Monthly Operating Report for the Month Ended November 30, 2007

Table of Contents**ITEM 7.01 REGULATION FD DISCLOSURE****Operating Report**

As previously disclosed, on December 31, 2007, Delphi Corporation (Delphi or the Company) and certain of its subsidiaries (collectively, the Debtors) filed their unaudited condensed combined debtors-in-possession financial statements included in the Monthly Operating Report for the month ended November 30, 2007 (the Monthly Operating Report or MOR) with the United States (U.S.) Bankruptcy Court for the Southern District of New York (the Court) and simultaneously filed a copy of such report with the U.S. Securities and Exchange Commission (SEC) as Exhibit 99(a) to its Current Report on Form 8-K dated December 31, 2007. Today, the Debtors filed an amended Monthly Operating Report with the Court for the purpose of correcting a reclassification amongst certain line items in and included in the MOR and on Exhibit 99(a). The monthly and year-to-date net losses in the statement of operations were properly reported but cost of sales was understated and equity income (loss) earnings from non-Debtor affiliates should have included additional income of the same amount. The reclassification also caused investments in non-Debtor affiliates and accounts payable to non-Debtor affiliates on the balance sheet to be understated by the same amount. The monthly cash flows provided by operating activities in the statement of cash flows were properly reported because the reclassification impacted offsetting items within cash flows provided by operating activities. The amount of the reclassification that impacted the unaudited condensed combined debtors-in-possession financial statements included in the originally filed Monthly Operating Report as described above was \$183 million. A copy of the amended MOR as filed with the Court today is attached as Exhibit 99(a) hereto.

The Monthly Operating Report is limited in scope, covers a limited time period, and has been prepared solely for the purpose of complying with the monthly reporting requirements of the Court. The Company s foreign subsidiaries have not filed for bankruptcy protection, and financial information regarding such foreign subsidiaries is not part of the consolidated group included in the Monthly Operating Report. The financial information in the Monthly Operating Report is preliminary and unaudited and does not purport to show the financial statements of any of the Debtors in accordance with accounting principles generally accepted in the United States of America (GAAP), and therefore may exclude items required by GAAP, such as certain reclassifications, eliminations, accruals, and disclosure items. The Company cautions readers not to place undue reliance upon the Monthly Operating Report. There can be no assurance that such information is complete. The Monthly Operating Report may be subject to revision. The Monthly Operating Report is in a format required by the U.S. Bankruptcy Code (Bankruptcy Code) and should not be used for investment purposes. The information in the Monthly Operating Report should not be viewed as indicative of future results. Additional information regarding Delphi s filing under the Bankruptcy Code, including access to court documents and other general information about the chapter 11 cases, is also available online at www.delphidocket.com.

Limitation on Incorporation by Reference

The Monthly Operating Report is being furnished for informational purposes only and is not deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended. Registration statements or other documents filed with the SEC shall not incorporate the Monthly Operating Report or any other information set forth in this Current Report on Form 8-K by reference, except as otherwise expressly stated in such filing. This Current Report on Form 8-K will not be deemed an admission as to the materiality of any information in the report that is required to be disclosed solely by Regulation FD.

FORWARD-LOOKING STATEMENTS

This Current Report on Form 8-K, including the exhibits being filed as part of this report, as well as other statements made by Delphi may contain forward-looking statements that reflect, when made, the Company s current views with respect to current events and financial performance. Such forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company s operations and business environment which may cause the actual results of the Company to be materially different from any future results, express or implied, by such forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expects, plans, anticipates, believes, estimates, predicts, the negative of these terms and other comparable terminology. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: the ability of the

Company to continue as a going concern; the ability of the Company to operate pursuant to the terms of the debtor-in-possession financing facility and to obtain an extension of term or other amendments as necessary to maintain access to such facility; the terms of any reorganization plan ultimately confirmed; the Company's ability to obtain Court approval with respect to motions in the chapter 11 cases prosecuted by it from time to time; the ability of the Company to prosecute, confirm and consummate one or more plans of reorganization with respect to the chapter 11 cases; the Company's ability to satisfy the terms and conditions of the Equity Purchase and Commitment Agreement; risks associated with third parties seeking and obtaining Court approval to terminate or shorten the exclusivity period for the Company to propose and confirm one or more plans of reorganization, for the appointment of a chapter 11 trustee or to convert the cases to chapter 7 cases; the ability of the Company to obtain and maintain normal terms with vendors and service providers; the Company's ability to maintain contracts that are critical to its operations; the potential adverse impact of the chapter 11 cases on the Company's liquidity or results of operations; the ability of the Company to fund and execute its business plan (including the transformation plan described in Item 1. Business Potential Divestitures, Consolidations and Wind-Downs of the Annual Report on Form 10-K for the year ended December 31, 2006 filed with the U.S. Securities and Exchange Commission (the SEC)) and to do so in a timely manner; the ability of the Company to attract, motivate and/or retain key executives and associates; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees or those of its principal customers and the ability of the Company to attract and retain customers. Additional factors that could affect future results are identified in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, including the risk factors in Part I. Item 1A. Risk Factors, contained therein and the Company's quarterly periodic reports for the subsequent periods, including

Table of Contents

the risk factors in Part II. Item 1A. Risk Factors, contained therein, filed with the SEC. Delphi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise. Similarly, these and other factors, including the terms of any reorganization plan ultimately confirmed, can affect the value of the Company's various prepetition liabilities, common stock and/or other equity securities. Additionally, no assurance can be given as to what values, if any, will be ascribed in the bankruptcy cases to each of these constituencies. A plan of reorganization could result in holders of Delphi's common stock receiving no distribution on account of their interest and cancellation of their interests. In addition, under certain conditions specified in the Bankruptcy Code, a plan of reorganization may be confirmed notwithstanding its rejection by an impaired class of creditors or equity holders and notwithstanding the fact that equity holders do not receive or retain property on account of their equity interests under the plan. In light of the foregoing, the Company considers the value of the common stock to be highly speculative and cautions equity holders that the stock may ultimately be determined to have little or no value. Accordingly, the Company urges that appropriate caution be exercised with respect to existing and future investments in Delphi's common stock or other equity interests or any claims relating to prepetition liabilities.
