Item 8.01. Other Information

Repros Therapeutics Inc announced in a press release dated July 25, 2007 the endometrial biopsy findings from its three and six month studies of Proellex in the treatment of uterine fibroids and endometriosis respectively. The clinical study results of efficacy and top-line safety were reported in April and June 2007 and in both instances unequivocal efficacy was demonstrated in the treatment of both conditions with reduction of pain associated with endometriosis and reduction of bleeding in uterine fibroids.

A copy of the Company's press release is attached hereto as Exhibit 99.1. The press release is incorporated by reference herein and the foregoing description of the press release is qualified in its entirety by reference to the attached exhibit.
