Total earnings were insufficient to cover the fixed charges for the years ended December 31, 2009 and 2008 by \$44.7 million and \$58.2 million, respectively. The insufficient earnings were primarily due to losses from continuing operations of \$40.0 million and \$52.9 million in the years ended December 31, 2009 and 2008, respectively, and the non-cash impairment charges of \$8.2 million and \$80.2 million in the years ended December 31, 2009 and 2008, respectively. - (1) The Company recorded impairment charges of \$2.2 million during the six months ended June 30, 2010, as a result of the discontinuance of manufacturing activities at its Limoges, France, plant, which indicated a possible impairment of the plant's real estate assets. The Company recorded an \$8.2 million impairment of goodwill related to its Pharmaceuticals business during 2009. The impairment was triggered by changes made to the assumptions used to determine valuation under the market approach. The Company recorded impairment charges of \$80.2 million related to goodwill and other long-lived assets in its Performance Coatings, Specialty Plastics and Electronic Materials businesses during 2008. Goodwill was impaired related to tile coatings products in the Performance Coatings segment, and goodwill and property, plant and equipment were impaired related to products in the Company's Specialty Plastics segment. The impairments were due to lower forecasted cash flows in the businesses resulting from significant reductions in demand from customers due to the worldwide economic downturn. In addition, the Company recorded an impairment of property, plant and equipment in its Electronic Materials facility in the Netherlands. This asset impairment was the result of a decline in the operating results and reduced future sales projections for the Company's dielectric material products that are produced at the Netherlands facility.
- (2) Restructuring charges of \$32.3 million and \$1.1 million were recorded in the six months ended June 30, 2010 and 2009, respectively, primarily related to the rationalization activities in the Company's European manufacturing operations. During 2009 and 2008, the Company continued several restructuring programs across a number of its business segments with the objectives of leveraging its global scale, realigning and lowering its cost structure and optimizing capacity utilization. The programs are primarily associated with North America and Europe. In March 2008, the Company initiated additional restructuring plans for its Performance Coatings and Color and Glass Performance Materials segments. In February 2008, the Company announced the closing of a Plastics facility in Aldridge, United Kingdom. Restructuring charges of \$11.1 million were recorded in 2009, primarily related to manufacturing rationalization activities in the Company's European manufacturing operations and other cost-reduction actions. Restructuring charges of \$25.9 million were recorded in 2008, primarily associated with

the rationalization of the Company's manufacturing operations in the Performance Coatings and Color and Glass Performance Materials segments, and other restructuring activities to reduce costs and expenses throughout all of its businesses.

- (3) For the six months ended June 30, 2010, miscellaneous income and expense includes a gain of \$7.8 million as a result of a business combination in which the Company and Heraeus of Hanau, Germany acquired from each other certain business lines related to decoration materials for ceramic and glass products, and a charge of \$3.5 million for an increased reserve for environmental remediation costs related to a non-operating facility in Brazil.
