Franklin Templeton Investments

Gain From Our Perspective®

At Franklin Templeton Investments, we're dedicated to one goal: delivering exceptional asset management for our clients. By bringing together multiple, world-class investment teams in a single firm, we're able to offer specialized expertise across styles and asset classes, all supported by the strength and resources of one of the world's largest asset managers. This has helped us to become a trusted partner to individual and institutional investors across the globe.

Focus on Investment Excellence

At the core of our firm, you'll find multiple independent investment teams—each with a focused area of expertise—from traditional to alternative strategies and multi-asset solutions. And because our portfolio groups operate autonomously, their strategies can be combined to deliver true style and asset class diversification.

All of our investment teams share a common commitment to excellence grounded in rigorous, fundamental research and robust, disciplined risk management. Decade after decade, our consistent, research-driven processes have helped Franklin Templeton earn an impressive record of strong, long-term results.

Global Perspective Shaped by Local Expertise

In today's complex and interconnected world, smart investing demands a global perspective. Franklin Templeton pioneered international investing over 60 years ago, and our expertise in emerging markets spans more than a quarter of a century. Today, our investment professionals are on the ground across the globe, spotting investment ideas and potential risks firsthand. These locally based teams bring in-depth understanding of local companies, economies and cultural nuances, and share their best thinking across our global research network.

Strength and Experience

Franklin Templeton is a global leader in asset management serving clients in over 150 countries.¹ We run our business with the same prudence we apply to asset management, staying focused on delivering relevant investment solutions, strong long-term results and reliable, personal service. This approach, focused on putting clients first, has helped us to become one of the most trusted names in financial services.

Semiannual Report

Templeton Dragon Fund, Inc.

Dear Shareholder:

This semiannual report for Templeton Dragon Fund covers the period ended June 30, 2015.

Your Fund's Goal and Main Investments

The Fund seeks long-term capital appreciation by investing at least 45% of its total assets in equity securities of China companies.

Economic and Market Overview

China's economy, as measured by gross domestic product (GDP), grew an estimated 7.0% in 2015's first half, amid relatively steady consumption and industrial production but weaker fixed-asset investment growth.¹ Domestic demand continued to account for a greater portion of GDP, as per-capita income grew and the government's market-friendly policies supported new economic drivers that could help make economic expansion more sustainable. The People's Bank of China (PBOC) continued its pro-growth monetary policy during the six-month period. With inflationary pressures trending downward, policymakers may have the flexibility to implement additional measures to support the economy.

Greater China stocks, as measured by the MSCI Golden Dragon Index, delivered a total return of +11.41% for the six months ended June 30, 2015.² The MSCI Taiwan Index generated a +5.22% total return, compared with +11.90% for the MSCI Hong Kong Index and +14.84% for the MSCI China Index for the same period.²

The Chinese government's market-friendly policies, stimulus measures and commitment to stable growth supported China equity markets overall, particularly the domestic A-share market.³ As measured by the MSCI China A Index, the domestic A-share market began to rise in late 2014 after the PBOC's surprise interest rate cut in November and the effective easing of loan and deposit regulations to boost the economy. Also supporting A shares was the Shanghai-Hong Kong Stock Connect program, which opened China's domestic A-share market to certain qualified

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

foreign investors. Domestic retail investor market speculation led the MSCI China A Index to generate total returns of +112.27% for the 12 months and +33.92% for the six months ended June 30, 2015.4

1. Source: The website of the National Bureau of Statistics of the People's Republic of China (www.stats.gov.cn).

2. Source: Morningstar.

The indexes are unmanaged and include reinvested dividends. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio.

3. China equity markets consist of A, B, China H, Red Chip and P Chip shares. A denotes shares of companies incorporated in China that are listed on the Shanghai

and Shenzhen Stock Exchanges, are quoted in the Chinese renminbi and entail foreign investment regulations. B denotes shares of companies incorporated in China

that are listed on the Shanghai and Shenzhen Stock Exchanges, are quoted in foreign currencies (U.S. dollar for Shanghai and Hong Kong dollar for Shenzhen) and are

open to foreign investors. China H denotes shares of China-incorporated, Hong Kong Stock Exchange-listed companies with most businesses in China. Red Chip denotes

shares of Hong Kong Stock Exchange-listed companies substantially owned by Chinese mainland state entities, with significant exposure to China. P Chip denotes shares

of Hong Kong Stock Exchange-listed companies controlled by Chinese mainland individuals and incorporated outside of China, with a majority of their business in China.

4. Source: MSCI.

The index is unmanaged and includes reinvested dividends. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Consolidated Statement of Investments (SOI).

The Consolidated SOI begins on page 8.

TEMPLETON DRAGON FUND, INC.

In contrast, Chinese stocks aimed at foreign investors, as measured by the MSCI China Index, produced more modest +24.95% and +14.84% total returns for the same respective periods, as foreign investors seemed more focused on economic growth and market fundamentals.²

After peaking on June 12, China's domestic market began to correct, resulting initially from tight liquidity conditions and uncertainties about the PBOC's monetary policy, with a 17.33% decline for the MSCI China A Index from June 12 to June 30.⁴ Following the domestic market's nearly 8% plunge on June 26, the PBOC lowered its benchmark interest rate and announced targeted reserve requirement ratio cuts for certain banks.⁴ In an effort to prevent a market collapse, the government imposed other measures that restricted trading. However, certain government intervention measures were not well received and further contributed to investor concerns.

Investment Strategy

Our investment strategy employs a fundamental, value-oriented, long-term approach. In selecting companies for investment, we will consider overall growth prospects, competitive positions in export markets, technologies, research and development, productivity, labor costs, and raw material costs and sources. Additional considerations include profit margins, returns on investment, capital resources, government regulation, management and other factors in comparison to other companies around the world that we believe are comparable.

Our approach to selecting investments emphasizes fundamental, company-by-company analysis (rather than broader analyses of specific industries or sectors of the economy), to construct an action list from which we make our buy decisions. Although we will consider historical value measures, the primary factor in selecting securities for investment by the Fund will be the company's current price relative to its long-term earnings potential.

Performance Overview

The Fund delivered cumulative total returns of +3.16% in market price terms and +12.07% in net asset value terms for the six months under review. You can find the Fund's long-term performance data in the Performance Summary on page 5.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

Manager's Discussion

During the six months under review, the Fund's investments in the Greater China region consisted of holdings in China, Hong Kong and Taiwan. The Fund's largest weighting was in China, where we invested largely through B shares and Hong Kong Stock Exchange-listed China H, Red Chip and P Chip shares,³ as well as single-listed American Depositary Receipts (ADRs of companies whose underlying shares are not listed in home markets).⁵ Additionally, we invested in China's domestic A-share market through an offshore fund managed by our team, as we sought to gain exposure to certain industries, including traditional medicine and software, that may not be well represented in the Hong Kong and ADR markets. Consistent with our long-term investment strategy, we viewed China's recent market correction in the context of a long-term uptrend. We continued to monitor China's economic and market developments while seeking to establish long-term positions in quality companies at share prices we considered attractive.

The largest contributor to the Fund's absolute performance during the six-month reporting period was our investment in the offshore China fund that is managed by our team and dedicated to investments in China's domestic A-share market. The PBOC's monetary stimulus measures and the government's financial reforms helped drive domestic A-share prices higher for the period. Investors' hopes for consolidation and restructuring among state-owned enterprises also supported sentiment for that market.

5. A single-listed ADR is a negotiable U.S. security issued by a U.S. bank, referred to as a depositary bank, that typically represents a non-U.S. company's equity, is publicly available to U.S. investors on a national stock exchange (NYSE or NASDAQ) or on the over-the-counter market, and has underlying shares that are not publicly

traded in the issuer's home market.

In June, however, the PBOC's unease over rising margin trading levels led to modest measures to curtail borrowing for stock market activity that, combined with a large number of initial public offerings, began to reduce market liquidity. MSCI's decision not to include China's domestic A shares in MSCI global indexes also hurt investor sentiment, resulting in profit taking. However, the A-share market generated a positive return for the six-month period.

Other contributors to the Fund's absolute performance included Anta Sports Products and Tencent Holdings, whose shares are listed on the Hong Kong Stock Exchange. Both companies' shares benefited from the China Securities Regulatory Commission's (CSRC's) measure, which took effect in April, allowing mainland Chinese mutual funds to buy Hong Kong shares.

Anta Sports Products is a manufacturer, trader and distributor of sportswear and accessories under the ANTA brand name in China and internationally. It also produces FILA branded sporting goods and sportswear products under license for the Chinese market. Better-than-expected 2014 corporate results, notably a nearly 30% profit increase, bolstered Anta's share price early in the period. The company's guidance for strong

first-half 2015 sales growth, with the FILA business particularly buoyant, continued to support share price performance during the period.

Tencent Holdings is a Chinese Internet services company offering online games, chat and social media services for personal computer and mobile device users. After subdued performance toward the end of 2014, shares rebounded as strong fourth-quarter corporate results and a positive outlook statement validated the company's increasing success in introducing advertising into various services. Tencent's advertising revenue growth from its fixed and mobile Internet services and solid first-quarter 2015 results further supported investor sentiment.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

In contrast, key detractors from the Fund's absolute performance included Nine Dragons Paper Holdings, Shenhua Energy (China Shenhua Energy) and Asia Cement China Holdings.

Nine Dragons Paper Holdings is a cardboard packaging manufacturer serving the Chinese market. Fourth-quarter 2014 results showed improved sales volumes, but weak prices and rising costs pressured margins. China's weak exports and less robust economic growth, implying tepid demand for container-board products, also weighed on investor sentiment during the period's first half. However, the share price recovered in the period's second half, resulting from suggestions that capacity reductions on environmental grounds were creating a more attractive industry environment. The stock also benefited from the CSRC's measure enabling mainland China's mutual funds to buy Hong Kong shares more easily.

Shenhua Energy, an integrated coal-based energy company, is one of China's largest coal producers. The company also owns one of the country's two dedicated coal freight rail lines. Disappointing corporate results, resulting from weak coal prices, and the unexpected announcement of a profit warning for 2015's first half contributed to the share price decline. Oversupply of coal, particularly soft coal, lower electricity demand and reduced power plant tariffs also hurt investor sentiment. Although coal remained China's largest energy source, government efforts advocating renewable energy and environmental protection could affect demand. We divested the Fund's position in the company to raise cash for investment opportunities we considered more attractive.

Asia Cement China Holdings is one of the leading integrated cement producers in the central and downstream region of the Yangtze River and a major integrated cement producer in the

franklintempleton.com

Semiannual Report | 3

TEMPLETON DRAGON FUND, INC.

Sichuan region. The company is engaged mainly in the production and sale of high-quality cement and related products. It also owns and operates port facilities. Poor corporate results, driven by weak cement demand and prices, pressured share price performance during the period. Market expectations of a slowdown in property and infrastructure investment, largely due to a tight liquidity environment and constrained local government budgets in China, further hurt sentiment on the stock.

In the past six months, we increased the Fund's investments in information technology and made some purchases in materials as we identified companies in these sectors with fundamentals and growth prospects we considered attractive.⁶ Key purchases included a new position in Baidu, China's leading Internet search engine, as well as additional investments in the aforementioned Tencent Holdings and in Uni-President China Holdings, one of China's leading beverage and instant noodle manufacturers.

Conversely, we reduced the Fund's holdings largely in the energy, consumer staples and financials sectors as we found investment opportunities we considered more attractive in the Greater China region.⁷ Key sales included elimination of the Fund's positions in the aforementioned China Shenhua Energy and in China Resources Enterprise, which is engaged in retail, beverage, food processing and distribution, and textile businesses, as well as property investment activities, in China and Hong Kong. Additionally, we reduced the Fund's investment in China Foods, whose core businesses include winery, Coca-Cola bottling, kitchen food and confectionery, primarily in China.

Thank you for your continued participation in Templeton Dragon Fund. We look forward to serving your future investment needs.

Sincerely,

The foregoing information reflects our analysis, opinions and portfolio holdings as of June 30, 2015, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

6. The information technology sector comprises communications equipment; electronic equipment, instruments and components; Internet software and services; IT services;

semiconductors and semiconductor equipment; software; and technology hardware, storage and peripherals in the Consolidated SOI. The materials sector comprises

chemicals, construction materials, and paper and forest products in the Consolidated SOI.

7. The energy sector comprises oil, gas and consumable fuels in the Consolidated SOI. The consumer staples sector comprises beverages, food and staples retailing,

and food products in the Consolidated SOI. The financials sector comprises banks, capital markets, insurance, and real estate management and development in the

TEMPLETON DRAGON FUND, INC.

Performance Summary as of June 30, 2015

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Total return does not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

All investments involve risks, including possible loss of principal. Special risks are associated with foreign investing, including currency volatility, economic instability and political developments of countries where the Fund invests. Emerging markets involve heightened risks related to the same factors, in addition to those associated with their relatively small size and lesser liquidity. There are special risks associated with investments in China, Hong Kong and Taiwan, including exposure to currency fluctuations, less liquidity, expropriation, confiscatory taxation, nationalization and exchange control regulations (including currency blockage), inflation and rapid fluctuations in inflation and interest rates. In addition, investments in Taiwan could be adversely affected by its political and economic relationship with China. Because the Fund invests its assets primarily in companies in a specific region, the Fund is subject to greater risks of adverse developments in that region and/or the surrounding regions than a fund that is more broadly diversified geographically. Political, social or economic disruptions in the region, even in countries in which the Fund is not invested, may adversely affect the value of securities held by the Fund. Also, as a nondiversified investment company investing in China companies, the Fund may invest in a relatively small number of issuers and, as a result, be subject to a

greater risk of loss

with respect to its portfolio securities. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results.

1. The Fund has a fee waiver associated with any investment in a Franklin Templeton money fund, contractually guaranteed through at least its current fiscal year-end.

Fund investment results reflect the fee waiver, to the extent applicable; without this reduction, the results would have been lower.

2. Total return calculations represent the cumulative and average annual changes in value of an investment over the periods indicated. Six-month return has not been annualized.

3. Assumes reinvestment of distributions based on net asset value.

4. Assumes reinvestment of distributions based on the dividend reinvestment and cash purchase plan.

Semiannual Report | 5

TEMPLETON DRAGON FUND, INC.

Important Notice to Shareholders

Share Repurchase Program

The Fund's Board has approved a modification to its existing open-market share repurchase program to authorize the Fund to repurchase an additional 10% of its outstanding shares in open-market transactions, at the discretion of management.

The Board's action provides greater flexibility by enabling the Fund to continue to engage in open-market repurchases under a continuing authorization for up to an additional 10% of its outstanding shares, above and in addition to the initial 10% previously authorized, at the discretion of Fund management. The timing and amount of repurchases would continue to be at the discretion of the investment manager, taking into account various factors, including, but not limited to, the level of the discount, the Fund's performance, portfolio holdings, dividend history, market conditions, cash on hand, the availability of other attractive investments and whether the sale of certain portfolio securities would be undesirable because of liquidity

concerns or because the sale might subject the Fund to adverse tax consequences. Any repurchases would be made on a national securities exchange at the prevailing market price, subject to exchange requirements, federal securities laws and rules that restrict repurchases, and the terms of any outstanding leverage or borrowing of the Fund. If and when the Fund's new 10% threshold is reached, no further repurchases could be completed until authorized by the Board. Until the additional 10% threshold is reached, Fund management will have the flexibility to commence share repurchases if and when it is determined to be appropriate in light of prevailing circumstances. The share repurchase program is intended to benefit shareholders by enabling the Fund to repurchase shares at a discount to net asset value, thereby increasing the proportionate interest of each remaining shareholder in the Fund.

In the Notes to Consolidated Financial Statements section, please see note 2 (Capital Stock) for additional information regarding shares repurchased.

TEMPLETON DRAGON FUND, INC.

Notes to Consolidated Financial Statements (unaudited)

1. Organization and Significant Accounting Policies

Templeton Dragon Fund, Inc. (Fund) is registered under the Investment Company Act of 1940 (1940 Act) as a closed-end management investment company and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP).

The following summarizes the Fund's significant accounting policies.

a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share at the close of the New York Stock Exchange (NYSE), generally at 4 p.m. Eastern time (NYSE close) on each day the NYSE is open for trading. Under compliance policies and procedures approved by the Fund's Board of Directors (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation and Liquidity Oversight Committee (VLOC). The VLOC provides administration and oversight of the Fund's valuation policies and procedures, which are approved annually by the Board. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded or as of the NYSE close, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the NYSE close on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities. Investments in open-end mutual funds and non-registered money market funds are valued at the closing NAV.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the VLOC convenes on a regular basis to review such financial instruments and considers a number of factors, including significant unobservable valuation inputs, when arriving at fair value. The VLOC primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed. The VLOC employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis, and reviews of any related market activity.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before the daily NYSE close. In addition, trading in certain foreign markets may not take place on every NYSE business day. Occasionally, events occur between the time at which trading in a foreign security is completed and the close of the NYSE that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these differences, the VLOC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the NYSE is closed, which could result in differences between the

TEMPLETON DRAGON FUND, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Organization and Significant Accounting

Policies (continued)

a. Financial Instrument Valuation (continued)

value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Any significant security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Consolidated Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. Securities Lending

The Fund participates in an agency based securities lending program to earn additional income. The Fund receives cash collateral against the loaned securities in an amount equal to at least 102% of the fair value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the fair value of loaned securities, as determined at the close of fund business each day; any additional collateral required due to changes in security values is delivered to the Fund on the next business day. The collateral is deposited into a joint cash account with other funds and is used to invest in a money market fund managed by Franklin Advisers, Inc., an affiliate of the Fund. The Fund may receive income from the investment of cash collateral, in addition to lending fees and rebates paid by the borrower. Income from securities loaned is reported separately in the Statement of Operations. The Fund bears the market risk with respect to the collateral investment, securities loaned, and the risk that the agent may default on its obligations to the Fund. If the borrower defaults on its obligation to return the securities loaned, the Fund has the right to repurchase the securities in the open market using the collateral received. The securities lending agent has agreed to indemnify the Fund in the event of default by a third party borrower. At June 30, 2015, the Fund had no securities on loan.

d. Investment in Templeton China Opportunities Fund, Ltd. (China Fund)

The Fund invests in certain China A shares through its investment in the China Fund. The China Fund is a Cayman Islands exempt company, is a wholly-owned subsidiary of the Fund, and is able to invest directly in China A shares consistent with the investment objective of the Fund. At June 30, 2015, the China Fund's investments as well as any other assets and liabilities of the China Fund are reflected in the Fund's Consolidated Statement of Investments and Consolidated Statement of Assets and Liabilities. At June 30, 2015, the China Fund's investments as well as any other assets and liabilities were \$312,627,231, representing 30.24% of the Fund's consolidated net assets.

The China Fund invests in certain A-shares available only to local Chinese investors and Qualified Foreign Institutional Investors (QFII). QFIIs are granted a maximum investment quota by China's State Administration of Foreign Exchange

TEMPLETON DRAGON FUND, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(SAFE) for investing in the Chinese securities market (QFII Quota). The China Fund gains access to the A-shares market through Templeton Investment Counsel, LLC (TIC), which serves as the registered QFII for the China Fund and one other participating Franklin Templeton Investments sponsored investment company. Investment decisions related to A-shares are specific to each participating fund, and each fund bears the resultant economic and tax consequences of its holdings and transactions in A-shares. The China Fund is subject to certain restrictions and administrative processes relating to its ability to repatriate cash balances, investment proceeds, and earnings associated with its A-shares and may incur substantial delays in gaining access to its assets or a loss of value in the event of noncompliance with applicable Chinese rules or requirements.

e. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained upon examination by the tax authorities based on the technical merits of the tax position. As of June 30, 2015, and for all open tax years, the Fund has determined that no liability for unrecognized tax benefits is required in the Fund's consolidated financial statements related to uncertain tax positions taken on a tax return (or expected to be taken on future tax returns). Open tax years are those that remain subject to examination and are based on each tax jurisdiction's statute of limitation.

f. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income is recorded on the ex-dividend date except for certain dividends from foreign securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

g. Accounting Estimates

The preparation of consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

h. Guarantees and Indemnifications

Under the Fund's organizational documents, its officers and directors are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. Currently, the Fund expects the risk of loss to be remote.

franklintempleton.com

TEMPLETON DRAGON FUND, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

2. Capital Stock

At June 30, 2015, there were 100 million shares authorized (\$0.01 par value). During the periods ended June 30, 2015 and December 31, 2014 there were no shares issued; all reinvested distributions were satisfied with previously issued shares purchased in the open market.

Under the Board approved open-market share repurchase program, the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. Since the inception of the program, the Fund has repurchased a total of 8,125,991 shares. Transactions in the Fund's shares were as follows:

	Six Months Ended		Year Ended	
	June 30, 2015		December 31, 2014	
	Shares	Amount	Shares	Amount
Shares repurchased	92,962	\$ 2,485,259	994,365	\$ 24,679,223
Weighted average discount of market price to net asset value				
of shares repurchased		14.34 %		11.08 %

3. Transactions with Affiliates

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and directors of the Fund are also officers, and/or directors of the following subsidiaries:

Subsidiary	Affiliation
Templeton Asset Management Ltd. (TAML)	Investment manager
Templeton Investment Counsel, LLC (TIC)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager

a. Management Fees

The Fund pays an investment management fee to TAML based on the average weekly net assets of the Fund as follows:

Annualized Fee Rate	Net Assets
1.250 %	Up to and including \$1 billion
1.200 %	Over \$1 billion, up to and including \$5 billion
1.150 %	Over \$5 billion, up to and including \$10 billion
1.100 %	Over \$10 billion, up to and including \$15 billion
1.050 %	Over \$15 billion, up to and including \$20 billion
1.000 %	In excess of \$20 billion

The investment manager of China Fund, TIC, agrees to waive the management fee for its services. There is a sub-advisory agreement between TAML and TIC. TAML provides sub-advisory investment management services to the China Fund. The sub-advisory fee is paid by TIC and is not an additional expense of the Fund.

b. Administrative Fees

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

Under an agreement with TAML, FT Services provides administrative services to the Fund. The fee is paid by TAML based on the Fund's average weekly net assets, and is not an additional expense of the Fund.

TEMPLETON DRAGON FUND, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

c. Investment in Institutional Fiduciary Trust Money Market Portfolio

The Fund invests in Institutional Fiduciary Trust Money Market Portfolio (Sweep Money Fund), an affiliated open-end management investment company. Management fees paid by the Fund are waived on assets invested in the Sweep Money Fund, as noted in the Consolidated Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by the Sweep Money Fund. Prior to January 1, 2014, the waiver was accounted for as a reduction to management fees.

4. Expense Offset Arrangement

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended June 30, 2015, there were no credits earned.

5. Income Taxes

At June 30, 2015, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$	535,653,471
Unrealized appreciation	\$	488,128,220
Unrealized depreciation		(16,594,001)
Net unrealized appreciation (depreciation)	\$	471,534,219

The China Fund is a disregarded entity for U.S. federal income tax purposes.

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of passive foreign investment company shares and wash sales.

6. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the period ended June 30, 2015, aggregated \$361,194,757 and \$377,436,281 respectively.

7. Concentration of Risk

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities.

Investing in China A-shares may include certain risks and considerations not typically associated with investing in U.S. securities. In general, A-shares are issued by companies incorporated in the People's Republic of China (PRC) and listed on the Shanghai and Shenzhen Stock Exchanges and available for investment by domestic (Chinese) investors and holders of a QFII license. The Shanghai and Shenzhen Stock Exchanges are, however, substantially smaller, less liquid and more volatile than the major securities markets in the United States. The QFII status is highly regulated by the China Securities Regulatory Commission of the PRC and includes restrictions on investments, minimum investment holding periods and repatriation of profits and principal. At times, the Fund's performance may be negatively impacted due to such restrictions.

TEMPLETON DRAGON FUND, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

8. Holdings of 5% Voting Securities of Portfolio Companies

The 1940 Act defines “affiliated companies” to include investments in portfolio companies in which a fund owns 5% or more of the outstanding voting securities. Investments in “affiliated companies” for the Fund for the period ended June 30, 2015, were as shown below.

Name of Issuer	Number of Shares Held			Number of Shares Held		Value at End of Period	Investment Income	Realized Gain (Loss)
	at Beginning of Period	Gross Additions	Gross Reductions	at End of Period				
Non-Controlled Affiliates								
Beijing Jingkelong Co. Ltd., H (Value is 0.35% of Net Assets)	12,289,429	—	—	12,289,429	\$	3,646,409	\$ 178,422	\$ —

9. Fair Value Measurements

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund’s own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund’s financial instruments and are summarized in the following fair value hierarchy:

- Level 1 – quoted prices in active markets for identical financial instruments
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

A summary of inputs used as of June 30, 2015, in valuing the Fund’s assets carried at fair value, is as follows:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments in Securities:				
Equity Investments:a				
Automobiles	\$ 60,606,132	\$ 969,440	—\$	61,575,572
Hotels, Restaurants & Leisure	22,582,885	362,693	—	22,945,578
Software	4,803,421	—	2,708,549	7,511,970
All Other Equity Investmentsb	912,934,408	—	—	912,934,408

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

Short Term Investments		2,220,162		—		—	2,220,162
Total Investments in Securities	\$	1,003,147,008	\$	1,332,133	\$	2,708,549	\$ 1,007,187,690

aIncludes common stocks.

bFor detailed categories, see the accompanying Consolidated Statement of Investments.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 financial instruments at the end of the period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

10. New Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2014-11, Transfers and Servicing (Topic 860), Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures. The ASU changes the accounting for certain repurchase agreements and expands disclosure requirements related to repurchase agreements, securities lending, repurchase-to-maturity and similar transactions. The ASU is effective for certain transactions accounted for as a sale for interim and annual reporting periods beginning after December 15, 2014, and transactions accounted for as secured borrowings for annual periods beginning after December 15, 2014, and for interim periods beginning after March 15, 2015. Management has reviewed the requirements and believes the adoption of this ASU will not have a material impact on the financial statements.

11. Subsequent Events

The Fund has evaluated subsequent events through the issuance of the consolidated financial statements and determined that no events have occurred that require disclosure.

TEMPLETON DRAGON FUND, INC.

Annual Meeting of Shareholders, May 28, 2015 (unaudited)

The Annual Meeting of Shareholders of the Fund was held at the Fund's offices, 300 S.E. 2nd Street, Fort Lauderdale, Florida, on May 28, 2015. The purpose of the meeting was to elect four Directors of the Fund and to ratify the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for the fiscal year ending December 31, 2015. At the meeting, the following persons were elected by the shareholders to serve as Directors of the Fund: Ann Torre Bates, David W. Niemiec, Frank A. Olson and Robert E. Wade.* Shareholders also ratified the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for the fiscal year ending December 31, 2015. No other business was transacted at the meeting.

The results of the voting at the Annual Meeting are as follows:

1. The election of four Directors:

Term Expiring 2018	Votes For	% Votes For	% Votes For	Votes Withheld	% Votes Withheld	% Votes Withheld
		(Based on Total Proxy Shares)	(Based on Total Shares Voted)		(Based on Total Votes)	(Based on Total Proxy Shares)
Ann Torre Bates	21,472,695	61.16 %	67.91 %	9,981,331	28.43 %	31.57 %
David W. Niemiec	21,484,568	61.20 %	67.95 %	9,969,457	28.40 %	31.53 %
Frank A. Olson	21,436,931	61.06 %	67.80 %	10,017,094	28.53 %	31.68 %
Robert E. Wade	21,575,613	61.46 %	68.24 %	9,878,412	28.14 %	31.24 %

There were approximately 164,414 broker non-votes received with respect to this item.

2. The ratification of the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Fund for the fiscal year ending December 31, 2015:

	Shares Voted	% Votes (Based on Total Proxy Shares)	% Votes (Based on Total Shares Voted)
Votes For	31,191,921	88.85 %	98.65 %
Votes Against	192,194	0.55 %	0.61 %
Votes Abstain	234,323	0.67 %	0.74 %

*Harris J. Ashton, Frank J. Crothers, Edith E. Holiday, Gregory E. Johnson, Rupert H. Johnson, Jr., J. Michael Luttig, Larry D. Thompson and Constantine D. Tseretopoulos are Directors of the Fund who are currently serving and whose terms of office continued after the Annual Meeting of Shareholders.

TEMPLETON DRAGON FUND, INC.

Dividend Reinvestment and Cash Purchase Plan

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the Plan) with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan, unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e. in street name), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

To receive dividends or distributions in cash, the shareholder must notify American Stock Transfer and Trust Company LLC (the Plan Administrator) at P.O. Box 922, Wall Street Station, New York, NY 10269-0560 or the institution in whose name the shares are held. The Plan Administrator must receive written notice ten business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or shares of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in new shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional cash payments to the Plan Administrator, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments can be made by check payable to American Stock Transfer and Trust Company LLC and sent to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560, Attention: Templeton Dragon Fund, Inc. The Plan Administrator will apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of the Fund's shares on the open market.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Administrator's fee for a sale of shares through the Plan is \$15.00 per transaction plus a \$0.12 per share trading fee.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560. Upon withdrawal, the participant will receive, without charge, share certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the participant's shares and send the proceeds to the participant, less a service charge of \$15.00 and less trading fees of \$0.12 per share. The Plan Administrator will convert any fractional shares held at the time of withdrawal to cash at current market price and send a check to the participant for the net proceeds.

For more information, please see the Plan's Terms and Conditions located at the back of this report.

Board Review of Investment Management Agreement

At a meeting held February 24, 2015, the Board of Directors (Board), including a majority of non-interested or independent Directors, approved renewal of the investment management agreement for Templeton Dragon Fund, Inc. (Fund). In reaching this decision, the Board took into account information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the annual renewal review process. Information furnished and discussed throughout the year included investment performance reports on the Fund, information on its share price discount to net asset value, and other related financial information, as well as periodic reports on expenses, legal and compliance matters, pricing, brokerage commissions and execution and other services provided by the Investment Manager (Manager) and its affiliates, as well as marketing support payments made to financial intermediaries. Information furnished specifically in connection with the renewal process included a report prepared by Lipper, Inc. (Lipper), an independent organization, as well as additional material, including a Fund profitability analysis prepared by management. The Lipper report compared the Fund's investment performance and expenses with those of other funds deemed comparable to the Fund as selected by Lipper. The Fund profitability analysis discussed the profitability to Franklin Templeton Investments (FTI) from its overall U.S. fund operations, as well as on an individual fund-by-fund basis. Additional material accompanying such profitability analysis included information on a fund-by-fund basis listing portfolio managers and other accounts they manage, as well as information on management fees charged by the Manager and its affiliates to U.S. funds and other accounts, including management's explanation of differences where relevant. Such material also included a memorandum prepared by management describing project initiatives and capital investments relating to the services provided to the Fund by the FTI organization, as well as a memorandum relating to economies of scale.

In considering such materials, the independent Directors received assistance and advice from and met separately with independent counsel. In approving continuance of the investment management agreement for the Fund, the Board, including a majority of independent Directors, determined that the management fee structure was fair and reasonable and that continuance of the investment management agreement was in

the best interests of the Fund and its shareholders. In connection with this finding, the Board noted that the Fund acquired 100% of the outstanding shares of Templeton China Opportunities Fund in 2014. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board's decision.

NATURE, EXTENT AND QUALITY OF SERVICE.

The Board was satisfied with the nature and quality of the overall services provided by the Manager and its affiliates to the Fund and its shareholders. In addition to investment performance and expenses discussed later, the Board's opinion was based, in part, upon periodic reports furnished it showing that the investment policies and restrictions for the Fund were consistently complied with as well as other reports periodically furnished the Board covering matters such as the compliance of portfolio managers and other management personnel with the code of ethics adopted throughout the Franklin Templeton fund complex, the adherence to fair value pricing procedures established by the Board, and the accuracy of net asset value calculations. Favorable consideration was given to management's continual efforts and expenditures in establishing effective business continuity plans and developing strategies to address cybersecurity threats. Among other factors taken into account by the Board were the Manager's best execution trading policies, including a favorable report by an independent portfolio trading analytical firm that also covered FOREX transactions. Consideration was also given to the experience of the Fund's portfolio management team, the number of accounts managed and general method of compensation. In this latter respect, the Board noted that a primary factor in management's determination of the level of a portfolio manager's bonus compensation was the relative investment performance of the funds he or she managed and that a portion of such bonus was required to be invested in a predesignated list of funds within such person's fund management area so as to be aligned with the interests of shareholders. Particular attention was given to management's conservative approach and diligent risk management procedures, including continual monitoring of counterparty credit risk and attention given to derivatives and other complex instruments including expanded collateralization requirements. The Board also took into account, among other things, the strong financial position of the Manager's parent company and its commitment to the fund business as evidenced by its continued subsidization of money market funds.

SHAREHOLDER INFORMATION

Board Review of Investment Management

Agreement (continued)

INVESTMENT PERFORMANCE. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings during the year, particular attention in assessing performance was given to the Lipper reports furnished for the agreement renewal. The Lipper report prepared for the Fund showed its investment performance during 2014 and the previous 10 years ended December 31, 2014, in comparison with a performance universe consisting of the Fund and all non-leveraged closed-end emerging markets funds as selected by Lipper. Such report considers total return on a net asset value basis without regard to market discounts or premiums to accurately reflect investment performance. The Lipper report showed the Fund's 2014 total return to be in the second-highest performing quintile of such performance universe, and on an annualized basis to be in the middle performing quintile of such universe during the previous three-year period, and the second-highest performing quintiles of such universe during the previous five- and 10-year periods. In view of the breadth of the Lipper performance universe, the Board also considered the Fund's comparative performance within a supplementary universe consisting of all retail and institutional China Region funds that had been included in the Lipper report at management's request. The Board found the Fund's performance within such supplemental universe to be in the highest performing quintile of such universe for the one-year period and on an annualized basis to be in the lowest performing quintile of such universe during the previous three-year period, and the highest performing quintiles for the previous five- and 10-year periods. While observing differences in the investment scope of the Fund and certain other China Region funds, it was noted that the Fund's 2014 total return was above the positive median returns of both the Lipper and supplemental universes, but was still below the MSCI Golden Dragon Index. In discussing such performance, the Fund's portfolio managers stated that the recent positive performance in the Fund's portfolio reflected the benefit of Templeton's long-term, bottom-up value approach to investing. The Board was satisfied with the Fund's current performance.

COMPARATIVE EXPENSES. Consideration was given to a Lipper report analysis of the management fees and total expense ratio of the Fund compared with those of a group of six funds selected by Lipper as its appropriate Lipper expense group. Lipper expense data is based upon information taken from each fund's most recent annual report, which reflects historical asset levels that may be quite different from those currently existing, particularly in a period of market volatility. While recognizing such inherent limitation and the fact that expense ratios generally increase as assets decline and decrease as assets grow, the Board believed the independent analysis conducted by Lipper to be an appropriate measure of comparative expenses. In reviewing comparative costs, Lipper provides information on the Fund's contractual investment management fee rate in comparison with the contractual investment management fee rate that would have been charged by other funds within its Lipper expense group assuming they were similar in size to the Fund, as well as the actual total expense ratio of the Fund in comparison with those of its Lipper expense group. The Lipper contractual investment management fee analysis considers administrative fees to be part of management fees and the results of such expense comparisons showed the Fund's contractual investment management fee rate to be five basis points above the Lipper expense group median, and its actual total expense ratio to be slightly below the median of such expense group. The Board found the comparative expenses of the Fund as set forth in the Lipper report to be acceptable.

MANAGEMENT PROFITABILITY. The Board also considered the level of profits realized by the Manager and its affiliates in connection with the operation of the Fund. In this respect, the Board reviewed the Fund profitability analysis that addresses the overall profitability of Franklin Templeton's U.S. fund business, as well as its profits in providing management and other services to each of the individual funds during the 12-month period ended September 30, 2014, being the most recent fiscal year-end for Franklin Resources, Inc., the Manager's parent. In reviewing the analysis, the Board recognized that allocation methodologies are inherently subjective and various allocation methodologies may be reasonable while producing different results. In this respect, the Board noted that while management continually makes refinements to its methodologies in response to organizational and product related changes,

26 | Semiannual Report

franklintempleton.com

TEMPLETON DRAGON FUND, INC.

SHAREHOLDER INFORMATION

the overall approach as defined by the primary drivers and activity measurements has remained consistent with that used in the Fund's profitability report presentations from prior years. Additionally, the Fund's independent registered public accounting firm had been engaged by the Manager to periodically review the reasonableness of the allocation methodologies to be used solely by the Fund's Board in reference to the profitability analysis. In reviewing and discussing such analysis, management discussed with the Board its belief that costs incurred in establishing the infrastructure necessary for the type of fund operations conducted by the Manager and its affiliates may not be fully reflected in the expenses allocated to the Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. In addition, the Board considered a third-party study comparing the profitability of the Manager's parent on an overall basis to other publicly held managers broken down to show profitability from management operations exclusive of distribution expenses, as well as profitability including distribution expenses. The Board also considered the extent to which the Manager and its affiliates might derive ancillary benefits from fund operations, including potential benefits resulting from personnel and systems enhancements necessitated by fund growth, as well as increased leverage with the service providers and counterparties. Based upon its consideration of all these factors, the Board determined that the level of profits realized by the Manager and its affiliates from providing services to the Fund was not excessive in view of the nature, quality and extent of services provided.

ECONOMIES OF SCALE. The Board also considered whether the Manager realizes economies of scale as the Fund grows larger and the extent to which any such benefit is shared with the Fund and its shareholders. The Board believed that a Manager's ability to realize economies of scale and the sharing of such benefit is a more relevant consideration in the case of an open-end fund whose size increases as a result of the continuous sale of its shares. A closed-end investment company such as the Fund does not continuously offer shares, and growth following its initial public offering will primarily result from market appreciation, which benefits its shareholders. While

believing economies of scale to be less of a factor in the context of a closed-end fund, the Board believes at some point an increase in size may lead to economies of scale that should be shared with the Fund and its shareholders. The Fund's current management advisory fee schedule provides an initial fee of 1.25% on the first \$1 billion of net assets; 1.2% on the next \$4 billion of net assets; 1.15% on the next \$5 billion of net assets; 1.10% on the next \$5 billion of net assets; 1.05% on the next \$5 billion of net assets; and 1.0% on net assets in excess of \$20 billion. The Board notes that the Fund is within this schedule and that it provides for appropriate economies to be shared with investors as the Fund grows.

Proxy Voting Policies and Procedures

The Fund's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Fund uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Fund's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Fund's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

Quarterly Consolidated Statement of Investments

The Fund files a complete consolidated statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year on Form N-Q. Shareholders may view the filed Form N-Q by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.

TEMPLETON DRAGON FUND, INC.

TERMS AND CONDITIONS OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

1. Each holder of shares (a Shareholder) in Templeton Dragon Fund, Inc. (the Fund) whose Fund shares are registered in his or her own name will automatically be a participant in the Dividend Reinvestment and Cash Purchase Plan (the Plan) (other than Shareholders holding their shares through Japan Securities Clearing Corporation, who will not be enrolled in the Plan unless certain conditions are met and they elect to participate), unless any such Shareholder specifically elects in writing to receive all dividends and capital gains in cash, paid by check, mailed directly to the Shareholder. A Shareholder whose shares are registered in the name of a broker-dealer or other nominee (the Nominee) will be a participant if (a) such a service is provided by the Nominee and (b) the Nominee makes an election on behalf of the Shareholder to participate in the Plan. Nominees intend to make such an election on behalf of Shareholders whose shares are registered in their names, as Nominee, unless a Shareholder specifically instructs his or her Nominee to pay dividends and capital gains in cash. American Stock Transfer and Trust Company LLC (AST) will act as Plan Administrator and will open an account for each participating Shareholder (participant) under the Plan in the same name as that in which the participant s present shares are registered.

2. Whenever the Fund declares a distribution from capital gains or an income dividend payable in either cash or common stock of the Fund (Fund shares), if the market price per share on the valuation date equals or exceeds the net asset value per share, participants will receive such dividend or distribution entirely in Fund shares, and AST shall automatically receive such Fund shares for participant accounts including aggregate fractions. The number of additional Fund shares to be credited to participant accounts shall be determined by dividing the equivalent dollar amount of the capital gains distribution or dividend payable to participants by the net asset value per share of the Fund shares on the valuation date, provided that the Fund shall not issue such shares at a price lower than 95% of the current market price per share. The valuation date will be the payable date for such distribution or dividend.

3. Whenever the Fund declares a distribution from capital gains or an income dividend payable only in cash, or if the Fund s net asset value per share exceeds the market price per share on the valuation date, AST shall apply the amount of such dividend or distribution payable to participants to the purchase of Fund shares on the open market (less their pro rata share of trading fees incurred with respect to open market purchases in connection with the reinvestment of such dividend or distribution). If, before AST has completed its purchases, the market price exceeds the net asset value per share, the average per share purchase price paid by AST may exceed the net asset value of the Fund s shares, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in shares issued by the Fund at net asset value per share. Such purchases will be made promptly after the payable date for such dividend or distribution, and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of the Federal securities laws.

4. A participant has the option of submitting additional payments to AST, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments may be made electronically at www.amstock.com or by check payable to American Stock Transfer and Trust Company LLC and sent to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560, Attention: Templeton Dragon Fund, Inc. AST shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market, as discussed below in paragraph 6. AST shall make such purchases promptly on approximately the 15th of each month or, during a month in which a dividend or

distribution is paid, beginning on the dividend payment date, and in no event more than 30 days after receipt, except where necessary to comply with provisions of Federal securities law. Any voluntary payment received less than two business days before an investment date shall be invested during the following month unless there are more than 30 days until the next investment date, in which case such payment will be returned to the participant. AST shall return to the participant his or her entire voluntary cash payment upon written notice of withdrawal received by AST not less than 48 hours before such payment is to be invested. Such written notice shall be sent to AST by the participant, as discussed below in paragraph 14.

5. For all purposes of the Plan: (a) the market price of the Fund s shares on a particular date shall be the last sale price on the New York Stock Exchange on that date if a business day and if not, on the preceding business day, or if there is no sale on such Exchange on such date, then the mean between the closing bid and asked quotations for such shares on such Exchange on such date, and (b) net asset value per share of the Fund s shares on a particular date shall be as determined by or on behalf of the Fund.

6. Open market purchases provided for above may be made on any securities exchange where Fund shares are traded, in the over-the-counter market or in negotiated transactions and may be on such terms as to price, delivery and otherwise as AST shall determine. Participant funds held by AST uninvested will not bear interest, and it is understood that, in any event, AST shall have no liability in connection with any inability to purchase Fund shares within 30 days after the payable date for any dividend or distribution as herein provided, or with the timing of any purchases effected. AST shall have no responsibility as to the value of the Fund shares acquired for participant accounts. For the purposes of purchases on the open market, AST may aggregate purchases with those of other participants, and the average price (including trading fees) of all shares purchased by AST shall be the price per share allocable to all participants.

7. AST will hold shares acquired pursuant to this Plan, together with the shares of other participants acquired pursuant to this Plan, in its name or that of its nominee. AST will forward to participants any proxy solicitation material and will vote any shares so held for participants only in accordance with the proxies returned by participants to the Fund. Upon written request, AST will deliver to participants, without charge, a certificate or certificates for all or a portion of the full shares held by AST.

8. AST will confirm to participants each acquisition made for an account as soon as practicable but not later than 60 business days after the date thereof. AST will send to participants a detailed account statement showing total dividends and distributions, date of investment, shares acquired and price per share, and total shares

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

of record for the account. Although participants may from time to time have an undivided fractional interest (computed to three decimal places) in a share of the Fund, no certificates for a fractional share will be issued. However, dividends and distributions on fractional shares will be credited to participant accounts. In the event of termination of an account under the Plan, AST will adjust for any such undivided fractional interest in cash at the market price of the Fund's shares on the date of termination.

9. Any share dividends or split shares distributed by the Fund on shares held by AST for participants will be credited to participant accounts. In the event that the Fund makes available to its shareholders transferable rights to purchase additional Fund shares or other securities, AST will sell such rights and apply the proceeds of the sale to the purchase of additional Fund shares for the participant accounts. The shares held for participants under the Plan will be added to underlying shares held by participants in calculating the number of rights to be issued.

TEMPLETON DRAGON FUND, INC.

TERMS AND CONDITIONS OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (continued)

10. AST's service charge for capital gains or income dividend purchases will be paid by the Fund when shares are issued by the Fund or purchased on the open market. AST will deduct a \$5.00 service charge from each voluntary cash payment. Participants will also be charged a pro rata share of trading fees on all open market purchases.

11. Participants may withdraw shares from such participant's account or terminate their participation under the Plan by notifying AST in writing. Such withdrawal or termination will be effective immediately if notice is received by AST not less than ten days prior to any dividend or distribution record date; otherwise such withdrawal or termination will be effective after the investment of any current dividend or distribution or voluntary cash payment. The Plan may be terminated by AST or the Fund upon 90 days' notice in writing mailed to participants. Upon any withdrawal or termination, AST will cause a certificate or certificates for the full shares held by AST for participants and cash adjustment for any fractional shares (valued at the market value of the shares at the time of withdrawal or termination) to be delivered to participants, less any trading fees. Alternatively, a participant may elect by written notice to AST to have AST sell part or all of the shares held for him and to remit the proceeds to him. AST is authorized to deduct a \$15.00 service charge and a trading fee of \$0.12 per share for this transaction from the proceeds. If a participant disposes of all shares registered in his name on the books of the Fund, AST may, at its option, terminate the participant's account or determine from the participant whether he wishes to continue his participation in the Plan.

12. These terms and conditions may be amended or supplemented by AST or the Fund at any time or times, except when necessary or appropriate to comply with applicable law or the rules or policies of the U.S. Securities and Exchange Commission or any other regulatory authority, only by mailing to participants appropriate written notice at least 90 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by participants unless, prior to the effective date thereof, AST receives written notice of the termination of a participant account under the Plan. Any such amendment may include an appointment by AST in its place and stead of a successor Plan Administrator under these terms and

conditions, with full power and authority to perform all or any of the acts to be performed by AST under these terms and conditions. Upon any such appointment of a Plan Administrator for the purpose of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Administrator, for a participant's account, all dividends and distributions payable on Fund shares held in a participant's name or under the Plan for retention or application by such successor Plan Administrator as provided in these terms and conditions.

13. AST shall at all times act in good faith and agree to use its best efforts within reasonable limits to ensure the accuracy of all services performed under this Agreement and to comply with applicable law, but shall assume no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by AST's negligence, bad faith or willful misconduct or that of its employees.

14. Any notice, instruction, request or election which by any provision of the Plan is required or permitted to be given or made by the participant to AST shall be in writing addressed to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560, or www.amstock.com or such other address as AST shall furnish to the participant, and shall have been deemed to be given or made when received by AST.

15. Any notice or other communication which by any provision of the Plan is required to be given by AST to the participant shall be in writing and shall be deemed to have been sufficiently given for all purposes by being deposited postage prepaid in a post office letter box addressed to the participant at his or her address as it shall last appear on AST's records. The participant agrees to notify AST promptly of any change of address.

16. These terms and conditions shall be governed by and construed in accordance with the laws of the State of New York and the rules and regulations of the U.S. Securities and Exchange Commission, as they may be amended from time to time.

Investors should be aware that the value of investments made for the Fund may go down as well as up. Like any investment in securities, the value of the Fund's portfolio will be subject to the risk of loss from market, currency, economic, political and other factors. The Fund and its investors are not protected from such losses by the investment manager. Therefore, investors who cannot accept this risk should not invest in shares of the Fund.

To help ensure we provide you with quality service, all calls to and from our service areas are monitored and/or recorded.

Members of the Audit Committee are: Ann Torre Bates, Frank J. Crothers, David W. Niemiec and Constantine D. Tseretopoulos

Item 6. Schedule of Investments. N/A

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The board of directors of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's investment manager Templeton Asset Management Ltd. (Asset Management) in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the investment manager.

The investment manager has delegated its administrative duties with respect to the voting of proxies for equity securities to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the investment manager's instructions and/or policies. The investment manager votes proxies solely in the best interests of the Fund and its shareholders.

To assist it in analyzing proxies, the investment manager subscribes to Institutional Shareholder Services, Inc. (ISS), an unaffiliated third-party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, vote execution services, ballot reconciliation services, recordkeeping and vote disclosure services. In addition, the investment manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third-party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies, as well as a limited subscription to its international research. Also, the investment manager has a supplemental subscription to Egan Jones Proxy Services (Egan Jones), an unaffiliated third party proxy advisory firm, to receive analyses and vote recommendations. Although analyses provided by ISS, Glass Lewis, Egan Jones, or another independent third party proxy service provider (each a "Proxy Service") are thoroughly reviewed and considered in making a final voting decision, the investment manager does not

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

consider recommendations from a Proxy Service or any third party to be determinative of the investment manager's ultimate decision. Rather, the investment manager exercises its independent judgment in making voting decisions. As a matter of policy, the officers, directors/trustees and employees of the investment manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. Efforts are made to resolve all conflicts in the best interests of the investment manager's clients. Material conflicts of interest are identified by the Proxy Group based upon analyses of client, distributor, broker-dealer and vendor lists, information periodically gathered from directors and officers, and information derived from other sources, including public filings. In situations where a material conflict of interest is identified, the Proxy Group may vote consistent with the voting recommendation of a Proxy Service; or send the proxy directly to the Fund's board or a committee of the board with the investment manager's recommendation regarding the vote for approval.

Where a material conflict of interest has been identified, but the items on which the investment manager's vote recommendations differ from a Proxy Service and relate specifically to (1) shareholder proposals regarding social or environmental issues, (2) "Other Business" without describing the matters that might be considered, or (3) items the investment manager wishes to vote in opposition to the recommendations of an issuer's management, the Proxy Group may defer to the vote recommendations of the investment manager rather than sending the proxy directly to the Fund's board or a board committee for approval.

To avoid certain potential conflicts of interest, the investment manager will employ echo voting, if possible, in the following instances: (1) when the Fund invests in an underlying fund in reliance on any one of Sections 12(d) (1) (E), (F), or (G) of the 1940 Act, the rules thereunder, or pursuant to a SEC exemptive order thereunder; (2) when the Fund invests uninvested cash in affiliated money market funds pursuant to the rules under the 1940 Act or any exemptive orders thereunder ("cash sweep arrangement"); or (3) when required pursuant to the Fund's governing documents or applicable law. Echo voting means that the investment manager will vote the shares in the same proportion as the vote of all of the other holders of the underlying fund's shares.

The recommendation of management on any issue is a factor that the investment manager considers in determining how proxies should be voted. However, the investment manager does not consider recommendations from management to be determinative of the investment manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the investment manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

Investment manager's proxy voting policies and principles The investment manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the investment manager cannot anticipate all future situations. In all cases, each proxy and proposal will be considered based on the relevant facts and circumstances on a case-by-case basis.

Board of directors. The investment manager supports an independent, diverse board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The investment manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The investment manager will consider withholding votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the investment manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance. The investment manager generally will support non-binding shareholder proposals to require a majority vote standard for the election of directors; however, if these proposals are binding, the investment manager will give careful review on a case-by-case basis of the potential ramifications of such implementation.

In the event of a contested election, the investment manager will review a number of factors in making a decision including management's track record, the company's financial performance, qualifications of candidates on both slates, and the strategic plan of the dissidents.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSRS

Ratification of auditors of portfolio companies. The investment manager will closely scrutinize the independence, role and performance of auditors. On a case-by-case basis, the investment manager will examine proposals relating to non-audit relationships and non-audit fees. The investment manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of a lack of independence, accounting irregularities or negligence. The investment manager may also consider whether the ratification of auditors has been approved by an appropriate audit committee that meets applicable composition and independence requirements.

Management and director compensation. A company's equity-based compensation plan should be in alignment with the shareholders' long-term interests. The investment manager believes that executive compensation should be directly linked to the performance of the company. The investment manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The investment manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The investment manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the investment manager will generally oppose "golden parachutes" that are considered to be excessive. The investment manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders.

The investment manager will review non-binding say-on-pay proposals on a case-by-case basis, and will generally vote in favor of such proposals unless compensation is misaligned with performance and/or shareholders' interests, the company has not provided reasonably clear disclosure regarding its compensation practices, or there are concerns with the company's remuneration practices.

Anti-takeover mechanisms and related issues. The investment manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. However, as with all proxy issues, the investment manager conducts an independent review of each anti-takeover proposal. On occasion, the investment manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The investment manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. In addition, the investment manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The investment manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The investment manager generally supports "fair price" provisions and confidential voting. The investment manager will review a company's proposal to reincorporate to a different state or country on a case-by-case basis taking into consideration financial benefits such as tax treatment as well as comparing corporate

governance provisions and general business laws that may result from the change in domicile.

Changes to capital structure. The investment manager realizes that a company's financing decisions have a significant impact on its shareholders, particularly when they involve the issuance of additional shares of common or preferred stock or the assumption of additional debt. The investment manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase. The investment manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The investment manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable. The investment manager will review proposals seeking preemptive rights on a case-by-case basis.

Mergers and corporate restructuring. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether they would be beneficial to shareholders. The investment manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring proposals are also subject to a thorough examination on a case-by-case basis.

Environmental and social issues. The investment manager considers environmental and social issues alongside traditional financial measures to provide a more comprehensive view of the value, risk and return potential of an investment. Companies may face significant financial, legal and reputational risks resulting from poor environmental and social practices, or negligent oversight of environmental or social issues. Franklin Templeton's "Responsible Investment Principles and Policies" describes the investment manager's approach to consideration of environmental, social and governance issues within the investment manager's processes and ownership practices.

In the investment manager's experience, those companies that are managed well are often effective in dealing with the relevant environmental and social issues that pertain to their business. As such, the investment manager will generally give management discretion with regard to environmental and social issues. However, in cases where management and the board have not demonstrated adequate efforts to mitigate material environmental or social risks, have engaged in inappropriate or illegal conduct, or have failed to adequately address current or emergent risks that threaten shareholder value, the investment manager may choose to support well-crafted shareholder proposals that serve to promote or protect shareholder value. This may include seeking appropriate disclosure regarding material environmental and social issues. The investment manager will review shareholder proposals on a case-by-case basis and may support those that serve to enhance value or mitigate risk, are drafted appropriately, and do not disrupt the course of business or require a disproportionate or inappropriate use of company resources.

The investment manager will consider supporting a shareholder proposal seeking disclosure and greater board oversight of lobbying and corporate political contributions if the investment manager believes that there is evidence of inadequate oversight by the company's board, if the company's current disclosure is significantly deficient, or if the disclosure is notably lacking in comparison to the company's peers.

Governance matters. The investment manager generally supports the right of shareholders to call special meetings and act by written consent. However, the investment manager will review such shareholder proposals on a case-by-case basis in an effort to ensure that such proposals do not disrupt the course of business or require a disproportionate or inappropriate use of company resources. The investment manager will consider on a case-by-case basis any well-drafted and reasonable proposals for proxy access considering such factors as the size of the company, ownership thresholds and holding periods, responsiveness of management, intentions of the shareholder proponent, company performance, and shareholder base.

Global corporate governance. Many of the tenets discussed above are applied to the investment manager's proxy voting decisions for international investments. However, the investment manager must be flexible in these worldwide markets. Principles of good corporate governance may vary by country, given the constraints of a country's laws and acceptable practices in the markets. As a result, it is on occasion difficult to apply a consistent set of governance practices to all issuers. As experienced money managers, the investment manager's analysts are skilled in understanding the complexities of the regions in which they specialize and are trained to analyze proxy issues germane to their regions.

The investment manager will generally attempt to process every proxy it receives for all domestic and foreign securities. However, there may be situations in which the investment manager may be unable to vote a proxy, or may choose not to vote a proxy, such as where: (i) a proxy ballot was not received from the custodian bank; (ii) a meeting notice was received too late; (iii) there are fees imposed upon the exercise of a vote and it is determined that such fees outweigh the benefit of voting; (iv) there are legal encumbrances to voting, including blocking restrictions in certain markets that preclude the ability to dispose of a security if the investment manager votes a proxy or where the investment manager is prohibited from voting by applicable law or other regulatory or market requirements, including but not limited to, effective Powers of Attorney; (v) the investment manager held shares on the record date but has sold them prior to the meeting date; (vi) a proxy voting service is not offered by the custodian in the market; (vii) the investment manager believes it is not in the best interest of the Fund or its shareholders to vote the proxy for any other reason not enumerated herein; or (viii) a security is subject to a securities lending or similar program that has transferred legal title to the security to another person.

In some foreign jurisdictions, even if the investment manager uses reasonable efforts to vote a proxy on behalf of the Fund, such vote or proxy may be

rejected because of (a) operational or procedural issues experienced by one or more third parties involved in voting proxies in such jurisdictions; (b) changes in the process or agenda for the meeting by the issuer for which the investment manager does not have sufficient notice; or (c) the exercise by the issuer of its discretion to reject the vote of the investment manager. In addition, despite the best efforts of the Proxy Group and its agents, there may be situations where the investment manager's votes are not received, or properly tabulated, by an issuer or the issuer's agent.

The investment manager or its affiliates may, on behalf of one or more of the proprietary registered investment companies advised by the investment manager or its affiliates, determine to use its best efforts to recall any security on loan where the investment manager or its affiliates (a) learn of a vote on a material event that may affect a security on loan and (b) determine that it is in the best interests of such proprietary registered investment companies to recall the security for voting purposes.

Shareholders may view the complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301-1923, Attention: Proxy Group. Copies of the Fund's proxy voting records are available online at franklintempleton.com and posted on the SEC website at www.sec.gov. The proxy voting records are updated each year by August 31 to reflect the most recent 12-month period ended June 30.

The Board previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. Effective February 26, 2014, the Board approved a modification to the Fund's previously announced open-market share repurchase program to authorize the Fund to repurchase up to 10% of the Fund's shares outstanding in open market transactions as of that date, at the discretion of management. Since the inception of the program, the Fund had repurchased a total of 8,125,991 shares.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Directors that would require disclosure herein.

Item 11. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) Changes in Internal Controls. There have been no changes in the Registrant's internal controls or in other factors that could materially affect the internal controls over financial reporting subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.
