EXPLANATORY NOTE

This Form 10-Q/A (Amendment No. 2) is being filed to amend and restate the financial statements and certain disclosure items related to the deconsolidation of a North American joint venture in response to comments raised by the Staff of the Securities and Exchange Commission and to provide certain disclosure items related to guarantor financial information in the Form 10-Q for the three month period ended December 31, 2004 (the 2005 First Quarter Form 10-Q), which was originally filed with the Securities and Exchange Commission on January 31, 2005, and amended on August 9, 2005 (the 2005 First Quarter Form 10-Q/A).

Revising the financial statements also requires Johnson Controls, Inc. (the Company) to restate certain information that is disclosed in the notes to the Consolidated Financial Statements, primarily Note 2 Inventories, Note 8 Goodwill and Other Intangible Assets, Note 10 Segment Information, Note 11 Income Taxes and Note 14 Research and Development. In addition, the Company has added Note 15 Deconsolidation of a Joint Venture (Restated) and Note 16 Guarantor Financial Statements (Restated). Management's Discussion and Analysis of Financial Condition and Results of Operations was also amended to reflect the revised financial statements.

The Company has determined that a control deficiency related to the Company's misapplication of SFAS 94, Consolidation of All Majority-Owned Subsidiaries giving rise to the restatement constituted a material weakness in our internal control over financial reporting. The Company has also determined that a control deficiency over the Company's identification and reporting of the required guarantor subsidiary financial statement disclosures in the Company's financial statements as required by Rule 3-10 of Regulation S-X constituted a material weakness in our internal control over financial reporting. The Company rescinded all intercompany upstream guarantees and replaced them with alternative intercompany arrangements in November 2005. See Item 4. Controls and Procedures in Part I of this Form 10-Q/A for additional information.

The restatement related to the deconsolidation of the North American joint venture results in changes to certain financial statement line items as reported in the Consolidated Financial Statements. Revenues and expenses previously recorded in certain consolidated financial statement line items are now reported on a net basis as Equity income in the Consolidated Statement of Income and the Company's net investment in the joint venture is reported in the Investments in partially-owned affiliates line in the Consolidated Statement of Financial Position. Neither restatement impacts previously reported income from continuing operations, net income or earnings per share.

This amendment presents the 2005 First Quarter Form 10-Q/A, as amended, in its entirety, but does not modify or update the disclosure in the 2005 First Quarter Form 10-Q/A in any way other than as required to reflect the changes discussed above and does not reflect events occurring after the original filing of the 2005 Second Quarter Form 10-Q on January 31, 2005.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****1. Financial Statements**

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows for the periods presented. These condensed financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Amended Annual Report on Form 10-K/A for the year ended September 30, 2004. The September 30, 2004 Consolidated Statement of Financial Position is derived from the audited financial statements, adjusted for discontinued operations (See Note 3). The results of operations for the three-month period ended December 31, 2004 are not necessarily indicative of the results which may be expected for the Company's 2005 fiscal year because of seasonal and other factors. Certain prior period amounts have been reclassified to conform to the current year's presentation.

2. Inventories

Inventories are valued at the lower of cost or market. Cost is determined using the last-in, first-out (LIFO) method for most inventories at domestic locations. The cost of other inventories is determined on the first-in, first-out (FIFO) method. Finished goods and work-in-process inventories include material, labor and manufacturing overhead costs. Inventories were comprised of the following:

(in millions)	December 31, 2004	September 30, 2004	December 31, 2003
Raw materials and supplies	\$ 470.1	\$ 462.3	\$ 436.6

LIFO reserve	(27.9)	(27.8)	(26.6)
Inventories	\$ 914.9	\$ 859.7	\$ 781.1

3. Discontinued Operations

On January 10, 2005, the Company announced that it intends to sell its engine electronics business to Valeo for approximately 330 million, or approximately \$437 million. The transaction, which is subject to regulatory approvals, is expected to be completed in the second quarter of fiscal 2005. This non-core business, which was a part of the Sagem SA automotive electronics business that was acquired in fiscal 2002, is reported as discontinued operations in the Consolidated Financial Statements. Under the requirements of Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the income statement components of the discontinued operations will be aggregated and presented on a single line in the Consolidated Statement of Income through the date of sale.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

The following table summarizes the revenues and expenses of the discontinued operations:

Liabilities of discontinued operations at December 31, 2004 totaled \$119.8 million, consisting of accounts payable (\$89.6 million), accrued compensation (\$23.6 million) and other miscellaneous liabilities (\$6.6 million).

4. Product Warranties

The Company provides warranties to certain of its customers depending upon the specific product and terms of the customer purchase agreement. Most of the Company's product warranties are customer specific. A typical warranty program requires replacement of defective products within a specified time period from the date of sale. The Company records an estimate for future warranty-related costs based on actual historical return rates. Based on analysis of return rates and other factors, the warranty provisions are adjusted as necessary. While warranty costs have historically been within calculated estimates, it is possible that future warranty costs could exceed those estimates. The Company's product warranty liability is included in Other current liabilities in the Consolidated Statement of Financial Position.

Effective October 1, 2002, the Company voluntarily adopted the fair value recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation and adopted the disclosure requirements of SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure an amendment of FAS 123. In accordance with SFAS No. 148, the Company has adopted the fair value recognition provisions on a prospective basis and, accordingly, the expense recognized in the three-month period ended December 31, 2004 represents a pro rata portion of the fiscal 2005, 2004 and 2003 grants which are earned over a three-year vesting period.

The following table illustrates the pro forma effect on net income and earnings per share as if the fair value based method had been applied to all outstanding and unvested awards in each period:

During December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123R, Share-Based Payment (SFAS 123R), which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants and certain transactions

under other Company stock plans. The Company grants options to purchase common stock to some of its employees and directors under various plans at prices equal to the market value of the stock on the dates the options were granted. SFAS 123R is effective for all interim or annual periods beginning after June 15, 2005. The Company is currently evaluating the impact that the adoption of SFAS 123R will have on its consolidated financial position, results of operations and cash flows.

6. Guarantees

The Company has guaranteed the residual value related to the Company aircraft accounted for as synthetic leases. The guarantees extend through the lease maturity dates of September 2006. In the event the Company exercised its option not to purchase the aircraft for the remaining obligations at the scheduled maturity of the leases, the Company has guaranteed the majority of the residual values, not to exceed \$53 million in aggregate. The Company has recorded a liability of approximately \$3 million within Other noncurrent liabilities and a corresponding amount within Other noncurrent assets in the Consolidated Statement of Financial Position relating to the Company's obligation under the guarantees. These amounts are being amortized over the life of the guarantees.
