EXPLANATORY NOTE

This report combines the Quarterly Reports on Form 10-Q for the period ended September 30, 2017 of First Industrial Realty Trust, Inc., a Maryland corporation (the "Company"), and First Industrial, L.P., a Delaware limited partnership (the "Operating Partnership"). Unless stated otherwise or the context otherwise requires, the terms "we," "our" and "us" refer to the Company and its subsidiaries, including the Operating Partnership and its consolidated subsidiaries. The Company is a real estate investment trust and the general partner of the Operating Partnership. At September 30, 2017, the Company owned an approximate 96.7% common general partnership interest in the Operating Partnership. The remaining approximate 3.3% common limited partnership interests in the Operating Partnership are owned by certain limited partners. As the sole general partner of the Operating Partnership, the Company exercises exclusive and complete discretion over the Operating Partnership's day-to-day management and control and can cause it to enter into certain major transactions, including acquisitions, dispositions and refinancings. The management of the Company consists of the same members as the management of the Operating Partnership.

The Company and the Operating Partnership are managed and operated as one enterprise. The financial results of the Operating Partnership are consolidated into the financial statements of the Company. The Company has no significant assets other than its investment in the Operating Partnership. Substantially all of the Company's assets are held by, and its operations are conducted through, the Operating Partnership and its subsidiaries. Therefore, the assets and liabilities of the Company and the Operating Partnership are substantially the same.

We believe it is important to understand the differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated, consolidated company. The main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership are:

Stockholders' Equity, Noncontrolling Interest and Partners' Capital. The 3.3% equity interest in the Operating Partnership held by entities other than the Company is classified within partners' capital in the Operating Partnership's financial statements and as a noncontrolling interest in the Company's financial statements.

Relationship to Other Real Estate Partnerships. The Company's operations are conducted primarily through the Operating Partnership and its subsidiaries, although operations are also conducted through eight other limited partnerships, which are referred to as the "Other Real Estate Partnerships." The Operating Partnership is a limited partner, holding at least a 99% interest, and the Company is a general partner, holding at least a .01% general partnership interest through eight separate wholly-owned corporations, in each of the Other Real Estate Partnerships. The Other Real Estate Partnerships are variable interest entities that both the Company and the Operating Partnership consolidate. The Company's direct general partnership interest in the Other Real Estate Partnerships is reflected as noncontrolling interest within the Operating Partnership's financial statements.

Relationship to Service Subsidiary. The Company has a direct wholly-owned subsidiary that does not own any real estate but provides services to various other entities owned by the Company. Since the Operating Partnership does not have an ownership interest in this entity, its operations are reflected in the consolidated results of the Company but not the Operating Partnership. Also, this entity owes certain amounts to the Operating Partnership, for which a receivable is included on the Operating Partnership's balance sheet but is eliminated on the Company's consolidated balance sheet, since both this entity and the Operating Partnership are fully consolidated by the Company.

We believe combining the Company's and Operating Partnership's quarterly reports into this single report results in the following benefits:

- enhances investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management views and operates the business;
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports; and
- eliminates duplicative disclosures and provides a more streamlined and readable presentation for our investors to review since a substantial portion of the Company's disclosure applies to both the Company and the Operating Partnership.

To help investors understand the differences between the Company and the Operating Partnership, this report provides the following separate disclosures for each of the Company and the Operating Partnership:

- consolidated financial statements;

a single set of consolidated notes to such financial statements that includes separate discussions of each entity's stockholders' equity or partners' capital, as applicable; and
a combined Management's Discussion and Analysis of Financial Condition and Results of Operations section that includes distinct information related to each entity.

This report also includes separate Part I, Item 4, Controls and Procedures sections and separate Exhibit 31 and 32 certifications for the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are both compliant with Rule 13a-15 and Rule 15d-15 of the Securities Exchange Act of 1934, as amended, and 18 U.S.C. §1350.

FIRST INDUSTRIAL REALTY TRUST, INC. AND FIRST INDUSTRIAL, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited; dollars in thousands, except per share and Unit data)

1. Organization

First Industrial Realty Trust, Inc. (the "Company") is a self-administered and fully integrated real estate company which owns, manages, acquires, sells, develops and redevelops industrial real estate. The Company is a Maryland corporation organized on August 10, 1993 and a real estate investment trust ("REIT") as defined in the Internal Revenue Code of 1986. Unless stated otherwise or the context otherwise requires, the terms "we," "our" and "us" refer to the Company and its subsidiaries, including its operating partnership, First Industrial, L.P. (the "Operating Partnership"), and its consolidated subsidiaries.

We began operations on July 1, 1994. The Company's operations are conducted primarily through the Operating Partnership, of which the Company is the sole general partner (the "General Partner"), with an approximate 96.7% ownership interest ("General Partner Units") at September 30, 2017. The Operating Partnership also conducts operations through eight other limited partnerships (the "Other Real Estate Partnerships"), numerous limited liability companies ("LLCs") and certain taxable REIT subsidiaries ("TRSs"), the operating data of which, together with that of the Operating Partnership, is consolidated with that of the Company as presented herein. The Operating Partnership holds at least a 99% limited partnership interest in each of the Other Real Estate Partnerships. The general partners of the Other Real Estate Partnerships are separate corporations, wholly-owned by the Company, each with at least a .01% general partnership interest in the Other Real Estate Partnerships. The Company does not have any significant assets or liabilities other than its investment in the Operating Partnership and its 100% ownership interest in the general partners of the Other Real Estate Partnerships. Noncontrolling interest in the Operating Partnership of approximately 3.3% at September 30, 2017 represents the aggregate partnership interest held by the limited partners thereof ("Limited Partner Units" and together with the General Partner Units, the "Units").

Profits, losses and distributions of the Operating Partnership, the LLCs, the Other Real Estate Partnerships and the TRSs are allocated to the general partner and the limited partners, the members or the shareholders, as applicable, of such entities in accordance with the provisions contained within their respective organizational documents.

As of September 30, 2017, we owned 516 industrial properties located in 22 states, containing an aggregate of approximately 62.8 million square feet of gross leasable area ("GLA"). Of the 516 properties owned on a consolidated basis, none of them are directly owned by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with the accounting policies described in the consolidated financial statements and related notes included in our annual report on Form 10-K for the year ended December 31, 2016 ("2016 Form 10-K") and should be read in conjunction with such consolidated financial statements and related notes. The 2016 year end consolidated balance sheet data included in this Form 10-Q filing was derived from the audited consolidated financial statements in our 2016 Form 10-K, but does not include all disclosures required by accounting principles generally accepted in the United States of America ("GAAP"). The following notes to these interim consolidated financial statements highlight significant changes to the notes included in the December 31, 2016 audited consolidated financial statements included in our 2016 Form 10-K and present interim disclosures as required by the Securities and Exchange Commission.

Use of Estimates

In order to conform with GAAP, in preparation of our consolidated financial statements we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of September 30, 2017 and December 31, 2016, and the reported amounts of revenues and expenses for the three and nine months ended September 30, 2017 and 2016. Actual results could differ from those estimates. In our opinion, the accompanying unaudited interim consolidated financial statements reflect all adjustments necessary for a fair statement of our financial position as of September 30, 2017 and December 31, 2016, the results of our operations and comprehensive income for each of the three and nine months ended September 30, 2017 and 2016, and our cash flows for each of the nine months ended September 30, 2017 and 2016. All adjustments are of a normal

recurring nature.

Investment in Real Estate and Depreciation

Effective January 1, 2017, we adopted Accounting Standards Update ("ASU") No. 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business" ("ASU 2017-01"). ASU 2017-01 clarifies the framework for determining whether an integrated set of assets and activities meets the definition of a business. The revised framework establishes a screen for determining whether an integrated set of assets and activities is a business and narrows the definition of a business, which is expected to result in fewer transactions being accounted for as business combinations. Acquisitions of integrated sets of assets and activities that do not meet the definition of a business are accounted for as asset acquisitions. We applied ASU 2017-01 prospectively. We anticipate that our acquisitions of real estate in the future will generally not meet the definition of a business combination and, accordingly; transaction costs which have historically been expensed will be capitalized as part of the basis of the real estate assets acquired.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASU 2014-09"). ASU 2014-09 requires entities to recognize revenue when they transfer promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for annual periods beginning after December 15, 2017. We will adopt the new standard effective January 1, 2018 and expect to utilize the modified retrospective approach upon adoption. While lease contracts with customers, which constitute a vast majority of our revenues, are a specific scope exception, certain of our revenue streams may be impacted by the new guidance, however we do not believe there will be a material financial statement impact or that our pattern of revenue recognition will be materially impacted by the adoption of ASU 2014-09.

In February 2016, the Financial Accounting Standards Board (the "FASB") issued ASU No. 2016-02, "Leases" ("ASU 2016-02"), which amends the existing accounting standards for lease accounting and sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract. Under ASU 2016-02, lessees will be required to record a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term and a lease liability, which is a lessee's right to use, or control the use of, a specified asset for the lease term. We are a lessee on certain ground and operating leases as disclosed in Note 14 to the consolidated financial statements in our 2016 Form 10-K. While we expect to record a right-of-use asset and lease liability upon adoption of this standard, we anticipate the impact will not be material to our overall financial condition and results of operations. We are the lessor on a significant number of leases, however, we believe that ASU 2016-02 will have minimal impact to our financial condition or results of operations as leases where we are the lessor will continue to be accounted for as operating leases. The most significant changes ASU 2016-02 will have to lessor accounting will be the requirement that lessors expense certain initial direct costs that are not incremental in negotiating a lease as incurred as well bifurcating lease generated revenue into lease and non-lease components. ASU 2016-02 requires the use of a modified retrospective approach for all leases existing at, or entered into after, the beginning of the earliest period presented in the consolidated financial statements, with certain practical expedients available. If practical expedients are elected, we would not be required to reassess (1) whether an expired or existing contract meets the definition of a lease; (2) the lease classification for expired or existing leases; and (3) whether costs previously capitalized as initial direct costs would continue to be amortized. We are continuing the process of evaluating and quantifying the effect that ASU 2016-02 will have on our consolidated financial statements and related disclosures. We will adopt ASU 2016-02 on January 1, 2019 and anticipate electing the practical expedients.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments" ("ASU 2016-15"). ASU 2016-15 addresses eight specific cash flow issues and intends to reduce the diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for annual periods beginning after December 15, 2017 with retrospective application required. We expect ASU 2016-15 to impact the presentation of our consolidated statement of cash flows and we will adopt ASU 2016-15 on January 1, 2018.

In November 2016, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash" ("ASU 2016-18"). ASU 2016-18 requires that the statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash and restricted cash equivalents when

reconciling the beginning- of-period and end-of-period total amounts shown on the statement of cash flows. ASU 2016-18 is effective for annual periods beginning after December 15, 2017. We expect ASU 2016-18 to impact the presentation of our consolidated statement of cash flows and we will adopt ASU 2016-18 on January 1, 2018.

In August 2017, the FASB issued ASU 2017-12, “Derivatives and Hedging (Topic 815): Targeting Improvements to Accounting for Hedging Activities” (“ASU 2017-12”). ASU 2017-12 is intended to better align financial reporting for hedging activities with the economic objectives of those activities. As a result of the transition guidance, cumulative ineffectiveness that has been previously recognized on cash flow and net investment hedges that are still outstanding and designated as of the date of adoption will be adjusted and removed from beginning retained earnings and placed in accumulated other comprehensive income. ASU 2017-12 is effective for annual periods beginning after December 15, 2018. We continue to assess all the potential impacts of ASU 2017-12, however, we do not expect the adoption to have a material impact on our financial condition or results of operations.

3. Investment in Real Estate

REIT Acquisition

On August 15, 2017, via a stock purchase agreement, we acquired a private real estate investment trust that owns one industrial property consisting of 0.2 million square feet of GLA from a third party seller in exchange for \$20,962, exclusive of closing costs and credits (“REIT Acquisition”). As part of the REIT Acquisition, we acquired 100% of the private REIT’s common stock.

Acquisitions

During the nine months ended September 30, 2017, we acquired six industrial properties comprised of approximately 0.9 million square feet of GLA (inclusive of the REIT Acquisition) and several land parcels. The following table summarizes the amounts recognized for each major class of asset and liability for the industrial properties and land parcels acquired during the nine months ended September 30, 2017:

	Purchase Price	Weighted Average Life (in Months)
Land	\$90,429	N/A
Building and Improvements	61,973	(A)
Other Assets	1,195	(B)
In-Place Leases	6,670	70
Above Market Leases	127	34
Below Market Leases	(1,420)	85
Total Purchase Price (C)	\$158,974	

(A) See Note 2 to the consolidated financial statements in our 2016 Form 10-K for the disclosure of useful lives of our Investment in Real Estate and our Depreciation policy.

(B) Represents leasing commissions, which are included in prepaid expenses and other assets, net on the consolidated balance sheets and amortized over the remaining term of each lease.

(C) Excludes costs incurred in conjunction with the acquisition of the industrial properties and land parcels. The revenue and net income associated with the acquisition of the industrial properties, since their respective acquisition dates, are not significant for the nine months ended September 30, 2017.

Real Estate Held for Sale

As of September 30, 2017, we had eight industrial properties comprised of approximately 1.1 million square feet of GLA and one land parcel held for sale.

Sales

During the nine months ended September 30, 2017, we sold 30 industrial properties comprised of approximately 1.9 million square feet of GLA. Gross proceeds from the sales of these industrial properties were \$99,279. The gain on sale of real estate was \$52,140.

4. Indebtedness

(A) The interest rate at September 30, 2017 reflects the interest rate protection agreements we entered into to effectively convert the variable rate to a fixed rate. See Note 10.

(B) The maturity date may be extended an additional year at our election, subject to certain restrictions. Amounts exclude unamortized deferred financing costs of \$1,881 and \$2,876 as of September 30, 2017 and December 31, 2016, respectively, which are included in prepaid expenses and other assets on the consolidated balance sheets.

Mortgage Loans Payable, Net

During the nine months ended September 30, 2017, we paid off mortgage loans in the amount of \$36,108. In connection with the mortgage loans paid off during the nine months ended September 30, 2017, we recognized \$1,653 as loss from retirement of debt representing prepayment penalties and the write-off of unamortized deferred financing costs.

As of September 30, 2017, mortgage loans payable are collateralized, and in some instances cross-collateralized, by industrial properties with a net carrying value of \$580,202. We believe the Operating Partnership and the Company were in compliance with all covenants relating to mortgage loans as of September 30, 2017.

Senior Unsecured Notes, Net

During the nine months ended September 30, 2017, the Operating Partnership issued \$125,000 of 4.30% Series A Guaranteed Senior Notes due April 20, 2027 (the "2027 Private Placement Notes") and \$75,000 of 4.40% Series B Guaranteed Senior Notes due April 20, 2029 (the "2029 Private Placement Notes") (collectively, the "Private Placement Notes") in a private placement pursuant to a Note and Guaranty Agreement dated February 21, 2017. The 2027 Private Placement Notes and the 2029 Private Placement Notes are unsecured obligations of the Operating Partnership that are fully and unconditionally guaranteed by the Company and require semi-annual interest payments. Additionally, during the nine months ended September 30, 2017, we paid off and retired our 2017 II Notes (as described in the table above), at maturity in the amount of \$101,871.

Indebtedness

The following is a schedule of the stated maturities and scheduled principal payments of our indebtedness, exclusive of premiums, discounts and deferred financing costs, for the next five years as of September 30, and thereafter:

	Amount
Remainder of 2017	\$57,662
2018	165,449
2019	236,329
2020	58,762
2021	266,818
Thereafter	589,815
Total	\$1,374,835

Our unsecured credit facility (the "Unsecured Credit Facility"), the Unsecured Term Loans (as defined in Note 10), the Private Placement Notes and the indentures governing our senior unsecured notes contain certain financial covenants, including limitations on incurrence of debt and debt service coverage. Under the Unsecured Credit Facility and the Unsecured Term Loans an event of default can occur if the lenders, in their good faith judgment, determine that a material adverse change has occurred which could prevent timely repayment or materially impair our ability to perform our obligations under the loan agreements. We believe that the Operating Partnership and the Company were in compliance with all covenants relating to the Unsecured Credit Facility, the Unsecured Term Loans, the Private Placement Notes and indentures governing our senior unsecured notes as of September 30, 2017. However, these financial covenants are complex and there can be no assurance that these provisions would not be interpreted by our lenders and noteholders in a manner that could impose and cause us to incur material costs.

Fair Value

At September 30, 2017 and December 31, 2016, the fair value of our indebtedness was as follows:

	September 30, 2017		December 31, 2016	
	Carrying Amount (A)	Fair Value	Carrying Amount (A)	Fair Value
Mortgage Loans Payable, Net	\$454,584	\$466,999	\$498,861	\$513,540
Senior Unsecured Notes, Net	303,466	325,580	205,318	222,469
Unsecured Term Loans	460,000	468,089	460,000	458,602
Unsecured Credit Facility	157,000	157,116	189,500	189,500
Total	\$1,375,050	\$1,417,784	\$1,353,679	\$1,384,111

(A) The carrying amounts include unamortized premiums and discounts and exclude unamortized deferred financing costs.

The fair values of our mortgage loans payable were determined by discounting the future cash flows using the current rates at which similar loans would be made based upon similar remaining maturities. The current market rates we utilized were internally estimated. The fair value of the senior unsecured notes were determined by using rates, as advised by our bankers, that are based upon recent trades within the same series of the senior unsecured notes, recent trades for senior unsecured notes with comparable maturities, recent trades for fixed rate unsecured notes from companies with profiles similar to ours, as well as overall economic conditions. The fair value of the Unsecured Credit Facility and the Unsecured Term Loans was determined by discounting the future cash flows using current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining term, assuming no repayment until maturity. We have concluded that our determination of fair value for each of our mortgage loans payable, senior unsecured notes, the Unsecured Term Loans and the Unsecured Credit Facility was primarily based upon Level 3 inputs.

5. Variable Interest Entities

The Other Real Estate Partnerships are variable interest entities ("VIEs") of the Operating Partnership and the Operating Partnership is the primary beneficiary, thus causing the Other Real Estate Partnerships to be consolidated by the Operating Partnership. In addition, the Operating Partnership is a VIE of the Company and the Company is the primary beneficiary.

The following table summarizes the assets and liabilities of the Other Real Estate Partnerships included in our consolidated balance sheets, net of intercompany amounts:

	September 30, 2017	December 31, 2016
ASSETS		
Assets:		
Net Investment in Real Estate	\$ 279,626	\$ 278,398

Total Liabilities and Partners' Capital	\$ 303,602	\$ 302,799

6. Stockholders' Equity of the Company and Partners' Capital of the Operating Partnership

Issuance of Shares of Common Stock

During the nine months ended September 30, 2017, the Company issued 2,560,000 shares of the Company's common stock in an underwritten public offering. Proceeds to the Company, net of the underwriter's discount, were \$74,880. The proceeds were contributed to the Operating Partnership in exchange for General Partner Units and are reflected in the financial statements as a general partner contribution.

Increased Authorized Shares of Common Stock

On May 11, 2017, we filed an amendment to the Company's articles of incorporation, increasing the number of shares of the Company's common stock authorized for issuance from 150 million to 225 million shares.

Noncontrolling Interest of the Company

The following table summarizes the changes in noncontrolling interest for the Company for the nine months ended September 30, 2017 and 2016:

	2017	2016
Balance as of December 31	\$43,184	\$42,035
Net Income	3,531	3,635
Unit Distributions	(2,544)	(2,436)
Other Comprehensive Income	51	(449)
Conversion of Limited Partner Units to Common Stock (A)	(39)	(819)
Reallocation - Additional Paid-in-Capital	1,569	2,489
Reallocation - Other Comprehensive Income	3	—
Balance as of September 30	\$45,755	\$44,455

(A) For the nine months ended September 30, 2017 and 2016, 3,437 and 76,674 Limited Partner Units, respectively, were converted into an equivalent number of shares of common stock of the Company, resulting in a reclassification of \$39 and \$819, respectively, of noncontrolling interest to the Company's stockholders' equity.

Noncontrolling Interest of the Operating Partnership

The following table summarizes the changes in noncontrolling interest for the Operating Partnership for the nine months ended September 30, 2017 and 2016:

	2017	2016
Balance as of December 31	\$956	\$1,096
Net Income	96	112
Contributions	29	114
Distributions	(284)	(264)
Balance as of September 30	\$797	\$1,058

Dividends/Distributions

During the nine months ended September 30, 2017, we declared \$77,923 common stock dividends and Unit distributions.

7. Accumulated Other Comprehensive Loss

The following table summarizes the changes in accumulated other comprehensive loss by component for the Company and the Operating Partnership for the nine months ended September 30, 2017:

	Interest Rate Protection Agreements	Accumulated Other Comprehensive Loss of the Operating Partnership	Comprehensive Loss Attributable to Noncontrolling Interest of the Company	Accumulated Other Comprehensive Loss of the Company
Balance as of December 31, 2016	\$ (4,804)	\$ (4,804)	\$ 161	(4,643)
Other Comprehensive Income Before Reclassifications	(2,122)	(2,122)	(54)	(2,176)
Amounts Reclassified from Accumulated Other Comprehensive Loss	3,666	3,666	—	3,666
Net Current Period Other Comprehensive Income	1,544	1,544	(54)	1,490
Balance as of September 30, 2017	\$ (3,260)	\$ (3,260)	\$ 107	\$ (3,153)

The following table summarizes the reclassifications out of accumulated other comprehensive loss for both the Company and the Operating Partnership for the nine months ended September 30, 2017 and 2016:

Details about Accumulated Other Comprehensive Loss Components	Amounts Reclassified from Accumulated Other Comprehensive Loss				Affected Line Items in the Consolidated Statements of Operations
	Three Months Ended September 30, 2017	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2017	Nine Months Ended September 30, 2016	
Interest Rate Protection Agreements:					
Amortization of Interest Rate Protection Agreements (Previously Settled)	\$24	\$ 96	\$ 180	\$ 294	Interest Expense
Settlement Payments to our Counterparties	912	1,774	3,486	5,425	Interest Expense
Total	\$936	\$ 1,870	\$ 3,666	\$ 5,719	

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in other comprehensive income (loss) and is subsequently reclassified to earnings through interest expense over the life of the derivative or over the life of the debt. In the next 12 months, we expect to amortize approximately \$95 into net income by increasing interest expense for interest rate protection agreements we settled in previous periods. Additionally, recurring settlement amounts on the 2014 Swaps and 2015 Swaps (as defined in Note 10) will also be reclassified to net income. See Note 10 for more information about our derivatives.

Participating securities include 401,217 and 406,855 of unvested restricted stock or restricted Unit awards outstanding at September 30, 2017 and 2016, respectively, which participate in non-forfeitable distributions. Under the two class method, participating security holders are allocated income, in proportion to total weighted average shares or Units outstanding, based upon the greater of net income or common stock dividends or Unit distributions declared.

9. Benefit Plans

Restricted Stock or Restricted Unit Awards

For the nine months ended September 30, 2017, the Company awarded 252,213 shares of restricted stock awards to certain employees, which had an aggregate fair value of \$6,631 on the date such awards were approved by the Compensation Committee of the Board of Directors. These restricted stock awards were granted based upon the achievement of certain corporate performance goals and generally vest over a period of three years. Additionally, during the nine months ended September 30, 2017, the Company awarded 15,108 shares of restricted stock to non-employee members of the Board of Directors, which had an aggregate fair value of \$420 on the date of approval. These restricted stock awards vest over a one-year period. The Operating Partnership issued restricted Unit awards to the Company in the same amount for both restricted stock awards.

Compensation expense is charged to earnings over the vesting periods for the restricted stock or restricted Unit awards expected to vest except if the recipient is not required to provide future service in exchange for vesting of such restricted stock or restricted Unit awards. If vesting of a recipient's restricted stock or restricted Unit awards is not contingent upon future service, the expense is recognized immediately at the date of grant. During both the nine months ended September 30, 2017 and 2016, we recognized \$1,590 of compensation expense related to restricted stock or restricted Unit awards granted to our former Chief Executive Officer for which future service was not required.

LTIP Unit Awards

For the nine months ended September 30, 2017, the Company granted to certain employees 195,951 Long-Term Incentive Program ("LTIP") performance units ("LTIP Unit Awards"), which had a fair value of \$2,473 on the grant date as determined by a lattice-binomial option-pricing model based on a Monte Carlo simulation. The LTIP Unit Awards vest based upon the relative total shareholder return ("TSR") of the Company's common stock compared to the TSRs of the MSCI US REIT Index and the NAREIT Industrial Index over a performance period of three years. Compensation expense is charged to earnings on a straight-line basis over the performance period. At the end of the performance period each participant will be issued shares of the Company's common stock equal to the maximum shares issuable to the participant for the performance period multiplied by a percentage, ranging from 0% to 100%, based on the Company's TSR as compared to the TSRs of the MSCI US REIT Index and the NAREIT Industrial Index. The Operating Partnership issues General Partner Units to the Company in the same amounts for vested LTIP Unit Awards.

Outstanding Restricted Stock or Restricted Unit Awards and LTIP Unit Awards

We recognized \$1,844 and \$1,428 for the three months ended September 30, 2017 and 2016, respectively and \$6,767 and \$5,898 for the nine months ended September 30, 2017 and 2016 respectively, in amortization related to restricted stock or restricted Unit awards and LTIP Unit Awards. Restricted stock or restricted Unit award and LTIP Unit Award amortization capitalized in connection with development activities was not significant. At September 30, 2017, we had \$9,629 in unrecognized compensation related to unvested restricted stock or restricted Unit awards and LTIP Unit Awards. The weighted average period that the unrecognized compensation is expected to be recognized is 0.94 years.

10. Derivatives

Our objectives in using derivatives are to add stability to interest expense and to manage our cash flow volatility and exposure to interest rate movements. To accomplish this objective, we primarily use interest rate protection agreements as part of our interest rate risk management strategy. Interest rate protection agreements designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

Our agreements with our derivative counterparties contain provisions whereby a default on any of our indebtedness, could cause us to be declared in default on our derivative obligations subject to certain thresholds. As of September 30, 2017, we had not posted any collateral related to these agreements and were not in breach of any of the provisions of these agreements. If we had breached these agreements, we could have been required to settle our obligations under the agreements at their termination value.

Fair Value Hedges

In connection with the originations of the seven-year, \$200,000 unsecured loan (the "2014 Unsecured Term Loan") and the seven-year, \$260,000 unsecured loan (the "2015 Unsecured Term Loan" and together with the 2014 Unsecured Term Loan, the "Unsecured Term Loans") (See Note 4) , we entered into interest rate protection agreements to manage our exposure to changes in the one month LIBOR rate. The four interest rate protection agreements, which fix the variable rate of the 2014 Unsecured Term Loan, have an aggregate notional value of \$200,000, mature on January 29, 2021 and fix the LIBOR rate at a weighted average rate of 2.29% (the "2014 Swaps"). The six interest rate protection agreements, which fix the variable rate of the 2015 Unsecured Term Loan, have an aggregate notional value of \$260,000, mature on September 12, 2022 and fix the LIBOR rate at a weighted average rate of 1.79% (the "2015 Swaps"). We designated the 2014 Swaps and 2015 Swaps as cash flow hedges.

Derivative Instruments Not Designated for Hedge Accounting Treatment

In September 2017, we entered into two interest rate protection agreements (the "Treasury Locks"), with an aggregate notional value of \$100,000, in order to fix the interest rate on an anticipated unsecured debt offering. The Treasury Locks fix the ten year U.S. Treasury rate at a weighted average rate of approximately 2.18% and are required to be cash settled by March 2, 2018. Due to the strict requirements surrounding the application of hedge accounting, we elected not to designate the Treasury Locks as hedges. As such, the full change in the fair value of the Treasury Locks during the third quarter is recorded as a mark-to-market gain on interest rate protection agreements within the income statement as opposed to being recorded in other comprehensive income. For the three months ended September 30, 2017, we recognized \$1,848 in mark-to-market gain on interest rate protection agreements related to the Treasury Locks.

The following table sets forth our financial assets and liabilities related to the 2015 Swaps and the Treasury Locks, which are included in prepaid expenses and other assets on the consolidated balance sheets, and the 2014 Swaps, which are included in accounts payable, accrued expenses and other liabilities on the consolidated balance sheets, and all of which are accounted for at fair value on a recurring basis as of September 30, 2017:

Description	Fair Value	Fair Value Measurements at Reporting Date Using:	
		Quoted Prices in Active Significant Markets for Identical Assets (Level 1)	Unobservable Inputs (Level 3)
Derivatives designated as a hedging instrument:			
Assets:			
2015 Swaps	\$ 1,174	—\$ 1,174	—
Liabilities:			
2014 Swaps	\$ (3,405)	—\$ (3,405)	—

Derivatives not designated as a hedging instrument:

Assets:			
Treasury Locks	\$ 1,848	—\$ 1,848	—

There was no ineffectiveness recorded on the 2014 Swaps and 2015 Swaps during the nine months ended September 30, 2016. See Note 7 for more information regarding our derivatives.

The estimated fair value of the 2014 Swaps, 2015 Swaps and the Treasury Locks was determined using the market standard methodology of netting the discounted fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of interest rates (forward curves) derived from

observable market interest rate curves. In addition, credit valuation adjustments are incorporated in the fair value to account for potential non-performance risk, including our own non-performance risk and the respective counterparty's non-performance risk. We determined that the significant inputs used to value the 2014 Swaps, the 2015 Swaps and the Treasury Locks fell within Level 2 of the fair value hierarchy.

11. Related Party Transactions

At September 30, 2017 and December 31, 2016, the Operating Partnership had receivable balances of \$10,194 and \$10,448, respectively, from a direct wholly-owned subsidiary of the Company.

12. Commitments and Contingencies

In the normal course of business, we are involved in legal actions arising from the ownership of our industrial properties. In our opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on our consolidated financial position, operations or liquidity.

In conjunction with the development of industrial properties, we have entered into agreements with general contractors for the construction of industrial properties. At September 30, 2017, we had nine industrial properties totaling approximately 2.7 million square feet of GLA under construction. The estimated total investment as of September 30, 2017 is approximately \$192,600. Of this amount, approximately \$120,900 remains to be funded. There can be no assurance that the actual completion cost will not exceed the estimated total investment.

During the year ended December 31, 2016, a fire significantly destroyed one industrial property totaling approximately 0.03 million square feet of GLA located in San Diego, California (the "2016 Fire"). In a separate event, on April 3, 2017, a fire caused significant damage to one industrial property totaling approximately 0.08 million square feet of GLA located in Los Angeles, California (the "2017 Fire"). During the respective periods in which the fires occurred, we wrote off the unamortized net book value of the building improvements for the damaged portions of the industrial properties and recorded a receivable from our insurance company for the amount of the write off, less our \$25 deductible per occurrence. As of September 30, 2017, we have an aggregate receivable outstanding from the insurance company for both the 2016 Fire and the 2017 Fire of \$8,830. While we believe the damages incurred due to the 2016 Fire and 2017 Fire are fully insured and reimbursable in accordance with our insurance policies, subject to the deductibles, there can be no assurance that the cost to repair the damages will be collected.

13. Subsequent Events

From October 1, 2017 to October 26, 2017, we sold nine industrial properties for approximately \$54,075.

From October 1, 2017 to October 26, 2017, we acquired one industrial property for a purchase price of approximately \$8,235, excluding costs and credits incurred in conjunction with the acquisition of the property.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this Form 10-Q. Unless stated otherwise or the context otherwise requires, the terms "we," "our" and "us" refer to First Industrial Realty Trust, Inc. (the "Company") and its subsidiaries, including First Industrial, L.P. (the "Operating Partnership") and its consolidated subsidiaries.

Forward-Looking Statements

The following discussion may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). We intend for such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on certain assumptions and describe our future plans, strategies and expectations, and are generally identifiable by use of the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "project," "seek," "target," "potential," "focus," "may," "will," "should" or similar words. Although we believe the expectations reflected in forward-looking statements are based upon reasonable assumptions, we can give no assurance that our expectations will be attained or that results will not materially differ. Factors which could have a materially adverse effect on our operations and future prospects include, but are not limited to:

- changes in national, international, regional and local economic conditions generally and real estate markets specifically;
- changes in legislation/regulation (including changes to laws governing the taxation of real estate investment trusts) and actions of regulatory authorities;
- our ability to qualify and maintain our status as a real estate investment trust;
- the availability and attractiveness of financing (including both public and private capital) and changes in interest rates;
- the availability and attractiveness of terms of additional debt repurchases;
- changes in our credit agency ratings;
- our ability to comply with applicable financial covenants;
- our competitive environment;
- changes in supply, demand and valuation of industrial properties and land in our current and potential market areas;
- difficulties in identifying and consummating acquisitions and dispositions;
- our ability to manage the integration of properties we acquire;
- potential liability relating to environmental matters;
- defaults on or non-renewal of leases by our tenants;
- decreased rental rates or increased vacancy rates;
- higher-than-expected real estate construction costs and delays in development or lease-up schedules;
- changes in general accounting principles, policies and guidelines applicable to real estate investment trusts; and
- other risks and uncertainties described in this report, in Item 1A, "Risk Factors" and elsewhere in our annual report on Form 10-K for the year ended December 31, 2016 as well as those risks and uncertainties discussed from time to time in our other Exchange Act reports and in our other public filings with the Securities and Exchange Commission (the "SEC").

We caution you not to place undue reliance on forward-looking statements, which reflect our outlook only and speak only as of the date of this report. We assume no obligation to update or supplement forward-looking statements.

General

The Company is a self-administered and fully integrated real estate company which owns, manages, acquires, sells, develops and redevelops industrial real estate. The Company is a Maryland corporation organized on August 10, 1993 and a real estate investment trust ("REIT") as defined in the Internal Revenue Code of 1986 (the "Code").

We began operations on July 1, 1994. The Company's operations are conducted primarily through the Operating Partnership, of which the Company is the sole general partner (the "General Partner"), with an approximate 96.7% ownership interest ("General Partner Units") at September 30, 2017. The Operating Partnership also conducts operations through eight other limited partnerships (the "Other Real Estate Partnerships"), numerous limited liability companies ("LLCs") and certain taxable REIT subsidiaries ("TRSs"), the operating data of which, together with that of the Operating Partnership, is consolidated with that of the Company as presented herein. The Operating Partnership holds at least a 99% limited partnership interest in each of Other Real Estate Partnerships. The general partners of the Other Real Estate Partnerships are separate corporations, wholly-owned by the Company, each with at least a .01% general partnership interest in the Other Real Estate Partnerships. The Company does not have any significant assets or liabilities other than its investment in the Operating Partnership and its 100% ownership interest in the general partners of the Other Real Estate Partnerships. Noncontrolling interest in the Operating Partnership of approximately 3.3% at September 30, 2017 represents the aggregate partnership interest held by the limited partners thereof ("Limited Partner Units" and together with the General Partner Units, the "Units").

Profits, losses and distributions of the Operating Partnership, the LLCs, the Other Real Estate Partnerships and the TRSs are allocated to the general partner and the limited partners, the members or the shareholders, as applicable, of such entities in accordance with the provisions contained within their respective organizational documents.

As of September 30, 2017, we owned 516 industrial properties located in 22 states, containing an aggregate of approximately 62.8 million square feet of gross leasable area ("GLA"). Of the 516 properties owned on a consolidated basis, none of them are directly owned by the Company.

Management's Overview

We believe our financial condition and results of operations are, primarily, a function of our performance in four key areas: leasing of industrial properties, acquisition and development of additional industrial properties, disposition of industrial properties and access to external capital.

We generate revenue primarily from rental income and tenant recoveries from operating leases of our industrial properties. Such revenue is offset by certain property specific operating expenses, such as real estate taxes, repairs and maintenance, property management, utilities and insurance expenses, along with certain other costs and expenses, such as depreciation and amortization costs and general and administrative and interest expenses. Our revenue growth is dependent, in part, on our ability to: (i) increase rental income, through increasing either or both occupancy rates and rental rates at our properties; (ii) maximize tenant recoveries; and (iii) minimize operating and certain other expenses. Revenues generated from rental income and tenant recoveries are a significant source of funds, in addition to income generated from gains on the sale of our properties (as discussed below), for our liquidity. The leasing of property, in general, and occupancy rates, rental rates, operating expenses and certain non-operating expenses, in particular, are impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond our control. The leasing of property also entails various risks, including the risk of tenant default. If we were unable to maintain or increase occupancy rates and rental rates at our properties or to maintain tenant recoveries and operating and certain other expenses consistent with historical levels and proportions, our revenue would decline. Further, if a significant number of our tenants were unable to pay rent (including tenant recoveries) or if we were unable to rent our properties on favorable terms, our financial condition, results of operations, cash flow and ability to make distributions to our stockholders and Unitholders, the market price of the Company's common stock and the market value of the Units would be adversely affected.

Our revenue growth is also dependent, in part, on our ability to acquire existing, and develop new industrial properties on favorable terms. We seek to identify opportunities to acquire existing industrial properties on favorable terms, and, when conditions permit, also seek to acquire and develop new industrial properties on favorable terms. Existing properties, as they are acquired, and acquired and developed properties, as they are leased, generate revenue from rental income, tenant recoveries and fees, which, as discussed above, are sources of funds for our distributions to our stockholders and Unitholders. The acquisition and development of properties is impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond our control. The acquisition and development of properties also entails various risks, including the risk that our investments may not perform as expected. For example, acquired existing and acquired and developed new properties may not sustain and/or achieve anticipated occupancy and rental rate levels. With respect to acquired and developed new properties, we may not be able to complete construction on schedule or within budget, resulting in increased debt service expense and construction costs and delays in leasing the properties. Also, we face significant competition for attractive acquisition and development opportunities from other well-capitalized real estate investors, including publicly-traded REITs and private investors. Further, as discussed below, we may not be able to finance the acquisition and development opportunities we identify. If we were unable to acquire and develop sufficient additional properties on favorable terms, or if such investments did not perform as expected, our revenue growth would be limited and our financial condition, results of operations, cash flow and ability to make distributions to our stockholders and Unitholders, the market price of the Company's common stock and the market value of the Units would be adversely affected.

We also generate income from the sale of our properties (including existing buildings, buildings which we have developed or re-developed on a merchant basis and land). The gain or loss on, and fees from, the sale of such properties are included in our income and can be a significant source of funds, in addition to revenues generated from rental income and tenant recoveries. Proceeds from sales are used to repay outstanding debt and, market conditions permitting, may be used to fund the acquisition of existing industrial properties, and the acquisition and development of new industrial properties. The sale of properties is impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond our control. The sale of properties also entails various risks, including competition from other sellers and the availability of attractive financing for potential buyers of our properties. Further, our ability to sell properties is limited by safe harbor rules applying to REITs under the

Code which relate to the number of properties that may be disposed of in a year, their tax bases and the cost of improvements made to the properties, along with other tests which enable a REIT to avoid punitive taxation on the sale of assets. If we are unable to sell properties on favorable terms, our income growth would be limited and our financial condition, results of operations, cash flow and ability to make distributions to our stockholders and Unitholders, the market price of the Company's common stock and the market value of the Units could be adversely affected.

We utilize a portion of the net sales proceeds from property sales, borrowings under our unsecured credit facility (the "Unsecured Credit Facility") and proceeds from the issuance, when and as warranted, of additional debt and equity securities to refinance debt and finance future acquisitions and developments. Access to external capital on favorable terms plays a key role in our financial condition and results of operations, as it impacts our cost of capital and our ability and cost to refinance existing indebtedness as it matures and our ability to fund acquisitions and developments. Our ability to access external capital on favorable terms is dependent on various factors, including general market conditions, interest rates, credit ratings on our debt, the market's perception of our growth potential, our current and potential future earnings and cash distributions and the market price of the Company's common stock. If we were unable to access external capital on favorable terms, our financial condition, results of operations, cash flow and ability to make distributions to our stockholders and Unitholders, the market price of the Company's common stock and the market value of the Units could be adversely affected.

Summary of Significant Transactions During the Nine Months Ended September 30, 2017

During the nine months ended September 30, 2017, we completed the following significant real estate transactions and financing activities:

We acquired six industrial properties comprised of approximately 0.9 million square feet of GLA and several land parcels for an aggregate purchase price of approximately \$159.0 million, excluding costs incurred in conjunction with the acquisition.

We sold 30 industrial properties comprised of approximately 1.9 million square feet of GLA for total gross sales proceeds of approximately \$99.3 million.

We issued ten-year, \$125.0 million private placement notes at a rate of 4.30% and twelve-year, \$75.0 million private placement notes at a rate of 4.40%.

We paid off and retired our 2017 II Notes, at maturity, in the amount of \$101.9 million as well as \$36.1 million in mortgage loans payable.

We declared a first, second and third quarter cash dividend of \$0.21 per common share or Unit per quarter, an increase of 10.5% from the 2016 quarterly rate.

We issued 2,560,000 shares of the Company's common stock in an underwritten public offering. Proceeds to the Company, net of the underwriter's discount, were \$74.9 million.

Results of Operations

The tables below summarize our revenues, property expenses and depreciation and other amortization by various categories for the three and nine months ended September 30, 2017 and 2016. Same store properties are properties owned prior to January 1, 2016 and held as an in-service property through September 30, 2017 and developments and redevelopments that were placed in service prior to January 1, 2016 or were substantially completed for the 12 months prior to January 1, 2016. Properties which are at least 75% occupied at acquisition are placed in service. Acquisitions that are less than 75% occupied at the date of acquisition, developments and redevelopments are placed in service as they reach the earlier of a) stabilized occupancy (generally defined as 90% occupied), or b) one year subsequent to acquisition or development/redevelopment construction completion. Acquired properties with occupancy greater than 75% at acquisition, but with tenants that we anticipate will move out in the first year of ownership, will be placed in service upon the earlier of reaching 90% occupancy or twelve months after move out. Properties are moved from the same store classification to the redevelopment classification when capital expenditures for a project are estimated to exceed 25% of the undepreciated gross book value of the property. Acquired properties are properties that were acquired subsequent to December 31, 2015 and held as an operating property through September 30, 2017. Sold properties are properties that were sold subsequent to December 31, 2015. (Re)Developments include developments and redevelopments that were not: a) substantially complete 12 months prior to January 1, 2016; or b) stabilized prior to January 1, 2016. Other revenues are derived from the operations of properties not placed in service under one of the categories discussed above, the operations of our maintenance company and other miscellaneous revenues. Other property expenses are derived from the operations of properties not placed in service under one of the categories discussed above, the operations of our maintenance company, vacant land expenses and other miscellaneous regional expenses.

Our future financial condition and results of operations, including rental revenues, may be impacted by the future acquisition, (re)development and sale of properties. Our future revenues and expenses may vary materially from historical rates.

Comparison of Nine Months Ended September 30, 2017 to Nine Months Ended September 30, 2016

Our net income was \$107.0 million and \$101.1 million for the nine months ended September 30, 2017 and 2016, respectively.

For the nine months ended September 30, 2017 and 2016, the average occupancy rates of our same store properties were 96.1% and 96.4%, respectively.

Revenues from same store properties increased \$7.5 million primarily due to an increase in rental rates and tenant recoveries, slightly offset by a decrease in occupancy. Revenues from acquired properties increased \$4.0 million due to the 12 industrial properties acquired subsequent to December 31, 2015 totaling approximately 1.6 million square feet of GLA. Revenues from sold properties decreased \$11.5 million due to the 93 industrial properties sold subsequent to December 31, 2015 totaling approximately 5.8 million square feet of GLA. Revenues from (re) developments increased \$13.4 million due to an increase in occupancy. Other revenues increased \$0.8 million primarily due to an increase in occupancy related to two properties acquired in 2015 and placed in service during 2016.

Property expenses include real estate taxes, repairs and maintenance, property management, utilities, insurance and other property related expenses. Property expenses from same store properties increased \$2.1 million primarily due to an increase in real estate tax expense. Property expenses from acquired properties increased \$1.2 million due to properties acquired subsequent to December 31, 2015. Property expenses from sold properties decreased \$4.4 million due to properties sold subsequent to December 31, 2015. Property expenses from (re)developments increased \$2.5 million primarily due to the substantial completion of developments. Other property expenses decreased \$0.4 million due to a decrease in certain miscellaneous expenses.

General and administrative expense increased \$1.2 million, or 6.1%, due to an increase in incentive compensation expense slightly offset by a decrease in professional services expense.

As discussed in Note 2 to the Consolidated Financial Statements, we adopted a new accounting standard relating to the definition of a business on January 1, 2017. We anticipate that our acquisitions of real estate in the future generally will not meet the definition of a business combination. Accordingly, acquisition costs, which historically have been expensed, will be capitalized as part of the basis of the real estate assets acquired. We applied this new accounting

standard prospectively. For the nine months ended September 30, 2016, we recognized \$0.3 million of expenses related to costs associated with acquiring industrial properties from third parties.

Total Depreciation and Other Amortization	\$87,230	\$88,668	\$(1,438)	(1.6)%

Depreciation and other amortization from same store properties decreased \$1.0 million due to accelerated depreciation and amortization taken during the nine months ended September 30, 2016 attributable to certain tenants who terminated their lease early. Depreciation and other amortization from acquired properties increased \$2.1 million due to properties acquired subsequent to December 31, 2015. Depreciation and other amortization from sold properties decreased \$3.6 million due to properties sold subsequent to December 31, 2015. Depreciation and other amortization from (re) developments increased \$1.1 million primarily due to an increase in depreciation and amortization related to completed developments offset by accelerated depreciation on one property in Rancho Dominguez, CA which was razed during the first quarter of 2016. Depreciation from corporate furniture, fixtures and equipment and other remained relatively unchanged.

For the nine months ended September 30, 2017, we recognized \$52.1 million of gain on sale of real estate related to the sale of 30 industrial properties comprised of approximately 1.9 million square feet of GLA. For the nine months ended September 30, 2016, we recognized \$60.8 million of gain on sale of real estate related to the sale of 50 industrial properties comprised of approximately 2.6 million square feet of GLA.

Interest expense decreased \$1.6 million, or 3.5%, primarily due to a decrease in the weighted average debt balance outstanding for the nine months ended September 30, 2017 (\$1,396.2 million) as compared to the nine months ended September 30, 2016 (\$1,411.4 million), an increase in capitalized interest of \$0.7 million for the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016 due to an increase in development activities and a slight decrease in the weighted average interest rate for the nine months ended September 30, 2017 (4.47%) as compared to the nine months ended September 30, 2016 (4.50%).

Amortization of deferred financing costs remained relatively unchanged.

In September 2017, we entered into two interest rate protection agreements (the "Treasury Locks") in order to fix the interest rate on an anticipated unsecured debt offering. Due to the strict requirements surrounding the application of hedge accounting, we elected not to designate the Treasury Locks as hedges. As such, the full change in the fair value of the Treasury Locks during the third quarter is recorded as a mark-to-market gain on interest rate protection agreements within the income statement as opposed to being recorded in other comprehensive income. Mark-to-market gain was \$1.8 million for the nine months ended September 30, 2017.

For the nine months ended September 30, 2017, we recognized a loss from retirement of debt of \$1.7 million due to the early payoff of certain mortgage loans related to prepayment penalties and the write-off of unamortized deferred financing costs.

Income tax provision increased \$1.0 million, or 432.8%, during the nine months ended September 30, 2017 as compared to the nine months ended September 30, 2016 due to an increase in taxable gain from the sale of real estate from one of our TRSs.

Comparison of Three Months Ended September 30, 2017 to Three Months Ended September 30, 2016
Our net income was \$44.7 million and \$32.7 million for the three months ended September 30, 2017 and 2016, respectively.

For the three months ended September 30, 2017 and 2016, the average occupancy rates of our same store properties were 96.0% and 96.1%, respectively.

(1) Net rent is the average base rent calculated in accordance with GAAP, over the term of the lease.

GAAP basis rent growth is a ratio of the change in net rent (on a GAAP basis, including straight-line rent

(2) adjustments as required by GAAP) on a new or renewal lease compared to the net rent (on a GAAP basis) of the comparable lease. New leases where there were no prior comparable leases are excluded.

(3) The lease term is expressed in years. Assumes no exercise of lease renewal options, if any.

Lease costs are comprised of the costs incurred or capitalized for improvements of vacant and renewal spaces, as well as the commissions paid and costs capitalized for leasing transactions. Lease costs per square foot represent (4) the total turnover costs expected to be incurred on the leases signed during the period and do not reflect actual expenditures for the period.

(5) Represents the weighted average square feet of tenants renewing their respective leases.

During the three and nine months ended September 30, 2017, 26 and 75 new leases commenced with free rent periods during the lease term with such leases constituting 0.7 million and 1.5 million square feet of GLA. Total free rent concessions of \$0.7 million and \$1.6 million were associated with these new leases. During the three and nine months ended September 30, 2017, one and two renewal leases commenced with free rent periods during the lease terms with such leases constituting 0.03 and 0.1 million square feet of GLA. Total free rent concessions of \$0.01 and \$0.02 million were associated with these renewal leases. Additionally, during the three and nine months ended September 30, 2017, five and nine development and acquisition leases commenced with free rent periods during the lease term with such leases constituting 0.5 million and 1.5 million square feet of GLA, respectively. Total free rent concessions of \$0.5 million and \$2.5 million were associated with these development and acquisition leases.

Liquidity and Capital Resources

At September 30, 2017, our cash and cash equivalents and restricted cash were approximately \$9.5 million and \$5.1 million, respectively. Restricted cash is comprised of gross proceeds from the sales of certain industrial properties. These sale proceeds will be disbursed as we exchange industrial properties under Section 1031 of the Code. We also had \$463.2 million available for additional borrowings under our Unsecured Credit Facility as of September 30, 2017. We have considered our short-term (through September 30, 2018) liquidity needs and the adequacy of our estimated cash flow from operations and other expected liquidity sources to meet these needs. Our 7.50%, 2017 Notes (described in Note 4 to the Consolidated Financial Statements), in the aggregate principal amount of \$55.0 million are due December 1, 2017. Also, we have \$159.5 million in mortgage loans payable outstanding at September 30, 2017 that mature prior to September 30, 2018. We expect to satisfy these payment obligations with borrowings under our Unsecured Credit Facility. With the exception of these payment obligations, we believe that our principal short-term liquidity needs are to fund normal recurring expenses, property acquisitions, developments, renovations, expansions and other nonrecurring capital improvements, debt service requirements, the minimum distributions required to maintain the Company's REIT qualification under the Code and distributions approved by the Company's Board of Directors. We anticipate that these needs will be met with cash flows provided by operating activities as well as the disposition of select assets. These needs may also be met by the issuance of additional equity or debt securities or long-term unsecured indebtedness, subject to market conditions and contractual restrictions or borrowings under our Unsecured Credit Facility.

We expect to meet long-term (after September 30, 2018) liquidity requirements such as property acquisitions, developments, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements through the disposition of select assets, long-term unsecured and secured indebtedness and the issuance of additional equity or debt securities, subject to market conditions.

At September 30, 2017, borrowings under our Unsecured Credit Facility bore interest at a weighted average interest rate of 2.39%. As of October 26, 2017, we had approximately \$415.2 million available for additional borrowings under our Unsecured Credit Facility. Our Unsecured Credit Facility contains certain financial covenants including limitations on incurrence of debt and debt service coverage. Our access to borrowings may be limited if we fail to meet any of these covenants. We believe that we were in compliance with our financial covenants as of September 30, 2017, and we anticipate that we will be able to operate in compliance with our financial covenants for the remainder of 2017.

Our senior unsecured notes have been assigned credit ratings from Standard & Poor's, Moody's and Fitch Ratings of BBB-/Baa3/BBB, respectively. In the event of a downgrade, we believe we would continue to have access to sufficient capital; however, our cost of borrowing would increase and our ability to access certain financial markets may be limited.

Nine Months Ended September 30, 2017

Net cash provided by operating activities for the Company of approximately \$146.7 million (net cash provided by operating activities for the Operating Partnership of approximately \$147.0 million) for the nine months ended September 30, 2017 was comprised primarily of the non-cash adjustments of approximately \$38.9 million, net income of approximately \$107.0 million and the net change in the Company's operating assets and liabilities of approximately \$2.3 million (\$2.6 million for the Operating Partnership) offset by the payments of prepayment penalties associated with the retirement of debt of approximately \$1.5 million. The adjustments for the non-cash items of approximately \$38.9 million are primarily comprised of depreciation and amortization of approximately \$95.0 million, the loss from retirement of debt of approximately \$1.7 million and the provision for bad debt of approximately \$0.2 million, offset by the gain on sale of real estate of approximately \$52.1 million, mark-to-market gain on interest rate protection agreements of approximately \$1.8 million and the effect of the straight-lining of rental income of approximately \$4.1 million.

Net cash used in investing activities for both the Company and the Operating Partnership of approximately \$164.6 million for the nine months ended September 30, 2017 was comprised primarily of the acquisition of several land parcels and six industrial properties comprised of approximately 0.9 million square feet of GLA, the development of real estate, capital expenditures related to the improvement of existing real estate and payments related to leasing

activities, offset by net proceeds from the sale of real estate and a decrease in escrows (primarily related to sales proceeds held by third party intermediaries to be disbursed as we exchange into properties under Section 1031 of the Code).

During the nine months ended September 30, 2017, we sold 30 industrial properties comprised of approximately 1.9 million square feet of GLA. Proceeds from the sales of these 30 industrial properties, net of closing costs, were approximately \$95.2 million. We are in various stages of discussions with third parties for the sale of additional properties and plan to continue to selectively market other properties for sale for the remainder of 2017.

Net cash provided by financing activities for the Company of approximately \$17.5 million (net cash provided by financing activities for the Operating Partnership of approximately \$17.3 million) for the nine months ended September 30, 2017 was comprised primarily of the net proceeds from the origination of \$200.0 million of private placement notes as well as the net proceeds from the issuance of common stock or General Partner Units offset by the repayments on our senior unsecured notes and mortgage loans payable, net repayment on our Unsecured Credit Facility, common stock and Unit distributions, payments of financing and equity issuance costs, the repurchase and retirement of restricted stock and restricted Units and solely with respect to the Operating Partnership, the Operating Partnership's net distributions to noncontrolling interests.

During the nine months ended September 30, 2017, the Operating Partnership issued \$125 million of 4.30% Series A Guaranteed Senior Notes due April 20, 2027 (the "2027 Private Placement Notes") and \$75 million of 4.40% Series B Guaranteed Senior Notes due April 20, 2029 (the "2029 Private Placement Notes") in a private placement pursuant to a Note and Guaranty Agreement dated February 21, 2017. The 2027 Private Placement Notes and the 2029 Private Placement Notes are unsecured obligations of the Operating Partnership that are fully and unconditionally guaranteed by the Company and require semi-annual interest payments.

During the nine months ended September 30, 2017, the Company issued 2,560,000 shares of the Company's common stock through a public offering, resulting in proceeds, net of the underwriter's discount, of approximately \$74.9 million. The proceeds were contributed to the Operating Partnership in exchange for General Partner Units.

During the nine months ended September 30, 2017, we paid off and retired our 2017 II Notes, at maturity, in the amount of \$101.9 million. Additionally, we paid off \$36.1 million in mortgage loans payable. We may from time to time repay additional amounts of our outstanding debt. Any repayments would depend upon prevailing market conditions, our liquidity requirements, contractual restrictions and other factors we consider important. Future repayments may materially impact our liquidity, taxable income and results of operations.

Market Risk

The following discussion about our risk-management activities includes "forward-looking statements" that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements. Our business subjects us to market risk from interest rates, as described below.

Interest Rate Risk

The following analysis presents the hypothetical gain or loss in earnings, cash flows or fair value of the financial instruments and derivative instruments which are held by us at September 30, 2017 that are sensitive to changes in interest rates. While this analysis may have some use as a benchmark, it should not be viewed as a forecast.

In the normal course of business, we also face risks that are either non-financial or non-quantifiable. Such risks principally include credit risk and legal risk and are not represented in the following analysis.

At September 30, 2017, \$1,218.1 million or 88.6% of our total debt, excluding unamortized deferred financing costs, was fixed rate debt. As of the same date, \$157.0 million or 11.4% of our total debt, excluding unamortized deferred financing costs, was variable rate debt. At December 31, 2016, \$1,164.2 million or 86.0% of our total debt, excluding unamortized deferred financing costs, was fixed rate debt. As of the same date, \$189.5 million or 14.0% of our total debt, excluding unamortized deferred financing costs, was variable rate debt.

At September 30, 2017 and December 31, 2016, the fixed rate debt amounts include \$460.0 million of variable-rate debt that has been effectively swapped to a fixed rate through the use of interest rate protection agreements with a notional aggregate amount outstanding of \$460.0 million, which mitigate our exposure to our unsecured term loans' variable interest rates, which are based upon LIBOR, as defined in the loan agreements. Additionally as of September 30, 2017, we have interest rate protection agreements outstanding in an aggregate notional amount of \$100.0 million in order to lock the U.S Treasury rate related to an anticipated unsecured debt offering. See Note 10 to the Consolidated Financial Statements for a more detailed discussion of these interest rate protection agreements. The use of derivative financial instruments allows us to manage risks of increases in interest rates with respect to the effect these fluctuations would have on our earnings and cash flows. Currently, we do not enter into financial instruments for trading or other speculative purposes.

For fixed rate debt, changes in interest rates generally affect the fair value of the debt, but not our earnings or cash flows. Conversely, for variable rate debt, changes in the base interest rate used to calculate the all-in interest rate

generally do not impact the fair value of the debt, but would affect our future earnings and cash flows. The interest rate risk and changes in fair market value of fixed rate debt generally do not have a significant impact on us until we are required to refinance such debt. See Note 4 to the Consolidated Financial Statements for a discussion of the maturity dates of our various fixed rate debt.

Our variable rate debt is subject to risk based upon prevailing market interest rates. At September 30, 2017, we had approximately \$157.0 million of variable rate debt outstanding indexed to LIBOR rates excluding the \$460.0 million of variable-rate debt that has been effectively swapped to a fixed rate through the use of interest rate protection agreements. If the LIBOR rates relevant to our variable rate debt were to have increased 10%, we estimate that our interest expense during the nine months ended September 30, 2017 would have increased by approximately \$0.2 million based on our average outstanding floating-rate debt during the nine months ended September 30, 2017. Additionally, if weighted average interest rates on our fixed rate debt were to have increased by 10% due to refinancing, interest expense would have increased by approximately \$4.4 million during the nine months ended September 30, 2017.

As of September 30, 2017, the estimated fair value of our debt was approximately \$1,417.8 million based on our estimate of the then-current market interest rates.

Supplemental Earnings Measure

Investors in and industry analysts following the real estate industry utilize funds from operations ("FFO") and net operating income ("NOI") as supplemental operating performance measures of an equity REIT. Historical cost accounting for real estate assets in accordance with accounting principles generally accepted in the United States of America ("GAAP") implicitly assumes that the value of real estate assets diminishes predictably over time through depreciation. Since real estate values instead have historically risen or fallen with market conditions, many industry analysts and investors prefer to supplement operating results that use historical cost accounting with measures such as FFO and NOI, among others. We provide information related to FFO and same store NOI ("SS NOI") both because such industry analysts are interested in such information, and because our management believes FFO and SS NOI are important performance measures. FFO and SS NOI are factors used by management in measuring our performance, including for purposes of determining the compensation of our executive officers under our 2017 incentive compensation plan.

Neither FFO nor SS NOI should be considered as a substitute for net income, or any other measures derived in accordance with GAAP. Neither FFO nor SS NOI represents cash generated from operating activities in accordance with GAAP and neither should be considered as an alternative to cash flow from operating activities as a measure of our liquidity, nor is either indicative of funds available for our cash needs, including our ability to make cash distributions.

Funds From Operations

The National Association of Real Estate Investment Trusts ("NAREIT") has recognized and defined for the real estate industry a supplemental measure of REIT operating performance, FFO, that excludes historical cost depreciation, among other items, from net income determined in accordance with GAAP. FFO is a non-GAAP financial measure. FFO is calculated by us in accordance with the definition adopted by the Board of Governors of NAREIT and therefore may not be comparable to other similarly titled measures of other companies.

Management believes that the use of FFO available to common stockholders and participating securities, combined with net income (which remains the primary measure of performance), improves the understanding of operating results of REITs among the investing public and makes comparisons of REIT operating results more meaningful. Management believes that, by excluding gains or losses related to sales of previously depreciated real estate assets and real estate asset depreciation and amortization, investors and analysts are able to identify the operating results of the long-term assets that form the core of a REIT's activity and use these operating results for assistance in comparing these operating results between periods or to those of different companies.

The following table shows a reconciliation of net income available to common stockholders and participating securities to the calculation of FFO available to common stockholders and participating securities for the three and nine months ended September 30, 2017 and 2016.

	Three Months Ended September 30,		Nine Months Ended September 30,

Same Store Net Operating Income

SS NOI is a non-GAAP financial measure that provides a measure of rental operations and, as calculated by us, that does not factor in depreciation and amortization, general and administrative expense, acquisition costs, interest expense, income tax benefit and expense, gains and losses on retirement of debt and sale of real estate. We define SS NOI as revenues minus property expenses such as real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses, minus the NOI of properties that are not same store properties and minus the impact of straight-line rent, the amortization of lease inducements, the amortization of above/below market rent and lease termination fees. As so defined, SS NOI may not be comparable to same store net operating income or similar measures reported by other REITs that define same store properties or NOI differently. The major factors influencing SS NOI are occupancy levels, rental rate increases or decreases and tenant recoveries increases or decreases. Our success depends largely upon our ability to lease space and to recover the operating costs associated with those leases from our tenants.

The following table shows a reconciliation of the same store revenues and property expenses disclosed in the results of operations (and reconciled to revenues and expenses reflected on the statements of operations) to SS NOI for the three and nine months ended September 30, 2017 and 2016.

	Three Months Ended September 30,		Nine Months Ended September 30,
