securities of such companies tend to be more volatile than those of larger companies. Further, these securities tend to trade at a lower volume than those of larger more established companies. If the Fund is heavily invested in these securities and the value of these securities suddenly declines, the Fund will be susceptible to significant losses.

OVER-THE-COUNTER BULLETIN BOARD MARKETS. The Fund may invest in companies whose stock is trading on the over-the-counter Bulletin Board which have only a limited trading market. A more active trading market may never develop. The Fund may be unable to sell its investments in these companies on any particular day due to the limited trading market.

NON-PRINCIPAL INVESTMENT POLICIES

TEMPORARY DEFENSIVE POSITIONS. The Fund may, from time to time, take temporary defensive positions that are inconsistent with its principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. Such investments include various short-term instruments. If the Fund takes a temporary defensive position at the wrong time, the position would have an adverse impact on the Fund's performance and it may not achieve its investment objective. The Fund reserves the right to invest all of its assets in temporary defensive positions.

-4-

SECURITIES LENDING. The Fund may lend its portfolio securities to broker-dealers in amounts equal to no more than 30% of the Fund's net assets. These transactions will be fully collateralized at all times with cash and/or high quality, short-term debt obligations. These transactions involve risk to the Fund if the other party should default on its obligation and the Fund is delayed or prevented from recovering the securities lent. In the event the original borrower defaults on its obligation to return lent securities, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the Fund would suffer a loss and you could lose money on your investment.

BORROWING. The Fund shall not borrow money except (i) to purchase securities, provided that the aggregate amount of such borrowings may not exceed 20% of its total assets, taken at market value at the time of borrowing, and (ii) from banks for temporary or emergency purposes in an amount not exceeding 5% of the Fund's total assets, taken at market value at time of borrowing. To reduce its indebtedness, the Fund may have to sell a portion of its investments at a time when it may be disadvantageous to do so. In addition, interest paid by the Fund on borrowed funds would decrease the net earnings of the Fund

REPURCHASE AGREEMENTS. The Fund may enter into repurchase agreements collateralized by the securities in which it may invest. A repurchase agreement involves the purchase by the Fund of securities with the condition that the original seller (a bank or broker-dealer) will buy back the same securities ("collateral") at a predetermined price or yield. Repurchase agreements involve certain risks not associated with direct investments in securities. In the event the original seller defaults on its obligation to repurchase, the Fund will seek to sell the collateral, which could involve costs or delays. To the extent proceeds from the sale of collateral are less than the repurchase price, the

Edgar Filing: EIS FUND INC - Form N-14

Fund would suffer a loss.

INVESTMENT RESTRICTIONS

The following investment restrictions are deemed fundamental policies and may be changed only by the vote of a majority of the Fund's outstanding voting securities, which as used in this Prospectus means the lesser of (i) 67% of the Fund's outstanding shares of Common Stock present at a meeting of the holders if more than 50% of the outstanding shares of Common Stock are present in person or by proxy or (ii) more than 50% of the Fund's outstanding shares of Common Stock.

The Fund will not:

(1) Issue any senior securities (as defined in the Investment Company Act of 1940) except insofar as any borrowing permitted by item 2 below might be considered the issuance of senior securities.

-5-

(2) Borrow money except (i) to purchase securities, provided that the aggregate amount of such borrowings may not exceed 20% of its total assets, taken at market value at time of borrowing, and (ii) from banks for temporary or emergency purposes in an amount not exceeding 5% of its total assets, taken at market value at time of borrowing.

(3) Mortgage, pledge or hypothecate its assets in an amount exceeding 30% of its total assets, taken at market value at time of incurrence.

(4) Knowingly invest more than 20% of its total assets, taken at market value at time of investment, in securities subject to legal or contractual restrictions on resale, including securities which may be sold publicly only if registered under the Securities Act of 1933.

(5) Act as an underwriter, except to the extent that, in connection with the disposition of portfolio securities, the Fund may be deemed to be an underwriter under applicable securities laws.

(6) Purchase real estate or interests in real estate, except that the Fund may invest in securities secured by real estate or interests therein, or issued by companies, including real estate investment trusts, which deal in real estate or interests therein.

In addition, the Fund will reimburse those Directors for travel and out-of-pocket expenses incurred in connection with Board of Directors meetings.

The Fund has an Audit Committee and a Nominating Committee each of which is comprised of all of the non-interested members of the Board of Directors.

AUDIT COMMITTEE

The members of the Audit Committee of the Board of Directors are Messrs. Strauss, Wilcox and Rogers. The Audit Committee oversees the Fund's financial reporting process, reviews audit results and recommends annually to the Fund a firm of independent certified public accountants. During the fiscal year ended December 31, 2002, the Audit Committee held two meetings in which all of the members of the Audit Committee attended.

-10-

NOMINATING COMMITTEE

At the Quarterly Meeting of the Board of Directors held on August 2, 2002, the Board of Directors established a Nominating Committee. The members of the Nominating Committee of the Board of Directors are all Independent Directors

Edgar Filing: EIS FUND INC - Form N-14

and are Messrs. Strauss, Wilcox and Rogers. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for Trustees as is from time to time considered necessary or appropriate. The Nominating Committee will consider nominees recommended by stockholders of the Fund as long as the stockholders properly submit their recommendations as required under the Fund's By-laws.

The Fund's Board of Directors, including the Directors who are not interested persons of any party to the Cornerstone Agreement or its affiliates, approved the Cornerstone Agreement for the Fund on November 16, 2001, with its legal counsel in attendance.

In approving the Cornerstone Agreement and determining to submit it to the stockholders of the Fund for their approval, the Board of Directors considered the best interests of the stockholders and took into account factors they deemed relevant. The factors considered by the independent Directors included the nature, quality and scope of the operations and services to be provided by Cornerstone Advisors, while focusing on the prior experience of Cornerstone Advisors' principals with respect to: (i) the structure of closed-end investment companies in general; (ii) management of portfolios of U.S. equity securities; (iii) implementing aggressive policies to eliminate closed-end investment companies' discounts; and (iv) implementing policies to cut costs and expenses of closed-end investment companies. Furthermore, the Board of Directors of the Fund considered the opportunity to obtain high quality services at costs that it deemed appropriate and reasonable. The Board of Directors also reflected upon the intention of Cornerstone Advisors to continue to act as the investment manager to Progressive Return Fund, Inc., Cornerstone Strategic Value Fund, Inc. and The Cornerstone Strategic Return Fund, Inc. ("CFR"), thereby creating a family of closed-end funds including but not necessarily limited to EIS, PGF, CRF and CLM. Lastly, consideration was given to the fact that there exists no arrangement or understanding in connection with the Cornerstone Agreement with respect to the composition of the Board of Directors of the Fund or of Cornerstone Advisors or with respect to the selection or appointment of any person to any office of the Fund or Cornerstone Advisors.

-11-

The Code of Ethics also contains provisions designed to address the conflicts of interest that could arise from personal trading by advisory personnel. The following are some of the requirements under the Fund's and Cornerstone Advisors' Code of Ethics: (1) all Covered Persons must report their personal securities transactions at the end of each quarter; (2) with certain limited exceptions, all Covered Persons must obtain preclearance before executing any personal securities transactions; (3) Covered Persons may not execute personal trades in a security if there are any pending orders in that security by the respective Fund; and (4) Covered Persons may not invest in initial public offerings.

PORTFOLIO TRANSACTIONS

Decisions to buy and sell securities for the Fund are made by Cornerstone Advisors subject to the overall review of the Fund's Board of Directors. Portfolio securities transactions for the Fund are placed on behalf of the Fund by persons authorized by Cornerstone Advisors. Cornerstone Advisors manages other investment companies and accounts that invest in securities.

Edgar Filing: EIS FUND INC - Form N-14

Although investment decisions for the Fund is made independently from those of the other accounts, investments of the type the Fund may make may also be made on behalf of those other accounts. When the Fund and one or more of those other accounts is prepared to invest in, or desires to dispose of, the same security, available investments or opportunities for each will be allocated in a manner believed by Cornerstone Advisors to be equitable. In some cases, this procedure may adversely affect the price paid or received by the Fund or the size of the position obtained or disposed of by the Fund.

Transactions on U.S. and some foreign stock exchanges involve the payment of negotiated brokerage commissions, which may vary among different brokers. The cost of securities purchased from underwriters includes an underwriter's commission or concession, and the prices at which securities are purchased from and sold to dealers in the over-the-counter markets include an undisclosed dealer's mark-up or mark-down. Fixed income securities are generally traded on a "net" basis with dealers acting as principal for their own accounts without a stated commission, although the price of the security will likely include a profit to the dealer.

-14-

In selecting brokers or dealers to execute portfolio transactions on behalf of the Fund, Cornerstone Advisors will seek the best overall terms available. The Advisory Agreement provides that, in assessing the best overall terms available for any transaction, Cornerstone Advisors will consider the factors it deems relevant, including the breadth of the market in the security, the price of the security, the financial condition and execution capability of the broker or dealer and the reasonableness of the commission, if any, for the specific transaction and on a continuing basis. In addition, the Advisory Agreement authorizes Cornerstone Advisors in selecting brokers or dealers, to execute a particular transaction and in evaluating the best overall terms available, to consider the brokerage and research services (as those terms are defined in Section 28(e) of the Securities Exchange Act of 1934) provided to the Fund and/or other accounts over which Cornerstone Advisors exercises investment discretion. The fees payable under the Advisory Agreements are not reduced as a result of Cornerstone Advisors receiving such brokerage and research services.

The Board of Directors of the Fund will review periodically the commissions paid by that Fund to determine if the commissions paid over representative periods of time were reasonable in relation to the benefits inuring to such Fund.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

EIS operates a Dividend Reinvestment and Cash Purchase Plan (the "Program"), sponsored and administered by The Fifth Third Bank (the "Agent"), pursuant to which Fund dividends and distributions, net of any applicable U.S. withholding tax, are reinvested in shares of the Fund. The Fifth Third Bank, serves as the Program Administrator for the stockholders in administering the Program.

Stockholders who have shares registered directly in their own names automatically participate in the Fund's Program, unless and until an election is made to withdraw from the Program on behalf of such participating stockholder. Stockholders who do not wish to have distributions automatically reinvested should so notify the Agent at 38 Fountain Plaza Square, Cincinnati, OH 45202. Under the Program, the Fund's respective dividends and other distributions to stockholders are reinvested in full and fractional shares as described below.

Edgar Filing: EIS FUND INC - Form N-14

When the Fund declares an income dividend or a capital gain or other distribution (each, a "Dividend" and collectively, "Dividends"), the Agent, on the stockholders behalf, will (i) receive additional authorized shares from the Fund either newly issued or repurchased from stockholders by the Fund and held as treasury stock ("Newly Issued Shares") or, (ii) at the sole discretion of the Board of Directors, be authorized to purchase outstanding shares on the open market, on the NYSE or elsewhere, with cash allocated to it by the Fund ("Open Market Purchases").

Shares acquired by the Agent in Open Market Purchases will be allocated to the reinvesting stockholders based on the average cost of such Open Market Purchases. Alternatively, the Agent will allocate Newly Issued Shares to the reinvesting stockholders at a price equal to the average closing price of the Fund over the five trading days preceding the payment date of such dividend.

-15-

Registered stockholders who acquire their shares through Open Market Purchases and who do not wish to have their Dividends automatically reinvested should so notify the Fund in writing. If a stockholder has not elected to receive cash Dividends and the Agent does not receive notice of an election to receive cash Dividends prior to the record date of any Dividend, the stockholder will automatically receive such Dividends in additional shares.

Participants in the Program may withdraw from the Program by providing written notice to the Agent at least 30 days prior to the applicable Dividend payment date. When a Participant withdraws from the Program, or upon termination of the Program as provided below, certificates for whole shares credited to his/her account under the Program will, upon request, be issued. Whether or not a participant requests that certificates for whole shares be issued, a cash payment will be made for any fraction of a share credited to such account.

The Agent will maintain all stockholder accounts in the Program and furnish written confirmations of all transactions in the accounts, including information needed by stockholders for personal and tax records. The Agent will hold shares in the account of each Program participant in non-certified form in the name of the participant, and each stockholder's proxy will include those shares purchased pursuant to the Program. Each participant, nevertheless, has the right to receive certificates for whole shares owned. The Agent will distribute all proxy solicitation materials to participating stockholders.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are beneficial owners participating in the Program, the Agent will administer the Program on the basis of the number of shares certified from time to time by the record stockholder as representing the total amount of shares registered in the stockholder's name and held for the account of beneficial owners participating in the Program.

All correspondence concerning the Program should be directed to the Agent at 38 Fountain Square Plaza, Cincinnati, OH 45202.

TAXATION

The following is a summary of certain material United States federal income tax considerations regarding the purchase, ownership and disposition of shares in the Fund. Each prospective shareholder is urged to consult his or her own tax adviser with respect to the specific federal, state, local and foreign tax consequences of investing in the Fund. The summary is based on the laws in

Edgar Filing: EIS FUND INC - Form N-14

effect on the date of this SAI, which are subject to change.

-16-

The Fund has qualified and elected to be treated as a regulated investment company under the Internal Revenue Code of 1986, as amended (the "Code"), and intends to continue to so qualify, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund will not be subject to federal income or excise tax on its net investment income or net capital gain which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Code.

The Fund intends to distribute all of its net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Code and therefore will not be required to pay any federal income or excise taxes. Distributions of net investment income and net capital gain will be made no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the a Fund would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98% of its capital gain net income (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this tax.

Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Code.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income.

Distributions of net capital gain ("capital gain dividends") are taxable to shareholders as long-term capital gain, regardless of the length of time the shares of the Fund have been held by such shareholders.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in shares or in cash. Shareholders electing to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net capital gain may be subject to withholding of federal income tax at the rate of 30.5% in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund.

A brief explanation of the form and character of the distribution accompany each distribution. In January of each year the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

THE FOREGOING IS ONLY A SUMMARY OF CERTAIN MATERIAL TAX CONSEQUENCES AFFECTING THE FUNDS AND THEIR SHAREHOLDERS. SHAREHOLDERS ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF AN INVESTMENT IN EITHER FUND.

EIS FUND, INC.
THE CORNERSTONE STRATEGIC RETURN, INC.
NOTES TO PRO FORMA FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Combination

The unaudited Pro Forma Condensed Portfolio of Investments, Pro Forma Condensed Statement of Assets and Liabilities and Pro Forma Condensed Statement of Operations give effect to the proposed merger of EIS Fund, Inc. (EIS) into The Cornerstone Strategic Return Fund, Inc. ("CRF"). The proposed merger will be accounted for by the method of accounting for tax-free mergers of investment companies (sometimes referred to as the pooling-of-interest basis). The Merger provides for the transfer of all or substantially all of the assets of CRF to

Edgar Filing: EIS FUND INC - Form N-14

EIS in exchange for EIS common shares, the distribution of such EIS common shares to common shareholders of CRF and the subsequent liquidation of CRF. Each share of common stock of CRF will convert into an equivalent dollar amount of full shares of common stock of EIS based on the net asset value per share of each Fund.

The pro forma combined statements should be read in conjunction with the historical financial statements of the constituent Fund and the notes thereto incorporated by reference in the Registration Statement filed on Form N-14.

EIS and CRF are both closed-end, non-diversified management investment companies registered under the Investment Company Act of 1940, as amended.

Pro Forma Adjustments:

The Pro Forma adjustments below reflect the impact of the merger between EIS and CRF.

- (a) To remove certain prepaid expenses associated with CRF, in the statement of assets and liabilities, which will not be assumed by EIS.
- (b) In connection with CRF's intention to merge with EIS; CRF reclass its treasury shares held to paid-in capital.
- (c) Adjustment based on contractual agreement with Investment Manager.
- (d) Assumes the elimination of duplicative charges resulting from the combination and reflects management's estimates of combined pro forma operations.
- (e) Assumes elimination of compensation to an officer no longer serving the fund.
- (f) Assumes elimination of fees that are now reflected in printing.

- (g) Adjustment based on the contractual agreement with the Administrator for the combined Fund.
- (h) Adjustment based on the contractual agreement with the custodian for the combined Fund.
- (i) Assumes shareholders' meeting fees are combined with printing and reflects management's estimates of combined pro forma operations.
- (j) Adjustment based on the contractual agreement with the Accounting fees for the combined Fund.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies, which are

Edgar Filing: EIS FUND INC - Form N-14

consistently followed by each of PGF and CLM in the preparation of its financial statements.

MANAGEMENT ESTIMATES: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that may affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

PORTFOLIO VALUATION: Investments are stated at value in the accompanying financial statements. All equity securities are valued at the closing price on the exchange or market on which the security is primary traded ("Primary Market"). If the security did not trade on the Primary Market, it shall be valued at the closing price on another exchange where it trades. If there is no such sale prices, the value shall be the most recent bid, and if there is no bid, the security shall be valued at the most recent asked. If no pricing service is available and there are more than two dealers, the value shall be the mean of the highest bid and lowest ask. If there is only one dealer, then the value shall be the mean if bid and ask are available, otherwise the value shall be the bid.

All other securities and assets are valued as determined in good faith by the Board of Directors. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors has established general guidelines for calculating fair value of not readily marketable securities. The net asset value per share of each Fund is calculated weekly and on the last business day of the month with the exception of those days on which the New York Stock Exchange is closed.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME: Investment transactions are accounted for on the trade date. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes. Interest income is recorded on an accrual basis; dividend income is recorded on the ex-dividend date.

TAXES: No provision is made for U.S. federal income or excise taxes as it is each Fund's intention to continue to qualify as a regulated investment company and to make the requisite distributions to its shareholders which will be sufficient to relieve it from all or substantially all U.S. federal income and excise taxes.

DISTRIBUTIONS OF INCOME AND GAINS: Each Fund distributes at least annually to shareholders, substantially all of its net investment income and net realized short-term capital gains, if any. Each Fund determines annually whether to distribute any net realized long-term capital gains in excess of net short-term capital losses, including capital loss carryovers, if any. An additional distribution may be made to the extent necessary to avoid the payment of a 4% U.S. federal excise tax. Dividends and distributions to shareholders are recorded by each Fund on the ex-dividend date. .

The board of Directors of each Fund may, if it it determined to be in the best interest of each Fund and its shareholders, time to time authorize and declare distribution that may be substantially characterized as a return of capital.

The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for U.S. federal income tax purposes due to U.S. generally accepted accounting principles/tax differences in the character of income and expense recognition.

OTHER: Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in exchange rates.
