The information contained in the management discussion represents the opinions of Market Vectors ETFs and may differ from other persons. This information is not intended to be a forecast of future events, a guarantee of future results or investment advice. The information contained herein regarding each index has been provided by the relevant index provider. Also, unless otherwise specifically noted, any discussion of the Funds' holdings and the Funds' performance, and the views of Market Vectors ETFs are as of September 30, 2014, and are subject to change.

MARKET VECTORS INDUSTRY AND BROAD-BASED U.S. ETFS

(unaudited)

Dear Shareholder:

We are pleased to present this annual report for the seven industry exchange-traded funds (ETFs) and one broad-based U.S. equity ETF of the Market Vectors ETF Trust for the 12-month period ended September 30, 2014.

**Market Vectors Morningstar Wide Moat ETF**

In just under two and a half years, Market Vectors Morningstar Wide Moat ETF (MOAT)—launched on April 24, 2012 and which seeks to track, before fees and expenses, the Morningstar® Wide Moat Focus Index<sup>SM1</sup>—has attracted \$853.6 million in assets under management (AUM), an increase of 134% over the past 12 months. On September 16, the fund was renamed the Market Vectors Morningstar Wide Moat ETF to align it more with the identity of the underlying index.

**Wide Moat Investing: A Consistently Impressive Batting Average**

As described in our semi-annual shareholder letter, batting average is a measure of outperformance versus a benchmark over different time periods. When applied to investing, it indicates how often an investment strategy has outperformed a benchmark through various periods of time. The Morningstar Wide Moat Focus Index continues to feature an impressive batting average measured against the S&P 500® Index, particularly over long-term holding periods.<sup>2</sup> As of September 30, the Wide Moat Focus Index had outperformed the S&P 500 Index 70% of the time if held for a year.

**Batting Average Shows the Percent of Time Morningstar Wide Moat Focus Index Outperformed the S&P 500 Index**

**Monthly Frequency: 3/2007 – 9/2014**

Time Periods	91	86	80	56	32
Total Outperformed	46	56	56	54	32

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Batting Average      51%   65%   70%   96%   100%

*Source: Morningstar, FactSet. Batting Average is measured by dividing the number of periods a portfolio or investment strategy outperforms a benchmark by the total number of periods.*

*Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue. Past performance is no guarantee of future results; current performance may be lower or higher than the performance data quoted. Index performance is not illustrative of fund performance. Investors cannot invest directly in an Index.*

MARKET VECTORS INDUSTRY AND BROAD-BASED U.S. ETFS

(unaudited)

Wide Moat investing continues to provide core, long-term strategic access to the broad U.S. equities market. We continue to emphasize the long-term, rather than short-term, potential of Wide Moat investing as illustrated by its batting average.

To subscribe to monthly updates on MOAT and for more information on Morningstar's approach, please visit our Wide Moat page at [www.vaneck.com/special/moat](http://www.vaneck.com/special/moat). We also offer quarterly MOAT conference calls.

We will, as always, continue to seek out and evaluate the most attractive opportunities for you as a shareholder. We encourage you stay in touch with us through the videos, email subscriptions, and blogs available on our website ([www.vaneck.com](http://www.vaneck.com)). Should you have any questions, please contact us at 1.888.MKT.VCTR or visit [www.marketvectorsetfs.com](http://www.marketvectorsetfs.com).

Thank you for participating in the Market Vectors ETF Trust. On the following pages, you will find the performance record of each of the funds for the 12 months ended September 30, 2014. You will also find their financial statements. We value your continuing confidence in us and look forward to helping you meet your investment goals in future.

*Jan F. van Eck*  
*Trustee and President*  
*Market Vectors ETF Trust*

## Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

The Morningstar<sup>®</sup> Wide Moat Focus Index<sup>SM</sup> is a rules-based, equal-weighted index intended to offer exposure to the 20 most attractively priced companies with sustainable competitive advantages according to Morningstar's equity research team. Prior to April 24, 2012, Market Vectors Morningstar Wide Moat ETF had no operating history.

The S&P 500<sup>®</sup> Index consists of 500 widely held common stocks covering the industrial, utility, financial, and transportation sectors.

2

## **Management Discussion** (unaudited)

The entire suite of eight Market Vectors Industry and Broad-Based U.S. ETFs, except for a single ETF (Gaming), realized healthy positive performance in the 12 months ended September 30, 2014.

*Source: Van Eck Global. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.*

## **Broad-Based U.S. ETF**

### *Morningstar Wide Moat*

For the 12-month period, Market Vectors Morningstar Wide Moat ETF underperformed the S&P<sup>®</sup> 500 Index by 3.38%. Top contributing sectors were health care, financials and consumer staples. In health care, Allergan, Inc., Amgen, Inc. (both sold by end of the period), and Express Scripts Holding Company (4.8% of Fund assets) all contributed strongly to the sector's performance. In financials, The Bank of New York Mellon Corp. and Berkshire Hathaway, Inc. (both sold by end of the period) were the top performers in the sector. Finally, in consumer staples, the food distributor Sysco Corporation (5.0% of Fund assets) was the single best performing stock. The most significant detractor from performance was Weight Watchers International, Inc. (sold by end of the period), the other three large detractors were Core Laboratories NV (4.7% of Fund assets), Kinder Morgan, Inc. (sold by end of the period), and Western Union Company (4.7% of Fund assets).

## **Industry ETFs**

### *Bank and Brokerage*

## Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Since December 2013, when the Federal Reserve Bank (the “Fed”) announced the start of its “taper” program with a reduction of \$10 billion in its monthly bond purchases, there have been six further such reductions of \$10 billion. The Fed plans to end its bond-buying program, after a final purchase of \$15 billion, in October 2014.<sup>1</sup> In the meantime, the Fed continues to signal its commitment to low interest rates.<sup>2</sup> The continuation of historically low rates over the last 12 months has remained a boon for both bank and brokerage stocks. U.S. companies made the largest contribution to the Fund’s performance. While contributions to return from Germany, Japan, Switzerland, and the U.K. all detracted from performance, contributions to return from Brazil, India, the Netherlands, Canada and Spain (particularly the latter two) were positive.

MARKET VECTORS INDUSTRY AND BROAD-BASED U.S. ETFS

(unaudited)

*Biotech*

Having risen fitfully, if steadily, during the first six months of the 12-month period under review, as the first half drew to a close, biotech stocks took a severe hit in the market, not least on the back of Gilead Sciences, Inc. (15.7% of Fund assets) being asked by Democrats in the U.S. House of Representatives to explain the pricing (\$84,000) of its new hepatitis C treatment drug Sovaldi.<sup>3</sup> However, since then, biotech stocks have rallied and, clawing back losses suffered in this hit, the Fund posted a total return for the entire 12-month period of 27.92%.<sup>4</sup> U.S. companies contributed by far the most to total return, but there was also a small contribution from Ireland. Illumina, Inc. (4.2% of Fund assets), Gilead Sciences, Inc. and Biogen Idec, Inc. (8.5% of Fund assets) all made significant contributions to the Fund's overall performance. ARIAD Pharmaceuticals, Inc. (sold by end of the period), in particular, detracted from overall performance.

*Environmental Services*

Environmental services companies have benefited historically, and continue to benefit, from both overall economic growth and, in particular, that of the construction and home-building industries. In addition, consumer preferences regarding environmental and sustainability issues, social awareness and both regulation and legislation are being seen as creating potential opportunities for the industry.<sup>5</sup> While U.S. stocks accounted for the majority of the Fund's total return, a significant positive contribution also came from French company Veolia Environnement SA (9.9% of Fund assets), with the single Canadian stock in the Fund, Progressive Waste Solutions Ltd. (2.8% of Fund assets), making only a very small positive contribution to overall return.

*Gaming*

Having risen haltingly, if progressively, during the first six months of the 12-month period under review, soon after the first half, gaming sector stocks started to shed their gains, ending the second six months of the period well below their jumping off point for the year. The Fund posted a total return for the entire 12-month period with a decline of 7.76%. With VIP revenue impacted by a corruption campaign, and falling house prices in China, in August gambling revenues in Macau, the world's biggest gaming hub, recorded their third consecutive monthly decline<sup>6</sup> Even so, however, for the month of August alone, gaming in the southern Chinese territory pulled in more than half of what the Las Vegas casinos earn in a year.<sup>7</sup> Stocks from Hong Kong (gaming companies in Macau) were, by far, the most significant detractors from the Fund's overall performance. U.S. gaming stocks made the greatest positive contribution to overall performance.

*Pharmaceutical*

During the 12-month period, pharmaceutical stocks went from strength to strength. At approximately \$980 billion in 2013, global pharmaceutical sales were at their highest ever. In 2014, sales are expected to rise to \$1 trillion.<sup>8</sup> In addition, the pharmaceutical industry is expected to report a record high in new drug approvals in 2014. By the end of August, the U.S. Food and Drug Administration's Center for Research and Evaluation had approved some 26 new molecular entities for the year. This is one short of the 27 approved in 2013.<sup>9</sup> As a result, the Fund posted a notable total return for the 12-month period of 35.19%. All countries contributed positively, with the U.S. contributing most substantially to the Fund's overall performance and the United Kingdom being the second largest contributor.

*Retail*

Despite a rocky period in the first quarter of 2014, the 12-month period ended September 30, 2014 brought with it positive performance and the Fund returned 13.65%. In August, on the back of both lower gas prices and better job growth, retail sales growth of 0.6% (July was 0.3%) was the biggest increase in four months.<sup>10</sup> In addition, in September, consumer confidence rose to its highest level in more than a year.<sup>11</sup> According to Thomson Reuters/University of Michigan as reported on September 12, its preliminary index for the month rose to 84.6, a level not recorded since July 2013. (In contrast, however, as reported at the end of September, another gauge of sentiment, the Conference Board Consumer Confidence Index, fell to a four-month low in September.<sup>12</sup>) While retail drug stores and health care distributors made by far the greatest contributions to total return, department stores, hypermarkets and supercenters, and home improvement retail, all also contributed positive percentages to the Fund's overall performance. The most significant detractors from performance were home furnishing retail and specialty stores.

*Semiconductor*

Having exceeded \$300 billion in 2013 for the first time ever, semiconductor sales have been forecast to increase further, by 6.7%, to \$326.2 billion in 2014.<sup>13,14</sup> At the end of June 2014, the Semiconductor Industry Association reported that, during the first half of the year, sales were 11.1% higher than they were at the same stage in 2013, itself a record year.<sup>15</sup> July sales alone were \$28.1 billion, up 9.9% from \$25.2 billion in July 2013, and the industry's highest-ever total for monthly sales.<sup>16</sup> One of the major drivers for growth going forward is expected to be IoT, or the "Internet of Things", with an impact not only on the memory sector, but also the integrated circuit (IC) design, foundry, and outsourced assembly and test sectors.<sup>17</sup> Although contributing the most to the Fund's total return, the industry's strong positive performance over the period was not restricted to the U.S. alone, with stocks from both Taiwan and Singapore making positive contributions. However, stocks from both the Netherlands and the United Kingdom detracted from performance.

† All Fund assets referenced are Total Net Assets as of September 30, 2014.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are made.

‡ S&P 500® Index, calculated with dividends reinvested, consists of 500 widely held common stocks covering the industrial, utility, and financial sectors.

## BANK AND BROKERAGE ETF (RKH)

## PERFORMANCE COMPARISON

September 30, 2014 (unaudited)

<b>Total Return</b>	<b>Share Price<sup>1</sup></b>	<b>NAV</b>	<b>MVRKHTR<sup>2</sup></b>	
One Year	10.94%	10.98%	10.78	%
Life* (annualized)	22.18%	21.66%	21.36	%
Life* (cumulative)	74.55%	72.49%	71.30	%

\*since 12/20/11

**Hypothetical Growth of \$10,000 (Since Inception)****Commencement date for the Market Vectors Bank and Brokerage ETF was 12/20/11.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, <sup>1</sup>for the period from commencement (12/20/11) to the first day of secondary market trading in shares of the Fund (12/21/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting [marketvectorsetfs.com](http://marketvectorsetfs.com).**

Gross Expense Ratio 1.07% / Net Expense Ratio 0.35%

## Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.35% of the Fund’s average daily net assets per year until at least February 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Listed Bank and Brokerage 25 Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Bank and Brokerage ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors US Listed Bank and Brokerage 25 Index (MVRKHTR) is a rules based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of the largest and the most liquid common stocks and depositary receipts of U.S. exchange-listed companies engaged primarily on a global basis that derive the majority of their revenues from banking, which includes a broad range of financial services such as investment banking, brokerage services and corporate lending to large institutions.

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.35% of the Fund’s average daily net assets per year until at least February 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Listed Biotech 25 Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Biotech ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors US Listed Biotech 25 Index (MVBHTR) is a rules based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of the largest and the most liquid common stocks and depositary receipts of U.S. exchange-listed companies that derive most of their revenues from biotechnology, which includes biotechnology research and development as well as production, marketing and sales of drugs based on genetic analysis and diagnostic equipment.

## ENVIRONMENTAL SERVICES ETF (EVX)

## PERFORMANCE COMPARISON

September 30, 2014 (unaudited)

Total Return	Share Price <sup>1</sup>	NAV	AXENV <sup>2</sup>
One Year	4.80 %	4.62 %	4.09 %
Five Year	11.13 %	11.06 %	11.49 %
Life* (annualized)	7.29 %	7.29 %	7.72 %
Life* (cumulative)	75.19 %	75.18 %	81.04 %

\*since 10/10/06

**Hypothetical Growth of \$10,000 (Since Inception)**

**Commencement date for the Market Vectors Environmental Services ETF was 10/10/06.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (10/10/06) to the first day of secondary market trading in shares of the Fund (10/16/06), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting [marketvectorsetfs.com](http://marketvectorsetfs.com).**

Gross Expense Ratio 0.92% / Net Expense Ratio 0.55%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.55% of the Fund’s average daily net assets per year until at least February 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

NYSE Arca Environmental Services Index (AXENV) is a trademark of NYSE Euronext or its affiliates (NYSE Euronext), is licensed for use by Van Eck Associates Corporation. NYSE Euronext neither sponsors nor endorses the Fund and makes no representation as to the accuracy and/or completeness of AXENV or results to be obtained by any person from using the AXENV in connection with trading of the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

NYSE Arca Environmental Services Index (AXENV) is a modified equal dollar-weighted index comprised of 2 publicly traded companies that are involved in the management, removal and storage of consumer waste and industrial byproducts and related environmental services.

Life* (cumulative)	74.03%	71.87%	70.92	%

\*since 12/20/11

**Hypothetical Growth of \$10,000 (Since Inception)****Commencement date for the Market Vectors Retail ETF was 12/20/11.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (12/20/11) to the first day of secondary market trading in shares of the Fund (12/21/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting [marketvectorsetfs.com](http://marketvectorsetfs.com).**

Gross Expense Ratio 0.63% / Net Expense Ratio 0.35%

## Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.35% of the Fund’s average daily net assets per year until at least February 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Listed Retail 25 Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Retail ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors US Listed Retail 25 Index (MVRTHTR) is a rules-based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of the largest and the most liquid common stocks and depositary receipts of U.S. exchange-listed companies that derive most of their revenues from retail, which includes retail distribution; wholesalers; online, direct mail and TV retailers; multi-line retailers; specialty retailers, such as apparel, automotive, computer and electronics, drug, home improvement and home furnishing retailers; and food and other staples retailers.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

**Hypothetical \$1,000 investment at beginning of period**

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, April 1, 2014 to September 30, 2014.

**Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During the Period.”

**Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

During the year ended September 30, 2014, transfers of securities from Level 1 to Level 2 were \$342,600. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

September 30, 2014

**Note 1—Fund Organization**—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of September 30, 2014, offers fifty-nine investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Bank and Brokerage ETF, Biotech ETF, Environmental Services ETF, Gaming ETF, Morningstar Wide Moat ETF (formerly Wide Moat ETF), Pharmaceutical ETF, Retail ETF and Semiconductor ETF, (each a “Fund” and, together, the “Funds”). Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index published by the NYSE Euronext, Morningstar, or Market Vectors Index Solutions GmbH, a wholly-owned subsidiary of Van Eck Associates Corporation (the “Adviser”).

The Funds’ commencement of operations dates and their respective indices are presented below:

<b>Fund</b>	<b>Commencement of Operations</b>	<b>Index</b>
Bank and Brokerage ETF	December 20, 2011	Market Vectors US Listed Bank and Brokerage 25 Index*
Biotech ETF	December 20, 2011	Market Vectors US Listed Biotech 25 Index*
Environmental Services ETF**	October 10, 2006	NYSE Arca Environmental Services Index
Gaming ETF**	January 22, 2008	Market Vectors Global Gaming Index*
Morningstar Wide Moat ETF ***	April 24, 2012	Morningstar® Wide Moat Focus Index <sup>SM</sup>
Pharmaceutical ETF	December 20, 2011	Market Vectors US Listed Pharmaceutical 25 Index*
Retail ETF	December 20, 2011	Market Vectors US Listed Retail 25 Index*
Semiconductor ETF	December 20, 2011	Market Vectors US Listed Semiconductor 25 Index*

\* Published by Market Vectors Index Solutions GmbH

\*\* Effective January 1, 2012, the Fund changed its fiscal year end from December 31 to September 30.

\*\*\* Effective September 16, 2014, the Fund changed its name from Wide Moat ETF to Morningstar Wide Moat ETF.

**Note 2—Significant Accounting Policies**—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standard Codification (“ASC”) 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

**Security Valuation**—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, **A.** whose values may be affected by market direction or events occurring before the Funds’ pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities’ primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR’s and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which

with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and

that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**B. Federal Income Taxes**—It is each Fund’s policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

**Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income, if any, are declared and paid annually by each Fund (except Bank and Brokerage ETF and Pharmaceutical ETF which are declared and paid quarterly). Distributions from net realized capital gains, if any, are declared and paid annually by each Fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

**Currency Translation**—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

September 30, 2014 (continued)

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

**Repurchase Agreements**—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of September 30, 2014 are reflected in the Schedules of Investments.

**Use of Derivative Instruments**—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the year ended September 30, 2014.

**Offsetting Assets and Liabilities**—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds do not offset securities lending or repurchase agreement assets and liabilities subject to enforceable master netting agreements or other similar agreements in the Statements of Assets and Liabilities. Collateral held at September 30, 2014 is presented in the Schedules of Investments.

I.

**Other**—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

**Note 3—Investment Management and Other Agreements**—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.35% of each Fund's average daily net assets (except for annual rates of 0.45% for Morningstar Wide Moat ETF, 0.50% for Environmental Services ETF and Gaming ETF). The Adviser has agreed, at least until February 1, 2015, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense caps (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current expense caps and the amounts waived/assumed by the Adviser for the year ended September 30, 2014, are as follows:

Fund	Expense Cap	Waiver of Expenses Assumed	
		Management Fees	by the Adviser
Bank and Brokerage ETF	0.35 %	\$ 54,227	\$57,318
Biotech ETF	0.35	280,634	—
Environmental Services ETF	0.55	70,794	—
Gaming ETF	0.65	50,189	—
Morningstar Wide Moat ETF	0.49	34,757	—
Pharmaceutical ETF	0.35	192,515	—
Retail ETF	0.35	112,774	—
Semiconductor ETF	0.35	206,894	—

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

**Note 4—Investments**—For the year ended September 30, 2014, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
	Bank and Brokerage ETF	\$3,143,703
Biotech ETF	132,009,425	54,908,023
Environmental Services ETF	2,927,577	2,527,946

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Gaming ETF	24,735,789	25,190,935
Morningstar Wide Moat ETF	692,243,428	97,636,961
Pharmaceutical ETF	88,282,194	42,216,387
Retail ETF	4,702,687	1,302,580
Semiconductor ETF	63,009,193	30,398,519

**Note 5—Income Taxes**—As of September 30, 2014, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

<b>Fund</b>	<b>Cost of Investments</b>	<b>Gross Unrealized Appreciation</b>	<b>Gross Unrealized Depreciation</b>	<b>Net Unrealized Appreciation (Depreciation)</b>
Bank and Brokerage ETF	\$ 15,459,651	\$ 1,607,321	\$(387,712 )	\$ 1,219,609
Biotech ETF	468,976,434	96,613,756	(11,182,036)	85,431,720
Environmental Services ETF	15,739,751	2,241,490	(1,147,113 )	1,094,377
Gaming ETF	44,511,134	4,918,627	(5,432,642 )	(514,015 )
Morningstar Wide Moat ETF	868,849,598	19,239,743	(21,364,633)	(2,124,890 )
Pharmaceutical ETF	369,718,849	37,962,448	(2,404,373 )	35,558,075
Retail ETF	66,458,451	2,197,583	(1,843,644 )	353,939
Semiconductor ETF	433,197,022	1,011,012	(16,475,283)	(15,464,271 )

## MARKET VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

September 30, 2014 (continued)

At September 30, 2014, the components of accumulated earnings (deficit) on a tax basis, for each Fund, were as follows:

<b>Fund</b>	<b>Undistributed Ordinary Income</b>	<b>Accumulated Capital Losses</b>	<b>Qualified Late-Year Losses</b>	<b>Other Temporary Difference</b>	<b>Unrealized Appreciation (Depreciation)</b>	<b>Total</b>
Bank and Brokerage ETF	\$ 90,053	\$—	\$(13,326 )	\$(1,187 )	\$1,219,609	\$1,295,149
Biotech ETF	—	—	(8,677,953 )	(24,477 )	85,431,720	76,729,290
Environmental Services ETF	216,356	(12,346,789)	(1,259,715 )	(2,110 )	1,094,377	(12,297,881)
Gaming ETF	1,659,616	(1,403,367 )	—	(5,407 )	(516,306 )	(265,464 )
Morningstar Wide Moat ETF	8,509,850	(37,587 )	(18,761,920)	(20,135 )	(2,124,890 )	(12,434,682)
Pharmaceutical ETF	1,254,996	—	—	(15,995 )	35,558,075	36,797,076
Retail ETF	371,170	(10,340 )	(4,923 )	(2,947 )	353,939	706,899
Semiconductor ETF	4,265,116	(137,530 )	(266,891 )	(19,017 )	(15,464,271 )	(11,622,593)

The tax character of dividends paid to shareholders during the years ended September 30, 2014 and September 30, 2013 were as follows:

<b>Fund</b>	<b>September 30, 2014 Dividends Ordinary Income</b>	<b>September 30, 2013 Dividends Ordinary Income</b>
Bank and Brokerage ETF	\$368,882	\$920,773
Biotech ETF	16,340	486,956
Environmental Services ETF	225,000	315,200
Gaming ETF	802,900	2,349,400
Morningstar Wide Moat ETF	4,225,050	673,200
Pharmaceutical ETF	5,483,238	8,761,804
Retail ETF	408,291	695,015
Semiconductor ETF	4,956,298	6,734,656

Qualified late-year losses comprised of post-October capital losses incurred after October 31, 2013, and certain late-year ordinary losses. Late-year ordinary losses represent ordinary losses incurred after December 31, 2013 and specified losses incurred after October 31, 2013. These losses are deemed to arise on the first day of the Funds' next

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

taxable year. For the year ended September 30, 2014, the Funds intend to defer to October 1, 2014 for federal tax purposes the below listed post-October capital losses:

<b>Fund</b>	<b>Post-October Capital Losses</b>	<b>Late-Year Ordinary Losses</b>
Bank and Brokerage ETF	\$ 13,326	\$ —
Biotech ETF	8,641,655	36,298
Environmental Services ETF	1,259,715	—
Morningstar Wide Moat ETF	18,761,920	—
Retail ETF	4,923	—
Semiconductor ETF	266,891	—

At September 30, 2014, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

<b>Fund</b>	<b>Post-Effective- No Expiration Long-Term Capital Losses</b>	<b>Post-Effective- No Expiration Short-Term Capital Losses</b>	<b>Amount Expiring in the Year Ended September 30</b>		
			<b>2018</b>	<b>2017</b>	<b>2016</b>
Environmental Services ETF	\$ 3,273,429	\$ 38,147	\$479,375	\$6,445,705	\$2,110,133
Gaming	—	1,403,367	—	—	—
Morningstar Wide Moat ETF	3,359	34,228	—	—	—
Retail ETF	—	10,340	—	—	—
Semiconductor ETF	—	137,530	—	—	—

52

During the year ended September 30, 2014, as a result of permanent book to tax differences, primarily due to foreign currency gains and losses, non-taxable distributions from corporate stocks, and tax treatment of in-kind redemptions, the Funds' incurred differences that affected undistributed net investment income/loss, accumulated net realized gain/loss on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

<b>Fund</b>	<b>Increase/ Decrease in Undistributed Net Investment Income/Loss</b>	<b>Increase/ Decrease in Accumulated Net Realized Gain/Loss</b>	<b>Increase/ Decrease in Aggregate Paid in Capital</b>
Bank and Brokerage ETF	\$ 2,939	\$(404,247 )	\$401,308
Biotech ETF	87,085	(108,403,389)	108,316,304
Environmental Services ETF	—	(1,617,988 )	1,617,988
Gaming ETF	(95,050 )	(12,882,952 )	12,978,002
Morningstar Wide Moat ETF	—	(105,531,397)	105,531,397
Pharmaceutical ETF	—	(61,452,444 )	61,452,444
Retail ETF	—	(8,203,375 )	8,203,375
Semiconductor ETF	(302,601 )	(88,035,264 )	88,337,865

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended 2011-2013), or expected to be taken in the Funds' current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended September 30, 2014, the Funds did not incur any interest or penalties.

**Note 6—Capital Share Transactions**—As of September 30, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of at least 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the year ended September 30, 2014, the Funds had in-kind contributions and redemptions as follows:

<b>Fund</b>	<b>In-Kind Contributions</b>	<b>In-Kind Redemptions</b>
Bank and Brokerage ETF	\$—	\$2,366,586
Biotech ETF	226,008,739	306,324,824
Environmental Services ETF	2,538,984	6,283,743
Gaming ETF	27,456,477	34,377,991
Morningstar Wide Moat ETF	891,842,974	1,077,857,176
Pharmaceutical ETF	261,545,064	228,516,070
Retail ETF	107,478,960	93,072,779
Semiconductor ETF	2,905,029,056	2,866,036,197

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

**Note 7—Concentration of Risk**—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund's investment objective by investing in a portfolio of securities that generally replicates the Funds' index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

September 30, 2014 (continued)

occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

**Note 8—Trustee Deferred Compensation Plan**—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

**Note 9—Securities Lending**—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders’, administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds’ behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund, the Bank of New York Institutional Cash Reserve, or repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at September 30, 2014 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

**Note 10—Share Split**—On January 27, 2012, the Board of Trustees of the Market Vectors ETF Trust approved a split of the shares for Bank and Brokerage ETF, Biotech ETF, Pharmaceutical ETF, and Retail ETF. The share splits took place for shareholders of record as of the close of business on February 10, 2012, and were paid on February 13, 2012. Each Fund’s shares began trading on a split-adjusted basis on February 14, 2012. Biotech ETF and Retail ETF split its shares three-for-one. Bank and Brokerage ETF and Pharmaceutical ETF split its shares two-for-one.

**Note 11—Bank Line of Credit**—Certain Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended September 30, 2014, the following Funds borrowed under this Facility:

54

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of September 30, 2014
Bank and Brokerage ETF	2	\$341,783	1.49 %	\$—
Biotech ETF	95	1,497,395	1.54	—
Environmental Services ETF	2	775,264	1.50	—
Gaming ETF	202	194,619	1.49	—
Morningstar Wide Moat ETF	295	1,022,179	1.51	939,396
Pharmaceutical ETF	326	993,956	1.52	—
Retail ETF	8	260,136	1.49	72,111
Semiconductor ETF	184	648,156	1.51	—

**Note 12—Custodian Fees**—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended September 30, 2014, there were no offsets to the custodian fees.

**Note 13—Subsequent Events**—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to September 30, 2014:

Fund	Ex-Date	Record Date	Payable Date	Per Share
Bank and Brokerage ETF	10/1/14	10/3/14	10/7/14	\$0.3100
Pharmaceutical ETF	10/1/14	10/3/14	10/7/14	\$0.1988

MARKET VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of Market Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Bank and Brokerage ETF, Biotech ETF, Environmental Services ETF, Gaming ETF, Morningstar Wide Moat ETF, Pharmaceutical ETF, Retail ETF and Semiconductor ETF (eight of the series constituting Market Vectors ETF Trust) (the “Funds”) as of September 30, 2014, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds’ internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of September 30, 2014, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Bank and Brokerage ETF, Biotech ETF, Environmental Services ETF, Gaming ETF, Morningstar Wide Moat ETF, Pharmaceutical ETF, Retail ETF and Semiconductor ETF (eight of the series constituting Market Vectors ETF Trust) at September 30, 2014, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

New York, New York  
November 19, 2014

**TAX INFORMATION**

(unaudited)

The information set forth below is for each Fund's fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2014 income tax purposes will be sent to them in early 2015. Please consult your tax advisor for proper treatment of this information.

The Fund listed below intends to pass through foreign tax credits in the maximum amounts shown. The gross foreign source income earned during the period ended September 30, 2014 by the Fund was as shown below.

Fund	Foreign Tax Credits	Gross Foreign Source Income
Gaming ETF	\$29,720	\$1,643,102

**Corporate Dividends Received Deduction**

The Funds listed below had the following percentage of ordinary income dividends paid that qualified for the Corporate Received Deduction for fiscal year 2014.

Bank and Brokerage ETF	31.89%
Biotech ETF	100.00%
Environmental Services ETF	98.48%
Gaming ETF	93.83%
Morningstar Wide Moat ETF	100.00%
Pharmaceutical ETF	67.52%
Retail ETF	100.00%
Semiconductor ETF	74.31%

<sup>2</sup>Officers are elected yearly by the Trustees.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited)

At a meeting held on June 6, 2014 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of the investment management agreements between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreements”) with respect to the Market Vectors Bank and Brokerage ETF, Biotech ETF, Environmental Services ETF, Gaming ETF, Global Chemicals ETF, MSCI International Quality Dividend ETF, MSCI International Quality ETF, MSCI Emerging Markets Quality Dividend ETF, MSCI Emerging Markets Quality ETF, Pharmaceutical ETF, Retail ETF, Semiconductor ETF and Wide Moat ETF (collectively, the “Funds”).

The Board’s approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 9, 2014. At that meeting, the Trustees discussed the information the Adviser and Lipper Inc. (“Lipper”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund’s designated peer group, and certain measures of tracking error for designated peer groups are not available. They also considered the fact that Market Vectors MSCI International Quality Dividend ETF, MSCI International Quality ETF, MSCI Emerging Markets Quality Dividend ETF and MSCI Emerging Markets Quality ETF (the “MSCI Funds”) had only recently commenced operations and therefore had no meaningful operational history that could be used for comparative purposes, since the expense information prepared by Lipper was based on estimated amounts and the performance comparisons provided by Lipper covered approximately a one-month period (January 21, 2014 (the date operations commenced for each Fund) through February 28, 2014). For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees’ consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 9, 2014 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in

the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time.

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and/or median of its respective peer group of funds, except for each of Market Vectors Gaming ETF, MSCI International Quality ETF and Wide Moat ETF, which had a total expense ratio (after the effect of any applicable expense limitation)

greater than the average and median of its peer group of funds, while Environmental Services ETF had a total expense ratio (after the effect of any applicable expense limitation) greater than the average but equal to the median of its peer group of funds. The Trustees concluded, however, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness in many cases due to the lack of a large number of directly comparable ETFs and, as noted above, the very limited operating history of the MSCI Funds.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing certain administrative services to the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that certain Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the profitability of Market Vectors Global Chemicals ETF to the Adviser because the Fund had not yet commenced operations at the time of the Renewal Meeting. In addition, because the Fund had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to the Fund by the Adviser, although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 9, 2014 meeting as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus and Summary Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus and summary prospectus contains this and other information about the investment company. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting [marketvectorsetfs.com](http://marketvectorsetfs.com), or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1.202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 1.888.MKT.VCTR or by visiting [marketvectorsetfs.com](http://marketvectorsetfs.com).

MARKET VECTORS INTERNATIONAL ETFs

(unaudited)

Dear Shareholder:

On January 21 of this year we launched our family of four quality-based exchange-traded funds (ETFs), the first additions to our suite of Market Vectors International ETFs in 2014.

**“Quality” ETFs Outperforming Since Launch**

We believe that when emerging and international markets are volatile, it remains important for investors to be selective in how they approach these markets. We also believe that MSCI’s methodology for identifying quality can help in both achieving this selectivity and tapping companies’ long-term potential. Quality, as defined by MSCI, screens for companies that have demonstrated historically high return on equity, stable annual earnings growth, and low financial leverage.

As I have noted before in a recent article<sup>1</sup>, “there is no guarantee these companies can maintain their historical characteristics, [but] such fundamentals may indicate a level of strength relative to other companies and offer an innovative way” to invest in international and emerging markets. For example, as of September 30, 2014, two of our quality-based ETFs, Market Vectors MSCI International Quality ETF (QXUS) and Market Vectors MSCI Emerging Markets Quality ETF (QEM) have outperformed their corresponding non-quality benchmarks (see charts below).

**Performance of MSCI Quality ETFs versus Non-Quality Benchmarks**
