On January 25, 2015, the following communication was distributed to members of the leadership team of the Rock-Tenn Company:

Leadership Talking Points

Thank you for taking a few minutes to talk. We have very exciting news to share. As you know, this morning at 6 a.m. ET, RockTenn and MWV (MeadWestvaco) announced that the two companies have agreed to combine.

This combination brings together two highly complementary organizations to create a new, more powerful company with leadership positions in the global consumer and corrugated packaging markets.

This is a terrific opportunity that combines and leverages the strengths of both MWV's and RockTenn's complementary market positions, business strategies and organizational capabilities. The combination allows us to achieve things together that neither company could achieve on its own.

As usual, the combination requires the approval of both MWV and RockTenn shareholders and is subject to receipt of certain regulatory approvals and other customary closing conditions.

The transaction is targeted to close in the second calendar quarter of 2015.

I'll walk through the details but first here are a few key bullets:

Steve Voorhees will serve as Chief Executive Officer and President of the combined company and will continue to work in the Norcross office

John Luke will serve as Non-Executive Chairman of the Board of Directors

The Board will be comprised of eight directors from RockTenn and six directors from MWV

Other key executives and their positions will be determined according to their strengths and will be named prior to closing

The combined company will maintain its principal executive offices in Richmond, Va., and will have operating offices in Norcross, Ga.

A new legal entity will be created and the new company or NewCo, will operate under a new name, which will be announced prior to closing

Now, here are some details on why this is such a great transaction for RockTenn and for MWV, but first, I want to let you know that we'll send these talking points right after the call so you can talk with your direct reports too.

The combination of MWV and RockTenn will create....

A leading global provider of consumer and corrugated packaging in a transaction with a combined equity value of \$16 billion. The combined company will be strategically focused on customers, markets, innovation and operational excellence.

To help put this in perspective, let me run through a few numbers for the combined company:

- o Pro forma net sales of \$15 billion
- o More than 40,000 employees
- o Approximately 325 operating locations in more than 30 countries
- o Consumer Packaging for attractive consumer goods categories
 - § 4 million tons of SBS, CNK, CRB production, including 1 million tons delivered to global markets
 - § Dispensing solutions for home, health and beauty markets
- o Corrugated packaging in North America, India and Brazil
 - § 8 million tons of containerboard, including 2 million tons to global markets
- o The external sales mix will be:
 - § Corrugated Sales – 50%
 - § Consumer Sales – 43%
 - § Specialty Chemical – 7%

NewCo will have a global manufacturing footprint with about 24% of revenues from international markets

And we'll have an investment grade credit rating with target leverage ratio of 2.25 to 2.5 times

MWV has announced a plan to spin off Specialty Chemicals, which would occur following closing

So why is this a good deal for RockTenn?

MWV's end-market positions in beverage, food, food service, and home, health & beauty combine well with RockTenn's strong consumer packaging platform. Together, the market insights and innovation shared across this expanded platform will help us build deeper customer partnerships, drive growth and greater financial performance.

RockTenn's leadership position in corrugated packaging in North America combines well with MWV's industrial packaging platform in Brazil and India. By linking these manufacturing and converting platforms, the new company will be well-positioned to serve the world's growing corrugated packaging needs.

NewCo will generate strong current cash flow returns and the opportunity to improve returns through investment in our current business

We'll be a company that continues to attract, develop and reward highly capable, motivated and collaborative people who want to apply their talents to build an even greater company

Shareholders of MWV and RockTenn will receive shares in the new company. MWV stockholders will receive 0.78 shares of NewCo for each share of MWV held. RockTenn shareholders will be entitled to elect to receive either (a) 1.00 shares of NewCo or (b) cash in an amount equal to the volume weighted average price of RockTenn common stock during a five-day period ending three trading days prior to closing for each share of RockTenn held.

The cash and stock elections by RockTenn shareholders will be subject to proration such that the resulting ownership of NewCo will be approximately 50.1% by MWV shareholders and 49.9% by RockTenn shareholders, and based on the shares outstanding on January 26, approximately 7% of RockTenn shares will receive cash in lieu of stock. The reason for this mechanism is to facilitate a spin-off of Specialty Chemicals on a tax-free basis following closing.

Integration planning activities have already started and will include leadership of both companies. John Luke and Steve Voorhees will work together to establish the most effective organization. Key executive positions will be determined according to their strengths.

Until this transaction is finalized, it is important for you to remember that MWV and RockTenn will continue to operate as separate companies in the marketplace.

I know you have many questions at this point. And you probably understand that there are many details still to be vetted. We will continue to provide updates as soon as possible throughout the process.

I would like each of you to schedule a call with your leadership teams.

An Inside the Rock announcement will go out to all employees shortly after the news release.

We'll have a home office meeting at 4 p.m. and will post the video to RockNet as soon as we can on Tuesday so employees can view.

Thank you all for joining the call and for all that you do for RockTenn. This is a great day for RockTenn and I'm delighted to have been able to speak with you.
