(1) During the fourth quarter of 2008, our stock price significantly declined compared with previous periods and our market value of equity was below the book value of tangible assets and the book value of equity. We performed an interim impairment test, which indicated that goodwill and certain other intangibles were impaired at December 31, 2008. Therefore, we recorded a non-cash impairment charge of \$435.7 million during the fourth quarter of 2008.

(2) During 2009, North American Coal completed the sale of

certain assets of the Red River Mining Company, or Red River. The results of operations of Red River are reflected as discontinued operations in the table above.

- (3) An extraordinary gain was recognized in 2006 and 2005 as a result of a reduction to Bellaire Corporation's estimated closed mine obligations relating to amounts owed to the United Mine Workers of America Combined Benefit Fund arising as a result of the Coal Industry Retiree Health Benefit Act of 2006.

RISK FACTORS

Prospective investors in the shares of Class A common stock offered hereby should consider carefully the following risk factors as well as the risk factors set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, which is incorporated into this prospectus by reference, in addition to the other information contained in this prospectus. This prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause a material difference include, but are not limited to, those discussed below, as well as those discussed elsewhere in this prospectus and the documents incorporated into this prospectus by reference.

Risks Related to This Offering

The voting power of holders of Class B common stock who transfer their shares to the selling stockholders and receive shares of Class A common stock will diminish.

Holders of Class B common stock have ten votes per share of Class B common stock, while holders of Class A common stock have one vote per share of Class A common stock. Holders of Class B common stock who transfer their shares to the selling stockholders in exchange for shares of Class A common stock will reduce their voting power.

The voting power of the selling stockholders will increase if the selling stockholders exchange their shares of Class A common stock for shares of Class B common stock in the exchange offer.

Holders of Class A common stock and holders of Class B common stock vote together on matters submitted to a vote of NACCO's stockholders. Consequently, if holders of Class B common stock transfer their shares of Class B common stock to the selling stockholders, the voting power of the selling stockholders will increase. As of March 1, 2010, the selling stockholders collectively controlled 54.3% of the voting power of outstanding shares of NACCO's common stock based on the number of outstanding shares as of March 1, 2010. As of that date, there were 6,730,656 shares of Class A common stock and 1,598,653 shares of Class B common stock outstanding. If all shares of Class A common stock offered by this prospectus are exchanged for shares of Class B common stock and the selling stockholders act together when voting their shares of Class B common stock, they will control 68.4% of the voting power of outstanding shares of NACCO's common stock based on the number of outstanding shares as of March 1, 2010, as well as the outcome of any class vote of the Class B common stock that requires the vote of at least a majority of the outstanding Class B common stock.

We will not receive any proceeds from the exchange of any shares by the selling stockholders.

SELLING STOCKHOLDERS

Class A Common Stock Beneficial Ownership Table for Selling Stockholders. The following table sets forth, as of March 1, 2010, certain information with respect to the selling stockholders, including:

the name of each selling stockholder;

the number of shares of Class A common stock owned by each selling stockholder immediately prior to the sale of shares offered by this prospectus;

the number of shares of Class A common stock offered for exchange by each selling stockholder by this prospectus; and

the percentage of ownership of Class A common stock of each selling stockholder immediately following the exchange of shares offered by this prospectus based on the number of shares of Class A common stock outstanding on March 1, 2010.

A total of 355,703 shares of Class A common stock is being offered by this prospectus. Alfred M. Rankin, Jr., Thomas T. Rankin, Claiborne R. Rankin and Roger F. Rankin, or in each case their revocable trusts, and Rankin Associates IV, L.P., or Rankin IV, are offering to exchange the following numbers of shares of Class A common stock: Alfred M. Rankin, Jr., 92,857; Thomas T. Rankin, 52,861; Claiborne R. Rankin, 29,263; Roger F. Rankin, 75,450; and Rankin IV, 105,272. Because each individual selling stockholder or his revocable trust will offer to exchange the shares, both the individual selling stockholder and his trust are listed separately in the tables below. However, each individual, together with his revocable trust, will only offer to exchange the number of shares of Class A common stock described above and, accordingly, an aggregate of 355,703 shares are being offered for exchange by this prospectus. In the tables below, the disclosure of the beneficial ownership of shares for the individual selling stockholders reflects all shares deemed to be beneficially owned by such selling stockholders (including those shares held in each selling stockholder's revocable trust). The disclosure of the beneficial ownership of shares for each selling stockholder's revocable trust includes only those shares held directly by such trust.

Because the selling stockholders may offer all, a portion or none of the Class A common stock offered by this prospectus, we cannot assure you as to the number of shares of Class A common stock or Class B common stock that will be held by the selling stockholders immediately following the offering. The tables below assume that the beneficial ownership of Class A common stock for each selling stockholder, including shares held directly and indirectly by an individual selling stockholder's revocable trust, will decrease by an aggregate of the number of shares of Class A common stock described above as a result of this offering and that the beneficial ownership of Class B common stock for each selling stockholder, including shares held directly and indirectly by an individual selling stockholder's revocable trust, will increase by the same number of shares of Class B common stock. The tables do not, however, account for any changes in each selling stockholder's beneficial ownership that may result from transactions not contemplated by this prospectus such as an acquisition or disposition of shares of Class A common stock or Class B common stock.

As of the date of this prospectus, the selling stockholders have already exchanged 446,933 shares of the Class A common stock offered by the registration statement and prospectus related to the exchange offer that was initially filed on July 13, 2001, the registration statement and prospectus related to the exchange offer that was initially filed

on September 5, 2003 and the registration statement and prospectus related to the exchange offer that was initially filed on January 12, 2005.
