Appendix

Definitions

CORRELATION

The strength and direction of a linear relationship between two random variables.

STANDARD DEVIATION

A measure of the dispersion of a set of data from its mean. The more spread apart the data is, the higher the deviation. In finance, standard deviation is applied to the annual rate of return of an investment to measure the investment's volatility (risk). A more volatile security would have a higher standard deviation, and a less volatile security would have a lower standard deviation.

Index Definitions

BARCLAYS U.S. GOVERNMENT INFLATION-LINKED BOND INDEX

The Barclays U.S. Government Inflation-linked Bond Index measures the performance of the inflation-protected public obligations of the US Treasury. Inflation-protected public obligations of the US Treasury, commonly known as TIPS, are securities issued by the US Treasury that are designed to provide inflation protection to investors. The Index includes publicly-issued, US Treasury inflation-protected securities that have at least 1 year remaining to maturity on index rebalancing date, with an issue size equal to or in excess of \$500 million.

Barclays Capital is a trademark of Barclays Capital, the investment banking division of Barclays Bank PLC (Barclays Capital), and has been licensed for use in connection with the listing and trading of the SPDR Barclays Capital ETFs. The products are not sponsored by, endorsed, sold or promoted by Barclays Capital and Barclays Capital makes no representation regarding the advisability of investing in them.

Shares (the Shares) of the SPDR Gold Trust (the Trust) trade like stocks, are subject to investment risk and will fluctuate in market value. The value of the Shares relates directly to the value of the gold held by the Trust (less Trust expenses) and fluctuations in the price of gold could materially adversely affect an investment in the Shares. Investors should be aware that there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. The Trust does not generate any income and as the Trust regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time.

The Trust has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents the Trust has filed with the SEC for more complete information about the Trust and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, the Trust or any Authorized Participant will arrange to send you the prospectus if you request it by calling 1-866-320-4053 or contacting State Street Global Markets, LLC, One Lincoln Street, Attn: SPDR Gold Shares, 30th Floor, Boston, MA 02111.

The prospectus contains material information about the Trust and its Shares which is material and/or which may be important to you. You should read the entire prospectus, including Risk Factors before making an investment decision about the Shares.

Shareholders of the Trust will not have the protections associated with ownership of shares in an investment company registered under the Investment Company Act of 1940 or the protections afforded by the Commodity Exchange Act of 1936. The Trust is not registered as an investment company under the Investment Company Act of 1940 and is not required to register under such act. Neither the Sponsor nor the Trustee of the Trust is subject to regulation by the Commodity Futures Trading Commission. Shareholders will not have the regulatory protections provided to investors in Commodity Exchange Act regulated instruments or commodity pools.

The Trust is sponsored by World Gold Trust Services, LLC (the Sponsor), a wholly-owned subsidiary of the World Gold Council. State Street Global Markets, LLC (the Marketing Agent) is the marketing agent of the Trust and an affiliate of State Street Global Advisors.
