Cautionary Statement

This current report on Form 8-K contains forward-looking statements. Statements in this report that are not historical facts, including statements about management's beliefs and expectations, constitute forward-looking statements. These statements are based on current plans, estimates and projections, and are subject to change based on a number of factors, including those outlined in our 2006 Annual Report on Form 10-K under Item 1A, Risk Factors, and other SEC filings. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Such factors include, but are not limited to, the following:

- risks arising from material weaknesses in our internal control over financial reporting, including material weaknesses in our control environment;

- our ability to attract new clients and retain existing clients;

- our ability to retain and attract key employees;

- risks associated with assumptions we make in connection with our critical accounting estimates;

- potential adverse effects if we are required to recognize impairment charges or other adverse accounting-related developments;

- potential adverse developments in connection with the ongoing SEC investigation;

- potential downgrades in the credit ratings of our securities;

- risks associated with the effects of global, national and regional economic and political conditions, including fluctuations in economic growth rates, interest rates and currency exchange rates; and

- developments from changes in the regulatory and legal environment for advertising and marketing and communications services companies around the world.

Investors should carefully consider these factors and the additional risk factors outlined in more detail in our 2006 Annual Report on Form 10-K under Item 1A, Risk Factors.
