INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Attached as Exhibit 1 is a copy of the press release of Ship Finance International Limited (the “Company”) dated August 22, 2007, announcing the Company’s results for the second quarter of 2007 and the declaration of a quarterly dividend in the amount of \$0.55 per share.

Exhibit 1

Ship Finance International Limited (NYSE: SFL) - Earnings Release

Reports second quarter results and quarterly dividend of \$0.55 per share

Ship Finance International Limited (“Ship Finance” or the “Company”) announces the financial results for the quarter ended June 30, 2007.

Highlights

- Reported net income for the quarter of \$39.5 million or \$0.54 per share, including profit share of \$15.7 million or \$0.22 per share.
 - Declared a quarterly cash dividend of \$0.55 per share.
- All five container vessels chartered to Horizon Lines, Inc. have commenced their long-term charters with full cash flow and earnings effect from the third quarter.
- The Company’s second jack-up drilling rig *West Prospero* was delivered from the shipyard and commenced its 15-year charter to Seadrill Limited at the end of the quarter.
- The single hull VLCC *Front Vanadis* was sold on hire/purchase terms, and a gain of \$4.3 million was recorded in the quarter.
- Five newbuilding container vessels were ordered in China for delivery in 2010 at an aggregate price of approximately \$190 million.
 - Acquisition of a 2003 built 1,700 TEU container vessel scheduled to be delivered in August 2007.
 - Acquisition of five new offshore supply vessels from Deep Sea Supply Plc. in combination with 12-year charters. Scheduled delivery in late August 2007.
- Amendment of profit share agreement with Frontline Ltd. Profit share will be earned on a quarterly basis, starting the second quarter 2007.

Dividends and Results for the Quarter ended June 30, 2007

The Board of Directors has declared a cash dividend for the second quarter of \$0.55 per share. The dividend will be paid on or about September 13, 2007 to shareholders of record as of August 31, 2007. The ex-dividend date will be August 29, 2007.

The Company reported total operating revenues of \$96.6 million or \$1.33 per share in the second quarter. This includes \$15.7 million or \$0.22 per share of profit share from Frontline Ltd. (“Frontline”). Net operating income for the quarter was \$70.5 million or \$0.97 per share and net income was \$39.5 million or \$0.54 per share.

As the majority of the Company’s assets are accounted for as finance leases, a significant portion of the charter hire received does not appear in the Income Statement. These amounts are classified as ‘repayment of investment in finance

leases', and are only included in the Statement of Cashflows. For the second quarter, this amounted to \$46.2 million or \$0.64 per share.

Net cash provided by operating activities in the second quarter was \$29.0 million, net cash used in investing activities was \$201.9 million and net cash provided by financing activities was \$125.7 million.

Liquidity and Capital Expenditure

As of June 30, 2007, the Company had \$319.8 million in available funds, comprised of \$100.1 million in free cash and cash equivalents (including \$1.0 million in a 100% owned subsidiary accounted for under the equity method) and \$219.7 million in available credit lines.

As of June 30, 2007, and including acquisitions announced after the quarter end, the Company's capital commitments relating to newbuildings and acquisitions are estimated as follows:

Period:	2H 2007	2008	2009	2010	Total
	\$266 mill.	\$323 mill.	\$168 mill.	\$98 mill.	\$855 mill.

The above amounts are net of any seller's credit, and separate financing arrangements are already in place for several of these investments.

Business Update

As of June 30, 2007 the fleet consisted of 53 operating vessels and rigs, and the Company had contracted to acquire 12 newbuildings. After the end of the quarter, Ship Finance has announced the acquisition of six additional vessels, scheduled to be delivered in late August 2007.

The gross fixed-rate charter backlog was approximately \$5.5 billion as of June 30, 2007, with an average charter tenure of 10.3 years, or 13.9 years if weighted by charter revenue. Some of our charters have purchase or cancellation options which, if exercised, will reduce the fixed charter backlog and average charter tenure.

As of June 30, 2007, 34 of our crude oil tankers and eight of our oil/bulk/ore ("OBO") vessels operated on long term contracts to subsidiaries of Frontline. In addition to the fixed base charter rate, Ship Finance is also entitled to receive 20% of the time charter equivalent ("TCE") earnings for these vessels in excess of the base charter rate. For the second quarter of 2007, the average base charter rate was approximately \$26,300 for our VLCC's and \$20,700 for our Suezmax tankers and OBOS. The average vessel earnings have consistently been above the base charter rates since the Company's inception in 2003.

The average daily TCE earned by Frontline in the second quarter in the spot and time charter period market from the Company's VLCCs, Suezmax tankers and OBOS were approximately \$49,200, \$43,700 and \$38,300, respectively. The corresponding average daily TCEs in the first quarter were approximately \$46,700, \$36,600 and \$33,900, respectively.

In April 2007, the newbuilding container vessels *Horizon Eagle* and *Horizon Falcon* were delivered on 12-year charters to Horizon Lines, Inc. ("Horizon Lines") and *Horizon Tiger*, the final vessel, was delivered in May 2007. All five vessels are now operating, with full cashflow and earnings effect from the third quarter. The vessels are chartered out on bareboat contracts, where Horizon Lines covers all operating and maintenance expenses, and the average annual net cash contribution after interest expense and debt repayment will be approximately \$0.15 per share.

In June 2007, the Company ordered two 2,500 TEU and three 1,700 TEU newbuilding container vessels in China with delivery scheduled for 2010. The aggregate contract price is approximately \$190 million, of which 20% is payable in 2007 and the remainder is payable in intervals based on construction progress, starting in mid 2009. Based on a combination of very attractive contract price for the vessels and a positive outlook for the container market, Ship Finance expects the new vessels to have a positive contribution to long term dividend capacity when the vessels commence trading.

In late June 2007, the Company's second jack-up drilling rig *West Prospero* was delivered from the shipyard and commenced a 15-year bareboat charter to a subsidiary of Seadrill Limited. No revenues were recorded in the second quarter, but there will be full cashflow and earnings effect from the third quarter. The charter rate and the loan installments will be higher in the initial period when the rig is on a profitable third party sub-charter to ExxonMobil Exploration and Production Malaysia Inc., and the average annual net cash contribution for the first six years after estimated interest expense and debt repayment will be approximately \$0.10 per share.

In July 2007, the Company announced the acquisition of the 2003 built 1,700 TEU container vessel *Montemar Europa* at a net purchase price of \$32.5 million. The acquisition of the vessel will be funded through the Company's cash and available credit lines. The vessel is scheduled to be delivered in late August, and has a \$13,500 per day timecharter attached that expires in the fourth quarter of 2008. The charter market for modern 1,700 TEU container vessels has strengthened significantly in 2007, and the vessel will be marketed for medium to long-term contracts following the completion of the existing charter.

In August 2007, Ship Finance announced the agreement to acquire five offshore supply vessels from Deep Sea Supply Plc. ("Deep Sea") based on a total delivered price of \$198.5 million, less a seller's credit of \$17.5 million. The Company has arranged a \$148.9 million bank financing, and the remaining \$32.1 million will be funded through the Company's cash and available credit lines. The vessels are scheduled to be delivered to Ship Finance in late August 2007 and will be bareboat chartered back to Deep Sea for a period of 12 years. The average annual net cash contribution for the first seven years after estimated interest expense and debt repayment will be approximately \$0.07 per share.

Corporate and Other Matters

The profit share agreement with Frontline has been very profitable for the Company, and has over the last 14 quarters generated an average quarterly contribution of \$22.3 million or \$0.31 per share. The profit share has been calculated at the end of each calendar year, and as a consequence, no profit share could be recorded until the cumulative TCE earnings-to-date exceeded annual base charterhire under the Frontline charters. One effect of this accounting method is that the profit share recorded in the quarterly income statement has generally not reflected the profit share generated in the quarter.

The Company has now agreed with Frontline to change the profit share agreement from an annual calculation to a quarterly calculation, effective April 1, 2007. Based on the amended agreement, the profit share may also be negative for a quarter, but the aggregate profit share to Ship Finance for any calendar year will be payable in March the following year, and will not be less than zero.

The new agreement is not expected to have an impact on the annual cash profit share payable by Frontline, but will enable Ship Finance to record the profit share contribution in the quarter when it is generated.

The accumulated profit share associated with the period from January through March 2007, estimated by the Company to approximately \$15.2 million, will be recorded based on the previous calculation method and is expected to be included in the operating revenues in the fourth quarter.

At the end of the second quarter, \$449.1 million of the 8.5% Senior Notes due 2013 were outstanding, of which \$57.0 million were subject to Bond Swap Agreements. After the end of the quarter this has increased to \$100.4 million. The financing cost on the Senior Notes held under Bond Swap Agreements is effectively reduced to approximately LIBOR plus 1% per annum.

Strategy and Outlook

The strategy of the Company is to increase its portfolio of assets and to employ its assets on medium- to long-term contracts to support a predictable long-term dividend capacity. The Company will seek to reduce the risks for its shareholders by investing in different sectors of the shipping and oil service industry and also by having a diversified client base. During 2006 and 2007, the Company has committed to new investments in excess of \$1.6 billion, and these investments have increased the Company's fixed charter income and dividend capacity.

After the completion of recently announced acquisitions, the Company will have an operating fleet of 59 vessels and rigs, and the Company has contracted to acquire 12 additional newbuildings. Our strategy is to continue to grow the fleet with accretive transactions, and we see opportunities from time to time to potentially further enhance the value to shareholders through placing newbuilding orders or acquiring modern second-hand vessels with no or shorter term charters initially. The management's objective will then be to find more profitable long-term charters for these assets over time.

In the third quarter, the fixed rate charter revenues are expected to increase over the second quarter as a consequence of the full cash flow and earnings effect from the five container vessels on charter to Horizon Lines and the jack-up drilling rig *West Prospero*. In addition, we also expect the five new offshore supply vessels and the container vessel *Montemar Europa*, all scheduled to be delivered in August 2007, to have a cash flow and earnings effect in the last month of the quarter.

Contribution from the profit share agreement with Frontline is based on the performance of the vessels in the market. The spot tanker market has been weaker in the third quarter compared to the second quarter. However, several of the vessels on charter to Frontline have been sub-chartered at higher levels than the current spot market.

The Company will continue to pursue new projects and additional investment opportunities are currently under consideration. In addition to the recently announced acquisitions, Ship Finance has significant capacity to invest in new projects without raising additional equity capital.

Forward Looking Statements

This press release contains forward looking statements. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including Ship Finance management's examination of historical operating trends. Although Ship Finance believes that these assumptions were reasonable when made, because assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, Ship Finance cannot give assurance that it will achieve or accomplish these expectations, beliefs or intentions.

Important factors that, in the Company's view, could cause actual results to differ materially from those discussed in this press release include the strength of world economies and currencies, general market conditions including fluctuations in charter hire rates and vessel values, changes in demand in the tanker market as a result of changes in OPEC's petroleum production levels and world wide oil consumption and storage, changes in the Company's operating expenses including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, and other important factors described from time to time in the reports filed by the Company with the United States Securities and Exchange Commission.

Total liabilities and stockholders' equity	2,784,938	2,334,391	2,553,677

(1) As of June 30, 2007 Stockholders' equity excludes \$233.2 million of deferred equity which is being recognised over time. In connection with the initial and subsequent acquisitions of vessels from Frontline, Ship Finance was required to carry over Frontline's historical book values of the vessels to its books, and the excess of the aggregate purchase price above their historical book value was treated as deferred equity and recorded as a reduction of the Investment in finance leases. This deferred equity is amortised to Stockholders' equity in line with the charter payments received from Frontline.

(2) As of June 30 2006 Rig Finance Ltd. was not fully consolidated, but accounted for as an investment in associate company. Following further analysis, the subsidiary was fully consolidated effective December 31, 2006.

(1) Revenue is comprised of interest income derived from a long-term finance lease with Golden Ocean. The lease is for a period of 10 years and Golden Ocean has various call options to purchase the vessel from our subsidiary Front Shadow Inc. At the end of the lease, Ship Finance also has a put option on Golden Ocean.

(2) The Charter for Golden Shadow is accounted for as a finance lease. A part of the charter hire is classified as 'Repayment of investment in finance leases' and is not included in the Total operating revenues in the Income Statement. 'Repayment of investment in finance leases' was \$666,000 for the six months ended June 30, 2007, and \$323,000 for the three months ended March 31, 2007
