TROY GROUP INC
Form 10-K
February 28, 2001

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON D.C. 20549

FORM 10-K

(Mark one)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the fiscal year ended November 30, 2000

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No.: 000-24413

TROY GROUP, INC.

(Exact name of registrant as specified in its charter)

DELAWARE
(State or other jurisdiction of incorporation
or organization)

33-0807798
(I.R.S. Employer
Identification No.)

2331 SOUTH PULLMAN STREET
SANTA ANA, CALIFORNIA
(Address of principal executive offices)

92705
(Zip Code)

Registrant's telephone number, including area code: (949) 250-3280

Securities registered pursuant to Section 12(b) of the Act: NONE

Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK, \$.01 PAR VALUE

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes X No ___

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. []

As of February 1, 2001, 10,921,032 shares of the Registrant's Common

Edgar Filing: TROY GROUP INC - Form 10-K

Stock were outstanding. The aggregate market value of the Registrant's outstanding common stock as of that date (based upon the last sale price of a share of common stock on that date reported by the Nasdaq National Market), excluding outstanding shares beneficially owned by directors and executive officers, was \$29,850,845.

DOCUMENTS INCORPORATED BY REFERENCE

Part III of this Annual Report on Form 10-K incorporates by reference information (to the extent specific sections are referred to herein) from the registrant's Proxy Statement for its 2001 Annual Meeting to be held on April 5, 2001.

THIS REPORT CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. THE STATEMENTS CONTAINED IN THIS REPORT THAT ARE NOT HISTORICAL IN NATURE, PARTICULARLY THOSE THAT UTILIZE TERMINOLOGY SUCH AS "MAY," "WILL," "SHOULD," "EXPECTS," "ANTICIPATES," "ESTIMATES," "BELIEVES" OR "PLANS," OR COMPARABLE TERMINOLOGY, ARE FORWARD-LOOKING STATEMENTS BASED ON CURRENT EXPECTATIONS AND ASSUMPTIONS.

VARIOUS RISKS AND UNCERTAINTIES COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE EXPRESSED IN FORWARD-LOOKING STATEMENTS. THESE RISKS AND UNCERTAINTIES INCLUDE THE GROWTH IN ACCEPTANCE OF TROY'S ELECTRONIC PAYMENT SOLUTIONS BY ONLINE BROKERAGE FIRMS, E-MERCHANTS AND OTHER BILL PAYMENT APPLICATIONS; THE TIMELY AND SUCCESSFUL DEVELOPMENT AND INTEGRATION OF THE BLUETOOTH AND OTHER WIRELESS STANDARDS; THE MARKET ACCEPTANCE OF PRODUCTS INCORPORATING WIRELESS PRINTING TECHNOLOGIES; THE ABILITY TO CONTINUE TO DEVELOP AND MARKET OTHER E-COMMERCE PAYMENT, NETWORKED PAYMENT AND WIRELESS AND OTHER CONNECTIVITY TECHNOLOGIES; TROY'S ABILITY TO REFOCUS ITS MANAGEMENT AND RESOURCES ON THESE EMERGING TECHNOLOGIES; THE ABILITY TO HIRE AND RETAIN QUALIFIED MANAGEMENT, TECHNOLOGY AND OTHER PERSONNEL; THE IMPACT OF COMPETITION FROM EXISTING AND NEW TECHNOLOGIES AND COMPANIES; THE ABILITY TO IDENTIFY AND ASSIMILATE ACQUIRED COMPANIES AND TECHNOLOGIES; THE CONTINUED DEMAND FOR PRINTED FINANCIAL DOCUMENTS; AND THE OTHER FACTORS SET FORTH BELOW UNDER THE HEADING "CERTAIN IMPORTANT FACTORS" AND IN OUR OTHER PERIODIC REPORTS AND OTHER DOCUMENTS THAT WE FILE FROM TIME TO TIME WITH THE SECURITIES AND EXCHANGE COMMISSION.

WE OWN OR HAVE RIGHTS TO TRADEMARKS THAT WE USE IN CONNECTION WITH THE SALE OF OUR PRODUCTS. TROY(R), ECHECK SECURE(TM), PRINTRANET(TM), TROYMARK(TM) AND STARACH(TM) ARE AMONG THE TRADEMARKS THAT WE OWN. THIS REPORT ALSO MAKES REFERENCE TO TRADEMARKS AND TRADE NAMES OF OTHER COMPANIES.

PART I

ITEM 1. BUSINESS

GENERAL

With new products in the rapidly growing e-commerce market and a solid base of Fortune 1000 customers in our "brick-and mortar" markets, we are a leading worldwide provider of enterprise output solutions. We provide payment solutions and connectivity solutions to enterprises for their networks and the Internet.

Our e-commerce and more traditional solutions serve a wide variety of industries including telecommunications, financial services, insurance,

Edgar Filing: TROY GROUP INC - Form 10-K

computer hardware, automotive, personnel and others. We distribute our solutions around the world and market our products through a direct sales force and a network of distributors and value-added resellers. More than 5,000 active customers purchase our products and services.

Our mission is to leverage our successful core business into higher-growth and higher-margin businesses in e-commerce payment solutions and wireless printing. Cahners In-Stat projects that there will be over one billion BLUETOOTH enabled wireless devices by 2005 and Forrester Research projects that electronic payments will exceed \$6.8 trillion by 2004. As a result, we believe that if we are successful in pursuing the opportunities in these new areas we could increase our rate of growth substantially.

ORGANIZATION AND DEVELOPMENT OF BUSINESS

We were originally incorporated in California in 1996 and reincorporated in Delaware in May 1998. Troy Group, Inc. is the result of various mergers and acquisitions involving a company originally founded in 1982.

In October 1998, we merged XCD Incorporated, a leading supplier of network connectivity solutions, into our subsidiary, Troy XCD, Inc. This subsidiary is now a part of our Wireless and Internet Connectivity Group. In May 1999, we acquired the remaining outstanding shares of Troy Telgate Systems, Inc. (formerly Telgate Equipment Corporation), a Canadian software development company. This subsidiary is now a part of our Financial Payments Group, and is responsible for the ongoing technical development and support for our electronic check and software products.

On February 18, 2000, we acquired American Development (AMDev), Inc., an ACH (Automated Clearing House) software development and processing company. Troy AMDev's ACH products integrate with electronic checks to broaden our offering of e-commerce payment solutions. This subsidiary is now a part of our Financial Payments Group.

On May 9, 2000, through our Troy XCD subsidiary, we acquired CableNet Technologies, a North Carolina based company which specializes in printer enhancement and connectivity technology, enhancing our technology platform to include IBM mainframe and midrange connectivity capabilities, as well as security and forms management products.

Our principal executive offices are located at 2331 South Pullman Street, Santa Ana, California 92705, and our telephone number at that location is (949) 250-3280.

Information regarding our reportable business segments, major customers and geographical information is contained in Note 13 to our financial statements on pages F-21 to F-24 of this report, and is incorporated in this item by reference.

WIRELESS AND INTERNET CONNECTIVITY GROUP

In this new age of information, there is a rapidly growing need for intelligent devices such as PC's, cellular telephones, Personal Digital Assistants (PDA's), printers, and digital cameras to exchange information with each other. We provide a wide range of products that enable users of these new devices to print information over either wireless or wired networks.

Edgar Filing: TROY GROUP INC - Form 10-K

WIRELESS PRODUCTS

Our wireless products are hardware and software solutions that address both BLUETOOTH and 802.11b, which are the two emerging industry standards for short-distance wireless communications within a single building.

BLUETOOTH is a very low-cost wireless technology that has now been endorsed by over 2,000 companies, including many of the major computer and telecommunications companies. It is especially useful for enabling small battery-powered mobile devices like cellular telephones to communicate with other mobile or fixed devices at distances up to 10 meters (33.7 feet).

According to Cahners In-Stat, a leading market research company, over one billion BLUETOOTH-enabled devices will be shipped annually by the year 2005. During that same year, Cahners In-Stat

2

predicts that 53.8 million inkjet printers, or approximately 45 percent of total inkjet printer shipments, will include BLUETOOTH capabilities.

We believe we were the first company in the world to demonstrate a product for PC printing over a BLUETOOTH wireless link, and we believe we were one of the first to ship a BLUETOOTH hardware product with official BLUETOOTH qualification. We are currently delivering demonstration BLUETOOTH wireless print devices, and we have production-level units in design.

In addition, in the past fiscal year we established an important relationship with Texas Instruments Incorporated to provide BLUETOOTH printing capabilities for cellular telephones, and secured an OEM contract with EPSON Electronics America, Inc. for hardware to enable BLUETOOTH functionality on their line of inkjet printers. We also partnered with Canon U.S.A., Inc., Ricoh Co., Ltd., Toshiba America, Inc., and Intel Corporation for BLUETOOTH demonstrations at Comdex, and we participated with Intel in the World PC Expo show in Tokyo.

In 2000 we announced an initiative to develop products that address the rapidly growing 802.11b wireless LAN standard. 802.11b is essentially a wireless version of the highly popular Ethernet networking standard, and therefore has become quite popular due to its compatibility with existing applications. Because of our significant experience with wired Ethernet LANs, we believe that we have already developed much of the technology and expertise to be successful in this market. According to Cahners In-Stat, the wireless LAN equipment market is predicted to grow from \$624 million in 1999 to \$3 billion in 2002.

INTERNET AND CONNECTIVITY PRODUCTS

Our network and Internet connectivity products are recognized worldwide for supporting a large number of protocols and network operating systems. Although we have traditionally focused on printer connectivity (print servers) for local area networks (LANs), our products now enable virtually any device to send and receive data and/or to be controlled, monitored, and diagnosed via a LAN and the Internet. Potential applications outside of printing involve electronic signs, medical instrumentation, security systems and factory automation equipment.

Edgar Filing: TROY GROUP INC - Form 10-K

We offer IBM-compatible mainframe and midrange connectivity products, as well as security, barcode and forms management hardware and software. These capabilities allow us to offer a complete range of connectivity options for virtually any kind of computer system, and will also let us address security and forms applications across all of our product lines.

FINANCIAL PAYMENTS GROUP

Over the past decade there has been a dramatic shift from mainframe computer systems to networked computing environments. Due to this fundamental shift in the way corporations store and manage financial payment data, IT departments are now faced with the challenge of providing users with secure access to financial payment information which resides in a broad range of distributed and fragmented systems. Technologies are now available to effectively distribute payment information electronically to multiple end-users both within and outside an organization.

The emergence and adoption of enterprise-wide and web-based software applications is also changing the way organizations generate and securely distribute financial payment information. Although many software applications include basic financial reporting functionality, they generally do not adequately address an enterprise's need to electronically transmit and output financial payment information securely across networked computing environments.

3

FINANCIAL SERVICES PRODUCTS

We have been experts in the payment systems marketplace since 1971 and our experience has helped make us a worldwide leader in secure financial payment systems. It is our expertise in networked computer payment solutions that uniquely qualified us to enter the e-commerce payment arena in 1999.

In October, 2000, we announced the formation of the TROY Financial Services Group, which combines the electronic payment products of banking software, ACH (Automated Clearing House) processing software and electronic checks in a single business unit. In addition, we recruited a seasoned executive as president of this group. Today, our services include a full array of electronic payment solutions including Cash Management, ACH systems, ACH processing, and ECheck Secure, our electronic check product.

The growth of the Internet and the accompanying rapid rise in e-commerce continues. The Gartner Group predicts that by 2004, "the Internet will become the predominant mechanism for conducting business, whether it be business-to-consumer or business-to-business." Further, the electronic payments market continues to expand. Forrester Research estimates over \$6.8 trillion in electronic payments by 2004. The ongoing transition from "information only" to "e-commerce enabled" web sites is accelerating. At the same time, the mix between bankcard and online check transactions is steady. Today, more than ever, online merchants require a variety of electronic payment options to compete in the fast-moving Internet marketplace.

Our core expertise is in electronic payment processing, primarily by ACH through the Federal Reserve. Our systems, products and services all support this rapidly growing financial settlement process, which is at the

Edgar Filing: TROY GROUP INC - Form 10-K

root of virtually every online transaction. According to the National Automated Clearing House Association (NACHA), over 12,000 domestic financial institutions use ACH to settle over six billion payment transactions each year. We have a product/service set that serves both bank and commercial customers.

We develop, distribute and support an array of Cash Management and ACH software solutions for both bank and commercial uses. Our key systems are:

- Cash 400 is our automated cash management system that banks use to maximize client funds. It provides commercial bank customers with a fully automated method to invest excess funds and/or draw on lines of credit to cover account shortfalls. This system provides a way for smaller financial institutions to compete with banks offering sophisticated electronic treasury services to commercial depositors. Cash 400 service subscribers are able to keep available cash invested, cover minimum balance requirements and manage lines of credit.
- AutoDraftCP, VIP and NOVA are our Windows-based ACH software systems for small, medium and large-volume transaction originators. These systems support the requirements of financial institutions for in-house processing of ACH items, as well as commercial users who prepare and transmit files for bank processing.
- StarACH, which is currently under development, is our newest Windows-based ACH software product. StarACH is an enterprise class, Internet-ready system capable of high-speed processing. It provides the latest alternative to the legacy mainframe-based ACH systems that are still being used by most banks.

We also provide ACH transaction processing. Through our various banking relationships, we utilize a direct link to the Federal Reserve. Our ACH processing capabilities are used by financial

4

institutions, which outsource this function as their transaction volume grows, as well as to commercial customers who transmit ACH formatted files for Federal Reserve processing. We have recently expanded our ACH processing to include check conversion services for high-volume check-remittance customers. This service utilizes recently defined NACHA rules to convert checks to ACH and is particularly attractive to MICR (magnetic ink character recognition) coupon remittance operations such as utilities, cable system operators and sports club billing operations. The paper check is automatically converted to an ACH transaction, improving settlement, return and reporting capabilities.

eCheck Secure continues to be very popular with online brokers and banks in funding new accounts, as well as with utilities and online merchants. We are continuing to develop new tools, methods and services to support the rapid, ongoing changes associated with Internet commerce. Our eCheck Secure product has also been ACH-enabled. In addition to our original service, which allows consumers to send a MICR-encoded check remotely over the Internet for printing at the biller's or merchant's site, eCheck Secure now supports ACH settlement. Consumers may use eCheck Secure to avoid credit card fees or interest, to control household spending from a single checking account, engage in transactions for which they have ready funds in their checking accounts but insufficient availability on their credit cards, or for

Edgar Filing: TROY GROUP INC - Form 10-K

any of a number of other reasons, as long as they choose a merchant, stockbrokerage or other payee that is eCheck Secure-enabled. eCheck secure is thus marketed as a competitive advantage to businesses that wish to offer their customers and prospective customers instant, secure transaction capabilities regardless of the customer's ability or desire to use credit cards. When coupled with the variety of risk management services provided by Equifax and our sophisticated back-office eCheck Secure reporting, we now provide some of the most secure, fast and convenient methods for online check acceptance.

We have recently expanded our online payment products to include web merchant bankcard services. We offer state-of-the-art merchant bankcard services specifically tailored to help online merchants manage and grow their businesses. We believe that this enhancement to our online payment solutions will enrich our eCheck Secure products.

We believe that MICR line information will continue to be the controlling identifier for bank account payments and transfers and that our expertise in MICR will provide us with a strong position as a leader in e-commerce payment solutions.

FINANCIAL PAYMENT PRODUCTS

We are a leading provider of MICR check printing systems and related supplies. We initially served banks and large corporate clients. In 1984 we began installing secure payment systems for the U.S. Treasury that are still in operation today. With the advent of laser technology and networking we have been expanding our products to serve the needs of virtually every business that issues a check.

Today with our technology, laser printers have the ability to print unique output such as the MICR line on the bottom of a check. MICR lines are printed with a magnetic ink or toner that, when magnetized, emit a magnetic signal that identifies each unique character. If the shape and/or the magnetic properties of the characters do not meet specified standards, the banking system will reject the document, which could cause costly manual handling. Our skill has been to develop printers and supplies that can print high quality financial documents using blank paper stock. Checks printed on our systems consistently exceed banking standards.

Our networked MICR check printing systems include software, firmware, hardware and imaging supplies that provide customers with functions not offered by most major OEMs (original equipment manufacturers). Our technologies enable laser printers to print MICR lines, graphics, bar codes and forms. They also enable a printer to perform other functions not offered by most printer manufacturers,

such as auditing, status checking and security. These features increase an enterprise's flexibility and customer service capabilities, eliminate costs associated with form obsolescence and enhance document security.

Our strategic alliance with Hewlett-Packard provides our customers with all of the benefits of high-quality payment solutions combined with the features, functionality, and reliability provided by HP printers. We offer three levels of high-quality MICR payment solutions based on laser technology. Our laser solutions range in print speeds from 8 to 32 pages per

Edgar Filing: TROY GROUP INC - Form 10-K

minute and combine laser-quality business documents with high-quality MICR coding.

Our most advanced printing systems incorporate additional security features such as encryption/decryption, MICR sensors, password protection, key locks, and TROY's exclusive special watermarking technology, TROYmark. This high-quality line of MICR printers is ideal for customers who require a more dedicated and fully secure financial payment solution.

We recently announced that we have been certified by the London-based Association for Payment Clearing Services (APACS) as complying with the organization's standards for secure check printers. APACS is a British banking organization that sets the standards for check writing as well as all aspects of money transmission and payments-related activities in the United Kingdom. The APACS standard is considered one of the most stringent in the world, and with this certification, we are now the only approved desktop MICR solutions provider in the U.K.

We also offer our own proprietary MICR software solution that streamlines payment processes by printing checks with security and ease on blank check stock. Authorized finance, accounts payable and payroll staff can merge accounting data with our software to create and print checks securely and easily from different bank accounts, using multiple signatures, in a one-step process.

Laser payment solutions require imaging supplies on an ongoing basis. We develop and market imaging supplies that are uniquely formulated for specific output devices. As new output devices are developed, our chemical engineers combine their expertise with our advanced research and development equipment to design proprietary formulations. Our imaging supplies are then produced in a sophisticated, computerized manufacturing facility. We are recognized by our customers as a high-quality developer and manufacturer of proprietary imaging supplies. We are the only authorized MICR toner manufacturer for Hewlett-Packard LaserJet printers and are the only authorized MICR toner manufacturer for the IBM 3900 and InfoPrint 4000 family of high-speed laser printers. The majority of our products require our proprietary imaging supplies.

In addition to our MICR toners that support our laser printers, we also offer other toners, ribbons and accessories for use by other printing devices. These additional supplies include fluorescent and indelible ribbons, post-encoding ribbons, jumbo rolls, standard toner, paper handling accessories and check security paper.

CASE STUDY. Automatic Data Processing Inc. (ADP) formed a strategic alliance with us in February 1997 to offer on-site, client-based payroll check printing for their 425,000 clients nationwide. ADP is recognized as one of the largest independent computing service organizations in the United States. ADP software programs provide flexibility and control in issuing payroll checks at the client site while our financial payment solutions ensure the quality and security of those checks. ADP's clients are able to transmit payroll data to ADP and have ADP return to the client a payroll data stream where a Troy MICR check printer prints the client's payroll checks. This eliminates overnight shipping charges and prevents delays. In addition, clients can print exception checks as needed.

Alan Greenspan in March, 2000, stated that there were over 68 billion checks printed in 1999. He also stated that the use of checks continues to grow. We believe that our check printing systems market will be

Edgar Filing: TROY GROUP INC - Form 10-K

here for many years.

BUSINESS STRATEGIES

Our objective is to leverage our expertise as a provider of enterprise output solutions to become a leading worldwide provider of electronic payment systems and wireless printing solutions. Our strategies for achieving this objective include:

CONTINUING TO DEVELOP AND MARKET WIRELESS CONNECTIVITY SOLUTIONS. We believe the wireless connectivity market represents an area of major growth potential. In order to address this market, we will be making a substantial investment to enhance our wireless connectivity products and technology. We believe that we have established an early lead in this market, and that we can maintain this lead by investing in the required resources.

EXPANDING AND SEEKING NEW WIRELESS CONNECTIVITY OEM RELATIONSHIPS. We intend to aggressively expand our existing relationships and seek new OEM relationships. In the BLUETOOTH and 802.11b wireless connectivity markets, we will initially focus on printer manufacturers like Epson, since we have credibility and existing relationships with these companies. In addition, most of our existing network and Internet connectivity firmware and software can also be used in our 802.11b products. Although printer manufacturers are our primary OEM focus, we will also pursue opportunities in other markets, such as BLUETOOTH connectivity for cellular telephones. This is our overall objective and is synergistic with our resources and products.

CONTINUING TO DEVELOP AND MARKET ELECTRONIC PAYMENT SERVICES. Our strategy is to expand our product lines to provide online merchants with bankcard and financial electronic data interchange products that complement our current electronic payment services comprised of ACH payments and secure electronic checks. This product expansion will ensure that we have a complete service solution for online merchants, coupled with a variety of security and transaction verification options. We intend to more aggressively combine our core products, ACH payments and eCheck Secure, with state-of-the-art web bankcard and sophisticated financial electronic data interchange services to meet the market needs for integrated, customized and modular payment solutions. In the payment processing arena, we intend to broaden our processing portfolio to balance risk management, volume and settlement capabilities to assure competitive, yet low-risk, payment processing products.

INTRODUCING AND ENHANCING PRODUCTS THROUGH RESEARCH AND DEVELOPMENT. We achieved a leadership position in our networked financial payment solutions by investing in research and development, introducing higher-quality products and focusing on satisfying the needs of both our OEM customers and end users. We intend to continue to invest in research and development to enhance our current technologies and introduce new products.

EXPANDING AND SEEKING NEW FINANCIAL PAYMENT OEM RELATIONSHIPS. We intend to aggressively expand our existing OEM relationships and seek new OEM relationships. One way to expand our relationships with Hewlett-Packard, IBM and Standard Register is to develop solutions that support their products. We believe that this strategy provides us with the opportunity to expand our market share and maintain and enhance our technological position and expertise.

LEVERAGING STRATEGIC ALLIANCES. We currently partner with various software, firmware, hardware and financial service companies in offering solutions that assist us in meeting our customers' financial payment needs. We intend to continue to aggressively pursue new strategic alliances that we believe will

enable us to enter new markets, expand our distribution channels and enhance our product and service offerings. We currently have management resources dedicated to developing strategic alliances.

EXPANDING DISTRIBUTION CHANNELS TO INCREASE OUR FOCUS ON SELLING TO MID-SIZE AND SMALLER BUSINESSES. We believe that an increasing number of small and mid-sized businesses will begin to use networks, the Internet and enhanced financial payment solutions to facilitate their business needs by lowering costs, providing instantaneous access to financial data, enabling better customer service. We intend to continue to expand our distribution channels to increase our sales to these businesses.

ACQUIRING RELATED BUSINESSES, PRODUCTS AND TECHNOLOGIES. A significant aspect of our growth strategy has been the acquisition of complementary businesses in order to achieve market presence, increase our customer base and expand our product offerings to our customers and business partners. We intend to continue to search for such appropriate opportunities. We currently have an experienced team, both internal and external, executing and implementing our acquisition strategy.

There can be no assurance that we will be successful in pursuing these business strategies, which necessarily involve certain risks (see "Important Factors" as presented on pages 14 to 18).

RESEARCH AND PRODUCT DEVELOPMENT

We are committed to growing our business through research and development, and it is one of our major business strategies. We seek customer feedback in the product design process in order to meet changing requirements, and are committed to developing functional and integrated solutions in a rapid and efficient manner. In addition, we invest significantly in highly sophisticated research and development equipment.

As of February 1, 2001, we employed approximately 65 persons in our research and development efforts. Our highly trained staff of software, electrical, mechanical and chemical engineers is focusing on principal research and development activities such as:

- developing e-commerce payment solutions;
- developing software and firmware solutions for connecting devices to BLUETOOTH and 802.11b wireless networks;
- developing new products that provide solutions for our strategic business partners; and
- creating proprietary imaging supplies.

SUPPORT SERVICES

We offer TECHNICAL SUPPORT, MAINTENANCE AND ON-SITE SERVICES, portions of which are provided by third parties. We provide technical support through an 800 line from 7:00 AM to 5:00 PM (PST) and through our web sites. We also provide on-site service through yearly maintenance contracts or on a time-and-materials basis.

In addition to our technical support, maintenance and on-site

Edgar Filing: TROY GROUP INC - Form 10-K

services, for over six years we have maintained the MICR TECHNOLOGY CENTER, a research group dedicated to providing solutions for MICR document processing problems. Members of the testing facility for this research group have the ability to

8

examine all aspects of the MICR printing process to pinpoint where improvements can be made and to ensure the highest-quality MICR line.

SALES AND MARKETING

We market products to Fortune 1000 companies through our direct sales force and market products to small and mid-size businesses primarily through our network of distributors and value-added resellers. Our products are represented internationally, primarily through a distributor network.

Our base of more than 5,000 active customers includes e-commerce retail and brokerage firms, financial institutions, insurance companies, payroll processing companies, corporations and government agencies. Ameritrade, Inc., AT&T Corporation, Bank of America Corporation, Brother Industries, Ltd., Eastman Kodak Company, Farmers Group, Inc. (Farmers Insurance), Fidelity Investments, Ford Motor Company, International Business Machines Corporation (IBM), Manpower Inc., Morgan Stanley Dean Witter & Co., Mydiscountbroker.com (a member of the Southwest Securities Group, Inc.), Shopsports.com, Wal-Mart Stores, Inc., and Wells Fargo & Company are among the TROY customers that purchased products during the last 12 months.

We market our e-commerce payment solutions directly to Internet merchants, and virtually every Internet web site that offers e-commerce is a potential client. Our research has identified several markets that will be targeted on a high-priority basis: business-to-consumer utility companies, and both conventional and online stock brokerage firms. Also, we currently have strong access to many Fortune 1000 companies and to the U.S. Treasury.

We sell our wireless connectivity products and our network and Internet connectivity products primarily through an OEM channel, with a particular emphasis on printer manufacturers. Our OEM customers include companies such as Epson, Brother, Eastman Kodak, Encad, and Hitachi Koki. We also sell our products worldwide through a network of domestic and international distributors.

We have increased the number of sales and support staff dedicated to recruiting and training additional distributors and value-added resellers. This supports our strategy to increase focus on mid-size and smaller companies that will increasingly use the Internet and networks to facilitate their business needs. We also have management resources dedicated to recruiting and developing new OEM relationships and leveraging strategic alliances in support of our key business strategies.

We promote our products through our web sites, trade shows, advertising and direct marketing materials as well as referrals from our strategic business partners, including Equifax, Hewlett-Packard, IBM, ADP and Standard Register.

STRATEGIC RELATIONSHIPS

We have had a long relationship with Hewlett-Packard in the network connectivity area. Last year HP funded our initial BLUETOOTH development,

Edgar Filing: TROY GROUP INC - Form 10-K

which resulted in the industry's first demonstration of a product for printing from a PC over a BLUETOOTH wireless communications link. The Hewlett-Packard printer market continues to be an important part of our business, and we are continuing to develop both wireless and wired products to address the needs of the market.

In October 2000, we entered into a relationship with Texas Instruments France to provide BLUETOOTH printing software for Texas Instruments' GSM cellular telephone Software Library. Texas Instruments is the leading provider of chips to the cellular phone industry, with 70 percent of all cell phones incorporating Texas Instruments' chip technology. Texas Instruments will promote our package to

9

all of its GSM customers and incorporate it as an optional component of Texas Instruments' standard GSM software library. GSM is the world's most popular standard for cell phones, with over 55 percent of the total cell phone market, including virtually all of Europe, much of Asia and Africa, and parts of the Americas. According to the GSM Association, there were 331.5 million GSM cell phone subscribers at the end of June 2000, with projected growth to 732.9 million by the end of 2004. We believe that a significant percentage of these phones will have BLUETOOTH capabilities, providing a major market opportunity for us in supporting the growth of BLUETOOTH-enabled cell phone adoption.

In addition to the GSM opportunity, we believe that our Texas Instruments relationship will bring us sales opportunities for custom hardware and software developments, not only for GSM-related BLUETOOTH products, but also for BLUETOOTH and 802.11b wireless opportunities in other Texas Instruments divisions.

Our ACH processing business uses direct links to the Federal Reserve through Jackson Bank & Trust in Nashville, Tennessee. We are working to expand our bank relationships to obtain additional bank processing links to the Federal Reserve, as well as enhancing our current relationship with our primary processing bank. Our ability to provide accurate, timely and complete ACH payment processing services is dependent on our strategic relationships with the banks that provide our access to the Federal Reserve payment system.

Our eCheck Secure product uses check verification features provided by Equifax Check Services. Working closely with Equifax, we have developed high-speed interactive links to obtain check data verification in conjunction with online check services. We are an authorized reseller of Equifax Check verification services and continue to actively develop additional features to improve service reliability, functionality and reduce payment risk. At this time, we maintain limited capabilities related to verification and rely on services of our sole provider, Equifax Check Services.

We have recently entered into a joint sales alliance with HMSBLUE.COM, a technology-driven, business-to-business provider of comprehensive merchant authorization, settlement and accounting systems. The alliance enhances both companies with services complementary to our respective core products. Our payment services are now expanded beyond eCheck Secure to provide state-of-the-art bankcard acquiring services. HMSBLUE.COM also includes our ACH services in conjunction with its Internet Payment Gateway and merchant resource center, which provide a full array of web-based merchant card services.

We have also recently entered into a reseller agreement with

Edgar Filing: TROY GROUP INC - Form 10-K

LogicomTechnologies, LLC for a full array of electronic data interchange (EDI) products specifically designed for Internet merchants. In addition to ACH origination, eCheck Secure, and merchant bankcard services, we now provide a full-solution product set for online merchants who wish to "move upmarket" into business partnerships requiring specialized data formatting, transmission or payment methods. This product extension provides our web merchants with the necessary electronic tools to expand their client base into more sophisticated business partnerships.

Since 1993, we have also maintained a strategic relationship with Hewlett-Packard's various printing groups. We purchase Hewlett-Packard laser printers and modify and enhance the printers. We then repackage, re-label and sell the printers as MICR-enabled financial document printers under the TROY name. In addition, we are a member of Hewlett-Packard's Engineering Support Partner Group, a select group of third-party solutions partners. As a member of this group, we work with Hewlett-Packard on architecture issues for new product development and with Hewlett-Packard's marketing group to implement joint marketing programs. We believe that our current relationship with Hewlett-Packard

10

gives us a competitive advantage in marketing our products, primarily because of HP's reputation as the leading provider of laser printers throughout the world.

We have a joint marketing relationship with IBM, the world leader in the development and manufacture of advanced information technology. In an agreement with TROY, IBM has agreed to purchase from us all of its MICR toner requirements for the IBM 3900 and InfoPrint 4000 family of high-speed laser printers.

Our strategic alliance with ADP was formed to offer a printer and software solution for on-site, client-based payroll check printing to serve ADP's 425,000 clients worldwide. ADP is one of the largest independent computing service organizations in the world. ADP's payroll software is fully compatible with our MICR printers. We offer ADP-approved MICR laser printers, toll-free technical support, accessories, imaging supplies, product warranties and maintenance agreements.

We are an OEM supplier to Standard Register. Standard Register is a recognized leader in delivering document management systems, products and services to healthcare, financial and general business markets. We private-label MICR and multi-purpose printers for Standard Register, to be used in conjunction with their various document management solutions including LINKUP(TM), a check printing software system, and PATIENT LINKUP(TM), a hospital admissions and document routing system.

COMPETITION

The market for our products is highly competitive and subject to rapid technological change. We compete principally on the basis of the quality, flexibility, convenience and security of our enterprise output solutions. Overall, we believe that we are well positioned in our industry and compete favorably as a result of:

- our highly trained team of software, firmware, electrical, mechanical

Edgar Filing: TROY GROUP INC - Form 10-K

and chemical engineers and programmers;

- our commitment to understanding the changing needs of our marketplace;
- our ability to develop new solutions to meet those needs;
- the breadth of our products' features;
- our reputation for knowledge, technical expertise and professionalism;
- the strength and scope of our strategic relationships;
- our capable and reliable technical support capabilities; and
- a historical and ongoing commitment to quality.

WIRELESS CONNECTIVITY SOLUTIONS. The BLUETOOTH and 802.11b wireless markets are emerging markets. Our primary competitor in the BLUETOOTH market is Axis Communications. I-Data and Wireless Solutions have also announced BLUETOOTH printer connectivity products. In addition, NEC and Samsung have demonstrated BLUETOOTH capabilities on their lines of printers. Our only known competitors in the 802.11b printer connectivity market are Cellvision (which sells its products under various labels), Sercomm, and Komatsu. Our primary competitors in the BLUETOOTH software protocol stack market are

11

Extended Systems Inc. and Widcomm Inc. Other competitors include IVT Corporation, Stonestreet One, Inc., and several other smaller companies.

NETWORK AND INTERNET CONNECTIVITY SOLUTIONS. In the print server market, Intel, Axis, and Lantronix offer competing products that are suitable for multiprotocol enterprise network printing applications. There are many other commodity print servers, including very low-cost products, but such commodity print servers are not usually suitable for enterprise networks due to inadequate protocol support and features, limited customer support and low performance. In addition, our support of both PrintraNet and IPP Internet connectivity provides another advantage over most of our competitors. Although Hewlett-Packard makes print servers, we do not generally consider them a direct competitor. This is because we are a Hewlett-Packard partner providing DEC and Banyan VINES connectivity solutions that are not available on Hewlett-Packard products.

FINANCIAL SERVICES PRODUCTS. We develop, market and support a variety of software systems. Our key competitors are CheckFree, Politzer & Haney and ACI for ACH processing systems, and Jack Henry for AS400 bank cash management systems. Our software systems have unique features that competitively differentiate them from other providers. We continue to develop enhancements to our core software systems that, we believe, will continue to provide unique capabilities to our software users.

We are an authorized reseller of Equifax check verification services. However, Equifax has other authorized resellers, such as BankServ, Xign and Intellicheck, which provide competitive service offerings. ECheck Secure provides secure online checks and competes with Authorize.net, Deluxe Check, PaybyCheck, Achex and a host of other online check service providers. TROY differentiates itself in real-time verification, coupling a flexible

Edgar Filing: TROY GROUP INC - Form 10-K

front end with robust back-office reporting.

We provide ACH processing services to banks and commercial companies. We compete with domestic banks and other third-party electronic payment providers, such as Deluxe Check, Bottomline Technologies, BankServ and CyberCash. ACH processing with the Federal Reserve is a highly standardized service with defined settlement timeframes and established rules. We are an experienced originator, active in NACHA, the national organization of ACH system participants, and are competent in risk management techniques that optimize our use of the settlement system while minimizing our financial risk.

FINANCIAL PAYMENT PRODUCTS. Our primary competitors in networked computer payment solutions are ACOM Computer, Inc., Rosetta, Lexmark International, Inc., Oce, Source Technologies and Xerox. We also compete with companies that provide MICR font and toner solutions on a "stand-alone" basis, without a printer. We believe that our current relationship with Hewlett-Packard gives us a competitive advantage in the MICR printing market, primarily because of Hewlett-Packard's reputation as the leading provider of laser printers worldwide.

IMAGING SUPPLIES. We compete in the toner and ribbon market primarily on the basis of quality and service. Color Image is our most significant competitor with respect to toner products. Our significant competitors with respect to ribbons are Nu-Kote International, Commander Imaging Products Inc. and Fuji Copian Corporation. We position ourselves as a full-service provider, with a pricing strategy that reflects our quality, reliability, precision of formulation and available customer support. Many small companies also offer remanufactured MICR cartridges that are typically lower priced but less reliable than new MICR cartridges such as those that we offer.

We also have several indirect competitors that offer certain products as an alternative to our financial payment solutions, such as pre-printed checks, check printing services and electronic payment

12

systems, outsourcing for payroll, on-line banking and payment systems for their clients. These companies generally provide alternatives to the internal printing of checks and other financial documents.

Although the prices of our MICR printers and imaging supplies are generally higher than those of our competitors' products, we have been able to maintain these prices as a result of advanced technological features (including security), higher levels of quality and value-added services.

INTELLECTUAL PROPERTY

We have certain proprietary printing system components, manufacturing processes, information, knowledge, trademarks and tradenames. We rely on a combination of patent, trademark, trade secret and other intellectual property laws, nondisclosure agreements with employees and internal confidentiality measures to protect our intellectual property rights and confidential information. We seek patents from time to time on our products and processes. The decision to seek additional patents is based on our analysis of various business considerations such as the cost of obtaining

Edgar Filing: TROY GROUP INC - Form 10-K

a patent, the likely scope of patent protection and the benefits of patent protection relative to relying on trade secrets protection and other measures. We also rely on specialized know-how and continuing technological innovation to develop and maintain our competitive position.

As of February 1, 2001, we held nine United States patents. Our existing patents primarily cover components of our impact printing systems and proprietary consumables. We have also filed applications for one additional United States patent and four foreign patents, which are currently pending. There can be no assurance that our issued patents will provide meaningful protection of our products and technologies. In addition, patent applications can be denied or significantly reduced before issuance. Moreover, there can be no assurance that third parties will not assert intellectual property infringement claims against us or that, if asserted, that we would prevail or be able to obtain any necessary licenses.

We believe that our proprietary manufacturing processes and techniques, materials expertise and trade secrets may provide us with a competitive advantage as important, if not more important, than patent protection. We seek to maintain the confidentiality of this proprietary information by requiring employees who have access to proprietary information to sign confidentiality agreements and by limiting its disclosure to outside parties. There can be no assurance, however, that these measures will provide us with adequate protection of our proprietary information or with adequate remedies in the event of unauthorized use or disclosure. In addition, there can be no assurance that our competitors will not independently develop or otherwise gain access to processes, techniques or trade secrets that are similar or superior to ours. Finally, as with patent rights, legal action to enforce trade secret rights can be lengthy and costly, with no guarantee of success.

ENVIRONMENTAL AND REGULATORY MATTERS

Our MICR printer and imaging supplies manufacturing operations are subject to numerous domestic and international laws and regulations, particularly relating to environmental matters that impose limitations on the discharge of pollutants into the air, water and soil and establish standards for the treatment, storage and disposal of solid and hazardous wastes. We are also required to have permits from a number of governmental agencies in order to conduct various aspects of our business. Compliance with these laws and regulations is not expected to have a material adverse effect on our capital expenditures, earnings or our competitive position. There can be no assurance, however, that future changes in environmental laws or regulations, or in the criteria required to obtain or maintain necessary permits, will not have a material adverse effect on our operations.

13

EMPLOYEES

As of February 1, 2001, we employed approximately 240 persons. None of our employees are represented by a labor union or covered by a collective bargaining agreement. We have not experienced any work stoppages and consider relations with our employees to be good.

ITEM 1A. IMPORTANT FACTORS

Edgar Filing: TROY GROUP INC - Form 10-K

There are several important factors that could cause our actual results to differ materially from those we anticipate or those reflected in any of our forward-looking statements. These factors, and their impact on the success of our operations and our ability to achieve our goals, include those set forth below.

WE HAVE RECENTLY EXPANDED OUR BUSINESS TO OFFER e-COMMERCE PAYMENT SOLUTIONS AND FACE CERTAIN RISKS RELATED TO THESE SOLUTIONS, INCLUDING FAILURE TO GAIN MARKET ACCEPTANCE.

Since we have expanded our business and strategy to offer online, secure check acceptance for e-commerce merchants and online brokerages, we have continued to gather expertise in this area. We have recently revised our business strategy to further focus our efforts in ACH origination and ACH systems. We have been disappointed in the market acceptance by e-commerce merchants to date. We have no assurance this adjustment in our strategy will be successful or that our existing business to online brokerages will continue. In addition, our focus on e-commerce payment solutions could cause our historical networked payment solutions business to suffer. Our e-commerce payment solutions compete with other well-established payment methods and we cannot assure you that our current solutions or those under development will be accepted by the marketplace. If we are not successful in marketing e-commerce payment solutions or if our historical business declines as a result of our efforts in this area, our business will be materially and adversely affected.

Our e-commerce payment solutions often involve risk of payment error or repudiation. We may be unable to recover funds advanced to our customers when payments are returned or when proper procedures are not followed. Further, we could be held responsible for claims that payments, presented by our products, are not authorized by the holder of the account on which they are drawn. If we are found responsible for unauthorized payments, we could be liable for the amount of the unauthorized payment as well as other indirect or consequential damages, such as overdraft charges or damage to the account holders' credit rating. Any findings of such liability could also significantly impact our marketing of these products and could cause our business to suffer.

THE SUCCESS OF OUR WIRELESS CONNECTIVITY INITIATIVES DEPENDS ON OUR ABILITY TO DEVELOP NEW PRODUCTS FOR EXISTING AND EMERGING WIRELESS COMMUNICATIONS MARKETS AND TO INTRODUCE SUCH PRODUCTS IN A TIMELY MANNER.

The development of new wireless networking products is highly complex and we may experience delays in developing and introducing new products. Due to the intensely competitive nature of our business, any delay in the commercial availability of new products could materially and adversely affect our business, reputation and future operating results. In addition, if we are unable to develop or obtain access to advanced wireless networking technologies as they become available, or are unable to design, develop and introduce competitive new products on a timely basis, or are unable to hire or retain qualified engineers to develop new technologies and products, our future operating results would be materially and adversely affected. We anticipate expending substantial resources in developing products that are designed to conform to emerging wireless standards. We can offer no assurance, however, that our wireless-enabled products will have a meaningful commercial impact.

Edgar Filing: TROY GROUP INC - Form 10-K

TECHNOLOGY IN OUR INDUSTRY EVOLVES RAPIDLY, AND WE MUST CONTINUE TO ENHANCE EXISTING PRODUCTS AND DEVELOP NEW PRODUCTS OR OUR BUSINESS WILL SUFFER.

Rapid technological advances, obsolescence and large fluctuations in demand characterize the markets for our current products. Our existing and development-stage products may easily become obsolete if our competitors introduce newer or better technologies. To be successful, we must continually enhance our existing products and develop and introduce other e-commerce payment, networked payment and wireless and other connectivity technologies. If we fail to adequately anticipate or respond to technological developments or customer requirements, or if we are significantly delayed in developing and introducing products, our business will suffer. In addition, our success in this rapidly changing environment depends on our ability to appropriately refocus our management attention and other resources on the emerging technologies that will ultimately gain market acceptance.

WE FACE SIGNIFICANT COMPETITION THAT MAY NEGATIVELY IMPACT OUR REVENUES, GROSS MARGINS AND MARKET SHARE.

Our e-commerce payment solutions compete directly with well established payment methods such as credit cards. Credit card companies, financial institutions and others offering direct debit, wire transfer and ACH services generally have greater current market share and resources than we have. There can be no assurance that we will be able to compete successfully against these other payment methods and their providers, and our failure to do so will adversely affect our business and prospects.

In addition, we face significant competition in developing and selling networked payment solutions. Many of our competitors in this market also have substantially greater financial, development, marketing and personnel resources than we have. We cannot assure you that we will be able to compete successfully against our current or future competitors. Increased competition may result in price reductions, lower gross margins and loss of market share.

WE FACE RISKS ASSOCIATED WITH OUR STRATEGY OF GROWING THROUGH ACQUISITIONS.

We intend to acquire technologies, product lines and businesses that will complement our business and enable us to achieve our objective of becoming the leading worldwide provider of e-commerce enterprise output solutions. Acquisitions involve risks, including that:

- we may not be able to identify and assimilate products, technologies or businesses into our ongoing business,
- an acquired company may take a disproportionate amount of management time and energy, causing our existing business to suffer,
- we may find it difficult to retain key employees of the acquired businesses,
- an acquisition may dilute our stockholders' equity if additional equity securities are issued, and
- we may be required to amortize acquisition expenses and acquired assets over a relatively short period, causing our earnings to be below analysts' expectations.

OUR BUSINESS DEPENDS ON THE CONTINUED DEMAND FOR PRINTED DOCUMENTS, INCLUDING FINANCIAL DOCUMENTS.

Because we provide solutions that allow enterprises to distribute and print information, our business depends on the continued demand for printed documents. Demand for these solutions could decline if businesses and organizations move toward "paperless" environments and reduce their dependence on printed documents. In addition, our financial payment solutions are dependent on the demand for printed financial documents. Demand for printed financial documents may be reduced as a result of competition from alternate financial document delivery or payment methods, such as electronic banking, electronic commerce, on-line services and other electronic media. We cannot assure you that changes in the business environment or competition from alternate financial document delivery or payment methods will not significantly erode the demand for our products and cause our business to suffer.

A LARGE CUSTOMER ACCOUNTS FOR A MATERIAL PORTION OF OUR SALES AND OUR EARNINGS WILL SUFFER IF WE LOSE THIS CUSTOMER.

For the fiscal year ended November 30, 2000, Cannon IV, Inc., one of our imaging supplies resellers, accounted for 9.2% of our net sales. This reseller also accounted for 11.4% of our net sales for the fiscal year ended November 30, 1999, and 17.1% of our net sales for the fiscal year ended November 30, 1998. We believe that a significant portion of this reseller's sales are to a single customer. We also sell products directly to the reseller's customer. Direct sales to Cannon IV's significant customer were 0.3% of our net sales for the fiscal year ended November 30, 2000, 2.6% of net sales for the fiscal year ended November 30, 1999, and 6.8% of net sales for the fiscal year ended November 30, 1998. We cannot assure you that this reseller will continue to buy products from us, or that we or this reseller will continue to be able to sell our products to its significant customer. There would be a material adverse effect on our business if sales to this reseller or direct or indirect sales to its significant customer decline or cease for any reason.

WE MAINTAIN STRATEGIC SUPPLY, OEM AND MARKETING ARRANGEMENTS, AND TERMINATION OF THESE RELATIONSHIPS COULD ADVERSELY AFFECT OUR REVENUES AND EARNINGS.

We maintain and depend on strategic relationships with a number of companies, including ADP, Equifax, Hewlett-Packard, IBM, Standard Register and Wind River. These relationships include supply, OEM, marketing and service arrangements which are important to our business. Certain of these relationships are not covered by written agreements and could be terminated at any time. If our relationship with any of these companies were to end, our revenues and earnings could fall. We cannot assure you that we will be able to maintain our strategic relationships with these companies.

WE SELL A SIGNIFICANT PORTION OF OUR PRODUCTS INTERNATIONALLY, WHICH EXPOSES US TO CURRENCY FLUCTUATIONS AND OTHER RISKS.

We sell a significant amount of our products to customers outside the United States. International sales accounted for 13.8% of our net sales in the year ended November 30, 2000. International sales represented 13.3% of sales in the fiscal year ended November 30, 1999 and 16.2% of sales in the fiscal year ended November 30, 1998. We expect that shipments to

Edgar Filing: TROY GROUP INC - Form 10-K

international customers will continue to account for a material portion of our net sales. Sales outside the United States involve the following risks, among others:

- foreign governments may impose tariffs, quotas and taxes,

16

- political and economic instability may reduce demand for our products,
- restrictions on the export or import of technology may reduce or eliminate our ability to sell in certain markets, and
- potentially limited intellectual property protection may cause us to refrain from selling in certain markets.

Because we denominate our international sales in U.S. dollars, currency fluctuations could also cause our products to become less affordable or less price competitive than those of foreign manufacturers. We cannot assure you that these factors will not have a material adverse effect on our international sales. Any adverse impact on our international sales would affect our results of operations and would cause our business to suffer.

OUR QUARTERLY OPERATING RESULTS FLUCTUATE AS A RESULT OF MANY FACTORS.

Our quarterly operating results fluctuate due to various factors. Some of the factors that influence our quarterly operating results include:

- the mix of products and services sold in the quarter,
- life cycle stages of the products sold in the quarter,
- the availability and cost of components and materials,
- costs and benefits of new product and service introductions, and
- customer order and shipment timing.

Because of these factors, our quarterly operating results are difficult to predict and are likely to vary in the future. If our earnings are below financial analysts' expectations in any quarter, our stock price is likely to drop.

WE MAY NOT BE ABLE TO ADEQUATELY PROTECT OR ENFORCE OUR INTELLECTUAL PROPERTY RIGHTS OR TO PROTECT OURSELVES AGAINST INFRINGEMENT CLAIMS OF OTHERS.

We cannot be certain that the steps we have taken to protect our intellectual property rights will be adequate or that third parties will not infringe or misappropriate our proprietary rights. Any such infringement or misappropriation could have a material adverse effect on our future financial results. We also cannot be certain that we have not infringed the proprietary rights of others. Any such infringement could cause third parties to bring claims against us, resulting in significant costs, possible damages and substantial uncertainty.

WE DEPEND ON OUR EXECUTIVE OFFICERS FOR OUR SUCCESS.

Edgar Filing: TROY GROUP INC - Form 10-K

We are significantly dependent upon Patrick J. Dirk, our Chairman and Chief Executive Officer, and our other executive officers. There could be a material adverse effect on our business if we lose the services of Mr. Dirk or any other executive officer. We do not have employment or noncompete agreements with any of our executive officers, other than with Robert S. Messina, our President and Chief Operating Officer.

17

COMPLIANCE WITH GOVERNMENT REGULATIONS MAY CAUSE US TO INCUR UNFORESEEN EXPENSES.

Our MICR printer and imaging supplies manufacturing operations are subject to a number of federal, state and local laws and regulations. These regulations include laws and regulations promulgated by the Environmental Protection Agency and similar state agencies regarding storing, shipping, disposing, discharging and manufacturing hazardous materials and hazardous and non-hazardous waste. Although we believe that our operations materially comply with all current laws and regulations, we cannot assure you that these regulations will not change. We also cannot assure you that unforeseen environmental incidents will not occur, or that past contamination or non-compliance with environmental laws will not be discovered on our current or former properties. Any of these events could result in significant expense or require changes in our operations, which could materially and adversely affect our business.

OUR FORMER STATUS AS AN S CORPORATION COULD EXPOSE US TO LIABILITY.

From December 1989 to October 30, 1998, Troy Group and Troy Systems elected S corporation status under the Internal Revenue Code. Although we believe that Troy Group and Troy Systems met the S corporation requirements under the Code during this period, the IRS has not challenged or made a determination as to our status. If the IRS determines that Troy Group or Troy Systems did not meet the Code requirements for S corporations, we could be liable for unpaid federal and state income taxes for all or a part of the time that we elected S corporation status, plus interest and possible penalties.

ITEM 2. PROPERTIES

We currently lease approximately 37,000 square feet of space for our headquarters in Santa Ana, California. Our other facilities are located in Irvine, California where we lease approximately 14,000 square feet, in Coquitlam, British Columbia where we lease approximately 7,000 square feet, in Wheeling, West Virginia where we lease approximately 77,000 square feet for a manufacturing facility, in Nashville, Tennessee where we lease approximately 5,300 square feet and in Matthews, North Carolina where we lease approximately 2,500 square feet. We consider our present facilities to be sufficient for our current operations.

ITEM 3. LEGAL PROCEEDINGS

There are no material pending legal proceedings to which we or any of our subsidiaries is a party, or regarding any of our property or any of our subsidiaries' property.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Edgar Filing: TROY GROUP INC - Form 10-K

No matter was submitted for a vote of our security holders during the fourth quarter of the fiscal year covered by this report.

18

ITEM 4A. EXECUTIVE OFFICERS OF TROY GROUP

Our executive officers as of February 1, 2001, are as follows:

Name ----	Age ---	Title -----
Patrick J. Dirk.....	61	Chairman of the Board, Director and Chief Executive Officer of Troy Group and related subsidiaries.
Robert S. Messina.....	51	President, Chief Operating Officer and Director of Troy Group.
Brian P. Dirk.....	36	Vice President and Director of Troy Group.
Del L. Conrad.....	54	Chief Financial Officer, Treasurer and Secretary of Troy Group, Chief Financial Officer and Secretary of Troy Systems International, Vice President, Chief Financial Officer and Secretary of Troy XCD and Troy AMDev, Inc.

PATRICK J. DIRK has been Chairman of the Board, Chief Executive Officer and a Director since he co-founded Troy Group with his wife in May 1982. From May 1982 until August 1999, Mr. Dirk served as President of Troy Group. Mr. Dirk is also the founder, Chairman of the Board and Chief Executive Officer of Troy Group related subsidiaries. From 1973 until 1982, Mr. Dirk was employed in various capacities by Kroy Inc., a manufacturer of automated lettering machines and related products, serving as President and a director from 1980 to 1982. Mr. Dirk also serves as a member of the boards of directors and advisory boards of several private companies, none of which compete with Troy Group. Mr. Dirk devotes substantially all of his efforts to Troy Group and its subsidiaries. Mr. Dirk is the father of Brian P. Dirk.

ROBERT S. MESSINA has been President, Chief Operating Officer and a Director of Troy Group since August 1999. Mr. Messina previously served as

Edgar Filing: TROY GROUP INC - Form 10-K

Executive Vice President of Troy Group from April 1998 to August 1999 and the President and Chief Operating Officer of Troy Systems International from December 1996 to August 1999. From December 1995 through December 1996, Mr. Messina served as the Executive Vice President and General Manager of Troy Systems International and from July 1994 through December 1995 he served as its Vice President Sales and Marketing. From January 1992 through March 1994, he was the General Manager of Omninote, a division of Telautograph Corp., a network communications company.

BRIAN P. DIRK has been our Vice President since May 1996. He was a member of our Board of Directors from that date until October 30, 1998. He again became a director in July 1999. Mr. Dirk's primary responsibility is Vice President, Corporate Development. His duties include managing our acquisition and alliance strategies and staff. Prior to this, he served as Vice President of International and Federal Government Sales. Since joining us in 1989, Mr. Dirk has held various training and management positions, including Director of Business Development and International Sales Manager. Mr. Dirk is the son of Patrick J. Dirk.

DEL L. CONRAD has been our Chief Financial Officer, Treasurer and Secretary since April 1998 and also serves as the Chief Financial Officer and Secretary of Troy Systems International, Vice President, Chief Financial Officer and Secretary of Troy XCD and Troy AMDev, Inc. Mr. Conrad served as the Vice President of Finance and Administration of Troy Systems International from March 1995 to April 1998. From August 1991 to March 1995, he served as a consultant on mergers and acquisitions, bank financing and operations. From June 1981 to July 1991, Mr. Conrad was a partner with McGladrey & Pullen, LLP, a public accounting firm.

19

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

COMMON STOCK INFORMATION.

Our common stock is currently traded on the Nasdaq National Market under the symbol "TROY." The following table sets forth, for each of the fiscal periods indicated since our July 27, 1999 initial public offering, the range of high and low sale prices per share as reported by the Nasdaq National Market. These prices do not include adjustments for retail mark-ups, mark-downs or commissions.

Fiscal 2000 -----	High ----	Low ---
First Quarter.....	\$43.00	\$12.5
Second Quarter.....	\$36.25	\$8.125
Third Quarter.....	\$15.25	\$8.00
Fourth Quarter.....	\$9.688	\$4.25

Edgar Filing: TROY GROUP INC - Form 10-K

Fiscal 1999	High	Low
Third Quarter (July 27 to August 31).....	\$7.6250	\$6.0625
Fourth Quarter.....	\$17.3125	\$6.7500

We have not declared or paid any cash dividends (other than S corporation distributions) on our common stock since our inception, and the Board of Directors presently intends to retain all earnings for use in our business for the foreseeable future. In addition, our ability to declare and pay dividends is restricted by the terms of certain of our debt agreements. See Note 9 to our financial statements on pages F-15 to F-17 of this report.

As of February 1, 2001, there were 112 record holders of our common stock.

USE OF PROCEEDS.

In May 1998, we initially filed a Registration Statement on Form S-1 (File No. 333-51523) with the Securities and Exchange Commission for our initial public offering. Under this Registration Statement, as amended, we registered the offer and sale under the federal securities laws of up to \$25,875,000 in shares of our common stock. The SEC declared our Registration Statement effective on July 21, 1999 and the closing of our initial public offering was held on July 27, 1999. The managing underwriters were Cruttenden Roth Incorporated, Pennsylvania Merchant Group and H.C. Wainwright & Co., Inc.

20

The aggregate offering price of the shares offered was \$17,500,000. All of the offered shares were sold and the net proceeds to Troy Group from the offering were \$14,943,000, after deducting the underwriting discount of \$1,575,000 and the estimated offering expenses of approximately \$982,000, of which approximately \$54,000 was incurred from the effective date through November 30, 1999. All of the expenses incurred in connection with the initial public offering were paid to unrelated parties or entities.

From July 27, 1999 to November 30, 2000, we have use the net proceeds from the offering as follows:

Repayment of long-term debt.....	\$ 2,965,000
Repayment of line of credit.....	1,354,000
Investment in available-for-sale securities.....	9,953,000
Working capital.....	671,000
	\$14,943,000

=====

All payments of the net proceeds were paid to unrelated parties or entities.

ITEM 6. SELECTED FINANCIAL DATA.

SUMMARY STATEMENTS OF OPERATIONS DATA:
(IN THOUSANDS, EXCEPT PER SHARE DATA)

For the year ended November 30: -----	2000 ----	1999 ----	1998 ----	1997 ----
Net sales.....	\$51,745	\$58,559	\$35,758	\$33,433
Gross profit.....	22,292	22,531	14,262	13,833
Net income.....	2,407	5,827	4,434	4,393
Pro forma net income.....	--	--	2,371	2,653
Pro forma diluted net income per share.....	\$ 0.21	\$ 0.64	\$ 0.31	\$ 0.33
Weighted average diluted shares outstanding.....	11,369	9,116	7,745	7,753

SUMMARY BALANCE SHEET DATA:
(IN THOUSANDS, EXCEPT PER SHARE DATA)

At November 30: -----	2000 ----	1999 ----	1998 ----	1997 ----
Working capital.....	\$24,903	\$25,011	\$ 5,806	\$ 5,173
Total assets.....	42,575	37,355	18,918	11,749
Long-term debt.....	272	331	3,333	2,034
Stockholders' equity.....	35,615	29,795	8,265	5,948

The above information includes our initial public offering on July 21, 1999 and our acquisitions of Troy XCD in October 1998, Troy Telgate Systems in May 1999, American Development (AMDev), Inc. in February 2000 and CableNet Technologies in May 2000. See Note 2 to our financial statements on pages F-9 and F-13 of this report for further information including information regarding pro forma net income.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Edgar Filing: TROY GROUP INC - Form 10-K

The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included in this report.

BACKGROUND

We are a leading worldwide provider of financial payment solutions. Our software, firmware and hardware solutions enable businesses to electronically transmit and output financial payment information across computer networks and the Internet.

Our products consist of financial payment solutions and connectivity products that serve a wide variety of industries including e-commerce retailers, online brokerages, telecommunications, financial services, insurance, computer hardware, automotive, personnel and others.

Our financial payment solutions consist of e-commerce payment solutions and networked computer payment solutions. Our e-commerce payment solutions enable Internet merchants to accept payments from their customers' checking accounts as an alternative to credit cards. Our networked computer payment solutions include software, firmware, hardware and imaging supplies that enable standard laser printers to print MICR lines, graphics, barcodes and forms and to perform additional functions such as auditing, status checking and security.

Our connectivity products enhance the connectivity of devices that transmit information over computer networks and the Internet.

OVERVIEW

Net sales are generated from the sale of our connectivity and financial payment solutions and services. We recognize revenue from the sale of our products when the goods are shipped to the customer and we recognize service revenue over the period of the contract on a straight-line basis. In the fiscal years ended November 30, 2000 and 1999, a reseller of our imaging supplies, Cannon IV Inc., accounted for 9.2% and 11.4%, respectively, of our net sales, of which we believe a significant portion was sold to a single customer. In addition, a reseller of our laser printers and connectivity products, Comark, Inc. also sold products to this same customer which accounted for .6% and 19.9%, respectively, of our net sales for the fiscal years ended November 30, 2000 and 1999. Sales to Comark, Inc. in the fiscal year ended November 30, 1999 include a significant non-recurring replacement order of financial document printers. We also sell our products directly to this significant customer. Direct sales to these resellers' significant customer were .3% and 2.6% of our net sales for the fiscal years ended November 30, 2000 and 1999. We do not have a written or oral contract with Cannon IV, Comark, Inc. or their significant customer. All sales are made through purchase orders.

Edgar Filing: TROY GROUP INC - Form 10-K

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, certain information derived from our consolidated statements of operations expressed as a percentage of net sales

	Fiscal Year Ended November 30,		
	2000	1999	1998
Net sales.....	100.0%	100.0%	100.0%
Cost of goods sold.....	56.9	61.5	60.0
Gross Profit.....	43.1	38.5	39.0
Selling, general and administrative expenses.....	27.4	16.1	17.0
Research and development expenses.....	8.4	6.2	7.0

Pro forma net income.....	--	--	6.0

FISCAL YEAR ENDED NOVEMBER 30, 2000 COMPARED TO FISCAL YEAR ENDED NOVEMBER 30, 1999

NET SALES. Our net sales were \$51.7 million for the fiscal year ended November 30, 2000, with \$39.9 million attributable to financial payment solutions and \$11.8 million attributable to connectivity products and software. Net sales in the fiscal year ended November 30, 2000 decreased by \$6.9 million, or 11.8%, from \$58.6 million in the fiscal year ended November 30, 1999. This cumulative decrease in net sales represents a \$12.9 million decrease in sales of our laser printers, impact printers and services, which was partially offset by an increase of \$2.4 million in sales of our proprietary imaging supplies and an increase of \$3.6 million in sales of our connectivity products, which includes \$2.8 million in software licensing revenue. Net sales were not significantly affected by price changes. The decrease in our net sales for the fiscal year ended November 30, 2000, as compared to net sales for the fiscal year ended November 30, 1999, can be attributed to a significant non-recurring replacement order of financial document printers to Comark, Inc. of \$10.8 million recorded in the third and fourth quarters of 1999, as well as the implementation of our strategy to shift our focus away from our established financial payment solutions and toward our electronic payment solutions and wireless printing opportunities. In connection with our shift in focus, we may continue to license our software technology to third parties as we consider appropriate. To the extent that our mix of revenue sources continues to shift toward sales of connectivity products and technology licensing, our net sales could vary from historical patterns.

COST OF GOODS SOLD. Cost of goods sold decreased by \$6.6 million or

Edgar Filing: TROY GROUP INC - Form 10-K

18.2% to \$29.5 million in the fiscal year ended November 30, 2000 from \$36.0 million in the fiscal year ended November 30, 1999. This decrease was primarily due to decreased net sales offset by sales of higher gross margin products. Cost of goods sold as a percentage of net sales decreased to 56.9% in the fiscal year ended November 30, 2000 from 61.5% in the fiscal year ended November 30, 1999. In connection with our shift in focus, we may enter into agreements to license technology from other companies. As a result, of these agreements, cost of goods sold could vary from historical patterns.

23

GROSS PROFIT. As a result of the above factors, gross profit decreased by \$200,000 to \$22.3 million in the fiscal year ended November 30, 2000 from \$22.5 million in the fiscal year ended November 30, 1999. Gross profit as a percentage of net sales increased to 43.1% in the fiscal year ended November 30, 2000 from 38.5% in the fiscal year ended November 30, 1999. This increase was also primarily due to sales of higher gross margin products.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses increased by \$4.8 million or 50.6% to \$14.2 million in the fiscal year ended November 30, 2000 from \$9.4 million in the fiscal year ended November 30, 1999. This increase was due primarily to additional operating expenses of \$1.5 million as a result of our acquisitions, an increase of \$3.3 million due to increases in personnel, the allowance for doubtful accounts, promotions and other expenses. Selling, general and administrative expenses as a percentage of net sales increased to 27.4% in the fiscal year ended November 30, 2000 from 16.1% in the fiscal year ended November 30, 1999, due to our acquisition strategy and our associated growth requirements. In connection with our shift in focus, we intend to continue to invest in marketing expenditures, substantially increase the size of the sales force, and add technical resources as required. As a result of these expenditures and hiring initiatives, we expect selling, general and administrative expenses to continue to exceed historical levels. This forward-looking statement will be impacted by the timing and amount of these expenditures, our ability to attract and retain sales and marketing personnel and the associated costs of such personnel, and the success of our marketing efforts.

RESEARCH AND DEVELOPMENT EXPENSES. Research and development expenses increased by \$700,000 or 19.9% to \$4.4 million in the fiscal year ended November 30, 2000 from \$3.6 million in the fiscal year ended November 30, 1999. Of this increase, \$600,000 was due to additional research and development expenses as a result of our acquisitions. Research and development expenses as a percentage of net sales was 8.4% in the fiscal year ended November 30, 2000 and 6.2% in the fiscal year ended November 30, 1999. In connection with our growth initiatives and efforts to develop new wireless printing technologies, we expect research and development expenses to continue to exceed historical levels as we add additional personnel and incur additional related costs. This forward-looking statement will be impacted by the timing and amount of additional research and development expenditures and our ability to attract and retain research and development personnel and the associated costs of such personnel.

AMORTIZATION OF INTANGIBLE ASSETS. Amortization of intangible assets increased by \$603,000 or 145.3% to \$1.0 million in the fiscal year ended November 30, 2000 from \$415,000 in the fiscal year ended November 30, 1999.

Edgar Filing: TROY GROUP INC - Form 10-K

This increase was the result of increases in the intangible assets associated with our acquisitions.

OPERATING INCOME. As a result of the above factors, operating income decreased by \$6.3 million or 70% to \$2.7 million in the fiscal year ended November 30, 2000 from \$9.0 million in the fiscal year ended November 30, 1999. Operating income as a percentage of net sales decreased to 5.2% in the fiscal year ended November 30, 2000 from 15.5% in the fiscal year ended November 30, 1999.

INTEREST INCOME. Interest income was \$865,000 in the fiscal year ended November 30, 2000. This income was due to our investment of proceeds from our initial public offering and cash flow provided by operations.

INTEREST EXPENSE. Interest expense decreased by \$215,000 to \$19,000 in the fiscal year ended November 30, 2000 from \$234,000 in the fiscal year ended November 30, 1999. This decrease was due to decreased borrowings under our line of credit and term debt.

24

INCOME TAXES. Income taxes decreased to \$1.2 million in the fiscal year ended November 30, 2000 from \$3.2 million in the fiscal year ended November 30, 1999. This decrease is a result of decreased income before income taxes. Income taxes as a percentage of pretax income decreased to 32.4% in the fiscal year ended November 30, 2000 from 35.6% in the fiscal year ended November 30, 1999. This decrease was due to increases in research and development and other tax credits.

FISCAL YEAR ENDED NOVEMBER 30, 1999 COMPARED TO FISCAL YEAR ENDED NOVEMBER 30, 1998

NET SALES. Our net sales were \$58.6 million for the fiscal year ended November 30, 1999, with \$50.4 million attributable to financial payment solutions products and \$8.2 million attributable to connectivity products and software. This represented an increase in net sales of \$22.8 million or 63.8% from \$35.8 million in the fiscal year ended November 30, 1998. This increase was due primarily to an increase of \$8.2 million in sales of connectivity products as a result of our acquisitions, an increase of \$4.6 million in sales of our proprietary imaging supplies and services and an increase of \$11.5 million in sales of our laser printers. This increase was offset by a \$1.2 million decrease in sales of our impact printers. We believe that impact printer sales will decline in future periods because of continuing increases in print quality and speed and continuing reductions in prices of non-impact printers. Net sales were not significantly affected by price changes.

COST OF GOODS SOLD. Cost of goods sold increased by \$14.5 million or 67.6% to \$36.0 million in the fiscal year ended November 30, 1999 from \$21.5 million in the fiscal year ended November 30, 1998. This increase was primarily due to increased net sales. Cost of goods sold as a percentage of net sales increased to 61.5% in the fiscal year ended November 30, 1999 from 60.1% in the fiscal year ended November 30, 1998. This increase was primarily due to the sale of a significant amount of financial document printers to Comark at a reduced profit margin.

GROSS PROFIT. As a result of the above factors, gross profit increased by \$8.3 million or 58.0% to \$22.5 million in the fiscal year ended November 30, 1999 from \$14.3 million in the fiscal year ended November 30,

Edgar Filing: TROY GROUP INC - Form 10-K

1998. Gross profit as a percentage of net sales decreased to 38.5% in the fiscal year ended November 30, 1999 from 39.9% in the fiscal year ended November 30, 1998. This decrease was also primarily due to the sale of a significant amount of financial document printers to Comark at a reduced profit margin.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses increased by \$3.0 million or 47.7% to \$9.4 million in the fiscal year ended November 30, 1999 from \$6.4 million in the fiscal year ended November 30, 1998. This increase was due primarily to the additional operating expenses of \$1.7 million as a result of our acquisitions, an increase of \$1.3 million due to increases in personnel, promotions, and other expenses. Selling, general and administrative expenses as a percentage of net sales decreased to 16.1% in the fiscal year ended November 30, 1999 from 17.9% in the fiscal year ended November 30, 1998.

RESEARCH AND DEVELOPMENT EXPENSES. Research and development expenses increased by \$1.1 million or 43.2% to \$3.6 million in the fiscal year ended November 30, 1999 from \$2.5 million in the fiscal year ended November 30, 1998. Of this increase, \$1.0 million was due to the additional research and development expenses as a result of our acquisitions. Research and development expenses as a percentage of net sales decreased to 6.2% in the fiscal year ended November 30, 1999 from 7.1% in the fiscal year ended November 30, 1998.

25

AMORTIZATION OF INTANGIBLE ASSETS. Amortization of intangible assets increased by \$400,000 to \$415,000 in the fiscal year ended November 30, 1999 from \$15,000 in the fiscal year ended November 30, 1998. This increase was the result of increases in the intangible assets associated with our acquisitions.

OPERATING INCOME. As a result of the above factors, operating income increased by \$4.6 million or 102.6% to \$9.0 million in the fiscal year ended November 30, 1999 from \$4.5 million in the fiscal year ended November 30, 1998. Operating income as a percentage of net sales increased to 15.5% in the fiscal year ended November 30, 1999 from 12.5% in the fiscal year ended November 30, 1998.

INTEREST INCOME. Interest income was \$231,000 for the fiscal year ended November 30, 1999. This income was due to our investment of proceeds from our initial public offering. We did not have interest income in the fiscal year ended November 30, 1998.

INTEREST EXPENSE. Interest expense increased by \$133,000 to \$234,000 in the fiscal year ended November 30, 1999 from \$101,000 in the fiscal year ended November 30, 1998. This increase was due to increased borrowings under our line of credit and term debt prior to the completion of our initial public offering.

INCOME TAXES. Income taxes increased to \$3.2 million in the fiscal year ended November 30, 1999 from a credit of \$70,000 in the fiscal year ended November 30, 1998. This increase resulted when Troy Group and Troy Systems terminated their S corporation tax elections as of October 30, 1998 and were thereafter taxed as C corporations. After giving effect to the pro forma adjustments, income taxes as a percentage of pretax income decreased to

Edgar Filing: TROY GROUP INC - Form 10-K

35.6% in the fiscal year ended November 30, 1999 from 45.7% in the fiscal year ended November 30, 1998.

BACKLOG

We sell our products on a purchase order basis rather than through long-term contracts. Because we typically ship product within 30 days of order and customers may cancel or reschedule deliveries, we do not consider backlog to be a reliable indicator of future financial results.

LIQUIDITY AND CAPITAL RESOURCES

Prior to our initial public offering in July, 1999, our primary source of liquidity was through cash generated from operations and borrowings under our revolving credit facility and term loans.

Cash flows provided by operating activities were \$3.4 million in the fiscal year ended November 30, 2000 compared to \$2.0 million provided by operating activities in the fiscal year ended November 30, 1999. This increase was due primarily to a decrease in accounts receivable and an increase in accounts payable and accrued expenses, partially offset by an increase in inventories, prepaid expenses and other, and a decrease in income taxes payable. The accounts receivable decrease resulted primarily from collections. The increase in inventories resulted primarily from increased levels to meet anticipated sales.

Cash flows used in investing activities were \$7.3 million in the fiscal year ended November 30, 2000 compared to \$8.7 million used in the fiscal year ended November 30, 1999. Included in cash flows used in investing activities in the fiscal year ended November 30, 2000 was \$13.5 million in net proceeds from available-for-sale securities and \$3.2 million for our acquisition of companies. In connection with split-dollar life insurance arrangements with our major shareholder, we are committed to funding the premium on two life insurance policies for the foreseeable future. Annual premiums on these policies are approximately \$500,000 per year for the next five years and \$225,000 per year thereafter.

26

Cash flows provided by financing activities were \$844,000 in the fiscal year ended November 30, 2000 compared to cash flows provided by financing activities of \$11.5 million in the fiscal year ended November 30, 1999.

We currently have a \$5.0 million general line of credit and a \$10.0 million acquisition line of credit with Comerica Bank - California. Both lines of credit are secured by substantially all of our assets and are subject to certain financial covenants. In connection with the general line-of-credit agreement, we have a \$650,000 standby letter of credit sublimit agreement of which \$80,000 was outstanding at November 30, 2000. There were no borrowings outstanding against either line of credit on November 30, 2000, and as of that date \$4,920,000 million was available under the general line of credit and all \$10.0 million was available under the acquisition line of credit. The acquisition line of credit expires on October 1, 2001. The general line of credit has no expiration date.

We believe that cash generated by operating activities, the net proceeds from our initial public offering and funds available under our

Edgar Filing: TROY GROUP INC - Form 10-K

credit facility will be sufficient to finance our operating activities for at least the next 12 months. To the extent that the funds generated from these sources are insufficient to finance our operating activities, we would need to raise additional funds through public or private financing. We cannot assure you that additional financing will be available on terms favorable to us, or at all.

RECENTLY ISSUED ACCOUNTING STANDARDS

In June 1998, the FASB issued SFAS No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. This statement establishes accounting and reporting standards for derivative instruments and for hedging activities. The new standard is effective for fiscal years starting after June 15, 2000 and is not expected to have a material impact on our consolidated financial statements.

ITEM 7a. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, exchange rates, commodity prices, equity prices and other market changes. Market risk is attributed to all market sensitive financial instruments, including long term debt.

We do not utilize derivative financial instruments. Accordingly, our exposure to market risk is through our investments in available-for-sale securities and our bank debt which bears interest at variable rates. Available-for-sale securities consist of corporate debt and marketable equity securities. Approximately \$2.0 million of these securities have contractual maturity dates of up to one year and \$2.6 million of these securities have no maturity dates. At November 30, 2000, market values approximated carrying values. Due to the short-term maturities of these securities, management believes that there is no significant market risk. At November 30, 2000, we had approximately \$12.0 million in cash, cash equivalents and investments in available-for-sale securities, and, accordingly, a sustained decrease in the rate of interest earned of 1% would cause a decrease in the amount of interest earned of \$120,000. The bank debt is a revolving line of credit. All borrowings bear interest based upon the reference rate per annum as announced by the bank (9.5% at November 30, 2000). At November 30, 2000, there were no amounts outstanding under the line of credit agreement and, accordingly, a sustained increase in the reference rate of 1% would not cause our annual interest expense to change.

27

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

FINANCIAL STATEMENTS.

Our consolidated financial statements and related notes are contained on pages F-1 to F-25 of this report. The index to such items is included on page 30 in Item 14(a)(1).

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K

(a) LIST OF DOCUMENTS FILED AS PART OF THIS REPORT:

(1) FINANCIAL STATEMENTS:

The following financial statements are included in this report on the pages indicated:

Independent auditor's report.....	
Consolidated balance sheets as of	
November 30, 2000 and 1999.....	
Consolidated statements of operations for the years ended	
November 30, 2000 , 1999 and 1998.....	
Consolidated statements of cash flows for the years ended	
November 30, 2000 , 1999 and 1998.....	
Consolidated statements of stockholders' equity as of	
November 30, 2000 , 1999 and 1998.....	
Notes to consolidated financial statements.....	

(2) FINANCIAL STATEMENT SCHEDULES:

All financial statement schedules have been omitted because the required information is included in our consolidated financial statements or the related notes, or is not applicable.

(3) EXHIBITS

The exhibits to this Annual Report on Form 10-K are listed in the Exhibit Index contained on pages E-1 through E-4 of this report.

We will furnish a copy of any exhibit to a stockholder who requests a copy in writing and pays a fee of \$25.00 per exhibit. Requests should be sent to: Del L. Conrad, Chief Financial Officer, Troy Group, Inc, 2331 South Pullman Street, Santa Ana, California 92705.

The following is a list of each management contract or compensatory plan or arrangement required to be filed as an exhibit to this Annual Report on Form 10-K pursuant to Item 14(c):

- A. 1996 Stock Option Plan (incorporated by reference to Exhibit 10.7 to Troy Group's Registration Statement on Form S-1 (File No. 333-51523)).

Edgar Filing: TROY GROUP INC - Form 10-K

- B. 1998 Stock Incentive Plan, as amended (incorporated by reference to Exhibit 10.2 to Troy Group's Form 10-Q for the quarter ended August 31, 2000 (File No. 000-24413)).
- C. 1998 Employee Stock Purchase Plan (incorporated by reference to Exhibit 10.9 to Troy Group's Registration Statement on Form S-1 (File No. 333-51523)).

30

- D. Non-Competition Agreement dated November 27, 1996 between Robert Messina and Troy Group (incorporated by reference to Exhibit 10.12 to Troy Group's Registration Statement on Form S-1 (File No. 333-51523)).
- E. Form of Indemnification Agreement for directors and executive officers of Troy Group (incorporated by reference to Exhibit 10.14 to Troy Group's Registration Statement on Form S-1 (File No. 333-51523)).

(b) REPORTS ON FORM 8-K:

None.

(c) EXHIBITS:

The response to this portion of Item 14 is included as a separate section of this Annual Report on Form 10-K.

(d) FINANCIAL STATEMENT SCHEDULES:

The response to this portion of Item 14 is included as a separate section of this Annual Report on Form 10-K.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
 Troy Group, Inc.
 Santa Ana, California

We have audited the accompanying consolidated balance sheets of Troy Group, Inc. and subsidiaries as of November 30, 2000 and 1999, and the related consolidated statements of operations, cash flows and stockholders' equity for each of the three years in the period ended November 30, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Troy Group, Inc. and subsidiaries as of November 30, 2000 and 1999, and the results of their operations and their cash flows for each of the three years in the period ended November 30, 2000 in conformity with generally accepted accounting principles.

McGLADREY & PULLEN, LLP

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS

The Company is a leading worldwide provider in financial payment systems and connectivity solutions. Troy Group, Inc., through its various acquisitions, has been in business since 1982. The Company's products have been adopted in a wide variety of industries including computer hardware, insurance, financial services, automotive, personnel, brokerage firms, e-commerce retail and others. The Company markets its products to over 5,000 active customers around the world through a direct sales force and a network of distributors and value-added resellers. The Company's financial payment systems and connectivity solutions consist of software, firmware, hardware and imaging supplies. Troy Group, Inc. has leveraged its expertise in financial payment systems and connectivity solutions into two strategic business areas: electronic payment solutions and wireless printing solutions utilizing Bluetooth™ and 802.11b technologies.

A summary of the Company's significant accounting policies follows:

USE OF ESTIMATES

Edgar Filing: TROY GROUP INC - Form 10-K

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

PRINCIPLES OF CONSOLIDATION

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All material intercompany balances and transactions are eliminated in consolidation.

CHECKS ISSUED NOT YET PRESENTED FOR PAYMENT

Through the use of concentration accounts, the Company's cash is accumulated daily and applied to the outstanding balance of the revolving line of credit (Note 6) or invested in a short-term money market account. Under this program, idle funds are minimized. The Company's liquidity is thereby maintained in the form of its ability to draw funds against the revolving line of credit. All checks issued but not yet presented for payment are classified as a liability.

RECLASSIFICATION OF CERTAIN ASSETS AND LIABILITIES

Certain assets and liabilities on the balance sheet as of November 30, 1999 have been reclassified, with no effect on net income, stockholders' equity or earnings per common share, to be consistent with the classifications adopted for the year ended November 30, 2000.

F-6

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INVESTMENT IN AVAILABLE-FOR-SALE SECURITIES

The Company has a diverse portfolio of investments in debt and marketable equity securities. Management determines the appropriate classification of the securities at the time they are acquired and evaluates the appropriateness of such classifications at each balance sheet date. Management has determined that all securities should be classified as available for sale. Available-for-sale securities are stated at fair value and unrealized holding gains and losses, net of the related deferred tax effect, are reported as a separate component of stockholders' equity. As of November 30, 1999 and 2000, the Company had approximately \$2.6 million and \$1.5 million, respectively, in marketable equity securities and \$5.0 million and \$8.4 million, respectively, in corporate debt securities, with contractual maturity dates of up to one year. Market values approximated carrying values. Accordingly, no unrealized gains or losses were recorded at November 30, 1999 and 2000.

Premiums and discounts on investments in debt securities are amortized over the contractual lives of those securities. The method of amortization results in a constant effective yield on those securities (the interest method).

Edgar Filing: TROY GROUP INC - Form 10-K

Dividends on marketable equity securities are recognized in income when declared. Realized gains and losses, including losses from declines in value of specific securities determined by management to be other than temporary, are included in income. Realized gains and losses are determined on the basis of the specific identification of the securities sold. The Company had no realized gains or losses in fiscal years 1998, 1999 or 2000.

INVENTORIES

Inventories are stated at the lower of cost (first-in first-out method) or market.

EQUIPMENT AND LEASEHOLD IMPROVEMENTS

Equipment and leasehold improvements are recorded at cost. Equipment is depreciated using the straight-line method over their estimated useful lives, currently five years. Improvements to leased property are amortized over the lesser of the life of the lease or life of the improvements.

INTANGIBLE ASSETS

Intangible assets consist of customer lists, core technology, assembled workforce and goodwill, which are being amortized on a straight-line basis over five to seven years.

EVALUATION OF LONG-LIVED ASSETS

The Company periodically reviews the value of its long-lived assets to determine if an impairment has occurred. The Company does not believe that an impairment of its long-lived assets has occurred based on an evaluation of projected operating income, cash flows and business prospects.

REVENUE RECOGNITION

The Company recognizes revenue when goods are shipped to the customer. Service revenue is recognized over the period of the contract on a straight-line basis. Licensing and upgrade revenue from sales of software products is recognized as revenue upon receipt of an executed sales agreement and shipment to the customer, provided there are no significant obligations.

F-7

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PRODUCT RETURNS AND WARRANTIES

The Company records a provision for estimated product returns and warranties at the time the revenue is recognized.

Edgar Filing: TROY GROUP INC - Form 10-K

ADVERTISING POLICY

The Company expenses the production costs of advertising the first time the advertising takes place. Advertising expense was approximately \$84,000, \$100,000 and \$247,000 in fiscal years 1998, 1999 and 2000, respectively.

RESEARCH AND DEVELOPMENT POLICY

The Company expenses research and development costs as they are incurred. The Company incurs research and development costs in developing new products.

INCOME TAXES

For the eleven months ended October 31, 1998, the Company, with the consent of its stockholders, elected to be taxed under sections of federal and state income tax laws which provide that in lieu of corporation income taxes, the stockholders separately account for their pro rata shares of the Company's income, deductions, losses and credits. The Company's stockholders terminated this election effective as of October 30, 1998.

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

STOCK-BASED COMPENSATION

The Company accounts for stock-based employee compensation under the requirements of Accounting Principles Board (APB) Opinion No. 25, which does not require compensation to be recorded if the consideration to be received is at least equal to fair value of the shares to be received at the measurement date. Nonemployee stock-based transactions are accounted for under the requirements of Statement No. 123, ACCOUNTING FOR STOCK-BASED COMPENSATION, which requires compensation to be recorded based on the fair value of the securities issued or the services received, whichever is more reliably measurable.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, available-for-sale securities, accounts receivable, accounts payable and notes payable. The carrying value of these instruments is considered to be representative of their fair value.

F-8

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PRO FORMA STATEMENT OF OPERATIONS ADJUSTMENTS

Edgar Filing: TROY GROUP INC - Form 10-K

The Company terminated the S corporation election for itself and its subsidiary effective as of October 30, 1998. The pro forma statement of operations information included in these financial statements is to show what the significant effects might have been on the historical statements of operations had the Company and its subsidiary not been treated as S corporations for income tax purposes. The pro forma information reflects a provision for income taxes at an effective rate of 40% in the fiscal year ended November 30, 1998, after giving effect in 1998 to the nondeductibility of purchased in process research and development and the nontaxability of the increase in the cash surrender value of officer life insurance. The pro forma net income per share is based on the weighted average number of shares of common stock outstanding during the period.

EARNINGS PER SHARE

Basic EPS is computed as net income divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through exercise of stock options and warrants (231,000, 480,000 and 537,000 shares in the fiscal years ended November 30, 1998, 1999 and 2000, respectively). Diluted EPS does not include contingently issuable warrants because the conditions for issuance have not been met. The dilutive effect of options and warrants which were not included in the total of diluted shares for 1998 because the effect was antidilutive was 63,000.

NEW ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. This Statement establishes accounting and reporting standards for derivative instruments and for hedging activities. The new standard is effective for fiscal years starting after June 15, 2000 and is not expected to have a material impact on the Company's consolidated financial statements.

NOTE 2. BUSINESS COMBINATIONS

During the years ended November 30, 1998, 1999 and 2000, the Company acquired the following companies, all of which were accounted for as purchase business combinations with the operations included subsequent to their respective acquisition dates.

NOTE 6. NOTES PAYABLE

The Company has a \$5,000,000 general line-of-credit agreement and a \$10,000,000 acquisition line-of-credit agreement with a bank. As of November 30, 2000, there were no borrowings outstanding against the lines of credit. Borrowings under the general line of credit bear interest at the lesser of the bank's reference rate 9.5% at November 30, 2000 less 0.25% or the bank's LIBOR rate (6.59% at November 30, 2000) plus 2% and are limited to 80% of eligible accounts receivable and 50% of eligible inventories if total liabilities to tangible effective net worth is greater than two to one. In connection with the general line-of-credit agreement, the Company has a \$650,000 standby letter of credit sublimit agreement of which approximately \$80,000 was outstanding at November 30, 2000. Both lines of credit are secured by substantially all of the Company's assets. In connection with its borrowing arrangements, the Company is subject to certain financial covenants. As of November 30, 2000, the Company had approximately \$4,920,000 in availability under the general line of credit and \$10,000,000 in availability under the acquisition line of credit. General line-of-credit borrowings are due on demand. The agreement may be terminated by either party.

Borrowings under the acquisition line of credit bear interest at the lesser of the bank's reference rate plus 0.25% or the bank's LIBOR rate plus 2.5%. The first \$3,000,000 of acquisition advances may be used to finance up to 100% of the purchase price of permitted acquisitions so long as the value of goodwill and other acquired intangibles does not exceed 50% of the purchase price. The acquisition line of credit requires borrowings be repaid in equal installments through October 2005. Availability on the acquisition line of

Edgar Filing: TROY GROUP INC - Form 10-K

credit expires October 1, 2001.

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT

The Company has 4% to 5% economic, industrial and business development notes payable at November 30, 1999 and 2000 totaling \$395,000 and \$331,000, respectively, which mature through 2005. The notes are secured by certain equipment. One of the notes is secured by a fourth trust deed on real property owned by a company related through common ownership to the majority stockholders. As of November 30, 2000, future maturities of long-term debt are as follows: 2001 \$59,000; 2002 \$70,000; 2003 \$73,000; 2004 \$75,000 and 2005 \$54,000.

NOTE 8. ACCRUED EXPENSES

Accrued expenses consisted of the following as of November 30:

	1999	2000
	----	----
Compensation.....	\$1,560,000	\$1,560,000
Other.....	762,000	1,000,000
	-----	-----
	\$2,322,000	\$2,560,000
	=====	=====

NOTE 9. STOCKHOLDERS' EQUITY

PREFERRED STOCK

The Board of Directors has the authority, without action by the stockholders, to designate and issue any authorized but unissued shares of preferred stock in one or more series and to designate the rights, preferences and privileges of each such series.

STOCK OPTION PLANS

The Company has reserved 3,064,298 shares of common stock for issuance under the Company's 1998 Stock Incentive Plan and 1996 Stock Option Plan, of which 1,547,000 shares are subject to outstanding options as of November 30, 2000. Option prices for the incentive stock options will be 100% of the fair market value of the stock on the date the option is granted with an exercise period of not more than ten years. For incentive options granted to 10% or more stockholders, the option price is 110% of the fair market value of the stock on the date the option is granted with an exercise period of not more than five years. Option prices for the nonqualified stock options shall not be less than 85% of the fair market value of the stock on the date the options are granted with an exercise period of not more than ten years. Vesting terms are determined by the Company at the date of grant.

Edgar Filing: TROY GROUP INC - Form 10-K

STOCK WARRANTS

The Company issued warrants to purchase shares of common stock of the Company to consultants and an attorney in connection with services provided relating to acquisitions, the Company's initial public offering and for other services. As discussed in Note 2, the Company has issued warrants to purchase 193,334 shares of common stock to consultants for their services provided in connection with acquisitions. The Company issued warrants to purchase a total of 100,000 shares of common stock for services provided in connection with the Company's initial public offering (50,000 to a consultant for his services and 50,000 shares for legal services). In addition, the Company has issued warrants to purchase 56,666 shares of common stock to consultants for other services provided. The warrants expire five years from the date granted. The Company's value of the grants were estimated at the measurement date using the Black-Scholes option-pricing model with the following assumptions: no dividends; expected lives of one month to three years; expected amounts to be exercised of 100%; risk free interest rates of 4.32% to 6.57%; and expected volatility of 43% to 45%.

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9. STOCKHOLDERS' EQUITY (CONTINUED)

A summary of the status of the stock option plans and stock warrants and changes during fiscal years 1998, 1999 and 2000 is as follows:

	Number of Shares	Weighted Average Exercise Price
	-----	-----
Outstanding, November 30, 1997	326,957	\$ 0.42
Granted (weighted average fair value \$3.25)	100,000	4.38
Exercised	--	--
Forfeited	--	--
	-----	-----
Outstanding, November 30, 1998	426,957	1.35
Granted (weighted average fair value \$4.46)	1,355,000	6.64
Exercised	(476,957)	(1.76)
Forfeited	--	--
	-----	-----
Outstanding, November 30, 1999	1,305,000	6.70
Granted (weighted average fair value \$5.46)	530,000	7.16
Exercised	(114,334)	(4.91)
Forfeited	(42,000)	(7.08)
	-----	-----
Outstanding, November 30, 2000	1,678,666	\$ 6.96
	=====	=====

Edgar Filing: TROY GROUP INC - Form 10-K

A further summary of the options and warrants outstanding at November 30, 2000 is as follows:

Options and Warrants Outstanding				Options E
Range of Exercise Prices	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Life	Number of Options
\$3.50	106,666	\$ 3.50	4.4	106,666
6.31 - \$ 8.00	1,547,000	7.09	8.9	442,000
13.16 - 14.25	25,000	13.38	9.0	
\$3.50 - \$14.25	1,678,666	\$ 6.96	8.6	548,666

There were 1,144,000 remaining options available for grants under the plans at November 30, 2000.

F-16

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9. STOCKHOLDERS' EQUITY (CONTINUED)

As permitted under generally accepted accounting principles, grants to employees under these plans are accounted for following APB Opinion No. 25 and related Interpretations. Accordingly, no compensation cost has been recognized for grants under the stock option plan. Had compensation cost been determined based on the grant date, fair value of awards, as prescribed in FASB Statement No. 123, reported net income, after the pro forma provision for income taxes, and earnings per common share, would have been reduced to the amounts shown below:

	1998 ----	1999 ----
Net income:		
As reported (1998 pro forma for income taxes)	\$2,371,000	\$5,827,000
Pro forma.....	2,360,000	5,092,000
Basic earnings per share:		
As reported (1998 pro forma for income taxes)	0.32	0.60
Pro forma.....	0.31	0.50
Diluted earnings per share:		
As reported (1998 pro forma for income taxes)	0.31	0.60
Pro forma.....	0.30	0.50

Edgar Filing: TROY GROUP INC - Form 10-K

In determining the pro forma amounts above, the value of each grant is estimated at the grant date using the Black-Scholes option-pricing method with the following assumptions for grants in 1999 and 2000: no dividends in both years; risk-free interest rates of 5.43% to 6.10% and 5.85% to 6.73%, respectively; expected lives of ten years in both years; expected amounts to be exercised of 100% in both years; and price volatility of 45% to 67% in both years.

EMPLOYEE STOCK PURCHASE PLAN

The Company has a stock purchase plan covering substantially all employees and has reserved 200,000 shares for issuance under this plan. Shares are purchased subsequent to the end of the annual offering period for 85% of the lower of the fair market value on the first day or last day of the Plan's offering period. For the year ended November 30, 2000, 14,654 shares were purchased for \$76,000 under the plan. At November 30, 2000, \$157,000 was accrued for employee stock purchases which represents approximately 40,000 shares at \$3.93 per share.

RETAINED EARNINGS

The Company is limited in its ability to declare and pay dividends by the terms of certain debt agreements.

F-17

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 10. RELATED-PARTY TRANSACTIONS, LEASE COMMITMENTS AND RENT EXPENSE

The Company leases its operating facilities under noncancelable operating lease agreements, which expire through 2003. The Company leases certain operating facilities from a company related through common ownership on a month-to-month basis. The related-party lease requires monthly payments of approximately \$22,000.

Rent expense in fiscal years 1998, 1999 and 2000 was approximately \$414,000, \$572,000 and \$637,000, respectively. Future minimum rental commitments under these leases in the fiscal years ending November 30 are as follows: 2001 \$353,000; 2002 \$337,000; 2003 \$243,000; 2004 \$84,000 (total \$1,017,000).

In fiscal years 1998, 1999 and 2000, the Company made principal payments on the notes payable to stockholders of \$375,000, none and none, respectively.

In fiscal year 2000, the Company advanced \$600,000 to stockholders in connection with the purchase of split dollar life insurance policies.

In fiscal year 2000, the Company entered into a split dollar life insurance arrangement with its majority shareholders and has agreed to pay the underlying life insurance premiums as a condition of continued employment. At November 30, 2000, the Company has \$1,058,000 recorded as an other asset that represents the policy premiums paid to date. The Company has a collateral assignment of the cash surrender value of the life insurance and an unsecured

Edgar Filing: TROY GROUP INC - Form 10-K

receivable from certain shareholders for the difference between the premiums paid and the cash surrender value of these policies.

NOTE 11. INCOME TAX MATTERS

Net deferred tax assets consist of the following components as of November 30:

	1999 ----	2000 ----
Deferred tax liabilities:		
Receivable allowance and valuation	\$ (77,000)	\$ --
Customer list, core technology, assembled workforce and goodwill	(608,000)	(493,000)
	-----	-----
	(685,000)	(493,000)
	-----	-----
Deferred tax assets:		
Inventories valuation	556,000	448,000
Accounts receivable allowance and valuation	--	168,000
Accrued compensation	234,000	195,000
Accrued warranty and other	60,000	119,000
Equipment and leasehold improvements	114,000	22,000
Tax credit carryforwards	280,000	383,000
	-----	-----
	1,244,000	1,335,000
	-----	-----
Net deferred tax assets	\$ 559,000	\$ 842,000
	=====	=====

F-18

The net deferred tax assets have been classified on the accompanying consolidated balance sheets as of November 30 as follows:

	1999 ----
Current assets.....	\$1,160,000
Long-term liabilities.....	(601,000)

	\$ 559,000
	=====

The Company's tax credit carryforwards are available to offset state income taxes of one state and expire in fiscal year 2005.

F-19

Edgar Filing: TROY GROUP INC - Form 10-K

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11. INCOME TAX MATTERS, CONTINUED

The provision (benefit) for income taxes charged to operations for the years ended November 30, 1998, 1999 and 2000 are as follows.

Current:	1998 ----	1999 ----	2000 ----
U.S. federal	\$ --	\$ 2,955,000	\$ 1,013,000
State	7,000	576,000	204,000
Foreign	--	188,000	218,000
	-----	-----	-----
	7,000	3,719,000	1,435,000
	-----	-----	-----
 Deferred:			
U.S. federal	(65,000)	(160,000)	(217,000)
State	(12,000)	(293,000)	(81,000)
Foreign	--	(51,000)	15,000
	-----	-----	-----
	(77,000)	(504,000)	(283,000)
	-----	-----	-----
	\$ (70,000)	\$ 3,215,000	\$ 1,152,000
	=====	=====	=====

The historical income tax provision for fiscal years 1998 and 1999 differs from the amount of income tax determined by applying the U.S. federal income tax rate to pretax income due to the following:

	1998 ----	1999 ----
Computed "expected" tax rate.....	35%	35%
Increase (decrease)		
State income taxes, net of federal benefit.....	6	4
Research and development and other tax credits	-	(2)
Nondeductible purchased in-process research and development.....	8	-
S corporation income and income taxes through October 30, 1998 included on individual stockholders' returns.....	(47)	-
Deferred tax assets recorded as a result of the S corporation election termination.....	(2)	-
Other.....	(2)	(1)
	---	---
	(2) %	36%

F-20

TROY GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11. INCOME TAX MATTERS (CONTINUED)

Pretax income for fiscal year 1998 was subject only to U.S. income taxes. For fiscal 1999, \$301,000 and \$8,741,000 was subject to foreign and U.S. income taxes and, for fiscal year 2000, \$475,000 and \$3,084,000 was subject to foreign and U.S. income taxes, respectively.

NOTE 12. MAJOR VENDORS

The Company purchases key components from two vendors. The Company also sells components to these same vendors. Purchases from these vendors for fiscal years 1998, 1999 and 2000 were as follows:

	1998 ----	1999 ----
Vendor A.....	*	\$12,040,000
Vendor B.....	\$8,500,000	4,600,000

Net payable or (receivable) balances as of November 30 were as follows:

	1998 ----	1999 ----
Vendor A.....	*	\$287,000
Vendor B.....	\$1,201,000	(108,000)

*Net purchases were less than 5% of the Company's net sales.

NOTE 13. SEGMENT INFORMATION, MAJOR CUSTOMERS AND GEOGRAPHICAL INFORMATION

SEGMENT INFORMATION

The Company's reportable segments are strategic business units. They are managed separately because each business requires different technology and marketing strategies.

There are two reportable segments: financial payments group and wireless and internet connectivity group. Wireless and internet connectivity group products include software, firmware and hardware that enable output devices such as printers and fax machines to better communicate over networks and the internet. Financial payments group products include software, firmware, hardware and imaging supplies that enhance the functionality of these output

Edgar Filing: TROY GROUP INC - Form 10-K

devices.

The accounting policies applied to determine the segment information are the same as those described in the summary of significant accounting policies, except that interest expense is only recorded by the financial payments group segment. Intersegment sales and transfers are accounted for at amounts that assume the sales or transfers were to unrelated third parties at the current market prices at the time of the transactions.

Management evaluates the performance of each segment based on income or loss from operations before income taxes.

Consolidated revenue	\$ 58,559,000	\$ 51,745,000
	=====	=====

MAJOR CUSTOMERS

In fiscal years 1998 and 1999, the Company had sales to a customer that individually accounted for 17.1% and 11.4% of the Company's total net sales and, as of November 30, 1999, the trade receivables from this customer were \$1,647,000. Sales to this customer in fiscal year 2000 were less than 10% of the Company's net sales.

In addition, in fiscal year 1999, the Company had sales to another customer that individually accounted for 19.9% of the Company's total net sales and, as of November 30, 1999, the trade receivables from this customer were \$3,506,000. Sales to this customer in fiscal years 1998 and 2000 were less than 10% of the Company's net sales.

All sales to major customers occurred within the financial payments group segment.
