ITEM 4.02. NON-RELIANCE ON PREVIOUSLY ISSUED FINANCIAL STATEMENTS OR A RELATED AUDIT REPORT OR COMPLETED INTERIM REVIEW.

(a) On January 2, 2007, the Audit Committee of the Kearny Financial Corp. (the "Company") Board of Directors determined that the Company will need to restate the financial statements contained in its Annual Report on Form 10-K for the fiscal year ended June 30, 2006 and Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2006 and September 30, 2006 (collectively, the "Financial Statements") and the previously issued Financial Statement should no longer be relied upon.

The Company previously disclosed its intention to reclassify its portfolio of securities held to maturity (consisting primarily of municipal bonds and to a lesser degree U.S. government obligations) to available for sale during the quarter ending December 31, 2006, for the purpose of executing sales of the municipal bonds at opportune times. A decline in pre-tax income reduces the advantage of holding tax-exempt instruments and their yield is substantially below market. The carrying value of the municipal bond portfolio was \$199.0 million at September 30, 2006. During the three months ended December 31, 2006, the Company sold \$105.9 million of the bonds recording a nominal gain.

The determination has now been made by the Audit Committee that under Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities," an error was made in not making this reclassification during the quarter ended March 31, 2006 when the Company sold all of the government agency notes held in the portfolio. Notwithstanding the Company's decision to make the reclassification during the quarter ended December 31, 2006 in order to permit management to make periodic sales of securities from this portfolio when the opportunity presents itself, proper accounting treatment of the securities held to maturity portfolio required the change to already have been made. Furthermore, the Audit Committee believes that this reclassification should be extended to mortgage-backed securities held to maturity and included in the Financial Statements for the fiscal year ended June 30, 2006 and quarterly periods ended March 31, 2006 and September 30, 2006.

The effect of this change is that the securities will be reported in the Financial Statements at fair value instead of at amortized cost, which will result in a change in the value of these assets previously reported on the statements of financial condition at March 31, 2006, June 30, 2006 and September 30, 2006. Carrying these securities at fair value will impact the accumulated other comprehensive income (loss), which is a component of stockholders' equity. The adjustments to be made to the Financial Statements are non-cash in nature and do not result in changes to the income statements or previously reported total net income for any period.

The Company intends to file the restated Financial Statements during the first quarter of the 2007 calendar year. The Audit Committee for the Company discussed with the Company's independent accountant the matters disclosed in this filing.
