**NATIONAL BEVERAGE CORP. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
AUGUST 2, 2008
(UNAUDITED)**

1. BASIS OF PRESENTATION

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of multi-flavored soft drinks, juice drinks, water and specialty beverages throughout the United States. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. When used in this report, the terms we, us, our, Company and National Beverage mean National Beverage Corp. and its subsidiaries. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and rules and regulations of the Securities and Exchange Commission for interim financial information. The financial statements do not include all information and notes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the interim periods presented are not necessarily indicative of results which might be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended May 3, 2008.

2. MARKETABLE SECURITIES

Marketable securities are income yielding securities that generally can be readily converted into cash. All of our marketable securities are classified as trading securities and are reported as current assets at their estimated fair market values. Fair value is based on quoted prices of similar assets in active markets. Valuation of these items does entail significant amount of judgment and the inputs that are significant to the fair value measurement are Level 2 in the fair value hierarchy as defined in SFAS 157, *Fair Value Measurements*. Accordingly, the fair value may not represent actual value of the securities that could have been realized as of August 2, 2008, or that will be realized in the future and do not include expenses that could be incurred in an actual sale or settlement.

3. INVENTORIES

Inventories are stated at the lower of first-in, first-out cost or market. Inventories at August 2, 2008 are comprised of finished goods of \$24,773,000 and raw materials of \$20,887,000. Inventories at May 3, 2008 are comprised of finished goods of \$20,913,000 and raw materials of \$17,841,000.

Table of Contents**4. PROPERTY**

Property consists of the following:

	(In thousands)	
	August 2, 2008	May 3, 2008
Land	\$ 8,954	\$ 8,954
Buildings and improvements	41,730	41,697
Machinery and equipment	125,991	124,797
Total	176,675	175,448
Less accumulated depreciation	(120,125)	(117,809)
Property net	\$ 56,550	\$ 57,639

Depreciation expense was \$2,451,000 and \$2,352,000 for the three-month period ended August 2, 2008 and July 28, 2007, respectively.

5. DEBT

A subsidiary maintains unsecured revolving credit facilities aggregating \$75 million (the Credit Facilities) with banks which expire through April 2013. The Credit Facilities bear interest at rates based, in part, on the amount borrowed and the earnings of the subsidiary. At August 2, 2008, interest rates ranged from LIBOR plus .3% to LIBOR plus .6% or, at the subsidiary's election, 1/2% below the banks' reference rate. At August 2, 2008, \$2.7 million of the Credit Facilities was used for standby letters of credit and \$72.3 million was available for future borrowings.

The Credit Facilities require the subsidiary to maintain certain financial ratios and contain other restrictions, none of which are expected to have a material impact on our operations or financial position. Significant financial ratios and restrictions include: fixed charge coverage; net worth ratio; and limitations on incurrence of debt. At August 2, 2008, we were in compliance with all loan covenants and approximately \$25 million of retained earnings were restricted from distribution.

6. STOCK-BASED COMPENSATION

During the three months ended August 2, 2008, there were no options granted and options for 49,440 shares were exercised at a weighted average exercise price of \$4.00. At August 2, 2008, options to purchase 613,679 shares at a weighted average exercise price of \$4.39 were outstanding and stock-based awards to purchase 3,239,086 shares of common stock were available for grant.

7. RECENTLY ADOPTED ACCOUNTING STANDARDS

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 was effective at the beginning of our 2009 fiscal year for all financial assets and liabilities and for nonfinancial assets and liabilities measured at fair value on a recurring basis. For all other nonfinancial assets and liabilities, SFAS 157 is effective

Table of Contents

at the beginning of our 2010 fiscal year. The adoption of SFAS 157 did not have a material impact on our consolidated financial statements. We are currently evaluating the impact related to our nonfinancial assets and liabilities not measured at fair value on a recurring basis.

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), which permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 was effective at the beginning of our 2009 fiscal year. We did not apply the fair value option to any of our financial instruments; therefore, SFAS 159 did not have an impact on our consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of quality beverage products throughout the United States. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. In this report, the terms we, us, our, Company and National Beverage mean National Beverage Corp. and its subsidiaries.

We consider ourselves to be a leader in the development and sale of flavored beverage products in the United States, offering the widest selection of flavored soft drinks, juices, sparkling waters and energy drinks. Our flavor development spans over 100 years originating with our flagship brands, Shasta[®] and Faygo[®], each of which has over 50 flavor varieties. We also maintain a diverse line of flavored beverage products geared to the health-conscious consumer, including Everfresh[®], Home Juice[®], and Mr. Pure[®] 100% juice and juice-based products; and LaCroix[®], Mt. Shasta[®], Crystal Bay[®] and ClearFruit[®] flavored, sparkling, and spring water products; and ÀSanté nutritionally-enhanced waters. In addition, we produce Rip It[®] energy drinks, Ohana[®] fruit-flavored drinks and St. Nick[®] holiday soft drinks. Substantially all of our brands are produced in thirteen manufacturing facilities that are strategically located in major metropolitan markets throughout the continental United States. To a lesser extent, we develop and produce soft drinks for certain retailers and beverage companies (allied brands).

Our strategy emphasizes the growth of our products by offering a branded beverage portfolio of proprietary flavors; by supporting the franchise value of regional brands and expanding those brands with distinctive packaging and broader demographic emphasis; by developing and acquiring innovative products tailored toward healthy lifestyles; and by appealing to the quality-price expectations of the family consumer. We believe that the regional share dynamics of our brands perpetuate consumer loyalty within local regional markets, resulting in more retailer sponsored promotional activities.

Over the last several years, we have focused on increasing penetration of our brands in the convenience channel through Company-owned and independent distributors. The convenience channel consists of convenience stores, gas stations, and other smaller up-and-down-the-street accounts. Because of the higher retail prices and margins that typically prevail, we have undertaken several measures to expand convenience channel distribution in recent years. These include development of products specifically targeted to this market, such as ClearFruit, Crystal Bay, Rip It, ÀSanté and Sundance[®]. Additionally, we have created proprietary and specialized packaging with distinctive graphics for these products. We intend to continue our focus on enhancing growth in the convenience channel through both specialized packaging and innovative product development.

Beverage industry sales are seasonal with the highest volume typically realized during the summer months.

Additionally, our operating results are subject to numerous factors, including fluctuations in the costs of raw materials, changes in consumer preference for beverage products and competitive pricing in the marketplace.

Table of Contents

RESULTS OF OPERATIONS

**Three Months Ended August 2, 2008 (first quarter of fiscal 2009) compared to
Three Months Ended July 28, 2007 (first quarter of fiscal 2008)**

Net sales for the first quarter of fiscal 2009 increased .8% to \$152.9 million compared to the first quarter of fiscal 2008. The net sales increase reflects case volume growth of 5.4% for the Company's energy drinks, juices and waters along with the effect of a 4.8% improvement in unit pricing due to product mix and price increases instituted to recover higher raw material costs. This improvement was partially offset by a 3.7% decline in branded carbonated soft drink volume.

Gross profit approximated 30.1% of net sales for the first quarter of fiscal 2009 compared to 30.6% of net sales for the first quarter of fiscal 2008. Gross margin was negatively affected by higher raw material costs and lower volume partially offset by the higher unit pricing mentioned above. Cost of goods sold per unit increased approximately 5.5%. Selling, general and administrative expenses were \$34.1 million or 22.3% of net sales for the first quarter of fiscal 2009 compared to \$35.6 million or 23.5% of net sales for last year. The decrease in expenses is due to lower marketing expenses.

Other income includes interest income of \$202,000 (fiscal 2009) and \$362,000 (fiscal 2008). The decline in interest income is due to lower average investment balances as a result of the \$36.7 million cash dividend paid in August 2007.

The Company's effective rate for income taxes, based upon estimated annual income tax rates, approximated 35.9% of income before taxes for the first quarter of fiscal 2009 and 35.5% for the comparable period in fiscal 2008. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effects of state income taxes, nondeductible expenses and nontaxable interest income.

Net income was \$7.8 million for the first quarter of fiscal 2009 compared to \$7.2 million for the first quarter of fiscal 2008.

LIQUIDITY AND FINANCIAL CONDITION

Liquidity and Capital Resources

Our current sources of capital are cash flows from operations and borrowings under existing credit facilities. We maintain unsecured revolving credit facilities aggregating \$75 million of which \$2.7 million was used for standby letters of credit at August 2, 2008. There was no debt outstanding under the credit facilities. We believe that our capital resources are sufficient to fund our capital expenditures, dividends and working capital requirements for the foreseeable future.

Cash Flows

During the first three months of fiscal 2009, \$6.4 million was provided by operating activities, \$784,000 was provided by investing activities and \$242,000 was provided by financing activities.

Table of Contents

Financial Position

During the first three months of fiscal 2009, our working capital increased \$9.6 million to \$99.0 million primarily due to cash provided by operating activities. Trade receivables and inventories increased due to higher volume related to seasonality. Prepaid and other assets decreased primarily due to a decline in income tax refund receivables. The current ratio was 2.5 to 1 at August 2, 2008 and 2.3 to 1 at May 3, 2008.

NEW ACCOUNTING STANDARDS

See Note 7 of Notes to Condensed Consolidated Financial Statements for information about recently adopted accounting standards.

FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q (this Form 10-Q) constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, but are not limited to, the following: general economic and business conditions; pricing of competitive products; success in acquiring other beverage businesses; success of new product and flavor introductions; fluctuations in the costs of raw materials; our ability to increase prices; continued retailer support for our products; changes in consumer preferences; success of implementing business strategies; changes in business strategy or development plans; government regulations; regional weather conditions; and other factors referenced in this Form 10-Q. We disclaim an obligation to update any such factors or to publicly announce the results of any revisions to any forward-looking statements contained herein to reflect future events or developments.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There are no material changes to the disclosures made on this matter in the Company's Annual Report on Form 10-K for the fiscal year ended May 3, 2008.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act. Based upon that evaluation, the Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective to ensure information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

Table of Contents

There has been no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
