These forward-looking statements are based on estimates and assumptions by our management that, although we believe to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. The following represent some, but not necessarily all, of the factors that could cause actual results to differ from historical results or those

anticipated or predicted by our forward-looking statements: the timing to consummate the proposed transaction with Actavis; the risk that a condition to closing of the proposed transaction with Actavis may not be satisfied; the risk that a regulatory approval that may be required for the proposed transaction with Actavis is delayed, is not obtained or is obtained subject to conditions that are not anticipated; New Actavis' ability to achieve the synergies and value creation contemplated by the proposed acquisition; New Actavis' ability to promptly and effectively integrate Actavis' and Warner Chilcott's businesses; the diversion of management time on transaction-related issues; our substantial indebtedness, including increases in the LIBOR rates on our variable-rate indebtedness above the applicable floor amounts; competitive factors and market conditions in the industry in which we operate, including the approval and introduction of generic or branded products that compete with our products; our ability to protect our intellectual property; a delay in qualifying any of our manufacturing facilities that produce our products, production or regulatory problems with either our own manufacturing facilities or those of third party manufacturers, packagers or API suppliers upon whom we may rely for some of our products or other disruptions within our supply chain; pricing pressures from reimbursement policies of private managed care organizations and other third party payors, government sponsored health systems and regulatory reforms, and the continued consolidation of the distribution network through which we sell our products; changes in tax laws or interpretations that could increase our consolidated tax liabilities; government regulation, including U.S. and foreign health care reform, affecting the development, manufacture, marketing and sale of pharmaceutical products, including our ability and the ability of companies with whom we do business to obtain necessary regulatory approvals; adverse outcomes in our outstanding litigation, regulatory investigations or arbitration matters or an increase in the number of such matters to which we are subject; the loss of key senior management or scientific staff; our ability to manage the growth of our business by successfully identifying, developing, acquiring or licensing new products at favorable prices and marketing such new products; our ability to obtain regulatory approval and customer acceptance of new products, and continued customer acceptance of our existing products; and the other risks identified in our periodic filings including our Annual Report on Form 10-K for the year ended December 31, 2012, and from time-to-time in our other investor communications. We caution you that the foregoing list of important factors is not exclusive.
