1. GENERAL INFORMATION

Advanced Semiconductor Engineering, Inc. (the “Company”), a corporation incorporated under the laws of Republic of China (the “ROC”), and its subsidiaries (collectively referred to as the “Group”) offer a comprehensive range of semiconductors packaging, testing, and electronic manufacturing services (“EMS”).

The Company’s ordinary shares are listed on the Taiwan Stock Exchange (the “TSE”) under the symbol “2311”. Since September 2000, the ordinary shares of the Company have been traded on the New York Stock Exchange (the “NYSE”) under the symbol “ASX” in the form of American Depositary Shares (“ADS”). The ordinary shares of its subsidiary, Universal Scientific Industrial (Shanghai) Co., Ltd (the “USISH”), are listed on the Shanghai Stock Exchange (the “SSE”) under the symbol “601231”.

The consolidated financial statements are presented in the Company’s functional currency, New Taiwan dollar (NT\$).

2. APPROVAL OF FINANCIAL STATEMENTS

The condensed consolidated financial statements were authorized for issue by the management on December 14, 2017.

**APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS
3. AS ISSUED BY THE INTERNATIONAL ACCOUNTING STANDARDS BOARD (“IASB”) (collectively,
“IFRSs”)**

- a. Amendments to IFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following new, revised or amended standards and interpretations that have been issued and effective:

New, Revised or Amended Standards and Interpretations	Effective Date Issued by IASB (Note 1)
Amendments to IFRSs Annual Improvements to IFRSs: 2014-2016 Cycle	Note 2
Amendments to IAS 7 Disclosure Initiative	January 1, 2017
Amendments to IAS 12 Recognition of Deferred Tax Assets for Unrealized Losses	January 1, 2017

Note 1: The aforementioned new, revised or amended standards and interpretations are effective for annual period beginning on or after the effective dates, unless specified otherwise.

Note 2: The amendment to IFRS 12 is retrospectively applied for annual periods beginning on or after January 1, 2017; the amendment to IAS 28 is retrospectively applied for annual periods beginning on or after January 1, 2018.

Except the adoption of Amendments to IAS 7 which can be referred to Note 34e, the Group believes that the adoption of the aforementioned new, revised or amended standards and interpretations did not have a material effect on the Group's accounting policies.

- b. New, revised or amended standards and interpretations in issue but not yet effective

The Group has not applied the following new, revised or amended standards and interpretations that have been issued but are not yet effective:

New, Revised or Amended Standards and Interpretations		Effective Date Issued by IASB (Note)
Amendments to IFRS 2	Classification and Measurement of Share-based Payment Transactions	January 1, 2018

Amendments to IAS 28	Long-term Interests in Associate and Joint Venture	January 1, 2019
IFRIC 23	Uncertainty over Income Tax Treatments	January 1, 2019

Note: The aforementioned new, revised or amended standards and interpretations are effective for annual period beginning on or after the effective dates, unless specified otherwise.

- c. Significant changes in accounting policy resulted from new, revised and amended standards and interpretations in issue but not yet effective

Except for the following, the Group believes that the adoption of the aforementioned new, revised or amended standards and interpretations will not have a material effect on the Group's accounting policies. As of the date that the accompanying condensed consolidated financial statements were authorized for issue, the Group continues in evaluating the impact on its financial position and operating results as a result of the initial adoption of the below standards and interpretations. The related impact will be disclosed when the Group completes the evaluation.

IFRS 9 "Financial Instruments" and related amendments

Recognition, measurement and impairment of financial assets

With regards to financial assets, all recognized financial assets that are within the scope of IAS 39 “Financial Instruments: Recognition and Measurement” are subsequently measured at amortized cost or fair value. Under IFRS 9, the requirement for the classification of financial assets is stated below:

For the Group’s debt instruments that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, their classification and measurement are as follows:

For debt instruments, if they are held within a business model whose objective is to collect the contractual cash flows, the financial assets are measured at amortized cost and are assessed for impairment continuously with 1) impairment loss recognized in profit or loss, if any. Interest revenue is recognized in profit or loss by using the effective interest method;

For debt instruments, if they are held within a business model whose objective is achieved by both the collecting of contractual cash flows and the selling of financial assets, the financial assets are measured at fair value through other comprehensive income (FVTOCI) and are assessed for impairment. Interest revenue is recognized in profit or 2) loss by using the effective interest method, and other gain or loss shall be recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses. When the debt instruments are derecognized or reclassified, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

Except for above, all other financial assets are measured at fair value through profit or loss. However, the Group may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss. No subsequent impairment assessment is required, and the cumulative gains or losses previously recognized in other comprehensive income cannot be reclassified from equity to profit or loss.

The impairment of financial assets

IFRS 9 requires that impairment loss on financial assets is recognized by using the “Expected Credit Losses Model”. The credit loss allowance is required for financial assets measured at amortized cost, investment in debt instruments measured at FVTOCI, lease receivables, contract assets arising from IFRS 15 “Revenue from Contracts with Customers”, certain written loan commitments and financial guarantee contracts. A loss allowance for the 12-month expected credit losses is required for a financial asset if its credit risk has not increased significantly since initial recognition. A loss allowance for full lifetime expected credit losses is required for a financial asset if its credit risk has increased significantly since initial recognition and is not low. However, a loss allowance for full lifetime expected credit losses is required for trade receivables that do not constitute a financing transaction.

For purchased or originated credit-impaired financial assets, the Group takes into account the expected credit losses on initial recognition in calculating the credit-adjusted effective interest rate. Subsequently, any changes in expected losses are recognized as a loss allowance with a corresponding gain or loss recognized in profit or loss.

Hedge accounting

The main changes in hedge accounting amended the application requirements for hedge accounting to better reflect the entity’s risk management activities. Compared with IAS 39, the main changes include: (1) enhancing types of transactions eligible for hedge accounting, specifically broadening the risk eligible for hedge accounting of

non-financial items; (2) changing the way hedging cost of derivative instruments are accounted for to reduce profit or loss volatility; and (3) replacing retrospective effectiveness assessment with the principle of economic relationship between the hedging instrument and the hedged item.

Transition

Financial instruments that have been derecognized prior to the effective date of IFRS 9 cannot be reversed to apply IFRS 9 when it becomes effective. Under IFRS 9, the requirements for classification, measurement and impairment of financial assets are applied retrospectively with the difference between the previous carrying amount and the carrying amount at the date of initial application recognized in the current period and restatement of prior periods is not required. The

requirements for general hedge accounting shall be applied prospectively and the accounting for hedging options shall be applied retrospectively.

Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”

The amendments stipulated that, when the Group sells or contributes assets that constitute a business (as defined in IFRS 3) to an associate or joint venture, the gain or loss resulting from the transaction is recognized in full. Also, when the Group loses control over a subsidiary that contains a business but retains significant influence or joint control, the gain or loss resulting from the transaction is recognized in full.

Conversely, when the Group sells or contributes assets that do not constitute a business to an associate or joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the unrelated investors’ interest in the associate or joint venture, i.e. the Group’s share of the gain or loss is eliminated. Also, when the Group loses control over a subsidiary that does not contain a business but retains significant influence or joint control in an associate or a joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the unrelated investors’ interest in the associate or joint venture, i.e. the Group’s share of the gain or loss is eliminated.

IFRS 15 “Revenue from Contracts with Customers” and related amendments

IFRS 15 establishes principles for recognizing revenue that apply to all contracts with customers, and will supersede IAS 18 “Revenue”, IAS 11 “Construction Contracts” and a number of revenue-related interpretations.

When applying IFRS 15, an entity shall recognize revenue by applying the following steps:

- Identify the contract with the customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contracts; and

— Recognize revenue when the Group satisfies a performance obligation.

The Group will adopt IFRS 15 and related amendments starting from January 1, 2018, including retrospective application to all contracts that are not yet complete as of January 1, 2018, and anticipate to apply the modified retrospective transition method. Under the modified retrospective transition method, the Group will recognize the cumulative effect of applying IFRS 15 and related amendments as an adjustment to the opening balance of retained earnings as at the date of initial application. The comparative financial statements of prior periods will be retained as reported under the previous standards.

Presented below is the status of the process we have utilized for the adoption of IFRS 15 and related amendments and the significant implementation matters addressed:

The Group established a global cross-functional project management implementation team to assess all potential impacts of this standard.

The Group is reviewing current accounting policies and practices in each reporting segment to identify potential differences that would result from the application of this standard.

Customers and contracts were identified.

Evaluation of the contract provisions and the comparison of historical accounting policies and practices to the requirements of the new standard is in process, including the related qualitative disclosures regarding the potential impact of the effects of the accounting policies we expect to apply and a comparison to our current revenue recognition policies. We expect to complete this process prior to December 31, 2017.

While the evaluation of the impact is still in process, based on our preliminary evaluation, IFRS 15 and related amendments may result in a change to the timing of revenue recognition; however, such change is not expected to have a material quantitative impact on the Group's consolidated financial statements.

IFRS 16 “Leases”

IFRS 16 sets out the accounting standards for leases that will supersede IAS 17 and a number of related interpretations.

Under IFRS 16, if the Group is a lessee, it shall recognize right-of-use assets and lease liabilities for all leases on the consolidated balance sheets except for low-value and short-term leases. The Group may elect to apply the accounting method similar to the accounting for operating lease under IAS 17 to the low-value and short-term leases. On the consolidated statements of comprehensive income, the Group should present the depreciation expense charged on the right-of-use asset separately from interest

expense accrued on the lease liability; interest is computed by using effective interest method. On the consolidated statements of cash flows, cash payments for the principal portion of the lease liability are classified within financing activities; cash payments for interest portion are classified within operating activities.

The application of IFRS 16 is not expected to have a material impact on the accounting of the Group as lessor.

When IFRS 16 becomes effective, the Group may elect to apply this Standard either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of the initial application of this Standard recognized at the date of initial application.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Statement of Compliance

The condensed consolidated financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting”. The condensed consolidated financial statements are not subject to qualification relating to the application of IFRSs.

The consolidated financial statements are condensed as they do not include all of the information required for a complete set of annual financial statements, and they should be read in conjunction with the Group’s annual audited consolidated financial statements and related notes thereto for the year ended December 31, 2016 prepared in accordance with IFRSs.

b. Basis of Consolidation

The basis for the condensed consolidated financial statements

The basis applied in these condensed consolidated financial statements is consistent with those applied in the consolidated financial statements for the year ended December 31, 2016.

c. Other significant accounting policies

Except for the following, the accounting policies applied in these condensed consolidated financial statements are consistent with those applied in the Group’s consolidated financial statements for the year ended December 31, 2016.

1) Investment properties

Investment properties are properties held to earn rentals (including property under construction for such purposes).

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss. Depreciation is recognized using the straight-line method.

Investment properties under construction are stated at cost less accumulated depreciation and accumulated impairment loss. Cost includes professional fees and, borrowing costs eligible for capitalization. Depreciation of these assets commences when the assets are ready for their intended use.

On derecognition of an investment property, the difference between the net disposal proceeds and the carrying amount of the asset is included in profit or loss.

2) Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

3) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

d. U.S. Dollar Amounts

A translation of the condensed consolidated financial statements into U.S. dollars is included solely for the convenience of the readers, and has been translated from New Taiwan dollar (NT\$) at the exchange rate as set forth in the statistical release by the U.S. Federal Reserve Board of the United States, which was NT\$30.33 to US\$1.00 as of September 30, 2017. The translation should not be construed as a representation that the NT\$ amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The same critical accounting judgments and key sources of estimation uncertainty of the consolidated financial statements have been followed in these condensed consolidated financial statements as were applied in the preparation of the Group's consolidated financial statements for the year ended December 31, 2016.

a. Trade receivables

The Group's average credit terms were 30 to 90 days. Allowance for doubtful debts is assessed by reference to the collectability of receivables by evaluating the account aging, historical experience and current financial condition of customers.

As of December 31, 2016 and September 30, 2017, except that the Group's five largest customers accounted for 30% and 34% of accounts receivable, respectively, the concentration of credit risk is insignificant for the remaining accounts receivable.

b. Transfers of financial assets

Except those factored receivables of US\$41,849 thousand in prior years have been collected by Citi Bank during the nine months ended September 30, 2016, there was no receivables factored nor advances received for the nine months ended September 30, 2016 and 2017, respectively. The credit lines under the factoring agreements with Citi Bank were both US\$66,000 thousand for the nine months ended September 30, 2016 and 2017.

Pursuant to the factoring agreement, losses from commercial disputes (such as sales returns and discounts) should be borne by the Company, while losses from credit risk should be borne by the banks. The Company also issued promissory notes to the banks for commercial disputes which remained undrawn since. The promissory notes both amounted to US\$2,000 thousand as of December 31, 2016 and September 30, 2017. As of September 30, 2017, there was no significant losses from commercial disputes in the past and the Company does not expect any significant commercial dispute losses in the foreseeable future.

b. Investments in joint ventures

The joint venture that was not individually material and accounted for using the equity method was the Group's investment in ASE Embedded Electronics Inc. ("ASEEE"). In May 2015, the Group and TDK Corporation ("TDK") entered into an agreement to establish a joint venture to invest in ASEEE. The Group additionally participated in ASEEE's cash capital increase with NT\$146,903 thousand in September 2016. As of December 31, 2016 and 1) September 30, 2017, the percentages of ownership were both 51%. ASEEE are located in ROC and engages in the production of embedded substrate. According to the joint arrangement, the Group and TDK must act together to direct the relevant operating activities and, as a result, the Group does not control ASEEE. The investment in ASEEE is accounted for using the equity method.

Due to the Group's future operation plans and capacity evaluation or production demands in segment of packaging and testing, the Group believed that a portion of property, plant and equipment does not qualify for the production needs and therefore recognized an impairment loss of NT\$886,846 thousand and NT\$285,466 thousand (US\$9,412 thousand) under the line item of other operating income and expenses in the condensed consolidated statements of comprehensive income for the nine months ended September 30, 2016 and 2017, respectively. The recoverable amount of the impaired property, plant and equipment is determined on the basis of its value in use and the Group expects to derive zero future cash flows from these assets.

Each class of property, plant and equipment was depreciated on a straight-line basis over the following useful lives:

Buildings and improvements	
Main plant buildings	I0-40 years
Cleanrooms	I0-20 years
Others	K-20 years
Machinery and equipment	J-10 years
Other equipment	J-20 years

The capitalized borrowing costs for the nine months ended September 30, 2016 and 2017, respectively, are disclosed in Note 24.

In September 2013, the Company offered the third unsecured convertible overseas bonds (the “Bonds”) in US\$400,000 thousand. The Bonds is zero coupon bonds with the maturity of 5 years, in denominations of US\$200 thousand or in any integral multiples thereof. Each holder of the Bonds has the right at any time on or after October 16, 2013 and up to (and including) August 26, 2018, except during legal lock-up period, to convert the Bonds into a newly issued listed common shares at the conversion price NT\$33.085, determined on the basis of a fixed exchange rate of US\$1 to NT\$29.956. The conversion price will be adjusted in accordance with the conversion provisions due to anti-dilution clause. As of December 31, 2016, the conversion price was NT\$28.99. As of September 30, 2017, the Bonds holders have exercised the conversion right to convert the Bonds of US\$399,600 thousand into the company’s ordinary shares at conversion prices from NT\$27.95(US\$0.92) to NT\$28.96 (US\$0.95).

The Bonds may be redeemed at the option of the Company, in whole or in part, at any time on or after the third anniversary of the offering date provided that (1) the closing price, translated into U.S. dollars, of the ordinary shares for a period of 20 consecutive trading days is at least 130% of the conversion price, (2) at least 90% in aggregate principal amount of the Bonds originally outstanding has been redeemed, repurchased and canceled or converted, or (3) the Company is required to pay additional taxes on the Bonds as a result of certain changes in tax laws in the ROC.

Each holder shall have the right to request the Company repurchase all or any portion of the principal amount thereof of a holder’s Bonds (1) on the third anniversary of the offering date, (2) in the event of a change of control, or (3) in the event of delisting.

The Bonds contained a debt host contract, recognized as bonds payable, and the conversion option, redemption option and put option (collectively the “Bonds Options”) aggregately recognized as financial liabilities at FVTPL. The effective interest rate of the debt host contract was 3.16% and the aggregate fair value of the Bonds Options was NT\$1,667,950 thousand on initial recognition.

The Company’s board of directors resolved in July 2017 to issue a notice of early redemption to Bonds holders. As of September 30, 2017, the closing price of the Company’s ordinary shares (translated into U.S. dollars at the prevailing rates) for a period of 20 consecutive trading days is higher than 130% of the conversion price in U.S. dollar translated at the fixed exchange rate of US\$1 to NT\$29.956 determined on pricing date per ordinary share. Therefore, except those have been converted, the Company early redeemed the outstanding Bonds of US\$400 thousand in September 2017.

b. In July 2015, the Company offered the forth unsecured convertible overseas bonds (the “Currency Linked Bonds”) in US\$200,000 thousand. The Currency Linked Bonds is zero coupon bonds with the maturity of 2.75 years, in denominations of US\$200 thousand or in any integral multiples thereof. Repayment, redemption and put amount denominated in U.S. dollar will be converted into New Taiwan dollar amount using a fixed exchange rate of US\$1 to NT\$30.928 (the “Fixed Exchange Rate”) and then converted back to U.S. dollar amount using the applicable prevailing rate at the time of repayment, redemption or put. Each holder of the Currency Linked Bonds has the right at any time on or after August 11, 2015 and up to (and including) March 17, 2018, except during legal lock-up period, to convert the Currency Linked Bonds into common shares at the conversion price NT\$54.55, determined on

the basis of the Fixed Exchange Rate. The Company's treasury shares will be available for delivery upon conversion of the Currency Linked Bonds. The conversion price will be adjusted in accordance with the conversion provisions due to anti-dilution clause. As of December 31, 2016 and September 30, 2017, the conversion price was NT\$49.52 and NT\$47.76 (US\$1.57), respectively.

The Currency Linked Bonds may be redeemed at the option of the Company, in whole or in part, at any time on or after March 19, 2018 provided that (1) the closing price, translated into U.S. dollars, of the ordinary shares for a period of 20 out of 30 consecutive trading days is at least 130% of the conversion price, (2) at least 90% in aggregate principal amount of the Currency Linked Bonds originally outstanding has been redeemed, repurchased and canceled or converted, or (3) the Company is required to pay additional taxes on the Currency Linked Bonds as a result of certain changes in tax laws in the ROC.

Each holder shall have the right to request the Company repurchase all or any portion of the principal amount thereof of a holder's Currency Linked Bonds (1) in the event of a change of control, or (2) in the event of delisting.

The Currency Linked Bonds contained a debt host contract, recognized as bonds payable, and the conversion option, recognized as capital surplus. The effective interest rate of the debt host contract was 1.58% and the fair value of the conversion option was NT\$214,022 thousand on initial recognition.

To focus on corporate sustainability and to carry out the commitment to environmental protection and energy conservation, Anstock II Limited, a subsidiary the Company 100% owned, offered overseas bonds in US\$300,000 thousand with the maturity of 3 years and annual interest rate of 2.125% (the "Green Bonds") in July 2014. The Green Bonds are unconditionally and irrevocably guaranteed by the Company and the proceeds were used to fund certain eligible projects to promote the Group's transition to low-carbon and climate resilient growth. As of September 30, 2017, the Company's subsidiary has repaid the Green Bonds.

(Concluded)

Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and once a year).

Such capital surplus arises from the effect of changes in ownership interest in a subsidiary resulted from equity transactions other than actual disposal or acquisition, or from changes in capital surplus of subsidiaries accounted for using the equity method.

Such capital surplus arises from the excess of related carrying amount of related accounts over the par value and the Company has not completed registration formalities when the convertible bonds were converted into ordinary shares and employee share options were exercised.

c. Retained earnings and dividend policy

In accordance with the amendments to the Company Act in May 2015, the recipients of dividends and bonuses are limited to shareholders and do not include employees. The consequential amendments to the Company's Articles of Incorporation was resolved at the Company's annual shareholders' meetings. For information about the accrual basis of the employees' compensation and remuneration to directors and the actual appropriations, please refer to employee benefits expense under profit before income tax in Note 24(h).

The amended Articles of Incorporation of ASE Inc. (the “Articles”) in June 2016 provides that annual net profit shall be distributed in the following order:

- 1) Replenishment of deficits;
- 2) 10.0% as legal reserve;

- 3) Special reserve appropriated or reversed in accordance with laws or regulations set forth by the authorities concerned;
- 4) Addition or deduction of realized gains or losses on equity instruments at fair value through other comprehensive income.

The Company is currently in the mature growth stage. To meet the capital needs for business development now and in the future and satisfy the shareholders' demand for cash inflows, the Company shall use residual dividend policy to distribute dividends, of which the cash dividend is not lower than 30% of the total dividend distribution, with the remainder to be distributed in stock. A distribution plan is also to be made by the board of directors and passed for resolution in the shareholders' meeting.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's capital surplus. Legal reserve may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's capital surplus, the excess may be transferred to capital or distributed in cash.

Under Rule No. 1010012865 and Rule No. 1010047490 issued by the FSC and the directive titled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs", the Company should appropriate to or reverse a special reserve.

Expect for non-ROC resident shareholders, all shareholders receiving the dividends are allowed a tax credit equal to their proportionate share of the income tax paid by the Company.

The appropriations of earnings for 2015 and 2016 resolved at the Company's annual shareholders' meetings in June 2016 and June 2017, respectively, were as follows:

	Appropriation of Earnings		Dividends Per Share

Remuneration to directors	128,143	152,420	5,025

If there is any change in the proposed amounts after the consolidated financial statements authorized for issue, the differences are recorded as a change in accounting estimate.

The appropriations of employees' compensation (settled by cash) and remuneration to directors for 2015 and 2016 resolved by the board of directors in April 2016 and in March 2017, respectively, and the amounts recognized in 2015 and 2016 consolidated financial statements were as follows.

	For Year 2015		For Year 2016	
	Employees' compensation	Remuneration to directors	Employees' compensation	Remuneration to directors
	NT\$	NT\$	NT\$	NT\$
Resolved by the board of directors	\$2,033,800	\$ 140,000	\$2,151,900	\$ 148,000
Recognized in the consolidated financial statements	\$2,033,500	\$ 184,500	\$2,147,323	\$ 195,211

The differences between the resolved amounts of the employees' compensation and the remuneration to directors and the accrued amounts reflected in the consolidated financial statements for the years ended December 31, 2015 and 2016 were deemed changes in estimates. The difference was NT\$44,200 thousand and NT\$42,634 thousand (US\$1,406 thousand) and had been adjusted in net profit for the years ended December 31, 2016 and 2017, respectively.

25. INCOME TAX

b. Integrated income tax

As of December 31, 2016 and September 30, 2017, unappropriated earnings were all generated on and after January 1, 1998. As of December 31, 2016 and September 30, 2017, the balance of the Imputation Credit Account (“ICA”) was NT\$3,328,374 thousand and NT\$3,317,787 thousand (US\$109,390 thousand), respectively.

The creditable ratio for the distribution of earnings of 2015 and 2016 was 9.65% (actual) and 10.01% (estimated) , respectively.

c. Income tax assessments

Income tax returns of ASE Inc. and its ROC subsidiaries have been examined by authorities through 2012 and 2015 and through 2013 to 2015, respectively.

26. EARNINGS PER SHARE

The earnings and weighted average number of ordinary shares outstanding in the computation of earnings per share were as follows:

Employees' compensation	37,793	40,677
Weighted average number of ordinary shares in the computation of diluted earnings per share	8,272,940	8,266,095

For purposes of the ADS calculation, the denominator represents the above-mentioned weighted average outstanding shares divided by five (one ADS represents five ordinary shares). The numerator was the same.

The Group is able to settle the employees' compensation by cash or shares. The Group assumed that the entire amount of the compensation would be settled in shares and the resulting potential shares were included in the weighted average number of ordinary shares outstanding used in the computation of diluted earnings per share if the effect is dilutive. Such dilutive effect of the potential shares was included in the computation of diluted earnings per share until the board of directors approve the number of shares to be distributed to employees at their meeting in the following year.

The third unsecured convertible overseas bonds issued by the Company were anti-dilutive for the nine months ended September 30, 2017 and were excluded from the computation of diluted earnings per share for the same period.

27. SHARE-BASED PAYMENT ARRANGEMENTS

a. Employee share option plans of the Company and its subsidiaries

In order to attract, retain and reward employees, ASE Inc. had five employee share option plans for full-time employees of the Group. Each share option represents the right to purchase one ordinary share of ASE Inc. when exercised. Under the terms of the plans, share options are granted at an exercise price equal to or not less than the closing price of the ordinary shares listed on the TSE at the grant date. The option rights of these plans are valid for 10 years, non-transferable and exercisable at certain percentages subsequent to the second anniversary of the grant date. For any subsequent changes in the Company's capital structure, the exercise price is accordingly adjusted.

ASE Mauritius Inc. Option Plan

ASE Mauritius Inc. has an employee share option plan for full-time employees of the Group which granted 30,000 thousand units in December 2007. Under the terms of the plan, each unit represents the right to purchase one ordinary share of ASE Mauritius Inc. when exercised. The option rights of the plan are valid for 10 years, non-transferable and exercisable at certain percentages subsequent to the second anniversary of the grant date.

USISH Option Plan

Each unit represents the right to purchase one ordinary share of USISH when exercised. The options for USISH's full-time employees are valid for 10 years, non-transferable and exercisable at certain percentages subsequent to the second anniversary of the grant date incorporated with certain performance conditions. For any subsequent changes in USISH's capital structure, the exercise price

is accordingly adjusted.

Information about share options was as follows:

	For the Nine Months Ended September 30			
	2016		2017	
	Number of Options (In Thousands)	Weighted Average Exercise Price Per Share (CNY)	Number of Options (In Thousands)	Weighted Average Exercise Price Per Share (CNY)

Balance at September 30	25,416	15.5	24,067	15.5
Options exercisable, end of period	-	-	-	-

As of December 31, 2016 and September 30, 2017, the remaining contractual life of the share options was 8.9 years and 8.2 years, respectively.

Employee benefit expense recognized for employee share options granted by the Company and its subsidiary, USISH, was NT\$353,676 thousand and NT\$313,659 thousand (US\$10,342 thousand) for the nine months ended September 30, 2016 and 2017, respectively.

b. New shares reserved for subscription by employees under cash capital increase

In December 2016, the board of directors approved the cash capital increase and, as required under the Company Act of the ROC, simultaneously granted options to employees to purchase 10% of such newly issued shares. The grant of the options was accounted for as employee options, accordingly a share-based compensation, and was measured at fair value in accordance with IFRS 2. The Group recognized employee benefits expense and capital surplus arising from exercised employee share options of NT\$84,000 thousand (US\$2,769 thousand) in full at the grant date (also the vested date), of which 4,836 thousand shares has not been exercised and, therefore, \$13,541 thousand (US\$446 thousand) was reclassified from capital surplus arising from exercised employee share options to capital surplus arising from expired employee share options.

Information about the Company's employee share options related to the aforementioned newly issued shares was as follows:

	Number of Options
	(In Thousand)
Options granted for the nine months ended September 30, 2017	30,000
Options exercised for the nine months ended September 30, 2017	25,164
Weighted-average fair value of options granted (NT\$ per share)	\$ 2.80

-50-

Fair value was measured using the Black-Scholes Option Pricing Model and the inputs to the model were as follows:

Share price at the grant date	NT\$36.55 per share
Exercise price	NT\$34.30 per share
Expected volatility	27.15%
Expected lives	47 days
Expected dividend yield	-
Risk free interest rate	0.37%

Expected volatility was based on the Company's historical share prices volatility.

28. BUSINESS COMBINATIONS

a. Subsidiary acquired

Principal Activity	Date of Acquisition	Proportion of Voting Equity Interests Acquired	Cash Consideration NT\$
TLJ Engaged in information software services	May 3, 2016	60%	\$ <u>89,998</u>

In May 2016, the Company's subsidiary, ASE Test, Inc., acquired 60% shareholdings of TLJ with a total consideration determined primarily based on independent professional appraisal reports. NT\$41,739 thousand out of the total consideration was paid to key management personnel and related parties.

b. Assets acquired and liabilities assumed at the date of acquisition

	NT\$
Current assets	\$ 16,645
Non-current assets	108,486
Current liabilities	(7,599)
Fair value of identifiable net assets acquired	\$ 117,532

c. Goodwill recognized on acquisition

NT\$

Consideration transferred (paid in cash)	\$89,998
Non-controlling interests	42,857
Less: Fair value of identifiable net assets acquired	(117,532)
Goodwill recognized on acquisition	\$15,323

The non-controlling interest recognized at the acquisition date was measured at its fair value.

The goodwill recognized mainly represents the control premium. In addition, the consideration paid for the acquisition effectively included amounts attributed to the benefits of expected revenue growth and future market development of TLJ. These benefits are not recognized separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets.

d. Net cash outflow on acquisition of subsidiaries

NT\$

Consideration paid in cash	\$89,998
Less: Cash acquired	16,561
	\$73,437

e. As of June 30, 2017, the Group has completed the identification of the difference between the cost of the investment and the Group's share of the net fair value of TLJ's identifiable assets and liabilities and therefore, the Company has retrospectively adjusted the comparative consolidated financial statements for prior periods. As of December 31, 2016, the retrospective adjustments are summarized as follows:

	After Retrospectively Adjusted NT\$	Before Retrospectively Adjusted NT\$
December 31, 2016		
Goodwill	\$ 10,490,309	\$ 10,558,878
Other intangible assets	\$ 1,617,261	\$ 1,560,989

Operating costs	\$ 159,942,771	\$ 159,938,375
Operating expenses	\$ 19,282,626	\$ 19,241,527

The aforementioned retrospective adjustments are accordingly recorded as a decrease in retained earnings of NT\$28,880 thousand as an increase in non-controlling interests of NT\$16,583 thousand as of December 31, 2016.

29. DISPOSAL OF SUBSIDIARIES

The Group entered into an agreement to dispose of KSDY. The disposal was completed in June 2017 and as a result, the Group lost its control over KSDY.

a. Gain on disposal of subsidiaries

30. EQUITY TRANSACTION WITH NON-CONTROLLING INTERESTS

In February 2016, USIE repurchased its own 4,501 thousand outstanding ordinary shares and, as a result, the Group's shareholdings of USIE increased from 96.7% to 98.8%. The transaction was accounted for as an equity transaction since the Group did not cease to have control over USIE and therefore, capital surplus was decreased by NT\$1,912,887 thousand.

In February 2016, the Company disposed 39,603 thousand shares in USI to the Company's subsidiary, UGTW, at NT\$20 per share with a total consideration of NT\$792,064 thousand, as a result, the Group's shareholdings of USI decreased from 99.0% to 76.5%. The transaction was accounted for as an equity transaction since the Group did not cease to have control over USI and therefore, capital surplus was decreased by NT\$20,552 thousand.

In January 2017, USI completed its cash capital increase of NT\$1,000,000 thousand (US\$32,971 thousand) and the Group's shareholdings of USI increased from 75.2% to 75.7% since the Group did not proportional subscribe for additional new shares. The transaction was accounted for as an equity transaction since the Group did not cease to have control over USI and therefore, capital surplus was increased by NT\$3,055 thousand (US\$101 thousand).

31. NON-CASH TRANSACTIONS

Except those disclosed in Note 11, for the nine months ended September 30, 2016 and 2017, the Group entered into the following non-cash investing activities which were not reflected in the condensed consolidated statements of cash flows:

32.**OPERATING LEASE ARRANGEMENTS**

Except those discussed in Note 18, the Company and its subsidiary, ASE Test, Inc., lease the land on which their buildings are located under various operating lease agreements with the ROC government expiring through January 2037. The agreements grant these entities the option to renew the leases and reserve the right for the lessor to adjust the lease payments upon an increase in the assessed value of the land and to terminate the leases under certain conditions. In addition, the Group leases buildings, machinery and equipment under operating leases.

The subsidiaries' offices located in China, U.S.A. and Japan, etc. are leased from third parties and the lease term will expire through 2017 to 2023 with the option to renew the leases upon expiration.

The Group recognized rental expense of NT\$1,073,013 thousand and NT\$910,084 thousand (US\$30,006 thousand) for the nine months ended September 30, 2016 and 2017, respectively, from the aforementioned operating lease arrangements and the land use rights disclosed in Note 18.

Edgar Filing: ADVANCED SEMICONDUCTOR ENGINEERING INC - Form 6-K

As of September 30, 2017, the future minimum lease payments of non-cancellable operating lease commitments were as follows:

33. CAPITAL MANAGEMENT

The capital structure of the Group consists of debt and equity. The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to shareholders through the optimization of the debt and equity balance. Key management personnel of the Group periodically reviews the cost of capital and the risks associated with each class of capital. In order to balance the overall capital structure, the Group may adjust the amount of dividends paid to shareholders, the number of new shares issued or repurchased, and the amount of new debt issued or existing debt redeemed.

The Group is not subject to any externally imposed capital requirements except those discussed in Note 19.

34. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments that are not measured at fair value

1) Fair value of financial instruments not measured at fair value but for which fair value is disclosed

Except bonds payable measured at amortized cost, the management considers that the carrying amounts of financial assets and financial liabilities not measured at fair value approximate their fair values. The carrying amounts and fair value of bonds payable as of December 31, 2016 and September 30, 2017, respectively, were as follows:

	Carrying Amount		Fair Value	
	NT\$	US\$ (Note 4)	NT\$	US\$ (Note 4)
December 31, 2016	\$36,999,903		\$37,300,356	
September 30, 2017	23,117,376	\$762,195	23,209,581	\$765,235

2) Fair value hierarchy

The aforementioned fair value hierarchy of bonds payable was Level 3 in terms of IFRS 13 which was determined based on discounted cash flows analysis with the applicable yield curve for the duration or the latest trading prices.

b. Fair value of financial instruments that are measured at fair value on a recurring basis

For the financial assets and liabilities that were measured at fair value on a recurring basis there were no transfers between Level 1 and Level 2 of the fair value hierarchy for the nine months ended September 30, 2016 and 2017.

2) Reconciliation of Level 3 fair value measurements of financial assets

The financial assets measured at Level 3 fair value hierarchy were equity investments with no quoted prices and classified as available-for-sale financial assets - non-current. Reconciliations for the nine months ended September 30, 2016 and 2017 were as follows:

	For the Nine Months Ended		
	September 30		
	2016	2017	US\$

3) Valuation techniques and assumptions applied for the purpose of measuring fair value

a) Valuation techniques and inputs applied for the purpose of measuring Level 2 fair value measurement

Financial Instruments

Derivatives - swap contracts, forward exchange contracts, foreign currency option contracts and interest rate swap contracts

Derivatives - conversion option, redemption option and put option of convertible bonds

Private-placement convertible bonds

Valuation Techniques and Inputs

Discounted cash flows - Future cash flows are estimated based on observable forward exchange rates or interest rates at balance sheet dates and contract forward exchange rates or interest rates, discounted at rates that reflected the credit risk of various counterparties.

Option pricing model - Incorporation of present value techniques and reflect both the time value and the intrinsic value of options

Discounted cash flows - Future cash flows are estimated based on observable forward interest rates and stock prices at balance sheet dates and contract interest rates and conversion prices, discounted at rates that reflected the credit risk of various counterparties.

b) Valuation techniques and inputs applied for the purpose of measuring Level 3 fair value measurement

The fair value of the Group's investments in unquoted shares on Level 3 fair value measurement were measured using market approach based on investees' recent financing activities, technical development, valuation of investees comparable companies, market conditions and other economic indicators.

The fair values of investments in limited partnership are measured by estimating future cash inflows from disposal (net of transaction cost). The Group recognized an impairment loss of NT\$0 thousand and NT\$50,206 thousand (US\$1,655 thousand) under the line item of other gains (losses) in the condensed consolidated statements of comprehensive income for the nine months ended September 30, 2016 and 2017, respectively.

Note 2: The balances included financial liabilities measured at amortized cost which comprise short-term borrowings, trade and other payables, bonds payable and long-term borrowings.

d. Financial risk management objectives and policies

The derivative instruments used by the Group are to mitigate risks arising from ordinary business operations. All derivative transactions entered into by the Group are designated as either hedging or trading. Derivative transactions entered into for hedging purposes must hedge risk against fluctuations in foreign exchange rates and interest rates arising from operating activities. The currencies and the amount of derivative instruments held by the Group must match its hedged assets and liabilities denominated in foreign currencies.

The Group's risk management department monitors risks to mitigate risk exposures, reports unsettled position, transaction balances and related gains or losses to the Group's chief financial officer on monthly basis.

1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. Gains or losses arising from fluctuations in foreign currency exchange rates of a variety of derivative financial instruments were approximately offset by those of hedged items. Interest rate risk was not significant due to the cost of capital was expected to be fixed.

There had been no change to the Group's exposure to market risks or the manner in which these risks were managed and measured.

a) Foreign currency exchange rate risk

The Group had sales and purchases as well as financing activities denominated in foreign currency which exposed the Group to foreign currency exchange rate risk. The Group entered into a variety of derivative financial instruments to hedge foreign currency exchange rate risk to minimize the fluctuations of assets and liabilities denominated in foreign currencies.

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities (including those eliminated upon consolidation) as well as derivative instruments which exposed the Group to foreign currency exchange rate risk at each balance sheet date are presented in Note 38.

The Group was principally subject to the impact to exchange rate fluctuation in US\$ and JPY against NT\$ or CNY. 1% is the sensitivity rate used when reporting foreign currency exchange rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign currency exchange rates. The sensitivity analysis included financial assets and liabilities and inter-company receivables and payables within the Group. The changes in profit before income tax due to a 1% change in U.S. dollars and Japanese yen both against NT\$ and CNY would be NT\$218,000 thousand and NT\$112,000 thousand (US\$3,693 thousand) for the nine months ended September 30, 2016 and 2017, respectively. Hedging contracts and hedged items have been taken into account while measuring the changes in profit before income tax. The aforementioned sensitivity analysis mainly focused on the foreign currency monetary items at each balance sheet date. As the period-end exposure did not reflect the exposure for the nine months ended September 30, 2016 and 2017, the aforementioned sensitivity analysis was unrepresentative of those periods.

b) Interest rate risk

Except a portion of long-term borrowings and bonds payable at fixed interest rates, the Group was exposed to interest rate risk because group entities borrowed funds at floating interest rates. Changes in market interest rates will lead to variances in effective interest rates of borrowings from which the future cash flow fluctuations arise. The Group entered into a variety of derivative financial instruments to hedge interest rate risk to minimize the fluctuations of assets and liabilities denominated in interest rate.

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at each balance sheet date were as follows:

December 31, 2016	September 30, 2017	
NT\$	NT\$	US\$ (Note 4)

Fair value interest rate risk

Financial liabilities	\$30,243,887	\$19,064,600	\$628,572
-----------------------	--------------	--------------	-----------

Cash flow interest rate risk

Financial assets	29,977,709	26,250,636	865,501
Financial liabilities	65,800,323	52,462,269	1,729,715

For assets and liabilities with floating interest rates, a 100 basis point increase or decrease was used when reporting interest rate risk internally to key management personnel. If interest rates had been 100 basis points (1%) higher or lower and all other variables held constant, the Group's profit before income tax for the nine months ended September 30, 2016 and 2017 would have decreased or increased approximately by NT\$320,000 thousand and NT\$197,000 thousand (US\$6,495 thousand), respectively. Hedging contracts and hedged items have been taken into account while measuring the changes in profit before income tax. The aforementioned sensitivity analysis mainly focused on the interest rate items at the each balance

sheet date. As the period-end exposure did not reflect the exposure for the nine months ended September 30, 2016 and 2017, the aforementioned sensitivity analysis was unrepresentative of those periods.

c) Other price risk

The Group was exposed to equity or debt price risk through its investments in financial assets at FVTPL, including private-placement convertible bonds, quoted shares, and open-end mutual funds, as well as available-for-sale financial assets. If equity or debt prices were 1% higher or lower, profit before income tax for the nine months ended September 30, 2016 and 2017 would have increased or decreased approximately by NT\$7,200 thousand and NT\$30,000 thousand (US\$989 thousand), respectively, and other comprehensive income before income tax for the nine months ended September 30, 2016 and 2017 would have increased or decreased approximately by NT\$12,000 thousand (US\$396 thousand).

In addition, the Group was also exposed to the Company's ordinary share price risk through Bonds Options recognized as financial liabilities held for trading. 7% is the sensitivity rate used when reporting price risk internally to key management personnel. If the Company's ordinary share price increased or decreased by 7%, profit before income tax for the nine months ended September 30, 2016 would have decreased approximately by NT\$644,000 thousand, or increased approximately by NT\$528,000 thousand, respectively.

2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's credit risk arises from cash and cash equivalents, receivables and other financial assets. The Group's maximum exposure to credit risk was the carrying amounts of financial assets in the consolidated balance sheets.

The Group dealt with counterparties creditworthy and has a credit policy and trade receivable management procedures to ensure recovery and evaluation of trade receivables. Except for those discussed in Note 9, the Group's counterparties consisted of a large number of customers and banks and there was no significant concentration of credit risk exposure.

3) Liquidity risk

The Group manages liquidity risk by maintaining adequate working capital and banking facilities to fulfill the demand for cash flow used in the Group's operation and capital expenditure. The Group also monitors its compliance with all the loan covenants. Liquidity risk is not considered to be significant.

In the table below, financial liabilities with a repayment on demand clause were included in the earliest time band regardless of the probability of counter-parties choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities were based on the agreed repayment dates.

To the extent that interest flows are floating rate, the undiscounted amounts were derived from the interest rates at each balance sheet date.

The following table detailed the Group's liquidity analysis for its derivative financial instruments. The table was based on the undiscounted contractual net cash inflows and outflows on derivative instruments that settle on a net basis, and

the undiscounted gross cash inflows and outflows on those derivatives that require gross settlement. When the amounts payable or receivable are not fixed, the amounts disclosed was determined by reference to the projected interest rates as illustrated by the yield curves at each balance sheet date.

35.**RELATED PARTY TRANSACTIONS**

Balances and transactions within the Group had been eliminated upon consolidation. Details of transactions between the Group and other related parties were disclosed as follows:

a. Related parties

Except those disclosed in Note 13 and NXP B.V. accounted for as a related party of the Group's subsidiary, ASEN, over which NXP B.V. has significant influence, the related parties were as follows:

Related Parties	Relationship with the Corporation
ASE Cultural and Educational Foundation ("ASE Foundation")	Substantial related party
Fu Hwa Construction Co., Ltd.	Associate

The Company contributed each NT\$100,000 thousand (US\$3,297 thousand) to ASE Foundation in January 2016 and 2017, respectively, for environmental charity in promoting the related domestic environmental protection and public service activities (Note 37).

In the third quarter of 2016, the Company acquired patents and specific technology from DECA at NT\$403,543 thousand, which was primarily based on independent professional appraisal reports. As of September 30 2017, NT\$113,681 thousand (US\$3,748 thousand) has not been paid and was accrued under the line item of other payables.

d. The Company contracted with Fu Hwa Construction Co., Ltd. to construct a female employee dormitory on current leased land. Total consideration was primarily based on independent professional appraisal reports and NT\$646,500 thousand was paid as of September 30, 2016. The female employee dormitory has been completely constructed as of December 31, 2016 and the total consideration was fully paid in March 2017.

e. In February 2016, USIE repurchased 1,801 thousand shares of USIE's outstanding ordinary shares from the Group's key management personnel with approximately NT\$1,130,650 thousand.

f. Compensation to key management personnel

37. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in other notes, significant commitments and contingencies of the Group as of each balance sheet date were as follows:

As of December 31, 2016 and September 30, 2017, unused letters of credit of the Group were approximately
^a NT\$97,000 thousand and NT\$36,000 thousand (US\$1,187 thousand), respectively.

As of December 31, 2016 and September 30, 2017, outstanding commitments to purchase property, plant and
^b equipment of the Group were approximately NT\$6,630,957 thousand and NT\$3,924,041 thousand (US\$129,378
thousand), respectively, of which NT\$668,509 thousand and NT\$384,777 thousand (US\$12,686 thousand) had been
prepaid, respectively. As of December 31, 2016 and

September 30, 2017, the commitment that the Group has contracted for the construction related to our real estate business were approximately NT\$1,574,822 thousand and NT\$1,744,599 thousand (US\$57,521 thousand), respectively.

In consideration of corporate social responsibility for environmental protection, the Company's board of directors, in c. December 2013, approved contributions to be made in the next 30 years, at a total amount of NT\$3,000,000 thousand, at the minimum, to environmental protection efforts in Taiwan.

38. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The following information was aggregated by the foreign currencies other than functional currencies of the group entities and the exchange rates between foreign currencies and respective functional currencies were disclosed. On December 20, 2013, the Kaohsiung Environmental Protection Bureau (“KEPB”) imposed a fine of NT\$102,014 thousand (“the Administrative Fine”) upon the Company for the violation of the Water Pollution Control Act. The Company filed an administrative appeal to nullify the Administrative Fine, which, however, was dismissed by the Kaohsiung City Government. The Company then filed a lawsuit with the Kaohsiung High Administrative Court seeking to revoke the dismissal decision made by the Kaohsiung City Government (the “Administrative Appeal Decision”) and the Administrative Fine, and to demand a refund of the fine paid by the Company. The judgment of the Kaohsiung High Administrative Court was rendered on March 22, 2016, ruling to revoke the Administrative Appeal Decision and the Administrative Fine, and to dismiss the other complaint filed by the Company (i.e., to demand a refund of the fine paid by the Company). The Company appealed against the unfavorable ruling on April 14, 2016. On June 8, 2017, the Supreme Administrative Court handed down a final and unappealable judgment which is in favor of the Company and ordered KEPB to return to the Company the fine already paid by the Company.

For the future development and sustainable development of semiconductor industry, the Company’s board of directors approved in June 2016 to enter into and execute a joint share exchange agreement with SPIL to establish ASE Industrial Holding Co., Ltd. (“HoldCo”) and HoldCo will acquire all issued and outstanding shares of both ASE and SPIL in the way of share exchange. The share exchange will be conducted at an exchange ratio of 1 ordinary share of the Company for 0.5 ordinary share of HoldCo, and at NT\$55 in cash per SPIL’s ordinary share, which has been adjusted to NT\$51.2 after SPIL’s appropriation of earnings in 2016. The estimated cash consideration paid per SPIL’s ordinary share shall not be subject to adjustment if the aggregate amount of the cash dividends distributed by SPIL in 2017 is less than 85% of SPIL’s net profit for the year ended December 31, 2016.

According to the share exchange agreement, the completion of share exchange transaction is subject to the satisfaction or waiver of all conditions precedent. Unless the Company and SPIL entering into another agreement, this share exchange agreement shall be terminated automatically if the aforementioned conditions precedent are not satisfied or to be waived on or before December 31, 2017. On November 24, 2017, the Ministry of Commerce of the People’s

Republic of China announced that it has conditionally approved the proposed transaction. On December 14, 2017, the Company and SPIL entered into an addendum to the aforementioned joint share exchange agreement to amend the definition of Long Stop Date as of October 31, 2018 or a later date. As of the date the condensed consolidated financial statements were authorized for issue by the management, the unsatisfied conditions include the unconditional approvals of the Company and SPIL's shareholders' meeting and, therefore, the share exchange transaction has not been completed.

Due to the aforementioned share exchange agreement, treasury shares of the Company and the convertible bonds embedded with conversion option recognized as equity issued by the Company were affected as follows:

- 1) For the outstanding balance of the Bonds, except where the Bonds have been redeemed or repurchased and cancelled or converted by the holders by exercising their conversion rights before

the share exchange record date, the holders of the Bonds may, after the Company obtains approval from all relevant competent authorities and after the share exchange record date, convert such outstanding balance into newly issued HoldCo common shares. The conversion shall be subject to applicable laws, the indenture of the Bonds and the share exchange ratio. As of September 30, 2017, the outstanding balance of the Bonds has been fully converted or redeemed.

2) Treasury shares purchased before the share exchange record date for the conversion of the Currency Linked Bonds will be exchanged to HoldCo's ordinary shares, which will still be hold by the Company, based on the agreed share exchange ratio. The conversion price of the Currency Linked Bonds shall also be adjusted in accordance with the agreed share exchange ratio in the joint share exchange agreement.

3) For the employee share options issued by the Company upon the approval from relevant competent authorities before the execution of the joint share exchange agreement, HoldCo will assume the Company's obligations under the employee share options as of the share exchange record date. Except that the exercise price and amount shall be adjusted in accordance with the agreed share exchange ratio and that the shares subject to exercise shall be converted into HoldCo's newly issued ordinary shares, all other terms and conditions for issuance will remain the same. The final execution arrangements shall be made by HoldCo in compliance with relevant laws and regulations and subject to the approval of relevant competent authorities.

OPERATING SEGMENTS INFORMATION

The Group has the following reportable segments: Packaging, Testing, EMS and Estate. The Group packages bare semiconductors into finished semiconductors with enhanced electrical and thermal characteristics; provides testing services, including front-end engineering testing, wafer probing and final testing services; engages in the designing, assembling, manufacturing and sale of electronic components and telecommunications equipment motherboards, real estate business in development, sale and leasing. Information about other business activities and operating segments that are not reportable are combined and disclosed in "Others." The Group engages in other activities such as substrate production and real estate business.

The accounting policies for segments are the same as those described in Note 4. The measurement basis for resources allocation and performance evaluation is based on profit before income tax.

EXHIBIT 99.2

Discussion of Interim Financial Results as of and for the Nine-Month Period Ended September 30, 2017

The following sets forth management's discussion and analysis of our interim financial results as of and for the nine-month period ended September 30, 2017. The interim financial information as of and for the nine-month period ended September 30, 2017 and the comparative financial information as of December 31, 2016 and for the nine-month period ended September 30, 2016 set forth below are derived from our unaudited condensed consolidated interim financial statements included as Exhibit 99.1 to this report on Form 6-K. Those unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard No. 34, "Interim Financial Reporting", as issued by the International Accounting Standard Board. Those financial statements do not include all of the information required for a complete set of annual consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), International Accounting Standards ("IAS"), Interpretations of IFRS and Interpretations of IAS issued by International Accounting Standards Board.

Results of Operations

Operating Revenues

Our operating revenues for the nine-month period ended September 30, 2017 were NT\$206,455.1 million (US\$6,806.9 million), which represented a 4.4% increase from NT\$197,755.5 million for the same period in 2016. For the nine-month period ended September 30, 2017, net revenue generated from our electronic manufacturing services business, packaging business and testing business represented approximately 43.9%, 45.1% and 9.5% of our total net revenue, respectively.

Packaging revenues increased 1.7% to NT\$93,180.4 million (US\$3,072.2 million) for the nine-month period ended September 30, 2017 from NT\$91,662.4 million for the same period ended September 30, 2016. The increase in our packaging revenues was primarily due to the increase in sales of our bumping and wafer-level packaging products. Testing revenues decreased 0.6% to NT\$19,603.5 million (US\$646.3 million) for the nine-month period ended September 30, 2017 from NT\$19,728.9 million for the same period ended September 30, 2016. Revenues from our electronic manufacturing services business increased 12.3% to NT\$90,663.1 million (US\$2,989.2 million) for the nine-month period ended September 30, 2017 from NT\$80,768.5 million for the same period in 2016. This increase was primarily due to an increase in outsourced orders for consumer products and communications products.

Gross Profit

Our gross profit was NT\$37,938.5 million (US\$1,250.8 million) for the nine-month period ended September 30, 2017 compared to NT\$37,812.7 million (retrospectively adjusted) for the same period in 2016. We had a gross margin of 18.4% for the nine-month period ended September 30, 2017, compared to a gross margin of 19.1% for the same period in 2016. This decrease in gross margin was primarily due to a raise in our electronic manufacturing services business, which had a lower gross margin.

Operating costs increased 5.4% to NT\$168,516.6 million (US\$5,556.1 million) for the nine-month period ended September 30, 2017 from NT\$159,942.8 million (retrospectively adjusted) for the same period in 2016. Raw material costs increased 10.7% to NT\$98,158.9 million (US\$3,236.4 million) for the nine-month period ended September 30, 2017 from NT\$88,633.1 million for the same period in 2016. As a percentage of operating revenues, raw material costs increased to 47.5% from 44.8%, primarily as a result of an increase in orders in our electronic manufacturing services business, which had relatively higher raw material costs compared to our other businesses. Labor costs increased 2.2% to NT\$26,837.9 million (US\$884.9 million) for the nine-month period ended September 30, 2017 from NT\$26,264.5 million for the same period in 2016. As a percentage of operating revenues, labor costs decreased to 13.0% from 13.3%, which was due to the growth of our operating revenues. Depreciation, amortization and rental expenses decreased 2.0% to NT\$20,683.1 million (US\$681.9 million) for the nine-month period ended September 30, 2017 from NT\$21,106.9 million (retrospectively adjusted) for the same period in 2016. As a percentage of operating revenues, depreciation, amortization and rental expenses decreased to 10.0% from 10.7%, which was due to a raise in our operating revenues.

Profit from Operations

We had profit from operations of NT\$17,786.2 million (US\$586.4 million) for the nine-month period ended September 30, 2017, which represented a decrease from NT\$17,825.8 million (retrospectively adjusted), for the same period in 2016. Our operating margin was 8.6% for the nine-month period ended September 30, 2017 compared to 9.0% for the same period in 2016. The decrease of operating margin was primarily due to a decrease in gross margin.

Operating expenses increased 5.9% to NT\$20,426.6 million (US\$673.4 million) for the nine-month period ended September 30, 2017 from NT\$19,282.6 million (retrospectively adjusted) for the same period in 2016. This increase was primarily due to an increase in general and administrative expenses and research and development expenses.

Selling expenses decreased 6.7% to NT\$2,434.6 million (US\$80.2 million) for the nine-month period ended September 30, 2017 from NT\$2,610.4 million (retrospectively adjusted) for the same period in 2016, primarily due to a decrease in amortization expenses in connection with intangible assets fully amortized. Selling expenses as a percentage of our operating revenues decreased to 1.2% for the nine-month period ended September 30, 2017 from 1.3% for the same period in 2016.

General and administrative expenses increased 11.0% to NT\$9,290.9 million (US\$306.3 million) for the nine-month period ended September 30, 2017 from NT\$8,371.7 million for the same period in 2016, primarily due to an increase in salary expenses and an increase in professional fee. General and administrative expenses as a percentage of our operating revenues increased to 4.5% for the nine-month period ended September 30, 2017 from 4.2% for the same period in 2016.

Research and development expenses increased 4.8% to NT\$8,701.1 million (US\$286.9 million) for the nine-month period ended September 30, 2017 from NT\$8,300.5 million for the same period in 2016, primarily due to an increase

in salary expenses. Research and development expenses as a percentage of our operating revenues remained at 4.2% for the nine-month periods ended September 30, 2017 and 2016.

We had a net other operating income of NT\$274.3 million (US\$9.0 million) for the nine-month period ended September 30, 2017 compared to a net other operating expense of NT\$704.3 million for the same period in 2016.

Net Non-Operating Incomes and Expenses

Net non-operating income and expenses increased to a net income of NT\$5,401.3 million (US\$178.1 million) for the nine-month period ended September 30, 2017 from a net income of NT\$575.5 million (retrospectively adjusted) for the same period in 2016. This was primarily due to a gain of NT\$5,643.8 million (US\$186.1 million) from the disposal of subsidiary.

Income Tax Expense

We recognized an income tax expense of NT\$4,638.0 million (US\$152.9 million) for the nine-month period ended September 30, 2017 compared to an income tax expense of NT\$3,230 million for the same period in 2016. The increase was primarily due to an increase in the profit before income tax and Income tax on unappropriated earnings.

Net Profit

As a result of the foregoing, we incurred a net profit of NT\$18,549.5 million (US\$611.6 million) for the nine-month period ended September 30, 2017, which represented an increase from NT\$15,171.3 million (retrospectively adjusted) for the same period in 2016. Our diluted earnings per ADS decreased to NT\$9.88 (US\$0.33) for the nine-month period ended September 30, 2017 compared to diluted earnings per ADS of NT\$7.88 for the same period in 2016.

Liquidity and Capital Resources

We have historically been able to satisfy our working capital needs from our cash flow from operations. We have historically funded our capacity expansion from internally generated cash and, to the extent necessary, the issuance of equity securities and borrowings. If adequate funds are not available on satisfactory terms, we may be forced to curtail our expansion plans. Moreover, our ability to meet our working capital needs from cash flow from operations will be affected by the demand for our packaging, testing services and electronic manufacturing services, which in turn may be affected by several factors. Many of these factors are outside of our control, such as economic downturns and declines in the prices of our services or products caused by a downturn in the industry. To the extent we do not generate sufficient cash flow from our operations to meet our cash requirements, we will have to rely on external financing. We believe that our existing cash, marketable securities, expected cash flow from operations and existing credit lines under our loan facilities will be sufficient to meet our capital expenditures, working capital, cash obligations under our existing debt and lease arrangements, and other requirements for at least the next 12 months.

Our cash and cash equivalents as of September 30, 2017 were NT\$38,975.1 million (US\$1,285.0 million), which represented a 1.5% increase compared to NT\$38,392.5 million as of December 31, 2016. Our total borrowings as of September 30, 2017 were NT\$82,120.8 million (US\$2,707.6 million). Excluding short-term borrowings of NT\$19,638.4 million (US\$647.5 million), current portion of bonds payable of NT\$6,136.9 million (US\$202.3 million) and current portion of long-term borrowings of NT\$6,840.0 million (US\$225.5 million), our long-term borrowing as of September 30, 2017 were NT\$49,505.5 million (US\$1,632.2 million), which consisted of bonds payable of NT\$16,980.5 million (US\$559.8 million) and long-term borrowings of NT\$32,525.0 million (US\$1,072.4 million).

Cash Flows

Net cash generated from operating activities was NT\$33,269.0 million (US\$1,096.9 million) for the nine-month period ended September 30, 2017 compared to net cash generated from operating activities NT\$36,712.1 million for the same period in 2016. This decrease in cash inflow was primarily due to a decrease in dividend received of NT\$2,120.5 million (US\$69.9 million), an increase in cash outflow of NT\$7,050.9 million (US\$232.5 million) from an increase of inventories but offset by a decrease in cash outflow of NT\$6,331.8 million (US\$208.8 million) from trade receivables.

Net cash used in investing activities was NT\$14,480.2 million (US\$477.4 million) for the nine-month period ended September 30, 2017 compared to NT\$37,137.2 million for the same period in 2016. This decrease in cash outflow was primarily due to a decrease of NT\$15,816.5 million in the acquisition of associates and joint ventures.

Net cash used in financing activities was NT\$14,748.1 million (US\$486.3 million) for the nine-month period ended September 30, 2017 compared to NT\$11,839.8 million for the same period in 2016. This change in cash flow was primarily due to a decrease in cash inflow of NT\$19,742.6 million (US\$650.9 million) from the net proceeds from and repayment of long-term borrowings, an increase in cash inflow of NT\$10,290.0 million (US\$339.3 million) from the proceeds from issuance of ordinary shares and a decrease in cash outflow of NT\$2,815.8 million (US\$92.8 million) from non-controlling interests.
