The RBS Oil Trendpilot(TM) Exchange Traded Notes (RBS ETNs) are unsecured and senior obligations of The Royal Bank of Scotland plc (RBS plc), and are fully and unconditionally guaranteed by The Royal Bank of Scotland Group plc (RBS Group). Any payments on the RBS ETNs when they become due at maturity or upon early repurchase or redemption are dependent on the ability of RBS plc and RBS Group to pay, and are also subject to market risk.

The return on the RBS ETNs will be based on the performance of the RBS Oil Trendpilot(TM) Index (USD) (the "Index"), which utilizes a systematic trend-following strategy to provide exposure to either the RBS 12-Month Oil Total Return Index (USD) (the "Benchmark Index", described below) or the yield on a hypothetical notional investment in 3-month U.S. Treasury bills as of the most recent weekly auction (the "Cash Rate"), depending on the relative performance of the Benchmark Index on a simple historical moving average basis.

RBS OIL TRENDPILOT(TM) INDEX METHODOLOGY

If the closing level of the Benchmark Index is at or above its historical 100-Index business day simple moving average for five consecutive Index business days	A positive trend is established: The Index will track the Benchmark Index
If the closing level of the Benchmark Index is below its historical 100-Index business day simple moving average for five consecutive Index business days	A negative trend is established: The Index will track the Cash Rate

If neither of the above conditions is satisfied, the trend of the Index will be the same as the trend of the Index on the immediately preceding Index business day. The Index will implement any trend reversal at the open of trading on the second Index business day immediately following the Index business day on which the Index trend switches from positive to negative or from negative to positive, as the case may be.

the future. The hypothetical illustration above also does not include any fees, transaction costs or expenses.

RBS 12-MONTH OIL TOTAL RETURN INDEX (USD) (THE "BENCHMARK INDEX")

---

The Benchmark Index utilizes a rules-based methodology to provide exposure to a hypothetical notional investment in a series of 12 light sweet crude oil (WTI) futures contracts that are traded on the New York Mercantile Exchange. The 12 futures contracts comprising the Benchmark Index on any given day will be the futures contract scheduled to expire in the immediately following calendar month and futures contracts scheduled to expire in each of the eleven months thereafter. The Benchmark Index is rebalanced on a monthly basis so that each of the 12 contracts is equally weighted upon each rebalancing. For more information regarding the RBS 12-Month Oil Total Return Index (USD) methodology please see the RBS Oil Trendpilot ETN pricing supplement.

**CERTAIN RISK CONSIDERATIONS:** The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The RBS ETNs and the Index do not provide exposure to spot prices of crude oil and, consequently, may not be representative of an investment that provides exposure to crude oil. The Index may underperform the Benchmark Index, and is expected to perform poorly in volatile markets. Liquidity of the market for RBS ETNs may vary over time. The RBS ETNs are not principal protected and do not pay interest. Any payment on the RBS ETNs is subject to the ability of RBS plc, as the issuer, and RBS Group, as the guarantor, to pay their respective obligations when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. you should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk factors" section of the pricing supplement, before investing.

**IMPORTANT INFORMATION:** RBS plc and RBS Group have each filed a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission (SEC) for the offering of RBS ETNs to which this communication relates. Before you invest in any RBS ETNs, you should read the prospectus in that registration statement and other documents that have been filed by RBS plc and RBS Group with the SEC for more complete information about RBS plc and RBS Group, and the offering. You may get these documents for free by visiting EDGAR on the SEC's web site at [www.sec.gov](http://www.sec.gov). Alternatively, RBS plc, RBS Securities Inc. (RBSSI) or any dealer participating in the offering will arrange to send you the prospectus and the pricing supplement at no charge if you request it by calling 1-855-RBS-3877 (toll-free).
