INDEPENDENT ACCOUNTANTS' REPORT

To the Board of Directors and Stockholders of
Coventure International Inc.
(formerly Liquidpure Corp.)
Calgary, AB Canada

We have reviewed the accompanying consolidated balance sheet of Coventure International Inc. as at April 30, 2002, the related consolidated statement of operations for the three-month and nine-month periods then ended, and the related consolidated statement of cash flows for the nine-month period then ended. These financial statements are the responsibility of the Corporation's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and of making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such consolidated financial statements for them to be in conformity with generally accepted accounting principles.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Income taxes

The Company uses the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on the difference between financial statement and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance in respect of amounts considered by management to be less likely than not of realization in future periods.

Foreign currency translation

Unless otherwise stated, all amounts are in United States dollars. The functional currency of the Company and its Subsidiary is the Canadian dollar. Hence, all asset and liability amounts denominated in Canadian dollars have been translated using the exchange rate as at April 30, 2002 and all expenses have been translated using the average exchange rate for each month. The rates used were as follows:

Item 2. Management's Discussion and Analysis or Plan of Operations

This report contains certain forward-looking statements. The Company wishes to advise readers that actual results may differ substantially from such forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by the statements, including, but not limited to, the following: the ability of the Company to search for appropriate business opportunities and subsequently acquire or merge with such entity, to meet its cash and working capital needs, the ability of the Company to maintain its existence as a viable entity, and other risks detailed in the Company's periodic report filings with the Securities and Exchange Commission.

The Company plans to be a North American provider of management consulting products and services to a network of regionally licensed operators.

A test of the Coventure Analysis methodologies was tested on a mid-sized firm located in Calgary, Alberta. The results proved that the methodology for assessing business dysfunction was sound, however management is refining how the presentation of the results to the client is approached. These adjustments are expected to result in the increased amount of sales of Coventure products and services following the Analysis.

Over the period the advertising of Coventure services was tested in a selection of regional publications targeting small business owners. Employment advertising for an Area Manager to engage in new business development in the test market was commenced. Two potential candidates were identified and brought in for second round interviews and a selection for the position was made in May.

During the next twelve months, the Company plans to: (1) raise \$250,000 through the sale of equity securities via a private placement before July 31, 2002; (2) refine, market and expand the Company's methodologies and initiate its licensing program, and (3) hire, train and implement outside sales personnel, analysts and consultants.
