Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): Not Applicable

CELLCOM ISRAEL LTD. ANNOUNCES FILING ITS OBJECTION TO THE PROPOSED INTERCONNECT
TARIFF REDUCTION

NETANYA, Israel, June 25, 2010 – Cellcom Israel Ltd. (NYSE: CEL) (the "Company") announced today that it has filed its formal objection to the previously reported Israeli Ministry of Communications announcement, that it is considering reducing interconnect tariffs payable to cellular operators.

As previously reported, the Company can not assess at this stage the ultimate outcome of the hearing. If the changes as currently proposed are adopted, they are expected to have a material adverse effect on the Company's results. Such adverse effects include both the direct effect of the proposed reduction (the estimated scope of which was previously reported by the Company) and anticipated loss of outgoing cellular calls (which may occur due to an arbitrage gap created under the proposed tariff in favor of landline alternatives, including through the usage of landline based "callback" services), as well as other effects of the proposed reduction in interconnect tariffs, such as facilitating the entry of MVNO's to the market.

The Company intends to take measures to mitigate as much as possible expected adverse effects of such proposed changes but cannot assure that these will be successful.

For additional details see the Company's most recent annual report for the year ended December 31, 2009 on Form 20-F under "Item 3. Key Information – D. Risk Factors – Risks related to our business – We operate in a heavily regulated industry, which can harm our results of operations" as well as under "Item 4. Information on the Company – B. Business Overview – Competition" and "Government Regulations –Tariff Supervision" and the Company's immediate reports on form 6-K dated May 5, 2010 and the Company's immediate report regarding the Company's results of operations in the first quarter of 2010 on form 6-K dated May 17, 2010, under "Other developments during the first quarter of 2010 and subsequent to the end of the reporting period – Regulation – Tariff Supervision".

Forward Looking Statement

The information contained in this press release contains, or may be deemed to contain, forward-looking statements (as defined in the U.S. Private Securities Litigation Reform Act of 1995 and the Israeli Securities Law, 1968). Said forward-looking statements, relating to the reduction of interconnect tariffs and its impact on the Company's results of operations, are subject to uncertainties and assumptions about the outcome of the aforesaid hearing, the actual effects of the reduction (including customer reaction and substitution of other products) and the Company's ability to mitigate the expected lost revenues. Any change to the tariff proposed, the actual effect of the reduction, as well as the Company's ability to mitigate the expected lost revenues, could lead to materially different outcome than that set forth above.

About Cellcom Israel

Cellcom Israel Ltd., established in 1994, is the leading Israeli cellular provider; Cellcom Israel provides its approximately 3.313 million subscribers (as at March 31, 2010) with a broad range of value added services including cellular and landline telephony, roaming services for tourists in Israel and for its subscribers abroad and additional services in the areas of music, video, mobile office etc., based on Cellcom Israel's technologically advanced infrastructure.
