Letter to Shareholders

September 19, 2008

Dear Shareholder:

We are pleased to provide you with the semiannual report for the NFJ Dividend, Interest & Premium Strategy Fund and the Nicholas-Applegate Equity & Convertible Income Fund (collectively the Funds) for the fiscal six-month period ended July 31, 2008.

U.S. stocks declined through the period on highly volatile performance. Continued weakness in housing and mortgage bond markets along with weak economic growth and slack employment conditions applied downward pressure on broad equity market indexes. Small- and mid-cap stocks outperformed large-caps for the period and growth stocks beat value stocks. Large-cap value stocks, as represented by the Russell 1000 Value Index, returned (10.29)% for the six-month reporting period while large-cap growth stocks, as measured by the Russell 1000 Growth Index, returned (3.24)%.

The Federal Reserve Board (the Fed) reduced short-term interest rates two times during the period, moving the Federal Funds target from 3.00% at the beginning of the reporting period to 2.00% at the period's end. The Fed declined to change rates at its June meeting, citing inflationary pressures. Bonds advanced during the period in most categories, as stocks weakened.

Please refer to the following pages for specific information on the Funds. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or call the Funds' shareholder servicing agent at (800) 331-1710. You may also find a wide range of information and resources on our Web site, www.allianzinvestors.com/closedendfunds.

Together with Allianz Global Investors Fund Management LLC, the Funds' investment manager, and NFJ Investment Group L.P., Nicholas-Applegate Capital Management LLC and Oppenheimer Capital LLC, the Funds' sub-advisers, we thank you for investing with us.

We remain dedicated to serving your investment needs.

Sincerely,

NFJ Dividend, Interest & Premium Strategy Fund Fund Insights/Performance & Statistics

July 31, 2008 (unaudited)

For the six-month period ended July 31, 2008, the NFJ Dividend, Interest & Premium Strategy Fund returned (4.51)% on net asset value (NAV) and (10.35)% based on market price.

U.S. stocks declined during six months ended July 31, 2008. Concerns over record oil prices, the U.S. credit crisis, slowing growth and rising inflation all contributed to a cautious mood that weighed most on financials and consumer discretionary stocks. Energy stocks advanced along with soaring oil prices. Stock selection decisions and an overweighting in the energy sector contributed positively to Fund's performance. Record oil prices boosted the earnings outlook for oilfield production service companies, including those of Fund holdings Halliburton and Diamond Offshore. Halliburton share prices rose as the services and equipment company increased its presence in the Middle East, Asia and Latin America. Diamond Offshore stock advanced on higher demand for deepwater drilling equipment and services that served to push up rates for Diamond and its competitors.

A significant underweighting in the financials sector proved beneficial to performance as the fallout from mounting losses at large banks and insurers was avoided.

Stock selections in the consumer discretionary sector weighed on performance. Holdings in advertising-dependent companies detracted as a softening economy and competition from online competitors sapped demand. Gannett, the nation's largest newspaper publisher, reported declines in print advertising and announced plans to write down assets by as much as \$3 billion. A decline in automobile advertising hurt CBS stock as did the network's announced decision to buy the growing and profitable Internet company CNET.

Investment-grade convertible bonds underperformed their non investment-grade counterparts during the six-month period. Investors also exhibited a preference for mid- and smaller-capitalized convertibles.

Finally, total return convertibles underperformed yield-oriented or busted convertibles.

New convertible issuance rebounded during the period. Financials continued to dominate new issuance. Year-to-date, \$51.6 billion has been raised in the convertible market.

**Investment Allocation
(as a percentage of total investments
before call options written)**

(1) **Past performance is no guarantee of future results.** Total return is calculated by subtracting the value of an investment in the Fund at the beginning of each specified period from the value at the end of the period and dividing the remainder by the value of the investment at the beginning of the period and expressing the result as a percentage. The calculation assumes that all of the Fund's income dividends and capital gain distributions have been reinvested. Total return does not reflect broker commissions or sales charges. Total return for a period of less than one year is not annualized. Total return for a period more than one year represents the average annual total return.

The Fund's performance at market price will differ from its results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Fund, market conditions, supply and demand for the Fund's shares, or changes in Fund distributions.

An investment in the Fund involves risk, including the loss of principal. Total return, market price, market yield and net asset value will fluctuate with changes in market conditions. This data is provided for information only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is typically a one-time public offering and once issued, shares of closed-end funds are sold in the open market through a stock exchange. Net asset value is equal to total assets attributable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

(2) Market Price Yield is determined by dividing the annualized current quarterly per share distribution to common shareholders by the market price per common share at July 31, 2008.

Nicholas-Applegate Equity & Convertible Income Fund Insights/Performance & Statistics Fund

July 31, 2008 (unaudited)

For the six-month period ended July 31, 2008, Nicholas-Applegate Equity & Convertible Income Fund returned (4.38)% on net asset value (NAV) and (9.11)% on market price.

The broad equity and convertible markets traded lower during the period as there were no significant catalysts to drive the markets higher. Slowing corporate profits, widening credit spreads, recession fears, high oil prices, and continued bank write-offs were responsible for the equity market pull-back.

Industry performance was mixed and driven by broad market themes. Financial issuer underperformance was the most severe of any industry in the broad markets. The consumer sector was also negatively affected. The best performing industries during the six month period were energy, telecommunications, and materials. These sectors performed well because of both favorable operating performance as well as an expected flight to quality.

Select companies hurt the equity holdings during the period. Within healthcare, an HMO company came under extreme pressure as fears that medical cost inflation would be much greater than anticipated. In addition, a semiconductor maker was hurt on fears that a slowdown in global handset sales would reduce future revenues.

Select companies helped offset some of the market weakness. A telecommunications company settled an ongoing royalty dispute driving shares higher. In addition, a surgical robotic company reported better than expected unit sales and firm pricing. Lastly, a biotech company had better drug sales and raised its sales expectations for the year.

The average Chicago Board of Exchange (CBOE) Volatility Index (VIX) value for the period was 23.1. The market's volatility hit highs in March, and then re-spiked in July. The CBOE Volatility Index is a key measure of market expectations of near-term volatility conveyed by S&P 500 stock index option prices. Since its introduction in 1993, the Index has been considered by many to be the world's premier barometer of investor sentiment and market volatility.

Investment-grade convertible bonds underperformed their non investment-grade counterparts during the period. Investors also exhibited a preference for mid- and smaller-capitalized convertibles. Finally, total return convertibles underperformed yield-oriented or busted convertibles.

New convertible issuance rebounded in the period. Financials continued to dominate new issuance. Year-to-date, \$51.6 billion has been raised in the convertible market.

1. Organization and Significant Accounting Policies

NFJ Dividend, Interest & Premium Strategy Fund and Nicholas-Applegate Equity & Convertible Income Fund, collectively referred to as the Funds, were organized as Massachusetts business trusts on August 20, 2003 and December 12, 2006, respectively. Prior to commencing operations on February 28, 2005 and February 27, 2007, respectively, the Funds had no operations other than matters relating to their organization and registration as diversified, closed-end management investment companies under the Investment Company Act of 1940 and the rules and regulations there under, as amended, and the sale and issuance of 4,189 shares of beneficial interest at an aggregate par of \$100,012, for each fund, to Allianz Global Investors of America L.P. (Allianz Global). Allianz Global Investors Fund Management LLC (the Investment Manager) serves as the Funds' investment manager and is an indirect wholly-owned subsidiary of Allianz Global. Allianz Global is an indirect, majority-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has an unlimited amount of \$0.00001 par value common stock authorized.

The Nicholas-Applegate Equity & Convertible Income Fund issued 20,300,000 shares of common stock in its initial public offering. An additional 2,000,000 shares were issued in connection with the underwriters over-allotment option. These shares were all issued at \$25.00 per share before an underwriting discount of \$1.125 per share. Offering costs of \$1,098,731 (representing \$0.0493 per share) were offset against the proceeds of the offering and over-allotment option and have been charged to paid-in capital in excess of par.

NFJ Dividend, Interest & Premium Strategy's primary investment objective is to seek current income and gains, with a secondary objective of long-term capital appreciation. The Fund pursues its investment objectives by investing in a diversified portfolio of dividend-paying common stocks and income-producing convertible securities. The Fund will also employ a strategy of writing (selling) call options on equity indexes in an attempt to generate gains from option premiums.

Nicholas Applegate Equity & Convertible Income's investment objective is to seek total return comprised of capital appreciation, current income and gains. The Fund pursues its objective by investing in a diversified portfolio of equity securities and income producing convertible securities. The Fund will also employ a strategy of writing (selling) call options on the equity securities held by the Fund.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

In the normal course of business, the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet been asserted. However, the Funds expect the risk of any loss to be remote.

In July 2006, the Financial Accounting Standards Board issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (the Interpretation). The Interpretation establishes for all entities, including pass-through entities such as the Funds, a minimum

threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. Fund management has determined that its evaluation of the Interpretation has resulted in no material impact to the Funds' financial statements at July 31, 2008. Each of the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS 161). SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. SFAS 161 requires enhanced disclosures about a fund's derivative and hedging activities. Fund Management is currently evaluating the impact the adoption of SFAS 161 will have on the Funds' financial statement disclosures.

The following is a summary of significant accounting policies followed by the Funds:

(a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

1. Organization and Significant Accounting Policies (continued)

Portfolio securities and other financial instruments for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to guidelines established by the Board of Trustees or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Funds' investments, including over-the-counter options, are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the last quoted mean price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange traded options are valued at the settlement price determined by the relevant exchange. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days. The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and these differences could be material to the financial statements. Each Fund's net asset value is normally determined daily as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open for business.

(b) Fair Value Measurements Effective February 1, 2008, the Funds adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of the fair value measurements. The three levels of the fair value hierarchy under FAS 157 are described below:

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

The valuation techniques used by the Funds to measure fair value during the three months ended July 31, 2008 maximized the use of observable inputs and minimized the use of unobservable inputs.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

For NFJ Dividend, Interest & Premium Strategy, the following is a summary of the inputs used as of July 31, 2008 in valuing the Fund's investments carried at value:

Valuation Inputs	Investments in Securities
Level 1 Quoted Prices	\$1,538,668,774
Level 2 Other Significant Observable Inputs	504,670,647
Level 3 Significant Unobservable Inputs	1,966,850

Total \$2,045,306,271

A roll forward of fair value measurements using significant unobservable inputs (Level 3) as of July 31, 2008, were as follows:

	Investments in Securities
Beginning balance, January 31, 2008	\$2,398,425
Net purchases (sales) and settlements	(431,766)
Accrued discounts (premiums)	
Total realized and unrealized gain (loss)	191
Transfers in and/or out of Level 3	
Ending balance, July 31, 2008	\$1,966,850

1. Organization and Significant Accounting Policies (continued)

For Nicholas-Applegate Equity & Convertible Income, the following is a summary of the inputs used as of July 31, 2008 in valuing the Fund's investments carried at value:

Valuation Inputs	Investments in Securities
Level 1 Quoted Prices	\$335,536,268
Level 2 Other Significant Observable Inputs	160,714,229
Level 3 Significant Unobservable Inputs	
Total	\$496,250,497

(c) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Discounts or premiums on corporate bonds and notes purchased are accreted or amortized, respectively to interest income over the lives of the respective securities using the effective interest method. Payments received from certain investments may be comprised of dividends, realized gains and return of capital. These payments may initially be recorded as dividend income and may be subsequently be reclassified as realized gains and/or return of capital upon receipt of information from the issuer. Dividend income is recorded on the ex-dividend date.

(d) Federal Income Taxes

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

(e) Dividends and Distributions

The Funds declare quarterly dividends and distributions from net investment income and gains from option premiums and the sale of portfolio securities. The Funds record dividends and distributions to shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in capital in excess of par.

(f) Call Option Transactions

The Funds employ a strategy of writing (selling) call options on equities and/or equity indexes in an attempt to generate gains from option premiums. When an option is written, the premium received is recorded as an asset with an equal liability, which is subsequently adjusted to the current market value of the option. Premiums received from writing options, which expire unexercised, are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or index option in determining whether there has been a realized gain or loss.

The Funds, as writers of call options, may have no control over whether the underlying securities or index option may be sold (called). As a result, the Funds bear the market risk of an unfavorable change in the price of the security or index underlying the written call option.

The use of derivative transactions may involve elements of both market and credit risk in excess of the amounts reflected on the Statements of Assets and Liabilities.

(g) Concentration of Risk

It is the Funds' policy to invest a portion of their assets in convertible securities. Convertible securities generally entail less risk than its common stock but more risk than its debt obligations. However, certain of the convertible securities held by the Funds include features that render them more sensitive to price changes in the underlying securities. Such convertible securities are subject to increased risks, including risks associated with investing in derivatives.

2. Investment Manager/Sub-Advisers

Each Fund has entered into Investment Management Agreements (the Agreements) with the Investment Manager. Subject to the supervision of the Funds Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the Funds investment activities, business affairs and administrative matters. Pursuant to the Agreements, NFJ Dividend, Interest & Premium Strategy pays the Investment Manager an annual fee, payable monthly, at the annual rate of 0.90% of the Fund s average daily total managed assets. Nicholas-Applegate Equity & Convertible Income pays the Investment Manager an annual fee, payable monthly, at the annual rate of 1.00% of the Fund s average daily total managed assets. Total managed assets refer to the total assets of each Fund (including assets attributable to any preferred shares and borrowings that may be outstanding) minus accrued liabilities (other than liabilities representing borrowings). The Investment Manager has retained its affiliates, NFJ Investment Group L.P (NFJ), Nicholas-Applegate Capital Management LLC (NACM), and Oppenheimer Capital LLC (OCC) (the Sub-Advisers), to manage the NFJ Dividend, Interest & Premium Strategy Fund s equity component, convertible component and index option strategy, respectively. NACM serves as the sole sub-adviser to Nicholas-Applegate Equity & Convertible Income. Subject to the supervision of the Investment Manager, NFJ, NACM and OCC make all of NFJ Dividend, Interest & Premium Strategy s investment decisions in connection with their respective components of the Funds investments. Subject to the supervision of the Investment Manager, NACM is responsible for making all of Nicholas-Applegate Equity & Convertible Income s investment decisions. Pursuant to Sub-Advisory Agreements, the Investment Manager and the Funds, pays each of the Sub-Advisers an annual fee payable on a monthly basis.

3. Investment in Securities

4. Income Tax Information

The Funds' cost of investments for both federal income tax purposes and financial reporting purposes is substantially the same. Gross unrealized appreciation and gross unrealized depreciation of investments at July 31, 2008 were:

	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Depreciation
NFJ Dividend, Interest & Premium Strategy	\$2,359,290,376	\$56,717,590	\$(353,593,042)	\$(296,875,452)
Nicholas-Applegate Equity & Convertible Income	561,077,622	3,094,043	(67,070,938)	(63,976,895)

5. Legal Proceedings

In June and September 2004, the Investment Manager and certain of its affiliates (including PEA Capital LLC (PEA), Allianz Global Investors Distributors LLC and Allianz Global Investors of America, L.P.) agreed to settle, without admitting or denying the allegations, claims brought by the SEC and the New Jersey Attorney General alleging violations of federal and state securities laws with respect to certain open-end funds for which the Investment Manager serves as investment adviser. The settlements related to an alleged market timing arrangement in certain open-end funds formerly sub-advised by PEA. The Investment Manager and its affiliates agreed to pay a total of \$68 million to settle the claims. In addition to monetary payments, the settling parties agreed to undertake certain corporate governance, compliance and disclosure reforms related to market timing and consented to cease and desist orders and censures. Subsequent to these events, PEA deregistered as an investment adviser and dissolved. None of the settlements alleged that any inappropriate activity took place with respect to the Funds.

Since February 2004, the Investment Manager, the Sub-Advisers and certain of its affiliates and their employees have been named as defendants in a number of pending lawsuits concerning market timing , which allege the same or similar conduct underlying the regulatory settlements discussed above. The market timing lawsuits have been consolidated in a multi-district litigation proceeding in the U.S. District Court for the District of Maryland. Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against the Investment Manager, the Sub-Adviser, or its affiliates or related injunctions.

The Investment Manager and the Sub-Advisers believe that these matters are not likely to have a material adverse effect on the Funds or on their ability to perform their respective investment advisory activities relating to the Funds.

The foregoing speaks only as of the date hereof.

6. Appointment of New Trustee

In May 2008, the Funds' Board of Trustees appointed Diana L. Taylor as a Trustee.

7. Subsequent Dividend Declarations

On September 12, 2008 the following quarterly dividends were declared to shareholders, payable September 26, 2008 to shareholders of record on September 22, 2008:

26 Nicholas-Applegate Equity & Convertible Income Fund Semi-Annual Report | 7.31.08 |

NFJ Dividend, Interest & Premium Strategy Fund Matters Relating to the Trustees Consideration of the Advisory & Sub-Advisory Agreements

(unaudited)

The Investment Company Act of 1940 requires that both the full Board of Trustees (the Trustees) and a majority of the non-interested (Independent) Trustees, voting separately, approve the Fund s Management Agreement (the Advisory Agreement) with the Investment Manager and Portfolio Management Agreements (the Sub-Advisory Agreements , and together with the Advisory Agreements, the Agreements) between the Investment Manager and the Sub-Advisers. The Trustees met on June 10-11, 2008 (the contract review meeting) for the specific purpose of considering whether to approve the Advisory Agreement and the Sub-Advisory Agreements. The Independent Trustees were assisted in their evaluation of the Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately from Fund management during the contract review meeting.

Based on their evaluation of factors that they deemed to be material, including those factors described below, the Board of Trustees, including a majority of the Independent Trustees, concluded that the Fund s Advisory Agreement and the Sub-Advisory Agreements should be approved for a one-year period commencing July 1, 2008.

In connection with their deliberations regarding the continuation of the Agreements, the Trustees, including the Independent Trustees, considered such information and factors as they believed, in light of the legal advice furnished to them and their own business judgment, to be relevant. As described below, the Trustees considered the nature, quality, and extent of the various investment management, administrative and other services performed by the Investment Manager or the Sub-Advisers under the applicable Agreement.

In connection with their contract review meeting, the Trustees received and relied upon materials provided by the Investment Manager which included, among other items: (i) information provided by Lipper Analytical Services Inc. (Lipper Inc.) on the total return investment performance (based on net assets) of the Fund for various time periods and the investment performance of a group of funds with substantially similar investment classifications/objectives, (ii) information provided by Lipper Inc. on the Fund s management fees and other expenses and the management fees and other expenses of comparable funds identified by Lipper Inc., (iii) information regarding the investment performance and management fees of comparable portfolios of other clients of the Sub-Advisers, including institutional separate accounts and other clients, (iv) the profitability to the Investment Manager from its relationship with the Fund for the twelve months ended March 31, 2008, (v) descriptions of various functions performed by the Investment Manager and the Sub-Advisers for the Fund, such as portfolio management, compliance monitoring and portfolio trading practices, and (vi) information regarding the overall organization of the Investment Manager and the Sub-Advisers, including information regarding senior management, portfolio managers and other personnel providing investment management, administrative and other services to the Fund.

The Trustees conclusions as to the continuation of the Agreements were based on a comprehensive consideration of all information provided to the Trustees and not the result of any single factor. Some of the factors that figured particularly in the Trustees deliberations are (described below), although individual Trustees may have evaluated the information presented differently from one another, giving different

weights to various factors.

As part of their review, the Trustees examined the Investment Manager's and the Sub-Advisers' abilities to provide high quality investment management and other services to the Fund. The Trustees considered the investment philosophy and research and decision-making processes of the Sub-Advisers; the experience of key advisory personnel of the Sub-Advisers responsible for portfolio management of the Fund; the ability of the Investment Manager and the Sub-Advisers to attract and retain capable personnel; the capability and integrity of the senior management and staff of the Investment Manager and the Sub-Advisers; and the level of skill required to manage the Fund. In addition, the Trustees reviewed the quality of the Investment Manager's and the Sub-Advisers' services with respect to regulatory compliance and compliance with the investment policies of the Fund; the nature and quality of certain administrative services the Investment Manager is responsible for providing to the Fund; and conditions that might affect the Investment Manager's or the Sub-Advisers' ability to provide high quality services to the Fund in the future under the Agreements, including each organization's respective business reputation, financial condition and operational stability. Based on the foregoing, the Trustees concluded that the Sub-Advisers' investment process, research capabilities and philosophy were well suited to the Fund given their investment objectives and policies, and that the Investment Manager and the Sub-Advisers would be able to continue to meet any reasonably foreseeable obligations under the Agreements.

Based on information provided by Lipper Inc., the Trustees also reviewed the Fund's total return investment performance as well as the performance of comparable funds identified by Lipper Inc. In the course of their deliberations, the Trustees took into account information provided by the Investment Manager in connection with the contract review meeting, as well as during investment review meetings conducted with portfolio management personnel during the course of the year regarding the Fund's performance.

NFJ Dividend, Interest & Premium Strategy Fund Matters Relating to the Trustees Consideration of the Advisory & Sub-Advisory Agreements

(unaudited) (continued)

In assessing the reasonableness of the Fund's fees under the Agreements, the Trustees considered, among other information, the Fund's management fee and the total expense ratio as a percentage of average net assets attributable to common shares and the management fee and total expense ratios of comparable funds identified by Lipper Inc.

The Trustees specifically took note of how the Fund compared to its Lipper Inc. peers as to performance, management fee expenses and total expenses. The Trustees noted that the counsel to the Independent Trustees the Investment Manager had provided a memorandum containing comparative information on the performance and expenses information of the Fund compared to its Lipper Inc. peer categories. The Trustees noted that while the Fund is not charged a separate administration fee, it was not clear whether the peer funds in the Lipper Inc. categories were charged such a fee by its investment manager.

The Trustees noted that the Fund had outperformed its peer group's low returns but had underperformed its peer group's median and high returns for the one-year period ended March 31, 2008. The Trustees noted that the Fund had outperformed its peer group's median and low returns but had underperformed its peer group's high returns for the three-year period ended March 31, 2008. The Trustees also noted that the Fund's expense ratio was below the high and median for its peer group and was above the low for its peer group.

After reviewing these and related factors, the Trustees concluded, within the context of their overall conclusions regarding the Agreements, that they were satisfied with the Investment Manager's and the Sub-Advisers' responses and efforts relating to investment performance and the comparative positioning of the Fund with respect to the management fee paid to the Investment Manager.

The Trustees also considered the management fees charged by the Sub-Advisers to other clients, including institutional separate accounts with investment strategies similar to those of the Fund. Regarding the institutional separate accounts, they noted that the management fees paid by the Fund is generally higher than the fees paid by these clients of the Sub-Advisers, but were advised that the administrative burden for the Investment Manager and the Sub-Advisers with respect to the Fund is also relatively higher, due in part to the more extensive regulatory regime to which the Fund is subject in comparison to institutional separate accounts. The Trustees noted that the management fees paid by the Fund were generally higher than the fees paid by the open-end funds offered for comparison but were advised that there are additional portfolio management challenges in managing the Fund, such as meeting a regular dividend.

Based on a profitability analysis provided by the Investment Manager, the Trustees also considered the profitability of the Investment Manager from its relationship with the Fund and determined that such profitability was not excessive.

The Trustees also took into account that, as closed-end investment companies, the Fund does not currently intend to raise additional assets, so the assets of the Fund will grow (if at all) only through the investment performance of the Fund. Therefore, the Trustees did not consider potential economies of scale as a

principal factor in assessing the fee rates payable under the Agreements.

Additionally, the Trustees considered so-called fall-out benefits to the Investment Manager and the Sub-Adviser, such as reputational value derived from serving as Investment Manager and Sub-Adviser to the Fund.

After reviewing these and other factors described herein, the Trustees concluded with respect to the Fund, within the context of their overall conclusions regarding the Agreements, that the fees payable under the Agreements represent reasonable compensation in light of the nature and quality of the services being provided by the Investment Manager and Sub-Adviser to the Fund.
