GENERAL INFORMATION

We are mailing this proxy statement and accompanying proxy card to our stockholders beginning on April 8, 2005. Our Board of Directors is soliciting your proxy to vote your shares at our Annual Meeting to be held on May 4, 2005. We will bear all expenses incurred in connection with this proxy solicitation, which we expect to conduct primarily by mail. We have engaged The Proxy Advisory Group of Strategic Stock Surveillance, LLC to assist in the solicitation for a fee that will not exceed \$7,500, plus out-of-pocket expenses. In addition to solicitation by mail and by The Proxy Advisory Group of Strategic Stock Surveillance, LLC, our officers and regular employees may solicit your proxy by telephone, by facsimile transmission or in person, for which they will not be separately compensated. If your shares are held through a broker or other nominee (*i.e.*, in street name), we have requested that your broker or nominee forward this proxy statement to you and obtain your voting instructions, for which we will reimburse them for reasonable out-of-pocket expenses. If your shares are held through The Thrift Plan for Employees of McDermott Incorporated and Participating Subsidiary and Affiliated Companies (the McDermott Thrift Plan), the trustee of that plan has sent you this proxy statement and a voting instruction form, which you can use to direct the trustee on how to vote your plan shares.

VOTING INFORMATION

Record Date and Who May Vote

Our Board of Directors selected March 28, 2005 as the record date (the Record Date) for determining stockholders entitled to vote at the Annual Meeting. This means that if you were a registered stockholder with our transfer agent and registrar, EquiServe Trust Company, N.A., on the Record Date, you may vote your shares on the matters to be considered by our stockholders at the Annual Meeting. If your shares were held in street name on that date, the broker or other nominee that was the record holder of your shares has the authority to vote them at the Annual Meeting. They have forwarded to you this proxy statement seeking your instructions on how you want your shares voted.

On the Record Date, 67,966,938 shares of our common stock were outstanding. Each outstanding share of common stock entitles its holder to one vote on each matter to be acted on at the meeting.

How to Vote

For shares held of record, you can vote your shares in person at the Annual Meeting or vote now by giving us your proxy. You may give us your proxy by completing the enclosed proxy card and returning it in the enclosed U.S. postage prepaid envelope or by calling a toll-free telephone number or using the Internet as further described in the enclosed proxy card. By giving us your proxy, you will be directing us on how to vote your shares at the meeting. Even if you plan on attending the meeting, we urge you to vote now by giving us your proxy. This will ensure that your vote is represented at the meeting. If you do attend the meeting, you can change your vote at that time.

If your shares are held in street name, the broker or nominee that holds your shares has the authority to vote them and has enclosed a voting instruction form with this proxy statement. They will vote your shares as you direct on their voting instruction form. You can vote by completing the enclosed voting instruction form and returning it in the enclosed U.S. postage prepaid envelope. If you want to vote your shares in person at the Annual Meeting, you must obtain a valid proxy from your broker or nominee. You should refer to the instructions provided in the enclosed voting instruction form for further information. Additionally, the availability of telephone or Internet voting depends on the voting process used by the broker or nominee that holds your shares.

In either case, telephone and Internet voting procedures have been designed to verify your identity through a personal identification or control number and to confirm that your voting instructions have been properly recorded. If you vote using either of these electronic means, you will save us return mail expense.

Table of Contents

You may receive more than one proxy statement and proxy card or voting instruction form if your shares are held through more than one account (*e.g.*, through different brokers or nominees). Each proxy card or voting instruction form only covers those shares of common stock held in the applicable account. If you hold shares in more than one account, you will have to provide voting instructions as to all your accounts to vote all your shares.

How to Change Your Vote

For shares held of record, you may change your vote by written notice to our Corporate Secretary, granting a new proxy or by voting in person at the Annual Meeting. Unless you attend the meeting and vote your shares in person, you should change your vote using the same method (by telephone, Internet or mail) that you first used to vote your shares. That way, the inspectors of election for the meeting will be able to verify your latest vote.

For shares held in street name, you should follow the instructions in the voting instruction form provided by your broker or nominee to change your vote. If you want to change your vote as to shares held in street name by voting in person at the Annual Meeting, you must obtain a valid proxy from the broker or nominee that holds such shares for you.

Quorum

The Annual Meeting will be held only if a quorum exists. The presence at the meeting, in person or by proxy, of holders of a majority of our outstanding shares of common stock as of the Record Date will constitute a quorum. If you attend the meeting or vote your shares using the enclosed proxy card or voting instruction form (including any telephone or Internet voting procedures provided), your shares will be counted toward a quorum, even if you abstain from voting as to a particular matter. Broker non-votes (*i.e.*, shares held by brokers and other nominees as to which they have not received voting instructions from the beneficial owners and lack the discretionary authority to vote on a particular matter) also will count for quorum purposes.

Proposals to Be Voted on; Vote Required and How Votes Are Counted

We are asking you to vote on the following:

the election of Roger A. Brown, Oliver D. Kingsley, Jr. and Bruce W. Wilkinson to Class I of our Board of Directors;

the election of Ronald C. Cambre and Bruce DeMars to Class III of our Board of Directors; and

the ratification of the decision of our Audit Committee and Board of Directors to retain PricewaterhouseCoopers LLP as our independent registered public accounting firm for the year ending December 31, 2005.

Each proposal, including the election of directors, requires the affirmative vote of a majority of the shares of common stock present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. In the election of directors, you may vote **FOR** all director nominees or withhold your vote for any one or more of the director nominees. For the proposal to ratify the decision of our Board of Directors to retain PricewaterhouseCoopers as our independent registered public accounting firm for the year ending December 31, 2005, you may vote **FOR** or **AGAINST** or abstain from voting. Because abstentions are counted for purposes of determining whether a quorum is present but are not affirmative votes for either proposal, they have the same effect as an **AGAINST** vote. Broker non-votes will have no effect on the vote on either of the proposals.

If you submit a signed proxy card without specifying your vote, your shares will be voted **FOR** the election of all director nominees and the ratification of the decision of our Board of Directors to retain PricewaterhouseCoopers as our independent registered public accounting firm for the year ending December 31, 2005. If you hold your shares in street name and you do not instruct your broker or nominee

Table of Contents

how to vote those shares, they may vote your shares as they decide as to matters for which they have discretionary authority under the applicable New York Stock Exchange rules. Shares held by a broker or other nominee as to which they have not received voting instructions from the beneficial owners and lack the discretionary authority to vote on a particular matter are called broker non-votes. While broker non-votes will be counted toward a quorum, they are not entitled to vote on, or considered present for purposes of, any matters for which the broker or nominee lacks the authority to vote. Therefore, they will have no effect on the vote on any such matter.

We are not aware of any other matters that may be presented or acted on at the meeting. If you vote by signing and returning the enclosed proxy card or using the telephone or Internet voting procedures, the individuals named as proxies on the card may vote your shares, in their discretion, on any other matter requiring a stockholder vote that comes before the meeting.

Confidential Voting

All voted proxies and ballots will be handled to protect your voting privacy as a stockholder. Your vote will not be disclosed except:

to meet any legal requirements;

in limited circumstances such as a proxy contest in opposition to our Board of Directors;

to permit independent inspectors of election to tabulate and certify your vote; or

to adequately respond to your written comments on your proxy card.

Table of Contents

**ELECTION OF DIRECTORS
(ITEM 1)**

Our Articles of Incorporation provide for the classification of our Board of Directors into three classes, subject to (1) a reduction to two classes if the number of directors constituting the Board of Directors is less than nine and (2) a further reduction to a single class if the number of directors constituting the Board of Directors is less than six. Our Articles of Incorporation further provide that the term of office of one class shall expire each year. Currently, our Board of Directors has ten members. Two of our ten directors have been added to the Board since our 2004 Annual Meeting: Oliver D. Kingsley, Jr. became a director in November 2004; and Roger A. Brown became a director in February 2005. As a result of the increase in the number of directors, in February 2005, our Board of Directors reconstituted Class III and reassigned Ronald C. Cambre and Bruce DeMars from Class I to Class III of the Board. One of our other Class I directors, Richard E. Woolbert, will retire from our Board after more than eight years of service, effective at this year's Annual Meeting.

The current term of office of our Class I directors Roger A. Brown, Oliver D. Kingsley, Jr., Bruce W. Wilkinson and Richard E. Woolbert will expire at this year's Annual Meeting. On the nomination of our Board, Messrs. Brown, Kingsley and Wilkinson will stand for re-election as Class I directors at this year's Annual Meeting for a term of three years.

As former Class I directors, the current term of office of Ronald C. Cambre and Bruce DeMars was to expire at this year's Annual Meeting. With the reconstitution of Class III of the Board and the reassignment of Mr. Cambre and Admiral DeMars from Class I to Class III, their current term was effectively extended for two years, due to the requirement in our Articles of Incorporation that the term of one class of directors shall expire each year. However, our Board of Directors determined to submit the nominations of Mr. Cambre and Admiral DeMars for election at this year's Annual Meeting so that our stockholders would have the opportunity to effectively ratify the selection of Messrs. Cambre and DeMars as Class III directors. Accordingly, on the nomination of our Board, Mr. Cambre and Admiral DeMars will stand for re-election as Class III Directors at this year's Annual Meeting for a term of two years.

Our amended and restated By-Laws provide that (1) a person shall not be nominated for election or re-election to our Board of Directors if such person shall have attained the age of 70 prior to the date of election or re-election and (2) any director elected or re-elected at or after that Annual Meeting who attains the age of 70 during his or her term shall be deemed to have resigned and retired at the first Annual Meeting following his or her attainment of the age of 70, unless the application of this mandatory retirement provision is waived by the full Board of Directors, provided that any such waiver may only extend for one year. Although Joe B. Foster has reached the mandatory retirement age of 70 for directors under our By-Laws, our full Board of Directors waived the application of the mandatory retirement provision for the one-year period, allowing Mr. Foster to continue serving as a director until our Annual Meeting in 2006.

Unless otherwise directed, the persons named as proxies in the enclosed proxy card intend to vote FOR the election of the nominees. If any nominee should become unavailable for election, the shares will be voted for such substitute nominee as may be proposed by our Board of Directors. However, we are not aware of any circumstances that would prevent any of the nominees from serving. Set forth below under Class II Directors are the names of our other directors who will continue to serve as directors after this year's Annual Meeting. All directors have been previously elected by the stockholders or are standing for election as directors at this year's Annual Meeting.

These standards are consistent with the standards of the New York Stock Exchange and are contained in the Corporate Governance Guidelines adopted by our Board of Directors, which are posted on our website at www.mcdermott.com under Investor Relations Corporate Governance.

Annual Meeting Attendance

As reflected in our Corporate Governance Guidelines, we have adopted a policy that each member of our Board of Directors must make reasonable efforts to attend our Annual Meeting. All eight directors then serving on the Board attended our Annual Meeting last year.

Our Board has determined that Messrs. For more information on the background of each of Messrs. McWilliams, Cambre, Foster and Schievelbein and Admiral DeMars, see their biographical information under Election of Directors.

A copy of the charter, which was amended and restated in February 2005, is attached as Appendix B to this proxy statement.

The nonmanagement directors meet in executive session without management on a regular basis. The Governance Committee solicits ideas for possible candidates from a number of sources including members of the Board, our senior level executives and individuals personally known to the members of the Board.

Any stockholder may nominate one or more persons for election as one of our directors at an annual meeting of stockholders if the stockholder complies with the notice, information and consent provisions contained in our by-laws. See *Stockholders Proposals* in this proxy statement and our by-laws, which may be found on our website at www.mcdermott.com at *Investor Relations Corporate Governance*.

The Governance Committee will consider candidates identified through the processes described above, and will evaluate each of them, including incumbents, based on the same criteria. The Governance Committee also takes into account the contributions of incumbent directors as Board members and the benefits to us arising from their experience on the Board. Although the Governance Committee will consider candidates identified by stockholders, the Governance Committee may determine not to recommend those candidates to the Board, and the Board may determine not to nominate those candidates.

Directors Stock Plans. In addition to the fees and benefits provided to our directors described above, we currently have a directors stock plan under which we have granted stock options and issued restricted stock to our nonemployee directors. A maximum of 100,000 shares of our common stock may be issued under the 1997 Director Stock Program, which we adopted and our stockholders approved in 1997. Under this directors stock plan:

each nonemployee director is granted options to purchase 900 shares of our common stock on the first day of the first year of such director's term and 300 shares on the first day of any subsequent year of such term;

the options have an exercise price equal to the fair market value of our common stock (average of high and low trading price) on the date of grant, become fully exercisable six months after the date of grant, and remain exercisable for ten years after the date of grant;

each nonemployee director is also granted rights to purchase 450 restricted shares of our common stock on the first day of the first year of such director's term and 150 restricted shares on the first day of any subsequent year of such term at \$1.00 per share;

the shares of restricted stock are subject to transfer restrictions and forfeiture provisions, which generally lapse at the end of a director's term;

if a change in control of our company occurs, all transfer restrictions and forfeiture provisions on the shares of restricted stock will lapse and all outstanding stock options will become immediately exercisable; and

we granted options to purchase 4,725 shares of our common stock and 2,363 shares of restricted stock during the year ended December 31, 2004.

In addition, a maximum of 3,000,000 shares of our common stock may be issued to executives, key employees, nonemployee directors and consultants under our 2001 Directors and Officers Long-Term Incentive Plan (the 2001 LTIP), which we adopted and our stockholders approved in 2002. Shares of our common stock approved for issuance under some of our prior stock plans that were not awarded, or that were subject to awards that have been cancelled, terminated, forfeited, expired, settled in cash, or exchanged for consideration not involving shares, are also available for awards under the 2001 LTIP. Under the 2001 LTIP:

options, restricted stock, performance units and deferred stock units may be granted, from time to time, to directors in such number, and on such terms, as the Compensation Committee or the Board of Directors may determine;

any options granted must have an exercise price that is not less than the fair market value of our common stock (average of high and low trading prices) on the date of grant;

the Compensation Committee or the Board of Directors determines when the options become exercisable and the duration of the options, provided that no option may be exercisable later than the tenth anniversary of the date of grant;

any shares of restricted stock, performance units and deferred stock units granted are subject to such vesting restrictions, transfer restrictions and forfeiture provisions as the Compensation Committee or the Board of Directors establishes;

the Compensation Committee or the Board of Directors determines the treatment of awards in the event of a change in control of our company on an individual award basis; and

we granted options to purchase 35,000 shares of our common stock and 3,500 shares of restricted stock to nonemployee directors during the year ended December 31, 2004.

COMPENSATION COMMITTEE REPORT

To Our Stockholders

The Compensation Committee is currently comprised of seven independent directors. The Committee exists to develop executive compensation policies that support McDermott's strategic business objectives and values. Our duties include:

Reviewing and approving the design of McDermott's executive compensation programs and all salary arrangements that its executives receive;

Assessing the effectiveness of McDermott's executive compensation programs in light of its compensation policies; and

Evaluating executive performance.

Compensation Philosophy

We adhere to an executive compensation philosophy that supports McDermott's business strategies. These strategies are to:

Maximize profits;

Increase shareholder value;

Strengthen cash flow and liquidity;

Resolve B&W's asbestos-related Chapter 11 reorganization proceeding in a timely and effective manner;

Reinforce operating discipline and excellence in each of McDermott's operating groups; and

Pursue internal and external initiatives for growth.

Our philosophy for executive compensation is to:

Manage compensation opportunities from a total compensation perspective that emphasizes at-risk compensation, while balancing short-term and long-term compensation to support McDermott's business and financial strategic goals;

Structure compensation opportunities that are contingent on performance measures that drive growth and, to the extent possible, are fully competitive;

Reflect positive, as well as negative, company and individual performance in compensation;

Emphasize equity-based compensation for McDermott executives to reinforce management's focus on shareholder value;

Structure compensation programs that are flexible and focus, as appropriate, on issues that are unique to individuals and business groups; and

Provide pay opportunities that will attract and retain executive talent.

McDermott's executives participate in a comprehensive compensation program built around this philosophy. The key components of this program include base salary, annual bonus opportunities, long-term and equity-based incentives (stock options, restricted stock and performance units) and benefits.

To ensure that its executive compensation levels are comparable to the practices of other comparable companies, McDermott, with the assistance of our compensation consultant, annually collects and reviews compensation data

from several external sources. This data covers both specific industries in which McDermott competes and general industry. The industry-specific comparison is collected using a group of companies that have national and international business operations and sales volumes, market capitalizations, employment levels, and one or more lines of business that are comparable to McDermott's. We review and

Table of Contents

approve the selection of companies used for this purpose. The industry-specific comparison group is the same as the 2004 Peer Group used in the performance graph included in this proxy statement.

Since 2000, the Committee has engaged Apogee, an executive compensation consulting firm, to assist in revising McDermott's executive compensation program to more clearly reflect a total compensation approach. Under this approach, McDermott's executive compensation program focuses on competitive opportunities that are contingent upon the achievement of operational and financial performance goals. Individual opportunities are formulated by giving consideration to the executive's position with McDermott, individual accountabilities, corporate and unit objectives and compensation practices in the competitive marketplace.

Base Salary

Generally, salaries reflect an individual's level of responsibility, prior experience, breadth of knowledge, personal contributions, position within McDermott's executive structure and market pay practices. Overall, salaries are targeted at or near the median of market practice, with annual adjustments based on performance. When making annual adjustments, we conduct a qualitative assessment that considers many factors, including individual performance, both past and present. The factors used in making this evaluation may vary by individual and by position.

As part of the review conducted by Apogee, a thorough analysis was performed to compare current executive salaries with competitive industry benchmarks. The analysis determined that our salaries were generally within 10% of the market median considered to be fully competitive and salary adjustments were determined individually as described above.

During fiscal year 2004, Mr. Wilkinson served as McDermott's Chief Executive Officer. While the Committee was highly pleased with Mr. Wilkinson's performance, at Mr. Wilkinson's request, his base salary for 2004 was not increased and was maintained at \$650,000.

Annual Bonus

As part of the short-term component of McDermott's overall executive compensation program for the year ended December 31, 2004, we provided bonus opportunities to our executive officers and selected salaried employees through McDermott's Executive Incentive Compensation Plan (the "EICP"). The EICP is a cash-based performance incentive program designed to motivate and reward eligible employees for their contributions to those factors and objectives that drive McDermott's earnings and growth. Executive officers and key employees at McDermott's corporate headquarters and business groups whose effective performance can have a reasonable impact on McDermott's tactical and strategic initiatives participate in the EICP annually.

For each year under the EICP, the Committee establishes a target award, expressed as a percentage (or multiplier) of the participant's annual base salary, for executive officers and certain employees. The Committee establishes weighted business plan performance measures and individual performance measures, appropriate for the position of each participating officer, at the beginning of the year. For each business plan measure, the Committee defines a threshold, target and maximum level of performance. Target performance in both the business plan and individual measures results in eligibility for payment of 100% of the target award. Performance below the target, but above the threshold amount, and performance above the target, would result in a decreased or increased payout, respectively. Additionally, the EICP contemplates that the Committee may authorize an additional payment in an amount equal to 30% of the target award to recognize exemplary accomplishments in any year, regardless of whether performance was above or below the targeted levels. Bonuses of up to 200% of individual target awards may be earned under the EICP.

Table of Contents

The target awards for 2004, as a percentage of the participating officer's annual base salary on 1/1/04 (the EICP multiplier), were as follows:

Chief executive officer, 80%;

Business group presidents, 65%;

Other senior officers of McDermott International, Inc., 55%; and

Other elected officers of McDermott International, Inc. and business groups, 45%

For the year ended December 31, 2004, participating officers earned bonuses under the EICP greater than their target awards based on performance measures that included return on adjusted assets, operating income and other measures reflecting individual accountabilities of each executive officer. During that period, Mr. Wilkinson earned a bonus of \$1,014,000 on a target award of 80%.

Long-Term Incentives

The Committee believes that the interests of its stockholders are best served when a significant percentage of officers' compensation is comprised of equity-based and other long-term incentives that acquire value contingent upon increases in the share price of McDermott's common stock and other indicators that reflect improvements in business fundamentals. In determining the size and frequency of individual long-term incentive awards, the Committee considers:

market practices among comparable and other companies;

level of responsibility;

individual performance; and

the potential of the grant recipient to affect future outcomes.

The Committee does not apply any specific weighting of these factors in its determinations.

In 2004, the Committee awarded executives and key employees with equity-based incentives through the 2001 Directors and Officers Long-Term Incentive Plan (the 2001 LTIP). It is the Committee's intention to review compensation opportunities annually and to make awards under McDermott's long-term plans at such times and in such amounts as may be required to accomplish the objectives described above.

Stock Options. Stock options are granted to McDermott's executives to provide an equity-based incentive component to their compensation. In 2004, McDermott granted stock options at exercise prices equal to the fair market value of the underlying common stock on the date of grant.

During the year ended December 31, 2004, McDermott granted Mr. Wilkinson options to acquire 129,200 shares of common stock at an exercise price of \$9.01 per share. These options vest one-third on each of the first three anniversaries of the date of grant and have a term of 10 years.

Restricted Stock. In the year ended December 31, 2004, we made grants of restricted stock under the 2001 LTIP. Actual shares of stock were issued at the time of grant, the vesting of which is scheduled to occur upon the earlier of the fifth anniversary of the award date or the achievement of predetermined individual performance measures. Until those shares of restricted stock vest, they are nontransferable and subject to forfeiture under certain circumstances.

In 2004, Mr. Wilkinson was granted 29,700 shares of restricted stock, excluding the shares granted under our Key Executive Retention Program (KERP), discussed further below.

Generally, the vesting of restricted stock is taxable income subject to statutory tax withholding. In March 2004, the Committee approved the irrevocable elections of certain officers to withhold shares of restricted stock upon vesting to satisfy the statutory minimum tax withholding obligation on restricted stock vesting during 2004, other than stock granted under the KERP. Seven executive officers, including Mr. Wilkinson, and several other key employees elected to be subject to the share withholding in satisfaction of applicable

Table of Contents

statutory tax withholding requirements. Additionally, in October 2004, the Committee approved the irrevocable election of six executive officers, including Mr. Wilkinson, as well as several other key employees, to have some or all of their minimum statutory tax withholding obligation satisfied with the withholding of an equivalent number of shares for restricted stock vesting during 2005, other than stock granted under the KERP.

Performance Units. The Committee did not grant any performance units in 2004.

Key Executive Retention Program

In May 2004, the Committee instituted the Key Executive Retention Program (the KERP) in an effort to maintain continuity of corporate management as McDermott worked through a number of operational challenges. The KERP provided certain executives and other key employees with quarterly vesting of shares of restricted stock and cash payments concluding on March 1, 2005, conditioned on continued employment by the participating executive on each vesting date.

Under the KERP, Mr. Wilkinson was granted (1) periodic cash retention payments in an aggregate amount equal to 25% of his annualized base salary as of January 1, 2004, (2) a final cash retention payment on March 1, 2005 equal to 25% of his annualized base salary as of January 1, 2004, subject to the satisfaction of performance goals the Committee established (which goals were attained), and (3) 37,143 shares of restricted stock, the vesting of 50% of which was subject to the attainment of performance goals the Committee established (which goals were attained). The final vesting date under the KERP was March 1, 2005. The agreements setting forth the terms of Mr. Wilkinson's and the other executive officers' KERP compensation have been filed with the SEC as exhibits to McDermott's Form 10-Q for the quarter ended June 30, 2004.

Change-in-Control

The Committee approved and McDermott entered into change-in-control agreements with Messrs. Deason, Fees, Kalman, Nesser, Sannino and Wilkinson. Under these agreements, if McDermott terminates an executive officer's employment, other than for cause or as a result of his death or disability, or if an executive officer terminates his employment for good reason within the one year following a change in control, McDermott will pay that executive officer all of the following, pursuant to the change-in-control agreement:

Various accrued benefits, such as earned but unpaid salary, earned but unused vacation and reimbursements,

A cash payment equal to the product of the EICP multiplier used for the executive officer and the executive officer's annual base salary for the applicable period, in the event an EICP bonus for the year prior to termination is paid to other EICP participants after the date of the executive's termination. For example, for an applicable termination in 2005, the cash payment would equal the executive officer's target award percentage multiplied by the executive officer's 2004 annual salary.

A prorated cash payment under the EICP based upon the executive officer's target award for the year in which the termination occurs and the number of days in which the executive was employed with McDermott during that year. For example, for an applicable termination in 2005, the cash payment would equal the product of (1) the executive officer's 2005 annual base salary multiplied by the executive officer's 2005 EICP target percentage and (2) the number of days employed in 2005 divided by 365).

A cash payment equal to 200% of the executive's annual base salary immediately prior to termination plus his EICP target bonus applicable to the year in which the termination occurs. For example, for an applicable termination in 2005, the cash payment would equal two times the sum of the executive officer's 2005 annual base salary plus the executive officer's target bonus.

In the event any payment is subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended, an additional cash payment equal to such excise tax, as well as a gross-up payment for any resulting income or excise tax.

Benefits

Benefits offered to key executives serve a different purpose than the other elements of McDermott's compensation program. In general, they provide a safety net of protection against financial catastrophes that can result from illness, disability or death. Benefits offered to key executives are generally the same as those offered to the general employee population, with some variation to promote tax efficiency and replacement of benefit opportunities lost due to regulatory limits.

Policy with Respect to Section 162(m)

Section 162(m) of the Internal Revenue Code limits McDermott's tax deductions relating to the compensation paid to certain executive officers, unless the compensation is performance-based and the material terms of the applicable performance goals are disclosed to and approved by McDermott's stockholders. All of McDermott's past executive equity-based compensation plans have received stockholder approval and were prepared with the intention that McDermott's incentive compensation would qualify as performance-based compensation under Section 162(m).

While we intend to continue to rely on performance-based compensation programs, we are cognizant of the need for flexibility in making executive compensation decisions, based on the relevant facts and circumstances, so that the best interests of McDermott are achieved. To the extent consistent with this goal, we will attempt to satisfy the requirements of Section 162(m) in the future.

Conclusion

We believe McDermott's executive compensation policies and programs serve the interests of McDermott and its stockholders effectively, and that the various pay vehicles offered are appropriately balanced to provide appropriate motivation for executives to contribute to McDermott's overall future success, thereby enhancing the value of McDermott for its stockholders' benefit.

We will continue to monitor the effectiveness of McDermott's total compensation programs to meet the current needs of our company.

Table of Contents**PERFORMANCE GRAPH**

The following graph compares the yearly percentage change in McDermott's cumulative total return on its common stock over the preceding five-year period with the cumulative total return of the Standard & Poor's 500 Stock Index (S&P 500 Index) and with two peer groups of publicly traded companies over the same period. The first peer group (the 2003 Peer Group) was used in the presentation of the performance graph we included in the proxy statement for our 2002, 2003 and 2004 Annual Meetings and consists of the following companies: Cal Dive International, Inc., Fluor Corporation, Foster Wheeler Corporation, Global Industries, Ltd., Gulf Island Fabrication, Inc., Halliburton Company, Jacobs Engineering Group, Inc., Oceaneering International, Inc., Stolt Offshore S.A., and Technip S.A. The second peer group (the 2004 Peer Group) is a new group of companies we selected in order to provide a better representation of companies in the defense and related industries that are comparable to our Government Operations segment and to update our group of peers that are comparable to our Marine Construction Services segment. The 2004 Peer Group consists of Fluor Corporation, Global Industries, Ltd. GlobalSantaFe Corporation, Goodrich Corporation, Halliburton Company, Jacobs Engineering Group Inc., Rockwell Collins, Inc., The Shaw Group Inc., Stolt Offshore S.A., Technip S.A., United Defense Industries, Inc. and Washington Group International, Inc. In accordance with SEC rules, we are presenting the 2004 Peer Group along with the 2003 Peer Group in the graph below.

(1) Includes salary and bonus earned in a fiscal year, whether or not deferred. Bonus amounts include bonuses paid in 2005, 2004 and 2003, but earned in fiscal years 2004, 2003 and 2002, respectively.

(2) The aggregate value of perquisites and other personal benefits received by a Named Executive Officer during a fiscal year is not included if it does not exceed the lesser of \$50,000 or 10 percent of the total amount of such

officer's salary and bonus for that period. For purposes of determining whether perquisites exceeded that threshold amount, we did not assign any value to the inclusion of family members on charter flights, because we did not incur any incremental cost for the family member(s) to accompany the executive officer on those flights. The amount shown for Mr. Nesser in 2002 is attributable to relocation expenses.

- (3) Includes restricted stock granted in 2004, 2003 and 2002 and restricted stock issued in 2002 as a result of performance share awards granted during fiscal year 2000. The restricted stock awards are valued at the closing market price of our common stock on the date of grant. The restricted stock issued as a result of the performance share awards are valued at the closing market price of common stock on the date the restricted stock was issued. McDermott waived the \$1.00 per share payment requirement for the restricted stock issued as a result of the performance share awards.

As of December 31, 2004, the total number of shares of restricted stock held by the Named Executive Officers and their market value (based on a closing market price on December 31, 2004 of \$18.36, net of any consideration paid for such shares) are as follows:

| Name | Shares of Restricted Stock | Market Value |
|---------------|---------------------------------------|-------------------------|
| Mr. Wilkinson | 196,243 | \$3,603,021 |
| Mr. Deason | 50,243 | \$ 922,461 |
| Mr. Fees | 36,700 | \$ 673,812 |
| Mr. Kalman | 86,057 | \$1,580,007 |
| Mr. Nesser | 77,043 | \$1,414,509 |

Table of Contents

Dividends, if any, would be paid on restricted stock at the same time and at the same rate as dividends paid to all stockholders. Grants of restricted stock in 2004 vest over a period of three to five years from the grant date, based upon the attainment of predetermined financial goals. The above share amounts include grants of restricted stock of 37,143, 21,143, 22,857 and 19,143 to Messrs. Wilkinson, Deason, Kalman and Nesser, respectively, granted in May 2004 under our Key Executive Retention Program (KERP), discussed above under Compensation Committee Report, and which vested in quarterly installments through March 1, 2005.

- (4) Amounts shown for each Named Executive Officer for the fiscal years ended 2002, 2003 and 2004 are attributable to our matching contributions to the officer's contribution under the McDermott Thrift Plan.
- (5) Includes cash retention payments made to Mr. Wilkinson of \$325,000 under our KERP.
- (6) Includes cash retention payments made to Mr. Deason of \$185,004 under our KERP.
- (7) Reflects only the compensation paid to Mr. Deason from the time he joined our company in March 2003.
- (8) Reflects a \$50,000 signing bonus.
- (9) Includes cash retention payments made to Mr. Kalman of \$200,000 under our KERP.
- (10) Reflects only the compensation paid to Mr. Kalman from the time he joined our company in February 2002.
- (11) Includes a \$100,000 signing bonus.
- (12) Includes cash retention payments made to Mr. Nesser of \$167,500 under our KERP.

Option Grant Table

The following table provides information about option grants to the Named Executive Officers during the year ended December 31, 2004.

- (1) Options granted in the year ended December 31, 2004 vest in equal installments of one-third on the first, second and third anniversaries of the date of grant and expire ten years from the date of grant. In general, vesting is

contingent on continuing employment with us or one of our subsidiaries. In the event of a change in control of our company, all outstanding options will vest and become immediately exercisable.

- (2) Based on options to acquire 889,131 shares of common stock granted to all employees of McDermott and its subsidiaries during the year ended December 31, 2004.
- (3) Fair market value on the date of grant, based on the average of the high and low sales prices reported on the New York Stock Exchange on that date.
- (4) Potential Realizable Value is based on the assumed annual growth rates for each of the grants shown over their ten-year option term. For example, if the exercise price is \$9.01, a 5% annual growth rate over ten

years results in a stock price of \$14.68 per share, and a 10% rate results in a price of \$23.37 per share. Actual gains, if any, on stock option exercises depend on the future performance of our common stock. Zero percent appreciation in the price of our common stock will result in no gain.

Option Exercises and Year-End Value Table

The following table provides information concerning the exercise of stock options during the year ended December 31, 2004 by each of the Named Executive Officers and the value at December 31, 2004 of unexercised options held by those persons. The value of unexercised options reflects the increase (if any) in market value of our common stock from the date of grant through December 31, 2004 (when the fair market value of our common stock was \$18.335 per share, based on the average of the high and low sales prices reported on the New York Stock Exchange on that date). The actual value realized on option exercise will depend on the value of our common stock at the time of exercise.

Employment and Severance Arrangements

We do not currently have any employment or severance agreements with any of our Named Executive Officers, except for the change-in-control agreements described below.

Change in Control Arrangements

We have entered into change-in-control agreements with Messrs. Deason, Fees, Kalman, Nesser, Sannino and Wilkinson. Under these agreements, if we terminate an executive officer's employment, other than for cause or as a result of his death or disability, or if an executive officer terminates his employment for good reason within the one year following a change in control, we will pay that executive officer all of the following pursuant to the change-in-control agreement:

Various accrued benefits, such as earned but unpaid salary, earned but unused vacation and reimbursements.

A cash payment equal to the product of the Executive Incentive Compensation Plan (EICP) multiplier used for the executive officer and the executive officer's annual base salary for the applicable period, in the event an EICP bonus for the year prior to termination is paid to other EICP participants after the date of the executive's termination. For example, for an applicable termination in 2005, the cash payment would equal the executive officer's target award percentage multiplied by the executive officer's 2004 annual salary.

A prorated cash payment under the EICP based upon the executive officer's target award for the year in which the termination occurs and the number of days in which the executive was employed with McDermott during that year. For example, for an applicable termination in 2005, the cash payment would equal the product of (1) the executive officer's 2005 annual base salary multiplied by the executive officer's 2005 EICP target percentage and (2) the number of days employed in 2005 divided by 365).

Table of Contents

A cash payment equal to 200% of the executive's annual base salary immediately prior to termination plus his EICP target bonus applicable to the year in which the termination occurs. For example, for an applicable termination in 2005, the cash payment would equal two times the sum of the executive officer's 2005 annual base salary plus the executive officer's target bonus.

In the event any payment is subject to the excise tax imposed by section 4999 of the Internal Revenue Code of 1986, as amended, an additional cash payment equal to such excise tax, as well as a gross-up payment for any resulting income or excise tax.

Under our long-term incentive compensation plans, upon a change in control of McDermott, all stock options will immediately become exercisable, all restrictions applicable to shares of restricted stock will immediately lapse and all deferred stock units and performance units will immediately become vested.

Under the Supplemental Executive Retirement Plan (discussed further below under Retirement Plans Supplemental Executive Retirement Plan), a participant shall have a vested percentage of 100% upon the date of termination of the participant's employment within 24 months following a change in control.

Retirement Plans

Pension Plans. We maintain retirement plans that are funded by trusts and cover substantially all regular full-time employees of McDermott and its subsidiaries, except certain nonresident alien employees who are not citizens of a European Community country or who do not earn income in the United States, Canada or the United Kingdom. Officers who are employees of McDermott or certain of its subsidiaries, including McDermott Incorporated and The Babcock & Wilcox Company (B&W), are covered under The Retirement Plan for Employees of McDermott Incorporated and Participating Subsidiary and Affiliated Companies (the McDermott Retirement Plan). Under the McDermott Retirement Plan, salaried B&W employees and other salaried employees who began their career with B&W (collectively, the B&W tenured employees) accrue benefits under a different formula than other participants in the plan. Officers who are employed by J. Ray McDermott or certain of its subsidiaries or affiliates are covered under The Retirement Plan of Employees of J. Ray McDermott Holdings, Inc. (the J. Ray McDermott Retirement Plan). As of March 31, 2003, benefit accruals under the J. Ray McDermott Retirement Plan ceased. On November 31, 2003, assets and liabilities attributable to current and former employees of our Government and Industrial business unit were spun-off from the McDermott Retirement Plan into a separate plan called the Retirement Plan for Employees of BWX Technologies, Inc. (the BWXT Retirement Plan). On January 31, 2005, assets and liabilities attributable to current and former employees of our Power Generation Systems business segment's current operations were spun-off from the McDermott Retirement Plan into a separate plan called the Retirement Plan for Employees of The Babcock & Wilcox Company and Participating Subsidiary and Affiliated Companies (the B&W Plan). All plan rights and features, including individual retirement benefits payable under the plans, remained unchanged. Employees do not contribute to any of these plans, and company contributions are determined on an actuarial basis. To the extent benefits payable under these qualified plans are limited by Section 415(b) or 401(a)(17) of the Internal Revenue Code, pension benefits will be paid directly by the applicable company or a subsidiary under the terms of unfunded excess benefit plans maintained by them (the Excess Plans). An employee must be employed by the applicable company or a subsidiary for one year prior to participating in the plans and must have five years of continuous service to vest in any accrued benefits under the plans, except that all employees participating in the J. Ray McDermott Retirement Plan on March 31, 2003 became fully vested at that time.

The benefit formula under the McDermott Retirement Plan and the BWXT Retirement Plan applicable to participants who are not B&W tenured employees is the same as those payable to employees covered under the J. Ray McDermott Retirement Plan, prior to the cessation of benefit accruals under the J. Ray McDermott Retirement Plan as described above. The following table shows the annual benefit payable to non-B&W tenured employees under the McDermott Retirement Plan and the BWXT Retirement Plan and to J. Ray McDermott employees under the J. Ray McDermott Retirement Plan, at age 65 (the normal retirement age), who retire in 2005 in accordance with the lifetime-only method of payment and before profit-sharing plan offsets. Benefits are based on the formula of a specified percentage (dependent on years of service) of

Table of Contents

average annual basic earnings (exclusive of bonus and allowances) during the 60 successive months out of the 120 successive months before retirement in which such earnings were highest (Final Average Earnings), less a specified percentage of anticipated social security benefits. As of December 31, 2004, Mr. Nesser had Final Average Earnings of \$311,213 and 6.25 years of credited service under the McDermott Retirement Plan and Messrs. Deason, Kalman and Wilkinson had not vested in any accrued benefits under the McDermott Retirement Plan. Unless elected otherwise by the employee, payment will be made in the form of a joint and survivor annuity of equivalent actuarial value to the amount shown below.

The following table shows the annual benefit payable under the McDermott Retirement Plan and the BWXT Retirement Plan at age 65 (the normal retirement age) to B&W tenured employees who retire in 2005 in accordance with the lifetime-only method of payment. Benefits payable to B&W tenured employees are based on the formula of a specified percentage (dependent on the level of wages subject to social security taxes during the employee's career) of average annual earnings (inclusive of bonuses) during the 60 successive months out of the 120 successive months prior to retirement in which such earnings were highest (B&W Final Average Earnings). Final Average Earnings and credited service under the BWXT Retirement Plan as of December 31, 2004 for Mr. Fees were \$512,848 and 25.58 years. Unless elected otherwise by the employee, payment will be made in the form of a joint and survivor annuity of equivalent actuarial value to the amount shown below.

Supplemental Executive Retirement Plan. Until December 31, 2004, we maintained an unfunded Supplemental Executive Retirement Plan (the Retirement Plan) that covered certain of our officers and officers of some of our subsidiaries, including McDermott Incorporated, J. Ray McDermott, S.A. (J. Ray McDermott), BWX Technologies, Inc. (BWXT) and B&W. Generally, benefits were based on a specified percentage (determined by age, years of service and date of initial participation in the Retirement Plan) of final three-year average cash compensation (salary plus supplemental compensation for the highest three out of the last ten fiscal years of service) or three-year average cash compensation prior to the Retirement Plan scheduled retirement date, whichever is greater. The maximum benefit could not exceed 60% (depending on the date of initial participation in the Retirement Plan) of such three-year average cash compensation. Payments under the Retirement Plan would be reduced by an amount equal to pension benefits payable under any other retirement plan maintained by us or any of our subsidiaries. The Retirement Plan also

provided a surviving spouse death benefit.

Table of Contents

On December 31, 2004, we terminated the Retirement Plan and adopted, effective January 1, 2005, a replacement unfunded Supplemental Executive Retirement Plan (the "SERP"). The SERP covers certain of our officers and officers of our subsidiaries, including J. Ray McDermott, BWXT and B&W. Beginning balances in the SERP for those executives who were participants in the Retirement Plan were a fraction of the accrued value of their Retirement Plan benefits. Generally, benefits are based upon a participating officer's vested percentage in a notional account (consisting of contributions made by us and hypothetical accrued gains or losses) at the time of retirement or termination. A participating officer's vested percentage is the lesser of (1) 20% multiplied by the participating officer's years of participation and (2) 100%, subject to accelerated vesting for death, disability and termination without cause or within 24 months following a change in control. Other than distribution of a participating officer's vested account balance to the designated beneficiary on the officer's death, the SERP does not provide any surviving spouse death benefit.

We intend to establish a grantor trust designed to assist in the administration and tracking of the SERP contributions and hypothetical gains and losses. However, no special or separate fund will be established nor shall any other segregation of assets be made to assure that distribution of benefits will be made under the SERP. Any benefits or distributions payable under the SERP will be made from our general assets and any participant or beneficiary will be an unsecured general creditor.

AUDIT COMMITTEE REPORT

Each year, the Board of Directors appoints an Audit Committee to review McDermott International, Inc.'s financial matters. Each member of the Audit Committee meets the independence requirements established by the New York Stock Exchange. The Audit Committee is responsible for the appointment, compensation, retention and oversight of McDermott's independent registered public accounting firm. We are also responsible for recommending to the Board that McDermott's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year.

In making our recommendation that McDermott's financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2004, we have taken the following steps:

We discussed with PricewaterhouseCoopers LLP (PWC), McDermott's independent registered public accounting firm for the year ended December 31, 2004, those matters required to be discussed by Statements on Auditing Standards Nos. 61 and 90, each as amended, issued by the Auditing Standards Board of the American Institute of Certified Public Accountants, including information regarding the scope and results of the audit. These communications and discussions are intended to assist us in overseeing the financial reporting and disclosure process.

We conducted periodic executive sessions with PWC, with no members of McDermott management present during those discussions. PWC did not identify any material audit issues, questions or discrepancies, other than those previously discussed with management, which were resolved to the satisfaction of all parties.

We conducted periodic executive sessions with McDermott's internal audit department and regularly received reports regarding McDermott's internal control procedures.

We required periodic reviews of improvements to McDermott's project management systems, and supported and monitored management's initiatives to revise, improve, and upgrade its project management systems, controls, and personnel.

We reviewed, and discussed with McDermott's management and PWC, management's report and PWC's report and attestation on internal control over financial reporting, each of which was prepared in accordance with Section 404 of the Sarbanes-Oxley Act.

We received and reviewed the written disclosures and the letter from PWC required by the Independent Board's Standard No. 1, *Independence Discussions with Audit Committees*, as amended, and we discussed with PWC its independence from McDermott. We also considered whether the provision of nonaudit services to McDermott is compatible with PWC's independence.

During 2004, McDermott continued its migration to an internal audit function staffed primarily with company employees rather than outsourcing internal audit services. While McDermott increased the number of company internal audit employees in 2004, consultants continue to be engaged on an as-needed basis to provide particular areas of expertise.

We determined that there were no former PWC employees, who previously participated in the McDermott audit, engaged in the financial function of McDermott.

Table of Contents

We reviewed, and discussed with McDermott's management and PWC, McDermott's audited consolidated balance sheet at December 31, 2004, and consolidated statements of income (loss), comprehensive income (loss), cash flows, and stockholders' equity (deficit) for the year ended December 31, 2004.

Based on the reviews and actions described above, we recommended to the Board that McDermott's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2004 for filing with the Securities and Exchange Commission.

**RATIFICATION OF RETENTION OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR
YEAR ENDING DECEMBER 31, 2005
(ITEM 2)**

Our Board of Directors has ratified the decision of the Audit Committee to retain PricewaterhouseCoopers LLP to serve as independent registered public accounting firm to audit our financial statements for the year ending December 31, 2005. Although we are not required to seek stockholder approval of this appointment, it has been our practice to do so. No determination has been made as to what action the Audit Committee and the Board would take if our stockholders fail to ratify the appointment. Even if the appointment is ratified, the Audit Committee retains discretion to appoint a new independent audit firm at any time if the Audit Committee concludes such a change would be in the best interests of McDermott. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since 1999. We expect representatives of PricewaterhouseCoopers will be present at the Annual Meeting and will have an opportunity to make a statement if they desire to do so and to respond to appropriate questions.

During the years ended December 31, 2004 and 2003, McDermott paid PricewaterhouseCoopers fees, including expenses and taxes, totaling \$9,412,278 and \$6,198,958, respectively, which can be categorized as follows:

| Audit Related | | |
| The Audit Related fees for the years ended December 31, 2004 and 2003, respectively, were for assurance and related services for employee benefit plan audits, agreed upon procedures engagements, accounting consultations, advisory services related to Sarbanes-Oxley Section 404 compliance, and professional services in connection with the issuance of J. Ray McDermott, S.A.'s 11% Senior Secured Notes during 2003. | \$1,442,216 | \$1,296,430 |
| Tax | | |

| | | |
|--------------|--------------------|--------------------|
| Total | \$9,412,278 | \$6,198,958 |

It is the policy of our Audit Committee to preapprove all audit, review or attest engagements and permissible non-audit services, including the fees and terms thereof, to be performed by our independent registered public accounting firm, subject to, and in compliance with, the *de minimis* exception for non-audit services described in Section 10A(i)(1)(B) of the Securities Exchange Act of 1934 and the applicable rules and regulations of the Securities Exchange Commission. Our Audit Committee did not rely on the *de minimis* exception for any of the fees disclosed above.

Recommendation and Vote Required

Our Board of Directors unanimously recommends that stockholders vote **FOR** the ratification of the decision of our Board of Directors to retain PricewaterhouseCoopers as our independent registered public accounting firm for the year ending December 31, 2005. The proxy holders will vote all proxies received for approval of this proposal unless instructed otherwise. Approval of this proposal requires the affirmative vote of a majority of the outstanding shares of common stock present in person or represented by proxy and entitled to vote on this proposal at the Annual Meeting. Because abstentions are counted as present for purposes of the vote on this matter but are not votes **FOR** this proposal, they have the same effect as votes **AGAINST** this proposal. Broker non-votes will have no effect on the vote.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

McDermott is a large business organization with worldwide operations, and it engages in numerous purchase, sale and other transactions annually. We have various types of business arrangements with corporations and other organizations in which a McDermott executive officer, director, or nominee for director may also be a director, executive or investor, or have some other direct or indirect relationship. We enter into these arrangements in the ordinary course of our business, and they typically involve McDermott receiving or providing some good or service on a nonexclusive basis and at arm's-length negotiated rates or in accordance with regulated price schedules.

Each of Messrs. Wilkinson, Burkart, Henzler, Kalman and Sannino has irrevocably elected to satisfy withholding obligations relating to all or a portion of any applicable federal, state or other taxes that may be due on the vesting in the year ending December 31, 2005 of certain shares of restricted stock awarded under various long-term incentive plans by returning to us the number of such vested shares having a fair market value equal to the amount of such taxes. These elections, which apply to an aggregate of 10,000, 1,000, 2,165, 5,000 and 1,500 shares vesting in the year ending December 31, 2005 and held by Messrs. Wilkinson, Burkart, Henzler, Kalman and Sannino, respectively, are subject to approval of the Compensation Committee of our Board of Directors, which approval was granted. In the year ended December 31, 2004, each of Messrs. Wilkinson, Burkart, Fees, Henzler, Kalman, Nesser and Sannino made a similar election which applied to an aggregate of 96,906, 1,000, 10,571, 10,617, 5,000, 19,009 and 13,980 shares, respectively, that vested in the year ended December 31, 2004. Those elections were also approved by the Compensation Committee. We expect any transfers reflecting shares of restricted stock returned to us will be reported in the SEC filings made by those transferring holders who are obligated to report transactions in our securities under Section 16 of the Securities Exchange Act of 1934.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers, and persons who own 10% or more of our voting stock, to file reports of ownership and changes in ownership of our equity securities with the SEC and the New York Stock Exchange. Directors, executive officers and 10% or more holders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based solely on a review of the copies of those forms furnished to us, or written representations that no forms were required, we believe that our directors, executive officers and 10% or more beneficial owners complied with all Section 16(a) filing requirements during the year ended December 31, 2004.

APPENDIX A

**McDERMOTT INTERNATIONAL, INC.
Categorical Standards for Director Independence**

For a director to be deemed independent, the Board of Directors shall affirmatively determine that the director has no material relationship with the Company. In making this determination, the Board shall apply the following standards:

A director who is, or has been within the last three years, an employee, or whose immediate family member is, or has been within the last three years, an executive officer, of the Company shall not be determined to be independent. Employment as an interim Chairman or Chief Executive Officer or other executive officer of the Company shall not disqualify a director from being considered independent following that employment.

A director who received, or whose immediate family member received, during any twelve-month period within the last three years, more than \$100,000 in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), shall not be determined to be independent. Compensation received by a director for former service as an interim Chairman or Chief Executive Officer or other executive officer need not be considered in determining independence under this test. Compensation received by an immediate family member for service as an employee of the Company (other than an executive officer) shall not be considered in determining independence under this test.

A director shall not be determined to be independent if: (A) the director or an immediate family member is a current partner of a firm that is the Company's internal or external auditor; (B) the director is a current employee of such a firm; (C) the director has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or (D) the director or immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the Company's audit within that time.

A director or an immediate family member who is, or has been with the last three years, employed as an executive officer of another entity where any of the Company's current executive officers at the same time serves or served on that entity's compensation committee shall not be determined to be independent.

A director who is a current employee, or whose immediate family member is a current executive officer, of an entity that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of such other entity's consolidated gross revenues, shall not be determined to be independent.

A director who is a partner of or of counsel to a law firm that performs legal services for the Company on a regular basis shall not be determined to be independent.

A director who is a partner, officer or employee of an investment bank or consulting firm that performs substantial services for the Company on a regular basis shall not be determined to be independent.

In addition, the Board of Directors shall consider the following standard; however, failure to satisfy this standard will not automatically result in a determination that the director is not independent.

Is the director, or an immediate family member of the director, affiliated with or employed by a tax exempt organization that receives significant contributions (i.e., more than 2% of the annual contributions received by the organization, or more than \$200,000 in a single fiscal year, whichever amount is lower) from the Company or any of its affiliates within the preceding fiscal year?

Table of Contents

Does the director serve on so many other public company boards that his ability to devote sufficient time and attention to the Company's affairs is compromised?

In addition to the foregoing, for a director to be determined to be independent for purposes of the Audit Committee of the Board of Directors, that director must meet the criteria for independence established by Section 10A(m)(3) of the Securities Exchange Act of 1934, as amended.

For purposes of the foregoing:

The term affiliate of the Company is a person (including a partnership, corporation or other legal entity such as a trust or estate) that controls, is controlled by or is under common control with the Company. As used in this definition, control means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a person (whether through ownership of capital stock of that person, by contract or otherwise).

The term immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than a domestic employee) who shares such person's home.

References to the Company include any parent of subsidiary in a consolidated group with the Company.

McDERMOTT INTERNATIONAL, INC.
AUDIT COMMITTEE OF THE BOARD OF DIRECTORS
CHARTER

Preamble

The Audit Committee of the Board of Directors of McDermott International, Inc. (hereinafter sometimes the Company or McDermott) adopts this charter.

I. Purpose

The primary function of the Audit Committee (the Committee) is to assist the Board of Directors (the Board) in fulfilling its oversight responsibilities with respect to financial reports and other financial information provided by the Company to its shareholders and others by carrying out the following duties:

Serve as an independent and objective party to monitor the Company's financial reporting process and internal control system.

Oversee the integrity of the financial statements of the Company.

Monitor the compliance by the Company with legal and regulatory financial requirements.

Evaluate the independence, qualifications and performance of the Company's independent auditors.

Oversee the performance of the Company's internal audit function.

Oversee certain aspects of the Company's Compliance and Ethics Program relating to financial matters, books and records and accounting and as required by applicable statutes, rules and regulations.

Provide an open avenue of communication among the Company's outside auditors, financial and senior management, the internal audit department and the Board.

Comply with the applicable reporting requirements established by the Securities and Exchange Commission (the SEC).

II. Committee Composition

The Committee will be composed of not less than three members of the Board. All members of the Committee shall have a working familiarity with basic finance and accounting practices, and at least one member shall meet the qualifications of an audit committee financial expert, as defined in Item 401(h) of Regulation S-K promulgated by the SEC.

Each member of the Committee shall meet the independence requirements of Section 10A(m)(3) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the Corporate Governance Rules of the New York Stock Exchange (NYSE), as defined in the NYSE Listed Company Manual. Accordingly, all of the members will be directors independent of management and free from any relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment as a Committee member.

The members of the Committee shall be elected by the Board at each annual organizational meeting and shall serve until the Board's next annual organizational meeting and their successors are duly elected and qualified, or until their earlier resignation or removal. The Board shall have the authority at any time to remove one or more members of the Committee. The Chairman shall be elected by the full Board. If the Board should fail to elect a chairman, or should the chairman be absent or unavailable, the members of the Committee may designate a chair by majority vote of the full Committee membership. No member of the Audit Committee may serve as a member of in excess of two other audit committees.

Table of Contents

The Committee shall have the authority to engage independent counsel or other advisors, as it determines necessary to carry out its duties.

The Company shall provide for appropriate funding, as determined by the Committee, for payment of compensation to the Company's outside auditors for the purpose of preparing or issuing an audit report or performing any other services for the Company, compensation to any advisors employed by the Committee, and administrative expenses of the Committee that are necessary or appropriate in carrying out its duties.

III. Meetings

The Committee shall meet at least four times annually or more frequently as circumstances dictate. A detailed written agenda shall be prepared by or under supervision of the Chair of the Committee and distributed in advance.

The Committee shall meet periodically with management, those responsible for the internal audit function and the outside auditors, in separate executive sessions, to discuss any matters that the Committee or any of these individuals or groups believe should be discussed privately. The Committee shall maintain a high degree of independence both in establishing its agenda and directly accessing various members of McDermott and subsidiary management.

The Committee will maintain written minutes of all its meetings, which will be available to every member of the Board.

IV. Responsibilities and Duties

The Committee's principal responsibility is one of oversight. The Company's management is responsible for preparing the Company's financial statements and the outside auditors are responsible for auditing and reviewing those financial statements. Additionally, the Committee recognizes that financial management (including the internal audit staff), as well as the outside auditors, have more knowledge and more detailed information about the Company than do the members of the Committee; consequently, in carrying out its oversight responsibilities the Committee is not providing any expert or special assurance as to the Company's financial statements or any professional certification as to the independent accountants' work.

Pursuant to the Sarbanes-Oxley Act of 2002 and the rules and regulations of the SEC, the Committee shall be directly responsible for the appointment, compensation, retention and oversight of the work of any registered public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company (any such firm is referred to in this charter as the Company's outside auditors). The Committee shall have and may exercise all the powers of the Board, except as may be prohibited by law, with respect to all matters encompassed by this charter, and shall have all the power and authority required under the Sarbanes-Oxley Act of 2002.

The outside auditors of the Company are ultimately accountable to the Committee and the Board, as opposed to management of the Company. The Committee shall have the sole authority to appoint and, where appropriate, replace the Company's outside auditors (subject to shareholder ratification) and to approve all audit engagement fees and terms. The Committee shall be directly responsible for the compensation and oversight of the work of the Company's outside auditors (including resolution of disagreements between management and the outside auditors regarding financial reporting) for the purpose of preparing or issuing an audit report or related work or performing any other services for the Company. The Company's outside auditors shall report directly to the Committee.

The Committee shall preapprove all audit, review or attest engagements and permissible non-audit services, including the fees and terms thereof, to be performed by the Company's outside auditors, subject to, and in compliance with, the *de minimis* exception for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act and the applicable rules and regulations of the SEC.

The Committee may form and delegate authority to subcommittees consisting of one or more members when the Committee deems it appropriate to do so, including the authority to grant preapprovals of audit and

Table of Contents

other permissible services. The Committee also may delegate such preapproval authority to any of its members. Any decisions of such subcommittees or members to grant preapprovals shall be reported to the full Committee at the next meeting of the Committee.

The following functions shall be the common recurring activities of the Committee in carrying out its oversight responsibility. These functions are set forth as a guide with the understanding that the Committee may diverge from this guide as appropriate given the circumstances.

(3) received the written disclosures and letter from the outside auditors required by Independence Standards Board No. 1, and discussed with the outside auditors their independence; and

2. Ensure that McDermott provides the NYSE with applicable written confirmations, including but not limited to any confirmations regarding:

4. Review and discuss with management and the Company's outside auditors the Company's quarterly financial statements, and the related footnotes and disclosures, as well as specific disclosures made in management's discussion and analysis of financial condition and results of operations prior to the filing of the Company's Quarterly Reports on Form 10-Q, including any matters provided in Statement on Auditing Standards No. 100 arising in connection with the Company's quarterly financial statements.

5. Review and discuss with management and the Company's outside auditors:

Major issues regarding accounting principles and financial statement presentations, including any significant changes in the selection or application of accounting principles, any major issues concerning the adequacy of the Company's internal controls and any special audit steps adopted in light of material control deficiencies.

6. Review with management the Company's earnings press releases, with particular emphasis on the use of any non-GAAP financial measures, as well as financial information and earnings guidance provided to analysts and rating agencies. Such discussion may be done generally (covering, for example, the types of information to be disclosed and the type of presentation to be made).

9. Review significant internal audit reports and management's responses with those responsible for the internal audit function.

10. The Committee will review and discuss a report from the Company's outside auditors that contains all critical policies and practices to be used all alternative treatments of financial information within (GAAP) that have been discussed with management ramifications of the use of such alternative disclosures and treatments, and the treatment preferred other material written communications between the firm and management by the firm.

11. Have oversight responsibility for certain aspects of the Company's Compliance and Ethics Program relating to financial matters, books and records, and accounting and as required by applicable statutes, rules and regulations.

12. At least annually, obtain and review a report by the company's outside auditors describing (i) the outside auditors' internal quality-control procedures; (ii) any material issues raised by the most recent internal quality-control review, or peer review, of the outside auditors, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with any such issues; and (iii) all relationships between the outside auditors and the Company as contemplated by Independence Standards Board Standard No. 1. Evaluate the Company's outside auditors' qualifications, performance and independence, including considering whether the outside auditors' quality controls are adequate and the provision of permitted non-audit services is compatible with maintaining the outside auditors' independence. In making this evaluation, the Committee shall take into account the opinions of management and internal auditors. The Committee shall present its conclusions with respect to the Company's outside auditors to the full Board.

Outside Auditors

13. Recommend to the Board each year, a firm of independent certified public accountants to serve as McDermott's principal independent auditors. The Board will not recommend a registered public accounting firm to perform an audit if the company's Chief Executive Officer, Chief Financial Officer, Chief Administrative Officer, Controller (or equivalent) was employed by the audit firm and participated in the Company's audit during the one-year period preceding the date of initiation of the current audit.

14. On an annual basis, obtain from the Company's outside auditors assurance that Section 10A(b) of the Exchange Act has not been implicated with respect to the Company's most recently completed fiscal year.

15. Annually approve the fees and other compensation to be paid to the outside auditor.

Table of Contents

16. Require a formal written statement from the outside auditor consistent with Independence Standards Board Standard No. 1. The Committee is responsible for oversight of auditor independence and shall discuss annually with the outside auditor any relationships or services that may impact the auditor's independence, and take, or recommend to the full Board, actions to ensure that independence.

17. Discuss with the outside auditor the auditor's judgment about the quality of McDermott's accounting principles and the underlying estimates as required by SAS No. 90, *Audit Committee Communications*.

23. Meet with the Company's outside auditors prior to the audit to review the planning and staffing of the audit.

33. Committee members are prohibited from taking any action to fraudulently influence, coerce, manipulate, or mislead any auditor engaged in the performance of an audit for the purpose of rendering the financial statements materially misleading.

Other

34. In addition to the activities described above, the Committee will perform such other functions the Committee or the Board deems necessary or appropriate under law; the Company's articles of incorporation, by-laws and governing documents; and the resolutions and other directives of the Board of Directors.
