Item 2.02. Results of Operations and Financial Condition.

Quarterly Results Press Release

On May 5, 2009, a press release was issued regarding the second quarter 2009 results of Emerson Electric Co. (the Company). A copy of this press release is furnished with this Current Report on Form 8-K as Exhibit 99.1.

The press release contains non-GAAP financial measures as such term is defined in Regulation G under the rules of the Securities and Exchange Commission. While the Company believes these non-GAAP financial measures are useful in evaluating the Company, this information should be considered as supplemental in nature and not as a substitute for or superior to the related financial information prepared in accordance with GAAP. Further, these non-GAAP financial measures may differ from similarly titled measures presented by other companies. The reasons management believes that these non-GAAP financial measures provide useful information are set forth in the Company's most recent Form 10-K filed with the Securities and Exchange Commission.

Item 7.01. Regulation FD Disclosure.

The following information is furnished pursuant to Regulation FD.

Emerson GAAP Underlying Orders 3 Month Summary

(Percent change. Trailing 3-month average versus prior year.)

	<u>January 09</u>	<u>February 09</u>	<u>March 09</u>
Process Management	-15 to -10	-20 to -15	-30 to -25
Industrial Automation	-30 to -25	> -30	> -30
Network Power	-25 to -20	-20 to -15	-25 to -20
Climate Technologies	-25 to -20	-30 to -25	-30
Appliance and Tools	-30 to -25	-25	-30 to -25
Total Emerson	-25 to -20	-25 to -20	-30 to -25

March 2009 Order Comments:

The trailing three-month order rate for Emerson was down 25 to 30 percent, with currency exchange rates negatively impacting orders by approximately 7 percentage points. In the trailing three-month period, we have seen orders decline in excess of real underlying end-market demand levels. This has been driven by backlog liquidation, reductions in channel inventories, and reduced lead times across the markets served by Emerson. This is supported by our own liquidation of inventory as evidenced by a decrease of over \$200 million from December 31, 2008 to March 31, 2009.

We have seen a sequential improvement in our underlying orders from the month of February to March and believe the orders are beginning to adjust closer to real end-market demand levels. For the month of March, underlying orders were down in the 15 to 20 percent range, excluding a negative 3 percentage point currency impact, and were down 20 to 25 percent overall.

Process Management orders declined and were down 25 to 30 percent overall against a difficult comparison to the same prior year period. Currency exchange rates had a negative impact of approximately 14 percentage points on the order growth, including a negative backlog revaluation impact due to the stronger U.S. dollar. Order rates remained mixed among end-markets, with strength in the power market partially offsetting weakness in the chemical and refining markets.

Edgar Filing: EMERSON ELECTRIC CO - Form 8-K

Broad weakness across capital-related end markets continued to negatively impact order rates for Industrial Automation.

Strength in the China power systems business was more than offset by weakness across the balance of the Network Power business segment.

Order trends for Climate Technologies continued to be negatively impacted by weakness across global served markets.

While order rates for Appliance and Tools were weak, the consumer-related businesses of this segment seem to be stabilizing, although at low end-market demand levels.
