Item 8.01 Other Events.

On November 2, 2009 Aspen Exploration Corporation (Aspen) declared a cash dividend of \$0.73 per share. The dividend will be paid to stockholders of record on November 16, 2009, with the dividend being paid on or about December 2, 2009. A copy of the news release describing the dividend is attached hereto as Exhibit 99.1. The distribution follows the final settlement of the sale of Aspen s California oil and gas assets to Venoco, Inc., at which the parties made a number of immaterial adjustments to the purchase price paid at the June 30, 2009 closing, and made certain other payments that were not determined until after the closing. At the final settlement date Aspen received a net payment from Venoco, but was required to make various payments to third parties which ultimately resulted in a cash outflow from Aspen in an amount not considered to be material.

Aspen expects that after the payment of the dividend, and its anticipated operations through the end of the current calendar year, on December 31, 2009 it will have more than \$3 million of working capital remaining. Aspen currently intends to utilize its remaining funds to maintain its corporate status as a reporting issuer under the Securities Exchange Act of 1934 and to explore other business opportunities. Pending developments with respect to any business opportunities Aspen identifies, Aspen may later reevaluate its status and plans and consider alternatives to wind up its affairs. Aspen s projections and future plans described in this report are forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended) which are dependent upon a number of factors. There can be no assurance that Aspen s projections will prove to be accurate or that Aspen will be able to successfully execute or implement its operations as described herein.
