NOTES TO SCHEDULES OF INVESTMENTS

**January 31, 2017 (unaudited)**

**Security Valuation**—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported

are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of Van Eck Associates Corporation, (the “Adviser”). The Pricing Committee provides oversight of the Funds’ valuation policies and procedures, which are approved by the Funds’ Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including each Fund’s own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**Other**—High-Yield and Short High-Yield invest in Puerto Rico municipal securities that currently experience significant financial difficulties. As a result, certain securities issued by this municipality are currently considered below-investment-grade securities. A credit rating downgrade, default, insolvency or bankruptcy of one or several municipal security issuers of this territory, could affect the market values and marketability of municipal obligations of such territory held by the Funds. The market for these investments may be limited, which may make them difficult to buy or sell. These Funds may continue to be affected by political, economic, regulatory and other developments within Puerto Rico and by the financial condition of Puerto Rico's political subdivisions, agencies, instrumentalities and public authorities. Events, including economic and political policy changes, tax base erosion, the territory's constitutional limits on tax increases, budget deficits and other financial difficulties and changes in the credit ratings assigned to Puerto Rico's municipal issuers, are likely to affect performance. The Puerto Rican economy is reliant on manufacturing, services and tourism, and its economy and financial operations parallel the economic cycles of the United States. Economic difficulties in the United States are likely to have an adverse impact on the overall economy of Puerto Rico. Municipal obligations issued by Puerto Rico are subject to heightened risks that may adversely affect the value of these Funds' portfolios and the repayment of such bonds may be subject to significant uncertainties. Moreover, like many other U.S. states and municipalities, Puerto Rico experienced a significant downturn during the recent recession. Puerto Rico continues to face significant fiscal challenges, including persistent government deficits, underfunded public pension benefit obligations, underfunded government retirement systems, sizable debt service obligations and a high unemployment rate. Many ratings organizations previously downgraded a number of securities issued in Puerto Rico or placed them on "negative watch." If the economic situation in Puerto Rico persists or worsens, the volatility, credit quality and performance of the Funds could be adversely affected. Puerto Rico's continued financial difficulties could reduce its ability to access financial markets, potentially increasing the likelihood of a restructuring or default for Puerto Rico municipal bonds that may affect the Funds' investments and its performance.

The Adviser continues to monitor the events in Puerto Rico surrounding the \$70 billion debt crisis. In April 2016, the Puerto Rico Emergency Moratorium and Financial Rehabilitation Act was signed into law which enabled the governor to suspend debt service payments on general obligation bonds and other constitutionally protected debt. In June 2016, the U.S. Supreme Court affirmed a U.S. District Court decision that invalidated the Puerto Rico Public Corporations Debt Enforcement and Recovery Act, effectively preventing restructuring of Puerto Rico's public corporation debt outside of federal bankruptcy court. On June 30, 2016, President Obama signed into law the Puerto Rico Oversight, Management and Economic Stability ACT (PROMESA), giving Puerto Rico a stay against creditor litigation that could have triggered cuts to public service. The legislation authorized an oversight board to oversee Puerto Rico's finances and to approve any court-supervised debt restructuring.

Puerto Rico defaulted on approximately \$1.4 billion principal and interest payments due to municipal bond holders in May and July of 2016 and recently missed payments due January 1, 2017. The Funds continue to be impacted by the overall increase in securities in default of interest and/or principal obligations due to the crisis though not materially.

In January 2017, the governor of Puerto Rico, signed an executive order reducing spending by 10%, created an expedited process for infrastructure projects, implemented a zero-based budgeting methodology, introduced several bills to promote economic development and outlined several labor reforms aimed at reducing the cost of doing business in Puerto Rico. He also signed an extension for an excise tax on foreign manufacturers, which contributes a significant amount of revenue to the general fund.

Finally, the governor signed the "Financial Emergency and Fiscal Responsibility Act," which replaces the prior administration's debt moratorium with a new approach that segregates revenues available after the payment of essential services to pay debt service.

## ITEM 2. Controls and Procedures.

The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c)) are effective, as of a date within 90 days (a) of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15 (b)).

There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) (b) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. Exhibits.
