Highwoods Properties, Inc. Highwoods Realty Limited Partnership

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Highwoods Properties, Inc. Yes No Highwoods Realty Limited Partnership Yes No

The Company had 103,421,754 shares of Common Stock outstanding as of April 17, 2018.

EXPLANATORY NOTE

We refer to Highwoods Properties, Inc. as the “Company,” Highwoods Realty Limited Partnership as the “Operating Partnership,” the Company’s common stock as “Common Stock” or “Common Shares,” the Company’s preferred stock as “Preferred Stock” or “Preferred Shares,” the Operating Partnership’s common partnership interests as “Common Units” and the Operating Partnership’s preferred partnership interests as “Preferred Units.” References to “we” and “our” mean the Company and the Operating Partnership, collectively, unless the context indicates otherwise.

The Company conducts its activities through the Operating Partnership and is its sole general partner. The partnership agreement provides that the Operating Partnership will assume and pay when due, or reimburse the Company for payment of, all costs and expenses relating to the ownership and operations of, or for the benefit of, the Operating Partnership. The partnership agreement further provides that all expenses of the Company are deemed to be incurred for the benefit of the Operating Partnership.

Certain information contained herein is presented as of April 17, 2018, the latest practicable date for financial information prior to the filing of this Quarterly Report.

This report combines the Quarterly Reports on Form 10-Q for the period ended March 31, 2018 of the Company and the Operating Partnership. We believe combining the quarterly reports into this single report results in the following benefits:

- combined reports better reflect how management and investors view the business as a single operating unit;

- combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;

- combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and

- combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- Consolidated Financial Statements;

- Note 12 to Consolidated Financial Statements - Earnings Per Share and Per Unit;

- Item 4 - Controls and Procedures; and

- Item 6 - Certifications of CEO and CFO Pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act.

HIGHWOODS PROPERTIES, INC.

1. Description of Business and Significant Accounting Policies

Description of Business

Highwoods Properties, Inc. (the “Company”) is a fully integrated real estate investment trust (“REIT”) that provides leasing, management, development, construction and other customer-related services for its properties and for third parties. The Company conducts its activities through Highwoods Realty Limited Partnership (the “Operating Partnership”). At March 31, 2018, we owned or had an interest in 30.7 million rentable square feet of in-service properties, 1.5 million rentable square feet of properties under development and approximately 400 acres of development land.

The Company is the sole general partner of the Operating Partnership. At March 31, 2018, the Company owned all of the Preferred Units and 103.0 million, or 97.4%, of the Common Units in the Operating Partnership. Limited partners owned the remaining 2.8 million Common Units. During the three months ended March 31, 2018, the Company redeemed 19,196 Common Units for a like number of shares of Common Stock.

Basis of Presentation

Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

The Company's Consolidated Financial Statements include the Operating Partnership, wholly owned subsidiaries and those entities in which the Company has the controlling interest. The Operating Partnership's Consolidated Financial Statements include wholly owned subsidiaries and those entities in which the Operating Partnership has the controlling interest. All intercompany transactions and accounts have been eliminated.

The unaudited interim consolidated financial statements and accompanying unaudited consolidated financial information, in the opinion of management, contain all adjustments (including normal recurring accruals) necessary for a fair presentation of our financial position, results of operations and cash flows. We have condensed or omitted certain notes and other information from the interim Consolidated Financial Statements presented in this Quarterly Report as permitted by SEC rules and regulations. These Consolidated Financial Statements should be read in conjunction with our 2017 Annual Report on Form 10-K.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in our Consolidated Financial Statements and accompanying notes. Actual results could differ from those estimates.

Insurance

Beginning in 2018, we are primarily self-insured for health care claims for eligible participating employees. We have stop-loss coverage to limit our exposure to significant claims on a per claim and annual aggregate basis. We determine our liabilities for claims, including incurred but not reported losses, based on all relevant information, including actuarial estimates of claim liabilities. At March 31, 2018, a reserve of \$0.4 million was recorded to cover estimated reported and unreported claims.

1. Description of Business and Significant Accounting Policies – Continued

Recently Issued Accounting Standards

The Financial Accounting Standards Board ("FASB") issued an accounting standards update ("ASU") which superseded the revenue recognition requirements under previous guidance. We adopted the ASU on January 1, 2018. Several updates have been issued subsequently which were intended to promote a more consistent interpretation and application of the principles outlined in the ASU. The ASU requires the use of a new five-step model to recognize revenue from contracts with customers. The five-step model requires that we identify the contract with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when we satisfy the performance obligations. We are also required to disclose information regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In analyzing our contracts with customers, we determined that the most material potential impact from the adoption of this ASU would be in how revenue is recognized for sales of real estate with continuing involvement. Prior to the adoption of this ASU, profit for such sales transactions was recognized and then reduced by the maximum exposure to loss related to the nature of the continuing involvement at the time of sale. Upon adoption of this ASU, any continuing involvement must be analyzed as a separate performance obligation in the contract and a portion of the sales price allocated to each performance obligation. When the continuing involvement performance obligation is satisfied, the sales price allocated to it will be recognized. We had no sales of real estate with continuing involvement during the first quarter of 2018 or prior periods; however, we will use such methodology for any future real estate sales with continuing involvement. Our internal controls with respect to accounting for such sales have been updated accordingly. The adoption of this ASU resulted in no other changes with respect to the timing of revenue recognition or internal controls related to our other contracts with customers which include primarily management, development and construction fees and transient parking income, all of which are not material to our Consolidated Financial Statements. As such, there is no cumulative-effect adjustment from the adoption of this ASU reflected in our Consolidated Financial Statements.

The FASB issued an ASU that requires entities to show changes in total cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. As a result, restricted cash and restricted cash equivalents will be included with cash and cash equivalents when reconciling the beginning of period and end of period balances rather than presented as transfers between cash and cash equivalents and restricted cash and restricted cash equivalents in the statement of cash flows. We adopted the ASU as of January 1, 2018 with retrospective application to our Consolidated Statements of Cash Flows. Accordingly, our Consolidated Statements of Cash Flows present a reconciliation of the changes in cash and cash equivalents and restricted cash. The effect of the adoption resulted in a \$0.1 million decrease in net cash used in investing activities for the three months ended March 31, 2017. Restricted cash represents cash deposits that are legally restricted or held by third parties on our behalf, such as construction-related escrows, property disposition proceeds set aside and designated or intended to fund future tax-deferred exchanges of qualifying real estate investments, escrows and reserves for debt service, real estate taxes and property insurance established pursuant to certain mortgage financing arrangements and any deposits made with lenders to unencumber secured properties.

The FASB issued an ASU that clarifies and narrows the definition of a business used in determining whether to account for a transaction as an asset acquisition or business combination. The guidance requires evaluation of the fair value of the assets acquired to determine if it is concentrated in a single identifiable asset or a group of similar

identifiable assets. If so, the transferred assets would not be a business. The guidance also requires a business to include at least one substantive process and narrows the definition of outputs. We adopted the ASU prospectively as of January 1, 2018. We expect that the majority of our future acquisitions would not meet the definition of a business; therefore, the related acquisition costs would be capitalized as part of the purchase price.

The FASB issued an ASU that clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The guidance requires modification accounting if the value, vesting conditions or classification of the award changes. We adopted the ASU as of January 1, 2018 with no effect on our Consolidated Financial Statements.

HIGHWOODS PROPERTIES, INC.

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share and per unit data)

1. Description of Business and Significant Accounting Policies – Continued

The FASB issued an ASU which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. We are continuing to conduct our analysis of the impact of the guidance on our Consolidated Financial Statements and have an active project team working on the evaluation and implementation of the guidance. We continue to monitor FASB activity with respect to possible amendments to this ASU, particularly the FASB's recent vote to provide an optional practical expedient to lessors that removes the requirement to separate lease and non-lease components when the pattern of recognition of those components are the same and, when combined as a single unit, those would be classified as operating leases. Should the proposed amendment be issued, we expect to elect the practical expedient as our initial analysis of our leases indicates that the pattern of recognition of our material non-lease components (primarily cost recovery income) are the same as the lease components and will not require the use of the five-step revenue recognition model discussed above. We currently believe that the adoption of the ASU will not significantly change the accounting for operating leases on our Consolidated Balance Sheets where we are the lessor, and that such leases will be accounted for in a similar method to existing standards with the underlying leased asset being reported and recognized as a real estate asset. In addition, the guidance requires lessors to capitalize and amortize only incremental direct leasing costs. As a result, upon the adoption of the ASU, we will no longer be able to capitalize and amortize certain leasing related costs and instead will expense these costs as incurred. We are in the process of evaluating the impact to our results of operations of expensing such costs. The ASU is required to be adopted in 2019 using a modified retrospective approach which requires a cumulative-effect adjustment to retained earnings as of the beginning of the fiscal year of adoption. Leases where we are the lessee include primarily our operating ground leases which are not material to our Consolidated Financial Statements. We will continue to refine our evaluation and finalize our implementation plan throughout 2018.

The FASB issued an ASU that eliminates the requirement to separately measure and report hedge ineffectiveness and generally requires the entire change in the fair value of a hedging instrument to be presented in the same income statement line as the hedged item when the hedged item affects earnings. The ASU is required to be adopted in 2019 using a modified retrospective approach. We do not expect such adoption to have a material effect on our Consolidated Financial Statements.

The FASB issued an ASU that requires, among other things, the use of a new current expected credit loss ("CECL") model in determining our allowances for doubtful accounts with respect to accounts receivable, accrued straight-line rents receivable and mortgages and notes receivable. The CECL model requires that we estimate our lifetime expected credit loss with respect to these receivables and record allowances that, when deducted from the balance of the receivables, represent the net amounts expected to be collected. We will also be required to disclose information about how we developed the allowances, including changes in the factors (e.g., portfolio mix, credit trends, unemployment, gross domestic product, etc.) that influenced our estimate of expected credit losses and the reasons for those changes. We will apply the ASU's provisions as a cumulative-effect adjustment to retained earnings upon adoption in 2020. We are in the process of evaluating this ASU.

2. Real Estate Assets

During the first quarter of 2018, we acquired two development parcels totaling approximately nine acres in Nashville for an aggregate purchase price, including capitalized acquisition costs, of \$50.6 million.

3. Mortgages and Notes Receivable

Mortgages and notes receivable were \$6.2 million and \$6.4 million at March 31, 2018 and December 31, 2017, respectively. We evaluate the ability to collect our mortgages and notes receivable by monitoring the leasing statistics and/or market fundamentals of these assets. As of March 31, 2018, our mortgages and notes receivable were not in default and there were no other indicators of impairment.

5. Mortgages and Notes Payable

The following table sets forth our mortgages and notes payable:

	March 31, 2018	December 31, 2017
Secured indebtedness	\$98,537	\$ 98,981
Unsecured indebtedness	2,024,685	1,923,513
Less-unamortized debt issuance costs	(10,638)	(8,161)
Total mortgages and notes payable, net	\$2,112,584	\$ 2,014,333

At March 31, 2018, our secured mortgage loans were collateralized by real estate assets with an aggregate undepreciated book value of \$147.6 million.

Our \$600.0 million unsecured revolving credit facility is scheduled to mature in January 2022 and includes an accordion feature that allows for an additional \$400.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for two additional six-month periods. The interest rate at our current credit ratings is LIBOR plus 100 basis points and the annual facility fee is 20 basis points. There were no amounts outstanding under our revolving credit facility at March 31, 2018. There was \$172.0 million outstanding under our revolving credit facility at April 17, 2018. At both March 31, 2018 and April 17, 2018, we had \$0.5 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2018 and April 17, 2018 was \$599.5 million and \$427.5 million, respectively.

During the first quarter of 2018, the Operating Partnership issued \$350.0 million aggregate principal amount of 4.125% notes due 2028, less original issuance discount of \$4.1 million. These notes were priced to yield 4.271%. Underwriting fees and other expenses were incurred that aggregated \$2.9 million; these costs were deferred and will be amortized over the term of the notes.

We are currently in compliance with financial covenants with respect to our consolidated debt.

We have considered our short-term liquidity needs and the adequacy of our estimated cash flows from operating activities and other available financing sources to meet these needs. We intend to meet these short-term liquidity requirements through a combination of the following:

- available cash and cash equivalents;
- cash flows from operating activities;
- issuance of debt securities by the Operating Partnership;
- issuance of secured debt;
- bank term loans;

borrowings under our revolving credit facility;

issuance of equity securities by the Company or the Operating Partnership; and

the disposition of non-core assets.

19

Table of Contents

HIGHWOODS PROPERTIES, INC.

HIGHWOODS REALTY LIMITED PARTNERSHIP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(tabular dollar amounts in thousands, except per share and per unit data)

6. Derivative Financial Instruments

During 2017, we entered into \$150.0 million notional amount of forward-starting swaps that effectively locked the underlying 10-year treasury rate at 2.44% with respect to a planned issuance of debt securities by the Operating Partnership. Upon issuance of the \$350.0 million aggregate principal amount of 4.125% notes due 2028 during the first quarter of 2018, we terminated the forward-starting swaps resulting in an unrealized gain of \$7.0 million in accumulated other comprehensive income and a gain of \$0.2 million of hedge ineffectiveness in interest expense.

The counterparties under our swaps are major financial institutions. The swap agreements contain a provision whereby if we default on certain of our indebtedness and which default results in repayment of such indebtedness being, or becoming capable of being, accelerated by the lender, then we could also be declared in default on our swaps.

Our interest rate swaps have been designated as and are being accounted for as cash flow hedges with the effective portion of changes in fair value recorded in other comprehensive income each reporting period. No significant gain or loss was recognized related to hedge ineffectiveness or to amounts excluded from effectiveness testing on our cash flow hedges during the three months ended March 31, 2018 and 2017. We have no collateral requirements related to our interest rate swaps.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on our debt. During the period from April 1, 2018 through March 31, 2019, we estimate that \$2.4 million will be reclassified as a decrease to interest expense.

The following table sets forth the fair value of our derivatives:

	March 31, 2018	December 31, 2017
Derivatives:		
Derivatives designated as cash flow hedges in prepaid expenses and other assets:		
Interest rate swaps	\$ 2,179	\$ 1,286

The following table sets forth the effect of our cash flow hedges on accumulated other comprehensive income and interest expense:

	Three Months Ended March 31, 2018	2017
Derivatives Designated as Cash Flow Hedges:		
Amount of unrealized gains recognized in accumulated other comprehensive income on derivatives (effective portion):		
Interest rate swaps	\$7,877	\$452
Amount of (gains)/losses reclassified out of accumulated other comprehensive income into contractual interest expense (effective portion):		

Interest rate swaps

\$(106) \$484

7. Noncontrolling Interests

Noncontrolling Interests in Consolidated Affiliates

At March 31, 2018, our noncontrolling interests in consolidated affiliates relate to our joint venture partner's 50.0% interest in office properties in Richmond. Our joint venture partner is an unrelated third party.

Noncontrolling Interests in the Operating Partnership

The following table sets forth the Company's noncontrolling interests in the Operating Partnership:

	Three Months Ended March 31,	
	2018	2017
Beginning noncontrolling interests in the Operating Partnership	\$144,009	\$144,802
Adjustment of noncontrolling interests in the Operating Partnership to fair value	(19,582)	(4,972)
Conversions of Common Units to Common Stock	(902)	(102)
Net income attributable to noncontrolling interests in the Operating Partnership	888	888
Distributions to noncontrolling interests in the Operating Partnership	(1,300)	(1,249)
Total noncontrolling interests in the Operating Partnership	\$123,113	\$139,367

The following table sets forth net income available for common stockholders and transfers from the Company's noncontrolling interests in the Operating Partnership:

	Three Months Ended March 31,	
	2018	2017
Net income available for common stockholders	\$32,449	\$31,674
Increase in additional paid in capital from conversions of Common Units to Common Stock	902	102
Change from net income available for common stockholders and transfers from noncontrolling interests	\$33,351	\$31,776

8. Disclosure About Fair Value of Financial Instruments

The following summarizes the levels of inputs that we use to measure fair value.

Level 1. Quoted prices in active markets for identical assets or liabilities.

Our Level 1 asset is our investment in marketable securities that we use to pay benefits under our non-qualified deferred compensation plan. Our Level 1 liability is our non-qualified deferred compensation obligation. The Company's Level 1 noncontrolling interests in the Operating Partnership relate to the ownership of Common Units by various individuals and entities other than the Company.

Level 2. Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Our Level 2 assets include the fair value of our mortgages and notes receivable and interest rate swaps. Our Level 2 liabilities include the fair value of our mortgages and notes payable.

8. Disclosure About Fair Value of Financial Instruments - Continued

The fair value of mortgages and notes receivable and mortgages and notes payable is estimated by the income approach utilizing contractual cash flows and market-based interest rates to approximate the price that would be paid in an orderly transaction between market participants. The fair value of interest rate swaps is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments of interest rate swaps are based on the expectation of future interest rates (forward curves) derived from observed market interest rate curves. In addition, credit valuation adjustments are considered in the fair values to account for potential nonperformance risk, but were concluded to not be significant inputs to the calculation for the periods presented.

The following table sets forth our assets and liabilities and the Company's noncontrolling interests in the Operating Partnership that are measured or disclosed at fair value within the fair value hierarchy.

	Total	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs
Fair Value at March 31, 2018:			
Assets:			
Mortgages and notes receivable, at fair value (1)	\$6,158	\$—	\$6,158
Interest rate swaps (in prepaid expenses and other assets)	2,179	—	2,179
Marketable securities of non-qualified deferred compensation plan (in prepaid expenses and other assets)	2,376	2,376	—
Total Assets	\$10,713	\$2,376	\$8,337
Noncontrolling Interests in the Operating Partnership	\$123,113	\$123,113	\$—
Liabilities:

9. Share-Based Payments

During the three months ended March 31, 2018, the Company granted 94,984 shares of time-based restricted stock and 77,456 shares of total return-based restricted stock with weighted average grant date fair values per share of \$43.01 and \$40.81, respectively. We recorded share-based compensation expense of \$4.3 million and \$3.8 million during the three months ended March 31, 2018 and 2017, respectively. At March 31, 2018, there was \$8.1 million of total unrecognized share-based compensation costs, which will be recognized over a weighted average remaining contractual term of 2.7 years.

10. Accumulated Other Comprehensive Income

The following table sets forth the components of accumulated other comprehensive income:

	Three Months Ended March 31, 2018		2017
Cash flow hedges:			
Beginning balance	\$7,838	\$4,949	
Unrealized gains on cash flow hedges	7,877	452

14. Subsequent Events

On April 16, 2018, we paid off at maturity \$200.0 million principal amount of 7.5% unsecured notes.

On April 19, 2018, the Company declared a cash dividend of \$0.4625 per share of Common Stock, which is payable on June 5, 2018 to stockholders of record as of May 18, 2018.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company is a fully integrated office real estate investment trust ("REIT") that owns, develops, acquires, leases and manages properties primarily in the best business districts (BBDs) of Atlanta, Greensboro, Memphis, Nashville, Orlando, Pittsburgh, Raleigh, Richmond and Tampa. The Company conducts its activities through the Operating Partnership. The Operating Partnership is managed by the Company, its sole general partner. Additional information about us can be found on our website at www.highwoods.com. Information on our website is not part of this Quarterly Report.

You should read the following discussion and analysis in conjunction with the accompanying Consolidated Financial Statements and related notes contained elsewhere in this Quarterly Report.

Disclosure Regarding Forward-Looking Statements

Some of the information in this Quarterly Report may contain forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects under this section. You can identify forward-looking statements by our use of forward-looking terminology such as "may," "will," "expect," "anticipate," "estimate," "continue" or similar words. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that our plans, intentions or expectations will be achieved. When considering such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- the financial condition of our customers could deteriorate;
- we may not be able to lease or re-lease second generation space, defined as previously occupied space that becomes available for lease, quickly or on as favorable terms as old leases;
- we may not be able to lease newly constructed buildings as quickly or on as favorable terms as originally anticipated;
- we may not be able to complete development, acquisition, reinvestment, disposition or joint venture projects as quickly or on as favorable terms as anticipated;
- development activity in our existing markets could result in an excessive supply relative to customer demand;
- our markets may suffer declines in economic and/or office employment growth;
- unanticipated increases in interest rates could increase our debt service costs;
- unanticipated increases in operating expenses could negatively impact our operating results;
- we may not be able to meet our liquidity requirements or obtain capital on favorable terms to fund our working capital needs and growth initiatives or repay or refinance outstanding debt upon maturity; and
- the Company could lose key executive officers.

This list of risks and uncertainties, however, is not intended to be exhaustive. You should also review the other cautionary statements we make in "Business – Risk Factors" set forth in our 2017 Annual Report on Form 10-K. Given these uncertainties, you should not place undue reliance on forward-looking statements. We undertake no obligation to

publicly release the results of any revisions to these forward-looking statements to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

Table of Contents

Executive Summary

Our Strategic Plan focuses on:

- owning high-quality, differentiated office buildings in the BBDs of our core markets;
- improving the operating results of our properties through concentrated leasing, asset management, cost control and customer service efforts;
- developing and acquiring office buildings in BBDs that improve the overall quality of our portfolio and generate attractive returns over the long term for our stockholders;
- disposing of properties no longer considered to be core assets primarily due to location, age, quality and/or overall strategic fit; and
- maintaining a balance sheet with ample liquidity to meet our funding needs and growth prospects.

Revenues

Our operating results depend heavily on successfully leasing and operating the office space in our portfolio. Economic growth and office employment levels in our core markets are important factors, among others, in predicting our future operating results.

The key components affecting our rental and other revenues are average occupancy, rental rates, cost recovery income, new developments placed in service, acquisitions and dispositions. Average occupancy generally increases during times of improving economic growth, as our ability to lease space outpaces vacancies that occur upon the expirations of existing leases. Average occupancy generally declines during times of slower or negative economic growth, when new vacancies tend to outpace our ability to lease space. Asset acquisitions, dispositions and new developments placed in service directly impact our rental revenues and could impact our average occupancy, depending upon the occupancy rate of the properties that are acquired, sold or placed in service. A further indicator of the predictability of future revenues is the expected lease expirations of our portfolio. As a result, in addition to seeking to increase our average occupancy by leasing current vacant space, we also concentrate our leasing efforts on renewing existing leases prior to expiration. For more information regarding our lease expirations, see "Properties - Lease Expirations" in our 2017 Annual Report on Form 10-K. Occupancy in our office portfolio decreased from 92.9% at December 31, 2017 to 92.1% at March 31, 2018 primarily due to the scheduled expirations of two customers in Atlanta. We expect average occupancy for our office portfolio to be approximately 91% for the remainder of 2018.

Whether or not our rental revenue tracks average occupancy proportionally depends upon whether GAAP rents under signed new and renewal leases are higher or lower than the GAAP rents under expiring leases. Annualized rental revenues from second generation leases expiring during any particular year are typically less than 15% of our total annual rental revenues. The following table sets forth information regarding second generation office leases signed during the first quarter of 2018 (we define second generation office leases as leases with new customers and renewals of existing customers in office space that has been previously occupied under our ownership and leases with respect to vacant space in acquired buildings):

	New	Renewal	All Office
Leased space (in rentable square feet)	220,370	636,772	857,142
Average term (in years - rentable square foot weighted)	7.3	5.1	5.7

Edgar Filing: HIGHWOODS PROPERTIES INC - Form 10-Q

Base rents (per rentable square foot) (1)	\$29.04	\$28.82	\$28.88
Rent concessions (per rentable square foot) (1)	(0.88)	(0.41)	(0.53)
GAAP rents (per rentable square foot) (1)	\$28.16	\$28.41	\$28.35
Tenant improvements (per rentable square foot) (1)	\$4.58	\$2.03	\$2.69
Leasing commissions (per rentable square foot) (1)	\$1.07	\$0.84	\$0.90

(1) Weighted average per rentable square foot on an annual basis over the lease term.

Annual combined GAAP rents for new and renewal leases signed in the first quarter were \$28.35 per rentable square foot, or 19.7%, higher compared to previous leases in the same office spaces.

Table of Contents

We strive to maintain a diverse, stable and creditworthy customer base. We have an internal guideline whereby customers that account for more than 3% of our revenues are periodically reviewed with the Company's Board of Directors. As of March 31, 2018, no customer accounted for more than 3% of our cash revenues other than the Federal Government, which accounted for less than 5% of our cash revenues on an annualized basis.

Expenses

Our expenses primarily consist of rental property expenses, depreciation and amortization, general and administrative expenses and interest expense. From time to time, expenses also include impairments of real estate assets. Rental property expenses are expenses associated with our ownership and operation of rental properties and include expenses that vary somewhat proportionately to occupancy levels, such as janitorial services and utilities, and expenses that do not vary based on occupancy, such as property taxes and insurance. Depreciation and amortization is a non-cash expense associated with the ownership of real property and generally remains relatively consistent each year, unless we buy, place in service or sell assets, since our properties and related building and tenant improvement assets are depreciated on a straight-line basis over fixed lives. General and administrative expenses consist primarily of management and employee salaries and benefits, corporate overhead and short and long-term incentive compensation.

Net Operating Income

Whether or not we record increasing same property net operating income ("NOI") depends upon our ability to garner higher rental revenues, whether from higher average occupancy, higher GAAP rents per rentable square foot or higher cost recovery income, that exceed any corresponding growth in operating expenses. Same property NOI was \$3.0 million, or 2.8%, higher in the first quarter of 2018 as compared to 2017 due to an increase in same property revenues of \$4.7 million offset by an increase of \$1.6 million in same property expenses. We expect same property NOI to be higher in the remainder of 2018 than 2017 as higher rental revenues, mostly from higher average GAAP rents per rentable square foot and higher parking income, are expected to more than offset lower expected average occupancy and an anticipated increase in same property operating expenses.

In addition to the effect of same property NOI, whether or not NOI increases depends upon whether the NOI from our acquired properties and development properties placed in service exceeds the NOI from sold properties. NOI was \$9.0 million, or 8.0%, higher in the first quarter of 2018 as compared to 2017 due to the impact of development properties placed in service, offset by NOI lost from sold properties. We expect NOI to be higher in the remainder of 2018 than 2017 due to the impact of our net investment activity in such periods.

Cash Flows

In calculating net cash related to operating activities, depreciation and amortization, which are non-cash expenses, are added back to net income. We have historically generated a positive amount of cash from operating activities. From period to period, cash flow from operations depends primarily upon changes in our net income, as discussed more fully below under "Results of Operations," changes in receivables and payables and net additions or decreases in our overall portfolio.

Net cash related to investing activities generally relates to capitalized costs incurred for leasing and major building improvements and our acquisition, development, disposition and joint venture activity. During periods of significant net acquisition and/or development activity, our cash used in such investing activities will generally exceed cash provided by investing activities, which typically consists of cash received upon the sale of properties and distributions from our joint ventures.

Net cash related to financing activities generally relates to distributions, incurrence and repayment of debt, and issuances, repurchases or redemptions of Common Stock, Common Units and Preferred Stock. We use a significant amount of our cash to fund distributions. Whether or not we have increases in the outstanding balances of debt during a period depends generally upon the net effect of our acquisition, disposition, development and joint venture activity. We generally use our revolving credit facility for daily working capital purposes, which means that during any given period, in order to minimize interest expense, we may record significant repayments and borrowings under our revolving credit facility.

Liquidity and Capital Resources

We intend to maintain a conservative and flexible balance sheet with access to multiple sources of debt and equity capital and sufficient availability under our revolving credit facility that allows us to capitalize on favorable development and acquisition opportunities as they arise.

Table of Contents

Rental and other revenues are our principal source of funds to meet our short-term liquidity requirements. Other sources of funds for short-term liquidity needs include available working capital and borrowings under our revolving credit facility, which had \$427.5 million of availability at April 17, 2018. Our short-term liquidity requirements primarily consist of operating expenses, interest and principal amortization on our debt, distributions and capital expenditures, including building improvement costs, tenant improvement costs and lease commissions. Building improvements are capital costs to maintain or enhance existing buildings not typically related to a specific customer. Tenant improvements are the costs required to customize space for the specific needs of customers. We anticipate that our available cash and cash equivalents and cash provided by operating activities and planned financing activities, including borrowings under our revolving credit facility, will be adequate to meet our short-term liquidity requirements. We use our revolving credit facility for working capital purposes and for the short-term funding of our development and acquisition activity and, in certain instances, the repayment of other debt. The continued ability to borrow under the revolving credit facility allows us to quickly capitalize on strategic opportunities at short-term interest rates.

Our long-term liquidity uses generally consist of the retirement or refinancing of debt upon maturity, funding of building improvements, new building developments and land infrastructure projects and funding acquisitions of buildings and development land. Our expected future capital expenditures for started and/or committed new development projects were approximately \$156 million at March 31, 2018. Additionally, we may, from time to time, retire some or all of our remaining outstanding Preferred Stock and/or unsecured debt securities through redemptions, open market repurchases, privately negotiated acquisitions or otherwise.

We expect to meet our long-term liquidity needs through a combination of:

- cash flow from operating activities;
- bank term loans and borrowings under our revolving credit facility;
- the issuance of unsecured debt;
- the issuance of secured debt;
- the issuance of equity securities by the Company or the Operating Partnership; and
- the disposition of non-core assets.

At March 31, 2018, our leverage ratio, as measured by the ratio of our mortgages and notes payable and outstanding preferred stock to the undepreciated book value of our assets, was 36.0% and there were 106.3 million diluted shares of Common Stock outstanding.

For a discussion regarding dividends and distributions, see "Liquidity and Capital Resources - Dividends and Distributions."

Investment Activity

As noted above, a key tenet of our strategic plan is to continuously upgrade the quality of our office portfolio through acquisitions, dispositions and development. We generally seek to acquire and develop office buildings that improve the average quality of our overall portfolio and deliver consistent and sustainable value for our stockholders over the long-term. Whether or not an asset acquisition or new development results in higher per share net income or funds from operations ("FFO") in any given period depends upon a number of factors, including whether the NOI for any

such period exceeds the actual cost of capital used to finance the acquisition or development. Additionally, given the length of construction cycles, development projects are not placed in service until, in some cases, several years after commencement. Sales of non-core assets could result in lower per share net income or FFO in any given period in the event the resulting use of proceeds does not exceed the capitalization rate on the sold properties.

Results of Operations

Three Months Ended March 31, 2018 and 2017

Rental and Other Revenues

Rental and other revenues were \$11.0 million, or 6.5%, higher in the first quarter of 2018 as compared to 2017 primarily due to development properties placed in service, higher same property revenues and a restoration fee, which increased rental and other

31

Table of Contents

revenues by \$8.5 million, \$4.7 million and \$1.9 million, respectively. Same property rental and other revenues were higher primarily due to higher average GAAP rents per rentable square foot, higher cost recovery income and higher termination fees, partly offset by lower average occupancy. These increases were partly offset by lost revenue of \$4.1 million from property dispositions. We expect rental and other revenues to be higher for the remainder of 2018 as compared to 2017 due to development properties placed in service and higher same property revenues, partly offset by lost revenue from property dispositions.

Operating Expenses

Rental property and other expenses were \$2.0 million, or 3.5%, higher in the first quarter of 2018 as compared to 2017 primarily due to development properties placed in service and higher same property operating expenses, which increased operating expenses by \$1.9 million and \$1.6 million, respectively. Same property operating expenses were higher primarily due to higher contract services, utilities and property taxes. These increases were partly offset by a \$1.7 million decrease in operating expenses from property dispositions. We expect rental property and other expenses to be higher for the remainder of 2018 as compared to 2017 due to development properties placed in service and higher same property operating expenses, partly offset by lower operating expenses due to property dispositions.

Depreciation and amortization was \$1.4 million, or 2.5%, higher in the first quarter of 2018 as compared to 2017 primarily due to development properties placed in service, partly offset by property dispositions. We expect depreciation and amortization to be lower for the remainder of 2018 as compared to 2017 due to fully amortized acquisition-related intangible assets and property dispositions, partly offset by development properties placed in service.

General and administrative expenses were \$0.3 million, or 2.5%, higher in the first quarter of 2018 as compared to 2017 primarily due to higher company-wide base salaries and long-term equity incentive compensation. We expect general and administrative expenses to be similar for the remainder of 2018 as compared to 2017 as higher company-wide base salaries and benefits are expected to be offset by lower incentive compensation and dead deal costs. First quarter general and administrative expenses are typically higher than in subsequent quarters due to higher long-term equity incentive compensation recognized for certain employees who meet the age and service eligibility requirements under our retirement plan. Long-term equity incentive compensation awards are typically issued during the first quarter of each year.

Interest Expense

Interest expense was \$0.5 million, or 3.0%, higher in the first quarter of 2018 as compared to 2017 primarily due to lower capitalized interest, partly offset by lower average debt balances and lower average interest rates. We expect interest expense to be higher for the remainder of 2018 as compared to 2017 due to higher average debt balances and lower capitalized interest, partly offset by lower average interest rates.

Other Income

Other income was \$0.2 million, or 33.5%, lower in the first quarter of 2018 as compared to 2017 primarily due to lower interest income and deferred compensation plan investments in 2018.

Gains on Disposition of Property

Gains on disposition of property were \$5.3 million lower in the first quarter of 2018 as compared to 2017 due to no disposition activity in 2018.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates was \$0.4 million, or 45.3%, lower in the first quarter of 2018 as compared to 2017 primarily due to our share of the net effect of the disposition activity by certain unconsolidated affiliates in 2017 and lower average occupancy. We expect equity in earnings of unconsolidated affiliates to be lower for the remainder of 2018 as compared to 2017 due to our share of the net effect of the disposition activity in 2017.

Earnings Per Common Share - Diluted

Diluted earnings per common share in the first quarter of 2018 was the same as 2017 due to an increase in net income for the reasons discussed above offset by an increase in the weighted average Common Shares outstanding.

Table of Contents

Liquidity and Capital Resources

Statements of Cash Flows

We report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in the Company's cash flows (\$ in thousands):

	Three Months Ended		
	March 31,		
	2018	2017	Change
Net Cash Provided By Operating Activities	\$78,528	\$68,919	\$9,609
Net Cash Used In Investing Activities	(145,553)	(83,625)	(61,928)
Net Cash Provided By/(Used In) Financing Activities	46,574	(29,766)	76,340
Total Cash Flows	\$(20,451)	\$(44,472)	\$24,021

The increase in net cash provided by operating activities in the first quarter of 2018 as compared to 2017 was primarily due to higher net cash from the operations of development properties placed in service and same properties and the timing of cash paid for operating expenses. We expect net cash related to operating activities for the remainder of 2018 to be higher as compared to 2017 primarily due to the impact of development properties placed in service, partly offset by non-core dispositions.

The increase in net cash used in investing activities in the first quarter of 2018 as compared to 2017 was primarily due to acquisition activity in 2018 and net proceeds from disposition activity in 2017, partly offset by higher investments in development in-process in 2017. We expect uses of cash for investing activities for the remainder of 2018 to be primarily driven by whether or not we acquire and commence development of additional office buildings in the BBDs of our markets. Additionally, as of March 31, 2018, we have approximately \$156 million left to fund of our previously-announced development activity in 2018 and future years. We expect these uses of cash for investing activities will be partly offset by proceeds from non-core dispositions for the remainder of 2018.

The change in net cash provided by/(used in) financing activities in the first quarter of 2018 as compared to 2017 was primarily due to the payment of a special dividend in 2017, partly offset by higher proceeds from the issuance of Common Stock in 2017. Assuming the net effect of our acquisition, disposition and development activity in 2018 results in an increase of our assets, we would expect outstanding debt and/or Common Stock balances to increase.

Capitalization

The following table sets forth the Company's capitalization (in thousands, except per share amounts):

	March 31, December 31,	
	2018	2017
Mortgages and notes payable, net, at recorded book value	\$2,112,584	\$ 2,014,333
Preferred Stock, at liquidation value	\$28,887	\$ 28,892
Common Stock outstanding	103,422	103,267
Common Units outstanding (not owned by the Company)	2,810	2,829
Per share stock price at period end	\$43.82	\$ 50.91
Market value of Common Stock and Common Units	\$4,655,086	\$ 5,401,347
Total capitalization	\$6,796,557	\$ 7,444,572

At March 31, 2018, our mortgages and notes payable and outstanding preferred stock represented 31.5% of our total capitalization and 36.0% of the undepreciated book value of our assets. See also "Executive Summary - Liquidity and Capital Resources."

Our mortgages and notes payable as of March 31, 2018 consisted of \$98.5 million of secured indebtedness with a weighted average interest rate of 4.0% and \$2,024.7 million of unsecured indebtedness with a weighted average interest rate of 3.83%. The secured indebtedness was collateralized by real estate assets with an aggregate undepreciated book value of \$147.6 million. As of March 31, 2018, \$360.0 million of our debt does not bear interest at fixed rates or is not protected by interest rate hedge contracts.

Table of Contents

Investment Activity

During the first quarter of 2018, we acquired two development parcels totaling approximately nine acres in Nashville for an aggregate purchase price, including capitalized acquisition costs, of \$50.6 million.

In the normal course of business, we regularly evaluate potential acquisitions. As a result, from time to time, we may have one or more potential acquisitions under consideration that are in varying stages of evaluation, negotiation or due diligence, including potential acquisitions that are subject to non-binding letters of intent or enforceable contracts. Consummation of any transaction is subject to a number of contingencies, including the satisfaction of customary closing conditions. No assurances can be provided that we will acquire any properties in the future. See "Item 1A. Risk Factors - Recent and future acquisitions and development properties may fail to perform in accordance with our expectations and may require renovation and development costs exceeding our estimates" in our 2017 Annual Report on Form 10-K.

As of March 31, 2018, we were developing 0.7 million rentable square feet of office properties. The following table summarizes these announced and in-process office developments:

Property	Market	Rentable Square Feet	Anticipated Total Investment (1) (\$ in thousands)	Investment As Of March 31, 2018 (1)	Pre Leased %	Estimated Completion	Estimated Stabilization
Virginia Urology	Richmond	87,000	\$29,140	\$20,499	100.0%	3Q18	3Q18
751 Corporate Center	Raleigh	89,700	21,850	13,985	35.3	4Q18	4Q20
MetLife III	Raleigh	219,000	64,500	27,617	100.0	2Q19	2Q21
Virginia Springs I	Nashville	109,000	34,300	9,990	37.7	2Q19	3Q20
Mars Petcare - Ovation	Nashville	223,700	96,200	35,775	100.0	3Q19	3Q19
		728,400	\$245,990	\$107,866	82.7 %		

(1) Includes deferred lease commissions which are classified in deferred leasing costs on our Consolidated Balance Sheets.

Financing Activity

We have entered into separate equity distribution agreements with each of Wells Fargo Securities, LLC, Robert W. Baird & Co. Incorporated, BB&T Capital Markets, a division of BB&T Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, BTIG, LLC, Capital One Securities, Inc., Fifth Third Securities, Inc., Jefferies LLC and J.P. Morgan Securities LLC. Under the terms of the equity distribution agreements, the Company may offer and sell up to \$300.0 million in aggregate gross sales price of shares of Common Stock from time to time through such firms, acting as agents of the Company or as principals. Sales of the shares, if any, may be made by means of ordinary brokers' transactions on the New York Stock Exchange or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices or as otherwise agreed with any of such firms.

Our \$600.0 million unsecured revolving credit facility is scheduled to mature in January 2022 and includes an accordion feature that allows for an additional \$400.0 million of borrowing capacity subject to additional lender commitments. Assuming no defaults have occurred, we have an option to extend the maturity for two additional six-month periods. The interest rate at our current credit ratings is LIBOR plus 100 basis points and the annual facility

fee is 20 basis points. The interest rate and facility fee are based on the higher of the publicly announced ratings from Moody's Investors Service or Standard & Poor's Ratings Services. There were no amounts outstanding under our revolving credit facility at March 31, 2018. There was \$172.0 million outstanding under our revolving credit facility at April 17, 2018. At both March 31, 2018 and April 17, 2018, we had \$0.5 million of outstanding letters of credit, which reduces the availability on our revolving credit facility. As a result, the unused capacity of our revolving credit facility at March 31, 2018 and April 17, 2018 was \$599.5 million and \$427.5 million, respectively.

During the first quarter of 2018, the Operating Partnership issued \$350.0 million aggregate principal amount of 4.125% notes due 2028, less original issuance discount of \$4.1 million. These notes were priced to yield 4.271%. During 2017, we obtained \$150.0 million notional amount of forward-starting swaps. Upon issuance of the notes, we terminated the forward-starting swaps resulting in an unrealized gain of \$7.0 million in accumulated other comprehensive income and a gain of \$0.2 million of hedge ineffectiveness in interest expense. Underwriting fees and other expenses were incurred that aggregated \$2.9 million; these costs were deferred and will be amortized over the term of the notes. The net effect of the amortization of these items resulted in an effective fixed interest rate of 4.120%.

Table of Contents

On April 16, 2018, we paid off at maturity \$200.0 million principal amount of 7.5% unsecured notes.

We are currently in compliance with financial covenants and other requirements with respect to our consolidated debt. Although we expect to remain in compliance with these covenants and ratios for at least the next year, depending upon our future operating performance, property and financing transactions and general economic conditions, we cannot assure you that we will continue to be in compliance.

Our revolving credit facility and bank term loans require us to comply with customary operating covenants and various financial requirements. Upon an event of default on the revolving credit facility, the lenders having at least 51.0% of the total commitments under the revolving credit facility can accelerate all borrowings then outstanding, and we could be prohibited from borrowing any further amounts under our revolving credit facility, which would adversely affect our ability to fund our operations. In addition, certain of our unsecured debt agreements contain cross-default provisions giving the unsecured lenders the right to declare a default if we are in default under more than \$30.0 million with respect to other loans in some circumstances.

The indenture that governs the Operating Partnership's outstanding unsecured notes requires us to comply with customary operating covenants and various financial ratios. The trustee or the holders of at least 25.0% in principal amount of any series of notes can accelerate the principal amount of such series upon written notice of a default that remains uncured after 60 days.

We may not be able to repay, refinance or extend any or all of our debt at maturity or upon any acceleration. If any refinancing is done at higher interest rates, the increased interest expense could adversely affect our cash flow and ability to pay distributions. Any such refinancing could also impose tighter financial ratios and other covenants that restrict our ability to take actions that could otherwise be in our best interest, such as funding new development activity, making opportunistic acquisitions, repurchasing our securities or paying distributions.

Dividends and Distributions

To maintain its qualification as a REIT, the Company must pay dividends to stockholders that are at least 90.0% of its annual REIT taxable income, excluding net capital gains. The partnership agreement requires the Operating Partnership to distribute at least enough cash for the Company to be able to pay such dividends. The Company's REIT taxable income, as determined by the federal tax laws, does not equal its net income under accounting principles generally accepted in the United States of America ("GAAP"). In addition, although capital gains are not required to be distributed to maintain REIT status, capital gains, if any, are subject to federal and state income tax unless such gains are distributed to stockholders.

Cash dividends and distributions reduce the amount of cash that would otherwise be available for other business purposes, including funding debt maturities, reducing debt or future growth initiatives. The amount of future distributions that will be made is at the discretion of the Company's Board of Directors. For a discussion of the factors that will affect such cash flows and, accordingly, influence the decisions of the Company's Board of Directors regarding dividends and distributions, see "Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities" in our 2017 Annual Report on Form 10-K.

During the first quarter of 2018, the Company declared and paid a cash dividend of \$0.4625 per share of Common Stock.

On April 19, 2018, the Company declared a cash dividend of \$0.4625 per share of Common Stock, which is payable on June 5, 2018 to stockholders of record as of May 18, 2018.

Current and Future Cash Needs

We anticipate that our available cash and cash equivalents, cash flows from operating activities and other available financing sources, including the issuance of debt securities by the Operating Partnership, the issuance of secured debt, bank term loans, borrowings under our revolving credit facility, the issuance of equity securities by the Company or the Operating Partnership and the disposition of non-core assets, will be adequate to meet our short-term liquidity requirements.

We had \$31.0 million of cash and cash equivalents as of March 31, 2018. The unused capacity of our revolving credit facility at March 31, 2018 and April 17, 2018 was \$599.5 million and \$427.5 million, respectively, excluding an accordion feature that allows for an additional \$400.0 million of borrowing capacity subject to additional lender commitments.

We have a currently effective automatic shelf registration statement on Form S-3 with the SEC pursuant to which, at any time and from time to time, in one or more offerings on an as-needed basis, the Company may sell an indefinite amount of common

Table of Contents

stock, preferred stock and depositary shares and the Operating Partnership may sell an indefinite amount of debt securities, subject to our ability to effect offerings on satisfactory terms based on prevailing market conditions.

The Company from time to time enters into equity distribution agreements with a variety of firms pursuant to which the Company may offer and sell shares of common stock from time to time through such firms, acting as agents of the Company or as principals. Sales of the shares, if any, may be made by means of ordinary brokers' transactions on the NYSE or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices or as otherwise agreed with any of such firms (which may include block trades).

During 2018, we also expect to sell \$61 million to \$136 million of properties no longer considered to be core assets due to location, age, quality and/or overall strategic fit. We can make no assurance, however, that we will sell any non-core assets or, if we do, what the timing or terms of any such sale will be.

Critical Accounting Estimates

There were no changes made by management to the critical accounting policies in the three months ended March 31, 2018 other than the new revenue recognition standard adoption. For a description of our critical accounting estimates, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates" in our 2017 Annual Report on Form 10-K.

Non-GAAP Information

The Company believes that FFO, FFO available for common stockholders and FFO available for common stockholders per share are beneficial to management and investors and are important indicators of the performance of any equity REIT. Because these FFO calculations exclude such factors as depreciation, amortization and impairments of real estate assets and gains or losses from sales of operating real estate assets, which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful life estimates, they facilitate comparisons of operating performance between periods and between other REITs. Management believes that historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, management believes the use of FFO, FFO available for common stockholders and FFO available for common stockholders per share, together with the required GAAP presentations, provides a more complete understanding of the Company's performance relative to its competitors and a more informed and appropriate basis on which to make decisions involving operating, financing and investing activities.

FFO, FFO available for common stockholders and FFO available for common stockholders per share are non-GAAP financial measures and therefore do not represent net income or net income per share as defined by GAAP. Net income and net income per share as defined by GAAP are the most relevant measures in determining the Company's operating performance because these FFO measures include adjustments that investors may deem subjective, such as adding back expenses such as depreciation, amortization and impairments. Furthermore, FFO available for common stockholders per share does not depict the amount that accrues directly to the stockholders' benefit. Accordingly, FFO, FFO available for common stockholders and FFO available for common stockholders per share should never be considered as alternatives to net income, net income available for common stockholders, or net income available for common stockholders per share as indicators of the Company's operating performance.

The Company's presentation of FFO is consistent with FFO as defined by the National Association of Real Estate Investment Trusts, which is calculated as follows:

Net income/(loss) computed in accordance with GAAP;

Less net income attributable to noncontrolling interests in consolidated affiliates;

Plus depreciation and amortization of depreciable operating properties;

Less gains, or plus losses, from sales of depreciable operating properties, plus impairments on depreciable operating properties and excluding items that are classified as extraordinary items under GAAP;

Plus or minus our share of adjustments, including depreciation and amortization of depreciable operating properties, for unconsolidated joint venture investments (to reflect funds from operations on the same basis); and

Table of Contents

Plus or minus adjustments for depreciation and amortization and gains/(losses) on sales of depreciable operating properties, plus impairments on depreciable operating properties, and noncontrolling interests in consolidated affiliates related to discontinued operations.

In calculating FFO, the Company includes net income attributable to noncontrolling interests in the Operating Partnership, which the Company believes is consistent with standard industry practice for REITs that operate through an UPREIT structure. The Company believes that it is important to present FFO on an as-converted basis since all of the Common Units not owned by the Company are redeemable on a one-for-one basis for shares of its Common Stock.

The following table sets forth the Company's FFO, FFO available for common stockholders and FFO available for common stockholders per share (\$ in thousands, except per share amounts):

	Three Months Ended March 31, 2018		2017
Funds from operations:			
Net income	\$34,246	\$33,485	
Net (income) attributable to noncontrolling interests in consolidated affiliates	(286)	(300)	
Depreciation and amortization of real estate assets	56,835	55,475	
(Gains) on disposition of depreciable properties	—	(5,332)	
Unconsolidated affiliates:			
Depreciation and amortization of real estate assets	511	662	
Funds from operations	91,306	83,990	
Dividends on Preferred Stock	(623)	(623)	
Funds from operations available for common stockholders	\$90,683	\$83,367	
Funds from operations available for common stockholders per share	\$0.85	\$0.80	
Weighted average shares outstanding (1)	106,165	104,661	

(1) Includes assumed conversion of all potentially dilutive Common Stock equivalents.

In addition, the Company believes NOI and same property NOI are useful supplemental measures of the Company's property operating performance because such metrics provide a performance measure of the revenues and expenses directly involved in owning real estate assets and a perspective not immediately apparent from net income or FFO. The Company defines NOI as rental and other revenues less rental property and other expenses. The Company defines cash NOI as NOI less lease termination fees, straight-line rent, amortization of lease incentives and amortization of acquired above and below market leases. Other REITs may use different methodologies to calculate NOI, same property NOI and cash NOI.

As of March 31, 2018, our same property portfolio consisted of 213 in-service properties encompassing 28.6 million rentable square feet that were wholly owned during the entirety of the periods presented (from January 1, 2017 to March 31, 2018). As of December 31, 2017, our same property portfolio consisted of 210 in-service properties encompassing 28.0 million rentable square feet that were wholly owned during the entirety of the periods presented (from January 1, 2016 to December 31, 2017). The change in our same property portfolio was due to the addition of one property encompassing 0.2 million rentable square feet acquired during 2016 and two newly developed properties encompassing 0.3 million rentable square feet placed in service during 2016.

Rental and other revenues related to properties not in our same property portfolio were \$13.2 million and \$6.8 million for the three months ended March 31, 2018 and 2017, respectively. Rental property and other expenses related to properties not in our same property portfolio were \$3.0 million and \$2.7 million for the three months ended March 31, 2018 and 2017, respectively.

Table of Contents

The following table sets forth the Company's NOI and same property NOI:

	Three Months Ended March 31,	
	2018	2017
Income before disposition of investment properties and activity in unconsolidated affiliates	\$33,724	\$27,198
Other income	(455)	(684)
Interest expense	18,391	17,863
General and administrative expenses	11,778	11,490
Depreciation and amortization	57,568	56,145
Net operating income	121,006	112,012
Less – non same property and other net operating income	(10,116)	(4,168)
Same property net operating income	\$110,890	\$107,844
Same property net operating income	\$110,890	\$107,844
Less – lease termination fees, straight-line rent and other non-cash adjustments	(5,030)	(4,949)
Same property cash net operating income	\$105,860	\$102,895

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The effects of potential changes in interest rates are discussed below. Our market risk discussion includes “forward-looking statements” and represents an estimate of possible changes in fair value or future earnings that would occur assuming hypothetical future movements in interest rates. Actual future results may differ materially from those presented. See “Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources” and the Notes to Consolidated Financial Statements for a description of our accounting policies and other information related to these financial instruments.

We borrow funds at a combination of fixed and variable rates. Borrowings under our revolving credit facility and bank term loans bear interest at variable rates. Our long-term debt, which consists of secured and unsecured long-term financings, typically bears interest at fixed rates. Our interest rate risk management objectives are to limit generally the impact of interest rate changes on earnings and cash flows and lower our overall borrowing costs. To achieve these objectives, from time to time we enter into interest rate hedge contracts such as collars, swaps, caps and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. We generally do not hold or issue these derivative contracts for trading or speculative purposes.

At March 31, 2018, we had \$1,488.2 million principal amount of fixed rate debt outstanding, a \$345.7 million increase as compared to December 31, 2017, excluding debt with a variable rate that is effectively fixed by related interest rate hedge contracts. The estimated aggregate fair market value of this debt was \$1,467.7 million. If interest rates had been 100 basis points higher, the aggregate fair market value of our fixed rate debt would have been \$74.7 million lower. If interest rates had been 100 basis points lower, the aggregate fair market value of our fixed rate debt would have been \$81.0 million higher.

At March 31, 2018, we had \$360.0 million of variable rate debt outstanding, a \$245.0 million decrease as compared to December 31, 2017, not protected by interest rate hedge contracts. If the weighted average interest rate on this variable rate debt had been 100 basis points higher, the annual interest expense would increase \$3.6 million. If the weighted average interest rate on this variable rate debt had been 100 basis points lower, the annual interest expense would decrease \$3.6 million.

At March 31, 2018, we had \$275.0 million of variable rate debt outstanding with \$275.0 million of related floating-to-fixed interest rate swaps. These swaps effectively fix the underlying one-month LIBOR rate at a weighted average rate of 1.681%. If the underlying LIBOR interest rates increase or decrease by 100 basis points, the aggregate fair market value of the swaps at March 31, 2018 would increase by \$3.4 million or decrease by \$3.5 million, respectively.

We are exposed to certain losses in the event of nonperformance by the counterparties, which are major financial institutions, under the swaps. We regularly evaluate the financial condition of our counterparties using publicly available information. Based on this review, we currently expect the counterparties to perform fully under the swaps. However, if a counterparty defaults on its obligations under a swap, we could be required to pay the full rates on the applicable debt, even if such rates were in excess of the rate in the contract.

ITEM 4. CONTROLS AND PROCEDURES

SEC rules require us to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our annual and periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management to allow for timely decisions regarding required disclosure. The Company's CEO and CFO have concluded that the disclosure controls and procedures of the Company and the Operating Partnership

were each effective at the end of the period covered by this Quarterly Report.

SEC rules also require us to establish and maintain internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. There were no changes in internal control over financial reporting during the three months ended March 31, 2018 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. There were also no changes in internal control over financial reporting during the three months ended March 31, 2018 that materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Table of Contents

PART II - OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the first quarter of 2018, the Company issued an aggregate of 19,196 shares of Common Stock to holders of Common Units in the Operating Partnership upon the redemption of a like number of Common Units in private offerings exempt from the registration requirements pursuant to Section 4(2) of the Securities Act. Each of the holders of Common Units was an accredited investor under Rule 501 of the Securities Act. The resale of such shares was registered by the Company under the Securities Act.

The following table sets forth information related to shares of Common Stock surrendered by employees to satisfy tax withholding obligations in connection with the vesting of restricted stock during the first quarter of 2018:

	Total Number of Shares Purchased	Weighted Average Price Paid per Share
January 1 to January 31	—	\$ —
February 1 to February 28	—	—
March 1 to March 31	35,896	43.01
Total	35,896	\$ 43.01

Date: April 24, 2018

41
;

The impairment of the medical office buildings reference above mainly resulted from declines in current and projected operating results and cash flows of the properties. (See Note 2.)

The following table summarizes the quantitative inputs and assumptions used for items categorized in Level 3 for the fair value hierarchy as of December 31, 2012. There were no changes in the quantitative inputs and assumptions used for items categorized in Level 3 for the fair hierarchy as of March 31, 2013. The disclosure below excludes information on unobservable inputs that are non-quantitative such as unadjusted prices from recent transactions or third party valuations.

Edgar Filing: HIGHWOODS PROPERTIES INC - Form 10-Q

Asset Category	Fair value at December 31, 2012	Valuation		
		Techniques	Unobservable Inputs	Ranges
Investment in real estate properties				10.7-13.5%
			Discount rate	7.7-10.5%
	\$ 4,799,000	Discounted cash flow	Capitalization rate	
			Vacancy rate	9.41-17.8%
Property under development		Market comparable/ Discounted cash flow	Capitalization rate	9-10%
	674,773			

The carrying amounts of cash and cash equivalents, tenant receivables, payables, and accrued interest are reasonable estimates of fair value because of the short maturities of these instruments. Fair values for notes payable are estimates based on rates currently prevailing for similar instruments of similar maturities.

The following table presents the fair value of other financial instruments. The swaps are measured at fair value on a recurring basis.

	As of December 31		As of March 31	
	2012	2011	2013 (unaudited)	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Notes payable ⁽¹⁾	\$ 84,489,017	\$ 86,982,366	\$ 98,674,263	\$ 91,120,934
Interest rate swaps Liabilities	642,940	642,940	764,994	764,994
			568,559	568,559

Note 6 Derivative Financial Instruments

The Ziegler Funds are exposed to certain risks in the normal course of its business operations. The main risks are those relating to the variability of future earnings and cash flows, which are managed through the use of derivatives. All derivative financial instruments are reported in the balance sheet at fair value.

In particular, interest rate swaps, which are designated as cash flow hedges are used to manage the risk associated with interest rates on variable-rate borrowings.

Generally, the funds enter into hedging relationships such that changes in the fair value or cash flows of items and transactions being hedged are expected to be offset by corresponding changes in the values of the derivatives.

As of December 31, 2012, the Ziegler Funds held swaps to receive variable\pay fixed interest rates swaps with a total notional amount of \$25,609,755, of which \$17,441,821 expires in July 2013, with the remaining amount expiring in May 2016. Gains recognized on the interest rate swaps of \$122,054 were included in the combined statements of operations.

As of December 31, 2011 the Funds held swaps to receive variable\pay fixed interest rates swaps with a total notional amount of \$30,698,023. Losses recognized on the interest rate swaps of \$324,824 were included in the combined statements of operations.

As of March 31, 2013, the Ziegler Funds held swaps to receive variable\pay fixed interest rate swaps with a total notional amount of \$25,478,470, of which \$17,441,821 expires in July 2013, with the remaining amount expiring in May 2016. Gains recognized on the interest rate swaps of \$74,381 were included in the combined statements of operations.

Note 7 Discontinued Operations

During the year ended December 31, 2012, Georgia 13 and Georgia 22 sold their real estate investment property. All income from discontinued operations is attributable to controlling interests.

The following table summarizes operating income and gain on sale of the investment properties, and is included in discontinued operations on the combined statements of operations.

	Year Ended December 31,		Three Months Ended March 31,	
	2012	2011	2013	2012
Rental revenue	\$ 670,185	\$ 1,487,797		\$ 378,901
Other	(2,128)	(6,042)		(5,633)
Total Revenue	668,057	1,481,755		373,268
Operational expenses	(223,949)	(289,200)		(70,035)
Depreciation and amortization	(279,505)	(450,011)		(112,704)
Interest expense*	(362,247)	(561,104)		(160,148)
Change in fair value derivative liability		84,001		
(Loss) income from operations on discontinued investment properties	(197,644)	265,441		30,381
Gain on sale of investment properties	1,519,485			
Total Discontinued Operations	\$ 1,321,841	\$ 265,441		\$ 30,381

* The interest expense is attributable to the mortgage held by the investment property.

Note 8 Sale of Investment Properties

On May 5, 2012, the Ziegler Funds sold the property held by Georgia 22 and on September 27, 2012, the property held by Georgia 13. The carrying value as of the date of sale was \$4,803,153 for Georgia 22 and \$7,534,984 for Georgia 13, respectively. At the time of sale, these properties were included in investment properties and intangible assets on the combined balance sheets.

The following summarizes the cash proceeds received from the sale of the investment properties.

	Georgia-13	Georgia-22
Total consideration received from seller	\$ 9,343,914	\$ 5,400,000
Payment of closing cost	393,249	250,127
Payment of outstanding mortgage balance	6,275,275	3,566,904
Payment of unpaid mortgage interest	22,329	21,496
Cash due to seller	\$ 2,653,061	\$ 1,561,473

Note 9 Operating Leases

The Ziegler Funds are a lessor of medical office buildings. Leases have expirations from 2013 through 2028. As of March 31, 2013 the following summarizes the future minimum rental payments on noncancelable leases:

Year Ending March 31:	
2013	\$ 7,445,898
2014	9,396,732
2015	9,325,460
2016	9,172,061
2017	8,395,049
Thereafter	41,388,058
Total	\$ 85,123,258

Note 10 Related Party Transactions

BCZ charges the Funds an annual management fee equal to 2 percent of the total capital commitments. BCZ carries out the day-to-day management of the Ziegler Funds including origination of investments, investor reporting and accounting. Total management fees charged to the Ziegler Funds were \$950,800 for each of the years ended December 31, 2012 and 2011, and \$237,700 for each of the three months ended March 31, 2013 and 2012. Total other fees charged to the Funds were \$28,275 and \$66,057 for the year ended December 31, 2012 and 2011, respectively, and \$6,996 for the three months ended March 31, 2013 and 2012. The other fees include fees for accounting expenses and other expenses owed to BCZ. As of December 31, 2012 and 2011 management and other fees of \$1,530,007 and \$1,274,136, respectively, and \$1,674,703 as of March 31, 2013, were payable to BCZ and are included in accounts payable to related parties on the combined balance sheets.
