Notes to Schedule of Investments

† Investments in securities by Neuberger Berman California Intermediate Municipal Fund Inc. ("California"), Neuberger Berman Intermediate Municipal Fund Inc. ("Intermediate"), and Neuberger Berman New York Intermediate Municipal Fund Inc. ("New York") (individually a "Fund", and collectively, the "Funds") are valued daily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include considerations such as: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. If a valuation is not available from an independent pricing service, the Funds seek to obtain quotations from principal market makers. If such quotations are not readily available, securities are valued using methods each Fund's Board of Directors has approved on the belief that they reflect fair value. Numerous factors may be considered when determining the fair value of a security, including available analyst, media or other reports, trading in futures or ADRs and whether the issuer of the security being fair valued has other securities outstanding. Short-term debt securities with less than 60 days until maturity may be valued at cost which, when combined with interest earned, approximates market value.

The Funds adopted Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), effective November 1, 2008. In accordance with FAS 157, "fair value" is defined as the price that a Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. Various inputs are used in determining the value of the Funds' investments.

In addition to defining fair value, FAS 157 established a three-tier hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)
- Level 3 – significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Funds' investments as of January 31, 2009 (000's omitted):

California:

| Valuation Inputs | Investments in Securities |
|---|----------------------------------|
| Level 1 - Quoted Prices | \$ - |
| Level 2 - Other Significant Observable Inputs | 148,653 |
| | - |

| | |

Intermediate:

| Level 2 - Other Significant Observable Inputs | 459,648 |

New York:

At January 31, 2009, selected Fund information on a U.S. federal income tax basis was as follows:

| (000's omitted) Neuberger Berman | Cost | Gross Unrealized Appreciation | Gross Unrealized Depreciation | Net Unrealized Appreciation (Depreciation) |
|-------------------------------------|-----------|-------------------------------------|-------------------------------------|---|
| California | \$153,145 | \$3,514 | \$8,006 | \$(4,492) |
| Intermediate | 467,932 | 15,802 | 24,086 | (8,284) |
| New York | 126,896 | 2,568 | 7,991 | (5,423) |

@ At time of investment, municipal securities purchased by the Funds are within the four highest rating categories (with respect to at least 80% of total assets) assigned by a nationally recognized statistical rating organization ("NRSRO") such as Moody's Investors Service, Inc., Standard & Poor's, or Fitch Investors Services, Inc. or, where not rated, are determined by the Funds' investment manager to be of comparable quality. Approximately 76%, 70%, and 64% of the municipal securities held by California, Intermediate, and New York, respectively, have credit enhancement features backing them, which the Funds may rely on, such as letters of credit, insurance, or guarantees. Without these credit enhancement features the securities may or may not meet the quality standards of the Funds. Pre-refunded bonds are supported by securities in escrow issued or guaranteed by the U.S. Government, its agencies, or instrumentalities. The amount escrowed is sufficient to pay the periodic interest due and the principal of these bonds. Putable bonds give the Funds the right to sell back the issue on the date specified.
