CHAIRMAN'S LETTER TO SHAREHOLDERS

Dear Shareholder,

I am very pleased to report that over the twelve-month period covered by this report, your Fund continued to provide you with attractive monthly distributions from a diversified portfolio of quality preferred securities, convertible securities, high yield debt and equities. For more information on your Fund's performance, please read the Portfolio Managers' Comments, the Distribution and Share Price Information, and the Performance Overview sections of this report.

During 2006, the Board of Trustees' of each Fund authorized a series of changes to the Funds' investment and distribution policies. These changes were designed to enhance the Funds' ability to meet their investment objectives by providing for increased portfolio management flexibility, greater diversification, and increased capital appreciation potential over time through direct equity exposure. I urge you to review the Investment Strategy and Management Update section of this report for more detailed information. Some of these changes will require shareholder approval and you will receive proxy materials in the mail soon. I encourage you to read the complete proxy statement and vote.

As you look through this report, be sure to review the inside front cover. This contains information on how you can receive future Fund reports and other Fund information faster by using e-mails and the Internet. Sign up is quick and easy - just follow the step-by-step instructions.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

(TIMOTHY SCHWERTFEGER SIG)

Nuveen Investments Closed-End Funds (JPC and JQC)

INVESTMENT STRATEGY AND MANAGEMENT UPDATE

ON NOVEMBER 22, 2006, the Funds' Board of Trustees approved certain investment policy changes designed to provide both Funds with greater flexibility to pursue their investment objectives of high current income and total return. The following changes were approved for each Fund:

- Eliminating the requirement to invest a minimum of each Fund's managed assets in preferred and/or convertible securities

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- Expanding the Funds' direct equity investment types to include both domestic and international equities
- Increasing the percentage of the Funds' managed assets that may be invested directly in equity securities
- Adding Tradewinds NWQ Global Investors, LLC, as a sub-adviser to manage a portion of each Fund's direct equity investments, subject to shareholder approval

Reflecting these enhancements, the Funds also plan to change their names to the Nuveen Multi-Strategy Income and Growth Fund (JPC) and Nuveen Multi-Strategy Income and Growth Fund 2 (JQC). The anticipated implementation date for these changes is on or about April 11, 2007, assuming shareholder approval of Tradewinds NWQ Global Investors, LLC as one of the Fund's sub-advisers.

Shareholders will receive more information and proxy materials for the upcoming shareholder vote in the coming weeks.

ON APRIL 28, 2006, the Funds received authorization from their Board of Trustees to expand the range of permissible investments and implement a managed distribution policy. Symphony, which acts as sub-advisor for approximately 20% of each Fund's portfolio, was allowed to diversify its debt investments across high-yield bonds, senior loans and convertible securities, as well as invest up to 10% of each Fund's portfolio in equity securities. These changes were intended to better enable the Funds to meet their investment objectives and provide for increased capital appreciation potential over time.

The investment parameters for the Funds' other sub-advisors, Spectrum and Frole, Revy, did not change. Additionally, the Funds' new managed distribution policy gives each Fund the flexibility to draw upon net investment income as well as realized and unrealized portfolio gains and non-taxable returns of principal when making its monthly distributions to common shareholders. See the Distribution and Share Price Information section of this report immediately following the Portfolio Manager's Comments for more details about this managed distribution policy.

Nuveen Investments Closed-End Funds (JPC and JQC)

PORTFOLIO MANAGERS' COMMENTS

In 2006, these Funds were subadvised by a team of specialists from Spectrum Asset Management, Inc., (Spectrum) Frole, Revy Investment Co., Inc. (Frole, Revy), and Symphony Asset Management LLC (Symphony), an affiliate of Nuveen Investments.

Spectrum, an affiliate of Principal Capital (SM), manages the preferred securities portion of each Fund's portfolio. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team.

Frole, Revy, one of the oldest firms specializing in convertible securities, manages that portion of each Fund's portfolio. Their investment team is led by Andrea Revy O'Connell and Michael Revy, who each have more than 10 years experience in convertible securities investing.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

The Symphony team managing the high yield securities and other debt and equity instruments in both Funds is led by Igor Lotsvin.

Here representatives from Spectrum; Frole, Revy; and Symphony talk about their management strategies and the performance of both Funds for the 12-month period ended December 31, 2006.

WHAT WERE THE GENERAL ECONOMIC AND MARKET CONDITIONS YOU FACED DURING THIS ANNUAL REPORTING PERIOD ENDED DECEMBER 31, 2006?

In 2006, the U.S. economy benefited from increased flexibility stemming mainly from productivity advancements and globalization, which seems to be reducing the reliance on monetary policy actions to offset unexpected shocks. We began the year still in the midst of a Federal Reserve Bank (Fed) tightening cycle. Our departing Fed Chairman, Alan Greenspan warned, "History cautions that people experiencing long periods of relative stability are prone to excess. We must thus remain vigilant against complacency, especially since several important economic challenges confront policymakers in the years ahead." Chairman Greenspan's work was complete and Fed Chairman, Ben Bernanke, took the helm. By June and after two full years of rate tightening, the Fed finally paused with Fed Funds at 5.25%. The uncertainty of the Fed's actions throughout the year led to a fair amount of volatility in the long end of the bond market as the 30-year Treasury bond traded as high as 5.31% only to rally for the entire summer and close the year at 4.81%, just 27 basis points cheaper than where it started in January. The bond rally in the 2nd half of the year led to a U.S. Treasury yield curve inversion which is continuing for 7 months running now. In order to put a perspective on yield curve inversions, note that the U.S. has experienced 5 inversions since the 1970s with the average length of time being 12 months and the longest being 19 months. We do not think that this inversion will last too much longer because, according to the Fed, "economic growth has slowed over the course of the year, partly reflecting a substantial cooling of the housing market." Notably, the extended housing market was a concern of the Fed and its orderly cooling is indeed a policy victory. Nonetheless, Chairman Bernanke still has lingering concerns over inflation risks even though the

5

pressures seem likely to moderate along with slowing aggregate demand around the globe.

There were some very good buying opportunities in the preferred sleeves of the Funds during the year. We were able to take advantage of several closed-end funds that were under-priced and confusion in the hybrid preferred market due to the National Association of Insurance Commissioners' (NAIC) classification of several preferred structures as common equity. As about 25% of the hybrid capital securities market was comprised of insurance company buyers traditionally, the IPO market for institutional deals took a timeout in April thanks to the NAIC, only to come back strong in May (continuing through December) as it became evident that the buyer base went significantly beyond insurance companies to newer buyers such as hedge funds and traditional corporate bond. Even the \$25 par preferred market has found new buyer breadth as equity income and balanced funds are the latest institutional buyers competing with retail. Overall, new issuance in hybrid-preferred securities set a record of over \$74 billion -- about 60% more than the issuance amount last year, which at the time was also a record year.

Convertibles ended 2006 with positive returns and kept close pace with the underlying equities. For 2006, the Merrill Lynch All Convertibles Index was up 12.8%, with the underlying equities up 14.7%. Mirroring the bond market, the Speculative Grade Index outperformed the Investment Grade Index, posting a 13.8% return for the year. Many of the fallen angels of 2005 ended up outperforming in

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

2006, in particular automotives and airlines. Convertibles across all sectors performed well in 2006, with Materials (up 30.3%) the best performing sector.

High yield new issuance soared in 2006, helped by a large pickup in Leveraged Buyout (LBO) activity. Landmark deals during the year included HCA, which agreed to be acquired by a consortium of private equity investors for \$33 billion in July, and Freescale Semiconductor, which agreed to be purchased by private equity group for \$17.6 billion in September. The total new issue volume for the twelve-month period was \$114.8 billion, a \$33.6 billion increase from 2005 new issuance. While supply was large, there was plenty of demand in the market to absorb it, especially from hedge funds.

6

WHAT WAS YOUR OVERALL MANAGEMENT STRATEGY FOR THE TWELVE-MONTH PERIOD ENDED DECEMBER 31, 2006?

In 2006, the Funds continued to allocate their assets in order to maintain a strategic asset mix of approximately 70% in income-oriented debt securities and 30% in equities and equity-like securities. (In response to market changes over time, Nuveen Asset Management, together with the funds' sub-advisers, will determine how best to allocate each fund's assets among the fund's sub-advisors, consistent with the fund's objectives and strategic asset allocation target.)

PLEASE SEE THE INVESTMENT STRATEGY AND MANAGEMENT UPDATE FROM NUVEEN FOR MORE INFORMATION REGARDING THE FUNDS' STRATEGY

HOW DID THE FUNDS PERFORM OVER THE TWELVE-MONTHS ENDED DECEMBER 31, 2006?

The performance of each Fund, as well as the performance of comparative benchmark is shown below:

TOTAL RETURN ON NET ASSET VALUE

For the 12-month period ended December 31, 2006

JPC	8.71%
-----	-------

JQC	8.73%
-----	-------

Comparative benchmark(1)	9.28%
--------------------------	-------

1 Comparative benchmark performance is a blended return consisting of: 1) 33% of the Merrill Lynch Preferred Stock Hybrid Securities Index, an unmanaged index of investment-grade, exchange traded preferred issues with outstanding market values of at least \$30 million and at least one year to maturity; 2) 27% of the Lehman Tier 1 Capital Securities Index, an unmanaged index that includes securities that can generally be viewed as hybrid fixed-income securities that either receive regulatory capital treatment or a degree of "equity credit" from a rating agency; 3) 30% of the Merrill Lynch All U.S. Convertibles Index, consisting of approximately 575 securities with par value greater than \$50 million that were issued by U.S. companies or non-U.S. based issuers that have a significant business presence in the U.S.; and 4) 10% of the CSFB High Yield Index, which includes approximately \$375 billion of \$US-denominated high yield debt with a minimum of \$75 million in par value and at least one rating below

investment-grade. Index returns do not include the effects of any management fees or fund expenses. It is not possible to invest directly in an index.

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown.

Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares.

For more information, please see the individual Performance Overview pages in this report.

As indicated in the accompanying table, both Funds posted positive results for the twelve-month period.

In the Preferred Securities sleeves of the Funds, we generally maintained the 60/40 portfolio mix between the \$25 par preferred sector and the Capital Securities sector. Dividends Received Deduction (DRDs) Tax-Advantaged securities were sold as spreads tightened from the cheap positioning that took place in 2005. The sale proceeds were reinvested roughly equally in fully taxable \$25 par securities and in competitor closed-end funds (CEFs) that were priced at discounts to their Net Asset Value trading price.

We continued to opportunistically increase the Funds' concentration in DRDs due to the relative attractiveness of the sector that carried over from 2005 into the first quarter of 2006. As the year progressed and spreads tightened while other sectors widened, we took some profits with spreads as much as 85 basis points tighter in order to redeploy proceeds into CEFs and newer hybrid issues. We also switched from \$25 par paper and capital securities that were soon callable and into relatively cheap bullet capital securities and perpetual preferreds where structure paid us well. We benefited from the capital performance of the IPO market for floating rate DRD paper.

7

In the convertibles sleeve of JPC and JQC the Financials, Media, Transportation and Utilities sectors benefited the portfolio relative to the index.

Financials represent the largest sector in the convertible universe at just under 20%. Over the period, our exposure to financials in the Funds increased. The fundamentals of the financial sector improved throughout the year and the higher credit quality of the financial sector also contributed to our market weight relative to the index. Relative to the ML All Convertibles Index, our financial sector holdings have significantly lower investment value premiums, making the sector very attractive.

Our superior convertible security selection in the Media sector also contributed significantly to performance. The portfolios benefited from the Interpublic Group floating rate issue as well as Walt Disney and Time Warner who were also strong contributors to performance due to company specific issues. Technology also benefited performance for the year. The portfolios had an equal weight relative to the index, but our security selection again contributed to performance. In addition, our overweight position in RF Micro Devices contributed to total performance. Convertibles issued by Metlife, Alleghany, and Merrill Lynch contributed to the portfolio's out-performance over the year.

In the high yield portion of the Funds, we continued to employ a value-oriented strategy, focusing on relatively higher quality credits with strong fundamental

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

business models, more diversified revenue streams, strong asset coverage and relatively low earnings volatility. We stayed away from positions with escalating credit issues, limited upside potential, or significant downside risk with weak asset protection.

The Funds had several positions that constrained performance over this reporting period.

In the preferred sleeve of JPC and JQC while the added volatility in the "enhanced equity" hybrid and Tier 1 spaces provided some trading opportunities for the funds, it also slowed performance, as we were long the sector, as well. We also made a decision to stop selling the callable hybrid securities because it became unclear whether or not the issuers would have adequate incentive to call them. As a result, the portfolio duration was consciously lower than our benchmark and switches for lower yield and more duration became less attractive than holding for high income and low duration. This served the primary income objective very well, but the capital performance of the fund was a bit slower than it likely would have been otherwise when spreads tightened in the second half of the year.

8

Very similar to the first half of 2006, Consumer Discretionary performance lagged ML All Convertibles Index due to an underweight in General Motors. In the Materials sector, the Funds did not own Titanium Metals. The security is nearly impossible to invest in; is highly illiquid and 65+% is held by the Chairman of the company. However, behind the largest issues in the index (GM and Ford), Titanium Metals added 30bps to the performance of the Index in 2006. Health Care and Energy also detracted from total performance. Specific names that led to the portfolio underperformance include Nabors Industries in the Energy sector and CV Therapeutics in the Health Care sector. Both issues had a larger position in the portfolio versus the index. In addition to the specific issues, the Health Care sector relative to the broader index suffered from slight underperformance.

Another factor that hindered the benchmark-relative performance of the portfolios' convertibles securities investments was the investment policies limiting investments in CCC-rated securities to no more than 5% of a Fund's net assets. The CCC-rated securities were up over 35% for the year in ML All Convertibles Index and the inability to more fully participate in this sector detracted from the overall performance of the Funds' allocation to convertible securities.

In the high yield sleeve, our strategy of investing in higher quality names allowed us to reduce the overall risk in the portfolio; however, it limited our exposure to some of the upside in the high yield market from lower rated credits which outperformed higher rated credits. Within the CS High Yield Index, distressed credits returned close to 40%, CCC/Split CCC rated credits returned close to 20%, B rated credits returned close to 11%, and BB rated credits returned 8%.

DISTRIBUTION AND SHARE PRICE INFORMATION

DISTRIBUTION INFORMATION

Each of these Funds issues FundPreferred(TM) shares and uses financial leverage

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

in an effort to enhance its distribution-paying capabilities. While this strategy adds volatility to a Fund's net asset value and share price, it generally enhances the amount of income the Fund has to distribute to its common shareholders. The extent of this benefit is tied in part to the short-term rates these Funds pay their FundPreferred shareholders. As short-term rates rose through this reporting period, the Funds paid higher dividends to their FundPreferred shareholders.

Effective with the distribution payable June 1, 2006, the Funds began implementing a Managed Distribution Policy. Under this policy, the Funds will make monthly distributions of a stated dollar amount per common share, comprised of net investment income, realized capital gains and/or, if necessary, non-taxable distributions (which generally are expected to represent unrealized capital appreciation).

Over this twelve month reporting period, both JPC and JQC announced increases in their monthly distribution to shareholders. JPC increased its monthly distribution to \$0.095 from \$0.085 a share. JQC increased its monthly distribution to \$0.095 from \$0.084 per share.

The goal of a managed distribution program is to provide shareholders relatively consistent and predictable cash flow by systematically converting its expected long-term return potential into regular monthly distributions. As a result, regular distributions throughout the year will likely include a portion of expected long-term gains (both realized and unrealized), along with net investment income.

Important points to understand about the managed distribution program are:

- Each Fund seeks to establish a relatively stable distribution rate that roughly corresponds to the projected total return from its investment strategy over an extended period of time. However, you should not draw any conclusions about the Fund's past or future investment performance from its current distribution rate.
- Actual returns will differ from projected long-term returns (and therefore the Fund's distribution rate), at least over shorter time periods. Over a specific timeframe, the difference between actual returns and total distributions will be reflected in an increasing (returns exceed distributions) or a decreasing (distributions exceed returns) fund net asset value.

10

- Each month's distributions are expected to be paid from some or all of the following sources:
 - net investment income (regular interest and dividends),
 - realized capital gains, and
 - unrealized gains, or, in certain cases, a return of principal (non-taxable distributions)
- A non-taxable distribution is a payment of a portion of a Fund's capital. When a Fund's returns exceed distributions, it may represent portfolio gains generated, but not realized as a taxable capital gain. In periods when a Fund's return falls short of distributions, it will represent a portion of your original principal unless the shortfall is offset during other time periods over the life of your investment (previous or subsequent) when the fund's total return exceeds distributions.
- Because distribution source estimates are updated monthly during the year, based on a Fund's performance and forecast for its current fiscal year (which is the calendar year for each Fund), these estimates may differ from both the tax information reported to you in your Fund's 1099 statement provided at year end, as well as the ultimate economic sources of

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

distributions over the life of your investment.

The following table provides information regarding each Fund's distributions and total return performance for the fiscal year ended December 31, 2006. The distribution information is presented on a tax basis rather than on a generally accepted accounting principles (GAAP) basis. This information is intended to help you better understand whether the Fund's returns for the specified time period was sufficient to meet each Fund's distributions. Information regarding such distributions in the future will likely vary based on the Fund's investment activities and portfolio investment value changes at that time.

SHARE REPURCHASE AND SHARE PRICE INFORMATION

On February 3, 2006, the Funds' Board of Trustees approved an open market share repurchase program, as part of a broad, ongoing effort designed to support the market prices of the Funds' common shares. Under the terms of the program, each Fund may repurchase up to 10% of its outstanding common shares. As of December 31, 2006, JPC had repurchased 432,200 common shares and JQC had repurchased 511,200 common shares.

At the end of the reporting period, the Funds' share prices were trading relative to their NAVs as shown in the accompanying table:

NUVEEN PREFERRED AND CONVERTIBLE INCOME FUND
NUVEEN PREFERRED AND CONVERTIBLE INCOME FUND 2

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 (the "Funds") as of December 31, 2006, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the custodian, selling or agent banks and brokers or by other appropriate auditing procedures where replies from selling or agent banks were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 at December 31, 2006, the results of their operations for the year then ended, changes in their net assets for each of the two years in the period then ended, and the financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Non-income producing.
- (3) Ratings (not covered by the report of independent registered public accounting firm) are based on the higher of Standard & Poor's or Moody's rating. Ratings below BBB by Standard & Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
- (4) Senior Loans in which the Fund invests generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate plus a fixed rate referenced by the London Inter-Bank Offered Rate ('LIBOR'), or (ii) the prime rate plus a fixed rate by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually restricted from selling or disposing of such loans.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- obligated to receive approval from the Agent Bank and/or Borrower prior to the date of a Senior Loan.
- (5) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (6) Investment is eligible for the Dividends Received Deduction.
- N/R Not rated.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Non-income producing.
- (3) Ratings (not covered by the report of independent registered public accounting firm)

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- Using the higher of Standard & Poor's or Moody's rating. Ratings below BBB by Standard & Poor's Group or Baa by Moody's Investor Service, Inc. are considered to be below investment grade.
- (4) Senior Loans in which the Fund invests generally pay interest at rates which are periodically adjusted by reference to a base short-term, floating lending rate plus an assigned fixed rate. These floating lending rates are generally (i) the lending rate as referenced by the London Inter-Bank Offered Rate ('LIBOR'), or (ii) the prime rate as published by one or more major United States banks.
Senior Loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the termination of a Senior Loan.
- (5) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans held may be substantially less than the stated maturities shown.
- (6) Investment is eligible for the Dividends Received Deduction.
- N/R Not rated.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.
- CORTS Corporate Backed Trust Securities.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Preferred and Convertible Income Fund (JPC) and Nuveen Preferred and Convertible Income Fund 2 (JQC). The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

Each Fund seeks to provide high income by investing primarily in a portfolio of preferred securities, convertible securities, high yield securities and equity securities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

Exchange-listed securities and instruments, other than futures, are generally valued at the last sales price on the exchange on which such securities or instruments are primarily traded. Securities or instruments traded on an exchange for which there are no transactions on a given day or securities or instruments not listed on an exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. Futures contracts are valued using the closing settlement price or, in the absence of such a price, at the mean of the bid and asked prices. Prices of other derivative instruments, fixed-income securities and senior loans are generally provided by an independent pricing service approved by the Funds' Board of Trustees. When price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular investment, the Board of Trustees of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustee's designee. If the pricing service is unable to supply a price for a derivative investment the Fund may use a market quote provided by a major broker/dealer in such investments. If it is determined that the market price for an investment is unavailable or inappropriate, the Board of Trustees of the Funds, or its designee, may establish fair value in accordance with procedures established in good faith by the Board of Trustees. Short-term investments are valued at amortized cost, which approximates market value.

The senior loans in which the Fund invests are not listed on an organized exchange and the secondary market for such investments may be less liquid relative to markets for other fixed income securities. Consequently, the value of senior loans, determined as described above, may differ significantly from the value that would have been determined had there been an active market for that senior loan.

Investment Transactions

Investment transactions are recorded on a trade date basis. Trade date for senior loans purchased in the "primary market" is considered the date on which the loan allocations are determined. Trade date for senior loans purchased in the "secondary market" is the date on which the transaction is entered into. Realized gains and losses from investment transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At December 31, 2006, there were no such outstanding purchase commitments in either Fund.

Investment Income

Dividend income on securities purchased and dividend expense on securities sold short, if any, are recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

recorded on an accrual basis. Interest income also includes paydown gains and losses. Fee income, if any, consists primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to the original loan agreement and are recognized when received.

Federal Income Taxes

Each Fund is a separate taxpayer for Federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no Federal income tax provision is required.

FINANCIAL STATEMENTS (continued)

Dividends and Distributions to Common Shareholders

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with Federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

The Funds make monthly cash distributions to Common shareholders of a stated dollar amount per share. Effective with the distribution payable June 1, 2006, and subject to approval and oversight by the Funds' Board of Trustees, each Fund began to make distributions that seek to maintain a stable distribution level designed to deliver the long-term return potential of each Fund's investment strategy through regular monthly distributions (a "Managed Distribution Policy"). Total distributions during a calendar year generally will be made from each Fund's net investment income, net realized capital gains and net unrealized capital gains in the Fund's portfolio, if any. The portion of distributions paid from net unrealized gains, if any, would be distributed from the Fund's assets and would be treated by shareholders as a non-taxable distribution for tax purposes. If a Fund's total return on net asset value exceeds total distributions during a calendar year, the excess will be reflected as an increase in net asset value per share. In the event that total distributions during a calendar year exceed a Fund's total return on net asset value, the difference will be treated as a return of capital for tax purposes and will reduce net asset value per share. The final determination of the source and character of all distributions for the fiscal year are made after the end of the fiscal year and are reflected in the financial statements.

Real Estate Investment Trust ("REIT") distributions received by the Funds are generally comprised of ordinary income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period are not known until after the fiscal year-end.

For the fiscal year ended December 31, 2006, the character of distributions to the Funds from the REITs was as follows:

PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN
--	--------------------

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

Ordinary income	76.30%
Long-term and short-term capital gains	23.61
Return of REIT capital	0.09

For the fiscal year ended December 31, 2005, the character of distributions to the Funds from the REITs was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN
Ordinary income	66.92%	
Long-term and short-term capital gains	33.08	
Return of REIT capital	--	

For the fiscal years ended December 31, 2006 and December 31, 2005, the Funds applied the actual character of distributions reported by the REITs in which the Funds invest to their receipts from the REITs. If a REIT held in the portfolio of investments did not report the actual character of its distributions during the period, the Funds treated the distributions as ordinary income.

The actual character of distributions made by the Funds during the fiscal years ended December 31, 2006 and December 31, 2005, are reflected in the accompanying financial statements.

FundPreferred Shares

The Funds have issued and outstanding FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The number of FundPreferred shares outstanding, by Series and in total, for each Fund is as follows:

Foreign Currency Translation

To the extent that the Funds invest in securities that are denominated in a currency other than U.S. dollars, the Funds will be subject to currency risk, which is the risk that an increase in the U.S. dollar relative to the foreign currency will reduce returns or portfolio value. Generally, when the U.S. dollar rises in value against a foreign currency, the Funds' investments in securities denominated in that currency will lose value because its currency is worth fewer U.S. dollars; the opposite effect occurs if the U.S. dollar falls in relative value. Investments and other assets and liabilities denominated in foreign currencies are converted into U.S. dollars on a spot (i.e. cash) basis at the spot rate prevailing in the foreign currency exchange market at the time of valuation. Purchases and sales of investments and dividend income denominated in foreign currencies are translated into U.S. dollars on the respective dates of such transactions. The gains or losses resulting from changes in foreign exchange rates on investments and derivative transactions, if any, are included with Net realized gain (loss) from foreign currencies and Change in net unrealized appreciation (depreciation) of foreign currencies in the Statement of Operations.

Foreign Currency Transactions

The Funds are authorized to engage in foreign currency exchange transactions. The Funds may engage in foreign currency forward, swap, options and futures contracts. To the extent that the Funds invest in contracts that are denominated in a currency other than U.S. dollars, the Funds will be subject to currency risk, which is the risk that an increase in the U.S. dollar relative to the foreign currency will reduce returns or portfolio value. Generally, when the U.S. dollar rises in value against a foreign currency, the Funds' investments denominated in that currency will lose value because its currency is worth fewer U.S. dollars; the opposite effect occurs if the U.S. dollar falls in relative value. Investments and other assets and liabilities denominated in foreign currencies are converted into U.S. dollars on a spot (i.e. cash) basis at the spot rate prevailing in the foreign currency exchange market at the time of valuation. Purchases and sales of investments and dividend income denominated in foreign currencies are translated into U.S. dollars on the respective dates of such transactions.

Interest Rate Swap Transactions

The Funds are authorized to invest in certain derivative financial instruments. The Funds' use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay or receive a fixed rate payment in exchange for the counterparty paying or receiving a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on Fund Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks.

The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Notes to
FINANCIAL STATEMENTS (continued)

Futures Contracts

Each Fund may use futures contracts to hedge against changes in the values of securities the Fund owns. Each Fund bears the market risk arising from changes in the value of these financial instruments. At the time a Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses on futures contracts. Risk may arise from the potential inability of the counterparty to meet the terms of the contract. When a contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed. At December 31, 2006, there were no open futures contracts in either Fund.

Short Sales

The Funds are authorized to make short sales of securities if the Funds own at least an equal amount of such securities or securities convertible into securities of the same issuer. To secure its obligation to deliver securities sold short, the Funds have instructed the custodian to segregate assets in an equivalent amount of the securities sold short or securities convertible into or exchangeable for such securities. The Fund is obligated to pay to the party to which the securities were sold short, dividends declared on the stock by the issuer and records such amounts as expense in the Statement of Operations. Short sales are valued daily and the corresponding unrealized gains or losses are included in "Change in net unrealized appreciation (depreciation) of investments." At December 31, 2006, there were no outstanding short sales in either Fund.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Funds' policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

On February 3, 2006, the Funds' Board of Trustees approved an open market share repurchase program as part of a broad, ongoing effort designed to support the market prices of the Funds' common shares. Under the terms of the program, each Fund may repurchase up to 10% of its outstanding common shares.

Transactions in Common shares were as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)		P CONVERTI

Sales and maturities	1,532,871,372	2,143,8

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis based on the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

information currently available to the Funds. Differences between amounts for financial statement and Federal income tax purposes are primarily due to the treatment of paydown gains and losses, recognition of premium amortization, recognition of income on REIT investments, timing differences in the recognition of income and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their Federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At December 31, 2006, the cost of investments was as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN
Cost of investments	\$2,092,203,111	\$2,926,0

Gross unrealized appreciation and gross unrealized depreciation of investments at December 31, 2006, were as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN
Gross unrealized:		
Appreciation	\$ 76,415,721	\$ 100,2
Depreciation	(54,826,356)	(77,9
Net unrealized appreciation (depreciation) of investments	\$ 21,589,365	\$ 22,2

The tax components of undistributed net ordinary income and net long-term capital gains at December 31, 2006, the Funds' tax year end, were as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN

61

Notes to
FINANCIAL STATEMENTS (continued)

The tax character of distributions paid during the tax years ended December 31, 2006 and December 31, 2005, was designated for purposes of the dividends paid deduction as follows:

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN
2006		

Distributions from net ordinary income *	\$118,807,924	\$174,6
Distributions from net long-term capital gains**	9,007,830	14,6

	PREFERRED AND CONVERTIBLE INCOME (JPC)	PRE CONVE IN
2005		

Distributions from net ordinary income *	\$136,580,519	\$182,6
Distributions from net long-term capital gains	16,867,739	12,9

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

** The Funds designated as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Funds related to net capital gain to zero for the tax year ended December 31, 2006.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

used in computing taxable income for purposes of preparing the Federal and state income and excise tax returns.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components -- a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. ("Nuveen"), and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily Managed Assets of each Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

62

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of December 31, 2006, the complex-level fee rate was .1845%.

COMPLEX-LEVEL ASSETS(1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion(2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to preferred stock issued by or borrowings by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible for the overall strategy and asset allocation decisions. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), Frole, Revy Investment Co., Inc. ("Frole, Revy") and Symphony Asset Management, LLC ("Symphony"). Spectrum manages the portion of the Funds' investment portfolios allocated to preferred securities. Frole, Revy manages the portion of the Funds' investment portfolios allocated to convertible securities. Symphony manages the portion of the Funds' investment portfolios allocated to debt securities. Spectrum, Frole, Revy and Symphony are compensated for their services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds.

The Funds pay no compensation directly to those of their Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first eight years of Preferred and Convertible Income's (JPC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING MARCH 31,		YEAR ENDING MARCH 31,

2006	.32	2011	.08
2007	.32		

* From the commencement of operations.

The Adviser has not agreed to reimburse Preferred and Convertible Income (JPC) for any portion of its fees and expenses beyond March 31, 2011.

For the first eight years of Preferred and Convertible Income 2's (JQC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

6. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Interpretation No. 48
On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Recent SEC guidance allows Funds to delay implementing FIN 48 into NAV calculations until the fund's last NAV calculation in the first required financial statement reporting period. As a result, the Funds must begin to incorporate FIN 48 into their NAV calculations on June 29, 2007. At this time, management is continuing to evaluate the implications of FIN 48 and does not expect the adoption of FIN 48 will have a significant impact on the net assets or results of operations of the Funds.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of December 31, 2006, the Funds do not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the Statement of Operations for the period.

7. SUBSEQUENT EVENTS

Distributions to Common Shareholders

The Funds declared Common share distributions which were paid on February 1, 2007, to shareholders of record on January 15, 2007, as follows:

PROCESS FOR APPROVAL OF A SUB-ADVISORY AGREEMENT WITH TRADEWINDS GLOBAL INVESTORS AND AN AMENDED SUB-ADVISORY AGREEMENT WITH SYMPHONY ASSET MANAGEMENT

The Board of Trustees is responsible for overseeing the performance of the investment adviser to the Funds and determining whether to approve the advisory arrangements, including sub-advisory arrangements. At a meeting held on November 14, 2006 (the "November Meeting"), the Board of Trustees of the Funds, including the independent Trustees, unanimously approved on behalf of each Fund the new Tradewinds Sub-Advisory Agreement between NAM and Tradewinds and the Amended Symphony Sub-Advisory Agreement between NAM and Symphony. Tradewinds and Symphony are each a "Sub-Advisor."

THE APPROVAL PROCESS

During the course of the fall of 2006, the Board received a wide variety of materials relating to proposed changes to the investment mandates for the Funds as well as the proposed managers for the assets allocated pursuant to these revised mandates. In this regard, NAM recommended Symphony and Tradewinds. To assist the Board in its evaluation of the sub-advisory contract with the respective Sub-Advisor at the November Meeting or at prior meetings, the independent Trustees received extensive materials which outlined, among other things:

- the nature, extent and quality of services to be provided by the Sub-Advisor;
- the organization and business operations of the Sub-Advisor;
- hypothetical performance of the Fund's modified investment strategies as well as certain hypothetical and actual performance of the respective Sub-Advisor;
- the profitability of Nuveen (which included its wholly-owned affiliated

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- sub-advisors such as Symphony and Tradewinds);
- the sub-advisory fee schedule for each Sub-Advisor as well as a description of the fees received by the Sub-Advisor from other funds and/or clients; and
- the soft dollar practices of the Sub-Advisor, if any.

At the November Meeting, Symphony made a presentation to and responded to questions from the Board. After the presentations and after reviewing the written materials, the independent Trustees met privately with their legal counsel to review the Board's duties under the Investment Company Act of 1940, as amended and the general principals of state law in reviewing and approving advisory contracts, the standards used by courts in determining whether investment company boards of directors have fulfilled their duties and factors to be considered by the Board in voting on advisory contracts. It is with this background that the Trustees considered the Amended Symphony Sub-Advisory Agreement and the Tradewinds Sub-Advisory Agreement. The independent Trustees, in consultation with independent counsel, reviewed the factors set out in judicial decisions and SEC directives relating to the approval of advisory contracts. As outlined in more detail below, the Trustees considered all factors they believed relevant with respect to each Fund, including the following: (a) the nature, extent and quality of the services to be provided by the Sub-Advisor; (b) performance information of the Fund and the Sub-Advisor (as described below); (c) the profitability of Nuveen and its affiliates; (d) the extent to which economies of scale would be realized as the Fund grows; and (e) whether fee levels reflect these economies of scale for the benefit of Fund investors.

A. NATURE, EXTENT AND QUALITY OF SERVICES

In reviewing the Sub-Advisors, the Trustees considered the nature, extent and quality of the respective Sub-Advisor's services. As Symphony already serves as a sub-advisor to the Funds and Tradewinds serves as sub-advisor to other Nuveen funds overseen by the Trustees, the Board has a good understanding of each Sub-Advisor's organization, operations and personnel. In this regard, the Trustees are familiar with and have evaluated the professional experience, qualifications and credentials of the Fund Advisor's personnel. At the November Meeting or at prior meetings, the Trustees have reviewed materials outlining, among other things, the Sub-Advisor's organization and business; the types of services that the respective Sub-Advisor will provide to the Funds under the revised investment mandates; the experience of the Sub-Advisor with respect to the investment strategies; and hypothetical as well as actual performance of the Sub-Advisor with respect to its investment strategies (as described in further detail below). The Trustees noted that NAM recommended the Sub-Advisors and considered the basis for such recommendation. At prior meetings, the Board has also reviewed an evaluation from NAM of each Sub-Advisor which outlined, among other things, the Sub-Advisor's organizational history, client base, product mix, investment team and any changes thereto, investment process, and performance (as applicable). Given the Trustees' experience with the Funds (including any other Nuveen funds advised by the Sub-Advisor) and each Sub-Advisor, the Trustees recognized and considered the quality of their investment processes in making portfolio management decisions.

73

Disclosure for NUVEEN
PREFERRED AND CONVERTIBLE INCOME FUNDS (continued)

In addition to advisory services, the independent Trustees considered the quality of any administrative or non-advisory services provided. With respect to

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

each Sub-Advisor, the independent Trustees noted that each respective Sub-Advisory Agreement was essentially an agreement for portfolio management services only and the Sub-Advisor was not expected to supply other significant administrative services to the Funds.

Based on their review, the Trustees found that, overall, the nature, extent and quality of services expected to be provided to the Funds under the Tradewinds Sub-Advisory Agreement and Amended Symphony Sub-Advisory Agreement, as applicable, were satisfactory.

B. THE INVESTMENT PERFORMANCE OF THE FUND AND SUB-ADVISORS

The Trustees recognized that the changes to the investment mandates are seeking, in part, to enhance portfolio returns thus limiting some of the usefulness of reviewing the Fund's past performance record. Accordingly, the Trustees have reviewed hypothetical model performance of the investment strategies as well as hypothetical and more recent actual performance of the respective Sub-Adviser with respect to its investment strategies. The Trustees are also familiar with the performance records of the respective Sub-Adviser with respect to other funds it advises.

C. FEES, EXPENSES AND PROFITABILITY

1. FEES AND EXPENSES

In evaluating the advisory fees, the Board recognized that the overall advisory fee paid by the Funds will not change as a result of the addition of Tradewinds as a Sub-Advisor and the increased fee for Symphony. Rather, NAM will pay the sub-advisory fees out of the management fees it receives from the Funds. With respect to the overall advisory fees and expenses of the Fund, the Trustees have previously reviewed, among other things, the respective Fund's advisory fees (net and gross management fees) and total expense ratios (before and after expense reimbursements and/or waivers) in absolute terms as well as comparisons to the gross management fees (before waivers), net management fees (after waivers) and total expense ratios (before and after waivers) of comparable funds. With respect to the sub-advisory fees, the Trustees reviewed the proposed sub-advisory fee for Tradewinds, the revised sub-advisory fee schedule for Symphony and the fees received by each from other funds they advise. At prior meetings, the Trustees have also reviewed the pricing schedule that the Sub-Advisor (or its predecessor) charges for similar investment management services for other client accounts or fund sponsors.

Based on their review of the fee and service information provided, the Trustees determined that the proposed sub-advisory fees for the respective Sub-Advisor was acceptable.

2. PROFITABILITY

In conjunction with its review of fees at prior meetings, the Trustees have considered the profitability of Nuveen for advisory activities (which incorporated Nuveen's wholly-owned affiliated sub-advisors including Tradewinds and Symphony). As noted, the overall advisory fees paid by the Funds will not change as a result of the proposed changes to the Funds' sub-advisory arrangements. At prior meetings, the Trustees have reviewed data comparing Nuveen's profitability with other fund sponsors prepared by three independent third party service providers as well as comparisons of the revenues, expenses and profits margins of various unaffiliated management firms with similar amounts of assets under management prepared by Nuveen. In considering profitability, the Trustees have recognized the inherent limitations in determining profitability as well as the difficulties in comparing the profitability of other unaffiliated advisers. Based on their review, the Trustees recognized that the Sub-Advisors are wholly-owned subsidiaries of Nuveen, the advisory fees paid to NAM are not changing, and therefore the level of profitability to Nuveen should remain the same and appears reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Trustees also considered any other revenues paid to the Sub-Advisor and its affiliates (including NAM) as well as any indirect benefits (such as soft dollar arrangements, if any) they expect to receive that are directly attributable to their management of the Funds, if any. See Section E below for additional information.

D. ECONOMIES OF SCALE AND WHETHER FEE LEVELS REFLECT THESE ECONOMIES OF SCALE
With respect to economies of scale, the Trustees have recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base as a fund grows. To help ensure the shareholders share in these benefits, the Trustees have previously reviewed and considered the breakpoints in the Fund's advisory fee schedules that reduce advisory fees as the applicable Fund's assets grow. In addition to advisory fee breakpoints as assets in a respective Fund rise, the Board had also approved a complex-wide fee arrangement that was introduced on August 1, 2004. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex, including the Funds, are reduced as the assets in the fund complex reach certain

74

levels. As noted, each Fund's overall advisory fee schedule including the breakpoints applicable to the fees paid by the Fund will not change as a result of the proposed changes to the Funds' sub-advisory arrangements. The Trustees had concluded that such breakpoint schedule and complex-wide fee arrangement continues to be acceptable and desirable in providing benefits from economies of scale to shareholders.

E. INDIRECT BENEFITS

In evaluating fees, the Trustees also considered any indirect benefits or profits the Sub-Advisor or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Trustees recognized revenues received by affiliates of NAM and the Sub-Advisors for serving as agent at Nuveen's preferred trading desk.

In addition to the above, the Trustees considered whether the Sub-Advisor received any benefits from soft dollar arrangements. The Trustees recognized that Tradewinds may engage in soft dollar arrangements and that such Sub-Advisor may benefit from its soft dollar arrangements pursuant to which it receives research from brokers that execute the respective Fund's portfolio transactions. The Trustees noted that such Sub-Advisor's profitability may be lower if it was required to pay for this research with hard dollars. With respect to Symphony, Symphony currently does not enter into soft dollar arrangements; however, it has adopted a soft dollar policy in the event it does so in the future.

F. OTHER CONSIDERATIONS

In addition to the above, the Trustees recognized that the modifications in the Funds' investment strategies would result in changes to the Funds' portfolio management. As noted above, the Trustees considered the Sub-Advisors' experience in light of the Funds' new investment mandates. However, the Trustees recognized that the Sub-Advisors are affiliated with Nuveen and will be managing assets that were formerly managed by a sub-adviser unaffiliated with Nuveen. As Nuveen pays the Sub-Advisors out of the management fee it receives from the Funds, the Trustees considered the benefit to Nuveen that it will be retaining more of the management fees through its affiliated Sub-Advisors when the Board evaluated the sub-advisory arrangements and fee structures.

The Trustees did not identify any single factor discussed previously as all-important or controlling. The Trustees, including a majority of independent

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

Trustees, concluded that the terms of the Tradewinds Sub-Advisory Agreement and Symphony's Amended Sub-Advisory Agreement were fair and reasonable, that the respective Sub-Advisor's fees are reasonable in light of the services provided to each Fund, and that the Trustees recommend that shareholders approve such Sub-Advisory Agreements.

Reinvest Automatically
EASILY AND CONVENIENTLY

NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

AUTOMATIC DIVIDEND REINVESTMENT PLAN

NOTICE OF AMENDMENT TO THE TERMS AND CONDITIONS

The Fund is amending the terms and conditions of its Automatic Dividend Reinvestment Plan (the "Plan") as further described below effective with the close of business on December 1, 2006. THESE CHANGES ARE INTENDED TO ENABLE PLAN PARTICIPANTS UNDER CERTAIN CIRCUMSTANCES TO REINVEST FUND DISTRIBUTIONS AT A LOWER AGGREGATE COST THAN IS POSSIBLE UNDER THE EXISTING PLAN. Shareholders who do not wish to continue as participants under the amended Plan may withdraw from the Plan by notifying the Plan Agent prior to the effective date of the amendments. Participants should refer to their Plan document for notification instructions, or may simply call Nuveen at (800) 257-8787.

Fund shareholders who elect to participate in the Plan are able to have Fund distributions consisting of income dividends, realized capital gains and returns of capital automatically reinvested in additional Fund shares. Under the Plan's existing terms, the Plan Agent purchases Fund shares in the open market if the Fund's shares are trading at a discount to their net asset value on the payable date for the distribution. If the Fund's shares are trading at or above their net asset value on the payable date for the distribution, the Plan Agent purchases newly-issued Fund shares directly from the Fund at a price equal to the greater of the shares' net asset value or 95% of the shares' market value.

Under the Plan's amended terms, if the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value. This change will permit Plan participants under these circumstances to reinvest Fund distributions at a lower aggregate cost than is possible under the existing Plan.

DISTRIBUTION INFORMATION

Nuveen Preferred and Convertible Income Fund (JPC) and Nuveen Preferred and Convertible Income Fund 2 (JQC) designate 21.23% and 17.79%, respectively, of dividends declared from net investment income as dividends qualifying for the 70% dividends received deduction for corporations and 25.58% and 21.97%, respectively, as qualified dividend income for individuals under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

CEO CERTIFICATION DISCLOSURE

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

MARKET YIELD: Market yield is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Funds' cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. [There were no amendments to or waivers from the Code during the period covered by this report.] The registrant has posted the code of ethics on its website at www.nuveen.com/etf. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Preferred and Convertible Income Fund

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

(1) "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

(2) "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees".

(3) "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

(4) "All Other Fees" are the aggregate fees billed for products and services other than "Audit Fees", "Audit Related Fees", and "Tax Fees".

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

(1) The amounts reported for the Fund under the column heading "Tax Fees" represents amounts billed to the Adviser exclusively for the preparation for the Fund's tax return, the cost of which is borne by the Adviser. In the aggregate, for all Nuveen funds for which Ernst & Young LLP serves as independent registered public accounting firm, these fees amounted to \$288,000 in 2006 and \$282,575 in 2005.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

\$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans, William J. Schneider and Eugene S. Sunshine.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Spectrum Asset Management, Inc. ("Spectrum"), Frolely, Revy Investment Company Inc. ("Frolely, Revy") and Symphony Asset Management, LLC ("Symphony") (Spectrum, Frolely, Revy and Symphony are also collectively referred to as "Sub-Advisers") as Sub-Advisers to provide discretionary investment advisory services. As part of these services, the Adviser has also delegated to each Sub-Adviser the full responsibility for proxy voting and related duties in accordance with the Sub-Adviser's policy and procedures. The Adviser periodically will monitor each Sub-Adviser's voting to ensure that they are carrying out their duties. The Sub-Advisers' proxy voting policies and procedures are summarized as follows:

SYMPHONY

Symphony uses the proxy voting services of Institutional Shareholder Services ("ISS"). The ISS Proxy Voting Services provide Symphony and its clients with an independent source of proxy voting research and services. The use of ISS is designed to offer client-centered proxy voting which minimizes conflicts of interests between Symphony's interests and those of its clients.

In order to monitor how ISS votes client proxies, Symphony has established a Proxy Voting Review Committee (the "Committee"). The Committee is composed of Symphony's Chief Operating Officer and its Chief Investment Officer. Each year, the Committee reviews ISS proxy voting policies and practices to determine whether such policies and practices are consistent with Symphony's fiduciary duty to the clients for whom Symphony is responsible for voting proxies. During the year, the Committee review how ISS votes on specific issues. From time to time, the Committee discusses the proxy voting process with representatives of ISS in order to ensure that Symphony's client interests are being protected. When Symphony disagrees with ISS' policies with respect to certain issues, Symphony will direct the voting of its clients' proxies according to what Symphony believes is the best interests of its clients.

Clients who have questions about how particular proxies are voted for their account may request such information from Symphony by calling (415) 676-4000.

FROLEY, REVY

Frolely, Revy will vote proxies upon a client's request as set forth in the Investment Management contract. Proxies will be voted in the best interests of the account's participants and beneficiaries. Thus, the primary consideration in voting a proxy is the ultimate economic value of the stock based on Frolely, Revy's independent analysis of the stock's investment potential. Frolely, Revy utilizes a proxy committee. With respect to each proxy issue, the committee will

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

analyze the economic impact on the company of voting in favor or against the proposal. The committee will vote based on the best ultimate long-term economic interest of the plan. Froley, Revy may determine not to vote proxies relating to certain securities if Froley, Revy determines it would be in its clients' overall best interest not to vote. If Froley, Revy manages the assets of a company or its pension plan and any of Froley, Revy's clients hold any securities of that company, to avoid conflicts of interest, the client will be asked to vote the proxy.

Clients that would like to obtain a copy of Froley, Revy's proxy policies and procedures and/or the voting history for their account may do so by writing to the offices of Froley, Revy Investment Co., Inc. at 10900 Wilshire Blvd. Suite 900, Los Angeles, CA 90024, Attn: Compliance Department.

SPECTRUM

Spectrum has adopted a Policy on Proxy Voting for Investment Advisory Clients (the "Voting Policy"), which provides that Spectrum aims to ensure that, when delegated proxy voting authority by a client, Spectrum act (1) solely in the interest of the client in providing for ultimate long-term stockholder value, and (2) without undue influence from individuals or groups who may have an economic interest in the outcome of a proxy vote. Spectrum relies on the custodian bank to deliver proxies to Spectrum for voting.

Spectrum has selected Institutional Shareholder Services, Inc. ("ISS") to assist with Spectrum's proxy voting responsibilities. Spectrum generally follows ISS standard proxy voting guidelines which embody the positions and factors Spectrum considers important in casting proxy votes. In connection with each proxy vote, ISS prepares a written analysis and recommendation based on its guidelines. In order to avoid any conflict of interest for ISS, the CCO will require ISS to deliver additional information or certify that ISS has adopted policies and procedures to detect and mitigate such conflicts of interest in issuing voting recommendations. Spectrum also may obtain voting recommendations from two proxy voting services as an additional check on the independence of ISS' voting recommendations.

Spectrum may, on any particular proxy vote, diverge from ISS' guidelines or recommendations. In such a case, Spectrum's Voting Policy requires that: (i) the requesting party document the reason for the request; (ii) the approval of the Chief Investment Officer; (iii) notification to appropriate compliance personnel; (iv) a determination that the decision is not influenced by any conflict of interest; and (v) a written record of the process.

When Spectrum determines not to follow ISS' guidelines or recommendations, Spectrum classifies proxy voting issues into three broad categories: (1) Routine Administrative Items; (2) Special Interest Issues; and (3) Issues having the Potential for Significant Economic Impact, and casts proxy votes in accordance with the philosophy and decision guidelines developed for that category in the Voting Policy.

- Routine Administrative Items. Spectrum is willing to defer to management on matters a routine administrative nature. Examples of issues on which Spectrum will normally defer to management's recommendation include selection of auditors, increasing the authorized number of common shares and the election of unopposed directors.
- Special Interest Issues. In general, Spectrum will abstain from voting on shareholder social, political, environmental proposals because their long-term impact on share value cannot be calculated with any reasonable degree of confidence.

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- Issues Having the Potential for Significant Economic Impact. Spectrum is not willing to defer to management on proposals which have the potential for major economic impact on the corporation and value of its shares and believes such issues should be carefully analyzed and decided by shareholders. Examples of such issues are classification of board of directors' cumulative voting and supermajority provisions, defensive strategies (e.g., greenmail prevention), business combinations and restructurings and executive and director compensation.

Conflicts of Interest. There may be a material conflict of interest when Spectrum votes, on behalf of a client, a proxy that is solicited by an affiliated person of Spectrum or another Spectrum client. To avoid such conflicts, Spectrum has established procedures under its Voting Policy to seek to ensure that voting decisions are based on a client's best interests and are not the product of a material conflict. In addition to employee monitoring for potential conflicts, the CCO reviews Spectrum's and its affiliates' material business relationships and personal and financial relationships of senior personnel of Spectrum and its affiliates to monitor for conflicts of interest.

If a conflict of interest is identified, Spectrum considers both financial and non-financial materiality to determine if a conflict of interest is material. If a material conflict of interest is found to exist, the CCO discloses the conflict to affected clients and obtains consent from each client in the manner in which Spectrum proposed to vote.

Spectrum clients can obtain a copy of the Voting Policy or information on how Spectrum voted their proxies by calling Spectrum's Compliance Department at (203) 322-0189.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Spectrum Asset Management, Inc. ("Spectrum") for the registrant's preferred securities investments, Froley Revy Investment Co. (Froley Revy) for the registrant's convertible securities and Symphony Asset Management, LLC ("Symphony") for the registrant's high yield, fixed income investments (Spectrum, Froley Revy and Symphony are also collectively referred to as "Sub-Advisers") as Sub-Advisers to provide discretionary investment advisory services. The following section provides information on the portfolio managers at each Sub-Adviser:

There are no material conflicts of interest to report.

ITEM 8 (a)(3). Fund Manager Compensation

All employees of Spectrum Asset Management are paid a base salary and discretionary bonus. The bonus is paid quarterly and may represent a significant proportion of an individual's total annual compensation. Discretionary bonuses are determined by management after consideration of several factors including but not necessarily limited to:

- Changes in overall firm assets under management (employees have no direct incentive to increase assets)
- Portfolio performance relative to benchmarks
- Contribution to client servicing

Edgar Filing: NUVEEN PREFERRED CONVERTIBLE INCOME FUND - Form N-CSR

- Compliance with firm and/or regulatory policies and procedures
- Work ethic
- Seniority and length of service
- Contribution to overall functioning of organization

POTENTIAL MATERIAL CONFLICTS OF INTEREST

As described above, the portfolio manager may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the sub-advisers may vary among

these accounts and the portfolio managers may personally invest in some but not all of these accounts. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. A conflict may also exist if a portfolio manager identified a limited investment opportunity that may be appropriate for more than one account, but the Fund is not able to take full advantage of that opportunity due to the need to allocate that opportunity among multiple accounts. In addition, the portfolio manager may execute transactions for another account that may adversely impact the value of securities held by the Fund. However, the sub-advisers believe that these risks are mitigated by the fact that accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and other factors. In addition, each sub-adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

ITEM 8 (a) (3). Fund Manager Compensation

Froley, Revy's portfolio managers receive base compensation and benefits, which are competitive with the industry standards. Bonuses are a reflection of both the individual's contribution and firm wide profitability. Ms. O'Connell's compensation is not based on the performance of her portfolios and is not directly tied to the gathering of assets. Rather any increases in assets are reflected through overall firm profitability. Ms. O'Connell is a profit participant in the firm and her bonus is based on a percentage of net profitability (including all bonuses paid to employees).

Due to the complex and varying natures of the portfolios managed, there is no simple comparison to an index, nor is compensation tied to performance against an index in the short term. Over a longer cycle, however, actual over and under performance is evaluated.

POTENTIAL MATERIAL CONFLICTS OF INTEREST

As described above, the portfolio manager may manage other accounts with investment strategies similar to the Fund, including other investment companies and separately managed accounts. Fees earned by the sub-advisers may vary among these accounts and the portfolio managers may personally invest in some but not all of these accounts. In addition, certain accounts may be subject to performance-based fees. These factors could create conflicts of interest because a portfolio manager may have incentives to favor certain accounts over others, resulting in other accounts outperforming the Fund. A conflict may also exist if a portfolio manager identified a limited investment opportunity that may be appropriate for more than one account, but the Fund is not able to take full advantage of that opportunity due to the need to allocate that opportunity among multiple accounts. In addition, each sub-adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

ITEM 8 (a) (3). Fund Manager Compensation

Symphony investment professionals receive competitive base salaries and participate in a bonus pool which is tied directly to the firm's operating income with a disproportionate amount paid to the managers responsible for generating the alpha. The bonus paid to investment personnel is based on acumen, overall contribution and strategy performance. However, there is no fixed formula which guides bonus allocations. Bonuses are paid on an annual basis. In addition, investment professionals may participate in an equity-based compensation pool.
