The Company mailed the following letter to its shareholders on April 16, 2012.

April 16, 2012

Please vote ONLY the enclosed "WHITE" proxy and please do NOT sign & return ANY "green" proxy that you receive from Mr. Stilwell.

Dear Shareholders:

As we promised in our last letter to you, we are writing to discuss in detail the steps we have taken to return your Company to profitability and enhance the value of your investment.

Yes, we got caught in the recession. But unlike many banks, both in the Pacific Northwest and nationally, we have taken the difficult but necessary steps to aggressively meet the challenges we have faced.

We have been profitable for each of the past five quarters and our performance metrics have shown significant improvement as the table at the end of this letter shows.

Net income for the year ended December 31, 2011 was \$4.24 million, or \$0.24 per share, after two years of losses during the worst of the recession. Our stock price increased 47.5% from December 31, 2010 to December 31, 2011.

Our Bank's tier 1 leverage capital ratio was 13.54% at December 31, 2011 and our Bank's total risk-based capital ratio at that date was 24.76%. The capital ratios required in order to be considered well capitalized by the FDIC are 10% and 12%, respectively. At that same date the Company had consolidated equity to assets of 17.12%. We are very well capitalized.

Our Board has taken the necessary actions to reduce the regulatory burden imposed on the Bank and the recent lifting of the formal regulatory order we were placed under in 2010 reflects our progress. To accomplish this, we have enhanced our management by replacing our commercial lending management with well qualified individuals with the necessary experience to reduce non-performing assets, improve the Bank's lending function and diversify the loan portfolio. The table reflects our success in this area. Also supporting these efforts was the addition of two very well qualified and experienced members to our Board of Directors in December 2011.

Mr. Stilwell has stated that he wants the Company to "de-risk its business and to reduce non-performing assets." We have done exactly that. Our construction/land development

loans declined from \$250.5 million at December 31, 2008 to \$25.1 million at December 31, 2011 and our commercial real estate loans have declined from \$260.7 million at December 31, 2008 to \$232.3 million at December 31, 2011. We have substantially reduced our most risky loans and this is reflected in the dramatic decline in our ratio of non-performing assets to total assets from 10.1% at December 31, 2009 to 4.7% at December 31, 2011.

Mr. Stilwell also insists that “the Company continue deleveraging.” We have done exactly that. We have reduced total assets from \$1.24 billion at December 31, 2008 to \$1.06 billion at December 31, 2011.

Mr. Stilwell has further stated: “We want management and the Board to pay dividends to shareholders and repurchase shares of outstanding Common Stock with excess capital when permitted by applicable regulations and regulatory commitments.” We intend to do exactly that as soon as permitted by the regulators.

Mr. Stilwell states that the Board was irresponsible in increasing Mr. Karpiak’s compensation in light of the losses incurred by the Company. Mr. Karpiak received no raise in 2012 or 2011. In fact, his current cash compensation is 7% less than its peak in 2008. The change in his total compensation in 2011 was not the result of additional benefits granted by the Board or an increase in the cost to the Company of these benefits. Instead, the general decline in interest rates increased the present value of Mr. Karpiak’s benefits under our existing pension and retirement plans. An increase in interest rates would have the opposite effect.

Mr. Stilwell wants us to reimburse him for the cost of his attempt to put his lawyer, Spencer Schneider, back on our Board. We already gave Mr. Schneider a Board seat and spent a lot of time and money in helping him get regulatory approval to be on the Board. Mr. Schneider recently quit the Board after serving only five weeks. Now Mr. Stilwell wants us to pay his expenses for fighting for something we just gave him - and which he inexplicably gave up. Mr. Stilwell has been critical of our expenses but we find this simply irresponsible.

Finally, Mr. Stilwell also wants us to retain an investment banker and consider selling the Company. We retained Keefe Bruyette & Woods when we went public and they have periodically updated our Board on the merger and acquisition market since then. We are always looking for ways to improve the value of your franchise and maximize shareholder value.

We are not opposed to selling the Company at a reasonable price, as Mr. Stilwell would suggest, but we are not interested in a fire sale that is not in the best interests of our shareholders.

Do these actions make us “irredeemable” as Mr. Stilwell insists? We don’t think so.

Please vote your WHITE proxy today.

Sincerely,

/s/Victor Karpiak

## Forward-looking statements:

Certain matters discussed in this letter may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to, among other things, expectations of the business environment in which the Company operates, projections of future performance, perceived opportunities in the market, potential future credit experience, and statements regarding the Company's mission and vision. These forward-looking statements are based upon current management expectations and may, therefore, involve risks and uncertainties. The Company's actual results, performance, or achievements may differ materially from those suggested, expressed, or implied by forward-looking statements as a result of a wide variety or range of factors including, but not limited to, interest rate fluctuations; economic conditions in the Company's primary market area; demand for construction/land development, residential, commercial real estate, consumer, and other types of loans; success of new products; competitive conditions between banks and non-bank financial service providers; regulatory and accounting changes; technological factors affecting operations; pricing of products and services; and other risks detailed in the Company's reports filed with the Securities and Exchange Commission. Accordingly, these factors should be considered in evaluating forward-looking statements, and undue reliance should not be placed on such statements. The Company undertakes no responsibility to update or revise any forward-looking statement.
