DIGITAL INSIGHT CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. The Company and Summary of its Significant Accounting Policies

The Company

Digital Insight Corporation (the "Company") provides Internet banking services to credit unions, banks and savings and loans. The Company offers financial institutions cost-effective outsourced applications, branded in their name, which include Internet banking for their retail and commercial customers, a target marketing program to enable them to effectively sell additional financial services to end users, an authorized loan decisioning and contact center, a customized e-commerce portal web site design and implementation services. Substantially all of the Company's revenues are derived from these services.

On February 10, 2000, the Company merged with nFront, Inc. ("nFront"). The merger was accounted for as a pooling of interests and was effected by a stock for stock exchange. The financial results for the Company and nFront have been combined for the historical periods presented in accordance with the pooling of interests method. In addition, the Company acquired lView Network ("lView") on June 21, 2000 and AnyTime Access Inc. ("ATA") on July 31, 2000. Both acquisitions were accounted for using the purchase method of accounting.

The accompanying consolidated financial statements for the three months ended March 31, 2001 and 2000 have been prepared in accordance with generally accepted accounting principles ("GAAP") and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements in accordance with GAAP have been omitted or condensed in accordance with quarterly reporting requirements of the Securities and Exchange Commission (the "SEC"). Independent accountants have not audited these consolidated financial statements. The consolidated financial statements, however, include all adjustments (consisting of normal recurring adjustments), which are, in the opinion of management, necessary for a fair statement of the consolidated financial condition, results of operations and cash flows for such periods. However, these results are not necessarily indicative of results for any other interim period or for the full year. The accompanying consolidated balance sheet as of December 31, 2000 has been derived from the audited consolidated financial statements, but does not include all disclosures required by GAAP.

Management believes that the disclosures included in the accompanying interim consolidated financial statements and footnotes are adequate to make the information not misleading, but should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2000.

Revenue recognition

During the fourth quarter of 2000, the Company adopted Staff Accounting Bulletin No. 101 ("SAB 101") "Revenue Recognition in Financial Statements," issued by the SEC in December 1999. The Company's historical method of revenue recognition for implementation services was upon completion of the implementation process, which is typically 90 to 120 days after contract

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

initiation. The Company also deferred the implementation costs and recognized them upon completion of the implementation. Under SAB 101, the Company will now defer recognition of certain implementation fees and related direct incremental costs and recognize them over the life of the service agreement, generally three to five years. The change in accounting principle caused by SAB 101 resulted in a negative cumulative effect adjustment of approximately \$2.5 million at January 1, 2000. The consolidated financial statements previously reported as of March 31, 2000 and for the three months then ended have been adjusted to reflect this change in accounting method.

Long-lived assets

The Company identifies and records impairment losses on long-lived assets whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. Recoverability of these assets is determined by comparing the forecasted undiscounted cash flows attributable to such assets to their carrying

4

DIGITAL INSIGHT CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(Continued)

value. If the carrying value of the assets exceeds the forecasted undiscounted cash flows, then the assets are written down to their fair value. Fair value is determined based on discounted cash flows or appraised values, depending upon the nature of the assets. To date, there have been no such impairments.

New accounting standards

In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities." The new standard requires companies to record derivatives on their balance sheets as assets or liabilities, measured at fair value. Under SFAS No. 133, gains or losses resulting from changes in the values of derivatives are to be reported in the statement of operations or as a deferred item, depending on the use of the derivatives and whether they qualify for hedge accounting. The Company adopted SFAS No. 133 in the first quarter of 2001. To date, the Company has not engaged in any hedging activity. Application of SFAS No.133 did not have an impact on the Company's financial reporting.

Reclassifications

Certain reclassifications have been made to the consolidated financial statements as of March 31, 2000 and for the three months then ended in order to conform to the 2001 presentation.

Total investments.....	\$ 27,634	\$10,187
	=====	=====

3. Revolving line of credit

In May 2000, the Company obtained a \$10 million secured revolving credit commitment (the "Revolver") from a bank, which matures in May 2001. Interest on the outstanding borrowings is payable monthly. The interest rate on the Revolver is equal to the bank's prime rate. At March 31, 2001 and December 31, 2000, the bank's prime rate was 7.0% and 9.5%, respectively. The Revolver is collateralized by all of the Company's assets. As of March 31, 2001 and December 31, 2000, the Company had outstanding advances on the Revolver of \$5 million and \$1 million, respectively. The Company is currently negotiating with the bank for the renewal of this line of credit.

4. Restructuring charge

In February 2001, the Company announced a plan to strategically restructure its business and reduce operating expenses. The process included a review of potentially redundant functions and facilities. The majority of these redundancies was the result of the three acquisitions completed by the Company in 2000. As a result of this process, the Company notified 58 employees that their positions would be eliminated though out the first six months of 2001. The Company also anticipates the closure of its facility in San Francisco, California sometime in the second quarter of 2001.

DIGITAL INSIGHT CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(Continued)

The eliminated positions were comprised of nine positions in operational functions, 34 positions in sales, general and administrative and 15 positions in research and development. The eliminated positions were dispersed over the Company's various facilities, with 19 positions located at the Company's facility in Georgia, 16 positions at the facility in Sacramento, California, four positions at the facility in San Francisco, California and 19 positions at the corporate headquarters in Calabasas, California. The Company recorded a restructuring charge of approximately \$1,629,000 for severance payments and related benefits for these employees, approximately \$940,000 in deferred stock-based compensation expense for the acceleration of stock options and approximately \$707,000 for exit costs to be incurred as a result of the closure of the San Francisco facility.

During the three months ended March 31, 2001, the Company paid approximately \$995,000 in severance and related benefits related to the restructuring activities. The following table sets forth the 2001 restructuring reserve activity:

Deferred

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

	Employee Exit Related costs	stock-based compensation	Total
	-----	-----	-----

	=====	=====	=====

5. Reportable segments and major customers

The Company manages its business through two reportable segments: the Internet banking division and the lending division. The operations of these reportable segments was as follows for the three months ended March 31, 2001:

	Internet banking division(1)	Lending division(2)	Unallocated expenses(3)	Total
	-----	-----	-----	-----
	(In thousands)			
Revenues.....	\$16,998	\$ 3,418	\$ --	\$ 20,416
Gross profit.....	\$ 6,425	\$ 361	\$ --	\$ 6,786
Loss from operations.....	\$(7,450)	\$(1,256)	\$(12,158)	\$(20,864)

(1) Including amortization of deferred stock-based compensation of \$1,971.

(2) Including amortization of deferred stock-based compensation of \$272.

(3) Represents amortization of goodwill and intangible assets and restructuring charge.

For the three-month period ended March 31, 2001 no customer comprised more than 10% of revenues.

6

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the accompanying Consolidated Financial Statements and Notes thereto. The forward-looking statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") relating to certain matters involve risks and uncertainties, including anticipated financial performance, business prospects, anticipated capital expenditures and other similar matters, which reflect management's best judgment based on factors currently known. Actual results and experience could differ materially from the anticipated results or other expectations expressed in our forward-looking statements as a result of a number of factors, including but not limited to those discussed in the MD&A and under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2000.

As of March 31, 2001, we had contracts with 1,310 financial institutions,

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

1,066 of which had contracted for Internet banking services, 433 of which had contracted for cash management services and 177 of which had contracted for on-line lending services. There were approximately 1.8 million active Internet banking end users at the end of the quarter, up 90% from a year earlier and 17% from the prior quarter. We had a total of 788 Internet banking clients with live sites at March 31, 2001, which represented approximately 23.2 million potential end users and an overall penetration rate of 7.8%. The total number of potential end users of the 1,066 contracted Internet banking institutions was approximately 27 million.

We manage our business through two reportable segments: the Internet banking division and the lending division. The operations of these reportable segments was as follows for the three months ended March 31, 2001:

	Internet banking division(1)	Lending division(2)	Unallocated expenses(3)	Total

	(In thousands)			
Revenues.....	\$16,998	\$ 3,418	\$ --	\$ 20,416
Gross profit.....	\$ 6,425	\$ 361	\$ --	\$ 6,786
Loss from operations.....	\$(7,450)	\$(1,256)	\$(12,158)	\$(20,864)

- (1) Including amortization of deferred stock-based compensation of \$1,971.
- (2) Including amortization of deferred stock-based compensation of \$272.
- (3) Represents amortization of goodwill and intangible assets and restructuring charge.

For the three-month period ended March 31, 2001 no customer comprised more than 10% of revenues.

Results of Operations

The discussion of the results of operations compares the three months ended March 31, 2001 with the three months ended March 31, 2000. In February 2000, we merged with nFront in a pooling of interests transaction. Accordingly, our financial results have been combined with the financial results of nFront for the historical periods presented.

Comparison of Three Months Ended March 31, 2001 and March 31, 2000

Results of Operations: Net loss for the three months ended March 31, 2001 was approximately \$20 million, compared to approximately \$23.4 million for the corresponding period in 2000.

Revenues: Revenues for the three months ended March 31, 2001 were approximately \$20.4 million, an increase of 133.8% from the approximately \$8.7 million reported for the same period of the prior year. Revenues for the three months ended March 31, 2001 were comprised of approximately \$17 million from the Internet banking division and approximately \$3.4 million from the lending division acquired in July 2000. The increase in Internet banking revenues of approximately \$8.3 million was a result of end user growth. The number of

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

Internet banking end users increased 90% from approximately 950,000 at March 31, 2000 to approximately 1.8 million at March 31, 2001 and 17% from the prior quarter. We anticipate over two million end users by June 30, 2001. The recent consolidation of the banking and financial services industry could result in a smaller market for our products and services. Terminations of existing customers through industry consolidation or other occurrences may result in one-time fees and in some cases fees related to transition services, which could affect our revenue mix and have a negative impact on our future revenues.

Cost of Revenues: Cost of revenues are comprised primarily of salaries and related personnel expenses, network costs, expenses related to the operation of our data centers and fees paid to third parties, including bill payment vendors, data processing vendors and communication services providers.

Cost of revenues increased from approximately \$5.2 million for the three months ended March 31, 2000 to approximately \$13.6 million for the three months ended March 31, 2001, representing an increase of 164.5%. Cost of revenues for the three months ended March 31, 2001 was comprised of approximately \$10.5 million relating to the Internet banking division and approximately \$3.1 million relating to the lending division. The increase in the cost of revenues relating to the Internet banking division of approximately \$5.3 million was primarily due to the costs of implementing and servicing additional financial institutions combined with continued investment in our data center infrastructure.

Gross Profit: Gross profit increased from approximately \$3.6 million for the three months ended March 31, 2000 to approximately \$6.8 million for the three months ended March 31, 2001. Gross margin for the Internet banking division as a percentage of revenues decreased from 41% for first quarter of 2000 to 37.8% for the first quarter of 2001. Gross profit for the lending division as a percent of revenues was 10.5% for the first quarter of 2001. In the future, we expect gross profit to be positively affected by increased revenues as the user base grows combined with cost reductions resulting from the elimination of duplicate data centers and our restructuring plan partially offset by increased costs in customer services as usage increases and to a lesser extent increased utility costs.

Sales, General and Administrative: Sales, general and administrative expenses consist primarily of salaries and related expenses for executive, sales, marketing, finance, human resources, administrative personnel and other general corporate expenses. In addition, these expenses include marketing expenses, such as trade shows and promotional costs.

Sales, general and administrative expenses decreased 9.9%, from approximately \$8.9 million for the three months ended March 31, 2000 to approximately \$8 million for the three months ended March 31, 2001. As a percentage of revenues, sales general and administrative expenses decreased from 101.6% for the three months ended March 31, 2000 to 39.2% for the three months ended March 31, 2001.

Research and Development: Research and development expenses consist primarily of salaries, related personnel expenses and consultant fees related to the design, development, testing and enhancement of both our products and our data processing vendor interface software.

Research and development expenses increased from approximately \$3.9 million for the three months ended March 31, 2000 to approximately \$7.5 million for the three months ended March 31, 2001. This increase was primarily due to higher personnel expenses related to additional full-time software engineering staff required for the functional enhancement of existing products and to a lesser extent due to costs incurred for the development of new products.

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

Research and development expenses as a percentage of revenues decreased from 45.2% for the three months ended March 31, 2000 to 36.7% for the three months ended March 31, 2001. We expect these expenses to decline in the second quarter as a result of the restructuring and reduction in usage of outside consultants.

Amortization of Goodwill and Intangible Assets: The acquisitions of lView and ATA generated goodwill and intangible assets of approximately \$151.2 million, which will be amortized on a straight-line basis over the estimated lives of three to five years.

8

Restructuring Charge: In February 2001, we announced a plan to strategically restructure our business and reduce operating expenses. The process included a review of potentially redundant functions and facilities. The majority of these redundancies was the result of the three acquisitions completed in 2000. As a result of this process, we notified 58 employees that their positions would be eliminated during the first six months of 2001. We also anticipate the closure of our facility in San Francisco, California sometime in the second quarter of 2001.

The eliminated positions were comprised of nine positions in operational functions, 34 positions in sales, general and administrative and 15 positions in research and development. The eliminated positions were dispersed over our various facilities, with 19 positions located at our facility in Georgia, 16 positions at the facility in Sacramento, California, four positions at the facility in San Francisco, California and 19 positions at the corporate headquarters in Calabasas, California. We recorded a restructuring charge of approximately \$1,629,000 for severance payments and related benefits for these employees, approximately \$940,000 in deferred stock-based compensation expense for the acceleration of stock options and approximately \$707,000 for exit costs to be incurred as a result of the closure of the San Francisco facility.

Interest and Other Income, net: Interest and other income, net decreased from approximately \$995,000 for the three months ended March 31, 2000 to approximately \$838,000 for the three months ended March 31, 2001. This decrease was primarily due to lower average cash balances in the three months ended March 31, 2001, as a result of our utilization of proceeds from the public offerings completed in August 2000 and October 1999.

Liquidity and Capital Resources

At March 31, 2001, we had cash, cash equivalents and short-term investments of \$72 million and \$2 million in long-term investments. In addition, we have access to our \$10 million Revolver, which matures in May 2001, and our \$10 million equipment line of credit. As of March 31, 2001, we had \$5 million and \$2.5 million of outstanding advances on the Revolver and the equipment line of credit, respectively. We are currently negotiating with the bank for the renewal of the Revolver.

Net cash used in operating activities was approximately \$7.8 million for the three months ended March 31, 2001 and approximately \$18.2 million for the three months ended March 31, 2000. The decrease in cash used in operating activities was primarily due to the decrease in non-recurring costs related to the nFront merger.

Net cash used in investing activities was approximately \$20.8 million for the three months ended March 31, 2001 and approximately \$7.7 million for the three months ended March 31, 2000. The increase in cash used in investing activities was primarily due to the increase in purchase of investments.

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

Net cash provided by financing activities was approximately \$3.4 million for the three months ended March 31, 2001 compared to net cash used in financing activities of approximately \$53,000 for the three months ended March 31, 2000. The increase in cash provided by investing activities was primarily due to proceeds from the Revolver.

We have no material commitments other than the Revolver, equipment line of credit and obligations under operating and capital leases. Future capital requirements will depend upon many factors, including the timing of research and product development efforts and the expansion of our marketing efforts. We expect to continue to expend significant amounts on expansion of facility infrastructure, ongoing research and development, computer and related data center equipment, and personnel.

We believe that our cash, cash equivalents and short-term investment balances will be sufficient to satisfy our cash requirements for at least the next 12 months. We intend to invest our cash in excess of current operating requirements in short-term, interest-bearing, investment grade securities.

New Accounting Standards

In June 1998, the Financial Accounting Standards Board (the "FASB") issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." The new standard requires companies to record derivatives on the balance sheet as assets or liabilities measured at fair value. Under SFAS No. 133, gains or losses resulting from changes in the values of derivatives are to be reported in the statement of operations or as a deferred item, depending on the use of the derivatives and whether they qualify for the hedge accounting. We adopted SFAS No. 133 in the first quarter of 2001. To date, we have not engaged in any hedging activity. Application of SFAS No.133 did not have an impact on our financial reporting.

Recent Events

In February 2001, we renewed our agreement with Metavante Corporation to provide bill payment services for an additional four years with additional one-year renewal terms. The agreement provides for payment of fees based on the number of customers, end users and bill payment transactions.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to the impact of interest rate changes and changes in the market values of our investments. Our interest income is sensitive to changes in the general level of U.S. interest rates. In this regard, changes in U.S. interest rates affect the interest earned on our cash equivalents. Our exposure to market rate risk for changes in interest rates relates primarily to our investment portfolio. We have not used derivative financial instruments in our investment portfolio. We invest our excess cash in debt instruments of the U.S. government and its agencies, and in high-quality corporate issuers and, by policy, limit the amount of credit exposure to any one issuer. We protect and preserve our invested funds by limiting default, market and reinvestment risk. Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may fall short of expectations due to changes in interest rates, or we may suffer losses in principal if forced to sell securities, which have declined in market value due to changes in interest rates.

We are also exposed to the impact of interest rate changes as they affect the Revolver and the multiple disbursement note. The interest rate charged on the these credit facilities varies with the bank's prime rate and, consequently, our interest expense will fluctuate with changes in the general level of U.S. interest rates. As of March 31, 2001, we had outstanding advances under the Revolver and multiple disbursement note of \$5 million and \$2.5 million, respectively.

PART II--OTHER INFORMATION

ITEM 6. Exhibits and Reports on Form 8-K

(a) Exhibits

Edgar Filing: DIGITAL INSIGHT CORP - Form 10-Q

- 3.1 Amendment No. 1 to the Restated Bylaws. Filed herewith.
- 10.1 Agreement between Metavante and the Registrant dated February 28, 2001. (Confidential treatment has been requested for portions of this agreement). Filed herewith.
