INTRODUCTORY NOTE

Luminent Mortgage Capital, Inc. ( our, we or us ) is providing information about its on-going business based on the events described in this Form 8-K Report.

Background

Subsequent to June 30, 2007, a number of material and adverse changes in the availability of financing for prime quality mortgage-related securities occurred and traditional lenders to the mortgage industry substantially reduced and, in some cases, eliminated debt financing to the industry. Consequently, we simultaneously experienced a significant increase in margin calls from our repurchase agreement counterparties and a decrease in the amount of financing our lenders would provide on given amounts of collateral, resulting in an unanticipated rapid and significant loss of liquidity.

Since August 6, 2007, we have publicly reported defaults under our master repurchase agreements, a default on our convertible senior notes, a program default on our asset-backed commercial paper, the suspension of dividends to our stockholders and the filing of various law suits against us. We have also incurred significant losses and expenses arising from these events that we are in the process of calculating and will report in our Form 10-Q Report for the quarter ended September 30, 2007.

Our Actions

We have completed several actions that are reported in this Form 8-K Report as steps that we believe will enhance our ability to conduct an ordinary course of business that includes investing in mortgage-related securities. The principal actions we have completed are as follows:

We have completed the sale of assets financed by our asset-backed commercial paper program, and we no longer have any outstanding commercial paper liabilities under our asset-backed commercial paper program.

We have repaid all of our warehouse lines of credit that were used to finance whole loan purchases, and we have no balances currently outstanding under our warehouse lines of credit.

We have either paid in full or negotiated settlement agreements for all but less than \$25.0 million of disputed repurchase agreement liabilities.

We expect to cure the events of default with respect to our convertible senior debt upon delivery of an officer's certificate to the trustee.

We have entered into an amended and restated definitive credit agreement with Arco Capital Corporation Ltd., or Arco, that provides us with a revolving liquidity line of credit of up to \$60.0 million to be used to stabilize existing repurchase agreements, to meet financing maturities and to provide working capital.

Arco has also provided a limited guarantee with regard to possible future excess margin deficit payments through the remainder of 2007 to support repurchase obligations we entered into as part of clearing our commercial paper liabilities.

We have reduced expenses by downsizing our work force, and we plan to close our San Francisco office by December 31, 2007.

We make reference to Risk Factors in our Form 10-K Report for the year ended December 31, 2006 and in our Form 10-Q Report for the quarter ended June 30, 2007.

Item 1.01. Entry into Material Definitive Agreement.

On September 26, 2007, we entered into a definitive credit agreement with Arco, which amended and restated our August 21, 2007 credit facility, or interim credit agreement, with Arco. The definitive credit agreement provides for a revolving credit facility in the amount of the lesser of up to \$60.0 million or 85% of eligible asset values as defined in the definitive credit agreement. Existing loans of approximately \$33.3 million under the interim credit agreement were combined with an additional borrowing of \$10.0 million on the closing date for an aggregate principal amount outstanding of \$43.3 million. The maturity date under the definitive credit agreement is September 26, 2012 or such earlier termination of the commitments as is provided in the definitive credit agreement. We may make voluntary prepayments and may become obligated to make mandatory prepayments under certain circumstances. Total availability under the definitive credit agreement will also be reduced by the amount of specified master repurchase agreement obligations between us or any of our subsidiaries as sellers and Arco and any affiliates or counterparties arranged by Arco as buyers in excess of the approximately \$64.9 million in such obligations entered into as of August 14, 2007. Approximately \$11 million in such additional repurchase agreement obligations existed as of the closing of the definitive credit agreement.

Interest on the loans made under the definitive credit agreement is payable at a rate equal to the sum of one-month LIBOR plus a margin. The applicable margin is 400 basis points for loans outstanding up to \$20.0 million, 425 basis points for loans outstanding in excess of \$20.0 million up to \$40.0 million and 450 basis points for loans outstanding in excess of \$40.0 million. We are obligated to pay a commitment fee quarterly at an annual rate of 0.5% of the daily average undrawn portion of the commitment under the definitive credit agreement. We may reduce or cancel the undrawn portion of the commitment as long as the reduction is at least \$5 million or whole multiples of \$500,000 in excess of that amount.

Arco may from time-to-time, in its sole discretion upon our request, provide guarantees or other direct or contingent credit support in respect of our obligations, which would constitute borrowings under the definitive credit agreement. For example, Arco has provided a limited guarantee with regard to possible future margin payments through the remainder of 2007 to support repurchase obligations we entered into as part of clearing our commercial paper liabilities. Any amounts Arco funds under that limited guarantee would constitute borrowings under the definitive credit agreement.

We have agreed to indemnify Arco against losses that Arco may incur under circumstances specified in the definitive credit agreement. The definitive credit agreement contains certain affirmative covenants and subjects us to certain negative covenants, including:

prohibitions on making certain investments;

incurring liens on any of our assets or revenues, except for pre-existing liens;  
creating certain other indebtedness;  
entering into any plan of merger, consolidation or liquidation;  
amending our charter or by-laws or changing our fiscal year;  
making certain restricted payments such as dividends or other distributions on our capital stock, with certain exceptions;  
making changes to the nature of our business;  
entering into transactions with affiliates;  
entering into certain contractual obligations;  
using proceeds of any loan under the definitive credit agreement to purchase margin stock;  
entering into any sale and leaseback transaction; or  
permitting our fixed charge coverage ratio, as defined in the definitive credit agreement for the twelve-month period ending on the last day of any fiscal quarter to be less than (a) 0.85 : 1.0 at September 30, 2007 and December 31, 2007, (b) 1.0 : 1.0 for any fiscal quarter with an end date from March 31, 2008 through December 31, 2008 and (c) 1.2 : 1.0 for all fiscal quarters thereafter.

Upon an event of default, as specified in the definitive credit agreement, Arco may declare the commitment terminated, declare all or any portion of the unpaid principal amount of outstanding loans due and payable and exercise all rights and remedies available under the definitive credit agreement and related documents described below. One specified event of default would occur if we were to undergo a change of control as defined in the definitive credit agreement.

Repayment of the loans under the definitive credit agreement is collateralized by a security interest in property owned by us or certain of our affiliates, and the loans are guaranteed by certain of our affiliates, pursuant to the terms of the amended and restated security and pledge agreement and the amended and restated subsidiary guarantee agreement. For more information regarding the terms of these agreements, see the definitive credit agreement, the amended and restated pledge agreement and the amended and restated subsidiary guarantee agreement which are filed as exhibits to this Form 8-K report and incorporated by reference into this Item 1.01.

We previously reported that we had entered into a warrant agreement with Arco, pursuant to which we issued warrants to Arco that entitle Arco to purchase up to a 49% voting interest and a 51% economic interest in us on a fully diluted basis at an exercise price of \$0.18 per common share, exercisable for a five-year period beginning August 30, 2007. Arco subsequently transferred the warrants to its wholly owned subsidiary, Arco LUM Holdings Ltd. For more information regarding the warrants, see our Form 8-K report filed with the SEC on August 22, 2007, which is incorporated by reference into this Item 1.01.
