DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. For example, statements included in this report regarding our financial position, business strategy and other plans and objectives for future operations, and assumptions and predictions about future product demand, supply, manufacturing, costs, marketing and pricing factors are all forward-looking statements. When we use words like intend, anticipate, believe, estimate, plan or expect, we are making forward-looking statements. We believe that the assumptions and expectations reflected in such forward-looking statements are reasonable, based on information available to us on the date hereof, but we cannot assure you that these assumptions and expectations will prove to have been correct or that we will take any action that we may presently be planning. We have disclosed certain important factors that could cause our actual results to differ materially from our current expectations elsewhere in this report. You should understand that forward-looking statements made in this report are necessarily qualified by these factors. We are not undertaking to publicly update or revise any forward-looking statement if we obtain new information or upon the occurrence of future events or otherwise.

Table of Contents

Item 1. Business

In this report, JAKKS, the Company, we, us and our refer to JAKKS Pacific, Inc. and its subsidiaries.

Company Overview

JAKKS, a Delaware corporation, is a multi-line, multi-brand toy company that designs, develops, produces and markets toys and related products. Our principal products are (1) action figures and accessories featuring licensed characters, principally from the *World Wrestling Federation*, (2) *Flying Colors* molded plastic craft and activity sets, compounds playsets, girls accessory kits and lunch boxes, (3) Wheels division products, including *Road Champs* die-cast collectible and toy vehicles and *Remco* toy vehicles and role-play toys and accessories, (4) Pentech writing instruments and activity products, (5) *Child Guidance* infant and pre-school electronic toys, plush toys, toy foam puzzle mats and blocks, activity sets and outdoor products and (6) fashion and mini dolls and related accessories. We focus our business on evergreen branded products that are less subject to market fads or trends and feature well-known brand names and simpler, lower-priced toys and accessories.

We formed our joint venture with THQ in June 1998 to develop, manufacture and market, under an exclusive license with World Wrestling Federation Entertainment, video games based on *World Wrestling Federation* characters and themes. The joint venture's first products were released in November 1999.

We have been successful at acquiring and capitalizing on evergreen brands, which are well-recognized trademarks or corporate, trade or brand names, some with long product histories. We continually review the marketplace to identify and evaluate evergreen brands that, for various reasons, we believe have potential for significant growth. We seek to acquire or license these brands and revitalize them as needed by intensifying the marketing effort to restore and enhance consumer recognition and retailer interest. We reinforce brands by linking them with other evergreen brands on our products, adding to the branded product lines new items that we expect to enjoy greater popularity, eliminating products with fading popularity, adding new features and improving the functionality of products in the line. We also try to improve point-of-sale brand visibility through better shelf positioning and more eye-catching product packaging.

We license much of the intellectual property we use in our business. We license the *World Wrestling Federation* trademark, as well as numerous other trademarks, corporate, trade and brand names and logos, from third parties, including *Car and Driver*, *Nickelodeon*, *Rugrats*, *Blue's Clues*, *Mickey Mouse*, *Barney*, *Sesame Street*, *Winnie the Pooh* and *Hello Kitty*. This enables us to use high-profile marks at a lower cost than that which we would incur if we purchased these marks or developed comparable marks on our own. By licensing marks, we have access to a far greater range of marks than those that would be available for purchase, and we maintain the flexibility to acquire newly-popular marks and to discontinue our use of marks whose popularity or value has faded. We also license technology produced by unaffiliated inventors and product developers to improve the design and functionality of our products. We believe that our experience in the toy industry, our flexibility and our recent success in developing and marketing products make us more attractive to toy inventors and developers.

Most of our current products are relatively simple and inexpensive toys and related products. We believe that these products have proven to have enduring appeal and are less subject to general economic conditions, toy product fads and trends, changes in retail distribution channels and other

Table of Contents

factors. In addition, the simplicity of these products enables us to choose among a wider range of manufacturers and affords us greater flexibility in product design, pricing and marketing.

We sell our products through our in-house sales staff and independent sales representatives. Purchasers of our products include toy and mass-market retail chain stores, department stores, drug and grocery store chains, club stores, toy specialty stores and wholesalers. The *Road Champs*, *Flying Colors* and Pentech products are also sold to smaller hobby shops, specialty retailers and corporate accounts, among others. Our five largest customers are Target, Kmart, Toys R Us, Wal-Mart, and Kay Bee Toys, which accounted for approximately 54.7% of our net sales in 2001. No other customers accounted for more than 8% of our net sales in 2001. We also sell through e-commerce sites, including Toysrus.com.

Recent Development

On March 11, 2002, we acquired a controlling interest in Toymax International, Inc. (Toymax), a developer and marketer of toys and related products, including brand name products such as Laser Challenge, Creepy Crawlers, Funnoodle and Go Fly a Kite. These product lines further diversify as well as complement our own, and we expect to benefit from efficiencies through combining our operations. We anticipate acquiring the remainder of Toymax in a merger transaction, subject to certain conditions, including the approval of its stockholders.

Industry Overview

According to the Toy Industry Association, Inc. (the TIA), the leading industry trade group, total retail sales of toys, excluding video games, in the U.S., were approximately \$25.0 billion in 2001. According to the TIA, the United States is the world's largest toy market, followed by Japan and Western Europe. Sales by U.S. toy manufacturers to non-U.S. customers exceeded \$5.0 billion in 2001. We believe the two largest U.S. toy companies, Mattel and Hasbro, collectively hold a dominant share of the domestic non-video toy market. In addition, hundreds of smaller companies compete in the design and development of new toys, the procurement of character and product licenses, and the improvement and expansion of previously-introduced products and product lines. In the video game segment, total retail sales of video game software were approximately \$9.4 billion in 2001.

Over the past few years, the toy industry has experienced substantial consolidation among both toy companies and toy retailers. We believe that the ongoing consolidation of toy companies provides us with increased growth opportunities due to retailers' desire not to be entirely dependent on a few dominant toy companies. Retailer concentration also enables us to ship products, manage account relationships and track retail sales more effectively with a smaller staff.

Our Growth Strategy

Expand core products

We manage our existing and new brands through strong product development initiatives, including introducing new products, modifying existing products and extending existing product lines. Our product designers strive to develop new products or product lines to offer added technological, aesthetic and functional improvements to our product lines. In 2001, we expanded the use of real-scan technology in our action toys, which results in higher quality and better likenesses of the characters and vehicles. In addition, we introduced action figures with significantly more points of articulation, and expanded our electronic recognition play sets.

Table of Contents

Enter new product categories

We will continue to use our extensive experience in the toy and other industries to evaluate products and licenses in new product categories and to develop additional product lines. We have entered the plush toy category through the licensing of Pound Puppies as well as through the creation of our own Limbo Legs, and expanded into slumber bags through the licensing of this category from our current licensors, such as Nickelodeon.

Continue to pursue strategic acquisitions

Since our inception, we have successfully concluded and integrated six acquisitions. These include our *Road Champs*, *Remco*, *Child Guidance*, *Berk*, *Flying Colors* and *Pentech* products. We will continue focusing our acquisition strategy on businesses or brands which offer valuable trademarks or brands and have compatible product lines.

Acquire additional character and product licenses

We have acquired the rights to use many familiar corporate, trade and brand names and logos from third parties that we use with our primary trademarks and brands. Currently, we have license agreements with World Wrestling Federation Entertainment, Nickelodeon, Disney, Warner Bros., as well as with the licensors of the many popular licensed children's characters previously mentioned among others. We intend to continue to pursue new licenses from these entertainment and media companies and other licensors. We also intend to continue to purchase additional inventions and product concepts through our existing network of product developers.

Expand international sales

We believe that foreign markets, especially Europe, Australia, Canada and Latin America, offer us the opportunity for growth. We intend to expand our international sales by capitalizing on our experience and our relationships with foreign distributors and retailers. Our recent expansion efforts included entering into a distribution agreement with Funtastic Ltd., an Australia based toy distributor. In addition, we recently acquired Kidz Biz for their distribution channels in the United Kingdom and surrounding territories. We expect both initiatives to contribute to our international growth in 2002.

Capitalize on our operating efficiencies

We believe that our current infrastructure and low-overhead operating methods can accommodate significant growth without a proportionate increase in our operating and administrative expenses, thereby increasing our operating margins.

Products

World Wrestling Federation Action Figures and Accessories

We have an extensive toy license with World Wrestling Federation Entertainment pursuant to which we have the exclusive right, until December 31, 2009, to develop and market a full line of toy products based on the popular *World Wrestling Federation* professional wrestlers throughout the world. These wrestlers perform throughout the year at live events that attract large crowds, many of which are broadcast on free and cable television, including pay-per-view specials. We launched this product line in 1996 with various series of six-inch articulated action figures that have movable body parts and feature real-life action sounds from our patented bone-crunching mechanism that allows the figures' bones to crack when they are bent. We continually expand and enhance this product line by using technology in the development and in the products themselves. The six-inch

Table of Contents

figures currently make up a substantial portion of the overall *World Wrestling Federation* line, which has since grown to include many other new products including playsets using interactive technology. Our strategy has been to release new figures and accessories frequently to keep the line fresh and to retain the interest of the consumers.

Flying Colors/Pentech Activity Sets, Compound Playsets, Writing Instruments and Lunch Boxes

Through our acquisition of Flying Colors Toys we entered into the toy activity category with plastic molded activity cases containing a broad range of activities, such as make and paint your own characters, jewelry making, art studios, posters, puzzles and other projects. The cases, with molded and painted likenesses of popular characters, such as Nickelodeon's *Rugrats* and *Blue's Clues*, *Powerpuff Girls*, *Looney Tunes*, *Hello Kitty* and *Scooby Doo*, have immediate visual appeal. Using a related production technology, our lunch boxes complement this line with similarly-styled molded and painted likenesses featuring these and other popular characters. Through our acquisition of Pentech International in 2000, we expanded the other categories of products offered by *Flying Colors*, which now include stationery, back-to-school pens, pencils, markers and notebooks, party favors and compounds.

Our compounds represent another significant area of emphasis for *Flying Colors*. Launched under the *Blue's Clues* license, this line has expanded from play clay in a bucket to an entire *Blue's Clues* playset featuring book molds, extrusion and other devices. We are continuing to expand the compound area and have introduced a full line of innovative compounds under the Nickelodeon brand, including *Gooze*, *Zyrofoam* and *Gak Splat* among others.

Wheels Division Products

Road Champs die-cast collectible and toy vehicles

The *Road Champs* product line consists of highly-detailed, die-cast replicas of new and classic cars, trucks, motorcycles, emergency vehicles and service vehicles, primarily in 1/43 scale (including police cars, fire trucks and ambulances), buses and aircraft (including propeller planes, jets and helicopters). Through licenses we produce replicas of well-known vehicles including those from *Ford*, *Chevrolet* and *Porsche*. We believe that these licenses increase the perceived value of the products and enhance their marketability. Under the terms of these licenses (many of which include automatic annual extensions without affirmative action taken by either party), we pay the licensor a royalty based on our sales of each product bearing such licensed name. While we are not required to pay any royalty on some of the products, the royalties on a majority of the products range from 1% to 9% of sales.

Extreme sports die-cast collectible and toy vehicles and action figures

In 1999, we launched our extreme sports category with a new line of die-cast bicycles called BXS. These BMX-style bicycles feature removable and interchangeable parts for complete customization by users as well as working cranks. We have licensed the *Schwinn*, *GT* and *Haro* brand names, among others, as well as the names of some of the top riders, such as Dave Mirra and Ryan Nyquist, for use in connection with this product line.

We expanded our extreme sports offerings with the introduction of our MXS line of motorcycles with riders featuring click n grip functionality which allows the user to release the rider from the motorcycle seat and perform the signature moves of the sport's top riders. Other additions included off-road vehicles, personal water craft, surfboards and skateboards, all sold individually and with play sets and accessories.

Table of Contents

BattleBots and Junkyard Wars

We introduced product lines featuring assembled and non-assembled vehicles and playsets, which create a do-it-yourself play pattern, based on the BattleBots and Junkyard Wars television shows.

Remco toy vehicles and role play

Our Remco toy line includes toy vehicles, role play and other toys. Our toy vehicle line is comprised of a large assortment of rugged die-cast and plastic vehicles that range in size from 4 3/4 inch to big-wheeled 17 inch vehicles. The breadth of the line is extensive, with themes ranging from emergency, fire, farm and construction, to racing and jungle adventure.

We offer a variety of branded and non-branded role playsets in this new category under the *Remco* name. Themes include *Caterpillar* construction, *B.A.S.S. Masters* fishing, police, fire and *NASA*. Additionally, capitalizing on the popularity of *World Wrestling Federation*, we introduced a *World Wrestling Federation* role play product which will give children the opportunity to dress like and imagine being their favorite wrestling superstars.

Child Guidance

Infant and pre-school toys

Our line of pre-school electronic toys features products that enhance sensory stimulation and learning through play, while offering value to the trade as well as to the consumer. Our products are designed for children ages two and under. We have combined the fun of music, lights, motion and sound with the early introduction of numbers, letters, shape and color recognition, all at a value price. These products carry the Good Housekeeping Seal of Approval®. In 2001, we introduced a line of musical toys in conjunction with Baby Genius, the marketer of a popular line of music-oriented CDs and home videos whose aim is to stimulate the development of young children through music.

In addition to creating products internally, we often acquire products and concepts from numerous toy inventors with whom we have ongoing relationships. License agreements for products and concepts call for royalties ranging from 1% to 6% of net sales, and some may require minimum guarantees and advances. Both development of internally-created items and acquiring items are ongoing efforts. In either case, it may take as long as nine months for an item to reach the market. As part of an effort to keep the product line fresh and to extend the life of the item, we create new packaging, change sound chips and change product colors from time to time.

Plush toys

We entered this category by licensing for reintroduction Pound Puppies and have since expanded our offerings with the internally developed Limbo Legs, a collection of 6 inch and 12 inch long-legged animals in a variety of colors and fabrics.

Foam puzzle mats and playsets

The acquisition of Berk added the foam toy category to our business. We incorporated this new toy category into our Child Guidance product line, based on the demographics and target market for foam toy products. This line further expanded the breadth of our Child Guidance brand. The foam toy products include puzzle mats featuring licensed characters, such as *Winnie the Pooh*, *Blue s Clues*, *Barney*, *Teletubbies* and *Sesame Street*, among others, as well as letters of the alphabet and numbers. The inter-locking puzzle pieces can also be used to build houses and other

Table of Contents

play areas. Other products include foam puzzles of the United States, foam vehicles and outdoor foam products.

Fashion and Mini Dolls and Related Accessories

We produce various proprietary and licensed fashion and mini dolls and accessories for children between the ages of three and 10. The proprietary product lines include 11 1/2 inch fashion dolls customized with high-fashion designs that correspond with particular holidays, events or themes, and fashion dolls based on children's classic fairy tales and holidays. We also produce licensed 15 1/2 inch dolls based on the fashion magazine *Elle*, and 11 1/2 inch dolls based on the feature films, *Charlie's Angels* and *Josie and the Pussycats*. These dolls feature our new patent-pending skeleton with more realistic features and movement. We also have an agreement with Disney Stores to manufacture a full line of dolls under private label which feature Disney Princesses and classic Disney characters.

Our in-house product developers originate the design and functionality of most of our fashion dolls. In many cases, they work with retailers and incorporate their input on doll characteristics, packaging and other design elements to create exclusive product lines for them.

World Wrestling Federation Video Games

In June 1998, we formed a joint venture with THQ, a developer, publisher and distributor of interactive entertainment software for the leading hardware game platforms in the home video game market. The joint venture entered into a license agreement with World Wrestling Federation Entertainment under which it acquired the exclusive worldwide right to publish *World Wrestling Federation* video games on all hardware platforms. The games are designed, developed, manufactured and distributed by THQ. Through June 30, 2006, we are entitled to receive a guaranteed preferred return at varying rates of net sales of the video games depending on the cumulative unit sales and platform of each particular game. After June 30, 2006, the amount of the preferred return will be subject to renegotiation between THQ and us. The minimum preferred return to be distributed to us in each of the years in the period ending December 31, 2003 is \$2.6 million per year. THQ is entitled to receive the balance of the profits. The term of the license agreement expires on December 31, 2009, subject to a right of the joint venture to renew the license for an additional five years under various conditions.

The joint venture currently publishes titles for the Sony PlayStation and PlayStation 2, Nintendo 64 consoles, hand-held Nintendo Game Boy Color and Advance and personal computers (PCs). The joint venture launched its first products, a video game for the Nintendo 64 platform and a video game for GameBoy Color, in November 1999. It will also publish titles for new hardware platforms, such as Microsoft Xbox and Nintendo Game Cube, when and as they are introduced to the market and have established a sufficiently installed base to support new software. These titles are marketed to our existing customers as well as to game, electronics and other specialty stores, such as Electronics Boutique and Best Buy.

Under non-exclusive licenses with Sony, Nintendo, Sega and Microsoft held by THQ, THQ arranges for the manufacture of the CD-ROMs and cartridges. No other licenses are required for the manufacture of the PC titles.

Wrestling video games have demonstrated consistent popularity, with five of our wrestling-theme video games each having sold in excess of 1 million units in 1999, 2000 and 2001, at retail prices ranging from approximately \$42 to \$60. We believe that the success of the *World Wrestling Federation* titles is dependent on the graphic look and feel of the software, the depth and variation

Table of Contents

of game play and the popularity of the World Wrestling Federation. We believe that as a franchise property, the *World Wrestling Federation* titles will have brand recognition and sustainable consumer appeal, which may allow the joint venture to use titles over an extended period of time through the release of sequels and extensions and to re-release such products at different price points in the future. In 2001, our PlayStation title SmackDown was re-released as a greatest hit.

The joint venture uses external software developers to conceptualize and develop titles. These developers receive advances based on specific development milestones and royalties in excess of the advances based on a fixed amount per unit sold or on a percentage, typically ranging from 8% to 12%, of net sales. Upon completion of development, each title is extensively play-tested by us and THQ and sent to the manufacturer and licensor for their review and approval.

Sales, Marketing and Distribution

We sell all of our products through our own in-house sales staff and independent sales representatives. Purchasers of our products include toy and mass-market retail chain stores, department stores, drug and grocery store chains, club stores, toy specialty stores and wholesalers. The *Road Champs*, *Flying Colors* and Pentech product lines are also sold to smaller hobby shops, specialty retailers and corporate accounts, among others. Our five largest customers are Target, Kmart, Toys R Us, Wal-Mart, and Kay Bee Toys, which accounted for approximately 63.2% of our net sales in 2000 and 54.7% of our net sales in 2001. Except for purchase orders relating to products on order, we do not have written agreements with our customers. Instead, we generally sell products to our customers pursuant to letters of credit or, in some cases, on open account with payment terms typically varying from 30 to 90 days. From time to time, we allow our customers credits against future purchases from us in order to facilitate their retail markdown and sales of slow-moving inventory. We also sell through e-commerce sites, including Toysrus.com.

We contract the manufacture of most of our products to unaffiliated manufacturers located in China. We sell the finished products on a letter of credit basis or on open account to our customers, who take title to the goods in Hong Kong or China. These methods allow us to reduce certain operating costs and working capital requirements. A portion of our sales, originate in the United States, so we hold certain inventory in our warehouse and fulfillment facilities. To date, substantially all of our sales have been to domestic customers. We intend to expand distribution of our products into foreign territories and, accordingly, we have (1) acquired Kidz Biz, a United Kingdom-based distributor of toy and related products, (2) engaged representatives to oversee sales in certain territories, (3) engaged distributors in certain territories, such as Funtastic in Australia, and (4) established direct relationships with retailers in certain territories.

We establish reserves for sales allowances, including promotional allowances and allowances for anticipated defective product returns, at the time of shipment. The reserves are determined as a percentage of net sales based upon either historical experience or on estimates or programs agreed upon by our customers.

We obtain, directly, or through our sales representatives, orders for our products from our customers and arrange for the manufacture of these products as discussed below. Cancellations are generally made in writing, and we take appropriate steps to notify our manufacturers of these cancellations.

We maintain a full-time sales and marketing staff, many of whom make on-site visits to customers for the purpose of showing product and soliciting orders for products. We also retain a number of independent sales representatives to sell and promote our products, both domestically

Table of Contents

and internationally. Together with retailers, we sometimes test the consumer acceptance of new products in selected markets before committing resources to large-scale production.

We advertise our products in trade and consumer magazines and other publications, market our products at major and regional toy trade shows, conventions and exhibitions and carry on cooperative advertising with toy retailers and other customers. We produce and broadcast television commercials for our *World Wrestling Federation* action figure line as well as for some of our *Flying Colors* and *Road Champs* extreme sports products. We may also advertise some of our other products on television, if we expect that the resulting increase in our net sales will justify the relatively high cost of television advertising.

Outside of the United States, we currently sell our products primarily in Canada, Great Britain, Latin America, Australia, Japan and South Africa. Sales of our products abroad accounted for approximately \$22.5 million, or 8.9% of our net sales, in 2000 and approximately \$40.0 million, or 14.1% of our net sales, in 2001. We believe that foreign markets present an attractive opportunity, and we plan to intensify our marketing efforts and expand our distribution channels abroad.

Product Development

Each of our product lines has an in-house manager responsible for product development, including identifying and evaluating inventor products and concepts and other opportunities to enhance or expand existing product lines or to enter new product categories. In addition, we create proprietary products, the principal source of products for our fashion doll line, and products to more fully exploit our concept and character licenses. While we do have the capability to create and develop products from inception to production, we generally use third parties to provide a substantial portion of the sculpting, sample making, illustration and package design required for our products in order to accommodate our increasing product innovations and introductions. Typically, the development process takes from three to nine months to culminate in production of the products for shipment to our customers.

We employ a staff of designers for our *Flying Colors* product lines. We generally acquire our other product concepts from unaffiliated third parties. If we accept and develop a third party's concept for new toys, we generally pay a royalty on the toys developed from this concept that are sold, and may, on an individual basis, guarantee a minimum royalty. Royalties payable to developers generally range from 1% to 6% of the wholesale sales price for each unit of a product sold by us. We believe that utilizing experienced third-party inventors gives us access to a wide range of development talent. We currently work with numerous toy inventors and designers for the development of new products and the enhancement of existing products. We believe that toy inventors and designers have come to appreciate our practice of acting quickly and decisively to acquire and market licensed products. In addition, we believe that our experience in the toy industry, our flexibility and our recent success in developing and marketing products make us more attractive to toy inventors and developers than some of our competitors.

Safety testing of our products is done at the manufacturers' facilities by an engineer employed by us or independent third-party contractors engaged by us, and is designed to meet safety regulations imposed by federal and state governmental authorities. We also monitor quality assurance procedures for our products for safety purposes.

Manufacturing and Supplies

Our products are currently produced by manufacturers which we choose on the basis of quality, reliability and price. Consistent with industry practice, the use of third-party manufacturers enables us to avoid incurring fixed manufacturing costs. All of the manufacturing services

Table of Contents

performed overseas for us are paid for either by letter of credit or on open account with the manufacturers. To date, we have not experienced any material delays in the delivery of our products; however, delivery schedules are subject to various factors beyond our control, and any delays in the future could adversely affect our sales. Currently, we have ongoing relationships with approximately 20 manufacturers. We believe that alternative sources of supply are available, although we cannot assure you that adequate supplies of manufactured products can be obtained.

Although we do not conduct the day-to-day manufacturing of our products, we participate in the design of the product prototype and production tooling and molds for our products and we seek to ensure quality control by actively reviewing the production process and testing the products produced by our manufacturers. We employ quality control inspectors who rotate among our manufacturers' factories to monitor production.

The principal raw materials used in the production and sale of our toy products are zinc alloy, plastics, plush, printed fabrics, paper products and electronic components, all of which are currently available at reasonable prices from a variety of sources. Although we do not manufacture our products, we own the molds and tooling used in the manufacturing process, and these are transferable among manufacturers if we choose to employ alternative manufacturers. Molds and tooling represents substantially all of our long-lived assets, and amounted to \$14.4 million in 2000 and \$10.7 million in 2001. Substantially all of these assets are located in China.

Trademarks and Copyrights

Most of our products are produced and sold under trademarks owned by or licensed to us. We typically register our properties, and seek protection under the trademark, copyright and patent laws of the United States and other countries where our products are produced or sold. These intellectual property rights can be significant assets. Accordingly, while we believe we are sufficiently protected, the loss of some of these rights could have an adverse effect on our business, financial condition and results of operations.

Competition

Competition in the toy industry is intense. Many of our competitors have greater financial resources, larger sales and marketing and product development departments, stronger name recognition and longer operating histories and benefit from greater economies of scale. These factors, among others, may enable our competitors to market their products at lower prices or on terms more advantageous to customers than those we could offer for our competitive products. Competition often extends to the procurement of entertainment and product licenses, as well as to the marketing and distribution of products and the obtaining of adequate shelf space. Competition may result in price reductions, reduced gross margins and loss of market share, any of which could have a material adverse effect on our business, financial condition and results of operations. In each of our product lines we compete against one or both of the toy industry's two dominant companies, Mattel and Hasbro. In addition, we compete, in our *Flying Colors* and Pentech product categories, with Rose Art Industries, Hasbro (Play-doh) and Binney & Smith (Crayola), and, in our toy vehicle lines, with Racing Champions. We also compete with numerous smaller domestic and foreign toy manufacturers, importers and marketers in each of our product categories. We expect that the joint venture's principal competition in the video game market is Electronic Arts, Activision and Acclaim Entertainment.

Seasonality and Backlog

Sales of toy products are seasonal. In 2001, approximately 54.3% our net sales were made in the third and fourth quarters. Generally, the first quarter is the period of lowest shipments and sales in our business and the toy industry generally and therefore the least profitable due to various fixed

Table of Contents

costs. Seasonality factors may cause our operating results to fluctuate significantly from quarter to quarter. However, Pentech's writing instrument and activity products may be counter-seasonal to the toy industry seasonality due to the higher volume generally shipped for back-to-school beginning in the second quarter. Our results of operations may also fluctuate as a result of factors such as the timing of new products (and expenses incurred in connection therewith) introduced by us or our competitors, the advertising activities of our competitors, delivery schedules set by our customers and the emergence of new market entrants. We believe, however, that the low retail price product lines that we sell may be less subject to seasonal fluctuations than higher priced toy products.

We ship products in accordance with delivery schedules specified by our customers, which usually request delivery of their products within three to six months of the date of their orders. Because customer orders may be canceled at any time without penalty, our backlog may not accurately indicate sales for any future period.

Government and Industry Regulation

Our products are subject to the provisions of the Consumer Product Safety Act (CPSA), the Federal Hazardous Substances Act (FHSA), the Flammable Fabrics Act (FFA) and the regulations promulgated thereunder. The CPSA and the FHSA enable the Consumer Products Safety Commission to exclude from the market consumer products that fail to comply with applicable product safety regulations or otherwise create a substantial risk of injury, and articles that contain excessive amounts of a banned hazardous substance. The FFA enables the Consumer Products Safety Commission to regulate and enforce flammability standards for fabrics used in consumer products. The Consumer Products Safety Commission may also require the repurchase by the manufacturer of articles. Similar laws exist in some states and cities and in various international markets. We maintain a quality control program designed to ensure compliance with all applicable laws. In addition, many of our *Child Guidance* products are sold under the Good Housekeeping Seal of Approval®. To qualify for this designation, our products are tested by Good Housekeeping to ensure compliance with its product safety and quality standards.

Employees

As of July 8, 2002, we employed 321 persons, all of whom are full-time employees, including four executive officers. We employed 233 in the United States, 16 in the United Kingdom, 51 in Hong Kong and 21 in China. Of these employees, 67 were engaged in sales and marketing, 71 in product development, 127 in operations and 55 in administration. We believe that we have good relationships with our employees. None of our employees is represented by a union.

Environmental Issues

We are subject to legal and financial obligations under environmental, health and safety laws in the United States and in other jurisdictions where we operate. We are not currently aware of any material environmental liabilities associated with any of our operations.

Item 2. *Properties*

Our principal executive offices occupy approximately 17,000 square feet of space in Malibu, California under a lease expiring on February 28, 2008. We have a lease, expiring August 31, 2007, for approximately 11,000 square feet of additional office space in Malibu, California which contains our design offices. We lease showroom and office space of approximately 8,000 square feet at the International Toy Center in New York City. We also have leased office and showroom space of approximately 5,000 square feet in Hong Kong from which we oversee our China-based third-party manufacturing operations, 318,000 square feet of warehouse space in City of Industry,

California, 10,000 square feet of office space in Surrey, England and approximately 100,000 square feet of

Table of Contents

warehouse space in New Brunswick, New Jersey. In connection with our acquisition of Toymax, we have assumed various leases for office, warehouse and showroom space. Relating to Toymax, we occupy approximately 27,000 square feet of office space in Plainview, New York under a lease expiring on April 30, 2004. We lease showroom and office space of approximately 14,500 square feet at the International Toy Center in New York City. We occupy approximately 25,000 square feet of office and warehouse space in Clinton, Connecticut under a lease expiring September 30, 2007 from which the operations of Toymax's Go Fly a Kite division are carried out. We also lease an additional 4,800 square feet of office space in Hong Kong. We believe that our facilities in the United States, Hong Kong and England are adequate for our reasonably foreseeable future needs.

Item 3. Legal Proceedings

On or about March 26, 2001, Rose Art Industries, Inc. (Rose Art) and Licensing International, Ltd. commenced an action against us in the United States District Court for the District of New Jersey in which they allege our willful infringement of a patent owned by Licensing International and licensed to Rose Art through our production and sale of our Zyrofoam modeling compound. The plaintiffs seek injunctive relief, monetary damages in an unspecified amount, together with interest thereon, and reasonable attorneys' fees. We believe that their claims are without merit and we intend vigorously to defend against their action. On or about April 30, 2001, we filed an answer to their complaint in which we assert various defenses and counterclaims, including among others that their patent is invalid and unenforceable and that, in any case, the manufacture, use and sale of our product does not infringe their patent. Accordingly, we request the court to dismiss the complaint, to declare our product non-infringing and the subject patent invalid and/or unenforceable, and to award us our litigation costs. In our answer, we also allege Rose Art's infringement of one of our patents and seek injunctive relief, monetary damages in an unspecified amount and reasonable attorneys' fees. While these proceedings are in the discovery phase, the parties have been actively engaged in negotiations to resolve the disputed issues and have agreed in principle on the terms of a comprehensive settlement. However, we cannot be certain that the proposed settlement will be realized and, accordingly, we are unable to predict the outcome of the action or its impact on our business, financial condition or results of operations. We are a party to, and certain of our property is the subject of, various pending claims and legal proceedings that routinely arise in the ordinary course of our business, but we do not believe that any of these claims or proceedings will have a material effect on our business, financial condition or results of operations.

Item 4. Submission of Matters to a Vote of Security Holders

No matter was submitted during the fourth quarter of 2001 to a vote of our security holders.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity and Related Stockholder Matters****Market Information**

Our common stock is traded on the Nasdaq National Market under the symbol JAKK. The following table sets forth, for the periods indicated, the range of high and low sales prices for our common stock on the Nasdaq National Market.

	Price Range of Common Stock	
	High	Low
2000:		
First quarter	\$25.19	\$13.94
Second quarter	25.00	13.25
Third quarter	20.75	9.00
Fourth quarter	10.56	7.00
2001:		
First quarter	15.00	8.00
Second quarter	19.44	8.78
Third quarter	21.80	12.60
Fourth quarter	25.38	12.44
2002:		
First quarter	23.70	15.85
Second quarter	23.49	15.91
Third quarter (through July 8, 2002)	17.00	14.35

On July 8, 2002, the last sale price of our common stock reported on the Nasdaq National Market was \$15.85 per share.

Security Holders

As of July 8, 2002, there were approximately 106 holders of record of our common stock.

Dividends

We have never paid any cash dividends on any of our common stock. The agreements applicable to our Line of Credit (see the discussion in Item 7 below) prohibit the payment of dividends on our common stock (except for dividends payable in shares of our common stock or other equity security). In any event, we currently intend to retain our future earnings, if any, to finance the growth and development of our business, and, accordingly, we do not plan to pay any cash dividends on our common stock in the foreseeable future.

Recent Sales of Unregistered Securities

On December 27, 2001, in connection with our acquisition of the Kidz Biz companies (see the discussion in Item 7 below), we issued 308,992 shares of our common stock to the three shareholders of the acquired companies. We issued these shares without registering them under the Securities Act of 1933 in reliance upon the exemption provided in Section 4(2) of that Act for transactions by an issuer not involving any public offering.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors. You should read this section in conjunction with our consolidated financial statements and the related notes (included in Item 8).

Overview

JAKKS was founded to design, develop, produce and market children's toys and related products. We commenced business operations on July 1, 1995 when we assumed operating control over the toy business of Justin Products Limited (Justin) which consisted primarily of fashion dolls and accessories and electronic products for children.

One of our key strategies has been to grow through the acquisition or licensing of product lines, concepts and characters. Since our founding, we have broadly expanded our product lines to include many diverse products including some based on licensed characters and properties, such as *World Wrestling Federation* action figures and accessories.

We acquired *Road Champs* in February 1997, and have included the results of operations of *Road Champs* from February 1, 1997, the effective date of the acquisition. We acquired the *Child Guidance* and *Remco* trademarks in October 1997, both of which contributed to operations nominally in 1997, but contributed more significantly to operations commencing in 1998. We acquired Berk in June 1999 and have included the results of operations of Berk since June 29, 1999. In October 1999, we acquired Flying Colors Toys. The *Flying Colors* product lines contributed to operations beginning in the fourth quarter of 1999. In July 2000, we acquired Pentech International whose products include writing instruments and activity items. The Pentech products contributed nominally to operations beginning in the second quarter of 2000.

Our products currently include (1) action figures and accessories featuring licensed characters, principally from the *World Wrestling Federation*, (2) *Flying Colors* molded plastic activity sets, compound playsets and lunch boxes, (3) Wheels division products, including *Road Champs* die-cast collectible and toy vehicles and *Remco* toy vehicles and role-play toys and accessories, (4) Pentech writing instruments and activity products, (5) *Child Guidance* infant and pre-school electronic toys, toy foam puzzle mats and blocks, activity sets and outdoor products and (6) fashion dolls and related accessories.

We have a fifty percent interest in a joint venture with THQ, a developer, publisher and distributor of interactive entertainment software, and the joint venture licensed the rights from World Wrestling Federation Entertainment to publish *World Wrestling Federation* electronic video games on all platforms. The first games produced under this license, which expires initially December 31, 2009 and has a five-year renewal option, were released in November 1999. Through June 30, 2006, we are entitled to receive a guaranteed preferred return at varying rates of net sales of the video games depending on the cumulative unit sales and platform of each particular game, which we accrue in the quarter the games are sold. THQ retains the financial risk of the joint venture and is responsible for the day-to-day operations, including the development, sales and distribution of the licensed games for which they are entitled to receive the balance of any profits. For periods after June 30, 2006, the amount of the preferred return will be subject to renegotiation

Table of Contents

between THQ and us. Distributions of the preferred return from the joint venture contributed significantly to our pre-tax income, representing 11.9% of pre-tax income in 1999, 39.4% in 2000 and 17.6% in 2001. The annual minimum preferred return to be distributed to us by the joint venture during each of the years in the period ending December 31, 2003 is \$2.6 million per year. We expect our aggregate return over this period to be significantly in excess of this amount, although we cannot predict with certainty that expected levels of return will be achieved and, in any case, we anticipate substantial fluctuations in the amount of the preferred return distributed to us from year to year. The amount of our preferred return in any year will be subject to various factors, including the number of games released, life cycle of hardware platforms, market conditions and changes in consumer interests.

In general, we acquire products or product concepts from others or we engage unaffiliated third parties to develop our own products, thus minimizing operating costs. Royalties payable to our developers generally range from 1% to 6% of the wholesale price for each unit of a product sold by us. We expect that outside inventors will continue to be a source of new products in the future. We also generate internally new product concepts, for which we pay no royalties.

We contract the manufacture of most of our products to unaffiliated manufacturers located in China. We sell the finished products on a letter of credit basis or on open account to our customers, who take title to the goods in Hong Kong or China. These methods allow us to reduce certain operating costs and working capital requirements. A portion of our sales originate in the United States, so we hold certain inventory in our warehouse and fulfillment facilities. To date, substantially all of our sales have been to domestic customers. We intend to expand distribution of our products into foreign territories and, accordingly, we have (1) acquired Kidz Biz, a United Kingdom based distributor of toys and related products that will serve as our European headquarters, (2) engaged representatives to oversee sales in certain territories, (3) engaged distributors in certain territories, such as Funtastic in Australia, and (4) established direct relationships with retailers in certain territories.

We establish reserves for sales allowances, including promotional allowances and allowances for anticipated defective product returns, at the time of shipment. The reserves are determined as a percentage of net sales based upon either historical experience or on estimates or programs agreed upon by our customers.

Our cost of sales consists primarily of the cost of goods produced for us by unaffiliated third-party manufacturers, royalties earned by licensors on the sale of these goods and amortization of the tools, dies and molds owned by us that are used in the manufacturing process. Other costs include inbound freight and provisions for obsolescence. Significant factors affecting our cost of sales as a percentage of net sales include (1) the proportion of net sales generated by various products with disparate gross margins, (2) the proportion of net sales made domestically, which typically carry higher gross margins than sales made in Hong Kong, and (3) the effect of amortizing the fixed cost components of cost of sales, primarily amortization of tools, dies and molds, over varying levels of net sales.

Selling, general and administrative expenses include costs directly associated with the selling process, such as sales commissions, advertising and travel expenses, as well as general corporate expenses, goodwill and trademark amortization and product development. We have recorded goodwill of approximately \$96.5 million and trademarks of approximately \$13.9 million in connection with acquisitions made to date. Goodwill has been amortized over a 30-year period, while trademark acquisition costs have been amortized over periods ranging from 5 to 30 years.

Table of Contents

Beginning in fiscal 2002, goodwill and certain intangible assets will be written down on an impairment basis where losses in value will be recorded when and as material impairment has occurred in the underlying assets.

Results of Operation

The following table sets forth, for the periods indicated, certain statement of operations data as a percentage of net sales.

	Years Ended December 31,				
	1997	1998	1999	2000	2001
Net sales	100.0%	100.0%	100.0%	100.0%	100.0%
Cost of sales	61.7	61.0	58.6	59.4	57.8
Gross profit	38.3	39.0	41.4	40.6	42.2
Selling, general and administrative expenses	28.4	28.2	27.8	31.9	31.5
Acquisition shut-down and product recall costs				0.5	0.4
Income from operations	9.9	10.8	13.6	8.2	10.3
Profit from Joint Venture			(2.0)	(6.3)	(2.3)
Interest, net	1.0	0.4	(0.9)	(1.5)	(0.7)
Other (income) expense, net	0.7	0.7			
Income before income taxes	8.2	9.7	16.5	16.0	13.3
Provision for income taxes	1.6	2.2	4.5	4.6	3.4
Net income	6.6%	7.5%	12.0%	11.4%	9.9%

Years Ended December 31, 2001 and 2000

Net Sales. Net sales increased \$32.0 million, or 12.7%, to \$284.3 million in 2001 from \$252.3 million in 2000. The growth in net sales was due primarily to the continuing growth in sales of our Flying Colors product and an increase in sales of our World Wrestling Federation wrestling products, as well as the addition of Pentech products, which began contributing to operations in August 2000, and the introduction of our products based on the Battlebots television show though offset by a decrease in sales of our Doll products and our Wheels products, consisting primarily of our Road Champs die-cast toy and collectible vehicles including BXS die-cast bicycle, MXS die-cast motorcycles and other extreme sports products.

Gross Profit. Gross profit increased \$17.7 million, or 17.3%, to \$120 million in 2001, or 42.2% of net sales, from \$102.4 million, or 40.6% of net sales, in 2000. The overall increase in gross profit was attributable to the increase in net sales and the increase in the gross profit margin. The increase in gross profit margin of 1.6% of net sales is primarily attributable to the decrease in royalty expense as a percentage of net sales due to changes in the product mix and lower product costs, which was partially offset by an increase in amortization expense relating to molds and tools used in the manufacture of our products.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were \$89.6 million in 2001 and \$80.4 million in 2000, constituting 31.5% and 31.9% of net sales, respectively. The overall increase of \$9.1 million in such costs in 2001 was due in large part to a \$5.0 million dollar reserve on accounts receivable relating to the Chapter 11 bankruptcy filing of Kmart, which was filed in January of 2002, and the increase in net sales with its

proportionate

Table of Contents

impact on variable selling costs such as freight and shipping related expenses, sales commissions, cooperative advertising and travel expenses, among others. The decrease as a percentage of net sales is primarily attributable to the fixed nature of certain of these expenses with a concurrent increase in net sales. We produced and aired television commercials in support of several of our products, including World Wrestling Federation action figures, Road Champs extreme sports products and Flying Colors products in 2000 and 2001. From time to time, we may increase our advertising efforts, if we deem it is appropriate for particular products.

Acquisition Shut-down and Other Costs. Acquisition shut-down and other costs in 2001 relate to shut-down costs, including lease termination, relocation and consulting fees and expenses, of certain operations of Pentech, acquired in 2000, and such costs in 2000 relate to shut-down costs, including lease termination, relocation, and consulting fees and expenses of certain operations of Flying Colors, acquired in 1999. Operations impacted by both shut-downs were sales, design, distribution, and administration. Total Pentech costs is comprised of \$0.3 million relating to lease terminations and abandonments, \$0.2 million in consulting fees and expenses incurred to facilitate the integration, \$0.4 million relating to relocation expense, and \$0.1 million relating to the abandonments of other assets. Twenty-one Pentech employees received severance totaling \$0.4 million, that was accrued in the fourth quarter of 2000 and was fully paid out by June 30, 2001. The integration of Pentech was substantially completed in the second quarter of 2001 and related costs are expected to be nominal in future quarters. In 2000, total Flying Colors costs is comprised of \$0.2 million relating to lease terminations and abandonments and \$0.3 million relating to relocation expense. The integration of Flying Colors was completed in 2000. Additionally, 2000 includes \$0.6 million relating to the recall of one of our products.

Profit from Joint Venture. Profit from our joint venture with THQ decreased in 2001 due to a decrease in our preferred return resulting from fewer releases of *World Wrestling Federation* video games by our joint venture in 2001 than in 2000. In 2001, the joint venture released two Nintendo GameBoy titles, which have lower unit sales and sales prices than the other game platforms, and one Sony Play Station 2 title along with modest carryover sales of titles released in 2000 and earlier, as compared to 2000, in which the joint venture released a total of four new titles consisting of two Sony Play Station titles, one Nintendo 64 title and one Sega Dreamcast title in addition to strong carryover sales of the two 1999 releases. Profit from the joint venture contributed significantly to our pre-tax profit, representing 39.4% of pre-tax income in 2000 and 17.6% in 2001. Through June 30, 2006, we are entitled to receive a guaranteed preferred return at varying rates of net sales of the video games depending on the cumulative unit sales and platform of each particular game, and after June 30, 2006, the amount of the preferred return is subject to renegotiation between THQ and us. The minimum preferred return to be distributed to us by the joint venture during each of the years in the period ending December 31, 2003 is \$2.6 million per year. We expect our aggregate return over the remaining term of the license agreement ending December 31, 2009 to be significantly in excess of this amount, although we cannot predict with certainty that expected levels of return will be achieved and, in any case, we anticipate substantial fluctuations in the amount of the preferred return distributed to us from year to year.

Interest, Net. Interest income decreased in 2001 due to lower average cash balances during 2001 than in 2000 as a result of significant disbursements made in the third and fourth quarters of 2000 related to the acquisition of Pentech and the repurchase by the Company of its common stock. Interest expense was nominal in 2000 and 2001.

Provision for Income Taxes. Provision for income taxes included Federal, state and foreign income taxes in 2000 and 2001, at effective tax rates of 29.0% in 2000 and 25.8% in 2001,

Table of Contents

benefiting from a flat 16.5% Hong Kong Corporation Tax on our income arising in, or derived from, Hong Kong. As of December 31, 2001, we had deferred tax assets of approximately \$0.4 million for which no allowance has been provided since, in the opinion of management, realization of the future benefit is probable. In making this determination, management considered all available evidence, both positive and negative, as well as the weight and importance given to such evidence.

Years Ended December 31, 2000 and 1999

Net Sales. Net sales increased \$68.6 million, or 37.3% to \$252.3 million in 2000 from \$183.7 million in 1999. The significant growth in net sales was due primarily to the continuing growth in our Wheels division, consisting primarily of our Road Champs die-cast toy and collectible vehicles with the launch of the lines of extreme sports products, including our BXS die-cast bicycles, fashion and holiday dolls, as well as the addition of Flying Colors products, which began contributing to operations beginning in the fourth quarter of 1999, and Pentech products, which began contributing to operations in August 2000, offset by a decrease in sales of our World Wrestling Federation wrestling products.

Gross Profit. Gross profit increased \$26.3 million, or 34.6%, to \$102.4 million in 2000, or 40.6% of net sales, from \$76.1 million, or 41.4% of net sales, in 1999. The overall increase in gross profit was attributable to the significant increase in net sales. Gross profit margin decreased slightly mainly due to an increase in the amortization expense of molds and tools used in the manufacture of our products and royalty expense as a percentage of net sales due to changes in the product mix and the launch of a larger number of products in 2000.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were \$80.4 million in 2000 and \$51.1 million in 1999, constituting 31.9% and 27.8% of net sales, respectively. The overall significant increase of \$29.3 million in such costs was due to costs incurred in support of the Company's development, marketing and distribution of products under its recently acquired Flying Colors and Pentech brands. The overall dollar increase was due to the significant increase in net sales with its proportionate impact on variable selling costs such as freight and shipping related expenses, sales commissions, cooperative advertising and travel expenses, among others. We produced television commercials in support of several of our products, including World Wrestling Federation action figures, Flying Colors Gooze and It's a Girl Thing in 1999 and 2000 and we increased our overall media buys in 2000. From time to time, we may increase our advertising efforts, including the use of more expensive advertising media, such as television, if we deem it appropriate for particular products.

Acquisition Shut-down and Product Recall Costs. These expenses in 2000 consisted mainly of costs related to the lease termination of certain Flying Colors facilities and other related shut-down costs, and costs related to the recall of one of our products. No such expenses were incurred in 1999.

Profit from Joint Venture. Beginning in the fourth quarter of 1999, we began to earn our preferred return on the sale of *World Wrestling Federation* video games by our joint venture with THQ with the release of two games consisting of one Nintendo 64 title and one Nintendo GameBoy Color title, which as lower unit sales and sales price than the other game platforms, whereas in 2000, four titles were released plus strong carryover sales of the two 1999 releases. The 2000 releases consisted of two Sony Play Station titles and one each for Nintendo 64 and Sega Dream cast. Profit from the joint venture contributed significantly to our pre-tax income,

Table of Contents

representing 11.9% of pre-tax income in 1999 and 39.4% in 2000. The minimum preferred return to be distributed to us by the joint venture during each of the years in the period ending December 31, 2003 is \$2.6 million per year. We expect our aggregate return over the remaining term of the license agreement ending December 31, 2009 to be significantly in excess of this amount, although we cannot predict with certainty that expected levels of return will be achieved and, in any case, we anticipate substantial fluctuations in the amount of the preferred return distributed to us from year to year.

Interest, Net. We had significantly higher average cash balances during 2000 than in 1999 due to the net proceeds from the sale of our common stock in December 1999. In addition, we assumed certain interest-bearing obligations in 2000 in conjunction with the Pentech acquisition and we had convertible debentures outstanding in 1999.

Other (Income) Expense, Net. In 1999 and 2000, only nominal amounts of Other Income were recorded.

Provision for Income Taxes. Provision for income taxes included Federal, state and foreign income taxes in 1999 and 2000 at effective tax rates of 27.5% in 1999 and 29.0% in 2000, benefiting from a flat 16.5% Hong Kong Corporation Tax on our income arising in, or derived from, Hong Kong. As of December 31, 2000, we had deferred tax assets of approximately \$0.4 million for which no allowance has been provided since, in the opinion of management, realization of the future benefit is probable. In making this determination, management considered all available evidence, both positive and negative, as well as the weight and importance given to such evidence.

Quarterly Fluctuations and Seasonality

We have experienced significant quarterly fluctuations in operating results and anticipate these fluctuations in the future. The operating results for any quarter are not necessarily indicative of results for any future period. Our first quarter is typically expected to be the least profitable as a result of lower net sales but substantially similar fixed operating expenses. This is consistent with the performance of many companies in the toy industry.

The following table presents our unaudited quarterly results for the years indicated. The seasonality of our business is reflected in this quarterly presentation.

	1999				2000				2001			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	First Quarter	Second Quarter	Third Quarter	Fourth Quarter

During the second quarter of 2000, we recorded a charge which impacted operating income by approximately \$1.4 million relating to the recall of one of our products.

Table of Contents

During the fourth quarter of 2001, we recorded a charge of \$5.0 million to bad debt impacting operating income relating to the bankruptcy filing of one of our customers, Kmart.

Liquidity and Capital Resources

As of December 31, 2001, we had working capital of \$116.5 million, as compared to \$86.9 million as of December 31, 2000. This increase was primarily attributable to operating activities.

Operating activities provided net cash of \$13.4 million, net of the purchase of marketable securities of \$23.5 million, in the year ended December 31, 2001 as compared to \$30.0 million, including the sale of marketable securities of \$25.7 million, in 2000. Net cash was provided primarily by net income and non-cash charges, such as depreciation and amortization and recognition of compensation expense from stock option grants, as well as the increases in accrued expenses and deferred income taxes and decrease in the preferred return due from the joint venture, which were offset in part by increases in accounts receivable and inventory and decreases in the reserve for sales returns and allowances and income taxes payable. As of December 31, 2001, we had cash and cash equivalents of \$25.0 million and marketable securities of \$37.1 million.

Operating activities provided net cash of \$30.0 million in the year ended December 31, 2000 as compared to having used \$30.4 million in 1999. Net cash was provided primarily by net income and non-cash charges, such as depreciation and amortization and recognition of compensation expense from stock option grants, as well as increases in accounts payable, income taxes payable and deferred income taxes, which were offset in part by increases in accounts receivable, inventory and the preferred return due from the joint venture, the purchase of marketable securities and the decrease in accrued expenses.

Our investing activities used net cash of \$19.4 million in the year ended December 31, 2001, as compared to \$47.9 million in 2000, consisting primarily of the purchase of molds and tooling used in the manufacture of our products in 2001 and 2000, and goodwill acquired in the acquisitions of Kidz Biz Ltd. and Kidz Biz Far East in 2001 and Pentech in 2000. As part of our strategy to develop and market new products, we have entered into various character and product licenses with royalties ranging from 1% to 12% payable on net sales of such products. As of December 31, 2001, these agreements required future aggregate minimum guarantees of \$11.5 million, exclusive of \$2.0 million in advances already paid.

Our investing activities used net cash of \$47.9 million in the year ended December 31, 2000, as compared to \$46.6 million in 1999, consisting primarily of the purchase of molds and tooling used in the manufacture of our products in 2000 and 1999, goodwill acquired in the acquisitions of Pentech in 2000 and Flying Colors and Berk in 1999 and the granting of loans to three officers of the Company.

Our financing activities provided net cash of \$1.8 million in the year ended December 31, 2001, compared to having used cash of \$10.4 million in 2000. In 2000, we used cash primarily to repurchase 1,493,600 shares of our common stock for a total of \$12.9 million, while cash was provided by the exercise of stock options and warrants and the assumption of debt related to the acquisition of Pentech. Net cash provided in 2001 consisted primarily of proceeds from the exercise of stock options and warrants, offset by the repayment of debt assumed in the acquisition of Pentech.

Table of Contents

Our financing activities used net cash of \$10.4 million in the year ended December 31, 2000 compared to having provided net cash of \$122.1 million in 1999. Net cash provided in 1999 consisted primarily of proceeds from the issuance of our common stock in our public offerings in May and December 1999 and the exercises of stock options and warrants, partially offset by dividends paid to holders of our Series A Cumulative Convertible Preferred Stock.

In May 1999, we received \$51.9 million in net proceeds from the sale of 3,999,844 shares of our common stock. We used substantially all of these proceeds to fund our acquisition of Flying Colors Toys. In December 1999, we received \$65.9 million in net proceeds from the sale of 2,811,111 shares of our Common Stock. These proceeds, which we invested temporarily in marketable securities and cash equivalents, were applied to our product acquisition, development, working capital and general corporate needs.

In June 1999, we purchased all the outstanding capital stock of Berk for approximately \$3.1 million in cash. Berk is a leading producer of educational toy foam puzzle mats and blocks featuring popular licensed characters and non-licensed activity sets and outdoor products.

In October 1999, we acquired Flying Colors Toys for approximately \$34.7 million in cash for the stock and paid off approximately \$17.6 million of indebtedness. We also agreed to pay an earn-out of up to \$4.5 million in each of the three twelve-month periods following the closing if gross profit of *Flying Colors* products achieve certain targeted levels during these periods. The maximum earn-out of \$4.5 million was earned in each of the earn-out periods ended September 30, 2000 and 2001. Flying Colors Toys' principal products include molded plastic activity kits, compound playsets and lunch boxes featuring licensed characters.

In July 2000, we acquired all of the outstanding capital stock of Pentech for an aggregate purchase price of approximately \$20.6 million, which was paid in cash on the closing of the transaction. In addition, we paid on the closing \$10.0 million to pay down certain indebtedness of Pentech and assumed liabilities of approximately \$25.5 million. Pentech designs, produces and markets licensed pens, markers, pencils, and other writing instruments, craft and activity kits, and related stationery products.

In October 2001, we secured a syndicated line of credit totaling \$50.0 million with a consortium of banks led by Bank of America, N.A. (Line of Credit). The Line of Credit will be available for future acquisitions and working capital and is secured by a lien on substantially all of our assets and contains customary financial and non-financial covenants which require us to maintain a minimum net worth and limit our ability to incur additional indebtedness, pay cash dividends or make distributions, sell assets and enter into certain mergers or acquisitions. We are required to not have any outstanding borrowings in excess of \$30.0 million for a period of at least 30 consecutive days during the first fiscal quarter of each year of the agreement. Amounts outstanding under this facility bear interest at 0.25% plus the greater of the Prime Rate or the Federal Funds Rate plus 0.5%, subject to adjustment based on certain financial ratios. As of December 31, 2001, we had no outstanding borrowings.

On December 27, 2001, we acquired all of the outstanding capital stock of Kidz Biz Limited, a United Kingdom company, and an affiliated Hong Kong company, Kidz Biz Far East Limited, for an aggregate purchase price of approximately \$12.4 million. Total consideration was paid on the closing of the transaction in cash in the amount of \$6.4 million and the issuance of 308,992 shares of our common stock at a value of \$6.0 million. In addition, we agreed to pay an earn-out for each of 2002, 2003, 2004 and 2005, based on the year over year increase in Kidz Biz sales, payable by delivery of up to 25,749 shares of our common stock. We also employed a former director of the

Table of Contents

Kidz Biz companies, who was one of the selling shareholders, to perform various executive and supervisory services for the Kidz Biz companies during a term ending on December 31, 2005. His base salary is £305,000 per year in the first twelve-month period of the term and £315,000 per year during the balance of the term. We also granted to him an option under our Option Plan (which is described in Item 11 below) to purchase up to 50,000 shares of our common stock at an exercise price of \$19.02. This option vests in four equal increments on December 27, 2002 and the next three anniversaries thereof and expires on December 26, 2007. Kidz Biz distributes toys and related products in the United Kingdom, Ireland and the Channel Islands.

We believe that our cash flows from operations, cash and cash equivalents on hand, marketable securities and the availability under the Line of Credit will be sufficient to meet our working capital and capital expenditure requirements and provide us with adequate liquidity to meet our anticipated operating needs for at least the next 12 months. Although operating activities are expected to provide cash, to the extent we grow significantly in the future, our operating and investing activities may use cash and, consequently, this growth may require us to obtain additional sources of financing. There can be no assurance that any necessary additional financing will be available to us on commercially reasonable terms, if at all.

Exchange Rates

Sales from our United States and Hong Kong operations are denominated in U.S. dollars and our manufacturing costs are denominated in either U.S. or Hong Kong dollars. Domestic sales from our United Kingdom operations and operating expenses of all of our operations are denominated in local currency, thereby creating exposure to changes in exchange rates. Changes in the Hong Kong dollar or British Pound/U.S. dollar exchange rate may positively or negatively affect our gross margins, operating income and retained earnings. The exchange rate of the Hong Kong dollar to the U.S. dollar has been fixed by the Hong Kong government since 1983 at HK\$7.80 to US\$1.00 and, accordingly, has not represented a currency exchange risk to the U.S. dollar. We cannot assure you that the exchange rate between the United States and Hong Kong currencies will continue to be fixed or that exchange rate fluctuations between the United States and Hong Kong and United Kingdom currencies will not have a material adverse effect on our business, financial condition or results of operations.

Recent Acquisition

On March 11, 2002, we purchased 8,100,065 shares of the common stock of Toymax International, Inc. (Toymax) from four of its stockholders. The aggregate purchase price for these shares was approximately \$24.3 million in cash and 646,384 shares of our common stock. Prior to that date, we had acquired 132,754 shares of Toymax common stock, so that, as of March 29, 2002, we owned 8,232,819 shares of Toymax common stock, representing approximately 66.8% of the outstanding shares of Toymax common stock. In connection with this acquisition, Toymax's board of directors has been reconfigured to consist of six directors designated by JAKKS and two directors who had been serving prior to the closing of the acquisition. In addition, certain of our executive officers have been installed as Toymax's senior management. To complete our acquisition of Toymax, we have entered into an Agreement of Merger with one of our wholly-owned subsidiaries (Newco) and Toymax (the Merger Agreement) pursuant to which the parties have agreed that, subject to the conditions set forth therein, including, among others, the approval by Toymax's stockholders at a meeting to be convened for such purpose, Newco will merge into Toymax in a transaction (the Merger) in which the surviving corporation will become

Table of Contents

one of our wholly-owned subsidiaries and the stockholders of Toymax, except for us, Newco or Toymax or a subsidiary thereof, will receive merger consideration consisting of \$3.00 in cash and 0.0798 share of our common stock (subject to certain contingent adjustments). Pursuant to the Merger Agreement, at the effective time of the Merger, each outstanding option to purchase Toymax common stock will terminate and the holder thereof will receive a corresponding option to purchase JAKKS common stock or, under certain circumstances, a cash payment in accordance with the formula prescribed in the Merger Agreement. We currently estimate that the merger consideration payable in the Merger (which is subject to certain conditions and contingent adjustments) will consist of approximately \$11.8 million in cash and approximately 312,500 shares of our common stock.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss that may impact our financial position, results of operations or cash flows due to adverse changes in financial and commodity market prices and rates. We are exposed to market risk in the areas of changes in United States and international borrowing rates and changes in foreign currency exchange rates. In addition, we are exposed to market risk in certain geographic areas that have experienced or remain vulnerable to an economic downturn, such as China. We purchase substantially all of our inventory from companies in China, and, therefore, we are subject to the risk that such suppliers will be unable to provide inventory at competitive prices. While we believe that, if such an event were to occur we would be able to find alternative sources of inventory at competitive prices, we cannot assure you that we would be able to do so. These exposures are directly related to our normal operating and funding activities. Historically and as of December 31, 2001, we have not used derivative instruments or engaged in hedging activities to minimize our market risk.

Interest Rate Risk

As of December 31, 2001, we do not have any outstanding balances on our Line of Credit, and we have only nominal interest-bearing obligations. Accordingly, we are not generally subject to any direct risk of loss arising from changes in interest rates.

Foreign Currency Risk

We have wholly-owned subsidiaries in Hong Kong and the United Kingdom. Sales from our United States and Hong Kong operations are denominated in U.S. dollars. However, domestic sales from the United Kingdom, purchases of inventory and operating expenses are typically denominated in local currency, thereby creating exposure to changes in exchange rates. Changes in the Hong Kong dollar or British Pound/U.S. dollar exchange rate may positively or negatively affect our gross margins, operating income and retained earnings. The exchange rate of the Hong Kong dollar to the U.S. dollar has been fixed by the Hong Kong government since 1983 at HK\$7.80 to US\$1.00 and, accordingly, has not represented a currency exchange risk to the U.S. dollar. We do not believe that near-term changes in exchange rates, if any, will result in a material effect on our future earnings, fair values or cash flows, and therefore, we have chosen not to enter into foreign currency hedging transactions. With respect to the British Pound, we will monitor its volatility frequently throughout the coming year. While we have not engaged in foreign currency hedging, we may in the future use hedging programs to reduce financial market risks if it is determined that such hedging activities are appropriate to reduce risk. We cannot assure you that this approach will be successful, especially in the event of a significant and sudden change in the value of these currencies.

Item 8. Consolidated Financial Statements and Supplementary Data

INDEPENDENT AUDITORS REPORT

The Stockholders

JAKKS Pacific, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of JAKKS Pacific, Inc. and Subsidiaries as of December 31, 2000 and 2001, and the related consolidated statements of operations, stockholders' equity and cash flows and the financial statement schedule for each of the three years in the period ended December 31, 2001. These financial statements and the financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and the financial statement schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements and schedule referred to above present fairly, in all material respects, the financial position of JAKKS Pacific, Inc. and Subsidiaries as of December 31, 2000 and 2001, and the results of their operations and cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2001**

Note 1 Principal industry

JAKKS Pacific, Inc. (the Company) is engaged in the development, production and marketing of toys and related products, some of which are based on highly-recognized entertainment properties and character licenses. The Company commenced its primary business operations in July 1995 through the purchase of substantially all of the assets of a Hong Kong toy company. The Company markets its product lines domestically and internationally.

The Company was incorporated under the laws of the State of Delaware in January 1995.

Note 2 Summary of significant accounting policies

Principles of consolidation

The consolidated financial statements include accounts of the Company and its wholly-owned subsidiaries. In consolidation, all significant inter-company balances and transactions are eliminated.

Cash and cash equivalents

The Company considers all highly liquid assets, having an original maturity of less than three months, to be cash equivalents. The Company maintains its cash in bank deposits which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. Actual future results could differ from those estimates.

Revenue recognition

Revenue is recognized upon the shipment of goods to customers. Provisions for estimated defective products, markdowns and other allowances are made at the time of sale.

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

Inventory

Inventory, which includes the ex-factory cost of goods and in-bound freight, is valued at the lower of cost (first-in, first-out) or market and consists of the following:

	December 31,	
	2000	2001
Deposits	\$ 2,829,575	\$ 82,793
Raw materials	846,436	236,206
Finished goods	26,858,815	31,704,961
	\$30,534,826	\$32,023,960

Marketable securities

Marketable securities have been categorized as trading and as a result are stated at fair value, with unrealized holding gains and losses included in earnings. At December 31, 2000 and 2001, such gains and losses were not material.

Fair value of financial instruments

The Company's cash and cash equivalents, accounts receivable and notes payable represent financial instruments. The carrying value of these financial instruments is a reasonable approximation of fair value.

Property and equipment

Property and equipment are stated at cost and are being depreciated using the straight-line method over their estimated useful lives as follows:

Office equipment	5 years
Furniture and fixtures	5 - 7 years
Molds and tooling	2 - 4 years
Leasehold improvements	Shorter of length of lease or 10 years

Shipping and handling costs

The consolidated financial statements reflect, for all periods presented, the adoption of the classification or disclosure requirements pursuant to Emerging Issued Task Force (EITF) 00-10, Accounting for Shipping and Handling Fees and Costs, which was effective in our fourth quarter of fiscal 2000. Consistent with EITF 00-10, we have historically classified income from freight charges to customers in Net sales. We classify shipping and handling costs in Selling, general and administrative expenses. Such costs amounted to approximately \$3,868,000 in 1999, \$8,127,000 in 2000 and \$11,940,000 in 2001.

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

Advertising

Production costs of commercials and programming are charged to operations in the year during which the production is first aired. The costs of other advertising, promotion and marketing programs are charged to operations in the year incurred. Advertising expense for the years ended December 31, 1999, 2000 and 2001, was approximately \$7,038,000, \$14,416,000, and \$11,026,000 respectively.

Income taxes

The Company does not file a consolidated return with its foreign subsidiaries. The Company files Federal and state returns and its foreign subsidiaries each file Hong Kong returns. Deferred taxes are provided on a liability method whereby deferred tax assets are recognized as deductible temporary differences and operating loss and tax credit carry-forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Translation of foreign currencies

Monetary assets and liabilities denominated in Hong Kong dollars or British Pounds Sterling are translated into United States dollars at the rate of exchange ruling at the balance sheet date. Transactions during the period are translated at the rates ruling at the dates of the transactions.

Profits and losses resulting from the above translation policy are recognized in the consolidated statements of operations.

Accounting for the impairment of long-lived assets

Long-lived assets, which include property and equipment, goodwill and intangible assets other than goodwill, are evaluated for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through the estimated undiscounted future cash flows from the use of these assets. When any such impairment exists, the related assets will be written down to fair value.

Goodwill and other intangible assets

Goodwill represents the excess purchase price paid over the fair market value of the assets of acquired toy companies. Goodwill has been amortized over 30 years on a straight-line basis. Beginning in fiscal 2002, goodwill and certain intangible assets will be written down on an impairment basis where losses in value will be recorded when and as material impairment has occurred in the underlying assets. Accumulated amortization at December 31, 2000 and 2001 totaled \$3,569,811 and \$6,577,121, respectively.

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

The carrying value of goodwill is based on management's current assessment of recoverability. Management evaluates recoverability using both objective and subjective factors. Objective factors include management's best estimates of projected future earnings and cash flows and analysis of recent sales and earnings trends. Subjective factors include competitive analysis and the Company's strategic focus.

Intangible assets other than goodwill consist of product technology rights and trademarks. Intangible assets are amortized on a straight-line basis, over five to thirty years, the estimated economic lives of the related assets. Accumulated amortization as of December 31, 2000 and 2001 was \$2,490,926 and \$3,461,113, respectively.

Stock split

The Board of Directors approved a common stock dividend of 1/2 share for each share of common stock outstanding to effect a three-for-two stock split of the Company's common stock, which was paid on November 4, 1999. All common stock and common stock equivalent shares and per share amounts have been adjusted retroactively to give effect to the split.

Earnings per share

The following table is a reconciliation of the weighted-average shares used in the computation of basic and diluted earnings per share for the periods presented:

	1999		
	Income	Weighted Average Shares	Per Share
Basic EPS

Note 3 Business Segments and Geographic Data

JAKKS Pacific is a worldwide producer and marketer of children's toys and related products, principally engaged in the design, development, production and marketing of traditional toys, including boys action figures, vehicles and playsets, craft and activity products, writing instruments, compounds, girls toys, and infant and preschool toys. The Company's reportable segments are North America Toys, International and Other.

The North America Toys segment, which includes the United States and Canada, and the International toy segment, which includes sales to non-North American markets, include the design, development, production and marketing of children's toys and related products. The Company also has an additional segment classified as Other, which sells various products to the specialty markets in the United States.

Segment performance is measured at the operating income level. All sales are made to external customers, and general corporate expenses have been attributed to the North America Toy segment, which is a dominant segment. Segment assets are comprised of accounts receivable and inventories, net of applicable reserves and allowances.

The accounting policies of the segments are described in Note 2.

Note 4 Acquisitions and Joint Venture

The Company owns a fifty percent interest in a joint venture with a company that develops, publishes and distributes interactive entertainment software for the leading hardware game platforms in the home video game market. The joint venture has entered into a license agreement under which it acquired the exclusive worldwide right to publish video games on all hardware platforms. Our investment is accounted for using the cost method due to the financial and operating structure of the venture and our lack of control over the joint venture. The Company's basis consists primarily of organizational costs and recoupable advances. The joint venture agreement provides for the Company to receive guaranteed preferred returns through June 30, 2006, subject to an annual minimum payments of \$2,600,000 through December 31, 2003, at varying rates of the joint venture's net sales depending on the cumulative unit sales and platform of each particular game. For periods after June 30, 2006, the amount of the preferred return will be subject to renegotiation between the parties. The preferred return is accrued in the quarter in which the licensed games are sold and the preferred return is earned. Our joint venture partner retains the financial risk of the joint venture and is responsible for the day-to-day operations, including development, sales and distribution, for which they are entitled to any remaining profits. During 1999, 2000 and 2001, the Company earned \$3,604,487, \$15,905,860 and \$6,675,428, respectively, in profit from the joint venture.

In June 1999, the Company purchased all of the outstanding shares of Berk Corporation (Berk) for \$3,269,450 in cash paid at closing.

The assets acquired and liabilities assumed from Berk were as follows:

Cash	\$ 478,972
Accounts receivable	869,050
Inventory	549,720
Prepays and deposits	73,367
Property and equipment	31,186
Goodwill	4,365,208
Liabilities assumed	(3,098,053)
	\$ 3,269,450

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

In October 1999, the Company acquired all of the stock of Flying Colors Toys, Inc. (Flying Colors) for \$52,879,182 in cash paid at closing. Contingent consideration includes an earn-out in an amount of up to \$4,500,000 in each of the three 12-month periods following the closing, if gross profits of Flying Colors branded products achieve certain prescribed levels in each of such periods. The maximum earn-out of \$4,500,000 was earned by the sellers in each of the earn-out periods ended September 30, 2000 and 2001. Of the \$4,500,000 earned in 2000, the amount of \$464,938 was deemed to be compensation and has been expensed in 2000. The remaining balance of \$4,035,062 and the 2001 earn-out has been recorded as goodwill.

The assets acquired and liabilities assumed from Flying Colors were as follows:

Cash	\$ 23,534
Accounts receivable, net of reserve of \$686,222	12,816,573
Inventory, net of reserve of \$2,774,017	11,052,983
Prepaid expenses	194,840
Property and equipment	1,943,025
Deferred income taxes	1,460,000
Non-compete agreement	1,000,000
Goodwill	32,081,192
Liabilities assumed	(7,692,965)
	<u>\$52,879,182</u>

In July 2000, the Company acquired all of the outstanding capital stock of Pentech International Inc. (Pentech) for an aggregate purchase price of approximately \$20.6 million, which was paid in cash on the closing of the transaction. In addition, the Company paid on the closing \$10.0 million to pay down certain indebtedness of Pentech, assumed liabilities of approximately \$25.5 million and incurred estimated legal and other acquisition costs of approximately \$1.2 million. Pentech designs, produces and markets licensed pens, markers, pencils, and other writing instruments, craft and activity kits, and related stationery products.

On December 27, 2001, the Company acquired all the outstanding stock of Kidz Biz Ltd., a United Kingdom company, and Kidz Biz Far East Limited, a Hong Kong corporation, for an aggregate purchase price of approximately \$12.4 million, which was paid by the issuance of 308,992 shares of the Company's common stock at a value of \$6.0 million and cash of \$6.4 million. The Company acquired operating assets of \$12.2 million and assumed liabilities of approximately \$13.2 million. Both the United Kingdom and Hong Kong based companies are distributors of toys and related products in the United Kingdom, Ireland and the Channel Islands.

The following unaudited pro forma information represents the Company's consolidated results of operations as if the acquisitions of Berk, Flying Colors and Pentech had occurred on January 1, 1999 and after giving effect to certain adjustments including the elimination of other income and expense items not attributable to on-going operations, interest and depreciation expense, and related tax effects. Such pro forma information does not purport to be indicative of operating results that

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

would have been reported had the acquisitions of Berk, Flying Colors and Pentech occurred on January 1, 1999 or future operating results.

	Year Ended December 31,	
	1999	2000
Net Sales	\$278,745,264	\$291,578,787
Net income	\$ 22,196,794	\$ 24,390,573
Basic earnings per share	\$ 1.60	\$ 1.28
Weighted average shares outstanding	13,879,304	19,059,544
Diluted earnings per share	\$ 1.40	\$ 1.20
Weighted average shares and equivalents outstanding	15,839,679	20,281,475

Note 5 Concentration of credit risk

Financial instruments that subject the Company to concentration of credit risk are cash and cash equivalents, marketable securities and accounts receivables. Cash equivalents consist principally of short-term money market funds. These instruments are short-term in nature and bear minimal risk. To date, the Company has not experienced losses on these instruments.

The Company performs on-going credit evaluations of its customers' financial condition, but does not require collateral to support domestic customer accounts receivables. Most goods shipped FOB Hong Kong or China are sold on irrevocable letter of credit basis.

Note 6 Accrued expenses

Accrued expenses consist of the following:

	2000	2001
Bonuses	\$ 2,230,563	\$ 2,381,698
Royalties and sales commissions	3,713,634	4,787,099
Hong Kong subsidiaries accruals	3,886,757	6,193,354
Other	2,708,336	4,706,574
	\$12,539,290	\$18,068,725

Note 7 Related party transactions

A director of the Company is a partner in the law firm that acts as counsel to the Company. The Company incurred legal fees and expenses to the law firm in the amount of approximately \$1,037,000 in 1999, \$975,000 in 2000 and \$1,129,000 in 2001.

As of December 31, 2001, there were two notes receivable from officers totaling \$1,974,000 issued at interest rates of 6.5% each, with interest payable on each April 28 and October 28 of each year, and principal payable at a maturity date of April 28, 2003. Additionally, there is a third note

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

receivable from an officer for \$250,000 issued at an interest rate of 7.0%, with interest and principal payable at a maturity date of May 12, 2002, except that all indebtedness under the loan will be forgiven if employment continues through such date.

Note 8 Long-term debt

Long-term debt consists of the following:

	2000	2001
Note Payable due in twenty-six quarterly payments with the final payment due April 1, 2004, with interest at 7% per annum	\$ 1,400,000	\$
Loan payable, due in sixty monthly payments with the final payment due December 4, 2006, with interest at 6.7% per annum		95,070
	<u>1,400,000</u>	<u>95,070</u>
Less current portion of long-term debt	400,000	22,560
	<u>1,000,000</u>	<u>\$72,510</u>
Long-term debt, net of current portion	<u>\$ 1,000,000</u>	<u>\$72,510</u>

The following is a schedule of payments for the loan payable:

2002	\$22,560
2003	17,805
2004	19,036
2005	20,350
Thereafter	15,319
	<u>\$95,070</u>

Note 9 Income taxes

The provision differs from the expense that would result from applying Federal statutory rates to income before taxes because of the inclusion of a provision for state income taxes and the income of the Company's foreign subsidiaries is taxed at a rate of 16.5% applicable in Hong Kong. In addition, the provision includes deferred income taxes resulting from adjustments in the amount of temporary differences. Temporary differences arise primarily from differences in timing in the deduction of state income taxes and the use of the straight-line method of depreciation for financial reporting purposes and accelerated methods of depreciation for tax purposes.

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

The Company does not file a consolidated return with its foreign subsidiaries. The Company files Federal and state returns and its foreign subsidiaries file Hong Kong and United Kingdom returns. Income taxes reflected in the accompanying consolidated statements of operations are comprised of the following:

	1999	2000	2001
Federal	\$4,280,650	\$ 4,979,188	\$2,595,989
State and local	1,350,000	1,112,798	1,064,843
Foreign	1,834,065	5,161,994	5,336,377
	<u>7,464,715</u>	<u>11,253,980</u>	<u>8,997,209</u>
Deferred	869,129	442,983	800,000
	<u>\$8,333,844</u>	<u>\$11,696,963</u>	<u>\$9,797,209</u>

	2000	2001
Deferred tax assets resulting from deductible temporary differences from loss carry-forwards, noncurrent	\$ 351,761	\$ 351,761
Deferred tax liabilities resulting from taxable temporary differences, noncurrent	(1,808,578)	(2,608,578)
	<u>\$ (1,456,817)</u>	<u>\$ (2,256,817)</u>

The Company's management concluded that a deferred tax asset valuation allowance as of December 31, 2000 and 2001 was not necessary.

A reconciliation of the statutory United States Federal income tax rate to the Company's effective income tax rate is as follows:

	1999	2000	2001
Statutory income tax rate	35%	35%	35%
State and local income taxes, net of Federal income tax effect	4	3	3
Effect of temporary differences and Hong Kong's lower tax rate	(28)	(25)	(28)
Income taxes on foreign earnings at rates other than the United States			
Statutory rate not subject to United States income taxes	16	16	16
	<u>27%</u>	<u>29%</u>	<u>26%</u>

The components of income before provision for income taxes are as follows:

	1999	2000	2001
Domestic	\$13,105,423	\$ 8,480,038	4,677,721
Foreign	17,198,270	31,854,320	33,352,389

\$30,303,693

\$40,334,358

\$38,030,110

Note 10 Credit Facility

On October 12, 2001, the Company entered into a Loan Agreement with a consortium of banks led by Bank of America, N.A. This agreement expires on October 12, 2004 and permits the

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

Company to borrow (and maintain obligations under outstanding letters of credit) up to an aggregate of \$50,000,000. Available borrowings under the facility are determined by applying specified advance rates to eligible domestic accounts receivable and inventory.

The Company is required to not have any outstanding borrowings in excess of \$30.0 million for a period of at least 30 consecutive days during the first fiscal quarter of each year of the agreement.

This Credit facility is secured by a lien on substantially all of our assets and contains customary financial and non-financial covenants which limit the ability for us to incur additional indebtedness, pay dividends or make other distributions, sell assets and enter into certain mergers or acquisitions. Amounts outstanding under this credit facility bears interest at 0.25% plus the greater of the Prime Rate or Federal Funds Rate plus 0.5%, and is subject to change based on certain financial ratios. As of December 31, 2001, the Company has no outstanding borrowings.

Note 11 Leases

The Company leases office, warehouse and showroom facilities and certain equipment under operating leases. Rent expense for the years ended December 31, 1999, 2000 and 2001 totaled \$737,340, \$769,070, and \$2,495,390, respectively. The following is a schedule of minimum annual lease payments.

2002	\$ 3,157,600
2003	3,005,262
2004	2,997,047
2005	2,946,910
2006	2,884,663
Thereafter	1,729,557
	<hr/>
	\$ 16,721,039
	<hr/>

Note 12 Common stock and preferred stock

The Company has 26,000,000 authorized shares of stock consisting of 25,000,000 shares of \$.001 par value common stock and 1,000,000 shares of \$.001 par value preferred stock.

During 2001, the Company issued 525,780 shares of common stock on exercise of options and warrants for a total of \$3,069,745 and 308,992 shares of common stock at a value of \$6,000,000 in connection with the Kidz Biz acquisition. As of December 31, 2001, 166,875 shares were reserved for issuance upon exercise of outstanding warrants granted in connection with a certain license agreement at an exercise price of \$6.67 per share.

During 2000, the Company issued 212,890 shares of common stock on exercise of options and warrants for a total of \$1,171,243. The Company repurchased 1,493,600 shares of common stock for a total of \$12,911,483.

During 1999, 6,810,955 shares of the Company's stock were issued in two separate offerings for a total of \$117,792,115. Additionally, the Company issued 1,019,469 shares of common stock on the exercise of stock options and warrants for a total of \$4,749,126 and 1,565,218 shares of common stock upon the conversion of convertible debentures totaling \$5,600,250. Certain common stockholders received an aggregate of \$570 in lieu of fractional shares relating to the 1999 common stock dividend.

In 1998, the Company sold 1,000 shares of its Series A 7% cumulative convertible preferred stock to two investors for \$4,731,152, net of issuance costs. In 1999, the holders of these shares converted such shares into 837,987 shares of common stock. Preferred stockholders received cumulative cash dividends of \$437,500 in 1999.

Note 13 Commitments

The Company has entered into various license agreements whereby the Company may use certain characters and properties in conjunction with its products. Such license agreements call for royalties to be paid at 1% to 12% of net sales with minimum guarantees and advance payments. Additionally, under one such license, the Company has committed to spend 12.5% of related net sales, not to exceed \$1,000,000, on advertising per year.

Future annual minimum royalty guarantees as of December 31, 2001 are as follows:

2002	\$ 3,208,095
2003	1,287,500
2004	1,096,000
2005	972,500
2006	970,000
Thereafter	3,999,000

Note 14 Stock option plan

Under its Third Amended and Restated 1995 Stock Option Plan (the Plan), the Company has reserved 3,725,000 shares of its common stock for issuance upon exercise of options granted under the Plan. Included in the reserved shares are 450,000 shares relating to the 2001 increase approved by the Company's stockholders. Under the Plan, employees (including officers), non-employee directors and independent consultants may be granted options to purchase shares of common stock. In 1999, 2000 and 2001 the fair value of each employee option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used: risk-free rate of interest of 6%; dividend yield of 0%; and expected lives of five years.

As of December 31, 2001, 470,426 shares were available for future grant. Additional shares may become available to the extent that options presently outstanding under the Plan terminate or expire unexercised. Stock option activity pursuant to the Plan is summarized as follows:

	Number of Shares	Weighted Average Exercise Price
Outstanding, December 31, 1998	1,365,300	\$ 5.86

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

The weighted average fair value of options granted to employees in 1999, 2000 and 2001 was \$9.12, \$7.23 and \$16.24 per share, respectively.

The following table summarizes information about stock options outstanding and exercisable at December 31, 2001:

Option Price Range	Outstanding			Exercisable	
	Number of Shares	Weighted Average Life	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
\$3.00 - \$26.00	2,313,556	4.11 years	\$9.97	849,613	\$7.08

Had the compensation cost for the Company's Plan been determined on a basis consistent with SFAS No. 123, the Company's net income and earnings per share (EPS) for 1999, 2000 and 2001 would approximate the pro forma amounts below, which are not indicative of future amounts:

	Years Ended December 31,					
	1999		2000		2001	
	As Reported	Pro Forma	As Reported	Pro Forma	As Reported	Pro Forma
SFAS No. 123 charge, net of tax	\$	\$ 1,178,025	\$	\$ 1,806,108	\$	\$ 1,498,495
Net income	21,969,849	20,791,824	28,637,395	26,831,287	28,232,901	26,734,406
Basic EPS	1.55	1.47	1.50	1.41	1.55	1.47
Diluted EPS	\$ 1.39	\$ 1.32	\$ 1.41	\$ 1.32	\$ 1.45	\$ 1.38

Note 15 Employee Pension Plan

The Company sponsors for its U.S. employees, a defined contribution plan under Section 401(k) of the Internal Revenue Code. The plan provides that employees may defer up to 15% of annual compensation, and that the Company will make a matching contribution equal to 50% of each employee's deferral, up to 5% of compensation. Employees may be eligible to participate in the Plan after they have completed three months of service. The Company may also make discretionary contributions to the Plan each year. Participants are immediately 100% vested in their salary reduction amounts contributed to the Plan, and vesting of the Company contributions is based on years of service, as follows:

Years of Service	Cumulative Percent Vested
1	20%
2	40
3	60
4	80
5	100

As of December 31, 2001, the Plan had not been qualified under the provisions of the Internal Revenue Code, and for the year then ended, the Company contributed \$227,390 in matching contributions to the Plan.

Table of Contents

JAKKS PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2001

Note 19 Recent Accounting Pronouncements

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 141, Business Combinations (SFAS 141) and Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets (SFAS 142). SFAS 141 is effective for business combinations initiated after June 30, 2001. SFAS 141 requires that all business combinations completed after its adoption be accounted for under the purchase method of accounting and establishes specific criteria for the recognition of intangible assets separately from goodwill. SFAS 142 will be effective for the Company on January 1, 2002 and primarily addresses the accounting for goodwill and intangible assets subsequent to their acquisition. Upon adoption of SFAS 142, goodwill and other intangible assets will no longer be amortized and will be tested for impairment at least annually at the reporting unit level.

Based on current levels of amortization expense, the Company estimates that the elimination of amortization expense will positively impact net income by approximately \$2.5 million, or approximately \$0.13 per common share (diluted), on an annual basis.

Note 20 Litigation

On or about March 26, 2001, Rose Art Industries, Inc. and Licensing International, Ltd. commenced an action against the Company in the United States District Court for the District of New Jersey in which they allege the Company's willful infringement of a patent owned by Licensing International and licensed to Rose Art through the Company's production and sale of Zyrofoam modeling compound. The plaintiffs seek injunctive relief, monetary damages in an unspecified amount, together with interest thereon, and reasonable attorneys' fees. The Company believes that their claims are without merit and intends vigorously to defend against their action. At this state in these proceedings, the Company is unable to predict the likely outcome of the action or its impact on its business, financial condition or results of operations. The Company is a party to, and certain property is the subject of, various pending claims and legal proceedings that routinely arise in the ordinary course of business, but the Company does not believe that any of these claims or proceedings will have a material effect on its business, financial condition or results of operations.

Note 21 Subsequent Event

On March 11, 2002, the Company acquired approximately 8,100,000 shares of common stock of Toymax International, Inc. (Toymax), representing approximately 64% of its outstanding shares. Consideration paid for the stock was approximately \$3.00 in cash and .0798 shares of the Company's common stock per share of Toymax International, Inc. stock, for an aggregate purchase price of approximately \$24,300,000 million in cash and 646,384 shares of the Company's common stock. The second phase of the acquisition is expected to be completed by the end of the second quarter of 2002, when the Company will purchase the remaining 4,100,000 outstanding shares of Toymax in a merger transaction. Consideration to be paid will be \$3.00 in cash and .0798 shares of the Company's common stock, subject to adjustment based on the average closing price of the Company's common stock for a 10-day period prior to the closing date of the merger.
