Item 5. Other Events and Required FD Disclosure

On June 21, 2004, the registrant announced that an interim safety analysis by an independent data monitoring committee (IDMC) for its Phase IIb study of Pivanex in non-small cell lung cancer has identified significant safety issues in the combination treatment of Pivanex with docetaxel. As a result, the registrant has discontinued treatment with the combination regimen for the remaining patients on study. The registrant also plans to withhold further treatment and enrollment in the open data Phase IIa studies in CLL and melanoma until further analysis of the data from the Phase IIb study is available.

A copy of the press release dated June 21, 2004 is filed herewith as Exhibit 99.1.
