### **Segments**

Our assets and operations consisted of four investment segments at June 30, 2005, as follows:

Office Segment;

Resort Residential Development Segment;

Resort/Hotel Segment; and

Temperature-Controlled Logistics Segment.

Within these segments, we owned in whole or in part the following operating real estate assets, which we refer to as the Properties, as of June 30, 2005:

**Office Segment** consisted of 79 office properties, which we refer to as the Office Properties, located in 29 metropolitan submarkets in eight states, with an aggregate of approximately 32.0 million net rentable square feet. Fifty-six of the Office Properties are wholly-owned and 23 are owned through joint ventures, two of which are consolidated and 21 of which are unconsolidated.

**Resort Residential Development Segment** consisted of our ownership of common stock representing interests of 98% to 100% in four resort residential development corporations and two limited partnerships. These Resort Residential Development Corporations, through partnership arrangements, owned in whole or in part 28 upscale resort residential development properties, which we refer to as the Resort Residential Development Properties.

**Resort/Hotel Segment** consisted of five luxury and destination fitness resorts and spas with a total of 1,034 rooms/guest nights and three upscale business-class hotel properties with a total of 1,376 rooms, which we refer to as the Resort/Hotel Properties. Five of the Resort/Hotel Properties are wholly-owned, one is owned through a joint venture that is consolidated and two are owned through joint ventures that are unconsolidated.

The 85 owned facilities, which we refer to as the Temperature-Controlled Logistics Properties, had an aggregate of approximately 437.2 million cubic feet (17.4 million square feet) of warehouse space. AmeriCold also owned one quarry and the related land.

See Note 3, Segment Reporting, for a table showing selected financial information for each of these investment segments for the six months ended June 30, 2005 and 2004, and total assets, consolidated property level financing, consolidated other liabilities, and minority interests for each of these investment segments at June 30, 2005 and December 31, 2004.

**Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month period ended June 30, 2005, are not necessarily indicative of the results that may be expected for the year ended December 31, 2005.

The consolidated balance sheet at December 31, 2004, has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

You should read these consolidated financial statements in conjunction with the consolidated financial statements and footnotes thereto in our annual report on Form 10-K for the year ended December 31, 2004.

Certain amounts in prior period financial statements have been reclassified to conform to current period.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Adoption of New Accounting Standards**

**SFAS No. 123R.** In December 2004, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards, or SFAS, No. 123R (Revised 2004), *Share-Based Payment*. The new FASB rule requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. We will be required to apply SFAS No. 123R beginning January 1, 2006. The scope of SFAS No. 123R includes a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. SFAS No. 123R replaces SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board, or APB, Opinion No. 25, Accounting for Stock Issued to Employees. SFAS No. 123, as originally issued in 1995, established as preferable a fair-value-based method of accounting for share-based payment transactions with employees. However, that statement permitted entities the option of continuing to apply the guidance in Opinion No. 25, as long as the footnotes to the financial statements disclosed what net income would have been had the preferable fair-value-based method been used. Effective January 1, 2003, we adopted the fair value expense recognition provisions of SFAS No. 123 on a prospective basis. We are continuing to evaluate the impact of the adoption of SFAS No. 123R.

**SFAS No. 154.** In May 2005, the FASB issued SFAS No. 154, *Accounting Changes and Error Corrections*. This new standard replaces APB Opinion No. 20, *Accounting Changes*, and SFAS No. 3, *Reporting Accounting Changes in Interim Financial Statements*. Among other changes, SFAS No. 154 requires that a voluntary change in accounting principle be applied retrospectively with all prior period financial statements presented on the new accounting principle, unless it is impracticable to do so. SFAS No. 154 also provides that (1) a change in method of depreciating or amortizing a long-lived nonfinancial asset be accounted for as a change in estimate (prospectively) that was effected by a change in accounting principle, and (2) correction of errors in previously issued financial statements should be termed a restatement. The new standard is effective for accounting changes and correction of errors made in fiscal years beginning after December 15, 2005. Early adoption of this standard is permitted for accounting changes

and correction of errors made in fiscal years beginning after June 1, 2005. We do not believe there will be an impact to our financial condition or results of operations from the adoption of SFAS No. 154.

**CRESCENT REAL ESTATE EQUITIES COMPANY**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**EITF 04-5.** At its June 2005 meeting, the Emerging Issues Task Force, or EITF, reached a consensus regarding Issue No. 04-5 (EITF 04-5), *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights*". EITF 04-5 is effective immediately for all newly-formed limited partnerships and for existing limited partnership agreements that are modified. The guidance will be effective for existing limited-partnership agreements that are not modified no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The guidance provides a framework for addressing the question of when a general partner, as defined in EITF 04-5, should consolidate a limited partnership. The EITF has concluded that the general partner of a limited partnership should consolidate a limited partnership unless (1) the limited partners possess substantive kick-out rights as defined in paragraph B20 of FIN 46(R), *Consolidation of Variable Interest Entities*, or (2) the limited partners possess substantive participating rights similar to the rights described in Issue 96-16, *Investor's Accounting for an Investee When the Investor has a Majority of the Voting Interest but the Minority Shareholder or Shareholders have Certain Approval or Veto Rights*. The FASB has amended Statement of Position 78-9, *Accounting for Investments in Real Estate Ventures*, and EITF 96-16 to conform and align with the guidelines set forth in EITF 04-5. We do not believe there will be an impact to our financial condition or results of operations from the adoption of EITF 04-5 in the current year. We are continuing to evaluate the impact of EITF 04-5, when applicable, to all existing partnerships.

**Significant Accounting Policies**

**Stock-Based Compensation.** Effective January 1, 2003, we adopted the fair value expense recognition provisions of SFAS No. 123 on a prospective basis as permitted by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, which requires that the fair value of stock options at the date of grant be amortized ratably into expense over the appropriate vesting period. During the six months ended June 30, 2005, we granted stock options and recognized compensation expense that was not significant to our results of operations. With respect to our stock options which were granted prior to 2003, we accounted for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25, and related Interpretations.

Had compensation cost been determined based on the fair value at the grant dates for awards under the plans consistent with SFAS No. 123, our net loss and loss per share would have been reduced to the following pro forma amounts:

**Earnings Per Share.** SFAS No. 128, *Earnings Per Share*, or EPS, specifies the computation, presentation and disclosure requirements for earnings per share.

Basic EPS is computed by dividing net income available to common shareholders by the weighted average number of shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, where such exercise or conversion would result in a lower EPS amount. We present both basic and diluted earnings per share.

The following tables present the reconciliation for the three and six months ended June 30, 2005 and 2004, of basic and diluted earnings per share from Loss before discontinued operations and cumulative effect of a change in accounting principle to Net loss available to common shareholders. The tables also include weighted average shares on a basic and diluted basis.

**3. SEGMENT REPORTING**

For purposes of segment reporting as defined in SFAS No. 131, we have four major investment segments based on property type: the Office Segment; the Resort Residential Development Segment; the Resort/Hotel Segment and the Temperature-Controlled Logistics Segment. Management utilizes this segment structure for making operating decisions and assessing performance.

We use funds from operations, or FFO, as the measure of segment profit or loss. FFO, as used in this document, is based on the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT, and means:

Net Income (Loss)    determined in accordance with GAAP;

excluding gains (losses) from sales of depreciable operating property;

excluding extraordinary items (as defined by GAAP);

plus depreciation and amortization of real estate assets; and

after adjustments for unconsolidated partnerships and joint ventures.

We calculate FFO available to common shareholders    diluted in the same manner, except that Net Income (Loss) is replaced by Net Income (Loss) Available to Common Shareholders and we include the effect of Operating Partnership unitholder minority interests.

NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. We consider FFO available to common shareholders    diluted and FFO appropriate measures of performance for an equity REIT and for its investment segments. However, FFO available to common shareholders    diluted and FFO should not be considered

as alternatives to net income determined in accordance with GAAP as an indication of our operating performance.

Our measures of FFO available to common shareholders diluted and FFO may not be comparable to similarly titled measures of other REITs if those REITs apply the definition of FFO in a different manner than we apply it.

#### **4. ACQUISITIONS**

##### **Office Acquisition**

On February 7, 2005, we acquired the Exchange Building, a 295,525 square foot Class A Office Property located in Seattle, Washington. We acquired the Office Property for approximately \$52.5 million, funded by a draw on our credit facility. This Property is wholly-owned and is included in our Office Segment.

On April 8, 2005, we acquired One Buckhead Plaza, a 461,669 square-foot Class A Office Property located in the Buckhead submarket in Atlanta, Georgia. We acquired the Office Property for approximately \$130.5 million, funded by an \$85.0 million loan from Morgan Stanley and a draw on our credit facility. This Property was subsequently contributed to a joint venture; see Note 7, Joint Ventures, for a description of the transaction.

##### **Other Real Estate Investments**

On February 7, 2005, we purchased an existing \$34.5 million mezzanine loan in which we immediately sold a 50% participating interest for \$17.3 million. The loan is secured by ownership interests in an entity that owns an office

property in New York. The loan bears interest at LIBOR plus 775 basis points (11.09 % as of June 30, 2005) with an interest-only term until maturity in March 2007, subject to the right of the borrower to extend the loan pursuant to three one-year extension options.

On March 31, 2005, we purchased an existing \$32.9 million mezzanine loan for \$33.2 million secured by ownership interests in an entity that owns a resort in Florida. The loan bears interest at a fixed rate of 12% with an interest-only term until maturity in April 2008, subject to the right of the borrower to extend the loan pursuant to one four-year extension bearing either a floating or fixed interest rate at the borrower's election. The floating rate would be LIBOR plus 600 basis points and the fixed rate would be determined at the beginning of the extension term at the rate of a similarly maturing U.S. Treasury security plus 600 basis points. During the extension, the borrower must make principal payments based on a 25-year amortization schedule.

On May 31, 2005, we funded a \$20.0 million mezzanine loan secured by ownership interests in an entity that owns an office property in Los Angeles, California. The loan bears interest at LIBOR plus 825 basis points (11.59% at June 30, 2005) with an interest-only term until maturity in June 2007, subject to the right of the borrower to two six-month extensions and a third extension ending December 1, 2008. We determined that the entity is a variable interest entity, or VIE, under Interpretation 46R, *Consolidation of Variable Interest Entities*, or FIN 46R, of which we are not the primary beneficiary. Therefore, we do not consolidate the entity. Our maximum exposure to loss is limited to the amount of the loan.
