**RISK FACTORS**

You should consider, in evaluating us, our business and whether to participate in this offering, the following risk factors in addition to the other information presented in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus to which we refer you for more detailed information on our business, industry and financial and corporate structure. Any of the following risks, as well as other risks and uncertainties, could harm the value of the Senior Notes directly or our business and financial results and thus indirectly cause the value of the Senior Notes to decline, which in turn could cause you to lose all or part of your investment. The risks below are not the only ones facing us or the Senior Notes. Additional risks not currently known to us or that we currently deem immaterial also may impair our business and cause the value or trading price of the Senior Notes to decline.

***We, FirstEnergy and its other subsidiaries rely on access to the credit and capital markets to finance a portion of our working capital requirements and support our liquidity needs. Access to these markets may be adversely affected by factors beyond our control, including turmoil in the financial services industry, volatility in securities trading markets and general economic downturns. In particular, recent disruptions in the variable-rate demand bond markets could require utilization of a significant portion of the sources of liquidity currently available to FirstEnergy and its subsidiaries, including us.***

We, FirstEnergy and its other subsidiaries rely upon access to the credit and capital markets as a source of liquidity for the portion of our working capital requirements not provided by cash from operations and to comply with various regulatory requirements. Market disruptions such as those currently being experienced in the United States and abroad may increase our cost of borrowing or adversely affect our ability to access sources of liquidity upon which we rely to finance our operations and satisfy our obligations as they become due. These disruptions may include turmoil in the financial services industry, including substantial uncertainty surrounding particular lending institutions and counterparties with which we do business, unprecedented volatility in the markets where our outstanding securities trade, and general economic downturns in the areas where we do business. If we, FirstEnergy and its other subsidiaries are unable to access credit at competitive rates, or if our short-term or long-term borrowing costs dramatically increase, our ability to finance our operations, meet our short-term obligations and implement our operating strategy could be adversely affected.

We and certain of our affiliates are obligors under approximately \$2.1 billion aggregate principal amount of pollution control revenue bonds that accrue interest in daily or weekly variable-rate interest modes that permit individual bondholders to tender their bonds for purchase. In late 2008, disruptions in the variable-rate bond markets caused unsuccessful remarketings of a portion of tendered bonds to occur. If these or similar disruptions were to recur and some or all of these variable-rate bonds were tendered and could not be remarketed for any reason (including without limitation due to an unsuccessful remarketing or the inability to replace expiring letters of credit supporting such bonds at competitive rates), a portion of our or the other applicable FirstEnergy subsidiaries' reimbursement obligations on letters of credit may need to be satisfied in the short-term with liquidity under the revolving credit and other facilities available to us, FirstEnergy and its other subsidiaries, reducing the amount of liquidity available for other purposes. This could adversely affect our financial condition and results of operations.

***Our electric utility operating affiliates in Ohio are currently in the midst of rate proceedings that have the potential to adversely affect the financial condition of FirstEnergy and its subsidiaries, including us.***

As required by Amended Substitute Senate Bill 221 ( SB221 ), Ohio's new electricity restructuring law, FirstEnergy's Ohio utility companies, Ohio Edison Company, The Cleveland Electric Illuminating Company and The Toledo Edison

Company (collectively, the Ohio Utilities ) filed on July 31, 2008 with the Public Utilities Commission of Ohio ( PUCO ) a comprehensive Electric Security Plan ( ESP ) and a Market Rate Offer ( MRO ). The ESP proposed, among other things, to phase in new generation rates for customers beginning in 2009 for up to a three-year period and to resolve a then and still pending distribution rate increase request. The PUCO modified the ESP on December 19, 2008. The Ohio Utilities withdrew the ESP as so modified on December 22, 2008 opting instead to keep the current rate plan in effect, as they believe SB221 requires. Because the Ohio Utilities do not own generating plants, they subsequently completed a

S-6

---

**Table of Contents**

competitive procurement process to ensure a reliable supply of electricity for customers who do not shop for the period January 5, 2009 through March 31, 2009.

Subsequent to the competitive procurement process, the PUCO ruled that the Ohio Utilities could not continue existing tariffs in total. Citing inconsistencies with Ohio law and potentially serious financial consequences that could result from the PUCO's ruling, on January 9, 2009, the Ohio Utilities filed a motion to stay, as well as an application for rehearing and an application for a fuel rider. On January 9, 2009, an order was entered permitting the Ohio Utilities to continue charging current rates until the PUCO rules on the pending filings.

The fuel rider is necessary to ensure that the Ohio Utilities recover costs related to their provider-of-last-resort obligation to their customers. The Ohio Utilities believe such recovery is mandated under Ohio and federal law. The Ohio Utilities have requested that the fuel rider remain in place until the PUCO authorizes either an ESP or an MRO which would provide the Ohio Utilities with revenue from retail rates to cover their purchased power costs expenses. Without the fuel rider, providing generation service to their customers at rates that are well below actual costs would cause the Ohio Utilities to incur a cash shortfall of approximately \$2 million per day. This would require the Ohio Utilities to make immediate and severe reductions in operating and capital expenses and could have other material adverse impacts on the financial condition and results of operations of not only the Ohio Utilities but also FirstEnergy. Any resulting deteriorating financial metrics of the Ohio Utilities and FirstEnergy may result in a downgrade of their credit ratings.

We and FirstEnergy's other non-Ohio operating utility subsidiaries are not obligated financially to support the Ohio Utilities or to serve any of their customers, but a material adverse impact on the Ohio Utilities and FirstEnergy as a result of the outcome of these regulatory proceedings in Ohio could result in similar adverse impacts on us, including our credit ratings.

***If an active trading market does not develop for the Senior Notes, you may be unable to sell the Senior Notes or to sell them at a price you deem sufficient.***

The Senior Notes will be new securities for which there is no established trading market. We do not intend to apply for listing of the Senior Notes on any national securities exchange or to arrange for the Senior Notes to be quoted on any automated system. We provide no assurance as to:

the liquidity of any trading market that may develop for the Senior Notes;

the ability of holders to sell their Senior Notes; or

the price at which holders would be able to sell their Senior Notes.

Even if a trading market develops, the Senior Notes may trade at higher or lower prices than their principal amount or purchase price, depending on many factors, including:

prevailing interest rates;

the number of holders of Senior Notes;

the interest of securities dealers in making a market for the Senior Notes; and

our operating results.

If a market for the Senior Notes does not develop, purchasers may be unable to resell the Senior Notes for an extended period of time. Consequently, a holder of Senior Notes may not be able to liquidate its investment readily, and the Senior Notes may not be readily accepted as collateral for loans. In addition, market-making activities will be subject to restrictions of the Securities Act of 1933, as amended, or the Securities Act, and the Securities Exchange Act of 1934, as amended, or the Exchange Act.

**Table of Contents****USE OF PROCEEDS**

We estimate that the net proceeds to us from the sale of the Senior Notes will be approximately \$ after giving effect to the estimated underwriting discount and our estimated expenses.

We expect to use a portion of the net proceeds to repay our short-term borrowings. As of September 30, 2008, we had short-term borrowings of \$315.3 million. As of January 13, 2009, the weighted average annual interest rate on these short-term borrowings was 1.10%.

**RATIO OF EARNINGS TO FIXED CHARGES**

The following table contains our consolidated ratio of earnings to fixed charges for the periods indicated. You should read these ratios in connection with our consolidated financial statements, including the notes to those statements, incorporated by reference in this prospectus supplement and the accompanying prospectus.

(1) Includes the effect of a charge of \$355 million from the impairment of goodwill. The earnings as defined in 2006 would have needed to increase by \$162,869,000 for the fixed charge ratio to be 1.0.

For purposes of the calculation of our consolidated ratio of earnings to fixed charges, earnings have been computed by adding to Income before extraordinary items, total interest and other charges, before reduction for amounts capitalized, provision for income taxes and the estimated interest element of rentals charged to income, and fixed charges include interest on long-term debt, other interest expense and the estimated interest element of rentals charged to income.

The following table sets forth the pro forma ratio of earnings to fixed charges for each of the periods indicated. The pro forma ratios give effect to the issuance of the Senior Notes offered hereby and the use of proceeds as described under the Use of Proceeds section of this prospectus supplement as if they occurred on December 31, 2007 and September 30, 2008, respectively.

default in the payment of interest due on such interest payment date, such defaulted interest shall be paid to the respective persons in whose names such outstanding Senior Notes are registered at the close of business on a date (the Subsequent Record Date ) not less than ten (10) days nor more than fifteen (15) days next preceding the date of payment of such defaulted interest, such Subsequent Record Date to be established by us by notice given by mail by or on behalf of us to the registered owners of Senior Notes not less than ten (10) days next preceding such Subsequent Record Date. Notwithstanding the foregoing, interest payable at maturity or upon earlier redemption will be payable to the person to whom principal shall be payable. If any interest payment date should fall on a day that is not a Business Day, then the interest payment shall be made on the next succeeding Business Day and no interest shall accrue for the intervening period with respect to the payment so deferred.

## **Ranking**

The Senior Notes will be our senior unsecured general obligations. They will rank equally with all our other existing and future senior unsecured and unsubordinated indebtedness, and will rank senior to all of our future subordinated indebtedness. As of September 30, 2008, we had approximately \$857.5 million of total indebtedness, of which \$13.7 million was senior secured indebtedness that would have been effectively senior to the Senior Notes.

## **Optional Redemption**

The Senior Notes will be redeemable, at any time in whole or from time to time in part, at our option, at a redemption price equal to the greater of:

100% of the principal amount of such Senior Notes being redeemed; and

the sum of the present values of the Remaining Scheduled Payments (as defined below) discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus           basis points,

plus, in the case of each of the above clauses, accrued and unpaid interest, if any, to the date of redemption.

**Business Day** means any day, other than a Saturday or Sunday, which is not a day on which the corporate trust office of the Trustee or banking institutions or trust companies in The City of New York, New York are generally authorized or required by law, regulation or executive order to remain closed.

**Comparable Treasury Issue** means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term ( Remaining Life ) of the Senior Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such Senior Notes.

**Comparable Treasury Price** means with respect to any redemption date, (1) the average of five Reference Treasury Dealer Quotations for such redemption date after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than five such Reference Treasury Dealer Quotations, the average of all such quotations.

**Independent Investment Banker** means one of the Reference Treasury Dealers appointed by us or, if such firm is unwilling or unable to select the Comparable Treasury Issue, an independent investment banking institution of national standing selected by us.

Reference Treasury Dealer means (1) each of Banc of America Securities LLC and Goldman, Sachs & Co. and their respective successors, provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in The City of New York (a Primary Treasury Dealer ), we shall substitute therefor another Primary Treasury Dealer; and (2) any other Primary Treasury Dealer selected by the Independent Investment Banker after consultation with us.

S-12

## **Table of Contents**

**Reference Treasury Dealer Quotations** means, with respect to each Reference Treasury Dealer and any redemption date, the average as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m. New York City time, on the third Business Day preceding such redemption date.

**Remaining Scheduled Payments** means, with respect to the Senior Notes to be redeemed, the remaining scheduled payments of principal and interest on the Senior Notes that would be due after the related redemption date but for such redemption. If such redemption date is not an interest payment date with respect to such Senior Notes, the amount of the next succeeding scheduled interest payment on those Senior Notes will be reduced by the amount of interest accrued on such Senior Notes to such redemption date.

**Treasury Rate** means, with respect to any redemption date,

the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) , or any successor publication which is published weekly by the Federal Reserve and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the Remaining Life, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or

if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

The Treasury Rate shall be calculated on the third Business Day preceding the redemption date.

Holders of Senior Notes to be redeemed will receive notice thereof by first-class mail at least 30 and not more than 60 days prior to the date fixed for redemption. If fewer than all of the Senior Notes are to be redeemed, the Trustee will select, not more than 60 days prior to the redemption date, the particular portions thereof for redemption from the outstanding Senior Notes by such method as the Trustee deems fair and appropriate. Any notice of redemption of the Senior Notes may be conditional on our depositing funds with the Trustee, or irrevocably directing the Trustee to apply moneys held by it, sufficient to pay the redemption price thereof, and if such funds are not so deposited or such direction is not given, such notice shall be of no effect.

In the event that less than all of the Senior Notes at the time outstanding are called for redemption, we shall not be required (a) to register any transfer or make any exchange of any such Senior Notes for a period of fifteen (15) days next preceding the mailing of the notice of redemption of any such Senior Notes, (b) to register any transfer or make any exchange of any such Senior Notes so called for redemption in its entirety or (c) to register any transfer or make any exchange of any portion of any such Senior Notes which has been called for redemption.

## **Covenants**

The indenture restricts us from incurring or assuming secured debt or entering into sale and lease-back transactions, except in certain circumstances. The accompanying prospectus describes these covenants (see Limitation on Liens and Limitation on Sale and Lease-Back Transactions in the accompanying prospectus) and other covenants contained in the indenture in greater detail and should be read prior to investing.

**Book-Entry**

***Global Notes***

The Senior Notes will be represented by a Global Certificate which will be issued in definitive, fully registered, book-entry form. The Global Certificate will be deposited with or on behalf of DTC and registered in the name of Cede & Co., as nominee of DTC.

***DTC, Clearstream and Euroclear***

Beneficial interests in the Global Certificate will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may hold interests in the Global Certificate through either DTC (in the United States), Clearstream Banking, société anonyme, Luxembourg, which we refer to as Clearstream, or Euroclear Bank S.A./N.V., as operator of the Euroclear System, which we refer to as Euroclear, in Europe, either directly if they are participants in such systems or indirectly through organizations that are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their U.S. depositaries, which in turn will hold such interests in customers' securities accounts in the U.S. depositaries' names on the books of DTC.

We understand that:

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered under Section 17A of the Exchange Act.

DTC holds securities that its participants deposit with DTC and facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates.

Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations.

DTC is owned by a number of its direct participants and by The New York Stock Exchange, Inc., the American Stock Exchange LLC and the Financial Industry Regulatory Authority, Inc. (successor to the National Association of Securities Dealers, Inc.).

Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly.

The rules applicable to DTC and its direct and indirect participants are on file with the SEC.

We understand that Clearstream is incorporated under the laws of Luxembourg as a professional depositary. Clearstream holds securities for its customers and facilitates the clearance and settlement of securities transactions between its customers through electronic book-entry changes in accounts of its customers, thereby eliminating the need for physical movement of certificates. Clearstream provides to its customers, among other things, services for

safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Section. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream customer either directly or indirectly.

**Table of Contents**

We understand that Euroclear was created in 1968 to hold securities for participants of Euroclear and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./ N.V., which we refer to as the Euroclear Operator, under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation, which we refer to as the Cooperative. All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear participants. Euroclear participants include banks (including central banks), securities brokers and dealers, and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

We understand that the Euroclear Operator is licensed by the Belgian Banking and Finance Commission to carry out banking activities on a global basis. As a Belgian bank, it is regulated and examined by the Belgian Banking and Finance Commission.

We have provided the descriptions of the operations and procedures of DTC, Clearstream and Euroclear in this prospectus supplement solely as a matter of convenience. These operations and procedures are solely within the control of those organizations and are subject to change by them from time to time. None of us, the underwriters or the Trustee takes any responsibility for these operations or procedures, and you are urged to contact DTC, Clearstream and Euroclear or their participants directly to discuss these matters.

We expect that under procedures established by DTC:

upon deposit of the Global Certificate with DTC or its custodian, DTC will credit on its internal system the accounts of direct participants designated by the underwriters with portions of the principal amounts of the Senior Notes; and

ownership of the Senior Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC or its nominee, with respect to interests of direct participants, and the records of direct and indirect participants, with respect to interests of persons other than participants.

The laws of some jurisdictions may require that purchasers of securities take physical delivery of those securities in definitive form. Accordingly, the ability to transfer interests in the Senior Notes represented by a Global Certificate to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in Senior Notes represented by a Global Certificate to pledge or transfer those interests to persons or entities that do not participate in DTC's system, or otherwise to take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC or its nominee is the registered owner of a Global Certificate, DTC or that nominee will be considered the sole owner or holder of the Senior Notes represented by that Global Certificate for all purposes under the indenture and under the Senior Notes. Except as provided below, owners of beneficial interests in a Global Certificate will not be entitled to have Senior Notes represented by that Global Certificate registered in their names, will not receive or be entitled to receive physical delivery of certificated Senior Notes and will not be considered the owners or holders thereof under the indenture or under the Senior Notes for any purpose, including with respect to the giving of any direction, instruction or approval to the Trustee. Accordingly, each holder owning a beneficial interest in a Global Certificate must rely on the procedures of DTC and, if that holder is not a direct or indirect participant, on the

procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of Senior Notes under the indenture or a Global Certificate.

## **Table of Contents**

Neither we nor the Trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of notes by DTC, Clearstream or Euroclear, or for maintaining, supervising or reviewing any records of those organizations relating to the Senior Notes.

Payments on the Senior Notes represented by the Global Certificate will be made to DTC or its nominee, as the case may be, as the registered owner thereof. We expect that DTC or its nominee, upon receipt of any payment on the Senior Notes represented by a Global Certificate, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the Global Certificate as shown in the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in the Global Certificate held through such participants will be governed by standing instructions and customary practice as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. The participants will be responsible for those payments.

Payments on the Senior Notes held beneficially through Clearstream will be credited to cash accounts of its customers in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the Terms and Conditions). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding through Euroclear participants.

Payments on the Senior Notes held beneficially through Euroclear will be credited to the cash accounts of its participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

### ***Clearance and Settlement Procedures***

Initial settlement for the Senior Notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds. Secondary market trading between Clearstream customers and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear, as applicable, and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream customers or Euroclear participants, on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by the U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to the U.S. depository to take action to effect final settlement on its behalf by delivering or receiving the Senior Notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream customers and Euroclear participants may not deliver instructions directly to their U.S. depositories.

Because of time-zone differences, credits of the Senior Notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the Business Day following the DTC settlement date. Such credits or any transactions in the Senior Notes settled during such processing will be reported to the relevant Clearstream customers or Euroclear participants on such Business Day. Cash received in Clearstream or Euroclear as a result of sales of the Senior

Notes by or through a Clearstream customer or a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures to facilitate transfers of the Senior Notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time.

***Certificated Notes***

We will issue certificated Senior Notes to each person that DTC identifies as the beneficial owner of the Senior Notes represented by a Global Certificate upon surrender by DTC of the Global Certificate if:

DTC notifies us that it is no longer willing or able to act as a depository for such Global Certificate or ceases to be a clearing agency registered under the Exchange Act, and we have not appointed a successor depository within 90 days of that notice or becoming aware that DTC is no longer so registered;

an event of default under the indenture has occurred and is continuing, and DTC requests the issuance of certificated Senior Notes; or

we determine not to have the Senior Notes represented by the Global Certificate.

Neither we nor the Trustee will be liable for any delay by DTC, its nominee or any direct or indirect participant in identifying the beneficial owners of the Senior Notes. We and the Trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee for all purposes, including with respect to the registration and delivery, and the respective principal amounts, of the certificated Senior Notes to be issued.

**Table of Contents****UNDERWRITING**

Banc of America Securities LLC, Goldman, Sachs & Co. and Scotia Capital (USA) Inc. are acting as joint book-running managers of this offering and representatives of the underwriters named below. Under the terms and subject to the conditions contained in an underwriting agreement dated the date hereof, the underwriters named below have severally agreed to purchase, and we have agreed to sell to them, the principal amount of Senior Notes set forth opposite each of their names below.

<b>Underwriters</b>	<b>Principal Amount of Notes</b>
Banc of America Securities LLC	\$
Goldman, Sachs & Co.	
Scotia Capital (USA) Inc.	
PNC Capital Markets LLC	
 Total	 \$ 300,000,000

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the Senior Notes offered hereby are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the Senior Notes offered hereby if any Senior Notes are taken. The offering of the Senior Notes by the underwriters is subject to the underwriters' receipt and acceptance of any order in whole or in part.

The underwriters initially propose to offer part of the Senior Notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and part to certain dealers at the public offering prices less a concession not in excess of % of the principal amount of the Senior Notes. Any underwriter may allow, and any dealer may re-allow, a concession not in excess of % of the principal amount of the Senior Notes to other underwriters or to certain dealers. After the initial offering of the Senior Notes, the offering price and other selling terms of the Senior Notes may from time to time be varied by the underwriters.

We estimate that we will incur offering expenses of approximately \$485,000.

We and the underwriters have agreed to indemnify each other against, or contribute to payments required to be made in respect of, certain liabilities, including liabilities under the Securities Act.

The Senior Notes are a new issue of securities with no established trading market. The Senior Notes will not be listed on any securities exchange or on any automated dealer quotation system. The underwriters have advised us that they presently intend to make a market for the Senior Notes. The underwriters are not obligated to make a market in the Senior Notes, however, and may cease market-making activities at any time without notice. We cannot give any assurance as to the liquidity of any trading market for the Senior Notes.

In order to facilitate the offering of the Senior Notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Senior Notes. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the Senior Notes for their own account. In addition, to cover

over-allotments or to stabilize the price of the Senior Notes, the underwriters may bid for, and purchase, the Senior Notes in the open market. Finally, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the Senior Notes in the offering if the syndicate repurchases previously distributed Senior Notes in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the Senior Notes above independent market levels. The underwriters are not required to engage in these activities and may end any of these activities at any time without notice.

With respect to our unaudited financial information for the three-month and nine-month periods ended September 30, 2008 and 2007, incorporated by reference in this prospectus supplement and the accompanying prospectus, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. **RATIO OF EARNINGS TO FIXED CHARGES**

The following table contains our consolidated ratio of earnings to fixed charges for the periods indicated. You should read these ratios in connection with our consolidated financial statements, including the notes to those statements, incorporated by reference in this prospectus.

	<b>Year Ended December 31,</b>					<b>Six Months Ended</b>	
	<b>2003</b>	<b>2004</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>	<b>2007</b>	<b>2008</b>
Consolidated Ratio of Earnings to Fixed Charges	3.25	3.26	2.64	(2.32)(1)	4.08	4.42	4.02

(1) The earnings as defined in 2006 would have needed to increase \$162,869,000 for the fixed charge ratio to be 1.0.

For purposes of the calculation of our consolidated ratio of earnings to fixed charges, earnings have been computed by adding to Income before extraordinary items total interest and other charges, before reduction for amounts capitalized, provision for income taxes and the estimated interest element of rentals charged to income, and fixed charges include interest on long-term debt, other interest expense, subsidiaries preferred stock dividend requirements and the estimated interest element of rentals charged to income.

### **DESCRIPTION OF DEBT SECURITIES**

The debt securities that we may offer from time to time by this prospectus will be our senior unsecured debt securities and will rank equally with all of our other unsecured and unsubordinated debt under an indenture, dated as of July 1, 1999, as supplemented, between us and The Bank of New York Mellon, as successor trustee. The indenture gives us broad authority to set the particular terms of each series of debt securities, including the right to modify certain of the terms contained in the indenture. The particular terms of a series of debt securities and the extent, if any, to which the particular terms of a series of debt securities and the extent, if any, to which such particular terms modify the terms of the indenture or otherwise vary from the terms and provisions set forth below will be described in the prospectus supplement relating to those debt securities.

## **Table of Contents**

The indenture contains the full text of the matters described in this section. Because this section is a summary, it does not describe every aspect of the debt securities or the indenture. This summary is subject to and qualified in its entirety by reference to all the provisions of the indenture, including definitions of terms used in the indenture. You should read the indenture incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. Whenever we refer to particular sections or defined terms of the indenture in this prospectus or in a prospectus supplement, these sections or defined terms are incorporated by reference herein or in the prospectus supplement. This summary also is subject to and qualified by reference to the description of the particular terms of the debt securities described in the applicable prospectus supplement or supplements. Certain capitalized terms used in this prospectus are defined in the indenture.

If applicable, the prospectus supplement relating to an issue of debt securities will describe any special United States federal income tax considerations relevant to those debt securities.

There is no requirement under the indenture that future issues of our debt securities be issued under the indenture. We will be free to use other indentures or documentation, containing provisions different from those included in the indenture or applicable to one or more issues of debt securities, in connection with future issues of other debt securities. The provisions of any such other indentures or documentation will be described in the applicable prospectus supplement.

## **General**

The indenture does not limit the aggregate principal amount of debt securities that we may issue under the indenture. The indenture provides that the debt securities may be issued in one or more series. The debt securities may be issued at various times and may have differing maturity dates and may bear interest at differing rates. We need not issue all debt securities of one series at the same time and, unless otherwise provided, we may reopen a series, without the consent of the holders of the debt securities of that series, for issuances of additional debt securities of that series.

Prior to the issuance of each series of debt securities, the terms of the particular securities will be specified in a supplemental indenture, a board resolution or one or more officers' certificates authorized pursuant to a board resolution. We refer you to the applicable prospectus supplement for a description of the following terms of the particular series of debt securities offered thereby:

the title of the debt securities;

any limit on the aggregate principal amount of the debt securities;

the date or dates on which the principal of and any premium on the debt securities will be payable;

the rate or rates at which the debt securities will bear interest, if any;

the currency or currency unit of payment if other than United States dollars;

the date from which interest, if any, on the debt securities will accrue, the dates on which interest, if any, will be payable, the date on which payment of interest, if any, will commence, and the record dates for any interest payments;

our right, if any, to extend interest payment periods and the duration of any extension;

any redemption, repayment or sinking fund provisions;

the place or places where the principal of and any premium and interest on the debt securities will be payable;

the denominations in which the debt securities will be issuable;

the index, if any, with reference to which the amount of principal of or any premium or interest on the debt securities will be determined;

## **Table of Contents**

any addition to or change in the events of default set forth in the indenture applicable to the debt securities and any change in the right of the trustee or the holders to declare the principal amount of the debt securities due and payable;

any addition to or change in the covenants set forth in the indenture; and

any other terms of the debt securities not inconsistent with the provisions of the indenture.

## **Events of Default**

The following constitute events of default under the indenture:

default in the payment of principal of and premium, if any, on any senior note when due and payable;

default in the payment of interest on any senior note when due, which default continues for 60 days;

default in the performance or breach of any of our other covenants or agreements in the senior notes or in the indenture and the continuation of the default for 90 days after we have received written notice of the default either from the trustee or from the holders of at least 33% in aggregate principal amount of the outstanding senior notes; and

certain events of bankruptcy, insolvency, reorganization, assignment or receivership relating to us.

If an event of default occurs and is continuing, either the trustee or the holders of a majority in aggregate principal amount of the outstanding senior notes may declare the principal amount of and interest on all of the senior notes to be due and payable immediately. At any time after an acceleration of the senior notes has been declared, and before any judgment or decree for the payment of the monies due has been obtained or entered, if we pay or deposit with the trustee a sum sufficient to pay all matured installments of interest and the principal and any premium which has become due on the senior notes otherwise than by acceleration and all amounts due to the trustee and all defaults have been cured or waived, then our payment or deposit will cause an automatic waiver of the event of default and its consequences and will cause an automatic rescission and annulment of the acceleration of the senior notes.

The indenture provides that the trustee generally will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of the senior notes unless those holders have offered to the trustee security or indemnity reasonably satisfactory to it. Subject to the provisions for indemnity and certain other limitations contained in the indenture, the holders of a majority in aggregate principal amount of the outstanding senior notes generally will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or of exercising any trust or power conferred on the trustee. The holders of a majority in aggregate principal amount of the outstanding senior notes generally will have the right to waive any past default or event of default (other than a default in the payment of principal or any premium or interest on the senior notes) on behalf of all holders of the senior notes. The indenture provides that no holder of the senior notes may institute any action against us under the indenture unless it has previously given to the trustee written notice of the occurrence and continuance of an event of default and unless the holders of a majority in aggregate principal amount of the senior notes then outstanding affected by the event of default have requested the trustee to institute the action and have offered the trustee reasonable indemnity, and the trustee has not instituted the action within 60 days of the request. Furthermore, no holder of the senior notes will be entitled to institute any action if and to the extent that the action would affect, disturb or prejudice the rights of other holders of the senior notes. Notwithstanding that the right of a holder of the senior notes to institute a proceeding with respect to the indenture is subject to certain

conditions precedent, each holder of a senior note has the right, which is absolute and unconditional, to receive payment of the principal of, and premium, if any, and interest on the senior note when due and to institute suit for the enforcement of such payment, and those rights may not be impaired without the consent of such holders.

The indenture provides that the trustee, within 90 days after the occurrence of a default with respect to the senior notes, is required to give holders of the senior notes notice of any default known to the trustee, unless cured or waived, but, except in the case of default in the payment of principal of, or premium, if any,

or interest on, any senior notes, the trustee may withhold notice if it determines in good faith that it is in the interest of holders of those senior notes to do so. We are required to deliver to the trustee each year an officer's certificate as to whether or not we are in compliance with the conditions and covenants under the indenture.

**Modification with Consent of Holders**

Modification and amendment of the indenture by an indenture or indentures supplemental thereto may be effected by us and the trustee with the consent of the holders of a majority in aggregate principal amount of the outstanding senior notes, provided that no modification or amendment may, without the consent of the holder of each outstanding senior note affected by such modification or amendment,

change the maturity date of such senior notes;

reduce the rate or extend the time of payment of interest on such senior notes;

reduce the principal amount of, or premium payable on, such senior notes;

change the coin or currency of any payment of principal of, or premium, if any, or interest on, such senior notes;

change the date on which such senior notes may be redeemed or repaid at the option of their holders or adversely affect the rights of a holder to institute suit for the enforcement of any payment on or with respect to such senior notes; or

modify the foregoing requirements or reduce the percentage of outstanding senior notes necessary to modify or amend the indenture or to waive any past default to less than a majority.

**Modification without Consent of Holders**
